SIGNET JEWELERS LIMITED

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Principal accounting policies and basis of preparation

Basis of preparation

Signet Jewelers Limited (Signet or the Company), including its subsidiaries, is a leading retailer of jewelry, watches and associated services. Signet manages its business as two geographical segments, the United States of America (the US) and the United Kingdom (the UK). The US division operates retail stores under brands including Kay Jewelers, Jared The Galleria Of Jewelry, Ultra and various regional brands. Ultra was acquired by Signet in October 2012. The UK division s retail stores operate under brands including H. Samuel and Ernest Jones.

These condensed consolidated financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) have been condensed or omitted from this report, as is permitted by such rules and regulations. In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes included in Signet s Annual Report on Form 10-K for the year ended February 2, 2013.

Use of estimates

The preparation of these condensed consolidated financial statements, in conformity with US GAAP and SEC regulations for interim reporting, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are primarily made in relation to the valuation of receivables, inventory and deferred revenue, fair value of derivatives, depreciation and asset impairment, the valuation of employee benefits, income taxes and contingencies.

Fiscal year

The Company s fiscal year ends on the Saturday nearest to January 31. Fiscal 2014 is the 52 week year ending February 1, 2014 and Fiscal 2013 is the 53 week year ended February 2, 2013. Within these financial statements, the second quarter and year to date of the relevant fiscal years 2014 and 2013 refer to the 13 and 26 weeks ended August 3, 2013 and July 28, 2012, respectively.

Seasonality

Signet s sales are seasonal, with the first and second quarters each normally accounting for slightly more than 20% of annual sales, the third quarter a little under 20% and the fourth quarter for about 40% of sales, with December being by far the most important month of the year. Sales made in November and December are known as the Holiday Season. Due to sales leverage, Signet s operating income is even more seasonal; about 45% to 50% of Signet s operating income normally occurs in the fourth quarter, comprised of nearly all of the UK division s operating income and about 40% to 50% of the US division s operating income.

Revenue recognition

Extended service plans and lifetime warranty agreements

The US division sells extended service plans where it is obliged, subject to certain conditions, to perform repair work over the lifetime of the product. Revenue from the sale of extended service plans is deferred over 14 years. Revenue is recognized in relation to the costs expected to be incurred in performing these services, with approximately 45% of revenue recognized within the first two years (February 2, 2013 and July 28, 2012: 46% and 46%, respectively). The deferral period is determined from patterns of claims costs, including estimates of future claims costs expected to be incurred. Management reviews the trends in claims to assess whether changes are required to the revenue and cost recognition

Edgar Filing: SIGNET JEWELERS LTD - Form 10-Q

rates used. All direct costs associated with the sale of these plans are deferred and amortized in proportion to the revenue recognized and disclosed as either other current assets or other assets.

Table of Contents**SIGNET JEWELERS LIMITED****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)*****New accounting pronouncements adopted during the period******Reclassification out of Accumulated Other Comprehensive Income***

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The new guidance does not change the current requirements for reporting net income or other comprehensive income, but it does require disclosure of amounts reclassified out of accumulated other comprehensive income by component, as well as require the presentation of these amounts on the face of the statements of comprehensive income or in the notes to the consolidated financial statements. ASU 2013-02 is effective for the reporting periods beginning after December 15, 2012. Signet adopted this guidance effective for the first quarter ended May 4, 2013 and the implementation of this accounting pronouncement did not have a material impact on Signet's consolidated financial statements.

New accounting pronouncements to be adopted in subsequent periods***Presentation of Unrecognized Tax Benefit***

In July 2013, the FASB issued ASU 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The new guidance requires, unless certain conditions exist, an unrecognized tax benefit to be presented as a reduction to a deferred tax asset in the financial statements for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The guidance in ASU 2013-11 will become effective for the Company prospectively for fiscal years beginning after December 15, 2013, and interim periods within those years, with early adoption permitted. Retrospective application is also permitted. Signet is currently assessing the impact, if any, that the adoption of this accounting pronouncement will have on its consolidated financial statements.

Reclassification

Signet has reclassified the presentation of certain prior year information to conform to the current year presentation.

2. Segment information

Signet's sales are derived from the retailing of jewelry, watches, other products and services. Signet is managed as two geographical operating segments, being the US and UK divisions. These segments represent channels of distribution that offer similar merchandise and services and have similar marketing and distribution strategies. Both divisions are managed by executive committees, which report to Signet's Chief Executive Officer, who in turn reports to the Board of Directors (the Board). Each divisional executive committee is responsible for operating decisions within parameters set by the Board. The performance of each segment is regularly evaluated based on sales and operating income. The operating segments do not include certain corporate administrative costs. There are no material transactions between the operating segments.

Table of Contents**SIGNET JEWELERS LIMITED****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****3. Foreign currency translation**

Assets and liabilities denominated in the UK pound sterling are translated into the US dollar at the exchange rate prevailing at the balance sheet date. Equity accounts denominated in the UK pound sterling are translated into US dollars at historical exchange rates. Revenues and expenses denominated in the UK pound sterling are translated into the US dollar at the monthly average exchange rate for the period and calculated each month from the weekly exchange rates weighted by sales of the UK division. Gains and losses resulting from foreign currency transactions are included within the consolidated income statement, whereas translation adjustments and gains and losses related to intercompany loans of a long-term investment nature are reported as an element of other comprehensive income (loss).

4. Income taxes

Signet has business activity in all states within the US and files income tax returns for the US federal jurisdiction and all applicable states. Signet also files income tax returns in the UK and certain other foreign jurisdictions. Signet is subject to US federal and state examinations by tax authorities for tax years ending after November 1, 2008 and is subject to examination by the UK tax authority for tax years ending after January 31, 2010.

As of February 2, 2013, Signet had approximately \$4.5 million of unrecognized tax benefits in respect of uncertain tax positions, all of which would favorably affect the effective income tax rate if resolved in Signet's favor. These unrecognized tax benefits relate to financing arrangements and intra-group charges which are subject to different and changing interpretations of tax law. There has been no material change in the amount of unrecognized tax benefits in respect of uncertain tax positions during the 13 and 26 weeks ended August 3, 2013.

Signet recognizes accrued interest and, where appropriate, penalties related to unrecognized tax benefits within income tax expense. As of February 2, 2013, Signet had accrued interest of \$0.2 million and there has been no material change in the amount of accrued interest as of August 3, 2013.

Over the next twelve months management believes that it is reasonably possible that there could be a reduction of substantially all of the unrecognized tax benefits as of February 2, 2013, due to settlement of the uncertain tax positions with the tax authorities.

The basic weighted average number of shares excludes non-vested time-based restricted shares, shares held by the Employee Stock Ownership Trust and treasury shares. Such shares are not considered outstanding and do not qualify for dividends, except for time-based restricted shares for which dividends are earned and payable by the Company subject to full vesting. The effect of excluding these shares is to reduce the average number of shares in the 13 and 26 week periods ended August 3, 2013 by 6,848,428 and 6,606,882 shares, respectively (13 and 26 week periods ended July 28, 2012: 4,579,232 and 3,108,956 shares, respectively). The calculation of fully diluted earnings per share for the 13 and 26 week periods ended August 3, 2013 excludes 1,071 and 53,421 non-vested time-based restricted shares (13 and 26 week periods ended July 28, 2012: 287,487 and 223,811 shares and share options, respectively) on the basis that their effect on earnings per share was anti-dilutive.

6. Shareholders' equity*Share repurchase*

Signet may from time to time repurchase common shares under various share repurchase programs authorized by Signet's Board. Repurchases may be made in the open market, through block trades or otherwise. The timing, manner, price and amount of any repurchases will be determined by the Company in its discretion, and will be subject to economic and market conditions, stock prices, applicable legal requirements and other factors. The repurchase programs are funded through Signet's existing cash reserves and liquidity sources. Repurchased shares are being held as treasury shares and may be used by Signet for general corporate purposes. Share repurchase activity is as follows:

8. Accounts receivable, net

Signet's accounts receivable primarily consist of US customer in-house financing receivables. The accounts receivable portfolio consists of a population that is of similar characteristics and is evaluated collectively for impairment. The allowance is an estimate of the losses as of the balance sheet date, and is calculated using a proprietary model that analyzes factors such as delinquency rates and recovery rates. A 100% allowance is made for any amount that is more than 90 days aged on a recency basis and any amount associated with an account the owner of which has filed for bankruptcy, as well as an allowance for those amounts 90 days aged and under based on historical loss information and payment performance. The calculation is reviewed by management to assess whether, based on economic events, additional analyses are required to appropriately estimate losses inherent in the portfolio.

Signet grants credit to customers based on a variety of credit quality indicators, including consumer financial information and prior payment experience. On an ongoing basis, management monitors the credit exposure based on past due status and collection experience, as it has found a meaningful correlation between the past due status of customers and the risk of loss.

Other accounts receivable is comprised primarily of gross accounts receivable relating to the insurance loss replacement business in the UK division of \$9.1 million (February 2, 2013 and July 28, 2012: \$13.0 million and \$8.7 million, respectively) with a corresponding valuation allowance of \$0.4 million (February 2, 2013 and July 28, 2012: \$0.6 million and \$0.7 million, respectively).

11. Financial instruments and fair value

Signet's principal financial instruments are comprised of cash, cash deposits/investments and overdrafts, accounts receivable and payable, derivatives and a revolving credit facility. Signet does not enter into derivative transactions for trading purposes. Derivative transactions are used by Signet for risk management purposes to address risks inherent in Signet's business operations and sources of finance. The main risks arising from Signet's operations are market risk including foreign currency risk and commodity risk, liquidity risk and interest rate risk. Signet uses these financial instruments to manage and mitigate these risks under policies reviewed and approved by the Board.

Table of Contents**SIGNET JEWELERS LIMITED****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Derivatives**

Signet enters into various types of derivative instruments to mitigate certain risk exposures related to changes in commodity costs and foreign exchange rates. Derivative instruments are recorded in the consolidated balance sheets at their fair values, as either assets or liabilities, with an offset to current or comprehensive income, depending on whether the derivative qualifies as an effective hedge.

If a derivative instrument meets certain hedge accounting criteria, it may be designated as a cash flow hedge on the date it is entered into. A cash flow hedge is a hedge of the exposure to variability in the cash flows of a recognized asset, liability or a forecasted transaction. For cash flow hedge transactions, the effective portion of the changes in fair value of derivatives is reported as other comprehensive income (OCI) and is recognized in the consolidated income statements in the same period(s) and on the same financial statement line in which the hedged transaction affects net income. Amounts excluded from the effectiveness calculation and any ineffective portions of the change in fair value of the derivative are recognized immediately in other operating income, net in the consolidated income statements. In addition, gains and losses on derivatives that do not qualify for hedge accounting are recognized immediately in other operating income net.

The following types of derivative instruments are utilized by Signet:

Forward foreign currency exchange contracts (designated) These contracts, which are principally in US dollars, are entered into in order to limit the impact of movements in foreign exchange rates on forecasted foreign currency purchases. The total notional amount of these foreign currency contracts outstanding as of August 3, 2013 was \$50.3 million (February 2, 2013 and July 28, 2012: \$50.8 million and \$52.3 million, respectively). These contracts have been designated as cash flow hedges and will be settled over the next 18 months (February 2, 2013 and July 28, 2012: 12 months and 17 months, respectively).

Forward foreign currency exchange contracts (undesignated) Foreign currency contracts not designated as cash flow hedges are used to hedge currency flows through Signet's bank accounts to mitigate Signet's exposure to foreign currency exchange risk in its cash and borrowings.

Commodity forward purchase contracts and net zero-cost collar arrangements These contracts are entered into in order to reduce Signet's exposure to significant movements in the price of the underlying precious metal raw material. As of August 3, 2013, no commodity derivative contracts were outstanding. As of February 2, 2013 and July 28, 2012, the total notional amount of commodity contracts outstanding was \$187.6 million and \$197.5 million, respectively. The contracts outstanding as of February 2, 2013 and July 28, 2012 were designated as cash flow hedges and will be settled over 11 months and 16 months, respectively.

The bank counterparties to the derivative instruments expose Signet to credit-related losses in the event of their non-performance. However, to mitigate that risk, Signet only contracts with counterparties that meet certain minimum requirements under its counterparty risk assessment process. As of August 3, 2013, Signet believes that this credit risk did not materially change the fair value of the foreign currency or commodity contracts.

The following table summarizes the fair value and presentation of derivative instruments in the condensed consolidated balance sheets:

Fair value

The estimated fair value of Signet's financial instruments held or issued to finance Signet's operations is summarized below. Certain estimates and judgments were required to develop the fair value amounts. The fair value amounts shown below are not necessarily indicative of the amounts that Signet would realize upon disposition nor do they indicate Signet's intent or ability to dispose of the financial instrument. Assets and liabilities that are carried at fair value are required to be classified and disclosed in one of the following three categories:

Level 1 quoted market prices in active markets for identical assets and liabilities

Level 2 observable market based inputs or unobservable inputs that are corroborated by market data

Level 3 unobservable inputs that are not corroborated by market data

Signet determines fair value based upon quoted prices when available or through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. The methods Signet uses to determine fair value on an instrument-specific basis are detailed below:

<i>(in millions)</i>	August 3, 2013		February 2, 2013		July 28, 2012	
	Carrying Value	Fair Value (Level 2)	Carrying Value	Fair Value (Level 2)	Carrying Value	Fair Value (Level 2)
Assets:

Liabilities:						
Forward foreign currency contracts and swaps					(1.5)	(1.5)
Forward commodity contracts			(4.6)	(4.6)	(6.3)	(6.3)

The fair value of derivative financial instruments has been determined based on market value equivalents at the balance sheet date, taking into account the current interest rate environment, current foreign currency forward rates or current commodity forward rates. These are held as assets and liabilities within other receivables and other payables, and all contracts have a maturity of less than 18 months. The carrying amounts

Edgar Filing: SIGNET JEWELERS LTD - Form 10-Q

of cash and cash equivalents, accounts receivable, other receivables, accounts payable and accrued liabilities approximate fair value because of the short-term maturity of these amounts.

In the 26 weeks ended August 3, 2013, Signet contributed \$2.8 million to the UK Plan and expects to contribute a minimum aggregate of \$5.2 million at current exchange rates to the UK Plan in Fiscal 2014. These contributions are in accordance with an agreed upon deficit recovery plan and based on the results of the actuarial valuation as of April 5, 2012.

13. Commitments and contingencies**Legal proceedings**

In March 2008, a group of private plaintiffs (the Claimants) filed a class action lawsuit for an unspecified amount against Sterling Jewelers Inc. (Sterling), a subsidiary of Signet, in the U.S. District Court for the Southern District of New York alleging that US store-level employment practices are discriminatory as to compensation and promotional activities with respect to gender. In June 2008, the District Court referred the matter to private arbitration where the Claimants sought to proceed on a class-wide basis. In June 2009, the arbitrator ruled that the arbitration agreements allowed the Claimants to proceed on a class-wide basis and attempt to seek class certification. Sterling challenged the ruling and the District Court vacated the arbitrator's decision in July 2010. The Claimants appealed that order to the U.S. Court of Appeals for the Second Circuit. In July 2011, the Second Circuit reversed the District Court's decision and instructed the District Court to confirm the Arbitrator's Award (i.e., to allow the Claimants to move forward with a proposed class claim in arbitration). Sterling filed a petition for rehearing en banc of the Second Circuit panel's decision, which was denied on September 6, 2011. Sterling filed a petition writ of certiorari with U.S. Supreme Court seeking review of the Second Circuit's decision, which was denied on March 19, 2012. The arbitration proceeding has resumed. The parties engaged in fact discovery related to class certification issues through March 15, 2013. On June 21, 2013, pursuant to the briefing schedule ordered by the Arbitrator, the Claimants filed their motion for class certification, disclosed their experts, and produced their expert reports. Sterling's response to Claimants' class certification motion, Sterling's disclosure of its experts and their reports, as well as any motions relating thereto are due on October 3, 2013. The Claimants' reply brief, any expert rebuttal submissions, as well as any motions relating thereto are due on December 20, 2013. Expert discovery is ongoing, and all expert depositions must be completed by January 10, 2014. The parties have proposed that a hearing on Claimants' motion for class certification be held during the week of January 20, 2014, or as soon thereafter as the Arbitrator's schedule permits.

On September 23, 2008, the U.S. Equal Employment Opportunity Commission (EEOC) filed a lawsuit against Sterling in the U.S. District Court for the Western District of New York. The EEOC's lawsuit alleges that Sterling engaged in intentional and disparate impact gender discrimination with respect to pay and promotions of female retail store employees from January 1, 2003 to the present. The EEOC asserts claims for unspecified monetary relief and non-monetary relief against the Company on behalf of a class of female employees subjected to these

Edgar Filing: SIGNET JEWELERS LTD - Form 10-Q

alleged practices. Non-expert fact discovery closed on May 13, 2013. Pursuant to the Court's case management order, on June 21, 2013, the EEOC designated its experts and produced their reports. Sterling's disclosure of its experts and their reports are due on October 3, 2013. The EEOC's expert rebuttal submission is due on December 20, 2013. Expert discovery is ongoing, and all expert depositions must be completed by January 10, 2014. Any dispositive motions must be filed by February 4, 2014. In the event that no dispositive motions are filed, a status conference is set for February 7, 2014.

Sterling denies the allegations of both parties and has been defending these cases vigorously. At this point, no outcome or amount of loss is able to be estimated.

In the ordinary course of business, Signet may be subject, from time to time, to various other proceedings, lawsuits, disputes or claims incidental to its business or not significant to Signet's consolidated financial position.

Table of Contents**SIGNET JEWELERS LIMITED****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****14. Share-based compensation expense**

Signet recorded share-based compensation expense of \$3.5 million and \$6.5 million for the 13 and 26 weeks ended August 3, 2013, respectively, related to the Omnibus Plans and Saving Share Plans (\$3.0 million and \$7.1 million for the 13 and 26 weeks ended July 28, 2012, respectively).

15. Loans, overdrafts and long-term debt

In May 2011, Signet entered into a \$400 million senior unsecured multi-currency five year revolving credit facility agreement (the Credit Facility). The Credit Facility contains an expansion option that, with the consent of the lenders or the addition of new lenders, and subject to certain conditions, availability under the Credit Facility may be increased by an additional \$200 million at the request of Signet. The Credit Facility has a five year term and matures in May 2016, at which time all amounts outstanding under the Credit Facility will be due and payable. The Credit Facility also contains various customary representations and warranties, financial reporting requirements and other affirmative and negative covenants. The Credit Facility requires that Signet maintain at all times a Leverage Ratio (as defined in the Credit Facility) to be no greater than 2.50 to 1.00 and a Fixed Charge Coverage Ratio (as defined in the Credit Facility) to be no less than 1.40 to 1.00, both determined as of the end of each fiscal quarter of Signet for the trailing twelve months.

At August 3, 2013, February 2, 2013, and July 28, 2012, there were no amounts outstanding under the Credit Facility, with no intra-period borrowings. Signet had stand-by letters of credit of \$9.5 million as of August 3, 2013 and February 2, 2013 and \$8.2 million as of July 28, 2012.

16. Acquisition

On October 29, 2012, Signet acquired the outstanding shares of Ultra Stores, Inc., a leading jewelry retailer operating primarily in outlet centers, from Crystal Financial LLC and its other stockholders (the Ultra Acquisition). As a result of the acquisition, Signet immediately increased its share of the US outlet channel for jewelry. The Company initially paid \$56.7 million, net of acquired cash of \$1.5 million, for the Ultra Acquisition including a \$1.4 million working capital adjustment as of the closing, subject to post-closing procedures. The total consideration paid was funded through existing cash.

On May 15, 2013, the post-closing procedures were finalized and a reduction to the initial purchase price was agreed to. As a result, total consideration paid for the Ultra Acquisition was reduced to \$55.3 million. The refund of \$1.4 million from the initial consideration paid was received during the second quarter of Fiscal 2014.

The results of operations related to the Ultra Acquisition are reported as a component of the results of the US division and included in Signet's consolidated financial statements commencing on the date of acquisition.

During the first quarter of Fiscal 2014, the Company finalized the valuation of net assets acquired. There were no material changes to the valuation of net assets acquired from the initial allocation reported during the fourth quarter of Fiscal 2013. Accordingly, the total consideration paid has been allocated to the net assets acquired based on the final fair values at October 29, 2012 as follows:

<i>(in millions)</i>	Initial Allocation	Final Allocation	Change

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****FORWARD-LOOKING STATEMENTS**

This Quarterly Report on Form 10-Q contains statements which are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, based upon management's beliefs and expectations as well as on assumptions made by and data currently available to management, appear in a number of places throughout this document and include statements regarding, among other things, Signet's results of operation, financial condition, liquidity, prospects, growth, strategies and the industry in which Signet operates. The use of the words expects, intends, anticipates, estimates, predicts, believes, should, potential, may, forecast, objective, plan, similar expressions are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including but not limited to general economic conditions, risks relating to Signet being a Bermuda corporation, the merchandising, pricing and inventory policies followed by Signet, the reputation of Signet and its brands, the level of competition in the jewelry sector, the cost and availability of diamonds, gold and other precious metals, regulations relating to consumer credit, seasonality of Signet's business, financial market risks, deterioration in consumers' financial condition, exchange rate fluctuations, changes in consumer attitudes regarding jewelry, management of social, ethical and environmental risks, security breaches and other disruptions to Signet's information technology infrastructure and databases, inadequacy in and disruptions to internal controls and systems, and changes in assumptions used in making accounting estimates relating to items such as extended service plans and pension.

For a discussion of these and other risks and uncertainties which could cause actual results to differ materially from those expressed in any forward-looking statement, see the Risk Factors section of Signet's Fiscal 2013 Annual Report on Form 10-K filed with the SEC on March 28, 2013. Signet undertakes no obligation to update or revise any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

OVERVIEW

Signet is the largest specialty retail jeweler in the US and UK. Signet manages its business as two geographical segments, the US and the UK divisions.

Signet's US division operated 1,449 stores in all 50 states at August 3, 2013. Its stores trade nationally in malls and off-mall locations as Kay Jewelers (Kay), and regionally under a number of well-established mall-based brands. Destination superstores trade nationwide as Jared The Galleria Of Jewelry (Jared). Signet acquired Ultra Stores, Inc. (Ultra) on October 29, 2012 (the Ultra Acquisition) with the primary purpose to immediately increase Signet's share of the US outlet channel for jewelry. Based on publicly available data, Signet's US division was the largest specialty jeweler in the US in calendar 2012.

Signet's UK division operated 500 stores at August 3, 2013, including 14 stores in the Republic of Ireland and three in the Channel Islands. Its stores trade in major regional shopping malls and prime High Street locations (main shopping thoroughfares with high pedestrian traffic) as H.Samuel, Ernest Jones, and Leslie Davis. Based on publicly filed accounts, Signet's UK division was the largest specialty retailer of fine jewelry in the UK in calendar 2012.

Non-GAAP measures

Signet provides certain non-GAAP information in reporting its financial results to give investors additional data to evaluate its operations. Management does not, nor does it suggest investors should, consider such non-GAAP measures in isolation from, or in substitute for, financial information prepared in accordance with US GAAP.

Same store sales

The 53rd week in Fiscal 2013 has resulted in a shift in Fiscal 2014, as the fiscal year began a week later than the previous fiscal year. As such, same store sales are being calculated by aligning the weeks of the quarter to the same weeks in the prior year. Total reported sales continue to be calculated based on the reported fiscal periods.

Exchange translation impact

Signet has historically used constant exchange rates to compare period-to-period changes in certain financial data. Management considers this a useful measure for analyzing and explaining changes and trends in Signet's results. The impact of the re-calculation, including a reconciliation to Signet's US GAAP results, is analyzed below.

Table of Contents**Net cash**

Net cash is the total of cash and cash equivalents less loans and overdrafts, and is helpful in providing a measure of the total indebtedness of the business.

<i>(in millions)</i>	August 3, 2013	February 2, 2013	July 28, 2012
Cash and cash equivalents	\$ 212.9	\$ 301.0	\$ 237.5
Loans and overdrafts	(1.7)		
Net cash	\$ 211.2	\$ 301.0	\$ 237.5

Free cash flow

Free cash flow is a non-GAAP measure defined as the net cash provided by operating activities less purchases of property and equipment, net. Management considers that it is helpful in understanding how the business is generating cash from its operating and investing activities that can be used to meet the financing needs of the business. Free cash flow does not represent the residual cash flow available for discretionary expenditure.

<i>(in millions)</i>	13 weeks ended		26 weeks ended	
	August 3, 2013	July 28, 2012	August 3, 2013	July 28, 2012

Free cash flow	\$ (17.0)	\$ 46.6	\$ 4.9	\$ 62.0

In the 13 weeks ended August 3, 2013, free cash flow was \$(17.0) million compared to \$46.6 million in the prior year comparable period. The decrease in free cash flow of \$63.6 million was driven by lower cash provided by operating activities partially offset by timing of investments in property and equipment. The decrease in cash provided by operating activities was primarily due to changes in accounts payable and income taxes payable. The decrease in accounts payable is attributable to the timing of payments in the second quarter of Fiscal 2014 related to inventory received in the first quarter of Fiscal 2014. The decrease in income tax payable is a result of higher tax payments driven by business performance. Free cash flow for the 26 weeks ended August 3, 2013 is discussed in the Liquidity and Capital Resources section.

Table of Contents**RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Financial Statements and the related notes in Part I of this Quarterly Report on Form 10-Q, as well as the financial and other information included in Signet's Fiscal 2013⁽¹⁾ Annual Report on Form 10-K.

Table of Contents**Second quarter sales**

In the second quarter of Fiscal 2014, Signet's same store sales increased 3.6% compared to an increase of 7.1% in the 13 weeks ended July 28, 2012 (second quarter of Fiscal 2013 or prior year second quarter). Total sales were \$880.2 million compared to \$853.9 million in the second quarter of Fiscal 2013, up \$26.3 million or 3.1% compared to an increase of 7.1% in the second quarter of Fiscal 2013. eCommerce sales were \$31.2 million compared to \$24.2 million in the second quarter of Fiscal 2013, up \$7.0 million or 28.9%. The breakdown of the sales performance is set out in the table below.

	Change from previous year				Total sales as reported	Total sales (in millions)

- (1) The 53rd week in Fiscal 2013 has resulted in a shift in Fiscal 2014, as the fiscal year began a week later than the previous fiscal year. As such, same store sales are being calculated by aligning the weeks of the quarter to the same weeks in the prior year. Total reported sales continue to be calculated based on the reported fiscal periods, with the difference being reported within non-same store sales. Total sales in the US in the second quarter of Fiscal 2013 included \$32.2 million due to the shift of the Mother's Day promotion.
- (2) Includes all sales from stores not open or owned for 12 months, as well as results from all store locations acquired in the Ultra Acquisition.
- (3) Non-GAAP measure, discussed herein.

In the second quarter of Fiscal 2014, the US division's total sales were \$741.1 million compared to \$701.9 million in the second quarter of Fiscal 2013, up \$39.2 million or 5.6%. Same store sales increased 4.9% compared to an increase of 8.2% in the second quarter of Fiscal 2013. US sales increases in the second quarter were driven by particular strength in bridal, colored diamonds and watches. In the quarter, Kay and Jared experienced increases in both transaction counts and average transaction value. eCommerce sales were \$25.3 million compared to \$18.6 million in the second quarter of Fiscal 2013, up \$6.7 million or 36.0%. See the table below for further analysis of sales.

- (1) Average merchandise transaction value is defined as net merchandise sales divided by the total number of customer transactions.
- (2) Net merchandise sales include all merchandise product sales, net of discounts and returns. In addition, excluded from net merchandise sales are sales tax in the US, repairs, ESP, insurance, employee and other miscellaneous sales.
- (3) The Kay average merchandise transaction value and merchandise transactions include the Ultra acquired stores effective as of the Fiscal 2014 second quarter.
- (4) The Regional brands average merchandise transaction value and merchandise transactions include the Ultra acquired licensed jewelry departments effective as of the Fiscal 2014 second quarter.

In the second quarter of Fiscal 2014, the UK division's total sales were \$139.1 million compared to \$152.0 million in the second quarter of Fiscal 2013, down \$12.9 million or 8.5%. Same store sales decreased 2.4% compared to an increase of 2.1% in the second quarter of Fiscal 2013. The total sales decline was primarily due to a same store sales decrease of \$3.4 million, the impact of closed stores of \$5.6 million, and currency fluctuation of \$3.9 million. In Ernest Jones, the number of transactions increased driven primarily by strength in branded bridal and watches, excluding Rolex, and the average transaction value was lower, primarily due to the impact from Rolex being offered in fewer stores. In H.Samuel, the number of transactions declined, primarily due to store closures and lower traffic. This resulted in lower sales across many merchandise categories, partly offset by strength in branded bridal products. Sales in both businesses were impacted by lower bead transactions. eCommerce sales were \$5.9 million compared to \$5.6 million in the second quarter of Fiscal 2013, up \$0.3 million or 5.4%. See the table below for further detail of sales.

Same store sales increased 6.6% compared to an increase of 4.4% in the comparable prior year period. US sales increases were driven by particular strength in bridal, colored diamonds and watches in Kay and Jared, as well as the Ultra Acquisition. For the year to date, Kay and Jared experienced increases in both transaction counts and average transaction value. eCommerce sales were \$50.9 million compared to \$35.9 million in the 26 weeks ended July 28, 2012, up \$15.0 million or 41.8%. See the table below for further analysis of sales.

In the year to date, the UK division's total sales were \$274.1 million compared to \$300.5 million in the 26 weeks ended July 28, 2012, down \$26.4 million or 8.8%. Same store sales decreased 2.3% compared to an increase of 1.7% in the comparable prior year period. The total sales decline was due to a same store sales decrease of \$6.5 million primarily in H.Samuel, the impact of closed stores of \$10.4 million, and currency fluctuation of \$9.5 million. In Ernest Jones, the number of transactions increased driven by strength in the bridal business and watches, excluding Rolex, which is being offered in fewer stores in the UK. The lower average merchandise transaction value was primarily attributed to the reduction of the Rolex line. In H.Samuel, the number of transactions declined, resulting in lower sales across many merchandise categories. Sales in both businesses were impacted by lower bead transactions. eCommerce sales were \$11.4 million compared to \$10.4 million in the 26 weeks ended July 28, 2012, up \$1.0 million or 9.6%. Cost of sales and gross margin

In the second quarter of Fiscal 2014, gross margin was \$309.7 million or 35.2% of sales compared to \$311.2 million or 36.4% of sales in the second quarter of Fiscal 2013. The inclusion of the results for Ultra increased gross margin dollars by \$5.7 million; however, it reduced the consolidated gross margin rate by 50 basis points and the US gross margin rate by 70 basis points. The Ultra gross margin is lower than the core US business due to lower Ultra store productivity and the impact of the Ultra integration.

Table of Contents

Gross margin dollars in the US increased by \$1.3 million compared to the second quarter of Fiscal 2013, reflecting higher sales offset by a gross margin decrease of 180 basis points. The lower gross margin was primarily attributed to the following components: gross merchandise margin decreased by 50 basis points, which was attributed to Ultra; and store occupancy and operating costs deleveraged by 70 basis points, of which 40 basis points was due to Ultra and the remaining 30 basis point change was a result of the impact of the increase in new store openings. The US net bad debt ratio increased to 4.9% of sales from 4.5% of sales in the prior year second quarter. The increase in the ratio was primarily due to the growth in the outstanding receivable balance. In addition, the US division experienced a slight decline in collection efficiency and a change in the credit mix.

In the UK, gross margin dollars decreased \$2.8 million compared to the second quarter of Fiscal 2013, primarily reflecting the impact of decreased sales and currency fluctuation offset by a gross margin rate increase of 40 basis points. Currency translation costs were \$1.1 million of the decrease in gross margin. The gross margin rate increase was primarily driven by sales mix.

In the year to date, the gross margin was \$692.5 million or 37.0% of sales compared to \$664.9 million or 37.9% of sales in the 26 weeks ended July 28, 2012. The inclusion of the results for Ultra increased gross margin dollars by \$14.5 million; however, it reduced the consolidated gross margin rate by 50 basis points and the US gross margin rate by 70 basis points.

Gross margin dollars in the US increased by \$34.2 million compared to the 26 weeks ended July 28, 2012, reflecting higher sales offset by a gross margin rate decrease of 160 basis points. The lower gross margin was attributed to a decline in the gross merchandise margin rate by 80 basis points, of which 40 basis points was attributed to Ultra and the remaining decrease primarily due to new bridal and Jared test programs occurring in the first quarter of Fiscal 2014. Store occupancy and operating costs deleveraged by 30 basis points which was attributed to Ultra. The US net bad debt to US sales ratio was 3.6% compared to 3.4% in the 26 weeks ended July 28, 2012 which includes a 20 basis point benefit due to the inclusion of Ultra sales. The increase in the ratio was primarily due to growth in the outstanding receivable balance.

In the UK, gross margin dollars decreased \$6.6 million compared to the 26 weeks ended July 28, 2012, primarily reflecting the impact of decreased sales and currency fluctuations offset by a gross margin rate increase of 10 basis points. Currency translation costs were \$2.6 million of the decrease. The gross margin rate increase was primarily driven by sales mix.

Selling, general and administrative expenses (SGA)

In the second quarter of Fiscal 2014, SGA expenses were \$250.5 million compared to \$240.3 million in the second quarter of Fiscal 2013, up \$10.2 million or 4.2%. As a percentage of sales, SGA increased by 40 basis points to 28.5%. The inclusion of the results for Ultra increased SGA by \$13.5 million and increased the consolidated SGA rate by 70 basis points. Ultra SGA is expected to decline as the final steps of the integration are completed. SGA spending was well controlled and leverage was realized primarily on expenses in the US. In the UK, SGA expense declined by \$2.9 million, reflecting the impact of cost reductions and currency fluctuations.

In the year to date, SGA expenses were \$537.5 million compared to \$504.8 million in the 26 weeks ended July 28, 2012, up \$32.7 million, and as a percentage of sales decreased by 10 basis points to 28.7%. The inclusion of the results for Ultra increased SGA by \$26.1 million and increased the consolidated SGA rate by 50 basis points. SGA spending was well controlled and leverage was realized on expenses in the US. In the UK, SGA expense declined by \$5.6 million, reflecting the impact of cost reductions and currency fluctuations.

Other operating income, net

In the second quarter of Fiscal 2014, other operating income, net was \$46.3 million or 5.3% of sales compared to \$40.0 million or 4.7% of sales in the second quarter of Fiscal 2013.

In the year to date, other operating income, net was \$93.3 million or 5.0% of sales compared to \$80.2 million or 4.6% of sales in the 26 weeks ended July 28, 2012. This increase was primarily due to higher interest income earned from higher outstanding receivable balances.

Operating income

In the second quarter of Fiscal 2014, operating income was \$105.5 million or 12.0% of sales compared to \$110.9 million or 13.0% of sales in the second quarter of Fiscal 2013. The US division's operating income including Ultra was \$111.5 million or 15.0% of sales compared to \$117.3 million or 16.7% of sales in the second quarter of Fiscal 2013. Excluding Ultra, the US division's operating income was \$119.3 million or 16.8% of sales. The operating loss for the UK division was \$0.8 million or (0.6)% of sales compared to \$0.3 million or (0.2)% of sales in the second quarter of Fiscal 2013. Unallocated corporate administrative costs were \$5.2 million compared to \$6.1 million in the second quarter of Fiscal 2013.

Table of Contents

In the year to date, operating income was \$248.3 million or 13.3% of sales compared to \$240.3 million or 13.7% of sales in the 26 weeks ended July 28, 2012. The US division's operating income including Ultra was \$264.3 million or 16.5% of sales compared to \$255.0 million or 17.5% of sales in the 26 weeks ended July 28, 2012. Excluding Ultra, the US division's operating income was \$275.9 million or 18.0% of sales. The operating loss for the UK division was \$4.9 million or (1.8)% of sales compared to \$3.3 million or (1.1)% of sales in the 26 weeks ended July 28, 2012. Unallocated corporate administrative costs were \$11.1 million compared to \$11.4 million in the 26 weeks ended July 28, 2012.

Interest expense, net

In the second quarter of Fiscal 2014, net interest expense was \$1.0 million compared to \$0.7 million in the second quarter of Fiscal 2013. In the year to date, net interest expense was \$1.9 million compared to \$1.6 million in the 26 weeks ended July 28, 2012.

Income before income taxes

In the second quarter of Fiscal 2014, income before income taxes decreased 5.2% to \$104.5 million or 11.9% of sales compared to \$110.2 million or 12.9% in the second quarter of Fiscal 2013. In the year to date, income before income taxes was \$246.4 million or 13.2% of sales compared to \$238.7 million or 13.6% of sales in the 26 weeks ended July 28, 2012.

Income taxes

In the second quarter of Fiscal 2014, income tax expense was \$37.1 million compared to \$39.5 million in the prior year second quarter. The effective tax rate was 35.5% compared to 35.8% in the second quarter of Fiscal 2013, primarily due to a reduction in foreign tax rates and lower disallowable expenses. In the year to date, income tax expense was \$87.2 million compared to \$85.5 million in the 26 weeks ended July 28, 2012. The effective tax rate was 35.4% compared to 35.8% in the 26 weeks ended July 28, 2012.

Net income

In the second quarter of Fiscal 2014, net income was down 4.7% to \$67.4 million or 7.7% of sales compared to \$70.7 million or 8.3% of sales in the second quarter of Fiscal 2013. In the year to date, net income was \$159.2 million or 8.5% of sales compared to \$153.2 million or 8.7% of sales in the 26 weeks ended July 28, 2012.

Earnings per share

In the second quarter of Fiscal 2014, diluted earnings per share were \$0.84 and excluding Ultra were \$0.90 compared to \$0.85 in the second quarter of Fiscal 2013. The weighted average diluted number of common shares outstanding was 80.7 million compared to 83.0 million in the second quarter of Fiscal 2013. Signet repurchased 374,613 shares in the second quarter of Fiscal 2014 compared to 4,469,149 shares in the second quarter of Fiscal 2013.

In the year to date, diluted earnings per share were \$1.97 and excluding Ultra were \$2.06 compared to \$1.81 in the 26 weeks ended July 28, 2012. The weighted average diluted number of common shares outstanding was 81.0 million compared to 84.7 million in the 26 weeks ended July 28, 2012. Signet repurchased 1,123,858 shares in the 26 weeks ended August 3, 2013 compared to 6,425,296 shares in the 26 weeks ended July 28, 2012.

Dividends per share

In the second quarter of Fiscal 2014, dividends of \$0.15 were approved by the Board compared to \$0.12 in the second quarter of Fiscal 2013. In the year to date, dividends of \$0.30 were approved by the Board compared to \$0.24 in the 26 weeks ended July 28, 2012.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

Set out in the table below is a summary of Signet's cash flow activity for the year to date for Fiscal 2014 and Fiscal 2013.

<i>(in millions)</i>	26 weeks ended	
	August 3, 2013	July 28, 2012
Summary cash flow

Effect of exchange rate changes on cash and cash equivalents	0.2	0.3
Cash and cash equivalents at end of period	\$ 212.9	\$ 237.5

Operating activities

During the 26 weeks ended August 3, 2013, net cash provided by operating activities was \$58.5 million compared to \$116.8 million in the 26 weeks ended July 28, 2012. The lower cash of \$58.5 million provided by operating activities was primarily driven by higher net income and the following changes as discussed below.

Accounts receivable decreased by \$52.8 million compared to a decrease of \$56.1 million in the prior year comparable period, reflecting seasonal collection patterns partially offset by sales growth. In the US division, credit participation was 57.1% and the average monthly collection rate was 12.6% compared to 57.5% and 12.9%, respectively in the prior year comparable period. Excluding the sales from Ultra, the credit participation rate was 58.9% compared to 57.5% in the prior year comparable period, driven primarily by higher bridal and branded sales.

Inventory related items increased by \$57.4 million compared to an increase of \$17.2 million in the prior year comparable period. The \$57.4 million inventory change includes \$28.5 million cash flow relating to closed hedges that will be recognized in future earnings based on the turnover of inventory. The remaining increase in inventory is driven by expansion of bridal programs, increased rough diamond inventory associated with management's strategic sourcing initiative and new store growth. Offsetting these increases were management actions to improve inventory turns. Accounts payable decreased by \$29.3 million compared to a decrease of \$46.5 million in the prior year comparable period primarily driven by timing of payments made in the second quarter of Fiscal 2014 associated with inventory received in the first quarter of Fiscal 2014.

Income taxes payable decreased by \$58.2 million compared to a decrease of \$20.9 million in the prior year comparable period due primarily to higher tax payments made in the first quarter of Fiscal 2014 driven by business performance. Other movements in operating assets and liabilities include a decrease of \$57.1 million in accrued expenses and other liabilities compared to a decrease of \$53.0 million in the prior year comparable period primarily driven by seasonality and timing differences associated with payroll related liabilities.

Investing activities

During the 26 weeks ended August 3, 2013, net cash used in investing activities was \$52.2 million, including the refund of \$1.4 million for working capital adjustments for the Ultra Acquisition, compared to \$54.8 million in the 26 weeks ended July 28, 2012. In the US division, capital additions were \$48.6 million compared to \$45.2 million in the prior year comparable period reflecting capital spend associated with the integration and conversion of Ultra, IT and new store investments. In the UK division, capital additions were \$5.0 million compared to \$9.6

- (1) On June 14, 2013, the Board authorized the 2013 Program to repurchase up to \$350 million of Signet's common shares. The 2013 Program may be suspended or discontinued at any time without notice. The 2013 Program had \$325.0 million remaining as of August 3, 2013.
- (2) In October 2011, the Board authorized the 2011 Program to repurchase up to \$300 million of Signet's common shares, which authorization was subsequently increased to \$350 million. The 2011 Program was completed as of May 4, 2013.

Proceeds from exercise of share options

During the 26 weeks ended August 3, 2013, \$5.2 million was received for the exercise of share options pursuant to Signet's equity compensation programs compared to \$5.4 million in the 26 weeks ended July 28, 2012. Other than equity based compensation awards granted to employees and directors, Signet has not issued common shares as a financing activity for over ten years.

Movement in cash and indebtedness

Net cash and cash equivalents at August 3, 2013 were \$212.9 million compared to \$237.5 million as of July 28, 2012; see non-GAAP measures discussed herein. Signet has significant amounts of cash and cash equivalents invested in various AAA rated liquidity funds and at a number of financial institutions. The amount invested in each liquidity fund or at each financial institution takes into account the credit rating and size of the liquidity fund or financial institution and is invested for short-term durations.

Signet maintains its \$400 million Credit Facility which, at August 3, 2013 and July 28, 2012, was undrawn, with no intra-period borrowings. Signet had stand-by letters of credit of \$9.5 million and \$8.2 million as of August 3, 2013 and July 28, 2012, respectively.

OBLIGATIONS AND COMMITMENTS

Signet's contractual obligations and commitments at August 3, 2013 and the effects such obligations and commitments are expected to have on Signet's liquidity and cash flows in future periods have not changed materially outside the ordinary course from those disclosed in Signet's Annual Report on Form 10-K for the year ended February 2, 2013, filed with the SEC on March 28, 2013.

SEASONALITY

Signet's sales are seasonal, with the first and second quarters each normally accounting for slightly more than 20% of annual sales, the third quarter a little under 20% and the fourth quarter for about 40% of sales, with December being by far the most important month of the year. Sales made in November and December are known as the Holiday Season. Due to sales leverage, Signet's operating income is even more seasonal; about 45% to 50% of Signet's operating income normally occurs in the fourth quarter, comprised of nearly all of the UK division's operating income and about 40% to 50% of the US division's operating income.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Edgar Filing: SIGNET JEWELERS LTD - Form 10-Q

The preparation of financial statements in accordance with US GAAP requires management to adopt accounting policies and make significant judgments and estimates to develop amounts reflected and disclosed in the financial statements. In many cases, there are alternative policies or estimation techniques that could be used. Management maintains a process to review the application of Signet's accounting policies and to evaluate the appropriateness of the many estimates that are required to prepare the financial statements of a multinational organization. However, even under optimal circumstances, estimates routinely require adjustment based on changing circumstances and the receipt of new or better information. There have been no material changes to the policies and estimates as discussed in Signet's Annual Report on Form 10-K for the year ended February 2, 2013, filed with the SEC on March 28, 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Signet is exposed to market risk from fluctuations in foreign currency exchange rates, interest rates and precious metal prices, which could affect its consolidated financial position, earnings and cash flows. Signet manages its exposure to market risk through its regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. Signet uses derivative financial instruments as risk management tools and not for trading purposes.

As certain of the UK division's purchases are denominated in US dollars and its net cash flows are in pounds sterling, Signet's policy is to enter into foreign currency forward exchange contracts and foreign currency swaps to manage the exposure to the US dollar. Signet also hedges a significant portion of forecasted merchandise purchases using commodity forward contracts. These contracts are entered into with large, reputable financial institutions, thereby minimizing the credit exposure from our counterparties.

Signet has significant amounts of cash and cash equivalents invested at several financial institutions. The amount invested at each financial institution takes into account the long-term credit rating and size of the financial institution. However, with the current financial environment and the possible instability of financial institutions, Signet cannot be assured that it will not experience any losses on these balances. The interest rates earned on cash and cash equivalents will fluctuate in line with short-term interest rates.

Signet's market risk profile as of August 3, 2013 has not materially changed since February 2, 2013. The market risk profile as of February 2, 2013 is disclosed in Signet's Fiscal 2013 Annual Report on Form 10-K, filed with the SEC on March 28, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended. Based on this review, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of August 3, 2013.

Changes in Internal Control over Financial Reporting

During the second quarter of Fiscal 2014, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
