HAWKINS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and, accordingly, do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. These statements should be read in conjunction with the consolidated financial statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended April 1, 2012, previously filed with the Securities and Exchange Commission (SEC). In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to present fairly our financial position and the results of our operations and cash flows for the periods presented. All adjustments made to the interim condensed consolidated financial statements were of a normal recurring nature.

The accounting policies we follow are set forth in Item 8. Financial Statements and Supplementary Data, Note 1 Nature of Business and Significant Accounting Policies to our consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended April 1, 2012 (fiscal 2012) filed with the SEC on June 1, 2012.

The results of operations for the period ended September 30, 2012 are not necessarily indicative of the results that may be expected for the full year.

Note 2 Earnings per Share

Basic earnings per share (EPS) are computed by dividing net earnings by the weighted-average number of common shares outstanding. Diluted EPS includes the incremental shares assumed to be issued upon the exercise of stock options and the incremental shares assumed to be issued as performance units and restricted stock. Basic and diluted EPS were calculated using the following:

	Three mon	ths ended	Six month	is ended
	September 30, 2012	October 2, 2011	September 30, 2012	October 2, 2011
Weighted-average common shares outstanding basic	10,458,922	10,322,768	10,444,898	10,314,973
Dilutive impact of stock options, performance units, and restricted stock	60,478	42,604	68,315	47,874
Weighted-average common shares outstanding diluted	10,519,400	10,365,372	10,513,213	10,362,847

For the periods ended September 30, 2012 and October 2, 2011, there were no shares or stock options excluded from the calculation of weighted-average common shares for diluted EPS.

Note 3 Discontinued Operations

In February 2009, we agreed to sell our inventory and entered into a marketing agreement regarding the business of our Pharmaceutical segment, which provided pharmaceutical chemicals to retail pharmacies and small-scale pharmaceutical manufacturers. The agreement provided for annual payments based on a percentage of gross profit on future sales. We have no remaining obligations to fulfill under the agreement. All required payments under the agreement have been received with the final payment of \$1.3 million received in the first quarter of fiscal 2013, generating a nominal gain in that quarter. We recorded a gain of approximately \$0.3 million before taxes for the three months ended October 2, 2011 and approximately \$0.9 million before taxes for the six months ended October 2, 2011. The results of the Pharmaceutical segment have been reported as discontinued operations for all periods presented.

Note 4 Cash and Cash Equivalents and Investments

The following table presents information about our financial assets and liabilities that are measured at fair value on a recurring basis, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value.

n

	Sept	ember 30,			
(In thousands)		2012	Level 1	Level 2	Level 3
Assets:					
Cash	\$	29,707	\$ 29,707	\$	\$
Certificates of deposit		25,442		25,442	
Money market securities					

Description

	I	April 1,					
(In thousands)		2012	Level 1	I	Level 2	Level :	3
Assets:							
Cash	\$	28,006	\$ 28,006	\$		\$	
Certificates of deposit		17,349			17,349		
Money market securities		560	560				

Our financial assets that are measured at fair value on a recurring basis are certificates of deposit (CD s), with maturities ranging from three months to two years which fall within valuation technique Level 2. The CD s are classified as investments in current assets and noncurrent assets on the Condensed Consolidated Balance Sheets. As of September 30, 2012, the CD s in current assets had a fair value of \$17.9 million, and in noncurrent assets, the CD s had a fair value of \$7.5 million.

The carrying value of cash and cash equivalents accounts approximates fair value, as maturities are three months or less. We did not have any financial liability instruments subject to recurring fair value measurements as of September 30, 2012.

Note 5 Inventories

Inventories at September 30, 2012 and April 1, 2012 consisted of the following:

(In thousands)	September 30, 2012	Apı	ril 1, 2012
Finished goods (FIFO basis)	\$ 39,128	\$	35,072
LIFO reserve	(7,613)		(7,439)
Net inventory	\$ 31,515	\$	27,633

The first in, first out (FIFO) value of inventories accounted for under the last in, first out (LIFO) method was \$33.1 million at September 30, 2012 and \$30.6 million at April 1, 2012. The remainder of the inventory was valued and accounted for under the FIFO method.

The LIFO reserve increased \$0.1 million during the three months ended September 30, 2012 and during the three months ended October 2, 2011. During the six months ended September 30, 2012, the LIFO reserve increased \$0.2 million and for the six months ended October 2, 2011 the LIFO reserve increased \$0.4 million as a result of the changes in projected inventory costs, mix and volumes. The valuation of LIFO inventory for interim periods is based on our estimates of year-end inventory levels and costs.

Note 6 Goodwill and Intangible Assets

The carrying amount of goodwill as of September 30, 2012 and at April 1, 2012 was \$6.5 million.

Intangible assets consist primarily of customer lists, trademarks, trade secrets and non-compete agreements classified as finite life and trade names classified as indefinite life, related to business acquisitions. A summary of our intangible assets as of September 30, 2012 and April 1, 2012 were as follows:

(In thousands)	s Carrying mount	September 30, 2012 Accumulated Amortization		Net
Finite-life intangible assets				
Customer relationships	\$ 5,508	\$	(843)	\$ 4,665
Trademark	1,240		(212)	1,028
Trade secrets	962		(577)	385
Carrier relationships	800		(137)	663
Other finite-life intangible assets	339		(323)	16
Total finite-life intangible assets	8,849		(2,092)	6,757
Indefinite-life intangible assets	1,227		(=,=,=)	1,227
Total intangible assets	\$ 10,076	\$	(2,092)	\$ 7,984
(In thousands)	Gross Carrying Amount		ril 1, 2012 cumulated nortization	Net
Finite-life intangible assets				
Customer relationships	\$ 5,508	\$	(706)	\$ 4,802
Trademark	1,240		(150)	1,090
Trade secrets	862		(521)	341
Carrier relationships	800		(96)	704
Other finite-life intangible assets	339		(317)	22
Total finite-life intangible assets	8,749		(1,790)	6,959
Indefinite-life intangible assets	1,227			1,227
Total intangible assets				

Note 7 Income Taxes

In the preparation of our condensed consolidated financial statements, management calculates income taxes based upon the estimated effective rate applicable to operating results for the full fiscal year. This includes estimating the current tax liability as well as assessing differences resulting from different treatment of items for tax and book accounting purposes. These differences result in deferred tax assets and liabilities, which are recorded on the condensed consolidated balance sheet. These assets and liabilities are analyzed regularly and management assesses the likelihood that deferred tax assets will be recovered from future taxable income. We record any interest and penalties related to income taxes as income tax expense in the condensed consolidated statements of income.

We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

Note 8 Accumulated Other Comprehensive Loss

Components of accumulated other comprehensive loss were as follows:

	Septem	April 1,		
(In thousands)	2012		2	2012
Unrealized gain (loss) on:				
Available-for-sale investments	\$	5	\$	(1)
Post-retirement plan liability		(44)		(122)
Accumulated other comprehensive loss	\$	(39)	\$	(123)

Note 9 Share-Based Compensation

Stock Option Awards. The following table represents the stock option activity for the six months ended September 30, 2012:

	Outsta	Outstanding Weighted- Average Exercise		cisable Weighted- Average Exercise
	Shares	Price	Shares	Price
Outstanding at beginning of period	46,665	\$ 19.01	9,333	\$ 15.43
Granted				
Vested			37,332	19.90
Exercised	(18,666)	17.67	(18,666)	17.67
Forfeited or expired				
Outstanding at end of period	27,999	\$ 19.90	27,999	\$ 19.90

Compensation expense for the three and six months ended September 30, 2012 and October 2, 2011 related to stock options was not material.

Performance-Based Restricted Stock Units. Our Board of Directors (the Board) approved a performance-based equity compensation arrangement for our executive officers during the first quarters of each of fiscal 2013 and 2012. These performance-based arrangements provide for the grant of performance-based restricted stock units that represent a possible future issuance of restricted shares of our common stock based on our pre-tax income target for the applicable fiscal year. The actual number of restricted shares to be issued to each executive officer will be determined when our final financial information becomes available after the applicable fiscal year and will be between zero shares and 53,193 shares in the aggregate for fiscal 2013. The restricted shares issued will fully vest two years after the last day of the fiscal year on which the performance is based. We are recording the compensation expense for the outstanding performance share units and then-converted restricted stock over the life of the awards.

The following table represents the restricted stock activity for the six months ended September 30, 2012:

	Shares	Avera	eighted- age Grant Fair Value
Outstanding at beginning of period	33,321	\$	35.39
Granted	29,923		33.01
Vested			
Forfeited or expired			

Edgar Filing: HAWKINS INC - Form 10-Q

Outstanding at end of period

63,244

\$

34.26

We recorded compensation expense of \$0.3 million and \$0.6 million related to performance share units and restricted stock for the three and six months ended September 30, 2012, respectively. We recorded compensation expense of \$0.2 million and \$0.4 million related to performance share units and restricted stock for the three and six months ended October 2, 2011, respectively. Substantially all of the compensation expense was recorded in selling, general and administrative expenses in the Condensed Consolidated Statements of Income.

10

Restricted Stock Awards. As part of their retainer, each non-employee director receives an annual grant of restricted stock for their Board services. The restricted stock awards are expensed over the requisite vesting period, which is one year from the date of issuance, based on the market value on the date of grant. The following table represents the Board s restricted stock activity for the six months ended September 30, 2012:

	Shares	Aver	eighted- age Grant Fair Value
Outstanding at beginning of period	6,120	\$	34.31
Granted	5,724		36.65
Vested	(6,120)		34.31
Forfeited or expired			
Outstanding at end of period	5,724	\$	36.65

Compensation expense for the three months ended September 30, 2012 and October 2, 2011 related to restricted stock awards to the Board was \$0.1 million. Compensation expense for the six months ended September 30, 2012 and October 2, 2011 related to restricted stock awards to the Board was \$0.1 million.

Note 10 Employee Pension Plans

Multiemployer pension plan. We participate in the Central States, Southeast and Southwest Areas Pension Fund (CSS), a union-sponsored, collectively bargained multiemployer pension plan. Our participation is pursuant to two collective bargaining agreements that expire in February 2013. Contributions are determined in accordance with the provisions of negotiated labor contracts and generally are based on the number of hours worked. The risks of participating in multiemployer pension plans are different from single-employer plans in the following aspects: (i) assets contributed to a multiemployer plan by one employer may be used to provide benefits to employees of other participating employers; (ii) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers; and (iii) if we stop participating in the multiemployer plan, we may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

Based upon the most recent information available from the trustees managing CSS, our share of the unfunded vested benefit liability for the plan was estimated to be approximately \$10.0 million if the withdrawal had occurred in calendar year 2012, an increase from an estimate of approximately \$7.9 million if the withdrawal had occurred in calendar year 2011. These estimates were calculated by the trustees managing CSS. Although we believe the most recent plan data available from CSS was used in computing the 2012 estimate, the actual withdrawal liability amount is subject to change based on, among other things, the plan s investment returns and benefit levels, interest rates, financial difficulty of other participating employers in the plan such as bankruptcy, and continued participation by the company and other employers in the plan, each of which could impact the ultimate withdrawal liability. If withdrawal liability were to be triggered, we would have the option to make payments over a period of 20 years instead of paying the withdrawal liability in a lump sum.

Note 11 Litigation, Commitments and Contingencies

Litigation We are a party from time to time in litigation arising in the ordinary course of our business. Legal fees associated with such matters are expensed as incurred.

On June 15, 2012, we entered into a settlement agreement with ICL Performance Products LP (ICL), a chemical supplier to us, pursuant to which we mutually resolved the previously disclosed litigation and all disputes among us. The settlement agreement provides for a cash payment by us to ICL and provides that both parties will enter into new contracts for the supply by ICL of certain chemicals to us. Our obligations under the settlement agreement resulted in a \$3.2 million charge to pretax income recorded in cost of sales (approximately \$2.0 million after tax) for the fiscal quarter ended July 1, 2012.

Note 12 Segment Information

We have two reportable segments: Industrial and Water Treatment. The accounting policies of the segments are the same as those described in the summary of significant accounting policies as disclosed in our fiscal 2012 Annual Report on Form 10-K. Product costs and expenses for each segment are based on actual costs incurred along with cost allocation of shared and centralized functions. We evaluate performance based on profit or loss from operations before income taxes not including nonrecurring gains and losses. Reportable segments are defined by product and type of customer. Segments are responsible for the sales, marketing and development of their products and services. The segments do not have separate accounting, administration, customer service or purchasing functions. There are no intersegment sales and no operating segments have been aggregated. Given our nature, it is not practical to disclose revenues from external customers for each product or each group of similar products. No customer represents ten percent or more of our revenue. Sales are primarily within the United States and all assets are located within the United States.

				Water	
Reportable Segments (In thousands)	I	ndustrial	Tr	eatment	Total
Three months ended September 30, 2012:					
Sales	\$	57,214	\$	29,946	\$ 87,160
Gross profit		10,089		9,107	19,196
Operating income		5,651		6,090	11,741
Three months ended October 2, 2011:					
Sales	\$	61,338	\$	26,532	\$ 87,870
Gross profit		10,854		7,896	18,750
Operating income		5,786		5,120	10,906
Six months ended September 30, 2012:					
Sales	\$	119,365	\$	57,894	\$ 177,259
Gross profit		17,365		17,138	34,503

Sales	\$	124,905	\$	51,559	\$ 176,464
Gross profit		21,573		15,104	36,677
Operating income		11,428		9,548	20,976

12

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS The following is a discussion and analysis of our financial condition and results of operations for the three and six months ended September 30, 2012 as compared to October 2, 2011. This discussion should be read in conjunction with the Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements included in this Form 10-Q and Item 8 of our Annual Report on Form 10-K for the fiscal year ended April 1, 2012 (fiscal 2012). References to fiscal 2013 refer to the fiscal year ending March 31, 2013.

Overview

We derive substantially all of our revenues from the sale of bulk and specialty chemicals to our customers in a wide variety of industries. We began our operations primarily as a distributor of bulk chemicals with a strong customer focus. Over the years we have maintained our strong customer focus and have expanded our business by increasing our sales of value-added specialty chemical products, including repackaging, blending and manufacturing certain products. In recent years, we expanded the sales of our higher-margin blended and manufactured products.

We have continued to invest in growing our business. During fiscal 2012, we purchased a 28-acre parcel of land in Rosemount, Minnesota and began construction of a new facility on the site, which is expected to be operational by the end of fiscal 2013. The site provides capacity for future business growth and lessens our dependence on our flood-prone sites on the Mississippi River. While we expect to transfer some blending and manufacturing activity to the Rosemount site, we do not intend to close any sites we currently operate.

We seek to maintain relatively constant gross profit dollars on each of our products as the cost of our raw materials increase or decrease. Since we expect that we will continue to experience fluctuations in our raw material costs and resulting prices in the future, we believe that gross profit dollars is the best measure of our profitability from the sale of our products. If we maintain relatively stable profit dollars on each of our products, our reported gross profit percentage will decrease when the cost of the product increases and will increase when the cost of the product decreases.

On June 15, 2012, we entered into a settlement agreement with ICL Performance Products LP (ICL), a chemical supplier to us, pursuant to which we mutually resolved the previously disclosed litigation and all disputes among us. The settlement agreement provides for a cash payment by us to ICL and provides that both parties will enter into new contracts for the supply by ICL of certain chemicals to us. Our obligations under the settlement agreement resulted in a \$3.2 million charge to pretax income recorded in cost of sales (approximately \$2.0 million after tax) for the fiscal quarter ended July 1, 2012.

We use the last in, first out (LIFO) method for valuing substantially all of our inventory, which causes the most recent product costs to be recognized in our income statement. The valuation of LIFO inventory for interim periods is based on our estimates of fiscal year-end inventory levels and costs. The LIFO inventory valuation method and the resulting cost of sales are consistent with our business practices of pricing to current commodity chemical raw material prices. We recorded a \$0.1 million increase in our LIFO reserve for the three months ended September 30, 2012 and \$0.2 million increase for the six months ended September 30, 2012, which decreased our gross profit in those periods by those amounts. We recorded a \$0.1 million increase in our LIFO reserve for the three months ended October 2, 2011, and \$0.4 million increase for the six months ended October 2, 2011, which decreased our gross profit in those periods by those amounts.

13

Results of Operations

The following table sets forth the percentage relationship of certain items to sales for the period indicated:

	Three months ended		Six montl	ns ended
	September 30, 2012	October 2 2011	September 30, 2012	October 2 2011
Sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	(78.0)	(78.7)	(80.5)	(79.2)
Gross profit	22.0	21.3	19.5	20.8
Selling, general and administrative expenses	(8.6)	(8.9)	(8.8)	(8.9)
Operating income	13.4	12.4	10.7	11.9
Investment income				
Income from continuing operations before income taxes	13.4	12.4	10.7	11.9
Provision for income taxes	(5.2)	(4.8)	(4.1)	(4.5)
Income from continuing operations	8.2	7.6	6.6	7.4
Income from discontinued operations, net of tax		0.2		0.3
Net income	8.2%	7.8%	6.6%	7.7%

Three Months Ended September 30, 2012 Compared to the Three Months Ended October 2, 2011

Sales

Sales decreased \$0.7 million, or 0.8%, to \$87.2 million for the three months ended September 30, 2012 as compared to \$87.9 million in the same period of the prior year. Sales of bulk chemicals, including caustic soda, were approximately 24% of sales during the three months ended September 30, 2012 as compared to 21% during the same period of the prior year.

Industrial Segment. Industrial segment sales decreased \$4.1 million, or 6.7%, to \$57.2 million for the three months ended September 30, 2012 as compared to the same period of the prior year. The decrease in sales was primarily due to a shift in product mix to more bulk products, which carry lower per-unit selling prices.

Water Treatment Segment. Water Treatment segment sales increased \$3.4 million, or 12.9%, to \$29.9 million for the three months ended September 30, 2012 as compared to the same period of the prior year. The increase in sales was primarily due to favorable weather conditions, volume growth in our new and many of our existing branches, as well as higher selling prices.

Gross Profit

Gross profit was \$19.2 million, or 22.0% of sales, for the three months ended September 30, 2012, as compared to \$18.8 million, or 21.3% of sales, for the same period of the prior year. The LIFO method of valuing inventory decreased gross profit by \$0.1 million for each of the three months ended September 30, 2012 and October 2, 2011.

Industrial Segment. Gross profit for the Industrial segment was \$10.1 million, or 17.6% of sales, for the three months ended September 30, 2012, as compared to \$10.9 million, or 17.7% of sales, for the same period of the prior year. The LIFO method of valuing inventory decreased gross profit in this segment by \$0.1 million for each of the three months ended September 30, 2012 and October 2, 2011. The \$0.8 million decline in gross profit was primarily due to continued pricing pressures which led to lower per-unit profits.

Water Treatment Segment. Gross profit for the Water Treatment segment was \$9.1 million, or 30.4% of sales, for the three months ended September 30, 2012, as compared to \$7.9 million, or 29.8% of sales, for the same period in the prior year. The increase in gross profit was

Edgar Filing: HAWKINS INC - Form 10-Q

primarily due to increased volumes and higher per-unit margins across most product lines. The LIFO method of valuing inventory decreased gross profit in this segment nominally for the three months ended September 30, 2012 and October 2, 2011.

14

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$7.5 million, or 8.6% of sales, for the three months ended September 30, 2012 as compared to \$7.8 million, or 8.9% of sales, for the three months ended October 2, 2011, with slightly higher selling costs due to additional sales staffing offset by lower administration expenses in the period.

Operating Income

Operating income was \$11.7 million for the three months ended September 30, 2012 and \$10.9 million for the three months ended October 2, 2011. Operating income for the Industrial segment decreased \$0.1 million, while the operating income for the Water Treatment segment increased \$0.9 million.

Investment Income

Investment income was not material during the three months ended September 30, 2012 and October 2, 2011.

Provision for Income Taxes

Our effective income tax rate was 38.6% for the three months ended September 30, 2012 and October 2, 2011, respectively. The effective tax rate is impacted by projected levels of taxable income, permanent items, and state taxes.

Six Months Ended September 30, 2012 Compared to the Six Months Ended October 2, 2011

Sales

Sales increased \$0.8 million, or 0.5%, to \$177.3 million for the six months ended September 30, 2012 as compared to \$176.5 million in the same period of the prior year. Sales of bulk chemicals, including caustic soda, were approximately 22% of sales during the six months ended September 30, 2012 as compared to 21% during the same period of the prior year.

Industrial Segment. Industrial segment sales decreased \$5.5 million, or 4.4%, to \$119.4 million for the six months ended September 30, 2012 as compared to the same period of the prior year. The decrease in sales was primarily due to reduced volumes and a shift in product mix to more bulk products, which carry lower per-unit selling prices.

Water Treatment Segment. Water Treatment segment sales increased \$6.3 million, or 12.3%, to \$57.9 million for the six months ended September 30, 2012 as compared to the same period of the prior year. The increase in sales was primarily due to favorable weather conditions, volume growth in our new and many of our existing branches, as well as higher selling prices.

Gross Profit

Gross profit was \$34.5 million, or 19.5% of sales, for the six months ended September 30, 2012, as compared to \$36.7 million, or 20.8% of sales, for the same period of the prior year. Gross profit was adversely impacted by the \$3.2 million charge resulting from the ICL litigation settlement in the first quarter of the current fiscal year, which charge constituted 1.8% of sales for the six month period. The LIFO method of valuing inventory decreased gross profit by \$0.2 million for the six months ended September 30, 2012 and by \$0.4 million for the same period of the prior year.

Industrial Segment. Gross profit for the Industrial segment was \$17.4 million, or 14.5% of sales, for the six months ended September 30, 2012, as compared to \$21.6 million, or 17.3% of sales, for the same period of the prior year. Gross profit for this segment was negatively impacted by the \$3.2 million charge resulting from the ICL litigation settlement, which charge constituted 2.7% of sales for this segment for the six month period. The LIFO method of valuing inventory decreased gross profit in this segment by \$0.1 million for the six months ended September 30, 2012 and by \$0.3 million for the same period of the prior year. The remainder of the decline was primarily due to reduced volumes and pricing pressures which led to lower per-unit profits.

Water Treatment Segment. Gross profit for the Water Treatment segment was \$17.1 million, or 29.6% of sales, for the six months ended September 30, 2012, as compared to \$15.1 million, or 29.3% of sales, for the same period in the prior year. The increase in gross profit was primarily due to increased volumes and higher per-unit margins across most product lines. The LIFO method of valuing inventory decreased

Edgar Filing: HAWKINS INC - Form 10-Q

gross profit in this segment nominally for the six months ended September 30, 2012 and decreased gross profit by \$0.1 million for the same period of the prior year.

15

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$15.7 million, or 8.8% of sales, for the six months ended September 30, 2012 as compared to \$15.7 million, or 8.9% of sales, for the six months ended October 2, 2011 with higher selling costs due to additional sales staffing offset by lower administration expenses in the period.

Operating Income

Operating income was \$18.8 million for the six months ended September 30, 2012 and \$21.0 million for the six months ended October 2, 2011. Operating income for the Industrial segment decreased \$3.6 million, primarily due to the \$3.2 million charge resulting from the ICL litigation settlement recorded within that segment. Operating income for the Water Treatment segment increased \$1.4 million for the six months ended September 30, 2012, as compared to the same period of the prior year due to increased volumes and higher per-unit margins.

Investment Income

Investment income was \$0.1 for the six month periods ended September 30, 2012 and October 2, 2011.

Provision for Income Taxes

Our effective income tax rate was 38.6% for the six months ended September 30, 2012, compared to 38.0% for the six months ended October 2, 2011. The effective tax rate is impacted by projected levels of taxable income, permanent items, and state taxes.

Liquidity and Capital Resources

Cash provided by operating activities for the six months ended September 30, 2012 was \$23.5 million compared to \$12.3 million for the six months ended October 2, 2011. The increase in cash provided by operating activities was primarily due to reduced cash used to fund working capital, including the timing of inventory purchases and other trade payables. Due to the nature of our operations, which includes purchases of large quantities of bulk chemicals, timing of purchases can result in significant changes in working capital investment and the resulting operating cash flow. Historically, our cash requirements increase during the period from April through November as caustic soda inventory levels increase as the majority of barges are received during this period. Additionally, due to the seasonality of the water treatment business, our accounts receivable balance generally increases during the period of April through September.

Cash and investments available-for-sale of \$55.2 million at September 30, 2012 increased by \$9.3 million as compared with the \$45.9 million available as of April 1, 2012, primarily due to cash flows generated from operations, partially offset by capital expenditures and dividends paid.

Capital Expenditures

Capital expenditures were \$11.9 million for the six months ended September 30, 2012 compared to \$6.2 million in the same period in the prior fiscal year. Significant capital expenditures during the six months ended September 30, 2012 consisted of approximately \$8.5 million related to business expansion and process improvement projects including the new facility in Rosemount, Minnesota. Other capital spending was related to regulatory, safety, and facility improvements and replacement trucks for the Water Treatment segment. We expect cash balances and our cash flows from operations will be sufficient to fund our cash requirements in fiscal 2013.

Critical Accounting Policies

Our significant accounting policies are set forth in Note 1 to our consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended April 1, 2012. The accounting policies used in preparing our interim fiscal 2013 condensed consolidated financial statements are the same as those described in our Annual Report.

16

Forward-Looking Statements

The information presented in this Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). These forward-looking statements have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. These statements are not historical facts, but rather are based on our current expectations, estimates and projections, and our beliefs and assumptions. We intend words such as anticipate, expect, intend, plan, believe, estimate, will and similar expressions to identify forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and are difficult to predict. These factors could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Additional information concerning potential factors that could affect future financial results is included in our Annual Report on Form 10-K for the fiscal year ended April 1, 2012. We caution you not to place undue reliance on these forward-looking statements, which reflect our management s view only as of the date of this Quarterly Report on Form 10-Q. We are not obligated to update these statements or publicly release the result of any revisions to them to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At September 30, 2012, our investment portfolio included \$25.4 million of certificates of deposit classified as fixed income securities and cash and cash equivalents of \$29.7 million. The fixed income securities, like all fixed income instruments, are subject to interest rate risks and will decline in value if market interest rates increase. However, while the value of the investment may fluctuate in any given period, we intend to hold our fixed income investments until recovery. Consequently, we would not expect to recognize an adverse impact on net income or cash flows during the holding period. We adjust the carrying value of our investments if impairment occurs that is other than temporary.

We are subject to the risk inherent in the cyclical nature of commodity chemical prices. However, we do not currently purchase forward contracts or otherwise engage in hedging activities with respect to the purchase of commodity chemicals. We attempt to pass changes in material prices on to our customers, however, there are no assurances that we will be able to pass on cost increases in the future as our pricing must be competitive.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or person performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

There was no change in our internal control over financial reporting during the second quarter of fiscal 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

17

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As previously reported in our quarterly report on Form 10-Q for the quarterly period ended July 1, 2012, on June 15, 2012, we entered into a settlement agreement with ICL Performance Products LP (ICL), a chemical supplier to us, pursuant to which we mutually resolved the previously disclosed litigation and all disputes among us. The settlement agreement provides for a cash payment by us to ICL and provides that both parties will enter into new contracts for the supply by ICL of certain chemicals to us. Our obligations under the settlement agreement resulted in a \$3.2 million charge to pretax income recorded in cost of sales (approximately \$2.0 million after tax) for our fiscal quarter ended July 1, 2012.

We are a party from time to time in other legal proceedings arising in the ordinary course of our business. To date, none of the litigation has had a material effect on us.

ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors from those disclosed in our Annual Report on Form 10-K for the fiscal year ended April 1, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not sell or repurchase any shares of our common stock during the second quarter of fiscal 2013.

In March 2011, an aggregate of 4,934 shares of our common stock were forfeited at an average price of \$40.13 to satisfy tax withholding obligations that arose on the vesting of restricted stock.

In March 2012, an aggregate of 3,980 shares of our common stock were forfeited at an average price of \$37.72 to satisfy tax withholding obligations that arose on the vesting of restricted stock.
