Item 11. Executive Compensation.

EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis (CD&A) describes our executive compensation programs and explains how the Compensation Committee (also referred to herein as the Committee) made its compensation decisions for our named executive officers (also referred to in this CD&A as NEOs) for fiscal year 2014. The NEOs for 2014 are:

Chairman and Chief Executive Officer, Roland Smith;

President, North America, Mark Cosby;

Executive Vice President and Chief Financial Officer, Stephen Hare;

Executive Vice President and Chief People Officer, Michael Allison; and

Executive Vice President, Chief Legal Officer and Corporate Secretary, Elisa Garcia.

Overview of 2014 Compensation

In connection with the Company's merger with OfficeMax on November 5, 2013 (the Merger), we made measurable progress in 2014 towards integrating both companies and creating a culture focused on achieving our critical priorities and instilling our core values. By the end of 2014, we began to see positive results of the Merger, including cost synergy realization and enhanced efficiencies, as we developed and executed our strategies for future growth. Our executives successfully executed key business initiatives that are yielding positive results. In particular, significant progress has been made towards achieving key objectives established by the Board which we believe will position the Company for improved performance in 2014 and later years. Below is a summary of our significant achievements from 2014:

Built a new leadership team, comprised of executives from both Office Depot and OfficeMax as well as outside talent that allowed us to significantly exceed estimates of realizable synergy savings;

Established a new, combined Company high-performance culture that drives employee engagement and embodies Office Depot's five core values and ten guiding principles;

Completed 168 U.S. retail store closures and achieved a store-to-store sales transfer rate of more than 30%;

Exceeded expectations for merger integration synergies:

- i Realized approximately \$290 million of synergies;

- i Increased total expected annualized run rate synergies from an initial target range of \$400 million-\$600 million to more than \$750 million, including more than \$100 million from Office Depot's retail portfolio optimization, by the end of 2016;

- i Exited 2014 at a run rate of annualized merger integration synergies of more than \$500 million; and

Table of Contents

Nearly tripled adjusted operating income to \$289 million from \$99 million pro forma in 2013, significantly increasing profit margins. A reconciliation to operating income as of the fiscal year ended December 27, 2014 is attached as Annex A to this Annual Report on Form 10-K, as amended.

Immediately following the Merger in November 2013, and into fiscal year 2014, the Committee reviewed the existing compensation programs of Office Depot and OfficeMax, as well as individual compensation arrangements of executive officers, with the understanding that there would be a considerable level of uncertainty and volatility throughout the course of the year in light of the fact that (1) the Company was onboarding and under the leadership of a new Chief Executive Officer, (2) key management positions had yet to be filled, and (3) the Company was embarking on a significant integration and restructuring process as a result of the Merger. The Committee also engaged in discussions with the Company's shareholders to understand their thoughts or concerns related to our executive compensation programs. The Committee further examined best compensation practices within the industry where we compete for executive talent. Based on this review, and in consideration of the considerable challenges and uncertainties of the Merger, the Committee designed a new executive compensation program. The revised program is designed to harmonize the previous programs of Office Depot and OfficeMax so that the Company's management team participates in a single, consistent compensation program. It is also intended to focus the management team on achieving the key financial and strategic goals that will enable a successful transaction and drive sustainable shareholder value creation. Our compensation philosophy continues to be based on achieving the following three objectives:

COMPENSATION PHILOSOPHY

Accountability for Business Performance	Tie compensation in large part to the Company's financial and operating performance, so that executives are held accountable through their compensation for the performance of the business for which they are responsible and for achieving the Company's Annual Operating Plan.
Accountability for Long-Term Performance	Include meaningful incentives to create long-term shareholder value while not incentivizing excessive risk taking.
Competition	Reflect the competitive marketplace, so the Company can attract, retain, and motivate talented executives throughout the volatility of business cycles.

What are the elements of our NEO compensation packages?

The various elements of compensation paid by the Company are intended to reflect our compensation philosophy and (1) provide an appropriate level of financial certainty through fixed compensation, (2) ensure that at least 50% of equity compensation is performance-based, and (3) create a balance of long-term and short-term incentives.

COMPENSATION ELEMENT	PURPOSE
Base Salary	Provide financial predictability and stability through fixed compensation that is less than a majority of total compensation at target;

Short-Term Incentives
(our Annual Cash Bonus
Plan)

- Provide a salary that is market competitive;
- Promote the retention of executives; and
- Provide fixed compensation that reflects the scope, scale and complexity of the executive's role.
- Align management and shareholder interests;
- Incentivize achievement of our Annual Operating Plan;

Mr. Cosby's role includes oversight of the Company's retail, contract sales, e-commerce, merchandising, marketing, real estate and supply chain functions in North America. In connection with the appointment, the Company entered into a letter agreement with Mr. Cosby effective July 21, 2014. Mr. Cosby's annual base salary is \$850,000, which may be increased from time to time, and he is entitled to participate in the Office Depot Annual Cash Bonus Plan at a target attainment of 100% of annual base salary. Mr. Cosby's participation in the 2014 Office Depot Annual Cash Bonus Plan will be pro-rated for time in position. Mr. Cosby is eligible to participate in the Company's Long-Term Incentive

Plan starting with the 2014 fiscal year. Mr. Cosby is also entitled to participate in the Company's benefits programs in accordance with their terms. For additional information regarding the terms of the Letter Agreement and Mr. Cosby's compensation package, please refer to Summary of Executive Agreements and Potential Payments Upon Termination or Change in Control Agreements with Mark Cosby as President, North America. In addition to Mr. Cosby's appointment as President, North America, the Company also filled other key management positions during 2014, including the hiring of a new Executive Vice President and Chief Strategy Officer and Executive Vice President, Retail.

What were the significant actions taken by the Compensation Committee in 2014?

During 2014, the following Compensation Committee actions were of particular significance:

The Committee changed the 2013 metrics for the Office Depot Annual Cash Bonus Plan for fiscal 2014 from Selling, General & Administrative expense (SG&A), gross profit dollars and sales to a threshold funding metric based on free cash flow and a performance metric of adjusted operating income. The

Table of Contents

Committee believes that these two metrics incentivize achievement of Merger synergies, are elements that directly impact shareholder value and are straight forward and understandable by all stakeholders. Actual payouts for fiscal 2014 were based on the level of adjusted operating income. The Compensation Committee had the ability to exercise negative discretion and decrease payouts if such bonuses were not, in the Committee's opinion, appropriately earned or should not be paid;

The Committee changed the performance period of the performance stock units from one-year to three-years to better tie the compensation program to long-term performance and to promote retention. In addition, the Compensation Committee changed the metrics for the performance stock units for fiscal 2014 from EBIT and free cash flow to a threshold funding metric based on free cash flow and a performance metric of three-year cumulative adjusted operating income. While the performance metrics in the PSU program are identical to those in the Office Depot Annual Cash Bonus Plan, the period over which results are measured is different. The Committee determined that in order for the Company to achieve its critical priorities, focusing management on free cash flow and adjusted operating income goals would provide a strong emphasis on capturing synergies which is essential to the creation of shareholder value as well as a focus on driving revenue growth which is imperative to Merger success. Focusing on adjusted operating income over a three-year period under the 2014 long-term incentive program balances the one-year focus on this metric under the 2014 Office Depot Annual Cash Bonus Plan. Actual payouts will be based on the level of cumulative adjusted operating income for the three-year performance period. The Compensation Committee has the ability to exercise negative discretion and decrease payouts if such awards were not, in the Committee's opinion, appropriately earned or should not be paid;

The Committee approved a new Executive Change in Control Severance Plan (the "CIC Plan") for several key executives, including the NEOs (other than the CEO), pursuant to which the Company will provide certain severance pay and other benefits in the event of our executives qualifying termination in connection with a change in control. The CIC Plan replaces the legacy change in control severance arrangements with a single plan as part of the harmonization of compensation arrangements following the Merger and ensures that treatment for other NEOs is appropriately consistent with that of our Chief Executive Officer. Ms. Garcia and Mr. Allison have legacy agreements with an expiration date of November 5, 2015, and may only participate in the CIC Plan upon the expiration of their legacy agreements; and

The Committee modified the Company's stock ownership guidelines for the executives, including the NEOs, to make the standards more robust and in line with current corporate governance trends. The revised guidelines require, among other things, that the NEOs satisfy the ownership requirement by holding Company stock as a multiple of their base salary rather than as a fixed number of shares. Furthermore, the Compensation Committee changed the types of equity considered for the purposes of determining compliance with the stock ownership guidelines to only include earned or vested equity.

In addition to the actions taken by the Committee as described above, the Board adopted an anti-pledging policy which prohibits pledging of Company securities by our directors and executive officers.

What Were the Results of Our Advisory Vote to Approve Executive Compensation?

At the 2014 annual meeting of shareholders, our shareholders were given the opportunity to cast an advisory vote for or against the compensation of our named executive officers in fiscal 2013. On the advisory say-on-pay vote, approximately 69% of the votes cast voted for our executive compensation. The Compensation Committee considered

the results of the vote and reviewed the Company's executive compensation program to ensure that the executive team and their compensation were appropriate to meet the Company's post-Merger annual and long-term strategic and business objectives.

Table of Contents

Prior to the 2014 Annual Meeting of Shareholders, the Chairman of the Compensation Committee, several members of the Committee and the Lead Director participated in discussions with investors collectively representing more than 50% of our share ownership. During our discussions, we sought to:

Understand what, if any, issues or comments that our shareholders might have regarding our executive compensation program;

Review shareholder recommendations and opportunities for improvement with respect to our pay models; and

Answer any questions shareholders might have on executive compensation and governance.

In response to our discussions with shareholders and as part of our ongoing evaluation of all elements of our executive compensation program, we took the following actions in fiscal year 2014:

Enhanced our stock ownership guidelines by: (1) requiring that all NEOs satisfy the ownership requirement by holding Company stock equal to a multiple of base salary rather than as a fixed number of shares, (2) eliminating the five-year grace period for compliance, and (3) revising the types of equity considered for purposes of determining compliance with the stock ownership guidelines to make the ownership requirement more robust; and

Adopted an anti-pledging policy that prohibits pledging of the Company's securities by our directors and executive officers.

To ensure that investor feedback is considered in the design of our executive compensation programs, it is our standard practice to annually reach out to our shareholders regarding compensation matters. In the fall of 2014, prior to the design of our 2015 executive compensation programs, the Chairman of the Compensation Committee, along with the Chief People Officer, Chief Legal Officer and Vice President, Investor Relations met with, in person or via teleconference, holders of collectively more than 50% of our outstanding shares. Based on discussions with investors, we identified some, selected concern about the use of common metrics in the annual and long-term plans. It was the Committee's original intent to select different long-term incentive metrics for 2015, however, given the continued emphasis on maximizing synergies from the Merger and revenue growth to create shareholder value, together with the impending merger with Staples, the Committee decided to use free cash flow and adjusted operating income which would keep management focused on achieving these critical priorities.

How Do Our Pay Practices Compare To Best Practices?

Our 2014 executive compensation program was based on a compensation philosophy developed by our Compensation Committee, with the advice of its independent compensation consultant, F.W. Cook & Co. (F.W. Cook). The Compensation Committee is guided by the following key principles in determining the compensation structure for our executives:

WHAT WE DO

Independent compensation consultant Our Compensation Committee receives advice from an independent compensation consultant, which reports directly to the Compensation Committee and provides no other direct services to the Company.

WHAT WE DON'T DO

No tax gross ups Other than for taxes for the receipt of relocation benefits, which are generally available to all of our relocated employees and amounts for costs related to personal expenses associated with attending Company sponsored events, none of our NEOs receive gross-ups for taxes on personal benefits.

How Does Our Compensation Program Support Pay-For-Performance?

The Compensation Committee annually reviews the total mix of compensation for our NEOs, which includes a significant portion of variable performance-based incentives that are linked to the attainment of critical performance targets and changes in shareholder value. The Compensation Committee believes that each of these elements provides a meaningful reward opportunity to the NEOs, focuses our leadership team on the key drivers of success for the near- and long-term, and therefore supports the Company's short-term and long-term strategic objectives and links realized pay directly to performance.

As seen in the charts below, and as earlier discussed, a significant portion of our targeted compensation for our NEOs in 2014 was performance-based. More specifically, the compensation mix for Messrs. Smith, Hare, Cosby and Allison, and Ms. Garcia is reflected in the charts below.

Effective November 12, 2013, Mr. Smith was appointed Chairman and CEO of the Company and in determining Mr. Smith's compensation, the Committee recognized his important role in building the management team of the combined Company and leading the Company through the post-merger integration process. However, Mr. Smith was not eligible to participate in the 2014 Long-Term Incentive Program and therefore his 2014 compensation does not include any amounts with respect to said incentive program.

Mr. Hare was appointed CFO of the Company on December 2, 2013 and the compensatory arrangements for Mr. Hare did not allow for participation in the 2014 Long-Term Incentive Program.

Mr. Cosby was appointed President, North America of the Company on July 21, 2014 and received a new hire sign-on-equity award equal to a value of \$1,000,000 and a sign-on bonus of \$500,000. Neither the new hire sign-on equity award or the sign-on bonus are reflected in the chart. In addition, Mr. Cosby's salary and bonus were annualized for the purpose of this chart.

In 2013, the Company entered into a retention agreement with Mr. Allison under which he earned a retention payment of \$500,000 paid on June 30, 2014. This retention award is not reflected in the chart.

What Was the Total Direct Compensation For Our NEOs During Fiscal 2014?

Base Salaries

During 2014, the Compensation Committee reviewed the base salary of our NEOs and considered the base salaries of comparable positions in our Peer Group, as discussed below under the heading *How is peer group data used by the Compensation Committee?*, as well as our NEOs performance and changes in responsibility. The Compensation Committee generally structures base salary to approximate the median of our Peer Group.

In fiscal 2014, after reviewing the Peer Group data for our NEOs and after further consideration of the expanded scope and complexity of their roles following the Merger, the Committee determined that a 15% base salary increase for Ms. Garcia, and an approximately 16.7% base salary increase for Mr. Allison were warranted to bring their targeted cash compensation to the median of the Peer Group.

For additional information regarding the base salaries of our NEOs as of December 27, 2014, please refer to the Summary Compensation Table.

Office Depot Annual Cash Bonus Plan

In fiscal 2014, the Compensation Committee simplified our 2014 Office Depot Annual Cash Bonus Plan by choosing adjusted operating income as the new performance metric for all of our NEOs except for Mr. Cosby who began his employment in July 2014. In fiscal year 2013, the metrics for the Office Depot Annual Cash Bonus Plan included SG&A expense, gross profit dollars and Sales. For fiscal 2014, the Compensation Committee reviewed the Annual Operating Plan approved by the Board and the key performance measures for the Company's business. The Compensation Committee determined to structure the 2014 Office Depot Annual Cash Bonus Plan with free cash flow as a threshold funding metric and adjusted operating income as the primary performance metric.

In determining the performance targets for fiscal 2014, the Compensation Committee, employing rigorous compensation and incentive goal setting processes, chose performance targets that reflected stretch goals. Accordingly, if the Company's free cash flow was lower than negative \$400 million, no bonus would have been paid under the Office Depot Annual Cash Bonus Plan regardless of how the Company performed on other metrics. This threshold free cash flow funding metric was also intended to incentivize management to focus on expense reduction and capturing synergies from the Merger. In addition, greater cash flow leads to liquidity growth and creditor and vendor confidence. Due to the Company successfully capturing and exceeding expectations surrounding its merger integration synergies, the achievement of which was uncertain when the Compensation Committee set its performance targets in 2013, the Company attained its free cash flow target.

Actual payouts under the Office Depot Annual Cash Bonus Plan were based on the realized level of adjusted operating income and the Compensation Committee's exercise of negative discretion to decrease payouts if such bonuses were not, in the Committee's opinion, appropriately earned or should not be paid. The Compensation Committee selected adjusted operating income as the primary performance metric because it focused management on the key short-term drivers of sustainable value creation, including revenue generation, cost reduction and synergy realization, each of which is critical in driving earnings improvement. The Compensation Committee believed that the adjusted operating income metric directly impacts shareholder value and is easy to communicate to our various constituencies. For fiscal year 2014, the Compensation Committee set the target adjusted operating income goal at \$164 million, which was approximately 65% above the Company's pro forma adjusted operating income for 2013 of \$99 million. The maximum adjusted operating income target of \$197 million was intended to be a stretch goal that was approximately 100% above pro forma adjusted operating income for 2013 and was intended to be very difficult to

achieve. Notwithstanding the uncertainty at the beginning of the performance period for 2014 related to the onboarding of a new Chief Executive Officer, building a new management team and embarking on a significant integration and restructuring process as a result of the Merger, the Company exceeded its performance goals for 2014, nearly tripling adjusted operating income to \$289 million from pro forma \$99 million in 2013.

Table of Contents

The 2014 bonus metric was designed to allow for payouts to be determined within the range of threshold and maximum, so long as the minimum free cash flow performance threshold was achieved. Our Office Depot Annual Cash Bonus Plan payout was capped at 150% of target payout, as the Compensation Committee believed this cap was market competitive and, given the difficulties in predicting performance in the first full year following the Merger, fair to both management and our shareholders to protect against a windfall if the target goal was not as challenging as expected.

When considering whether the Company has reached the target performance metric for a payout under the Office Depot Annual Cash Bonus Plan, the Compensation Committee may determine to exclude significant unplanned and extraordinary items that may distort the Company's performance after the Finance & Integration Committee has concluded that such adjustments were unplanned and extraordinary. This practice ensures that our executives will not be unduly influenced in their day-to-day decision-making because they would neither benefit nor be penalized as a result of certain unexpected and uncontrollable events or strategic initiatives that may positively or negatively affect the performance metric in the short-term.

In 2014, the Compensation Committee determined that certain expenses and adjustments, which the Finance & Integration Committee determined were unplanned and extraordinary, would be excluded from the determination of performance. These adjustments include adjustments to reflect the sale of OfficeMax de Mexico, impairments related to our North American stores and goodwill, restructuring charges, merger integration expenses and significant legal accruals. These items are quantified in the footnotes to the financial statements included in the Company's Original Form 10-K for the fiscal year ended December 27, 2014. These extraordinary and unplanned items resulted in net adjustments to the calculation of achievement of the adjusted operating income metric.

For purposes of determining the level of achievement for each of the bonus metrics under the 2014 Office Depot Annual Cash Bonus Plan for all of the NEOs (other than Mr. Cosby), the Compensation Committee reviewed the Company's 2014 audited financial statements approved by the Board's Audit Committee. For fiscal year 2014, the Company achieved the free cash flow funding metric with free cash flow of \$33 million and with adjusted operating income of \$289 million. The Company's significant achievement above the performance metric target was due to management's significant achievement in realizing merger synergies. While the Company expected to realize approximately \$170 million in total annual run-rate synergies during 2014 and end the year with annual run-rate synergies of approximately \$340 million, actual achievement at the end of 2014 in these two measures was \$290 million and \$500 million, respectively. As a result of this significant achievement above targeted metrics, the Compensation Committee authorized bonuses under the 2014 Office Depot Annual Cash Bonus Plan to be paid at 150% of target to all of the NEOs (other than Mr. Cosby).

When Mr. Cosby joined the Company in July 2014, the Compensation Committee determined that because Mr. Cosby as President, North America is primarily responsible for the operating results of the North American Division, his 2014 Annual Cash Bonus would be based on the same free cash flow threshold funding metric as the other NEOs but that his primary performance metric would also be based in part on a separate North American Division adjusted operating income target. Actual payouts under Mr. Cosby's 2014 Annual Cash Bonus were based (1) 75% on the realized level of the North America Division's adjusted operating income, (2) 25% on the realized level of total company adjusted operating income, and (3) the Compensation Committee's exercise of negative discretion to decrease payouts to an appropriate level. Further, Mr. Cosby's 2014 Annual Cash Bonus would be based on a target attainment of 100% of annual base salary pro-rated in 2014 based on his date of hire. For fiscal year 2014, the North American Division achieved adjusted operating income of \$236 million, and the Compensation Committee authorized a bonus to Mr. Cosby to be paid at 150% of target.

Adjusted Operating Income	\$148 million	\$164 million	\$197 million	\$289 million
North American Adjusted Operating Income	\$103 million	\$114 million	\$137 million	\$236 million

The threshold, target and maximum payout for each NEO are disclosed in the Estimated Future Payouts Under Non-Equity Incentive Plan Awards column of the Grants of Plan-Based Awards table below. The actual dollar amounts earned by the Office Depot NEOs in 2014, pursuant to the 2014 Office Depot Annual Cash Bonus Plan, are disclosed in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table below.

2014 Long-Term Incentive Program

The purpose of our long-term incentive program is to help retain our executive talent and further align the long-term interests of management with those of our shareholders. The objectives of long-term incentives and retention must be balanced such that successful, high-achieving employees remain motivated and committed even in periods of temporary market downturns or volatility in performance. As such, the Compensation Committee structured the 2014 LTIP for the NEOs (other than the CEO and CFO) consisting of:

- (i) 50% restricted stock units, which contain only a service condition, with vesting in three equal annual installments; and
- (ii) 50% performance stock units, which contain both a performance and service condition, with cliff vesting after three years.

In fiscal 2014, the Compensation Committee revised the performance measurement period for the performance stock units granted under the 2014 LTIP from a one-year performance period to a three-year performance period to better link the compensation program to long-term performance. In addition, the Compensation Committee revised the structure for the 2014 LTIP from one that used the two performance metrics of EBIT and free cash flow to one that is intended to qualify for tax deductibility under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code) with free cash flow as a threshold funding metric and cumulative adjusted operating income as the sole performance metric. The Compensation Committee determined that the sole performance metric of adjusted operating income would more closely align the interests of our executive officers with our shareholders and encourage long-term value creation for the Company. As with the 2014 Office Depot Annual Cash Bonus Plan, actual payouts will be based on the level of adjusted operating income.

The performance metric for the performance stock units will be based on the achievement of a cumulative adjusted operating income target for the Company's 2014-2016 fiscal years. The payouts under this metric are designed to be calculated upon achievement of a result exceeding such target (subject to a maximum payout of 150% above target), or upon an achievement below such target, but above a threshold. The target payout for the performance shares was set taking into consideration the median of the Peer Group. If actual cumulative adjusted operating income over the three-year performance period ending fiscal year 2016 is less than threshold, then the performance stock units will be

forfeited. In addition, the Compensation Committee selected a three-year performance period for the performance stock units to provide sufficient alignment between management and long-term stockholder interests and serve as a retention tool for employees participating in the 2014 LTIP.

Table of Contents

Why Did the Company Use the Same Performance Measures in Both Its Annual and Long-Term Incentives Plans?

For 2014, the Compensation Committee concluded that, given the difficulties in predicting performance following the Merger, adjusted operating income would be the key driver of shareholder value in the first year of the post-Merger Company because it focuses on achievement of Merger synergies and revenue generation. In addition, the Compensation Committee believed that the management team would perform better when it is focused on one reinforced, well understood metric that balances revenue, cost and profit objectives. The use of adjusted operating income would allow management to appropriately focus on driving down costs and achieving forecasted synergies, but also grow the top line. While the 2014 Office Depot Annual Cash Bonus Plan and the performance stock units granted under the 2014 LTIP both used the funding metric of free cash flow and the performance metric of adjusted operating income, the performance periods for the 2014 cash bonus and 2014 LTIP performance stock units are different, which ensures a balanced focus over the near- and long-term. The three-year performance period for the performance stock units granted under the 2014 LTIP ensures that NEOs are focused on sustainable, long-term performance. Furthermore, the Company has various controls in place to mitigate potential risk-taking as a result of the use of a single performance metric. These controls include a clawback policy, negative discretion used by the Compensation Committee to ensure that annual bonus and performance stock unit payouts are appropriate as well as robust executive stock ownership guidelines to ensure that NEOs are long-time shareholders of the Company.

What are the key decisions of the Compensation Committee on 2015 executive compensation?

Although in fiscal 2014 the Company exceeded expectations for capturing merger integration synergies from its November 2013 merger with OfficeMax, the Company faces certain challenges associated with understanding where synergy opportunities lie within the combined Company. In order to continue to align executive compensation to the interests of our shareholders as we continue to identify and capture synergies during our integration process, the Compensation Committee decided to maintain for fiscal year 2015 our existing performance metrics. In addition, the Compensation Committee adjusted the LTIP performance period from a three-year performance period to a one-year performance period in order to create greater focus on delivering the budget in the year in which a merger is pending. This objective was deemed critical by the Committee because performance often slips in situations in which companies face a long lag between merger announcement and closing. Notably, prior to the merger, the Committee anticipated the use of relative total shareholder return in the LTIP but subsequently decided against introduction of this metric for 2015 since the stock price performance would be heavily influenced by the merger transaction.

Executive Compensation Process and Governance

What was the process used to determine executive compensation in 2014?

During 2014, the Compensation Committee engaged F.W. Cook as its independent compensation consultant to provide the Committee with peer group data and to review and advise on executive compensation matters, including:

Overall compensation philosophy;

Design of our short-term and long-term incentive programs;

Peer Group (as defined below) for 2014;

Executive compensation disclosure and discussion of best practices for such disclosure; and

Benchmarking of certain policies and practices, including the Director and executive stock ownership guidelines.

Members of management, including our CEO, Mr. Smith, provided input to the Compensation Committee regarding executive compensation. The Company's management engaged Towers Watson to assist management in its executive compensation recommendations. Management provided input for Committee consideration regarding the performance metrics for the Company's 2014 Office Depot Annual Cash Bonus Plan and 2014 Long-Term Incentive Plan. In addition, the Compensation Committee also consulted with management to arrive at the proper alignment of its compensation philosophy with the Company's executive compensation programs and practices.

How is peer group data used by the Compensation Committee?

The Compensation Committee believes benchmarking is a useful method to gauge both the compensation level and compensation mix for executives within competitive job markets that are relevant to the Company. The Compensation Committee reviews data gathered from the proxy statements of our Peer Group (as defined below) for benchmarking purposes in its review and analysis of base salaries, bonuses, long-term incentives, and benefits/perquisites to establish our executive compensation program.

The Compensation Committee developed the following criteria to select the Company's Peer Group:

Companies with revenues within one-half to two and one-half times the Company's revenue;

Specialty retail companies with our same Global Industry Classical Standard code;

Companies with a mix of business-to-business and business-to-customer business models;

Companies with global operations;

Companies with a significant distribution function; and

Companies with whom we compete for executive talent.

Companies selected for the Peer Group were required to have a number of the characteristics described above, but not necessarily all of them.

Peer Group data is generally reviewed annually to determine if modifications to the Peer Group or the criteria used to determine the Peer Group are necessary. In April 2014, the Compensation Committee, in consultation with F.W. Cook, reviewed the Company's 2014 Peer Group to account for the Company's growth post-Merger. The Peer Group was modified to include companies for which our revenues in comparison would be at the median to the 75th percentile and our market cap would be at the 25th percentile.

Table of Contents

The following companies comprised our Peer Group for 2014 (the Peer Group):

Aramark Corporation	Family Dollar Stores, Inc.	Rite Aid Corporation
Arrow Electronics, Inc.	GameStop Corp.	Staples, Inc.
AutoNation, Inc.	Genuine Parts Company	Tech Data Corporation
Avnet, Inc.	J.C. Penney Company, Inc.	The Gap, Inc.
Bed Bath & Beyond Inc.	Kohl 's Corporation	The TJX Companies, Inc.
Best Buy Co., Inc.	L Brands Inc.	W. W. Grainger, Inc.
Dollar General Corporation	Macy 's, Inc.	

In addition to the benchmarking results, in making executive compensation decisions, the Committee generally considers:

The Company 's financial performance and the financial performance of the Peer Group when setting executive compensation;

Individual performance, tenure and responsibilities in the executive 's current position;

Target total direct compensation structures (i.e., sum of salary, annual bonus, and cash and equity awards);

Variable compensation program design; and/or

Benefit and perquisite offerings.

When making compensation decisions, the Compensation Committee considers each element of compensation individually (i.e. base salary, short-term incentives and long-term incentives), but also considers the target total direct compensation and mix of compensation paid to the NEOs.

Does the Compensation Committee take tax and accounting consequences into account when designing executive compensation?

Section 162(m) of the Code, generally does not allow a tax deduction to public companies for compensation in excess of \$1 million paid to the CEO or any of the other NEOs, excluding the CFO. Certain compensation is specifically exempt from the deduction limit to the extent that it does not exceed \$1 million during any fiscal year or is performance-based as defined in Code Section 162(m). The Compensation Committee strives to structure NEO compensation to be exempt from the deductibility limits set in Code Section 162(m) whenever possible. However, the Compensation Committee believes that tax deductibility is but one factor to consider in developing an appropriate compensation package for executives. As a result, the Compensation Committee reserves and will exercise its discretion in this area to design a compensation program that serves the long-term interests of the Company, but which may not qualify for tax deductibility as a result of Section 162(m).

In fiscal year 2014, a portion of the compensation paid to our NEOs will not be deductible for tax purposes pursuant to Code Section 162(m).

Table of Contents

In addition to Code Section 162(m), the Compensation Committee considers other tax and accounting provisions in developing the pay programs for the NEOs, including:

The special rules applicable to fair value based methods of accounting for stock compensation; and

The overall income tax rules applicable to various forms of compensation.

While the Compensation Committee generally tries to compensate the NEOs in a manner that produces favorable tax and accounting treatment, the main objective is to develop fair and equitable compensation arrangements that appropriately incentivize, reward, and retain the NEOs and aligns our performance goals with shareholder returns.

Share usage requirements and resulting potential shareholder dilution from equity compensation awards is also considered by the Compensation Committee in determining the size of long-term incentive grants.

Do we have change of control agreements with our NEOs?

The Compensation Committee believes that change in control agreements effectively incentivize executives to remain engaged and strive to create shareholder value in the event that the Company becomes an acquisition target or is targeting another company for acquisition, despite the risk of job loss or the loss of equity vesting opportunity. In addition, these arrangements are necessary to attract and retain qualified executives who may have other job alternatives that may appear to them to be less risky absent these arrangements, and these arrangements are particularly important to the Company given the high levels of competition for executive talent in the retail sector.

In 2014, the Compensation Committee approved the CIC Plan pursuant to which the Company will provide certain severance pay and other benefits to several key executives, including the NEOs (other than the CEO), who are viewed by the Company as critical to the continued leadership of the Company in the event of a change in control. The Company's use of a planned approach provides many benefits when compared to entering into individual change of control agreements with each NEO. In most instances, this method ensures consistent terms and provisions and allows the Company flexibility to amend or change its practices in response to market trends and best practices. The Company's CIC Plan includes features considered to be best practices including a double trigger for change of control benefits.

For a detailed description of our change in control agreements, please see the section entitled "Summary of Executive Agreements and Potential Payments upon Termination or Change in Control" on page 36. Mr. Smith's change in control provisions are included in his employment agreement, as described on page 38.

What types of perquisites are NEOs eligible to receive?

We provide the NEOs with a set of core benefits that are generally available to our other full-time employees (e.g., coverage for medical, dental, vision care, prescription drugs, annual physical, basic life insurance, long-term disability coverage), plus voluntary benefits that an NEO may select (e.g., supplemental life insurance).

In addition, we have a matching contribution to the 401(k) plan for all participants, including the NEOs, which is equal to 50% of employee deferrals on the first 4% of eligible earnings (up to plan limits). Although this matching contribution is below market, the Compensation Committee believes it is important to offer a benefit of this nature to further motivate and retain employees.

Consistent with the Peer Group and the current trend in executive compensation, we limit the perquisites provided to our NEOs. Other than the car allowances provided to our NEOs, perquisites are reserved for the attraction and retention of executive talent and to allow NEOs to efficiently handle the responsibilities of their position. The Company Aircraft Personal Use Policy states that the use of the Company-leased aircraft will be limited to the Chief Executive Officer and other executives as extenuating circumstance may require. Please see the Summary Compensation Table and the footnotes to such Table for further information concerning any such perquisites paid to our NEOs.

Do the Compensation Committee and Audit Committee review incentive plans to ensure that they do not encourage excessive risk-taking?

The Compensation Committee and Audit Committee jointly meet annually to review a report prepared by the Company's Internal Audit Department upon such Department's review of the design of each of the incentive plans for our regions, certain classifications of employees and business lines, and other relevant plans. Such report assesses whether or not any inappropriate actions had been taken under such plans, or whether such plans had any features to incentivize risk-taking.

The Committees jointly reported to the Board that they do not believe that any aspects of the 2014 compensation program encouraged the NEOs to take unnecessary and excessive risks. Additionally, the financial goals set forth in the Office Depot Annual Cash Bonus Plan and the long-term incentive program are based upon performance targets that the Compensation Committee believes are attainable without the need to take inappropriate risks or make material changes to the Company's business or strategy. Furthermore, the Long-Term Incentive Plan awards vest over a three-year period to encourage a longer-term perspective. Finally, the equity component of the Company's compensation program, coupled with the Company's stock ownership guidelines, align executive and long-term shareholder interests because value is linked to changes in Company stock price.

Does the Board have a clawback policy for bonuses and awards paid to NEOs in the event the Company restates its financial results?

In February 2010, the Board adopted a policy for recoupment of incentive compensation (the clawback policy). The clawback policy provides that if the Company restates its reported financial results for any period beginning after January 1, 2010, the Board will review the bonus and other awards made to executive officers based on financial results during the period subject to the restatement. To the extent practicable and in the best interests of shareholders, the Board will seek to recover or cancel any such awards that were based on having met or exceeded performance targets that would not have been met under the restated financial results.

Are there any restrictions on the ability of our NEOs to engage in transactions involving Company stock?

In February 2011, the Board adopted an anti-hedging policy which prohibits hedging transactions with respect to Company securities by our directors, executive officers and all other employees.

Furthermore, in October 2014, the Board adopted an anti-pledging policy which prohibits our directors and executive officers from using Company stock as collateral for any borrowing.

Are the NEOs subject to any minimum requirements regarding ownership of Company stock?

The Compensation Committee believes that the NEOs should maintain a meaningful equity interest in the Company through the ownership of stock. As such, the following stock ownership guidelines are in place for our NEOs:

<i>Position</i>	<i>Stock Ownership Requirement</i>
CEO	6x annual base salary
All other NEOs	3x annual base salary

Table of Contents

In 2014, we revised our stock ownership guidelines to be more robust and reflect current corporate governance trends. First, we required that all NEOs satisfy the ownership requirement by holding Company stock equal to a multiple of base salary rather than as a fixed number of shares. This requires NEOs to hold more shares in the event that the Company's stock price decreases. Second, we eliminated the five-year stock ownership grace period after becoming a Section 16(b) officer of the Company for NEOs. The CEO and NEOs are now only permitted to sell stock before meeting the ownership requirements if they retain 50% of the net shares (after shares are disposed of to pay for taxes and acquisition), which is in line with Peer Group practice. Third, we changed the types of equity considered for purposes of determining compliance with the stock ownership guidelines to equity that is earned or vested, in order to make the ownership requirement more robust, which is defined as the following:

Shares held outright (including restricted stock for which the restrictions have lapsed and shares purchased on the open market);

Vested RSUs that have been deferred for tax purposes; and

Shares held in 401(k) accounts.

The current guidelines are deemed competitive according to the market data provided by F.W. Cook. The Compensation Committee annually reviews each NEO's progress toward meeting the ownership guidelines.

COMPENSATION PROGRAMS RISK ASSESSMENT

In 2015, the Compensation Committee, in a joint meeting with the Audit Committee, assessed the Company's 2014 compensation programs and practices and concluded that such programs and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

The Company conducted a risk assessment that included a detailed qualitative and quantitative analysis of its compensation programs to which employees at all levels of the organization may participate, including the NEOs. The Compensation Committee also considers how the design of the Company's compensation programs compares to compensation programs maintained by our peer companies. Based on the Company's risk assessment, and the reviews done by the Compensation and Audit Committees, the Compensation Committee believes that the Company's 2014 compensation programs have been appropriately designed to attract and retain talent and properly incentivize employees to act in the best interests of the Company.

The Company has programs and features that are designed to ensure that its employees, including the NEOs, are not encouraged to take unnecessary risks in managing the Company's business, including:

Oversight of compensation programs (or components of programs) by the Compensation Committee;

Discretion provided to the Compensation Committee (including negative discretion) to set targets, monitor performance and determine final incentive award payouts;

Oversight of compensation programs (or components of programs) by a broad-based group of functions within the Company, including the Human Resources, Legal and Internal Audit departments;

A variety of programs that provide focus on both short-and long-term goals and that provide a balanced mixture of cash and equity compensation;

Incentives focused primarily on the use of financial metrics based on the annual operating plan which is approved by the Board;

Service-based vesting conditions with respect to equity-based awards; and

An incentive pay recoupment policy which provides for recoupment of incentive compensation in the event of a financial restatement.

The Company periodically monitors its incentive plans throughout the year to ensure that such plans do not encourage undue risk taking and appropriately balance risk and reward consistent with the Company's enterprise risk management efforts.

Table of Contents**SUMMARY COMPENSATION TABLE**

The following table provides information regarding the Company's Chief Executive Officer (Mr. Roland Smith), Chief Financial Officer (Mr. Stephen Hare) and the three other most highly compensated officers in 2014 (Mr. Mark Cosby, Ms. Elisa D. Garcia and Mr. Michael Allison), determined in accordance with the applicable SEC disclosure rules. The table provides information for 2012 and 2013 if the executive officer was included in the Company's Summary Compensation Table for those years.

- (1) Column (c) is used to record salary amounts that include cash compensation earned by each NEO during fiscal years 2014, 2013 and 2012 as well as any amounts earned in those years but contributed into an NEO's 401(k) Plan at the election of the NEO. Certain of our NEOs received prorated salaries in either 2013 or 2014, as applicable, due to the commencement date of their employment with the Company. The dollar amount in column (c) for Mr. Smith reflects his 2013 salary prorated for a November 12, 2013 start date. The dollar amount in column (c) for Mr. Hare reflects his 2013 salary prorated for a December 2, 2013 start date. The dollar amount in column (c) for Mr. Cosby reflects his 2014 salary prorated for a July 21, 2014 start date.

- (2) The dollar amounts in columns (e) and (f) reflect the aggregate grant date fair value of equity awards granted within the fiscal year under the 2007 LTIP and the 2003 OfficeMax Incentive and Performance Plan (the 2003 Plan), as applicable, in accordance with FASB ASC Topic 718 for stock-based compensation. These amounts reflect the total grant date fair value for these awards, and do not correspond to the actual value that will be recognized as income by each of the NEOs when received. Assumptions used in the calculation of these award amounts are included in Notes 1 and 13 to the consolidated financial statements included in our Original Form 10-K for the year ended December 27, 2014. For 2014, the aggregate grant date fair value of equity awards reported in column (e) reflects the grant date fair value of performance-based stock units plus the grant date fair value of time-vested restricted stock units granted to the NEOs. The grant date fair value of the performance-based stock units at the maximum level of achievement is \$2,625,000 for Mr. Cosby and \$675,000 for Mr. Allison and Ms. Garcia. Mr. Smith and Mr. Hare did not receive equity awards in 2014 because the grants of equity awards made to them in 2013 were intended to cover long-term incentives for 2013 and 2014.
- (3) Unless otherwise specified in this footnote, the amounts in column (g) reflect cash awards earned under the 2014 Office Depot Annual Cash Bonus Plan, which is previously discussed in more detail in the Compensation Discussion and Analysis (CD&A) under the Office Depot Annual Cash Bonus Plan section. In addition, amounts also include the performance cash payout of the third tranche of the 2012 Long-Term Incentive Program for Mr. Allison and Ms. Garcia. For the 2014 Annual Cash Bonus, the amount reported was based on fiscal year 2014 performance and was paid to all of the NEOs in March of 2015. The performance cash which was based upon fiscal year 2012 performance is subject to vesting in the following manner: 1/3 of the award

Table of Contents

was paid to NEOs in March 2013 after the 2012 results were certified by the Compensation Committee, while the remaining 2/3 of the award was paid in equal installments in March 2014 and March 2015 provided that the NEO remained employed with the Company. Accordingly, the final 1/3 tranche is reported as earned by the eligible NEOs in 2014.

- (4) The dollar amounts in column (i) summarize the amounts included in the Other Compensation Table for Fiscal Year 2014 that follows, which reflects the types and dollar amounts of perquisites and other personal benefits provided to the NEOs during the fiscal year 2014. For purposes of computing the dollar amounts of the items listed in the Other Compensation Table, except as otherwise noted, the actual incremental costs to the Company of providing the perquisites and other personal benefits to the NEOs was used. Each perquisite and other personal benefit included in the Other Compensation Table that follows is described in more detail in the narratives immediately following the table.
- (5) The dollar amount in column (d) for Mr. Cosby represents a sign-on bonus paid to Mr. Cosby pursuant to the terms of his letter agreement and sign-on bonus agreement described under the section entitled Summary of Executive Agreements and Potential Payments upon Termination or Change of Control Executive Agreements Agreements with Mark Cosby as President, North America . This amount is contingent upon his continued service with the Company for 12 months following his start date.
- (6) The dollar amount in column (d) for Mr. Allison represents a retention bonus paid to him pursuant to the terms of his retention agreement described under the section entitled Summary of Executive Agreements and Potential Payments upon Termination or Change of Control Executive Agreements Agreements with Michael Allison as Executive Vice President and Chief People Officer .

- (1) Column (c) reflects the minimum payments each NEO could expect to receive if the Company reached at least its threshold performance goal set by the Compensation Committee in fiscal year 2014 under the 2014 Office Depot Annual Cash Bonus Plan. Threshold was set at 50% of target for all NEOs. The financial performance goal was targeted to pay out at 100% upon achievement with a maximum payout of 150% of target to be paid if target was exceeded. Column (d) reflects the target payments each NEO could expect to receive if the Company reached its target performance goals in 2014 under the 2014 Office Depot Annual Cash Bonus Plan. Each NEO's target annual bonus is expressed as a percentage of such officer's bonus eligible earnings. For 2014, the target bonus percentage was 150% of bonus eligible

earnings for Mr. Smith, 100% for Mr. Cosby, 85% for Mr. Hare and 75% for Mr. Allison and Ms. Garcia. Column (e) reflects the maximum payout each NEO could expect to receive if target was exceeded. Performance below threshold resulted in no bonus being paid. The bonus payouts were interpolated at a single rate between threshold and target and at a lower rate between target and maximum. See the Office Depot Annual Cash Bonus Plan section earlier in this Annual Report on Form 10-K, as amended for additional details on the 2014 Office Depot Annual Cash Bonus Plan.

- (2) Columns (f) through (h) reflect the threshold, target and maximum payouts for performance stock units granted pursuant to the Company's 2007 LTIP for Mr. Allison and Ms. Garcia and 2003 Plan for Mr. Cosby. NEOs will be eligible to earn all or a portion of an amount in excess of their target share award based on the Company's financial performance target for the Company's three-year cumulative fiscal period running from 2014 through 2016 relative to the threshold, target, and maximum levels established by the Compensation Committee. In addition to the Company satisfying at least the threshold performance condition, NEOs must also satisfy the service condition to become vested in their eligible award by remaining continuously employed by the Company from the date of grant until the vesting date on the third anniversary of the grant date. Further description of the NEO's 2014 long-term incentive award is discussed in the 2014 Long-Term Incentive Program section.
- (3) Column (i) represents time-vested RSUs granted pursuant to the Company's 2007 LTIP for Mr. Allison and Ms. Garcia and 2003 Plan for Mr. Cosby. The RSUs will vest one-third on each of the first, second and third anniversaries of the grant date, provided that each NEO is continuously employed by the Company from the grant date until each such anniversary date.
- (4) Column (l) is computed in accordance with FASB ASC Topic 718 for stock-based compensation. See Notes 1 and 13 of the consolidated financial statements in our Original Form 10-K for the year ended December 27, 2014 regarding assumptions underlying the valuation of equity awards. The grant date fair value of the equity incentive plan awards are based on the probable outcome at target. These amounts do not correspond to the actual value that will be recognized as income by each of the NEOs when received.

- (1) Represents grants of non-qualified stock options awarded to Messrs. Smith and Hare on November 12, 2013 and December 2, 2013, respectively, under the 2007 LTIP in connection with commencement of employment with the Company. The payout of the performance grant is dependent upon the attainment of the specific metrics established by the Committee. Mr. Smith received a grant of 1,199,616 time-vested RSUs with a service period ending on November 12, 2016. These grants are intended to cover long-term incentives for 2014 and 2015.
- (3) On December 2, 2013, Mr. Hare was granted two awards under the 2003 Plan. The first grant consists of 149,533 performance shares at target with an eligible payout of up to 150% of the target shares based on the achievement of certain financial measures established by the Committee over the 3-year performance period ending on December 31, 2016 and will cliff vest upon attainment, if any, of the specific performance criteria so long as Mr. Hare is continuously employed by the Company from the grant date through the performance end date. Mr. Hare received a grant of 229,533 time-vested RSUs with a service period ending on December 2, 2016. These grants were intended to cover long-term incentives for 2014.

Amounts will cliff vest upon attainment, if any, of the specific performance criteria so long as Mr. Cosby is continuously employed by the Company through the third anniversary of the grant date. Mr. Cosby received a grant of 345,167 time-vested RSUs with a grant date of July 21, 2014. These RSUs vest in three equal installments on the first, second and third anniversaries of the grant date so long as Mr. Cosby is continuously employed through those dates.

DIRECTOR COMPENSATION

Annual Retainer Fee

The Compensation Committee set the current compensation for the non-management directors at an annual targeted economic value (annual retainer fee) of \$200,000, with \$75,000 to be in the form of cash, payable in equal quarterly installments at the end of each quarter during which the director served; no deferrals of cash payments are permitted by the directors. The remaining \$125,000 of the annual retainer fee must be taken in the form of RSUs. The reason why our director compensation program is structured to have the majority of the annual retainer fee payable in equity is to more closely align our directors' compensation with the interests of our shareholders. The equity payment is typically granted in a lump sum as soon as administratively practicable following the release of election results from the annual shareholder meeting, which is generally held in April, and is automatically deferred and distributed in shares six months following termination of service on the Board. By granting equity compensation to directors using RSUs, the long-term interest of the directors in the Company is achieved without the additional accounting expenses from the use of a stock option grant.

The Lead Director and Audit Committee Chair each receive additional compensation of \$25,000 annually for serving in those roles, the Compensation Committee Chair and Finance & Integration Chair each receive additional compensation of \$20,000 annually for serving in their respective roles, and the Corporate Governance and Nominating Committee Chair receives an additional \$15,000 annually. The additional compensation for services as the Lead Director or as a committee chair must be taken in the form of RSUs.

The current amount of the annual retainer fee for our non-management directors was approximately at the median compensation of the boards of directors of our Peer Group for fiscal year 2010. Since then, each year the Compensation Committee reviews our directors' Compensation Program. At its review in December 2014, and based on compensation provided to non-management directors of the Peer Group, no changes were recommended to the dollar amount of the annual retainer fee payable to our non-management directors for 2015.

Director Stock Ownership Guidelines

Directors are required to own five times the directors' annual cash retainer, or \$375,000 (excluding chair retainer fees) in shares of the Company's common stock. Furthermore, directors must retain 100% of net shares awarded (after shares are disposed of to pay for taxes and acquisition) until termination of their service on the Board.

The Compensation Committee reviews the stock ownership guidelines for our directors annually, with the assistance from its independent compensation committee consultant, to ensure that such guidelines align with best market practices, including the practices of a majority of the Company's Peer Group, and with management's ownership guidelines. In addition, the Compensation Committee annually reviews each director's progress toward meeting the ownership guidelines.

**SUMMARY OF EXECUTIVE AGREEMENTS AND POTENTIAL PAYMENTS UPON
TERMINATION OR CHANGE IN CONTROL**

Overview

This section summarizes the key agreements governing the employment of the Named Executive Officers: Roland C. Smith, Stephen E. Hare, Mark Cosby, Michael Allison, and Elisa D. Garcia C. It also summarizes the potential payments that the NEOs stand to receive upon termination or a change in control of the Company. Providing these considerations allows Office Depot to attract top talent in a competitive sector, allows executives to focus on their jobs without distraction, and ensures that critical executives will remain committed to Office Depot's mission in the event of a change of control.

The receipt of severance benefits are conditioned on the NEO's agreement to a standard release, as well as continued observance of confidentiality, non-compete, and non-solicitation provisions in their agreements.

Benefits Upon Termination or Change in Control Under Executive Agreements

Roland Smith

Termination with Cause or without Good Reason. Mr. Smith's employment is terminable at will by either Mr. Smith or the Company. If Mr. Smith's employment is terminated because he does not extend his employment agreement, by the Company for Cause, by Mr. Smith without Good Reason, automatically by Mr. Smith's death or by the Company due to disability, then Mr. Smith will be eligible to receive:

Any accrued but unpaid base salary;

Any accrued but unused vacation;

Earned but unpaid annual bonus for the most recently completed calendar year;

Reimbursement for unreimbursed business expenses; and

Any other employee benefits (excluding equity compensation) as to which he may be eligible, (collectively the Accrued Items).

Termination without Cause or with Good Reason. If Mr. Smith is terminated without Cause or Mr. Smith terminates his employment for Good Reason, then Mr. Smith will be eligible to receive, subject to certain requirements and on the terms set forth in his agreement, the Accrued Items and:

Lump sum payment equal to two times the sum of his base salary and target bonus for the year in which the termination occurs;

Pro-rata annual bonus payment calculated based on actual performance for the year of termination; and

Reimbursement of COBRA payments for up to 18 months on the terms set forth in his employment agreement.

Treatment of Roland Smith's Equity Compensation. The options granted to Mr. Smith on November 12, 2013 will vest and become exercisable with respect to thirty-three percent of the option shares on each of the first and second anniversaries of the grant date and all remaining option shares on the third anniversary of the grant date. Upon termination of Mr. Smith's employment, the portion of the option that is unvested on the termination date will be forfeited and cancelled upon termination and the portion of the option that is vested and exercisable will remain

exercisable until the earlier of the Expiration Date and the date that is 12 months after the termination date (such earlier date, the Last Exercisable Date). However, if Mr. Smith's employment with the Company and its subsidiaries is terminated in certain circumstances, the option may vest or be forfeited and cancelled on other terms:

If Mr. Smith's employment is terminated for Cause, the option will be cancelled and forfeited upon termination;

If Mr. Smith's employment is terminated due to his death or Disability, the option will fully vest and become exercisable upon termination and will remain exercisable until the Last Exercisable Date;

In the event of his involuntary termination of employment without Cause or his termination of employment for Good Reason, in either case prior to the effective date of a Change in Control or more than 12 months after the effective date of a Change in Control, upon termination the option will vest and become exercisable with respect to the portion of the option that is scheduled to vest during the 12-month period following the date of his employment termination, all other unvested portions of the option will be cancelled and forfeited, and the exercisable portions of the option will remain exercisable until the Last Exercisable Date; and

In the event of his involuntary termination of employment without Cause or his termination of employment for Good Reason, in either case within 12 months after the effective date of a Change in Control, the option will fully vest and become exercisable upon termination and will remain exercisable until the Last Exercisable Date.

The RSUs granted to Mr. Smith on November 12, 2013 will vest on the third anniversary of the grant date. In general, upon Mr. Smith's separation from service with the Company and its subsidiaries, the RSUs awarded to him that are unvested on the separation date will be immediately forfeited. However, if Mr. Smith separates from service with the Company and its subsidiaries in certain circumstances, the RSUs may vest on other terms:

If Mr. Smith separates due to his death or Disability, the RSUs will vest upon separation;

In the event of his separation without Cause or for Good Reason, in either case prior to the effective date of a Change in Control or more than 12 months after the effective date of a Change in Control, upon separation a pro rata portion of the RSUs will vest, calculated as described in the restricted stock unit award agreement;

In the event of his involuntary separation without Cause or his separation for Good Reason, in either case within 12 months after the effective date of a Change in Control, the RSUs will fully vest upon the date of separation.

The performance shares granted to Mr. Smith on November 12, 2013 will be subject to the achievement of the performance measures during the performance period ending on December 31, 2016. In general, Mr. Smith will immediately forfeit the performance shares upon his termination of employment prior to the end of the performance period. However, if Mr. Smith's employment with the Company and its subsidiaries is terminated prior to the end of the performance period due to his death or Disability or without Cause or for Good Reason, Mr. Smith will vest in a pro rata portion of the eligible award (if any), which consists of the number of performance shares that the Committee determines that Mr. Smith is eligible to earn following December 31, 2016, calculated on the basis set forth in his performance share agreement.

Change in Control. The treatment of Mr. Smith in the event of a Change in Control is provided for in the various agreements setting forth the terms of his employment and compensation. Where Mr. Smith is terminated within 12 months following a Change in Control (as defined in his employment agreement, he will receive the same payments as described above in the Termination section for termination without Cause or for Good Reason except that the bonus calculation will be based upon either the year in which the termination occurs or the year immediately preceding the year in which the Change in Control occurs, whichever results in a larger payment.

In the event of a Change in Control, if the option is not assumed, substituted or otherwise continued on an equivalent basis by the surviving entity in the Change in Control, the option will become fully vested on the effective date of the Change in Control and shall be cancelled in exchange for a cash payment in an amount equal to (a) the excess of the Fair Market Value (as defined in the 2007 LTIP) per share of the Company common stock subject to the option immediately prior to the effective date of the Change in Control over the per share exercise price, multiplied by (b) the number of shares of Company common stock subject to the option.

In the event of a Change in Control, if the RSUs are not assumed, substituted or otherwise continued on an equivalent basis by the surviving entity in the Change in Control, the RSUs shall become fully vested on the effective date of the Change in Control and shall represent the right to receive the applicable Change in Control transaction consideration (if any) on the same basis as holders of Company common stock at the time of payment of the RSUs.

In the event of a Change in Control, (i) with respect to any portion of the Performance Shares associated with Performance Measures that are market-based (as specified in the Performance Share Agreement), performance shall be measured as of the effective date of the Change in Control, and (ii) with respect to any portion of the Performance Shares associated with non-market-based Performance Measures (as specified in the Performance Share Agreement), performance shall be deemed to be achieved at target. Within 60 days following the effective

date of the Change in Control, the Compensation Committee will determine the number of Performance Shares, if any, that Mr. Smith is eligible to earn (the "CIC Award"). The market-based and non-market-based Performance Measures will be set by the Compensation Committee within 90 days after the Effective Date.

In general, Mr. Smith will vest in the CIC Award on the date the Compensation Committee determines the CIC Award provided that he remains continuously employed by the Company or any subsidiary of the Company from the Effective Date through the end of the applicable Performance Period, and he will immediately forfeit the CIC Award upon his termination of such employment prior to the end of the applicable Performance Period. However, if Mr. Smith's employment with the Company and its subsidiaries is terminated in certain circumstances, the CIC Award may vest or be forfeited on other terms: (i) in the event of Mr. Smith's involuntary termination of employment without Cause or his termination of employment for Good Reason, in either case within 12 months after the effective date of a Change in Control, he will fully vest in the CIC Award on the date of employment termination; and (ii) in the event of Mr. Smith's involuntary termination of employment without Cause or his termination of employment for Good Reason, in either case more than 12 months after the effective date of a Change in Control, Mr. Smith will vest in a pro rata portion of the CIC Award (if any), which portion shall be calculated on the basis described in the performance share agreement. However, if in the event of a Change in Control the CIC Award is not assumed, substituted or otherwise continued on an equivalent basis by the surviving entity in the Change in Control, the CIC Award shall become fully vested on the effective date of the Change in Control.

Other NEOs

Termination Without Cause or With Good Reason. Pursuant to their individual employment agreements, if (i) Mr. Hare or Mr. Cosby are terminated by the Company without Cause or if they voluntarily terminate their employment with Good Reason or (ii) if Mr. Allison or Ms. Garcia are terminated due to no fault of their own, then the Company will pay them the following:

18 months of annual base salary in effect on the date of termination;

18 times the difference between the Company's monthly COBRA for the type of coverage in effect for executive on the date of termination and the applicable active employee monthly premium for such coverage; and

Pro-rata annual bonus calculated based on actual performance for the year of termination, payable at the same time as payments are made to other active participants in the annual bonus plan.

Mr. Allison and Ms. Garcia are eligible to receive the target annual bonus for the calendar year prior to the year of termination, where that annual bonus has not been paid as of the date of termination. Mr. Hare's severance benefits are not subject to mitigation or offset of future or potential earnings.

Treatment of Stephen Hare's Equity Compensation. The options granted to Mr. Hare on December 2, 2013 will vest and become exercisable with respect to thirty-three percent of the option shares on each of the first and second anniversaries of the grant date and with respect to all remaining option shares on the third anniversary of the grant date, provided that Mr. Hare is continuously employed by the Company or any subsidiary from the grant date until each such anniversary date. In addition, Mr. Hare received a grant of RSUs in 2013 and 2015 which vest on the third anniversary of the respective grant date. Generally, upon termination of Mr. Hare's employment prior to the third

anniversary of the grant date, the portions of the option shares and RSU award that are unvested on the termination date will be forfeited and cancelled. The exceptions to this are as follows:

If termination is due to death or disability, the option shares and RSUs will vest and become exercisable as to a pro rata portion of the option shares and RSUs; the remainder shall be forfeited.

If termination is by the Company without Cause or by Mr. Hare with Good Reason prior to a change in control, the Mr. Hare will vest in a pro rata portion of the option shares and RSUs and the remainder shall be forfeited.

Table of Contents

If termination is by the Company without cause or by Mr. Hare with Good Reason after a change in control within the period of enhanced severance benefits due to a change in control, the option shares and RSUs will become fully vested and exercisable as to all option shares, to the extent it has not previously vested and become exercisable, on the date of such employment termination.

If the termination takes place after a change in control and after the period of enhanced severance benefits, then Mr. Hare will vest in a pro rata portion of the option shares and RSUs and the remainder will be forfeited.

Regardless of whether Mr. Hare is terminated, if the option shares or RSUs are not assumed, substituted or otherwise continued on an equivalent basis by the surviving entity in a Change in Control, (i) the option shares shall become fully vested on the effective date of the Change in Control and shall be cancelled in connection with such Change in Control in exchange for a cash payment upon such Change in Control and (ii) the RSUs shall become fully vested on the effective date of the Change in Control.

If Mr. Hare terminates employment (i) by voluntarily terminating employment after completing at least five years of service, (ii) as a result of an involuntary termination without Cause, resignation for Good Reason, death, or termination on account of Disability, or (iii) due to Retirement (as defined in the 2007 LTIP), then the portion of the option shares that is vested and exercisable on the termination date will remain exercisable until the earlier of its expiration date and the date that is 12 months after the termination date; otherwise, the portion of the option that is vested and exercisable on the date of termination will remain exercisable until the earlier of its expiration date and the date that is 90 days after the termination date.

Regarding Mr. Hare's performance shares, the Committee will determine the number of performance shares, if any, that Mr. Hare is eligible to earn as soon as practicable following December 31, 2016. Upon the Committee's determination of Mr. Hare's performance with respect to the performance shares, Mr. Hare will immediately forfeit all performance shares other than his eligible award. To become vested in all or a portion of the eligible award, Mr. Hare must satisfy certain employment requirements. In general, Mr. Hare will vest in the performance stock award on the date the Compensation Committee determines the eligible award if he remains continuously employed by Office Depot or any subsidiary of Office Depot during the performance period, and he will immediately forfeit the performance shares upon his termination of such employment prior to the end of the performance period (December 31, 2016).

If Mr. Hare terminates employment with the Company and its Subsidiaries prior to December 31, 2016 due to death or disability, he will vest in a pro rata portion of his Eligible Award (if any) on the date on which the Committee determines his Eligible Award and will forfeit the remainder of his Eligible Award (if any) on such date. If termination is by the Company without Cause or by Mr. Hare with Good Reason prior to December 31, 2016 and prior to a change in control, Mr. Hare will vest in a pro rata portion of Eligible Award and the remainder of the eligible award (if any) will be forfeited.

In the event of a Change in Control, (i) with respect to any portion of the performance shares associated with performance measures that are market-based (as specified in the agreement), performance shall be measured as of the effective date of the Change in Control, and (ii) with respect to any portion of the performance shares associated with non-market-based performance measures (as specified in his performance share agreement), performance shall be deemed to be achieved at target.

The option shares are subject to transfer restrictions; the RSUs and performance shares may not be transferred. All awards are subject to Mr. Hare's compliance with the non-competition, confidentiality and non-solicitation covenants in the applicable agreements.

Table of Contents***New Executive Change in Control Severance Plan***

Background. Effective August 1, 2014, the Company adopted a new CIC Plan, to provide severance pay and other benefits to certain eligible NEOs. By the end of 2015, all non-CEO NEOs will be covered by this plan.

Applicability. Mark Cosby and Stephen Hare are participating in the CIC Plan. The change in control severance provisions in Michael Allison's and Elisa Garcia's individual agreements were triggered on November 5, 2013 with respect to the merger with OfficeMax. They will become eligible for participation in the CIC Plan after November 5, 2015 when the provisions in their individual agreements expire.

The severance pay and other benefits payable to an executive after a Change in Control under the CIC Plan will be paid in lieu of, and not in addition to, any severance benefits payable under any executive's existing offer letter, severance arrangement or other program or agreement on account of the executive's termination of employment with the Company.

Triggering Events. Pursuant to the CIC Plan, an executive will be eligible to receive certain severance pay and other benefits upon a separation from service that is initiated by (i) the Company other than for Cause; or (ii) the Executive for Good Reason, in either case during the time period commencing on the effective date of a Change in Control and until the earlier of (x) the two-year anniversary of the Change in Control trigger date, or (y) the date of the executive's separation from service by reason of Disability or death.

An executive will also be eligible to receive certain severance pay and other benefits if their separation from service is initiated by (a) the Company without Cause during the six-month period ending on the Change in Control trigger date at the request of a third party engaging in a transaction or series of transactions that would result in a Change in Control and in contemplation of a Change in Control, or (b) the executive for Good Reason during the six-month period ending on the Change in Control trigger date.

Payments. Under the CIC Plan, qualifying NEOs will be eligible to receive severance pay and other benefits as follows (collectively, the NEO Severance Benefits):

- i. **Pro-Rata Bonus for Year of Termination.** A lump sum cash payment equal to the pro-rata portion of the NEO's annual cash bonus based on actual achievement of the performance goals applicable for the performance period.
- ii. **Prior Year Bonus.** If the termination causes the NEO to forfeit payment of the NEO's annual cash bonus for a completed performance period, a lump sum cash payment equal to the full amount of the annual cash bonus which the NEO would have received based on actual achievement of the performance goals.
- iii. **Change In Control Severance Amount.** An amount equal to two (2) times the sum of the NEO's (i) base salary and (ii) Average Annual Bonus (as defined in the CIC Plan).
- iv. **COBRA Payment.** An amount equal to eighteen (18) times the monthly COBRA premium in effect on the date of the NEO's separation from service for the type of Company-provided group health plan coverage in effect for the NEO (e.g., family coverage) less the active employee premium for such coverage in effect on the date of the separation from service.
- v. **Equity and Long-Term Incentives.** Any outstanding equity or long-term compensation grant shall be treated in accordance with the terms of the applicable equity or long-term incentive compensation plan or award agreement.

under which the grant or award was made.

vi. *Outplacement.* Subject to the requirements of Section 409A as described in the CIC Plan, within sixty (60) days following the date of an NEO's separation from service, the Company will make available a twenty-four (24) month executive outplacement services package for such NEO.

Table of Contents

Any payment or benefit received or to be received by an NEO (whether payable under the terms of this CIC Plan or any other plan or arrangement with the Company or its affiliates) that would constitute a parachute payment within the meaning of Code Section 280G will be reduced to the extent necessary so that no portion will be subject to any excise tax but only if, by reason of such reduction, the net after-tax benefit received by such NEO exceeds the net after-tax benefit that would be received by such NEO if no reduction was made.

Conditions and Obligations. The receipt of Severance Benefits by an eligible NEO is subject to the execution by the NEO of a release (the Release), which contains customary restrictive covenants regarding release of claims against the Company, confidentiality, non-competition (twenty-four (24) months), non-solicitation (twelve (12) months), non-disparagement and cooperation. The Release must be delivered to the Company within the time period specified in the CIC Plan.

Legacy Change in Control Agreement

At the time of the merger, Michael Allison and Elisa Garcia were subject to the Company's legacy change in control agreement which provided for severance protections for two years from the date of a change of control. Under these legacy change in control agreements, in the event that such executive officer's employment is terminated by the Company without cause or initiated by the executive officer for good reason on or before November 5, 2015, the legacy change in control agreements provide that the covered executive officers will receive:

all vested and accrued, but unpaid, salary and benefits earned through the termination date;

a lump-sum cash severance payment equal to two times the sum of (x) the executive officer's annual base salary including any applicable car allowance and (y) the executive officer's target annual bonus for the fiscal year in which the date of the termination of employment occurs;

an additional cash payment equal to the executive officer's prorated target annual bonus amount for the fiscal year in which the date of termination of employment occurs;

a lump-sum cash payment equal to eighteen times the Company's monthly COBRA premium for the executive officer in effect on the date of termination of employment; and

an executive outplacement services package for a period of 24 months.

After November 5, 2015, the severance protections from the legacy change in control agreement will expire and the executive's treatment will be determined according to the CIC Plan described above.

- (1) Mr. Smith was appointed Chairman and CEO of the Company on November 13, 2013, subsequent to the merger with OfficeMax and, therefore, not considered to be in a change in control period, which means that his termination of employment on December 26, 2014 would be considered to be a termination prior to the occurrence of a change in control.

- (2) Retirement is generally treated as a voluntary termination for all programs and agreements except the 2003 Plan. Mr. Smith's 2013 restricted stock unit award agreement and 2013 performance share award agreement supersede the terms of the 2003 Plan as it relates to retirement, and provide that upon retirement Mr. Smith will not be entitled to payment of these awards.
- (3) Represents a lump sum payment equal to the pro-rata bonus, if any, that Mr. Smith would have earned for the year in which his termination occurs based on the actual achievement of applicable performance goals for such year.

- (5) In the event of his separation from service with the Company without Cause or for Good Reason, in either case prior to the effective date of a change in control, Mr. Smith will vest in his 2013 Restricted Stock Unit Award, prorated for service performed from the grant date through his termination date. The amount included in the table reflects the number of shares that would vest multiplied by the closing stock price of the Company's stock on December 26, 2014 of \$8.84.
- (6) In the event of his involuntary separation from service with the Company due to death or Disability, or his separation from service with the Company without Cause or for Good Reason prior to the effective date of a change in control, Mr. Smith will vest in his 2013 Performance Share Award, prorated for service performed from the beginning of the performance period through his termination date. The amount included in the table reflects the number of shares that would vest multiplied by the closing stock price of the Company's stock on December 26, 2014 of \$8.84.

- (7) In the event of his involuntary separation from service with the Company without Cause or for Good Reason, in either case within 12 months following a change in control, Mr. Smith fully vests in his 2013 Performance Share Award at target on the date of his termination. The amount included in the table reflects the number of shares that would vest multiplied by the closing stock price of the Company's stock on December 26, 2014 of \$8.84.
- (8) In the event of his involuntary separation from service with the Company due to death or Disability, or his separation from service with the Company without Cause or for Good Reason, in either case within 12 months following a change in control, Mr. Smith fully vests in the unvested portion of his 2013 Nonqualified Stock Option Award on the date of his termination. The amount included in the table reflects the number of options that would vest multiplied by the difference between the closing stock price of the Company's stock on December 26, 2014 of \$8.84 and the option exercise price of \$5.21.
- (9) In the event of his separation from service with the Company without Cause or for Good Reason, in either case prior to the effective date of a change in control, Mr. Smith will vest in one-third of his 2013 Nonqualified Stock Option Award on the date of his termination. The amount included in the table reflects the number of options that would vest multiplied by the difference between the closing stock price of the Company's stock on December 26, 2014 of \$8.84 and the option exercise price of \$5.21.
- (10) Reflects a payment under Mr. Smith's employment agreement dated November 12, 2013 equal to the sum of:
 (i) two times the sum of: Mr. Smith's base salary in effect on December 26, 2014 and Mr. Smith's target annual bonus, (ii) a payment equal to the pro-rata annual bonus for the 2014 performance period based on actual results, and (iii) 18 months of COBRA premiums based on the rate in effect on the date of his termination.
- (11) Reflects a payment under Mr. Smith's employment agreement dated November 12, 2013 equal to the sum of:
 (i) two times the sum of Mr. Smith's base salary in effect on December 26, 2014 and Mr. Smith's target annual bonus (or if greater, the year immediately preceding the year in which the Change in Control occurs), (ii) a payment equal to the pro-rata annual bonus for the 2014 performance period based on actual results, and (iii) 18 months of COBRA premiums based on the rate in effect on the date of his termination. In the event of a change in control, as defined under Section 280G of the Code, and a termination of Mr. Smith's employment on December 26, 2014, the total payments for Mr. Smith under the foregoing arrangement equal \$35,006,644, including \$24,839,210 for the accelerated vesting of his restricted stock, performance shares and stock options. However, these payments are subject to reduction if the parachute amounts associated with the payments under Section 280G of the Code equal or exceed three times Mr. Smith's average taxable compensation received from the Company for the five-year period ending December 31, 2013, and if he would receive more on an after-tax basis by reducing the payments than he would receive by getting all the payments and paying the 20% excise tax imposed by Section 4999 of the Code. Under the provisions, the severance payable to Mr. Smith would not be reduced, as his after-tax benefit is higher in the event he receives all severance payments and incurs all applicable income and excise taxes.

(1) Mr. Hare was appointed CFO of the Company on December 2, 2013, subsequent to the merger with OfficeMax. Therefore, Mr. Hare is not within a change in control period, which means that his termination of employment on December 26, 2014 would be considered to be a termination prior to the occurrence of a change in control.

(2) Retirement is generally treated as a voluntary termination for all programs and agreements except the 2003 Plan. Mr. Hare's 2013 restricted stock unit award agreement and 2013 performance share award agreement supersede the terms of the 2003 Plan as it relates to retirement and provide that upon retirement Mr. Hare will not be entitled to payment of these awards.

- (3) In the event of his separation from service with the Company due to death or Disability, Mr. Hare is entitled to a pro-rata payment under the 2014 Office Depot Annual Cash Bonus Plan calculated based on actual performance for the fiscal year in which the termination occurs.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Related Person Transactions Policy

Our Related Person Transactions Policy (the Policy) sets forth the procedures governing the review and approval or ratification of transactions between the Company, on the one hand, and (i) an executive officer; (ii) director; (iii) an immediate family member of an executive officer or director; (iv) any security holder who is known by the Company to own of record or beneficially more than five percent of any class of the Company s voting securities at the time of the transaction; or (v) an immediate family member of such five percent security holder, on the other hand. Persons in the categories described above are collectively referred to as related persons.

This Policy applies to all related person transactions, and under the Policy a related person transaction is any transaction:

In which the Company was or is to be a participant;

In which the amount exceeds \$120,000; and

In which any related person has, or will have, a direct or indirect material interest.

No related person transaction shall be approved or ratified if such transaction is contrary to the best interests of the Company. Unless different terms are specifically approved or ratified by the Corporate Governance and Nominating Committee, any approved or ratified transaction must be on terms that are no less favorable to the Company than would be obtained in a similar transaction with an unaffiliated third party under the same or similar circumstances. All related person transactions or series of similar transactions must be presented to the Corporate Governance and Nominating Committee for review and pre-approval or ratification. A copy of the Policy is available for review on the Corporate website at investor.officedepot.com under the headings Corporate Governance/Governance Documents.

On an annual basis, each Director and Executive Officer is required to complete a questionnaire which requires disclosure of any related person transaction. The Corporate Governance and Nominating Committee reviews any transaction disclosed.

During 2014, all transactions that were potentially subject to the Policy were reviewed and approved or ratified by the Corporate Governance and Nominating Committee. From time to time, the Company may have engaged in purchase and sale transactions for office products with Starboard and its portfolio companies. Any such transactions were conducted on an arm s length basis and are not material to Starboard.

Director Independence

The Board of Directors believes in the importance of experienced and independent directors. The Board of Directors evaluates the independence of each nominee for election as a director of our Company in accordance with the Corporate Governance Guidelines, which incorporate the applicable listing standards of The Nasdaq Stock Market. The Corporate Governance Guidelines require that a majority of our Board of Directors must be Independent within the meaning of the Nasdaq listing standards, and all directors who sit on our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee, must also be Independent directors.

All members of our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee have been determined by our Board of Directors to be Independent directors. Our Board of Directors has reviewed the various relationships between members of our Board of Directors and the Company and has affirmatively determined that none of our directors has a material relationship with the Company that would impair independence from management, other than Mr. Smith, who serves as our Chairman and CEO. Our Board of Directors has concluded that although certain of our directors were appointed by a large shareholder of the Company, a relationship with a shareholder of the Company in and of itself does not impair such directors of independent judgment in connection with their duties and responsibilities as directors of the Company.
