- (a) Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities are considered liquid and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At January 31, 2016, the aggregate market value of these securities amounted to \$11,465,844 or 2.6% of net assets.
- (b) Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Fund.
- (c) When-Issued or delayed delivery security.
- (d) Illiquid security.
- (e) Security is in default and is non-income producing.
- (f) To obtain a copy of the fund's financial statements, please go to the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov), or call AB at (800) 227-4618.

- (g) *Investment in affiliated money market mutual fund. The rate shown represents the 7-day yield as of period end.*
- (h) *As of January 31, 2016, the cost basis of investment securities owned was substantially identical for both book and tax purposes. Gross unrealized appreciation of investments was \$57,058,465 and gross unrealized depreciation of investments was \$(1,235,466), resulting in net unrealized appreciation of \$55,822,999.*
- (i) *Portfolio percentages are calculated based on net assets applicable to common shareholders.*
- As of January 31, 2016, the Fund's percentages of investments in municipal bonds that are insured and in insured municipal bonds that have been pre-refunded or escrowed to maturity are 3.8% and 0.2%, respectively.*

**AllianceBernstein National Municipal Income Fund****January 31, 2016 (unaudited)**

In accordance with U.S. GAAP regarding fair value measurements, fair value is defined as the price that the Portfolio would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability (including those valued based on their market values). Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Portfolio. Unobservable inputs reflect the Portfolio's own assumptions about the assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The fair value of debt instruments, such as bonds, and over-the-counter derivatives is generally based on market price quotations, recently executed market transactions (where observable) or industry recognized modeling techniques and are generally classified as Level 2. Pricing vendor inputs to Level 2 valuations may include quoted prices for similar investments in active markets, interest rate curves, coupon rates, currency rates, yield curves, option adjusted spreads, default rates, credit spreads and other unique security features in order to estimate the relevant cash flows which is then discounted to calculate fair values. If these inputs are unobservable and significant to the fair value, these investments will be classified as Level 3. In addition, non-agency rated investments are classified as Level 3.

Other fixed income investments, including non-U.S. government and corporate debt, are generally valued using quoted market prices, if available, which are typically impacted by current interest rates, maturity dates and any perceived credit risk of the issuer. Additionally, in the absence of quoted market prices, these inputs are used by pricing vendors to derive a valuation based upon industry or proprietary models which incorporate issuer specific data with relevant yield/spread comparisons with more widely quoted bonds with similar key characteristics. Those investments for which there are observable inputs are classified as Level 2. Where the inputs are not observable, the investments are classified as Level 3.

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of January 31, 2016:

<b>Investments in Securities:</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets:</b>				
Long-Term Municipal Bonds	\$ 0	\$ 689,590,932	\$ 20,207,034	\$ 709,797,966
Short-Term Investments	11,032,242	0	0	11,032,242
Total Investments in Securities	11,032,242	689,590,932	20,207,034	720,830,208
Other Financial Instruments*	0	0	0	0
<b>Total^</b>	<b>\$ 11,032,242</b>	<b>\$ 689,590,932</b>	<b>\$ 20,207,034</b>	<b>\$ 720,830,208</b>

\* Other financial instruments are derivative instruments, such as futures, forwards and swaps, which are valued at the unrealized appreciation/depreciation on the instrument.

^ There were no transfers between any levels during the reporting period.

The Fund recognizes all transfers between levels of the fair value hierarchy assuming the financial instruments were transferred at the beginning of the reporting period

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value.

Edgar Filing: ALLIANCEBERNSTEIN NATIONAL MUNICIPAL INCOME FUND - Form N-Q

	Long-Term Municipal Bonds	Total
<b>Balance as of 10/31/15</b>	<b>\$ 25,616,290</b>	<b>\$ 25,616,290</b>

Transfers out of Level 3	0	0
<b>Balance as of 1/31/16</b>	<b>\$ 20,207,034</b>	<b>\$ 20,207,034</b>
Net change in unrealized appreciation/depreciation from Investments held as of 1/31/16	\$ 233,922	\$ 233,922

As of January 31, 2016, all Level 3 securities were priced by third party vendors.

The Adviser established the Valuation Committee (the Committee) to oversee the pricing and valuation of all securities held in the Portfolio. The Committee operates under pricing and valuation policies and procedures established by the Adviser and approved by the Board, including pricing policies which set forth the mechanisms and processes to be employed on a daily basis to implement these policies and procedures. In particular, the pricing policies describe how to determine market quotations for securities and other instruments. The Committee's responsibilities include: 1) fair value and liquidity determinations (and oversight of any third parties to whom any responsibility for fair value and liquidity determinations is delegated), and 2) regular monitoring of the Adviser's pricing and valuation policies and procedures and modification or enhancement of these policies and procedures (or recommendation of the modification of these policies and procedures) as the Committee believes appropriate.

The Committee is also responsible for monitoring the implementation of the pricing policies by the Adviser's Pricing Group (the Pricing Group) and a third party which performs certain pricing functions in accordance with the pricing policies. The Pricing Group is responsible for the oversight of the third party on a day-to-day basis. The Committee and the Pricing Group perform a series of activities to provide reasonable assurance of the accuracy of prices including: 1) periodic vendor due diligence meetings, review of methodologies, new developments and process at vendors, 2) daily compare of security valuation versus prior day for all securities that exceeded established thresholds, and 3) daily review of unpriced, stale, and variance reports with exceptions reviewed by senior management and the Committee.

In addition, several processes outside of the pricing process are used to monitor valuation issues including: 1) performance and performance attribution reports are monitored for anomalous impacts based upon benchmark performance, and 2) portfolio managers review all portfolios for performance and analytics (which are generated using the Adviser's prices).

**ITEM 2. CONTROLS AND PROCEDURES.**

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective at the reasonable assurance level based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no changes in the registrant's internal controls over financial reporting that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**ITEM 3. EXHIBITS.**

The following exhibits are attached to this Form N-Q:

<b>EXHIBIT NO.</b>	<b>DESCRIPTION OF EXHIBIT</b>
3 (a) (1)	Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
3 (a) (2)	Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
