UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)

OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

Commission file number 001-15925

COMMUNITY HEALTH SYSTEMS, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of

incorporation or organization)

4000 Meridian Boulevard

Franklin, Tennessee

(Address of principal executive offices)

13-3893191

(I.R.S. Employer

Identification Number)

37067

(Zip Code)

615-465-7000

(Registrant's telephone number)

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer	Non-accelerated filer	Smaller reporting company
(Do not check if a smaller reporting company)			

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 27, 2016, there were outstanding 113,692,148 shares of the Registrant's Common Stock, \$0.01 par value.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements of Community Health Systems, Inc. (the Parent or Parent Company) and its subsidiaries (the Company) as of September 30, 2016 and December 31, 2015 and for the three-month and nine-month periods ended September 30, 2016 and 2015, have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). In the opinion of management, such information contains all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for such periods. All intercompany transactions and balances have been eliminated. The results of operations for the three and nine months ended September 30, 2016, are not necessarily indicative of the results to be expected for the full fiscal year ending December 31, 2016. Certain information and disclosures normally included in the notes to condensed consolidated financial statements have been condensed or omitted as permitted by the rules and regulations of the Securities and Exchange Commission (the SEC). The Company believes the disclosures are adequate to make the information presented not misleading. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2015, contained in the Company s Annual Report on Form 10-K filed with the SEC on February 17, 2016 (2015 Form 10-K).

Noncontrolling interests in less-than-wholly-owned consolidated subsidiaries of the Parent are presented as a component of total equity on the condensed consolidated balance sheets to distinguish between the interests of the Parent Company and the interests of the noncontrolling owners. Noncontrolling interests that are redeemable or may become redeemable at a fixed or determinable price at the option of the holder or upon the occurrence of an event outside of the control of the Company are presented in mezzanine equity on the condensed consolidated balance sheets.

Throughout these notes to the condensed consolidated financial statements, Community Health Systems, Inc., and its consolidated subsidiaries are referred to on a collective basis as the Company. This drafting style is not meant to indicate that the publicly traded Parent or any particular subsidiary of the Parent owns or operates any asset, business, or property. The hospitals, operations and businesses described in this filing are owned and operated by distinct and indirect subsidiaries of Community Health Systems, Inc.

Allowance for Doubtful Accounts. Accounts receivable are reduced by an allowance for amounts that could become uncollectible in the future. Substantially all of the Company s receivables are related to providing healthcare services to patients at its hospitals and affiliated businesses.

The Company estimates the allowance for doubtful accounts by reserving a percentage of all self-pay accounts receivable without regard to aging category, based on collection history, adjusted for expected recoveries and any anticipated changes in trends. The Company s ability to estimate the allowance for doubtful accounts is not impacted by not utilizing an aging of net accounts receivable as the Company believes that substantially all of the risk exists at the point in time such accounts are identified as self-pay. For all other non-self-pay payor categories, the Company reserves an estimated amount on historical collection rates for the uncontractualized portion of all accounts aging over 365 days from the date of discharge. These amounts represent an immaterial percentage of the outstanding accounts receivable. The percentage used to reserve for all self-pay accounts is based on the Company s collection history. The Company collects substantially all of its third-party insured receivables, which include receivables from governmental agencies.

Collections are impacted by the economic ability of patients to pay and the effectiveness of the Company's collection efforts. Significant changes in payor mix, business office operations, economic conditions or trends in federal and state governmental healthcare coverage could affect the Company's collection of accounts receivable and the estimates of the collectability of future accounts receivable and are considered in the Company's estimates of accounts receivable collectability. The Company also continually reviews its overall reserve adequacy by monitoring historical cash collections as a percentage of trailing net revenue less provision for bad debts, as well as by analyzing current period net revenue and admissions by payor classification, aged accounts receivable by payor, days revenue outstanding, the composition of self-pay receivables between pure self-pay patients and the patient responsibility portion of third-party insured receivables and the impact of recent acquisitions and dispositions.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Operating revenues, net of contractual allowances and discounts (but before the provision for bad debts), recognized during the three and nine months ended September 30, 2016 and 2015, were as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Medicare	\$ 1,170	\$ 1,334	\$ 3,866	\$ 4,115
Medicaid	531	663	1,676	1,865
Managed Care and other third-party payors	2,741	2,870	8,580	8,763
Self-pay	642	713	2,006	2,097
Total	\$ 5,084	\$ 5,580	\$ 16,128	\$ 16,840

Electronic Health Records Incentive Reimbursement. The federal government has implemented a number of regulations and programs designed to promote the use of electronic health records (EHR) technology and, pursuant to the Health Information Technology for Economic and Clinical Health Act (HITECH), established requirements for a Medicare and Medicaid incentive payments program for eligible hospitals and professionals that adopt and meaningfully use certified EHR technology. The Company utilizes a gain contingency model to recognize EHR incentive payments. Recognition occurs when the eligible hospitals adopt or demonstrate meaningful use of certified EHR technology for the applicable payment period and have available the Medicare cost report information for the relevant full cost report year used to determine the final incentive payment.

Medicaid EHR incentive payments are calculated based on prior period Medicare cost report information available at the time when eligible hospitals adopt, implement, upgrade or demonstrate meaningful use of certified EHR technology. Since the information for the relevant full Medicare cost report year is available at the time of attestation, the incentive income from resolving the gain contingency is recognized when eligible hospitals adopt, implement, upgrade or demonstrate meaningful use of certified EHR technology.

Medicare EHR incentive payments are calculated based on the Medicare cost report information for the full cost report year that began during the federal fiscal year in which meaningful use is demonstrated. Since the necessary information is only available at the end of the relevant full Medicare cost report year and after the cost report is settled, the incentive income from resolving the gain contingency is recognized when eligible hospitals demonstrate meaningful use of certified EHR technology and the information for the applicable full Medicare cost report year to determine the final incentive payment is available.

In some instances, the Company may receive estimated Medicare EHR incentive payments prior to when the Medicare cost report information used to determine the final incentive payment is available. In these instances, recognition of the gain for EHR incentive payments is deferred until all recognition criteria described above are met.

Eligibility for annual Medicare incentive payments is dependent on providers successfully attesting to the meaningful use of EHR technology. Medicaid incentive payments are available to providers in the first payment year that they adopt, implement or upgrade certified EHR technology; however, providers must demonstrate meaningful use of such technology in any subsequent payment years to qualify for additional incentive payments. Medicaid EHR incentive payments are fully funded by the federal government and administered by the states; however, the states are not required to offer EHR incentive payments to providers.

The Company recognized approximately \$5 million and \$54 million for the three months ended September 30, 2016 and 2015, respectively, and \$54 million and \$135 million for the nine months ended September 30, 2016 and 2015, respectively, of incentive reimbursement for HITECH incentives from Medicare and Medicaid related to certain of the Company's hospitals and for certain of the Company's employed physicians that have demonstrated meaningful use of certified EHR technology or have completed attestations to their adoption or implementation of certified EHR technology. These incentive reimbursements are presented as a reduction of operating costs and expenses on the condensed consolidated statements of income. The Company received cash related to the incentive reimbursement for HITECH incentives of approximately \$7 million for each of the three-month periods ended September 30, 2016 and 2015, and \$116 million and \$71 million for the nine months ended September 30, 2016 and 2015, respectively. The Company recorded no deferred revenue in connection with the receipt of these cash payments at September 30, 2016. The Company recorded \$2 million as deferred revenue in connection with the receipt of these payments at September 30, 2015, as all criteria for gain recognition had not been met.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Accounting for the Impairment or Disposal of Long-Lived Assets. During the three months ended June 30, 2016, the Company recorded a non-cash impairment charge of approximately \$239 million, which included a charge of approximately \$169 million to reduce the value of long-lived assets at certain hospitals that the Company has been or is currently marketing for sale and a charge of approximately \$70 million related to the write-down of long-lived assets to their estimated fair value for certain underperforming hospitals. This estimate of fair value and resulting impairment charge was performed in conjunction with the goodwill impairment evaluation discussed in Note 8 and was identified for those hospitals that have experienced declining operating results with lower than previously expected projected net cash flows, or have carrying values that exceed the estimate of future cash flows generated from the expected sale of those assets. During the three months ended September 30, 2016, the Company updated its estimate of fair value for these hospitals based on the sales price determined for four of these hospitals for which a definitive agreement was entered into on September 29, 2016, as well as based on third-party valuations performed in conjunction with the updated step two goodwill impairment analysis completed during the quarter. Based on this updated information, the Company recorded an additional impairment charge on its long-lived assets other than goodwill of approximately \$13 million during the three months ended September 30, 2016.

New Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, which outlines a single comprehensive model for recognizing revenue and supersedes most existing revenue recognition guidance, including guidance specific to the healthcare industry. This ASU provides companies the option of applying a full or modified retrospective approach upon adoption. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted for annual periods beginning after December 15, 2016. The Company expects to adopt this ASU on January 1, 2018 and is currently developing its plan for adoption and the impact on its revenue recognition policies, procedures and control framework and the resulting impact on its consolidated financial position, results of operations and cash flows.

In April 2015, the FASB issued ASU 2015-03, which requires debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of that debt liability, consistent with the accounting for debt discounts. The ASU did not change the measurement or recognition guidance for debt issuance costs. This ASU is effective for fiscal years beginning after December 31, 2015. The Company adopted this ASU on January 1, 2016, which resulted in the reclassification of approximately \$266 million of debt issuance costs from other long-term assets to a reduction of the related long-term debt. The adoption of this ASU was applied retroactively to all periods presented, and had no impact on the Company's results of operations or cash flows.

In November 2015, the FASB issued ASU 2015-17, which amended the balance sheet classification requirements for deferred income taxes to simplify their presentation in the statement of financial position. The ASU requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. This ASU is effective for fiscal years beginning after December 31, 2016, with early adoption permitted. The Company early adopted the provisions of this ASU for the presentation and classification of its deferred tax assets at December 31, 2015. The effect of this change primarily resulted in the current portion of deferred income taxes at December 31, 2015 being included in the noncurrent deferred income tax liability.

In January 2016, the FASB issued ASU 2016-01, which amends the measurement, presentation and disclosure requirements for equity investments, other than those accounted for under the equity method or that require

consolidation of the investee. The ASU eliminates the classification of equity investments as available-for-sale with any changes in fair value of such investments recognized in other comprehensive income, and requires entities to measure equity investments at fair value, with any changes in fair value recognized in net income. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. The Company expects to adopt this ASU on January 1, 2018, and is currently evaluating the impact that adoption of this ASU will have on its consolidated financial position and results of operations.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

In February 2016, the FASB issued ASU 2016-02, which amends the accounting for leases, requiring lessees to recognize most leases on their balance sheet with a right-of-use asset and a lease liability. Leases will be classified as either finance or operating leases, which will impact the expense recognition of such leases over the lease term. The ASU also modifies the lease classification criteria for lessors and eliminates some of the real estate leasing guidance previously applied for certain leasing transactions. This ASU is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company expects to adopt this ASU on January 1, 2019. Because of the number of leases the Company utilizes to support its operations, the adoption of this ASU is expected to have a significant impact on the Company's consolidated financial position and results of operations. Management is currently evaluating the extent of this anticipated impact on the Company's consolidated financial position and results of operations, and the quantitative and qualitative factors that will impact the Company as part of the adoption of this ASU, as well as any changes to its leasing strategy that may occur because of the changes to the accounting and recognition of leases.

In March 2016, the FASB issued ASU 2016-09, which was issued to simplify some of the accounting guidance for share-based compensation. Among the areas impacted by the amendments in this ASU is the accounting for income taxes related to share-based payments, accounting for forfeitures, classification of awards as equity or liabilities, and classification on the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Company expects to adopt this ASU on January 1, 2017. Management is currently evaluating the impact that the adoption of this ASU will have on its consolidated financial position, results of operations and cash flows.

2. ACCOUNTING FOR STOCK-BASED COMPENSATION

Stock-based compensation awards have been granted under the Community Health Systems, Inc. Amended and Restated 2000 Stock Option and Award Plan, amended and restated as of March 20, 2013 (the "2000 Plan"), and the Community Health Systems, Inc. Amended and Restated 2009 Stock Option and Award Plan, which was amended and restated as of March 16, 2016 and approved by the Company's stockholders at the annual meeting of stockholders held on May 17, 2016 (the "2009 Plan").

The 2000 Plan allowed for the grant of incentive stock options intended to qualify under Section 422 of the Internal Revenue Code (the "IRC"), as well as stock options which do not so qualify, stock appreciation rights, restricted stock, restricted stock units, performance-based shares or units and other share awards. Prior to being amended in 2009, the 2000 Plan also allowed for the grant of phantom stock. Persons eligible to receive grants under the 2000 Plan include the Company's directors, officers, employees and consultants. All options granted under the 2000 Plan have been nonqualified stock options for tax purposes. Generally, vesting of these granted options occurs in one-third increments on each of the first three anniversaries of the award date. Options granted prior to 2005 have a 10-year contractual term, options granted in 2005 through 2007 have an eight-year contractual term and options granted in 2008 through 2011 have a 10-year contractual term. The Company has not granted stock option awards under the 2000 Plan since 2011. Pursuant to the amendment and restatement of the 2000 Plan dated March 20, 2013, no further grants will be awarded under the 2000 Plan.

The 2009 Plan provides for the grant of incentive stock options intended to qualify under Section 422 of the IRC and for the grant of stock options which do not so qualify, stock appreciation rights, restricted stock, restricted stock units, performance-based shares or units and other share awards. Persons eligible to receive grants under the 2009 Plan include the Company's directors, officers, employees and consultants. To date, all options granted under the 2009 Plan have been nonqualified stock options for tax purposes. Generally, vesting of these granted options occurs in one-third increments on each of the first three anniversaries of the award date. Options granted in 2011 or later have a 10-year contractual term. The amendment and restatement of the 2009 Plan, as approved by the Company's stockholders at the 2016 Annual Meeting, increased the number of shares of common stock available for grant under the 2009 Plan by an additional 5,000,000 shares. As of September 30, 2016, 6,337,075 shares of unissued common stock were reserved for future grants under the 2009 Plan.

The exercise price of all options granted under the 2000 Plan and the 2009 Plan has been equal to the fair value of the Company's common stock on the option grant date.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The following table reflects the impact of total compensation expense related to stock-based equity plans on the reported operating results for the respective periods (in millions):

	Three Months Ended September 30, 2016		September 30, 2015		Nine Months Ended September 30, 2016		September 30, 2015	
Effect on (loss) income from continuing operations before income taxes	\$	(10)	\$	(15)	\$	(36)	\$	(44)
Effect on net (loss) income	\$	(6)	\$	(9)	\$	(21)	\$	(26)

At September 30, 2016, \$41 million of unrecognized stock-based compensation expense related to outstanding unvested restricted stock and restricted stock units (the terms of which are summarized below) was expected to be recognized over a weighted-average period of 19 months. There is no expense to be recognized related to stock options. There were no modifications to awards during the three or nine months ended September 30, 2016 and 2015, other than those required by the Employee Matters Agreement (EMA) entered into as part of the spinoff of Quorum Health Corporation (QHC), as further discussed below.

Options outstanding and exercisable under the 2000 Plan and the 2009 Plan as of September 30, 2016, and changes during each of the three-month periods following December 31, 2015, were as follows (in millions, except share and per share data):

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value as of September 30, 2016
Outstanding at December 31, 2015	1,232,158	\$ 31.65		
Granted	-	-		
Exercised	-	-		
Forfeited and cancelled	(9,334)	29.85		
Outstanding at March 31, 2016	1,222,824	31.66		
Granted	-	-		
Exercised	-	-		

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Forfeited and cancelled	(21,668)	22.23			
Outstanding at June 30, 2016	1,201,156	28.13			
Granted	-	-			
Exercised	-	-			
Forfeited and cancelled	(14,168)	28.67			
Outstanding at September 30, 2016	1,186,988	\$ 28.13	3.3 years	\$ -	
Exercisable at September 30, 2016	1,188,988	\$ 28.13	3.3 years	\$ -	

The weighted-average exercise prices in the table above for periods prior to the April 29, 2016 spin-off of QHC reflect the historical prices at those dates. No stock options were granted during the three or nine months ended September 30, 2016 and 2015. The aggregate intrinsic value (calculated as the number of in-the-money stock options multiplied by the difference between the Company's closing stock price on the last trading day of the reporting period (\$11.54) and the exercise price of the respective stock options) in the table above represents the amount that would have been received by the option holders had all option holders exercised their options on September 30, 2016. This amount changes based on the market value of the Company's common stock. There were no options exercised during the three or nine-month periods ended September 30, 2016. The aggregate intrinsic value of options exercised during the three months and nine months ended September 30, 2015 was \$2 million and \$9 million, respectively. The aggregate intrinsic value of options vested and expected to vest approximates that of the outstanding options.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

In accordance with the terms of the EMA, on April 29, 2016, the exercise prices of all stock options outstanding as of that date were modified to reflect the reduction in the Company's stock price that occurred as a result of the distribution of QHC to the Company's stockholders in order to maintain a consistent intrinsic value before and following the QHC distribution. There were no other modifications to the term or number of the outstanding options. The Company evaluated the fair value of the stock options immediately before and after the exercise price modification, and concluded that no incremental stock compensation expense should be recorded.

The Company has also awarded restricted stock under the 2000 Plan and the 2009 Plan to its directors and employees of certain subsidiaries. The restrictions on these shares generally lapse in one-third increments on each of the first three anniversaries of the award date. Certain of the restricted stock awards granted to the Company's senior executives contain a performance objective that must be met in addition to any time-based vesting requirements. If the performance objective is not attained, the awards will be forfeited in their entirety. Once the performance objective has been attained, restrictions will lapse in one-third increments on each of the first three anniversaries of the award date. In addition, 835,000 restricted stock awards granted March 1, 2014 had a performance objective that was measured based on the realization of synergies related to the acquisition of Health Management Associates, Inc. (HMA) over a two-year period that began on February 1, 2014. The performance objective could be met in part in the first year or in whole or in part over such two-year period. Depending on the degree of attainment of the performance objective, restrictions would lapse on a portion of the award grant over the first three anniversaries of the award date at a level dependent upon the amount of synergies realized. If the synergies related to the HMA merger had not reached a certain level, then the awards would have been forfeited in their entirety. Based on the synergy levels attained in the first annual measurement period ended on January 31, 2015, the performance objective for the first measurement period was met, and one-third of the awards vested on March 1, 2015. Based on the synergy levels attained in the second annual measurement period ended on January 31, 2016, the performance objective for the second measurement period was also met, so the full amount of each award has been earned and one-third of the awards vested on March 1, 2016. The remaining one-third of each award will vest on March 1, 2017. Notwithstanding the above-mentioned performance objectives and vesting requirements, the restrictions with respect to restricted stock granted under the 2000 Plan and the 2009 Plan will lapse earlier in the event of death, disability or termination of employment by the Company for any reason other than for cause of the holder of the restricted stock, or change in control of the Company. Restricted stock awards subject to performance standards that have not yet been satisfied are not considered outstanding for purposes of determining earnings per share until the performance objectives have been satisfied.

On April 29, 2016, the Company cancelled 106,005 restricted stock awards from the March 1, 2016 grant that were held by former employees whose employment with the Company was terminated and who are now part of the new management team at QHC. This cancellation did not include the issuance of replacement awards by the Company. As a result, the Company recorded approximately \$2 million of compensation expense related to the unrecognized stock compensation expense for those awards at the cancellation date. This expense is recorded as part of the costs related to the spin-off of QHC presented in other operating expenses on the accompanying condensed consolidated statement of income for the nine months ended September 30, 2016.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Restricted stock outstanding under the 2000 Plan and the 2009 Plan as of September 30, 2016, and changes during each of the three-month periods following December 31, 2015, were as follows (in millions, except share and per share data):

	Shares	Weighted- Average Grant Date Fair Value
Unvested at December 31, 2015	2,845,579	\$ 44.18
Granted	1,340,000	15.48
Vested	(1,301,337)	43.36
Forfeited	(4,667)	43.05
Unvested at March 31, 2016	2,879,575	31.20
Granted	11,000	13.94
Vested	(11,332)	39.23
Forfeited	(120,006)	17.19
Unvested at June 30, 2016	2,759,237	31.71
Granted	-	-
Vested	(9,336)	42.97
Forfeited	(8,667)	34.32
Unvested at September 30, 2016	2,741,234	31.66

Restricted stock units (RSUs) have been granted to the Company's outside directors under the 2000 Plan and the 2009 Plan. On March 1, 2015, each of the Company's outside directors received a grant under the 2009 Plan of 3,504 RSUs. On March 1, 2016, each of the Company's outside directors received a grant under the 2009 Plan of 11,017 RSUs. Both the 2015 and 2016 grants had a grant date fair value of approximately \$170,000. Vesting of these RSUs occurs in one-third increments on each of the first three anniversaries of the award date.

In connection with the spin-off of QHC, holders of outstanding RSUs were credited with a total of 22,021 incremental RSUs at a ratio calculated to maintain a consistent intrinsic value before and following the QHC distribution. There were no other changes to the awards and the new RSUs will vest in accordance with the initial vesting period of the corresponding original award.

RSUs outstanding under the 2000 Plan and the 2009 Plan as of September 30, 2016, and changes during each of the three-month periods following December 31, 2015, were as follows (in millions, except share and per share data):

	Shares	Weighted- Average Grant Date Fair Value
Unvested at December 31, 2015	42,678	\$ 44.59
Granted	77,119	15.43
Vested	(21,432)	43.60

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

3. COST OF REVENUE

Substantially all of the Company's operating costs and expenses are cost of revenue items. Operating costs that could be classified as general and administrative by the Company would include the Company's corporate office costs at its Franklin, Tennessee office, which were \$43 million and \$68 million for the three months ended September 30, 2016 and 2015, respectively, and \$146 million and \$202 million for the nine months ended September 30, 2016 and 2015, respectively. Included in these corporate office costs is stock-based compensation of \$10 million and \$15 million for the three months ended September 30, 2016 and 2015, respectively, and \$36 million and \$44 million for the nine months ended September 30, 2016 and 2015, respectively.

4. USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements. Actual results could differ from these estimates under different assumptions or conditions.

5. ACQUISITIONS AND DIVESTITURES

Acquisitions

The Company accounts for all transactions that represent business combinations using the acquisition method of accounting, where the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquired entity are recognized and measured at their fair values on the date the Company obtains control in the acquiree. Such fair values that are not finalized for reporting periods following the acquisition date are estimated and recorded as provisional amounts. Adjustments to these provisional amounts during the measurement period (defined as the date through which all information required to identify and measure the consideration transferred, the assets acquired, the liabilities assumed and any noncontrolling interests has been obtained, limited to one year from the acquisition date) are recorded as of the date of acquisition. Any material impact to comparative information for periods after acquisition, but before the period in which adjustments are identified, is reflected in those prior periods as if the adjustments were considered as of the acquisition date. Goodwill is determined as the excess of the fair value of the consideration conveyed in the acquisition over the fair value of the net assets acquired.

Excluding acquisition and integration expenses related to the 2014 acquisition of HMA, approximately \$1 million and \$2 million of acquisition costs related to prospective and closed acquisitions were expensed during the three months ended September 30, 2016 and 2015, respectively, and approximately \$4 million and \$6 million during the nine months ended September 30, 2016 and 2015, respectively, are included in other operating expenses on the condensed consolidated statements of income. Approximately \$1 million of acquisition and related integration expense related to the HMA acquisition were recognized during the nine months ended September 30, 2015.

On April 1, 2016, one or more subsidiaries of the Company completed the acquisition of an 80% interest in Physicians Specialty Hospital (20 licensed beds), a Medicare-certified specialty surgical hospital in Fayetteville, Arkansas. The total cash consideration paid for the 80% ownership interest in this joint venture was approximately \$12 million, with

additional consideration of \$2 million assumed in liabilities, for a total consideration of \$14 million. The value of the noncontrolling interest at acquisition was \$3 million. Based upon the Company's preliminary purchase price allocation relating to this acquisition as of September 30, 2016, approximately \$12 million of goodwill has been recorded. The preliminary allocation of the purchase price has been determined by the Company based on available information and is subject to settling amounts related to purchased working capital and final appraisals of tangible and intangible assets. Adjustments to the purchase price allocation are not expected to be material.

On March 1, 2016, one or more subsidiaries of the Company completed the acquisition of an 80% ownership interest in a joint venture entity with Indiana University Health that includes substantially all of the assets of IU Health La Porte Hospital (La Porte) in La Porte, Indiana (227 licensed beds) and IU Health Starke Hospital (Starke) in Knox, Indiana (50 licensed beds), and affiliated outpatient centers and physician practices. The total cash consideration paid for the 80% ownership interest in this joint venture was approximately \$96 million with additional consideration of \$8 million assumed in liabilities, for a total consideration of \$104 million. The value of the noncontrolling interest at acquisition was \$25 million. Based upon the Company's preliminary purchase price allocation relating to this acquisition as of September 30, 2016, approximately \$46 million of goodwill has been recorded. The preliminary allocation of the purchase price has been determined by the Company based on available information and is subject to settling amounts related to purchased working capital and final appraisals of tangible and intangible assets. Adjustments to the purchase price allocation are not expected to be material.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Other Acquisitions

During the nine months ended September 30, 2016, one or more subsidiaries of the Company paid approximately \$14 million to acquire the operating assets and related businesses of certain physician practices, clinics and other ancillary businesses that operate within the communities served by the Company's affiliated hospitals. In connection with these acquisitions, during the nine months ended September 30, 2016, the Company allocated approximately \$7 million of the consideration paid to property and equipment and net working capital and the remainder, approximately \$13 million consisting of intangible assets that do not qualify for separate recognition, to goodwill. The value of the noncontrolling interest recorded in these acquisitions was \$6 million.

Divestitures

In April 2014, FASB issued ASU 2014-08, which changes the requirements for reporting discontinued operations. A discontinued operation continues to include a component of an entity or a group of components of an entity, or a business activity. However, in a shift reflecting stakeholder concerns that too many disposals of small groups of assets that were recurring in nature qualified for reporting as discontinued operations, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. A business or nonprofit activity that, on acquisition, meets the criteria to be classified as held for sale will still be a discontinued operation. Additional disclosures are required for significant components of the entity that are disposed of or are held for sale but do not qualify as discontinued operations. This ASU is to be applied on a prospective basis for disposals or components initially classified as held for sale after adoption. The Company adopted this ASU on January 1, 2015 and the adoption resulted in the following divestitures occurring subsequent to the date of adoption being included in continuing operations for the three and nine months ended September 30, 2016 and 2015 (the impact of the adoption of ASU 2014-08 in relation to the hospitals and other assets spun off to QHC are discussed in Note 6 below).

On September 29, 2016, one or more subsidiaries of the Company signed a definitive agreement for the sale of four hospitals and their associated assets to subsidiaries of Curae Health, Inc. Facilities included in the transaction are Merit Health Gilmore Memorial (95 licensed beds) in Amory, Mississippi, Merit Health Batesville (112 licensed beds) in Batesville, Mississippi, Merit Health Northwest Mississippi (181 licensed beds) in Clarksdale, Mississippi and Highlands Regional Medical Center (126 licensed beds) in Sebring, Florida. The Company has classified these hospitals as held for sale in the accompanying condensed consolidated balance sheet. Based on the sales price for these hospitals, the Company recorded an impairment charge of approximately \$31 million related to the allocated hospital reporting unit goodwill during the three months ended September 30, 2016.

Effective September 3, 2016, one or more subsidiaries of the Company finalized an agreement to terminate the lease and cease operations of Alliance Health Blackwell (53 licensed beds) in Blackwell, Oklahoma, agreeing to terminate the lease with the landlord, The Blackwell Hospital Trust Authority. Income from continuing operations for the three and nine months ended September 30, 2016 includes an impairment charge of approximately \$3 million related to the write-off of certain intangible assets abandoned as part of exiting the lease to operate this hospital.

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Effective February 1, 2016, one or more subsidiaries of the Company sold Lehigh Regional Medical Center (88 licensed beds) in Lehigh Acres, Florida, (Lehigh) and related outpatient services to Prime Healthcare Services, Inc. (Prime) for approximately \$11 million in cash. In connection with the divestiture of Lehigh, the Company recorded an impairment charge of approximately \$4 million related to the allocated hospital reporting unit goodwill during the three months ended March 31, 2016.

Effective January 1, 2016, one or more subsidiaries of the Company sold Bartow Regional Medical Center (72 licensed beds) in Bartow, Florida, (Bartow) and related outpatient services to BayCare Health Systems, Inc. for approximately \$60 million in cash, which was received at a preliminary closing on December 31, 2015. In connection with the divestiture of Bartow, the Company recorded an impairment charge of approximately \$5 million related to the allocated hospital reporting unit goodwill during the three months ended March 31, 2016.

Effective July 31, 2015, one or more subsidiaries of the Company sold certain assets used in the operation of Payson Regional Medical Center (44 licensed beds) in Payson, Arizona (Payson) to Banner Health for approximately \$20 million in cash. The Company previously operated Payson under the terms of an operating lease with Mogollon Health Alliance, Inc., an Arizona nonprofit corporation, that expired on July 31, 2015. The lease termination and sale closed effective July 31, 2015.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Pursuant to the Company's adoption of ASU 2014-08, the divestiture of Lehigh, Bartow and Payson do not meet the requirement for presentation in discontinued operations. The financial results included in discontinued operations for divestitures or hospitals held for sale at December 31, 2014, prior to the Company's adoption of ASU 2014-08, are summarized below.

During the three months ended June 30, 2015, one or more subsidiaries of the Company finalized an agreement to terminate the lease and cease operations of Fallbrook Hospital (47 licensed beds) in Fallbrook, California. In agreeing to terminate the lease, the Company received approximately \$3 million in cash from the Fallbrook Healthcare District, as the landlord, as consideration for certain operating assets of the hospital.

Effective April 1, 2015, one or more subsidiaries of the Company sold Chesterfield General Hospital (59 licensed beds) in Cheraw, South Carolina and Marlboro Park Hospital (102 licensed beds) in Bennettsville, South Carolina and related outpatient services to M/C Healthcare, LLC for approximately \$4 million in cash.

Effective March 1, 2015 one or more subsidiaries of the Company sold Dallas Regional Medical Center (202 licensed beds) in Mesquite, Texas to Prime for approximately \$25 million in cash.

Effective March 1, 2015 one or more subsidiaries of the Company sold Riverview Regional Medical Center (281 licensed beds) in Gadsden, Alabama to Prime for approximately \$25 million in cash. This hospital was required to be divested by the Federal Trade Commission as a condition of its approval of the HMA merger.

Effective February 1, 2015, one or more subsidiaries of the Company sold Harris Hospital (133 licensed beds) in Newport, Arkansas and related healthcare services to White County Medical Center in Searcy, Arkansas for approximately \$5 million in cash.

Effective January 1, 2015, one or more subsidiaries of the Company sold Carolina Pines Regional Medical Center (116 licensed beds) in Hartsville, South Carolina and related outpatient services to Capella Healthcare for approximately \$74 million in cash, which was received at the closing on December 31, 2014. This hospital was required to be divested by the Federal Trade Commission as a condition of its approval of the HMA merger.

During the year ended December 31, 2014, the Company made the decision to sell and began actively marketing several smaller hospitals, which are classified as held for sale at September 30, 2016. In addition, HMA entered into a definitive agreement to sell Williamson Memorial Hospital (76 licensed beds) located in Williamson, West Virginia prior to the HMA merger, and the Company has continued the effort to divest this facility. In connection with management's decision to sell these hospitals and the sale of the seven hospitals (excluding Payson) noted above during 2015, the Company has classified the results of operations of such hospitals as discontinued operations in the accompanying condensed consolidated statements of income, and classified these hospitals as held for sale in the accompanying condensed consolidated balance sheet.

Net operating revenues and loss from discontinued operations for the respective periods are as follows (in millions):

	Three Months Ended		September 30,		Nine Months Ended		September 30,	
	2016		2015		2016		2015	
Net operating revenues	\$	24	\$	19	\$	76	\$	92
Loss from operations of entities sold or held for sale before income taxes		(3)		(8)		(6)		(35)
Impairment of hospitals sold or held for sale		-		-		(2)		(2)
Loss on sale, net		-		(3)		-		(3)
Loss from discontinued operations, before taxes		(3)		(11)		(8)		(40)
Income tax benefit		(1)		(3)		(3)		(13)
Loss from discontinued operations, net of taxes	\$	(2)	\$	(8)	\$	(5)	\$	(27)

Interest expense was allocated to discontinued operations based on sale proceeds available for debt repayment.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Other Hospital Closures

During the three months ended March 31, 2016, the Company announced the planned closure of McNairy Regional Hospital in Selmer, Tennessee. The Company recorded an impairment charge of approximately \$7 million during the three months ended March 31, 2016, to adjust the fair value of the supplies inventory and long-lived assets of this hospital, including property and equipment and capitalized software costs, based on their estimated fair value and future utilization. McNairy Regional Hospital closed on May 19, 2016.

6. SPIN-OFF OF QUORUM HEALTH CORPORATION

On August 3, 2015, the Company announced a plan to spin off 38 hospitals and Quorum Health Resources, LLC into Quorum Health Corporation, an independent, publicly traded corporation. The transaction was structured to be generally tax free to the Company and its stockholders.

On April 29, 2016, the Company completed the spin-off of QHC and distributed, on a pro rata basis, all of the shares of QHC common stock to the Company's stockholders of record as of April 22, 2016. These stockholders of record as of April 22, 2016 received a distribution of one share of QHC common stock for every four shares of Company common stock held as of the record date plus cash in lieu of any fractional shares. In recognition of the spin-off, the Company recorded a non-cash dividend of approximately \$695 million during the nine months ended September 30, 2016, representing the net assets of QHC distributed to the Company's stockholders. Immediately following the completion of the spin-off, the Company's stockholders owned 100% of the outstanding shares of QHC common stock. Following the spin-off, QHC became an independent public company with its common stock listed for trading under the symbol "QHC" on the New York Stock Exchange.

In connection with the spin-off, the Company and QHC entered into a separation and distribution agreement as well as certain ancillary agreements on April 29, 2016. These agreements allocate between the Company and QHC the various assets, employees, liabilities and obligations (including investments, property and employee benefits and tax-related assets and liabilities) that comprise the separate companies and govern certain relationships between, and activities of, the Company and QHC for a period of time after the spin-off.

The results of operations for QHC through the date of the spin-off are presented in continuing operations in the condensed consolidated statements of income as the Company has determined that the spin-off of QHC does not meet the criteria as discontinued operations under ASU 2014-08.

Financial and statistical data reported in this Quarterly Report on Form 10-Q include QHC operating results through April 29, 2016 (other than same-store operating results and data, which exclude QHC operating results). Summary financial results of QHC for the periods included in the accompanying condensed consolidated statements of income are as follows:

	Three Months Ended		September 30,		Nine Months Ended		September 30,	
	2016		2015		2016		2015	
(Loss) income from operations before income taxes	\$	-	\$	(5)	\$	(12)	\$	7
Less: Income attributable to noncontrolling interests		-		2		1		2
(Loss) income from operations before income taxes attributable to Community Health Systems, Inc.	\$	-	\$	(7)	\$	(13)	\$	5

7. INCOME TAXES

The total amount of unrecognized benefit that would affect the effective tax rate, if recognized, was approximately \$5 million as of September 30, 2016. A total of approximately \$3 million of interest and penalties is included in the amount of the liability for uncertain tax positions at September 30, 2016. It is the Company's policy to recognize interest and penalties related to unrecognized benefits in its condensed consolidated statements of income as income tax expense.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

It is possible the amount of unrecognized tax benefit could change in the next 12 months as a result of a lapse of the statute of limitations and settlements with taxing authorities; however, the Company does not anticipate the change will have a material impact on the Company's condensed consolidated results of operations or condensed consolidated financial position.

The Company, or one of its subsidiaries, files income tax returns in the United States federal jurisdiction and various state jurisdictions. The Company has extended the federal statute of limitations through March 31, 2017 for Triad Hospitals, Inc. for the tax periods ended December 31, 1999, December 31, 2000, April 30, 2001, June 30, 2001, December 31, 2001, December 31, 2002, December 31, 2003, December 31, 2004, December 31, 2005, December 31, 2006 and July 25, 2007. With few exceptions, the Company is no longer subject to state income tax examinations for years prior to 2011. The Company's federal income tax returns for the 2009 and 2010 tax years are currently under examination by the Internal Revenue Service. The Company believes the results of these examinations will not be material to its consolidated results of operations or consolidated financial position. The Company has extended the federal statute of limitations through January 31, 2018 for Community Health Systems, Inc. for the tax periods ended December 31, 2007, 2008, 2009 and 2010, and through March 31, 2017 for the tax periods ended December 31, 2011 and 2012.

The Company's effective tax rates were 34.9% and 31.3% for the three months ended September 30, 2016 and 2015, respectively, and 9.0% and 33.3% for the nine months ended September 30, 2016 and 2015, respectively. The increase in the Company's effective tax rate for the three months ended September 30, 2016, when compared to the three months ended September 30, 2015, was primarily due to a decrease in pre-tax income for the three months ended September 30, 2016 with relatively no change in net income attributable to noncontrolling interests. Including the net income attributable to noncontrolling interests, which is not tax affected in the condensed consolidated statement of income, the effective tax rate for the three months ended September 30, 2016 and 2015 would have been 27.4% and 38.8%, respectively. This decrease and the decrease in the Company's effective tax rate for the nine months ended September 30, 2016, when compared to the nine months ended September 30, 2015, was primarily due to the non-deductible nature of goodwill written off for impairment and divestitures, as well as the non-deductible nature of certain costs incurred to complete the spin-off of QHC.

Cash paid for income taxes, net of refunds received, resulted in net cash paid of \$2 million and \$1 million during the three months ended September 30, 2016 and 2015, respectively, and net cash paid of \$6 million and \$10 million during the nine months ended September 30, 2016 and 2015, respectively.

8. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

The changes in the carrying amount of goodwill for the nine months ended September 30, 2016 are as follows (in millions):

Balance as of December 31, 2015	\$	8,965
Goodwill acquired as part of acquisitions during current year		71
Goodwill allocated to QHC in the spin-off		(709)
Goodwill allocated to hospital disposal group held for sale		(31)
Impairment of goodwill		(1,395)
Balance as of September 30, 2016	\$	6,901

Goodwill is allocated to each identified reporting unit, which is defined as an operating segment or one level below the operating segment (referred to as a component of the entity). Management has determined that the Company's operating segments meet the criteria to be classified as reporting units. During the three months ended June 30, 2016, the Company allocated approximately \$709 million of goodwill to the spin-off of QHC, including approximately \$33 million of goodwill related to the former management services reporting unit and approximately \$676 million of goodwill allocated from the hospital operations reporting unit based on a relative fair value calculation of the hospitals that were included in the QHC distribution. At September 30, 2016, after giving effect to the disposition of QHC and the estimated \$1.395 billion impairment charge incurred during the three months ended June 30, 2016, as adjusted during the three months ended September 30, 2016, as discussed below, the hospital operations reporting unit and the home care agency operations reporting unit had approximately \$6.9 billion and \$47 million, respectively, of goodwill.

Table of Contents

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Goodwill is evaluated for impairment at the same time every year and when an event occurs or circumstances change that, more likely than not, reduce the fair value of the reporting unit below its carrying value. There is a two-step method for determining goodwill impairment. Step one is to compare the fair value of the reporting unit with the unit's carrying amount, including goodwill. If this test indicates the fair value is less than the carrying value, then step two is required to compare the implied fair value of the reporting unit's goodwill utilizing a hypothetical purchase price allocation with the carrying value of the reporting unit's goodwill. The Company performed its last annual goodwill evaluation as of September 30, 2015. No impairment was indicated by this evaluation. The next annual goodwill evaluation will be performed during the fourth quarter of 2016.

The Company estimates the fair value of the related reporting units using both a discounted cash flow model as well as a market multiple model. The cash flow forecasts are adjusted by an appropriate discount rate based on the Company's estimate of a market participant's weighted-average cost of capital. These models are both based on the Company's best estimate of future revenues and operating costs and are reconciled to the Company's consolidated market capitalization, with consideration of the amount a potential acquirer would be required to pay, in the form of a control premium, in order to gain sufficient ownership to set policies, direct operations and control management decisions.

During the three months ended June 30, 2016, the Company identified certain indicators of impairment requiring an interim goodwill impairment evaluation. Those indicators were primarily the decline in the Company's market capitalization and fair value of long-term debt during the three months ended June 30, 2016, as well as a decrease in the estimated future earnings of the Company compared to the Company's most recent annual evaluation. The Company performed a calculation of fair value in step one of the impairment test at June 30, 2016, which indicated that the carrying value of its hospital operations reporting unit exceeded its fair value. An initial step two calculation was performed to determine the implied value of goodwill in a hypothetical purchase price allocation. The Company recorded an estimated non-cash impairment charge of \$1.4 billion to goodwill at June 30, 2016 based on its best estimate at that time of fair value and resulting implied goodwill. As allowed by generally accepted accounting principles, this amount represented an estimate of the implied goodwill in the step two evaluation until that process could be finalized. The Company initiated this step two evaluation process during the third quarter of 2016, and such process is subject to ongoing review as noted below. Based on the updated step two analysis performed during the three months ended September 30, 2016, the Company adjusted the initial goodwill impairment estimate downward in the amount of \$5 million, resulting in a total goodwill impairment charge of \$1.395 billion. The decrease in the goodwill impairment from the original estimate was primarily due to lower estimated fair values of the individual hospital property and equipment assets as compared to the assumptions used in the June 30, 2016 estimate, resulting in a higher implied goodwill amount when applied to a hypothetical purchase price allocation as required in the step two analysis. The Company is in the process of reviewing the updated valuation information obtained as part of the detailed step two analysis and changes in the calculation of implied goodwill from the step two analysis could result from this review. Changes to the Company's goodwill impairment charge as a result of this ongoing review could be material.

In addition, as discussed in Note 1, in conjunction with the Company's goodwill impairment analysis as set forth above during the three months ended June 30, 2016, the Company recorded an impairment charge of approximately \$239 million related to the write-down of long-lived assets to their estimated fair value for certain underperforming

hospitals and certain of the hospitals that the Company is currently marketing for sale. During the three months ended September 30, 2016, the Company utilized the updated fair value information obtained as part of the step two analysis and recorded an additional impairment charge on its other long-lived assets of approximately \$13 million.

The determination of fair value of the Company's hospital operations reporting unit represents a Level 3 fair value measurement in the fair value hierarchy due to its use of internal projections and unobservable measurement inputs.

These impairment charges for goodwill and long-lived assets do not have an impact on the calculation of the Company's financial covenants under the Company's Credit Facility.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Intangible Assets

Approximately \$10 million of intangible assets other than goodwill were acquired during the nine months ended September 30, 2016, primarily related to the preliminary fair value of the tradename intangible asset associated with the La Porte and Starke acquisition. The gross carrying amount of the Company's other intangible assets subject to amortization was \$34 million at September 30, 2016 and \$82 million at December 31, 2015 and the net carrying amount was \$8 million at September 30, 2016 and \$31 million at December 31, 2015. The carrying amount of the Company's other intangible assets not subject to amortization was \$111 million at September 30, 2016 and \$121 million at December 31, 2015, respectively. Other intangible assets are included in other assets, net on the Company's condensed consolidated balance sheets. Substantially all of the Company's intangible assets are contract-based intangible assets related to operating licenses, management contracts, or non-compete agreements entered into in connection with prior acquisitions.

The weighted-average remaining amortization period for the intangible assets subject to amortization is approximately one year. There are no expected residual values related to these intangible assets. Amortization expense on these intangible assets was \$3 million and \$4 million during the three months ended September 30, 2016 and 2015, respectively, and \$10 million and \$7 million during the nine months ended September 30, 2016 and 2015, respectively. Amortization expense on intangible assets is estimated to be \$3 million for the remainder of 2016, \$3 million in 2017 and \$2 million in 2018. No amortization expense on intangible assets is estimated thereafter.

The gross carrying amount of capitalized software for internal use was approximately \$1.4 billion and \$1.5 billion at September 30, 2016 and December 31, 2015, respectively, and the net carrying amount considering accumulated amortization was approximately \$629 million and \$771 million at September 30, 2016 and December 31, 2015, respectively. The estimated amortization period for capitalized internal-use software is generally three years, except for capitalized costs related to significant system conversions, which is generally eight to ten years. There is no expected residual value for capitalized internal-use software. At September 30, 2016, there was approximately \$58 million of capitalized costs for internal-use software that is currently in the development stage and will begin amortization once the software project is complete and ready for its intended use. Amortization expense on capitalized internal-use software was \$48 million and \$49 million during the three months ended September 30, 2016 and 2015, respectively, and \$153 million and \$155 million during the nine months ended September 30, 2016 and 2015, respectively. Amortization expense on capitalized internal-use software is estimated to be \$46 million for the remainder of 2016, \$186 million in 2017, \$122 million in 2018, \$80 million in 2019, \$65 million in 2020, \$52 million in 2021 and \$78 million thereafter.

[Table of Contents](#)**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****9. EARNINGS PER SHARE**

The following table sets forth the components of the numerator and denominator for the computation of basic and diluted earnings per share for (loss) income from continuing operations, discontinued operations and net (loss) income attributable to Community Health Systems, Inc. common stockholders (in millions, except share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Numerator:				
(Loss) income from continuing operations, net of taxes	\$ (54)	\$ 83	\$ (1,422)	\$ 335
Less: Income from continuing operations attributable to noncontrolling interests, net of taxes	23	23	73	67
(Loss) income from continuing operations attributable to Community Health Systems, Inc. common stockholders basic and diluted	\$ (77)	\$ 60	\$ (1,495)	\$ 268
Loss from discontinued operations, net of taxes	\$ (2)	\$ (8)	\$ (5)	\$ (27)
Less: Loss from discontinued operations attributable to noncontrolling interests, net of taxes	-	-	-	-
Loss from discontinued operations attributable to Community Health Systems, Inc. common stockholders basic and diluted	\$ (2)	\$ (8)	\$ (5)	\$ (27)

Denominator:

Weighted-average number of shares outstanding basic	110,888,040	115,319,986	110,672,520	114,981,457
Effect of dilutive securities:

Restricted stock awards	-	593,713	-	405,395
Employee stock options	-	439,717	-	448,679
Other equity-based awards	-	14,741	-	9,650

Weighted-average number of shares				
outstanding diluted	110,888,040	116,368,157	110,672,520	115,845,181

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The Company generated a loss from continuing operations attributable to Community Health Systems, Inc. common stockholders for the three and nine months ended September 30, 2016, so the effect of dilutive securities is not considered because their effect would be antidilutive. If the Company had generated income from continuing operations during the three and nine months ended September 30, 2016, the effect of restricted stock awards, employee stock options, and other equity-based awards on the diluted shares calculation would have been an increase in shares of 445,732 shares and 225,334 shares, respectively.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Dilutive securities outstanding not included in the computation of earnings per share because their effect is antidilutive:				
Employee stock options and restricted stock awards	2,076,688	-	2,426,700	-

10. STOCKHOLDERS' EQUITY

Authorized capital shares of the Company include 400,000,000 shares of capital stock consisting of 300,000,000 shares of common stock and 100,000,000 shares of preferred stock. Each of the aforementioned classes of capital stock has a par value of \$0.01 per share. Shares of preferred stock, none of which were outstanding as of September 30, 2016, may be issued in one or more series having such rights, preferences and other provisions as determined by the Board of Directors without approval by the holders of common stock.

On November 6, 2015, the Company adopted a new open market repurchase program for up to 10,000,000 shares of the Company's common stock, not to exceed \$300 million in repurchases. The repurchase program will expire on the earlier of November 5, 2018, when the maximum number of shares has been repurchased, or when the maximum dollar amount has been expended. During the year ended December 31, 2015, the Company repurchased and retired 532,188 shares at a weighted-average price of \$27.31 per share, which is the cumulative number of shares repurchased and retired under this program. No shares were repurchased under this program during the nine months ended September 30, 2016.

On December 10, 2014, the Company adopted an open market repurchase program for up to 5,000,000 shares of the Company's common stock, not to exceed \$150 million in repurchases. This repurchase program expired on December 1, 2015 after the Company repurchased and retired the maximum 5,000,000 shares during the three months ended December 31, 2015. No shares were repurchased under this program during the nine months ended September 30, 2015.

The Company is a holding company which operates through its subsidiaries. The Company's Credit Facility and the indentures governing the senior and senior secured notes contain various covenants under which the assets of the subsidiaries of the Company are subject to certain restrictions relating to, among other matters, dividends and distributions, as referenced in the paragraph below.

With the exception of a special cash dividend of \$0.25 per share paid by the Company in December 2012, historically, the Company has not paid any cash dividends. Subject to certain exceptions, the Company's Credit Facility limits the ability of the Company's subsidiaries to pay dividends and make distributions to the Company, and limits the Company's ability to pay dividends and/or repurchase stock, to an amount not to exceed \$200 million in the aggregate plus an additional \$25 million in any particular year plus the aggregate amount of proceeds from the exercise of stock options. The indentures governing the senior and senior secured notes also restrict the Company's subsidiaries from, among other matters, paying dividends and making distributions to the Company, which thereby limits the Company's ability to pay dividends and/or repurchase stock. The non-cash dividend of approximately \$695 million recorded by the Company during the nine months ended September 30, 2016 to reflect the distribution of the net assets of QHC was a permitted transaction under the Company's Credit Facility. As of September 30, 2016, under the most restrictive test under these agreements (and subject to certain exceptions), the Company has approximately \$318 million remaining available with which to pay permitted dividends and/or repurchase shares of stock or its senior and senior secured notes.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The following schedule presents the reconciliation of the carrying amount of total equity, equity attributable to the Company, and equity attributable to the noncontrolling interests for the nine-month period ended September 30, 2016 (in millions):

Community Health Systems, Inc. Stockholders

	Redeemable Noncontrolling Interest	Common Stock	Additional Paid-In Capital	Treasury Stock	Accumulated Other Comprehensive Income (Loss)	Retained Earnings (Accumulated Deficit)	Noncontrolling Interest	Total Stockholders Equity
Balance, December 31, 2015	\$ 571	\$ 1	\$ 1,963	\$ (7)	\$ (73)	\$ 2,135	\$ 86	\$ 4,105

The following schedule discloses the effects of changes in the Company's ownership interest in its less-than-wholly-owned subsidiaries on Community Health Systems, Inc. stockholders' equity (in millions):

	Nine Months Ended September 30, 2016
Net loss attributable to Community Health Systems, Inc. stockholders	\$ (1,500)
Transfers from the noncontrolling interests:	
Net increase in Community Health Systems, Inc. paid-in-capital for purchase of subsidiary partnership interests	2
Net transfers from the noncontrolling interests	2
Change to Community Health Systems, Inc. stockholders' equity from net income attributable to Community Health Systems, Inc. stockholders and transfers to noncontrolling interests	\$ (1,498)

11. EQUITY INVESTMENTS

As of September 30, 2016, the Company owned equity interests of 38.0% in three hospitals in Macon, Georgia, in which HCA Holdings, Inc. ("HCA") owns the majority interest. On April 29, 2016, the Company sold its unconsolidated minority equity interests in Valley Health System, LLC, a joint venture with Universal Health Systems, Inc. ("UHS") representing four hospitals in Las Vegas, Nevada, in which the Company owned a 27.5% interest, and in Summerlin Hospital Medical Center, LLC, a joint venture with UHS representing one hospital in Las Vegas, Nevada, in which the Company owned a 26.1% interest. The Company received \$403 million in cash in return for the sale of its equity interests and, as a result, recognized a gain of approximately \$94 million on the sale of investments in unconsolidated affiliates during the nine months ended September 30, 2016.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Summarized combined financial information for these unconsolidated entities in the periods in which the Company owned these equity interests is as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Revenues	\$ 65	\$ 368	\$ 657	\$ 1,115
Operating costs and expenses	63	329	537	962
Income from continuing operations before taxes	2	39	120	153

The summarized financial information was derived from the financial information provided to the Company by those unconsolidated entities.

In March 2005, the Company began purchasing items, primarily medical supplies, medical equipment and pharmaceuticals, under an agreement with HealthTrust Purchasing Group, L.P. (HealthTrust), a group purchasing organization in which the Company is a noncontrolling partner. As of September 30, 2016, the Company had a 23.1% ownership interest in HealthTrust.

The Company's investment in all of its unconsolidated affiliates was \$144 million at September 30, 2016 and \$487 million December 31, 2015, and is included in other assets, net in the accompanying condensed consolidated balance sheets. Included in the Company's results of operations is the Company's equity in pre-tax earnings from all of its investments in unconsolidated affiliates, which was \$4 million and \$12 million for the three months ended September 30, 2016 and 2015, respectively, and \$38 million and \$51 million for the nine months ended September 30, 2016 and 2015, respectively.

12. LONG-TERM DEBT

Long-term debt consists of the following (in millions):

	September 30, 2016	December 31, 2015
Credit Facility:		
Term A Loan	\$ 771	\$ 844
Term F Loan	1,482	1,671
Term G Loan	1,560	1,568
Term H Loan	2,868	2,884

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Revolving credit loans	24	147
8% Senior Notes due 2019	1,919	1,992
7 1/8% Senior Notes due 2020	1,188	1,186
5 1/8% Senior Secured Notes due 2018	697	1,587
5 1/8% Senior Secured Notes due 2021	971	967
6 7/8% Senior Notes due 2022	2,929	2,921
Receivables Facility	642	699
Capital lease obligations	189	227
Other	82	92
Total debt	15,322	16,785
Less current maturities	(240)	(229)
Total long-term debt	\$ 15,082	\$ 16,556

The amounts in the table above represent the outstanding principal balance for each debt issue at the respective balance sheet date, adjusted for the unamortized balance of deferred debt issuance costs and any debt premium or discount.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)*****Credit Facility***

The Company's wholly-owned subsidiary, CHS, has senior secured financing under a credit facility with a syndicate of financial institutions led by Credit Suisse, as administrative agent and collateral agent. In connection with the HMA merger, the Company and CHS entered into a third amendment and restatement of its credit facility (the *Credit Facility*), providing for additional financing and recapitalization of certain of the Company's term loans, including (i) the replacement of the revolving credit facility with a new \$1.0 billion revolving facility maturing in 2019 (the *Revolving Facility*), (ii) the addition of a new \$1.0 billion Term A facility due 2019 (the *Term A Facility*), (iii) a Term D facility in an aggregate principal amount equal to approximately \$4.6 billion due 2021 (which included certain term C loans that were converted into such Term D facility (collectively, the *Term D Facility*)), (iv) the conversion of certain term C loans into Term E Loans and the borrowing of new Term E Loans in an aggregate principal amount of approximately \$1.7 billion due 2017 and (v) the addition of flexibility commensurate with the Company's post-acquisition structure. In addition to funding a portion of the consideration in connection with the HMA merger, some of the proceeds of the Term A Facility and Term D Facility were used to refinance the outstanding \$637 million existing term A facility due 2016 and the \$60 million of term B loans due 2014, respectively. The Revolving Facility includes a subfacility for letters of credit. On March 9, 2015, CHS entered into Amendment No. 1 and Incremental Term Loan Assumption Agreement to refinance the existing Term E Loans due 2017 into Term F Loans due 2018, in an original aggregated principal amount of \$1.7 billion. On May 18, 2015, CHS entered into an Incremental Term Loan Assumption Agreement to provide for a new \$1.6 billion incremental Term G facility due 2019 (the *Term G facility*) and a new approximately \$2.9 billion incremental Term H facility due 2021 (the *Term H facility*). The proceeds of the Term G facility and Term H facility were used to repay the Company's existing Term D facility in full. Pursuant to a special distribution paid by QHC to the Company as part of the series of transactions to complete the spin-off, the Company received approximately \$1.2 billion in cash generated from the net proceeds of certain financing arrangements entered into by QHC as part of the separation. On April 29, 2016, using part of the cash generated from the QHC spin-off, the Company repaid approximately \$190 million of its Term F Loans due 2018.

The loans under the Credit Facility bear interest on the outstanding unpaid principal amount at a rate equal to an applicable percentage plus, at CHS' option, either (a) an Alternate Base Rate (as defined) determined by reference to the greater of (1) the Prime Rate (as defined) announced by Credit Suisse or (2) the Federal Funds Effective Rate (as defined) plus 0.50% or (3) the adjusted London Interbank Offered Rate (LIBOR) on such day for a three-month interest period commencing on the second business day after such day plus 1% or (b) LIBOR. Loans in respect of the Revolving Facility and the Term A Facility will accrue interest at a rate per annum initially equal to LIBOR plus 2.75%, in the case of LIBOR borrowings, and Alternate Base Rate plus 1.75%, in the case of Alternate Base Rate borrowings. In addition, the margin in respect of the Revolving Facility and the Term A Facility will be subject to adjustment determined by reference to a leverage-based pricing grid. Loans in respect of the Term F Facility will accrue interest at a rate per annum equal to LIBOR plus 3.25%, in the case of LIBOR borrowings, and Alternate Base Rate plus 2.25%, in the case of Alternate Base Rate Borrowings. The Term G Loan and Term H Loan will accrue interest at a rate per annum equal to LIBOR plus 2.75% and 3.00%, respectively, in the case of LIBOR borrowings, and Alternate Base Rate plus 1.75% and 2.00%, respectively, in the case of Alternate Base Rate Borrowings. The Term G Loan and the Term H Loan are subject to a 1.00% LIBOR floor and a 2.00% Alternate Base Rate floor.

The term loan facility must be prepaid in an amount equal to (1) 100% of the net cash proceeds of certain asset sales and dispositions by the Company and its subsidiaries, subject to certain exceptions and reinvestment rights, (2) 100% of the net cash proceeds of issuances of certain debt obligations or receivables-based financing by the Company and its subsidiaries, subject to certain exceptions, and (3) 50%, subject to reduction to a lower percentage based on the Company's leverage ratio (as defined in the Credit Facility generally as the ratio of total debt on the date of determination to the Company's EBITDA, as defined, for the four quarters most recently ended prior to such date), of excess cash flow (as defined) for any year, subject to certain exceptions. Voluntary prepayments and commitment reductions are permitted in whole or in part, without any premium or penalty, subject to minimum prepayment or reduction requirements.

The borrower under the Credit Facility is CHS. All of the obligations under the Credit Facility are unconditionally guaranteed by the Company and certain of its existing and subsequently acquired or organized domestic subsidiaries. All obligations under the Credit Facility and the related guarantees are secured by a perfected first priority lien or security interest in substantially all of the assets of the Company, CHS and each subsidiary guarantor, including equity interests held by the Company, CHS or any subsidiary guarantor, but excluding, among others, the equity interests of non-significant subsidiaries, syndication subsidiaries, securitization subsidiaries and joint venture subsidiaries.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

CHS has agreed to pay letter of credit fees equal to the applicable percentage then in effect with respect to Eurodollar rate loans under the Revolving Facility times the maximum aggregate amount available to be drawn under all letters of credit outstanding under the subfacility for letters of credit. The issuer of any letter of credit issued under the subfacility for letters of credit will also receive a customary fronting fee and other customary processing charges. CHS is obligated to pay commitment fees of 0.50% per annum (subject to adjustment based upon the Company's leverage ratio) on the unused portion of the Revolving Facility.

The Credit Facility contains customary representations and warranties, subject to limitations and exceptions, and customary covenants restricting the Company's and its subsidiaries' ability, subject to certain exceptions, to, among other things (1) declare dividends, make distributions or redeem or repurchase capital stock, (2) prepay, redeem or repurchase other debt, (3) incur liens or grant negative pledges, (4) make loans and investments and enter into acquisitions and joint ventures, (5) incur additional indebtedness or provide certain guarantees, (6) make capital expenditures, (7) engage in mergers, acquisitions and asset sales, (8) conduct transactions with affiliates, (9) alter the nature of the Company's businesses, (10) grant certain guarantees with respect to physician practices, (11) engage in sale and leaseback transactions or (12) change the Company's fiscal year. The Company is also required to comply with specified financial covenants (consisting of a maximum secured net leverage ratio and an interest coverage ratio) and various affirmative covenants. Under the Credit Facility, the secured net leverage ratio is calculated as the ratio of total secured debt, less unrestricted cash and cash equivalents, to consolidated EBITDA, as defined in the Credit Facility, and the interest coverage ratio is the ratio of consolidated EBITDA, as defined in the Credit Facility, to consolidated interest expense for the period. The calculation of consolidated EBITDA as defined in the Credit Facility is a trailing 12-month calculation that begins with net income attributable to the Company, with certain pro forma adjustments to consider the impact of material acquisitions or divestitures, and adjustments for interest, taxes, depreciation and amortization, net income attributable to noncontrolling interests, stock compensation expense, restructuring costs, and the financial impact of other non-cash or non-recurring items recorded during any such 12-month period. For the trailing 12-month period ended September 30, 2016, the secured net leverage ratio financial covenant in the Credit Facility limited the ratio of secured debt to EBITDA, as defined, to less than or equal to 4.25 to 1.00. For the 12-month period ended September 30, 2016, the interest coverage ratio financial covenant in the Credit Facility limited the ratio of consolidated EBITDA, as defined, to consolidated interest expense to greater than or equal to 2.00 to 1.00. The Company was in compliance with all such covenants at September 30, 2016, with a secured net leverage ratio of approximately 3.95 and an interest coverage ratio of approximately 2.55.

Events of default under the Credit Facility include, but are not limited to, (1) CHS' failure to pay principal, interest, fees or other amounts under the credit agreement when due (taking into account any applicable grace period), (2) any representation or warranty proving to have been materially incorrect when made, (3) covenant defaults subject, with respect to certain covenants, to an available cure through the issuance of qualified equity for a period of 60 days after the end of the first three quarters and 100 days after a year end, (4) bankruptcy events, (5) a cross default to certain other debt, (6) certain undischarged judgments (not paid within an applicable grace period), (7) a change of control, (8) certain ERISA-related defaults and (9) the invalidity or impairment of specified security interests, guarantees or subordination provisions in favor of the administrative agent or lenders under the Credit Facility.

As of September 30, 2016, the availability for additional borrowings under the Credit Facility, subject to certain limitations as set forth in the Credit Facility after taking into account the \$33 million outstanding at that date, was

approximately \$967 million pursuant to the Revolving Facility, of which \$55 million was set aside for outstanding letters of credit. CHS has the ability to amend the Credit Facility to provide for one or more tranches of term loans or increases in the Revolving Facility in an aggregate principal amount of \$1.5 billion, which CHS has not yet accessed. As of September 30, 2016, the weighted-average interest rate under the Credit Facility, excluding swaps, was 4.5%.

8% Senior Notes due 2019

On November 22, 2011, CHS completed its offering of \$1.0 billion aggregate principal amount of 8% Senior Notes due 2019 (the 8% Senior Notes), which were issued in a private placement. The net proceeds from this issuance, together with available cash on hand, were used to finance the purchase of up to \$1.0 billion aggregate principal amount of CHS then outstanding 8% Senior Notes and related fees and expenses. On March 21, 2012, CHS completed the secondary offering of an additional \$1.0 billion aggregate principal amount of 8% Senior Notes, which were issued in a private placement (at a premium of 102.5%). The net proceeds from this issuance were used to finance the purchase of approximately \$850 million aggregate principal amount of CHS then outstanding 8% Senior Notes, to pay related fees and expenses and for general corporate purposes. The 8% Senior Notes bear interest at 8% per annum, payable semiannually in arrears on May 15 and November 15, commencing May 15, 2012. Interest on the 8% Senior Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

On and after November 15, 2015, CHS is entitled, at its option, to redeem all or a portion of the 8% Senior Notes upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the periods set forth below:

Period	Redemption Price
November 15, 2015 to November 14, 2016	104.000 %
November 15, 2016 to November 14, 2017	102.000 %
November 15, 2017 to November 15, 2019	100.000 %

Pursuant to a registration rights agreement entered into at the time of the issuance of the 8% Senior Notes, as a result of an exchange offer made by CHS, substantially all of the 8% Senior Notes issued in November 2011 and March 2012 were exchanged in May 2012 for new notes (the 8% Exchange Notes) having terms substantially identical in all material respects to the 8% Senior Notes (except that the 8% Exchange Notes were issued under a registration statement pursuant to the Securities Act of 1933, as amended (the 1933 Act)). References to the 8% Senior Notes shall also be deemed to include the 8% Exchange Notes unless the context provides otherwise.

During the nine months ended September 30, 2016, the Company repurchased approximately \$75 million of aggregate principal amount outstanding of the 8% Senior Notes in open market transactions.

7 1/8% Senior Notes due 2020

On July 18, 2012, CHS completed an underwritten public offering under its automatic shelf registration filed with the SEC of \$1.2 billion aggregate principal amount of 7 1/8% Senior Notes due 2020 (the 7 1/8% Senior Notes). The net proceeds from this issuance were used to finance the purchase or redemption of \$934 million aggregate principal amount plus accrued interest of CHS' outstanding 8% Senior Notes, to pay for consents delivered in connection therewith, to pay related fees and expenses, and for general corporate purposes. The 7 1/8% Senior Notes bear interest at 7.125% per annum, payable semiannually in arrears on July 15 and January 15, commencing January 15, 2013. Interest on the 7 1/8% Senior Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months.

On and after July 15, 2016, CHS is entitled, at its option, to redeem all or a portion of the 7 1/8% Senior Notes upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the periods set forth below:

Period	Redemption Price
July 15, 2016 to July 14, 2017	103.563 %
July 15, 2017 to July 14, 2018	101.781 %
July 15, 2018 to July 15, 2020	100.000 %

5 1/8% Senior Secured Notes due 2018

On August 17, 2012, CHS completed an underwritten public offering under its automatic shelf registration filed with the SEC of \$1.6 billion aggregate principal amount of 5 1/8% Senior Secured Notes due 2018 (the "2018 Senior Secured Notes"). The net proceeds from this issuance, together with available cash on hand, were used to finance the prepayment of \$1.6 billion of the outstanding term loans due 2014 under the Credit Facility and related fees and expenses. The 2018 Senior Secured Notes bear interest at 5.125% per annum, payable semiannually in arrears on August 15 and February 15, commencing February 15, 2013. Interest on the 2018 Senior Secured Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months. The 2018 Senior Secured Notes are secured by a first-priority lien subject to a shared lien of equal priority with certain other obligations, including obligations under the Credit Facility, and subject to prior ranking liens permitted by the indenture governing the 2018 Senior Secured Notes on substantially the same assets, subject to certain exceptions, that secure CHS' obligations under the Credit Facility.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

On and after August 15, 2015, CHS is entitled, at its option, to redeem all or a portion of the 2018 Senior Secured Notes upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the periods set forth below:

Period	Redemption Price
August 15, 2016 to August 14, 2017	101.281 %
August 15, 2017 to August 15, 2018	100.000 %

On May 16, 2016, using part of the cash generated from the QHC spin-off, the Company completed a cash tender offer for \$900 million aggregate principal amount outstanding of the 2018 Senior Secured Notes.

5 1/8% Senior Secured Notes due 2021

On January 27, 2014, CHS issued \$1.0 billion aggregate principal amount of 5 1/8% Senior Secured Notes due 2021 (the 2021 Senior Secured Notes) in connection with the HMA merger, which were issued in a private placement. The net proceeds from this issuance were used to finance the HMA merger. The 2021 Senior Secured Notes bear interest at 5.125% per annum, payable semiannually in arrears on February 1 and August 1, commencing August 1, 2014. Interest on the 2021 Senior Secured Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months. The 2021 Senior Secured Notes are secured by a first-priority lien, subject to a shared lien of equal priority with certain other obligations, including obligations under the Credit Facility, and subject to prior ranking liens permitted by the indenture governing the 2021 Senior Secured Notes, on substantially the same assets, subject to certain exceptions, that secure CHS' obligations under the Credit Facility.

Except as set forth below, CHS is not entitled to redeem the 2021 Senior Secured Notes prior to February 1, 2017.

Prior to February 1, 2017, CHS is entitled, at its option, to redeem a portion of the 2021 Senior Secured Notes (not to exceed 40% of the outstanding principal amount) at a redemption price equal to 105.125% of the principal amount of the notes redeemed plus accrued and unpaid interest, with the proceeds from certain equity offerings. Prior to February 1, 2017, CHS may redeem some or all of the 2021 Senior Secured Notes at a redemption price equal to 100% of the principal amount of the notes redeemed plus accrued and unpaid interest, if any, plus a make-whole premium, as described in the 2021 Senior Secured Notes indenture. On and after February 1, 2017, CHS is entitled, at its option, to redeem all or a portion of the 2021 Senior Secured Notes upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the periods set forth below:

Period	Redemption Price
February 1, 2017 to January 31, 2018	103.844 %
February 1, 2018 to January 31, 2019	102.563 %
February 1, 2019 to January 31, 2020	101.281 %
February 1, 2020 to January 31, 2021	100.000 %

Pursuant to a registration rights agreement entered into at the time of the issuance of the 2021 Senior Secured Notes, as a result of an exchange offer made by CHS, all of the 2021 Senior Secured Notes issued in January 2014 were exchanged in October 2014 for new notes (the 2021 Exchange Notes) having terms substantially identical in all material respects to the 2021 Senior Secured Notes (except that the exchange notes were issued under a registration statement pursuant to the 1933 Act). References to the 2021 Senior Secured Notes shall be deemed to be the 2021 Exchange Notes unless the context provides otherwise.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)*****6 ⁷/₈% Senior Notes due 2022***

On January 27, 2014, CHS issued \$3.0 billion aggregate principal amount of 6 ⁷/₈% Senior Notes due 2022 (the 6 ⁷/₈% Senior Notes) in connection with the HMA merger, which were issued in a private placement. The net proceeds from this issuance were used to finance the HMA merger. The 6 ⁷/₈% Senior Notes bear interest at 6.875% per annum, payable semiannually in arrears on February 1 and August 1, commencing August 1, 2014. Interest on the 6 ⁷/₈% Senior Notes accrues from the date of original issuance. Interest is calculated on the basis of a 360-day year comprised of twelve 30-day months.

Except as set forth below, CHS is not entitled to redeem the 6 ⁷/₈% Senior Notes prior to February 1, 2018.

Prior to February 1, 2017, CHS is entitled, at its option, to redeem a portion of the 6 ⁷/₈% Senior Notes (not to exceed 40% of the outstanding principal amount) at a redemption price equal to 106.875% of the principal amount of the notes redeemed plus accrued and unpaid interest, with the proceeds from certain public equity offerings. Prior to February 1, 2018, CHS may redeem some or all of the 6 ⁷/₈% Senior Notes at a redemption price equal to 100% of the principal amount of the notes redeemed plus accrued and unpaid interest, if any, plus a make-whole premium, as described in the 6 ⁷/₈% Senior Notes indenture. On and after February 1, 2018, CHS is entitled, at its option, to redeem all or a portion of the 6 ⁷/₈% Senior Notes upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount on the redemption date), plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the periods set forth below:

Period	Redemption Price
February 1, 2018 to January 31, 2019	103.438 %
February 1, 2019 to January 31, 2020	101.719 %
February 1, 2020 to January 31, 2022	100.000 %

Pursuant to a registration rights agreement entered into at the time of the issuance of the 6 ⁷/₈% Senior Notes, as a result of an exchange offer made by CHS, all of the 6 ⁷/₈% Senior Notes issued in January 2014 were exchanged in October 2014 for new notes (the 6 ⁷/₈% Exchange Notes) having terms substantially identical in all material respects to the 6 ⁷/₈% Senior Notes (except that the exchange notes were issued under a registration statement pursuant to the 1933 Act). References to the 6 ⁷/₈% Senior Notes shall be deemed to be the 6 ⁷/₈% Exchange Notes unless the context provides otherwise.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Receivables Facility

On March 21, 2012, through certain of its subsidiaries, CHS entered into an accounts receivable loan agreement (the Receivables Facility) with a group of lenders and banks, Credit Agric  le Corporate and Investment Bank, as a managing agent and as the administrative agent, and The Bank of Nova Scotia, as a managing agent. On March 7, 2013, CHS and certain of its subsidiaries amended the Receivables Facility to add an additional managing agent, The Bank of Tokyo-Mitsubishi UFJ, Ltd., to increase the size of the facility from \$300 million to \$500 million and to extend the scheduled termination date. Additional subsidiaries also agreed to participate in the Receivables Facility as of that date. On March 31, 2014, CHS and certain of its subsidiaries amended the Receivables Facility to increase the size of the facility from \$500 million to \$700 million and to extend the scheduled termination date. Additional subsidiaries also agreed to participate in the Receivables Facility as of that date. On November 13, 2015, CHS and certain of its subsidiaries amended the Receivables Facility to extend the scheduled termination date and amend certain other provisions thereof. The existing and future non-self pay patient-related accounts receivable (the Receivables) for certain affiliated hospitals serve as collateral for the outstanding borrowings under the Receivables Facility. The interest rate on the borrowings is based on the commercial paper rate plus an applicable interest rate spread. Unless earlier terminated or subsequently extended pursuant to its terms, the Receivables Facility will expire on November 13, 2017, subject to customary termination events that could cause an early termination date. CHS maintains effective control over the Receivables because, pursuant to the terms of the Receivables Facility, the Receivables are sold from certain of CHS subsidiaries to CHS, and CHS then sells or contributes the Receivables to a special-purpose entity that is wholly-owned by CHS. The wholly-owned special-purpose entity in turn grants security interests in the Receivables in exchange for borrowings obtained from the group of third-party lenders and banks of up to \$700 million outstanding from time to time based on the availability of eligible Receivables and other customary factors. The group of third-party lenders and banks do not have recourse to CHS or its subsidiaries beyond the assets of the wholly-owned special-purpose entity that collateralizes the loan. The Receivables and other assets of the wholly-owned special-purpose entity will be available first and foremost to satisfy the claims of the creditors of such entity. The outstanding borrowings pursuant to the Receivables Facility at September 30, 2016 totaled \$643 million and are classified as long-term debt on the condensed consolidated balance sheet. At September 30, 2016, the carrying amount of Receivables included in the Receivables Facility totaled approximately \$1.7 billion and is included in patient accounts receivable on the condensed consolidated balance sheet.

Loss from Early Extinguishment of Debt

The financing and repayment transactions discussed above resulted in a loss from the early extinguishment of debt of \$30 million and \$16 million for the nine months ended September 30, 2016 and 2015, respectively, and an after-tax loss of \$19 million and \$10 million for the nine months ended September 30, 2016 and 2015, respectively.

Other Debt

As of September 30, 2016, other debt consisted primarily of the mortgage obligation on the Company's corporate headquarters and other obligations maturing in various installments through 2020.

To limit the effect of changes in interest rates on a portion of the Company's long-term borrowings, the Company is a party to 11 separate interest swap agreements in effect at September 30, 2016, with an aggregate notional amount for currently effective swaps of \$2.7 billion. On each of these swaps, the Company receives a variable rate of interest based on the three-month LIBOR in exchange for the payment of a fixed rate of interest. The Company currently pays, on a quarterly basis, interest on the Revolving Facility and the Term A Facility at a rate per annum equal to LIBOR plus 2.75%. Loans in respect of the Term F Facility accrue interest at a rate per annum equal to LIBOR plus 3.25%. The Term G Loan and Term H Loan accrue interest at a rate per annum equal to LIBOR plus 2.75% and 3.00%, in the case of LIBOR borrowings, respectively, and Alternate Base Rate plus 1.75% and 2.00%, respectively, in the case of Alternate Base Rate Borrowings. The Term G Loan and the Term H Loan are subject to a 1.00% LIBOR floor and a 2.00% Alternate Base Rate floor. See Note 13 for additional information regarding these swaps.

The Company paid interest of \$279 million and \$293 million on borrowings during the three months ended September 30, 2016 and 2015, respectively, and \$767 million and \$752 million on borrowings during the nine months ended September 30, 2016 and 2015, respectively.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****13. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The fair value of financial instruments has been estimated by the Company using available market information as of September 30, 2016 and December 31, 2015, and valuation methodologies considered appropriate. The estimates presented in the table below are not necessarily indicative of amounts the Company could realize in a current market exchange (in millions):

	September 30, 2016		December 31, 2015	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Assets:				
Cash and cash equivalents	\$ 133	\$ 133	\$ 184	\$ 184
Available-for-sale securities	274	274	271	271
Trading securities	75	75	61	61
Liabilities:				
Contingent Value Right	2	2	2	2
Credit Facility	6,705	6,691	7,114	7,115
8% Senior Notes	1,919	1,896	1,992	2,018
7 1/8% Senior Notes	1,188	1,119	1,186	1,193
2018 Senior Secured Notes	697	712	1,587	1,610
2021 Senior Secured Notes	971	990	967	997
6 7/8% Senior Notes	2,929	2,742	2,921	2,858
Receivables Facility and other debt	724	724	791	791

The estimated fair value is determined using the methodologies discussed below in accordance with accounting standards related to the determination of fair value based on the U.S. GAAP fair value hierarchy as discussed in Note 14. The estimated fair value for financial instruments with a fair value that does not equal its carrying value is considered a Level 1 valuation. The Company utilizes the market approach and obtains indicative pricing from the administrative agent to the Credit Facility to determine fair values or through publicly available subscription services such as Bloomberg where relevant.

Cash and cash equivalents. The carrying amount approximates fair value due to the short-term maturity of these instruments (less than three months).

Available-for-sale securities. Estimated fair value is based on closing price as quoted in public markets or other various valuation techniques.

Trading securities. Estimated fair value is based on closing price as quoted in public markets.

Contingent Value Right. Estimated fair value is based on the closing price as quoted on the public market where the CVR is traded.

Credit Facility. Estimated fair value is based on publicly available trading activity and supported with information from the Company's bankers regarding relevant pricing for trading activity among the Company's lending institutions.

8% Senior Notes. Estimated fair value is based on the closing market price for these notes.

7 1/8% Senior Notes. Estimated fair value is based on the closing market price for these notes.

2018 Senior Secured Notes. Estimated fair value is based on the closing market price for these notes.

2021 Senior Secured Notes. Estimated fair value is based on the closing market price for these notes.

6 7/8% Senior Notes. Estimated fair value is based on the closing market price for these notes.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Receivables Facility and other debt. The carrying amount of the Receivables Facility and all other debt approximates fair value due to the nature of these obligations.

Interest rate swaps. The fair value of interest rate swap agreements is the amount at which they could be settled, based on estimates calculated by the Company using a discounted cash flow analysis based on observable market inputs and validated by comparison to estimates obtained from the counterparty. The Company incorporates credit valuation adjustments (CVAs) to appropriately reflect both its own nonperformance or credit risk and the respective counterparty's nonperformance or credit risk in the fair value measurements. In adjusting the fair value of its interest rate swap agreements for the effect of nonperformance or credit risk, the Company has considered the impact of any netting features included in the agreements.

The Company assesses the effectiveness of its hedge instruments on a quarterly basis. For the nine months ended September 30, 2016 and 2015, the Company completed an assessment of the cash flow hedge instruments and determined the hedges to be highly effective. The Company has also determined that the ineffective portion of the hedges do not have a material effect on the Company's consolidated financial position, operations or cash flows. The counterparties to the interest rate swap agreements expose the Company to credit risk in the event of nonperformance. However, at September 30, 2016, all of the swap agreements entered into by the Company were in a net liability position such that the Company would be required to make the net settlement payments to the counterparties; the Company does not anticipate nonperformance by those counterparties. The Company does not hold or issue derivative financial instruments for trading purposes.

Interest rate swaps consisted of the following at September 30, 2016:

Swap #	Notional Amount (in millions)	Fixed Interest Rate	Termination Date	Fair Value (in millions)
1	\$ 100	3.005 %	November 30, 2016	\$ -
2	200	2.055 %	July 25, 2019	5
3	200	2.059 %	July 25, 2019	6
4	400	1.882 %	August 30, 2019	7
5	200	2.515 %	August 30, 2019	7
6	200	2.613 %	August 30, 2019	8
7	300	2.041 %	August 30, 2020	8
8	300	2.738 %	August 30, 2020	15
9	300	2.892 %	August 30, 2020	17
10	300	2.363 %	January 27, 2021	12
11	200	2.368 %	January 27, 2021	8

The Company is exposed to certain risks relating to its ongoing business operations. The risk managed by using derivative instruments is interest rate risk. Interest rate swaps are entered into to manage interest rate fluctuation risk associated with the term loans in the Credit Facility. Companies are required to recognize all derivative instruments as

either assets or liabilities at fair value in the condensed consolidated statement of financial position. The Company designates its interest rate swaps as cash flow hedges. For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income (OCI) and reclassified into earnings in the same period or periods during which the hedged transactions affect earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings.

Assuming no change in September 30, 2016 interest rates, approximately \$36 million of interest expense resulting from the spread between the fixed and floating rates defined in each interest rate swap agreement will be recognized during the next 12 months. If interest rate swaps do not remain highly effective as a cash flow hedge, the derivatives gains or losses resulting from the change in fair value reported through OCI will be reclassified into earnings.

Derivatives designated as hedging instruments	Other assets, net	\$ -	Other assets, net	\$ -	Other long-term liabilities	\$ 93	Other long-term liabilities	\$ 76

14. FAIR VALUE*Fair Value Hierarchy*

Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, the Company utilizes the U.S. GAAP fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumption about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

The inputs used to measure fair value are classified into the following fair value hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Level 3 includes values determined using pricing models, discounted cash flow methodologies, or similar techniques reflecting the Company's own assumptions.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

In instances where the determination of the fair value hierarchy measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment of factors specific to the asset or liability. Transfers between levels within the fair value hierarchy are recognized by the Company on the date of the change in circumstances that requires such transfer. There were no transfers between levels during the nine-month periods ending September 30, 2016 or September 30, 2015.

The following table sets forth, by level within the fair value hierarchy, the financial assets and liabilities recorded at fair value on a recurring basis as of September 30, 2016 and December 31, 2015 (in millions):

	September 30,			Level 1			Level 2			Level 3

Total liabilities	\$	339	\$	2	\$	76	\$	261
-------------------	----	-----	----	---	----	----	----	-----

Available-for-sale Securities

Available-for-sale securities and trading securities classified as Level 1 are measured using quoted market prices. Level 2 available-for-sale securities primarily consisted of: (i) bonds and notes issued by the United States government and its agencies, domestic and foreign corporations and foreign governments; and (ii) preferred securities issued by domestic and foreign corporations. The estimated fair values of these securities are determined using various valuation techniques, including a multi-dimensional relational model that incorporates standard observable inputs and assumptions such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids/offers and other pertinent reference data.

Contingent Value Right (CVR)

The CVR represents the estimate of the fair value for the contingent consideration paid to HMA shareholders as part of the HMA merger. The CVR is listed on the NASDAQ and the valuation at September 30, 2016 is based on the quoted trading price for the CVR on the last day of the period. Changes in the estimated fair value of the CVR are recorded through the condensed consolidated statements of income.

COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

CVR-related Liability

The CVR-related legal liability represents the Company's estimate of fair value at September 30, 2016 of the liability associated with the legal matters assumed in the HMA merger, which are included in accrued liabilities in the accompanying condensed consolidated balance sheet. This liability did not include those matters previously accrued by HMA as a probable contingency, which were settled and paid during the year ended December 31, 2015. To develop the estimate of fair value, the Company engaged an independent third-party valuation firm to measure the liability. The valuation was made utilizing the Company's estimates of future outcomes for each legal case and simulating future outcomes based on the timing, probability and distribution of several scenarios using a Monte Carlo simulation model. Other inputs were then utilized for discounting the liability to the measurement date. The HMA legal matters underlying this fair value estimate were evaluated by management to determine the likelihood and impact of each of the potential outcomes. Using that information, as well as the potential correlation and variability associated with each case, a fair value was determined for the estimated future cash outflows to conclude or settle the HMA legal matters included in the analysis, excluding legal fees (which are expensed as incurred). Because of the unobservable nature of the majority of the inputs used to value the liability, the Company has classified the fair value measurement as a Level 3 measurement in the fair value hierarchy.

The fair value of the CVR-related legal liability will be measured each reporting period using similar measurement techniques, updated for the assumptions and facts existing at that date for each of the underlying legal matters. Changes in the fair value of the CVR related legal liability are recorded in future periods through the condensed consolidated statements of income.

Fair Value of Interest Rate Swap Agreements

The valuation of the Company's interest rate swap agreements is determined using market valuation techniques, including discounted cash flow analysis on the expected cash flows of each agreement. This analysis reflects the contractual terms of the agreement, including the period to maturity, and uses observable market-based inputs, including forward interest rate curves. The fair value of interest rate swap agreements are determined by netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on the expectation of future interest rates based on observable market forward interest rate curves and the notional amount being hedged.

The Company incorporates CVAs to appropriately reflect both its own nonperformance or credit risk and the respective counterparty's nonperformance or credit risk in the fair value measurements. In adjusting the fair value of its interest rate swap agreements for the effect of nonperformance or credit risk, the Company has considered the impact of any netting features included in the agreements. The CVA on the Company's interest rate swap agreements resulted in a decrease in the fair value of the related liability of \$5 million and an after-tax adjustment of \$3 million to OCI at September 30, 2016. The CVA on the Company's interest rate swap agreements resulted in a decrease in the fair value of the related liability of \$4 million and an after-tax adjustment of \$2 million to OCI at December 31, 2015.

The majority of the inputs used to value the Company's interest rate swap agreements, including the forward interest rate curves and market perceptions of the Company's credit risk used in the CVAs, are observable inputs available to a

market participant. As a result, the Company has determined that the interest rate swap valuations are classified in Level 2 of the fair value hierarchy.

15. SEGMENT INFORMATION

The Company operates in two distinct operating segments, represented by hospital operations (which includes its general acute care hospitals and related healthcare entities that provide inpatient and outpatient healthcare services) and home care agency operations (which provide in-home outpatient care).

Only the hospital operations segment meets the criteria as a separate reportable segment. The financial information for the home care agency segment does not meet the quantitative thresholds for a separate identifiable reportable segment and is combined into the corporate and all other reportable segment.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The distribution between reportable segments of the Company's net operating revenues and (loss) income from continuing operations before income taxes is summarized in the following tables (in millions):

	Three Months Ended September 30, 2016		September 30, 2015		Nine Months Ended September 30, 2016		September 30, 2015	
Net operating revenues:

17. CONTINGENCIES

The Company is a party to various legal, regulatory and governmental proceedings incidental to its business. Based on current knowledge, management does not believe that loss contingencies arising from pending legal, regulatory and governmental matters, including the matters described herein, will have a material adverse effect on the consolidated financial position or liquidity of the Company. However, in light of the inherent uncertainties involved in pending legal, regulatory and governmental matters, some of which are beyond the Company's control, and the very large or indeterminate damages sought in some of these matters, an adverse outcome in one or more of these matters could be material to the Company's results of operations or cash flows for any particular reporting period.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

With respect to all legal, regulatory and governmental proceedings, the Company considers the likelihood of a negative outcome. If the Company determines the likelihood of a negative outcome with respect to any such matter is probable and the amount of the loss can be reasonably estimated, the Company records an accrual for the estimated loss for the expected outcome of the matter. If the likelihood of a negative outcome with respect to material matters is reasonably possible and the Company is able to determine an estimate of the possible loss or a range of loss, whether in excess of a related accrued liability or where there is no accrued liability, the Company discloses the estimate of the possible loss or range of loss. However, the Company is unable to estimate a possible loss or range of loss in some instances based on the significant uncertainties involved in, and/or the preliminary nature of, certain legal, regulatory and governmental matters.

In connection with the spin-off of QHC, the Company agreed to indemnify QHC for certain liabilities relating to outcomes or events occurring prior to April 29, 2016, the closing date of the spin-off, including (i) certain claims and proceedings that were known to be outstanding at or prior to the consummation of the spin-off and involved multiple facilities and (ii) certain claims, proceedings and investigations by governmental authorities or private plaintiffs related to activities occurring at or related to QHC's healthcare facilities prior to the closing date of the spin-off, but only to the extent, in the case of clause (ii), that such claims are covered by insurance policies maintained by the Company, including professional liability and employer practices. In this regard, the Company continues to be responsible for HMA Legal Matters (as defined below) covered by the CVR agreement that relate to QHC's business, and any amounts payable by the Company in connection therewith will continue to reduce the amount payable by the Company in respect of the CVRs. Notwithstanding the foregoing, the Company is not required to indemnify QHC in respect of any claims or proceedings arising out of or related to the business operations of Quorum Health Resources, LLC at any time or QHC's compliance with the corporate integrity agreement. Subsequent to the spin-off of QHC, the Office of the Inspector General provided the Company with written assurance that it would look solely at QHC for compliance for its facilities under the Company's Corporate Integrity Agreement; however, the Office of the Inspector General declined to enter into a separate corporate integrity agreement with QHC.

HMA Legal Matters and Related CVR

The CVR agreement entitles the holder to receive a one-time cash payment of up to \$1.00 per CVR, subject to downward adjustment based on the final resolution of certain litigation, investigations (whether formal or informal, including subpoenas), or other actions or proceedings related to HMA or its affiliates existing on or prior to July 29, 2013 (the date of the Company's merger agreement with HMA) as more specifically provided in the CVR agreement (all such matters are referred to as the "HMA Legal Matters"), which include, but are not limited to, investigation and litigation matters as previously disclosed by HMA in public filings with the SEC and/or as described in more detail below. The adjustment reducing the ultimate amount paid to holders of the CVR is determined based on the amount of losses incurred by the Company in connection with the HMA Legal Matters as more specifically provided in the CVR agreement, which generally includes the amount paid for damages, costs, fees and expenses (including, without limitation, attorneys' fees and expenses), and all fines, penalties, settlement amounts, indemnification obligations and other liabilities (all such losses are referred to as "HMA Losses"). If the aggregate amount of HMA Losses exceeds a deductible of \$18 million, then the amount payable in respect of each CVR shall be reduced (but not below zero) by an amount equal to the quotient obtained by dividing: (a) the product of (i) all losses in excess of the deductible and (ii) 90%; by (b) the number of CVRs outstanding on the date on which final resolution of the existing litigation

occurs. There are 264,544,053 CVRs outstanding as of the date hereof. If total HMA Losses (including HMA Losses that have occurred to date as noted in the table below) exceed approximately \$312 million, then the holders of the CVRs will not be entitled to any payment in respect of the CVRs.

The CVRs do not have a finite payment date. Any payments the Company makes under the CVR agreement will be payable within 60 days after the final resolution of the HMA Legal Matters. The CVRs are unsecured obligations of CHS and all payments under the CVRs will be subordinated in right of payment to the prior payment in full of all of the Company's senior obligations (as defined in the CVR agreement), which include outstanding indebtedness of the Company (subject to certain exceptions set forth in the CVR agreement) and the HMA Losses. The CVR agreement permits the Company to acquire all or some of the CVRs, whether in open market transactions, private transactions or otherwise. As of September 30, 2016, the Company had acquired no CVRs.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The following table represents the impact of legal expenses paid or incurred to date and settlements paid or deemed final as of September 30, 2016 on the amounts owed to CVR holders (in millions):

	Allocation of Expenses and Settlements Paid					
	Total Expenses and Settlement Cost	Deductible	CHS Responsibility at 10%	Reduction to Amount Owed to CVR Holders at 90%		
As of December 31, 2015	\$ 58	\$ 18	\$ 4	\$ 36		
Settlements paid	1	-	-	1		
Legal expenses incurred and/or paid during the nine months ended September 30, 2016	2	-	-	2		
As of September 30, 2016	\$ 61	\$ 18	\$ 4	\$ 39		

Amounts owed to CVR holders are dependent on the ultimate resolution of the HMA Legal Matters and determination of HMA Losses incurred. The settlement of any or all of the claims and expenses incurred on behalf of the Company in defending itself will (subject to the deductible) reduce the amounts owed to the CVR holders.

Underlying the CVR agreement are a number of claims included in the HMA Legal Matters asserted against HMA. The Company has recorded a liability in connection with those claims as part of the acquired assets and liabilities at the date of acquisition pursuant to the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 805 Business Combinations. For the estimate of the Company's liabilities associated with the HMA Legal Matters that will be covered by the CVR and were not previously accrued by HMA, the Company recorded a liability of \$284 million as part of the acquisition accounting for the HMA merger based on the Company's estimate of fair value of such liabilities as of the date of acquisition. There was a \$2 million decrease in the liability during the nine months ended September 30, 2016 and the fair value of such liabilities of \$259 million as of September 30, 2016.

is recorded in other long-term liabilities on the accompanying condensed consolidated balance sheet. As of September 30, 2016, there is currently no accrual recorded for the probable contingency claims underlying the CVR agreement. The estimated liability for probable contingency claims underlying the CVR agreement that was previously recorded by HMA, and reflected in the purchase accounting for HMA as an acquired liability has been settled and was paid during the year ended December 31, 2015. In addition, although legal fees are not included in the amounts currently accrued, such legal fees are taken into account in determining HMA Losses under the CVR agreement. Certain significant HMA Legal Matters underlying these liabilities are discussed in greater detail below.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****HMA Matters Recorded at Fair Value***Medicare/Medicaid Billing Lawsuits*

Beginning during the week of December 16, 2013, eleven qui tam lawsuits filed by private individuals against HMA were unsealed in various United States district courts. The United States has elected to intervene in all or part of eight of these matters; namely U.S. ex rel. Craig Brummer v. Health Management Associates, Inc. et al. (Middle District Georgia) (Brummer); U.S. ex rel. Ralph D. Williams v. Health Management Associates, Inc. et al. (Middle District Georgia) (Williams); U.S. ex rel. Scott H. Plantz, M.D. et al. v. Health Management Associates, Inc., et al. (Northern District Illinois) (Plantz); U.S. ex rel. Thomas L. Mason, M.D. et al. v. Health Management Associates, Inc. et al. (Western District North Carolina) (Mason); U.S. ex rel. Jacqueline Meyer, et al. v. Health Management Associates, Inc., Gary Newsome et al. (Jacqueline Meyer) (District of South Carolina); U.S. ex rel. George Miller, et al. v. Health Management Associates, Inc. (Eastern District of Pennsylvania) (Miller); U.S. ex rel. Bradley Nurkin v. Health Management Associates, Inc. et al. (Middle District of Florida) (Nurkin); and U.S. ex rel. Paul Meyer v. Health Management Associates, Inc. et al. (Southern District Florida) (Paul Meyer). The United States has elected to intervene with respect to allegations in these cases that certain HMA hospitals inappropriately admitted patients and then submitted reimbursement claims for treating those individuals to federal healthcare programs in violation of the False Claims Act or that certain HMA hospitals had inappropriate financial relationships with physicians which violated the Stark law, the Anti-Kickback Statute, and the False Claims Act. Certain of these complaints also allege the same actions violated various state laws which prohibit false claims. The United States has declined to intervene in three of the eleven matters, namely U.S. ex rel. Anita France, et al. v. Health Management Associates, Inc. (Middle District Florida) (France) which involved allegations of wrongful billing and was settled; U.S. ex rel. Sandra Simmons v. Health Management Associates, Inc. et al. (Eastern District Oklahoma) (Simmons) which alleges unnecessary surgery by an employed physician and which was settled as to all allegations except alleged wrongful termination; and U.S. ex rel. David Napoliello, M.D. v. Health Management Associates, Inc. (Middle District Florida) (Napoliello) which alleges inappropriate admissions. On April 3, 2014, the Multi District Litigation Panel ordered the transfer and consolidation for pretrial proceedings of the eight intervened cases, plus the Napoliello matter, to the District of the District of Columbia under the name In Re: Health Management Associates, Inc. Qui Tam Litigation. On June 2, 2014, the court entered a stay of this matter until October 6, 2014, which was subsequently extended until February 27, 2015, May 27, 2015, September 25, 2015, January 25, 2016, May 25, 2016, September 26, 2016 and now until December 27, 2016. The Company intends to defend against the allegations in these matters, but also continues to cooperate with the government in the ongoing investigation of these allegations. The Company has been in discussions with the Civil Division of the United States Department of Justice (DOJ) regarding the resolutions of these matters. During the first quarter of 2015, the Company was informed that the Criminal Division continues to investigate former executive-level employees of HMA, and continues to consider whether any HMA entities should be held criminally liable for the acts of the former HMA employees. The Company is voluntarily cooperating with these inquiries and has not been served with any subpoenas or other legal process.

Other Probable Contingencies

Lopez v. Yakima Regional Medical & Cardiac Center and Toppenish Community Hospital

This class action lawsuit arose out of alleged conduct at these hospitals prior to the HMA acquisition. The suit alleges the hospitals' charity care policies did not comply with Washington state law. The trial court has certified a class and granted partial summary judgment in favor of the plaintiffs. This matter has now been settled. The Company has recorded an estimate of the probable liability during the three months ended September 30, 2016 based on the settlement of this matter.

HMA Midwest City Memorial Hospital Authority v. Health Management Associates, Inc., Midwest Regional Medical Center, LLC and Community Health Systems, Inc.

During the three months ended September 30, 2016, the Company reached an agreement in principle to settle a matter related to the lease for the Company's hospital in Midwest City, Oklahoma. The landlord's amended petition sought damages due to an alleged breach of the right of first refusal to purchase the hospital, which was triggered with the Company's acquisition of HMA in 2014. Based on the estimate of probable liability determined by the settlement agreement, a liability for this matter was recorded during the three months ended September 30, 2016.

Table of Contents**COMMUNITY HEALTH SYSTEMS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****Summary of Recorded Amounts**

The table below presents a reconciliation of the beginning and ending liability balances (in millions) during the nine months ended September 30, 2016 with respect to the Company's fair value determination in connection with HMA Legal Matters that were not previously accrued by HMA, and the remaining contingencies of the Company in respect of which an accrual has been recorded. In addition, future legal fees (which are expensed as incurred) and costs related to possible indemnification and criminal investigation matters associated with the HMA Legal Matters have not been accrued or included in the table below. Furthermore, although not accrued, such costs, if incurred, will be taken into account in determining the total amount of reductions applied to the amounts owed to CVR holders.

		CVR-Related Liability at Fair Value		Other Probable Contingencies
Balance as of December 31, 2015	\$	261	\$	10
Expense		(1)		10
Cash payments		(1)		(6)
Balance as of September 30, 2016	\$	259	\$	14

With respect to the Other Probable Contingencies referenced in the chart above, in accordance with applicable accounting guidance, the Company establishes a liability for litigation, regulatory and governmental matters for which, based on information currently available, the Company believes that a negative outcome is known or is probable and the amount of the loss is reasonably estimable. For all such matters (whether or not discussed in this contingencies footnote), such amounts have been recorded in other accrued liabilities on the condensed consolidated balance sheet and are included in the table above in the Other Probable Contingencies column. Due to the uncertainties and difficulty in predicting the ultimate resolution of these contingencies, the actual amount could differ from the estimated amount reflected as a liability on the condensed consolidated balance sheet.

In the aggregate, attorneys' fees and other costs incurred but not included in the table above related to probable contingencies, and CVR-related contingencies accounted for at fair value, totaled \$1 million and \$2 million for the three months ended September 30, 2016 and 2015, respectively, and \$2 million and \$8 million for the nine months ended September 30, 2016 and 2015, respectively, and are included in other operating expenses in the accompanying condensed consolidated statements of income.

Matters for which an Outcome Cannot be Assessed

For the legal matters below, the Company cannot at this time assess what the outcome may be and is further unable to determine any estimate of loss or range of loss. Because the matters below are at a preliminary stage and other factors, there are not sufficient facts available to make these assessments.

Class Action Shareholder Federal Securities Cases. Three purported class action cases have been filed in the United States District Court for the Middle District of Tennessee; namely, Norfolk County Retirement System v. Community Health Systems, Inc., et al., filed May 9, 2011; De Zheng v. Community Health Systems, Inc., et al., filed May 12, 2011; and Minneapolis Firefighters Relief Association v. Community Health Systems, Inc., et al., filed June 21, 2011. All three seek class certification on behalf of purchasers of the Company's common stock between July 27, 2006 and April 11, 2011 and allege that misleading statements resulted in artificially inflated prices for the Company's common stock. In December 2011, the cases were consolidated for pretrial purposes and NYC Funds and its counsel were selected as lead plaintiffs/lead plaintiffs' counsel. In lieu of ruling on the Company's motion to dismiss, the court permitted the plaintiffs to file a first amended consolidated class action complaint, which was filed on October 5, 2015. The Company's motion to dismiss was filed on November 4, 2015 and oral argument was held on April 11, 2016. The Company's motion to dismiss was granted on June 16, 2016 and on June 27, 2016, the plaintiffs filed a notice of appeal to the Sixth Circuit Court of Appeals. The plaintiffs' initial brief was filed on September 28, 2016. The Company's response is due December 7, 2016. The Company believes this consolidated matter is without merit and will vigorously defend this case.

Other Matters

Shareholder Derivative Actions. Three purported shareholder derivative actions have also been filed in the United States District Court for the Middle District of Tennessee; Plumbers and Pipefitters Local Union No. 630 Pension Annuity Trust Fund v. Wayne T. Smith, et al., filed May 24, 2011; Roofers Local No. 149 Pension Fund v. Wayne T. Smith, et al., filed June 21, 2011; and Lambert Sweat v. Wayne T. Smith, et al., filed October 5, 2011. These three cases allege breach of fiduciary duty arising out of allegedly improper inpatient admission practices, mismanagement, waste and unjust enrichment. These cases have been consolidated into a single, consolidated action. The plaintiffs filed an operative amended derivative complaint in these three consolidated actions on March 15, 2012. The Company's motion to dismiss was argued on June 13, 2013. On September 27, 2013, the court issued an order granting in part and denying in part the Company's motion to dismiss. An agreement in principle on the settlement of this case has been reached by the parties.

18. SUBSEQUENT EVENTS

The Company has evaluated all material events occurring subsequent to the balance sheet date for events requiring disclosure or recognition in the condensed consolidated financial statements.

On October 17, 2016, one or more subsidiaries of the Company signed a definitive agreement to sell an 80% ownership interest in the Company's Home Care division to a subsidiary of Almost Family, Inc. The transaction is expected to close in the fourth quarter of this year, subject to customary regulatory approvals and closing conditions. At September 30, 2016, the Home Care division had current assets of \$34 million, long-term assets of \$53 million and current liabilities of \$16 million. For the nine months ended September 30, 2016, the Home Care division had net operating revenues of \$148 million and income from continuing operations before income taxes of \$11 million.

On October 3, 2016, the Board of Directors of the Company adopted a Stockholder Protection Rights Agreement (the Rights Agreement) and declared a dividend of one right (a Right) for each outstanding share of the Company's common stock held of record at the close of business on October 13, 2016. The Rights Agreement will expire on April 1, 2017.

Under the terms of the Rights Agreement, until the earlier of (i) the Company's announcing that a person or group has acquired 15% or more of the Company's common stock (an Acquiring Person), or the date and time on which any Acquiring Person has acquired more than 40% of the Company's common stock (in either case, the Flip-in Date) and (ii) the tenth business day, or such later date designated by the Board of Directors, after any person or group commences a tender offer that will result in such person or group owning 15% or more of the Company's common stock, the Rights will be evidenced by the common stock certificates (or the registration of the associated common stock on the Company's stock transfer books with respect to uncertificated shares), will automatically trade with the common stock and will not be exercisable. Thereafter, separate Rights certificates will be distributed to holders of record and each Right will entitle its holder to purchase fractions of participating preferred stock having economic and voting terms similar to those of one share of common stock for an exercise price of \$50.00.

Upon the occurrence of the Flip-in Date, each Right (other than Rights beneficially owned by any Acquiring Person or transferees thereof, which Rights become void) will entitle its holder to purchase, for the exercise price, a number of shares of the Company's common stock having a market value of twice the exercise price. Also, if after an Acquiring Person controls the Company's Board of Directors or is the owner of 50% or more of the Company's common stock, the Company is involved in a merger or sells more than 50% of its assets or earning power and, in the case of a merger, the Acquiring Person will receive different treatment than all other stockholders or the transaction is with the Acquiring Person, each Right (other than Rights beneficially owned by any Acquiring Person or transferees thereof, which Rights become void) will entitle its holder to purchase, for the exercise price, a number of shares of common stock of the person engaged in such transaction or the parent corporation thereof having a market value of twice the exercise price. If any person or group acquires between 15% and 50% of the Company's common stock, the Board of Directors may, at its option, exchange one share of the Company's common stock for each Right (other than Rights beneficially owned by any Acquiring Person or transferees thereof, which Rights become void).

The Rights may generally be redeemed by the Board of Directors for \$0.001 per Right prior to the Flip-in Date.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

19. SUPPLEMENTAL CONDENSED CONSOLIDATING FINANCIAL INFORMATION

The Senior Notes due 2019, 2020 and 2022, which are senior unsecured obligations of CHS, and the 5 $\frac{1}{8}$ % Senior Secured Notes due 2018 and 2021 (collectively, the Notes) are guaranteed on a senior basis by the Company and by certain of its existing and subsequently acquired or organized 100% owned domestic subsidiaries. The Notes are fully and unconditionally guaranteed on a joint and several basis, with exceptions considered customary for such guarantees, limited to the release of the guarantee when a subsidiary guarantor's capital stock is sold, or a sale of all of the subsidiary guarantor's assets used in operations. The following condensed consolidating financial statements present Community Health Systems, Inc. (as parent guarantor), CHS (as the issuer), the subsidiary guarantors, the subsidiary non-guarantors and eliminations. These condensed consolidating financial statements have been prepared and presented in accordance with SEC Regulation S-X Rule 3-10 Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered.

The accounting policies used in the preparation of this financial information are consistent with those elsewhere in the condensed consolidated financial statements of the Company, except as noted below:

Intercompany receivables and payables are presented gross in the supplemental condensed consolidating balance sheets.

Cash flows from intercompany transactions are presented in cash flows from financing activities, as changes in intercompany balances with affiliates, net.

Income tax expense is allocated from the parent guarantor to the income producing operations (other guarantors and non-guarantors) and the issuer through stockholders' equity. As this approach represents an allocation, the income tax expense allocation is considered non-cash for statement of cash flow purposes.

Interest expense, net has been presented to reflect net interest expense and interest income from outstanding long-term debt and intercompany balances.

The Company's intercompany activity consists primarily of daily cash transfers for purposes of cash management, the allocation of certain expenses and expenditures paid for by the Parent on behalf of its subsidiaries, and the push down of investment in its subsidiaries. This activity also includes the intercompany transactions between consolidated entities as part of the Receivables Facility that is further discussed in Note 12. The Company's subsidiaries generally do not purchase services from one another; thus, the intercompany transactions do not represent revenue generating transactions. All intercompany transactions eliminate in consolidation.

From time to time, subsidiaries of the Company sell and/or repurchase noncontrolling interests in consolidated subsidiaries, which may change subsidiaries between guarantors and non-guarantors. Effective with the spin-off of

QHC, all subsidiaries of the Company that were part of that distribution have been removed as guarantors. Amounts for prior periods have been revised to reflect the status of guarantors or non-guarantors as of June 30, 2016. There were no material changes to the status of guarantors or non-guarantors as of September 30, 2016.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

You should read this discussion together with our unaudited condensed consolidated financial statements and the accompanying notes included herein.

Throughout this Quarterly Report on Form 10-Q, we refer to Community Health Systems, Inc., or the Parent Company, and its consolidated subsidiaries in a simplified manner and on a collective basis, using words like *we*, *our*, *us* and the *Company*. This drafting style is suggested by the Securities and Exchange Commission, or SEC, and is not meant to indicate that the publicly traded Parent Company or any particular subsidiary of the Parent Company owns or operates any asset, business or property. The hospitals, operations and businesses described in this filing are owned and operated by distinct and indirect subsidiaries of Community Health Systems, Inc.

Executive Overview

We are one of the largest publicly traded hospital companies in the United States and a leading operator of general acute care hospitals in communities across the country. We provide healthcare services through the hospitals that we own and operate and affiliated businesses in non-urban and selected urban markets throughout the United States. We generate revenues by providing a broad range of general and specialized hospital healthcare services and other outpatient services to patients in the communities in which we are located. As of September 30, 2016, we owned or leased 155 hospitals included in continuing operations, comprised of 152 general acute care hospitals and three stand-alone rehabilitation or psychiatric hospitals. In addition to our hospitals and related businesses, we own and operate home care agencies, located primarily in markets where we also operate a hospital. For the hospitals and home care agencies that we own and operate, we are paid for our services by governmental agencies, private insurers and directly by the patients we serve.

As initially disclosed on September 19, 2016, we announced that, with the assistance of advisors, we are exploring a variety of options with financial sponsors, as well as other potential alternatives. The discussions are at a very preliminary stage and there is no timeline established for this review. There can be no certainty that the exploration will result in any kind of transaction. As previously disclosed, we do not expect to make further public comment regarding these matters while the exploration process takes place. In addition, our Board of Directors adopted a Stockholder Protection Rights Agreement on October 3, 2016, which is discussed in further detail in Note 18 of the notes to the condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

The Stockholder Protection Rights Agreement will not prevent our takeover, but may cause substantial dilution to a person or group that acquires 15% or more of our common stock, which may block or render more difficult a merger, tender offer or other business combination involving us that is not supported by our Board of Directors.

On August 3, 2015, we announced a plan to spin off 38 hospitals and Quorum Health Resources, LLC, or QHR (our subsidiary through which we provided management advisory and consulting services to non-affiliated general acute care hospitals located throughout the United States), into Quorum Health Corporation, or QHC, an independent, publicly traded corporation. The transaction was structured to be generally tax free to us and our stockholders. On April 29, 2016, we completed the spin-off of these 38 hospitals and QHR into QHC and distributed, on a pro rata basis, all of the shares of QHC common stock to our stockholders of record as of April 22, 2016. These stockholders of record as of April 22, 2016 received a distribution of one share of QHC common stock for every four shares of our common stock held as of the record date plus cash in lieu of any fractional shares. In recognition of the spin-off, we recorded a non-cash dividend of approximately \$695 million during the nine months ended September 30, 2016, representing the net assets of QHC distributed to our stockholders. Immediately following the completion of the spin-off, our stockholders owned 100% of the outstanding shares of QHC common stock. Following the spin-off,

QHC became an independent public company with its common stock listed for trading under the symbol QHC on the New York Stock Exchange. Financial and statistical data reported in this Quarterly Report on Form 10-Q include QHC operating results through the spin-off date. Same-store operating results and statistical data exclude information for the hospitals divested in the spin-off of QHC in both the three and nine months ended September 30, 2016, and the comparable periods in 2015.

In connection with the spin-off, we entered into a separation and distribution agreement as well as certain ancillary agreements with QHC on April 29, 2016. These agreements allocate between QHC and us the various assets, employees, liabilities and obligations (including investments, property and employee benefits and tax-related assets and liabilities) that comprise the separate companies and govern certain relationships between, and activities of, QHC and us for a period of time after the spin-off.

Table of Contents

On March 1, 2016, we completed the acquisition of an 80% ownership interest in a joint venture with Indiana University Health that includes IU Health La Porte Hospital (227 licensed beds) in La Porte, Indiana and IU Health Starke Hospital (50 licensed beds) in Knox, Indiana, and affiliated outpatient centers and physician practices.

On April 1, 2016, we completed the acquisition of 80% interest in Physicians Specialty Hospital (20 licensed beds), a Medicare-certified specialty surgical hospital in Fayetteville, Arkansas.

On April 29, 2016, we sold our unconsolidated minority equity interests in Valley Health System, LLC, a joint venture with Universal Health Systems, Inc., or UHS, representing four hospitals in Las Vegas, Nevada, in which we owned a 27.5% interest, and in Summerlin Hospital Medical Center, LLC, a joint venture with UHS representing one hospital in Las Vegas, Nevada, in which we owned a 26.1% interest. We received \$403 million in cash in return for the sale of these equity interests and recognized a gain of approximately \$94 million on the sale of our investment during the nine months ended September 30, 2016.

Operating results and statistical data for the three and nine months ended September 30, 2016, exclude our hospitals that have previously been classified as discontinued operations for accounting purposes. In addition, during the year ended December 31, 2015, we divested seven hospitals previously recorded in discontinued operations and one additional hospital. Two of these hospitals were required to be divested by the Federal Trade Commission as a condition of its approval of our acquisition of Health Management Associates, Inc., or HMA.

On September 29, 2016, we signed a definitive agreement for the sale of four hospitals and their associated assets to subsidiaries of Curae Health, Inc. Facilities included in the transaction are Merit Health Gilmore Memorial (95 licensed beds) in Amory, Mississippi, Merit Health Batesville (112 licensed beds) in Batesville, Mississippi, Merit Health Northwest Mississippi (181 licensed beds) in Clarksdale, Mississippi and Highlands Regional Medical Center (126 licensed beds) in Sebring, Florida. We classified these hospitals as held for sale in the accompanying condensed consolidated balance sheet. Based on the sales price for the sale of these hospitals, we recorded an impairment charge of approximately \$31 million related to the allocated hospital reporting unit goodwill during the three months ended September 30, 2016.

On October 17, 2016, we signed a definitive agreement to sell an 80% ownership interest in our Home Care division to a subsidiary of Almost Family, Inc., for approximately \$128 million. The transaction is expected to close in the fourth quarter of this year, subject to customary regulatory approvals and closing conditions.

We are also in the process of negotiating with potential buyers to enter into definitive agreements to sell 13 additional hospitals and based on the current status of those negotiations, we currently anticipate those transactions to close in 2017; however, there can be no assurance that these dispositions will be completed or, if they are completed, the ultimate timing of the completion of these dispositions. These additional hospitals represented annual net operating revenues of approximately \$1.7 billion, and we currently estimate that we will receive potential net proceeds of approximately \$875 million in the event we dispose of these hospitals. There may be changes from time to time in the composition of the particular hospitals where we are currently in negotiations as the result of various factors, including changes in any potential buyer or the negotiations with respect to the potential sale of any such hospital. In addition, there have been some changes in the composition of the particular hospitals for which we are in negotiations compared to the prior quarter as previously referenced in our Quarterly Report on Form 10-Q for the period ended June 30, 2016. These potential dispositions, as well as dispositions that have already been completed in 2016 or in respect of which we have entered into a definitive agreement, are intended to further implement our strategy to divest of underperforming assets and assets that no longer fit in our operating strategy, reduce our debt and refine our portfolio to a more sustainable group of hospitals with higher operating margins. When consistent with this strategy, we may also consider additional hospitals for disposition.

Our net operating revenues for the three months ended September 30, 2016 decreased \$466 million to approximately \$4.4 billion compared to approximately \$4.8 billion for the three months ended September 30, 2015. On a same-store basis, net operating revenues for the three months ended September 30, 2016 increased \$52 million compared to the three months ended September 30, 2015. Our provision for bad debts decreased to \$704 million, or 13.8% of operating revenues (before the provision for bad debts) for the three months ended September 30, 2016, from \$734 million, or 13.2% of operating revenues (before the provision for bad debts) for the three months ended September 30, 2015.

Table of Contents

We had a loss from continuing operations of \$54 million during the three months ended September 30, 2016, compared to income from continuing operations of \$83 million for the three months ended September 30, 2015. Income from continuing operations for the three months ended September 30, 2016 included a \$6 million after-tax expense for government and other legal settlements for several legal matters settled in principle and related legal expenses, an after-tax charge of \$1 million for costs incurred related to the divestiture of the Home Care division and an after-tax charge of \$32 million related to the impairment of goodwill and long-lived assets based on their estimated fair values. Income from continuing operations for the three months ended September 30, 2015, included an after-tax charge of \$6 million related to costs incurred for the planned spin-off of QHC. Consolidated inpatient admissions for the three months ended September 30, 2016, decreased 12.4%, compared to the three months ended September 30, 2015, and consolidated adjusted admissions for the three months ended September 30, 2016, decreased 13.0%, compared to the three months ended September 30, 2015. Same-store inpatient admissions for the three months ended September 30, 2016, decreased 2.1%, compared to the three months ended September 30, 2015, and same-store adjusted admissions for the three months ended September 30, 2016, decreased 1.5%, compared to the three months ended September 30, 2015.

Our net operating revenues for the nine months ended September 30, 2016 decreased \$670 million to approximately \$14.0 billion compared to approximately \$14.6 billion for the nine months ended September 30, 2015. On a same-store basis, net operating revenues for the nine months ended September 30, 2016 increased \$212 million compared to the nine months ended September 30, 2015. Our provision for bad debts decreased to \$2.16 billion, or 13.4% of operating revenues (before the provision for bad debts) for the nine months ended September 30, 2016, from \$2.20 billion, or 13.1% of operating revenues (before the provision for bad debts) for the nine months ended September 30, 2015.

We had a loss from continuing operations of \$1.4 billion during the nine months ended September 30, 2016, compared to income from continuing operations of \$335 million for the nine months ended September 30, 2015. Loss from continuing operations for the nine months ended September 30, 2016 included an after-tax expense of \$7 million for government and other legal settlements for several legal matters settled in principle and related legal expenses, an after-tax charge of \$1 million from adjustments related to the HMA legal proceedings, accounted for at fair value, underlying the CVR agreement, and related legal expense, an after-tax charge of \$15 million for the impairment of long-lived assets, an after-tax charge of \$9 million related to costs incurred for the spin-off of QHC, an after-tax charge of \$19 million related to costs incurred for the loss from the early extinguishment of debt, an after-tax charge of \$1 million for costs incurred related to the divestiture of the Home Care division and an after-tax charge of \$1.5 billion related to the impairment of goodwill and long-lived assets based on their estimated fair values. These after-tax charges were partially offset by after-tax income of \$60 million for the gain on sale of investments as noted above. Income from continuing operations for the nine months ended September 30, 2015, included an after-tax charge of \$10 million for loss from early extinguishment of debt, after-tax expense of \$1 million for acquisition and integration expenses from the HMA merger, after-tax expense of \$1 million for the government legal settlements for several qui tam matters settled in principle and related legal expenses, after-tax expense of \$4 million for the impairment of long-lived assets, an after-tax charge of \$6 million from adjustments related to the HMA legal proceedings, accounted for at fair value, underlying the CVR agreement, and related legal expenses and an after-tax charge of \$6 million related to costs incurred for the spin-off of QHC. Consolidated inpatient admissions for the nine months ended September 30, 2016, decreased 7.9%, compared to the nine months ended September 30, 2015, and consolidated adjusted admissions for the nine months ended September 30, 2016, decreased 6.9%, compared to the nine months ended September 30, 2015. Same-store inpatient admissions for the nine months ended September 30, 2016, decreased 2.0%, compared to the nine months ended September 30, 2015, and same-store adjusted admissions for the nine months ended September 30, 2016, decreased 0.2%, compared to the nine months ended September 30, 2015.

Self-pay revenues represented approximately 12.6% and 12.8% of net operating revenues for the three months ended September 30, 2016 and 2015, respectively, and 12.4% and 12.5% for the nine months ended September 30, 2016 and 2015, respectively. The amount of foregone revenue related to providing charity care services as a percentage of net operating revenues was approximately 2.9% and 2.5% for the three months ended September 30, 2016 and 2015, respectively, and 2.5% and 2.2% for the nine months ended September 30, 2016 and 2015, respectively. Direct and indirect costs incurred in providing charity care services were approximately 0.4% and 0.3% for the three months ended September 30, 2016 and 2015, respectively, and 0.3% and 0.5% for the nine months ended September 30, 2016 and 2015, respectively.

The U.S. Congress and certain state legislatures have introduced and passed a large number of proposals and legislation designed to make major changes in the healthcare system, including changes that increased access to health insurance. The Reform Legislation mandates that substantially all U.S. citizens maintain medical insurance coverage and expands health insurance coverage through a combination of public program expansion and private sector health insurance reforms. Based on projections issued by the CBO in March 2016, the incremental insurance coverage due to the Reform Legislation could result in 24 million formerly uninsured Americans gaining coverage by the end of 2026.

Table of Contents

As the number of persons with access to health insurance in the United States increases, there may be a resulting increase in the number of patients using our facilities who have health insurance coverage. We operate hospitals in five of the ten states that experienced the largest reductions in uninsured rates among adult residents between 2013 and 2015. The states with the greatest reductions in the number of uninsured adult residents have expanded Medicaid. A number of states have opted out of the Medicaid coverage expansion provisions, but could ultimately decide to expand their programs at a later date. Of the 22 states in which we operated hospitals that were included in continuing operations as of September 30, 2016, 11 states have taken action to expand their Medicaid programs, including Louisiana, which initiated Medicaid coverage expansion in July of 2016. At this time, the other 11 states have not, including Florida, Tennessee and Texas, where we operated a significant number of hospitals as of September 30, 2016. Some states that have opted out are evaluating options such as waiver plans to operate an alternative Medicaid expansion plan. Failure to expand Medicaid or implement an effective alternative in these states will likely have a negative impact on the goal of reducing the number of uninsured individuals.

We believe our hospitals are well positioned to participate in the provider networks of various qualified health plans, or QHPs, offering plan options on the health insurance exchanges created pursuant to the Reform Legislation. For the 2016 plan year, all of our hospitals in continuing operations as of September 30, 2016 have arrangements to participate in at least one health insurance exchange agreement, approximately 90% of such hospitals participate in two or more contracts, approximately 87% of such hospitals participate in the first or second lowest cost bronze plan networks (QHPs with a 60% actuarial value) and approximately 90% of such hospitals participate in the first or second lowest cost silver plan networks (QHPs with a 70% actuarial value).

The Reform Legislation makes a number of changes to Medicare and Medicaid, such as reductions to the Medicare annual market basket update for federal fiscal years 2010 through 2019, a productivity offset to the Medicare market basket update, and a reduction to the Medicare and Medicaid disproportionate share hospital payments, each of which could adversely impact the reimbursement received under these programs.

The Reform Legislation includes provisions aimed at reducing fraud, waste and abuse in the healthcare industry. These provisions allocate significant additional resources to federal enforcement agencies and expand the use of private contractors to recover potentially inappropriate Medicare and Medicaid payments. The Reform Legislation amends several existing federal laws, including the Anti-Kickback Statute and the False Claims Act, to make it easier for government agencies and private plaintiffs to prevail in lawsuits brought against healthcare providers. These amendments, along with doubling of penalties under the False Claims Act and certain other fraud statutes as a result of changes required by the Bipartisan Budget Act of 2015, also make it easier for potentially severe fines and penalties to be imposed on healthcare providers that violate applicable laws and regulations.

We believe the expansion of private sector health insurance and Medicaid coverage will, over time, increase our reimbursement related to providing services to individuals who were previously uninsured, which should reduce our expense from uncollectible accounts receivable. The various provisions in the Reform Legislation that directly or indirectly affect reimbursement take effect over a number of years. In addition, we believe that the Reform Legislation has had a positive impact on net operating revenues and income from continuing operations as the result of the expansion of private sector and Medicaid coverage that has already occurred from the Reform Legislation, and we believe that the net impact of the Reform Legislation on our net operating revenues will continue to be positive. Other provisions of the Reform Legislation, such as requirements related to employee health insurance coverage, have increased and will continue to increase our operating costs.

Because of the many variables involved, including clarifications and modifications resulting from the rule-making process, legislative efforts to repeal or modify the law, the outcome of the 2016 federal election, future judicial interpretations resulting from court challenges to its constitutionality and interpretation, the development of agency

guidance, whether and how many states ultimately decide to expand Medicaid coverage, the number of uninsured who elect to purchase health insurance coverage, budgetary issues at federal and state levels, and the potential for delays in the implementation of the Reform Legislation, it is difficult to predict the ultimate effect of the Reform Legislation. We may not be able to fully realize the positive impact the Reform Legislation may otherwise have on our business, results of operations, cash flow, capital resources and liquidity. Furthermore, we cannot predict whether we will be able to modify certain aspects of our operations to offset any potential adverse consequences from the Reform Legislation.

Table of Contents

Payment under the Medicare program for physician services, which is based upon the Medicare Physician Fee Schedule, or MPFS, changed in April 2015 with the enactment of the Medicare Access and CHIP Reauthorization Act of 2015, or MACRA. The law effectively eliminated a payment reduction that was scheduled for physicians and other practitioners who treat Medicare patients. MACRA provides for a 0.5% update to the MPFS for each calendar year through 2019. In addition, MACRA requires the establishment of the Merit-Based Incentive Payment System, or MIPS, beginning in 2019, under which physicians will receive performance-based payment incentives or payment reductions based on their performance with respect to clinical quality, resource use, clinical improvement activities, and meaningful use of electronic health records. MIPS will consolidate certain existing physician incentive programs, and also requires the Centers for Medicare and Medicaid Services, or CMS, to provide, beginning in 2019, incentive payments for physicians and other eligible professionals that participate in alternative payment models, such as accountable care organizations. In addition, MACRA extended the Medicare Inpatient Low Volume payment and Medicare Dependent Hospital programs to qualifying hospitals through September 30, 2017. If additional legislation is not passed to extend these Medicare hospital payment programs, we could experience a reduction in future reimbursement.

The federal government has implemented a number of regulations and programs designed to promote the use of electronic health records, or EHR, technology and pursuant to the Health Information Technology for Economic and Clinical Health Act, or HITECH, established requirements for a Medicare and Medicaid incentive payments program for eligible hospitals and professionals that adopt and meaningfully use certified EHR technology. These payments are intended to incentivize the meaningful use of EHR. Our hospital facilities have been implementing EHR technology on a facility-by-facility basis since 2011. We recognize incentive reimbursement related to the Medicare or Medicaid incentives as we are able to implement the certified EHR technology and meet the defined meaningful use criteria, and information from completed cost report periods is available from which to calculate the incentive reimbursement. The timing of recognizing incentive reimbursement does not correlate with the timing of recognizing operating expenses and incurring capital costs in connection with the implementation of EHR technology which may result in material period-to-period changes in our future results of operations.

As of October 1, 2014, eligible hospitals and, as of January 1, 2015, professionals that have not demonstrated meaningful use of certified EHR technology and have not applied and qualified for a hardship exception are subject to penalties. Eligible hospitals are subject to a reduced market basket update to the inpatient prospective payment system standardized amount as of 2015 and for each subsequent fiscal year. Eligible professionals are subject to a 1% per year cumulative reduction applied to the Medicare physician fee schedule amount for covered professional services, subject to a cap of 5%.

Although we believe that our hospital facilities are currently in compliance with the meaningful use standards, there can be no assurance that all of our facilities will remain in compliance and therefore not be subject to the HITECH penalty provisions. We recognized approximately \$5 million and \$54 million during the three months ended September 30, 2016 and 2015, respectively, and \$54 million and \$135 million during the nine months ended September 30, 2016 and 2015, respectively, for HITECH incentive reimbursements from Medicare and Medicaid related to certain of our hospitals and for certain of our employed physicians, which are presented as a reduction of operating expenses.

As a result of our current levels of cash, available borrowing capacity, long-term outlook on our debt repayments, the refinancing of our term loans and our continued projection of our ability to generate cash flows, we anticipate that we will be able to invest the necessary capital in our business over the next twelve months. We believe there continues to be ample opportunity for growth in substantially all of our markets by decreasing the need for patients to travel outside their communities for healthcare services. Furthermore, we continue to benefit from synergies from our acquisitions and will continue to strive to improve operating efficiencies and procedures in order to improve our

profitability at all of our hospitals.

Table of Contents**Sources of Revenue**

The following table presents the approximate percentages of operating revenues, net of contractual allowances and discounts (but before provision for bad debts), by payor source for the periods indicated. The data for the periods presented are not strictly comparable due to the effect that hospital acquisitions have had on these statistics.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Medicare	23.0 %	23.9 %	24.0 %	24.4 %
Medicaid	10.5	11.9	10.4	11.1
Managed Care and other third-party payors	53.9	51.4	53.2	52.0
Self-pay	12.6	12.8	12.4	12.5
Total	100.0 %	100.0 %	100.0 %	100.0 %

As shown above, we receive a substantial portion of our revenues from the Medicare and Medicaid programs. Included in Managed Care and other third-party payors is operating revenues from insurance companies with which we have insurance provider contracts, Medicare managed care, insurance companies for which we do not have insurance provider contracts, workers' compensation carriers and non-patient service revenue, such as rental income and cafeteria sales. In the future, we generally expect revenues received from the Medicare and Medicaid programs to increase due to the general aging of the population. In addition, the Reform Legislation has increased and is expected to continue to increase the number of insured patients in states that have expanded Medicaid, which in turn, has reduced and is expected to continue to reduce the percentage of revenues from self-pay patients. The Reform Legislation, however, imposes significant reductions in amounts the government pays Medicare managed care plans. The trend toward increased enrollment in Medicare managed care may adversely affect our operating revenue growth. Other provisions in the Reform Legislation impose minimum medical-loss ratios and require insurers to meet specific benefit requirements. Furthermore, in the normal course of business, managed care programs, insurance companies and employers actively negotiate the amounts paid to hospitals. The trend toward increased enrollment in managed care may adversely affect our operating revenue growth. There can be no assurance that we will retain our existing reimbursement arrangements or that these third-party payors will not attempt to further reduce the rates they pay for our services.

Net operating revenues include amounts estimated by management to be reimbursable by Medicare and Medicaid under prospective payment systems and provisions of cost-based reimbursement and other payment methods. In addition, we are reimbursed by non-governmental payors using a variety of payment methodologies. Amounts we receive for the treatment of patients covered by Medicare, Medicaid and non-governmental payors are generally less than the standard billing rates. We account for the differences between the estimated program reimbursement rates and the standard billing rates as contractual allowance adjustments, which we deduct from gross revenues to arrive at net operating revenues. Final settlements under some of these programs are subject to adjustment based on administrative review and audit by third parties. We account for adjustments to previous program reimbursement estimates as contractual allowance adjustments and report them in the periods that such adjustments become known. Contractual allowance adjustments related to final settlements and previous program reimbursement estimates impacted net

operating revenues and net (loss) income by an insignificant amount in each of the three and nine-month periods ended September 30, 2016 and 2015.

The payment rates under the Medicare program for hospital inpatient and outpatient acute care services are based on a prospective payment system, depending upon the diagnosis of a patient's condition. These rates are indexed for inflation annually, although increases have historically been less than actual inflation. On August 2, 2016, CMS issued the final rule to increase this index by 2.7% for hospital inpatient acute care services that are reimbursed under the prospective payment system, beginning October 1, 2016. The final rule makes other payment adjustments that, coupled with a 1.5% reduction for documentation and coding, a 0.3% multifactor productivity reduction, a 0.75% reduction to hospital inpatient rates implemented pursuant to the Reform Legislation, and a 0.8% increase to offset costs of the two midnight policy described below and to address its effects in past years, will yield an estimated net 1.0% increase in reimbursement for hospitals. An additional reduction applies to hospitals that do not submit required patient quality data. We are complying with this data submission requirement.

Table of Contents

Payments may also be affected by admission and medical review criteria for inpatient services commonly known as the two midnight rule. Under the rule, for admissions on or after October 1, 2013, services to Medicare beneficiaries are only payable as inpatient hospital services when there is a reasonable expectation that the hospital care is medically necessary and will be required across two midnights, absent unusual circumstances. Stays expected to need less than two midnights of hospital care are subject to medical review on a case-by-case basis. Enforcement through Recovery Audit Contractor audits is expected to begin in 2016. Reductions in the rate of increase or overall reductions in Medicare reimbursement may cause a decline in the growth of our net operating revenues.

Currently, several states utilize supplemental reimbursement programs for the purpose of providing reimbursement to providers to offset a portion of the cost of providing care to Medicaid and indigent patients. These programs are designed with input from CMS and are funded with a combination of state and federal resources, including, in certain instances, fees or taxes levied on the providers. Similar programs are also being considered by other states. The programs are generally authorized for a specified period of time and require CMS's approval to be extended. CMS has indicated that it will take into account a state's status with respect to expanding its Medicaid program in considering whether to extend these supplemental programs. We are unable to predict whether or on what terms CMS will extend the supplemental programs in the states in which we operate, including Texas. Some of these programs are scheduled to expire in 2017. As a result of existing supplemental programs, we recognize revenue and related expenses in the period in which the fixed and determinable amounts are estimable and collection is reasonably assured. Reimbursement under these programs is reflected in net operating revenues and included as Medicaid revenue in the table above, and fees, taxes or other program related costs are reflected in other operating expenses.

Results of Operations

Our hospitals offer a variety of services involving a broad range of inpatient and outpatient medical and surgical services. These include general acute care, emergency room, general and specialty surgery, critical care, internal medicine, obstetrics, diagnostic services, psychiatric and rehabilitation services. The strongest demand for hospital services generally occurs during January through April and the weakest demand for these services generally occurs during the summer months. Accordingly, eliminating the effect of new acquisitions, our net operating revenues and earnings are historically highest during the first quarter and lowest during the third quarter.

The following tables summarize, for the periods indicated, selected operating data.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(Expressed as a percentage of net operating revenues)			
Consolidated:				
Net operating revenues	100.0 %	100.0 %	100.0 %	100.0 %
Operating expenses (a)	(89.7)	(86.9)	(88.6)	(85.8)
Depreciation and amortization	(6.1)	(5.9)	(6.0)	(6.0)
Impairment of goodwill and long-lived assets	(0.9)	-	(12.1)	-
Income (loss) from operations	3.3	7.2	(6.7)	8.2
Interest expense, net	(5.3)	(4.9)	(5.2)	(5.0)

Edgar Filing: COMMUNITY HEALTH SYSTEMS INC - Form 10-Q

Loss from early extinguishment of debt	-	-	(0.3)	(0.1)
Gain on sale of investments in unconsolidated affiliates	-	-	0.7	-
Equity in earnings of unconsolidated affiliates	0.1	0.2	0.3	0.3
(Loss) income from continuing operations before income taxes	(1.9)	2.5	(11.2)	3.4
Benefit from (provision for) income taxes	0.7	(0.8)	1.0	(1.1)
(Loss) income from continuing operations	(1.2)	1.7	(10.2)	2.3

Table of Contents

	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2016
Percentage (decrease) increase from same period prior year:		
Net operating revenues	(9.6)%	(4.6)%
Admissions	(12.4)	(7.9)
Adjusted admissions (b)	(13.0)	(6.9)
Average length of stay	-	-
Net (loss) income attributable to Community Health Systems, Inc. (c)	(251.9)	(722.4)
Same-store percentage increase (decrease) from same period prior year (d):		
Net operating revenues	1.2 %	1.6 %
Admissions	(2.1)	(2.0)
Adjusted admissions (b)	(1.5)	(0.2)

- (a) Operating expenses include salaries and benefits, supplies, other operating expenses, government and other legal settlements and related costs, electronic health records incentive reimbursement and rent.
- (b) Adjusted admissions is a general measure of combined inpatient and outpatient volume. We computed adjusted admissions by multiplying admissions by gross patient revenues and then dividing that number by gross inpatient revenues.
- (c) Includes loss from discontinued operations.
- (d) Includes acquired hospitals to the extent we operated them in both periods and excludes our hospitals that have previously been classified as discontinued operations for accounting purposes. In addition, also excludes information for the hospitals divested in the spin-off of QHC in both the three and nine months ended September 30, 2016, and the comparable periods in 2015.

Three Months Ended September 30, 2016 Compared to Three Months Ended September 30, 2015

Net operating revenues decreased by 9.6% to approximately \$4.4 billion for the three months ended September 30, 2016, from approximately \$4.8 billion for the three months ended September 30, 2015. Our provision for bad debts decreased to \$704 million, or 13.8% of operating revenues (before the provision for bad debts) for the three months ended September 30, 2016, from \$734 million, or 13.2% of operating revenues (before the provision for bad debts) for the three months ended September 30, 2015. Net operating revenues from hospitals owned throughout both periods increased \$52 million, or 1.2%, during the three months ended September 30, 2016, as compared to the three months ended September 30, 2015. Non-same-store net operating revenues decreased \$518 million during the three months ended September 30, 2016, in comparison to the prior year period, with the decrease attributable to the spin-off of QHC. The increase in same-store net operating revenues was attributable to favorable changes in payor mix, offset in part by decreases in reimbursement from certain state supplemental programs. On a consolidated basis, inpatient admissions decreased by 12.4% and adjusted admissions decreased by 13.0% during the three months ended September 30, 2016, compared to the three months ended September 30, 2015. On a same-store basis, net operating revenues per adjusted admission increased 2.8%, while inpatient admissions decreased by 2.1% and adjusted admissions decreased by 1.5% during the three months ended September 30, 2016, compared to the three months ended September 30, 2015.

Table of Contents

Operating expenses, as a percentage of net operating revenues, increased from 92.8% during the three months ended September 30, 2015 to 96.7% during the three months ended September 30, 2016. Operating expenses, excluding depreciation and amortization and impairment of goodwill and long-lived assets, as a percentage of net operating revenues, increased from 86.9% for the three months ended September 30, 2015 to 89.7% for the three months ended September 30, 2016. Salaries and benefits, as a percentage of net operating revenues, increased from 46.2% for the three months ended September 30, 2015 to 47.2% for the three months ended September 30, 2016. This increase in salaries and benefits, as a percentage of net operating revenues, was primarily due to increases in physician employment, annual merit increases, an increase in the cost of employee health benefits, and salaries incurred in providing transitional services for QHC. Supplies, as a percentage of net operating revenues, increased from 15.7% for the three months ended September 30, 2015 to 16.5% for the three months ended September 30, 2016, primarily as a result of an increase in implant costs due to an increase in surgical case mix over the same period in the prior year. Other operating expenses, as a percentage of net operating revenues, decreased from 23.7% for the three months ended September 30, 2015 to 23.4% for the three months ended September 30, 2016. This decrease in other operating expenses, as a percentage of net operating revenues, was primarily impacted by the absence of QHC spin-off expenses during the three months ended September 30, 2016, in comparison to the same period in the prior year. Government and other legal settlements and related costs, as a percentage of net revenues was 0.2% for the three months ended September 30, 2016. No government and other legal settlements and related costs were recorded during the same period in 2015. Rent, as a percentage of net operating revenues, increased from 2.4% for the three months ended September 30, 2015 to 2.5% for the three months ended September 30, 2016.

EHR incentive reimbursements represent those incentives under HITECH for which the recognition criterion has been met. We recognized approximately \$5 million and \$54 million of incentive reimbursements, or 0.1% and 1.1% of net operating revenues, for the three months ended September 30, 2016 and 2015, respectively. We received cash payments of \$7 million for these incentives during each of the three-month periods ended September 30, 2016 and 2015. No deferred revenue in connection with the receipt of these cash payments was recorded at September 30, 2016. As of September 30, 2015, \$2 million was recorded as deferred revenue as all criteria for gain recognition had not been met at that date.

Depreciation and amortization as a percentage of net operating revenues, increased from 5.9% for the three months ended September 30, 2015 to 6.1% for the three months ended September 30, 2016.

Impairment of goodwill and long-lived assets was \$39 million for the three months ended September 30, 2016 compared to no impairment of goodwill and long-lived assets recorded for the three months ended September 30, 2015. Impairment of goodwill and long-lived assets for the three months ended September 30, 2016 includes the write-off of allocated hospital reporting unit goodwill to four hospitals that were classified as held for sale in September 2016, and an update to the impairment estimated at June 30, 2016 recorded for goodwill and certain long-lived assets based on their then estimated fair values.

Interest expense, net, decreased by \$9 million to \$233 million for the three months ended September 30, 2016 compared to \$242 million for the three months ended September 30, 2015, primarily due to a decrease in our average outstanding debt during the three months ended September 30, 2016, compared to the same period in 2015, which resulted in a decrease in interest expense of \$23 million. As a partial offset to this decrease, our interest rates increased during the three months ended September 30, 2016, compared to the same period in 2015, which resulted in an increase in interest expense of \$11 million. Additionally, interest expense increased \$3 million as a result of less interest being capitalized during the three months ended September 30, 2016, as compared to the same period in 2015, due to the decline in major construction projects during the three-month period.

Equity in earnings of unconsolidated affiliates, as a percentage of net operating revenues, decreased from 0.2% for the three months ended September 30, 2015 to 0.1% for the three months ended September 30, 2016.

The net results of the above-mentioned changes resulted in income from continuing operations before income taxes decreasing \$204 million from income of \$121 million for the three months ended September 30, 2015 to a loss of \$83 million for the three months ended September 30, 2016.

The provision for income taxes on income from continuing operations decreased from \$38 million for the three months ended September 30, 2015 to a tax benefit of \$29 million for the three months ended September 30, 2016, primarily due to the decrease in income from continuing operations before income taxes. Our effective tax rates were 34.9% and 31.3% for the three months ended September 30, 2016 and 2015, respectively. The increase in our effective tax rate for the three months ended September 30, 2016, when compared to the three months ended September 30, 2015, was primarily due to a decrease in pre-tax income for the three months ended September 30, 2016 with relatively no change in net income attributable to noncontrolling interests. Including the net income attributable to noncontrolling interests, which is not tax affected in the condensed consolidated statement of income, the effective tax rate for the three months ended September 30, 2016 and 2015 would have been 27.4% and 38.8%, respectively. This decrease was primarily due to the non-deductible nature of goodwill written off for impairment and divestitures, as well as the non-deductible nature of certain costs incurred to complete the spin-off of QHC.

Table of Contents

Income (loss) from continuing operations, as a percentage of net operating revenues, decreased from 1.7% for the three months ended September 30, 2015 to (1.2)% for the three months ended September 30, 2016.

Discontinued operations for these periods include the results of operations of certain hospitals owned or leased by us as of September 30, 2016 and 2015, which were classified as being held for sale or sold. The operation of these hospitals resulted in a loss, net of taxes, of \$2 million and \$5 million included in discontinued operations during the three months ended September 30, 2016 and 2015, respectively. In addition, a loss on the sale of hospitals, net of tax, of \$3 million was recorded for the three months ended September 30, 2015.

Net (loss) income as a percentage of net operating revenues, decreased from 1.5% for the three months ended September 30, 2015 to (1.2)% for the three months ended September 30, 2016.

Net income attributable to noncontrolling interests, as a percentage of net operating revenues, increased from 0.4% for the three months ended September 30, 2015 to 0.6% for the three months ended September 30, 2016.

Net loss attributable to Community Health Systems, Inc. was \$79 million for the three months ended September 30, 2016 compared to net income of \$52 million for the three months ended September 30, 2015. The decrease in net income attributable to Community Health Systems, Inc. is primarily due to an increase in salaries and benefits, supplies, depreciation and amortization and impairment of long-lived assets, as a percentage of net operating revenues, along with a decrease in the revenue recognized for electronic health records incentive reimbursements, as a percentage of net operating revenues.

Nine months Ended September 30, 2016 Compared to Nine months Ended September 30, 2015

Net operating revenues decreased by 4.6% to approximately \$14.0 billion for the nine months ended September 30, 2016, from approximately \$14.6 billion for the nine months ended September 30, 2015. Our provision for bad debts decreased to \$2.16 billion, or 13.4% of operating revenues (before the provision for bad debts) for the nine months ended September 30, 2016, from \$2.20 billion, or 13.1% of operating revenues (before the provision for bad debts) for the nine months ended September 30, 2015. Net operating revenues from hospitals owned throughout both periods increased \$212 million, or 1.6% during the nine months ended September 30, 2016, as compared to the nine months ended September 30, 2015. Non-same-store net operating revenues decreased \$882 million during the nine months ended September 30, 2016, in comparison to the prior year period, with the decrease attributable to the spin-off of QHC. The increase in same-store net operating revenues was attributable to favorable changes in payor mix. On a consolidated basis, inpatient admissions decreased by 7.9% and adjusted admissions decreased by 6.9% during the nine months ended September 30, 2016 as compared to the nine months ended September 30, 2015. On a same-store basis, net operating revenues per adjusted admissions increased 1.9%, while inpatient admissions decreased by 2.0% and adjusted admissions decreased by 0.2% during the nine months ended September 30, 2016, compared to the nine months ended September 30, 2015.

Operating expenses, as a percentage of net operating revenues, increased from 91.8% during the nine months ended September 30, 2015 to 106.7% during the nine months ended September 30, 2016. Operating expenses, excluding depreciation and amortization and impairment of goodwill and long-lived assets, as a percentage of net operating revenues, increased from 85.8% for the nine months ended September 30, 2015 to 88.6% for the nine months ended September 30, 2016. Salaries and benefits, as a percentage of net operating revenues, increased from 45.9% for the nine months ended September 30, 2015 to 46.8% for the nine months ended September 30, 2016. This increase in salaries and benefits, as a percentage of net operating revenues, was primarily due to increases in physician employment, annual merit increases and an increase in the cost of employee health benefits. Supplies, as a percentage of net operating revenues, increased from 15.5% for the nine months ended September 30, 2015 to 16.3% for the nine

months ended September 30, 2016, primarily as a result of an increase in drug and implant costs due to an increase in surgical case mix over the same period in the prior year. Other operating expenses, as a percentage of net operating revenues, increased from 23.0% for the nine months ended September 30, 2015 to 23.4% for the nine months ended September 30, 2016. This increase in other operating expenses, as a percentage of net operating revenues, was primarily impacted by higher costs for outsourced services for housekeeping and dietary services, information systems conversion and maintenance, legal fees and higher medical specialist fees at our hospitals and ancillary facilities. Government and other legal settlements and related costs, as a percentage of net revenues increased from less than 0.1% for the nine months ended September 30, 2015 to 0.1% for the nine months ended September 30, 2016. Rent, as a percentage of net operating revenues, increased from 2.3% for the nine months ended September 30, 2015 to 2.4% for the nine months ended September 30, 2016.

Table of Contents

EHR incentive reimbursements represent those incentives under HITECH for which the recognition criterion has been met. We recognized approximately \$54 million and \$135 million of incentive reimbursements, or 0.4% and 0.9% of net operating revenues, for the nine months ended September 30, 2016 and 2015, respectively. We received cash payments of \$116 million and \$71 million for these incentives during the nine months ended September 30, 2016 and 2015, respectively. No deferred revenue in connection with the receipt of these cash payments was recorded at September 30, 2016. As of September 30, 2015, \$2 million was recorded as deferred revenue as all criteria for gain recognition had not been met at that date.

Depreciation and amortization as a percentage of net operating revenues, was 6.0% for each of the nine-month periods ended September 30, 2016 and 2015.

Impairment of goodwill and long-lived assets was \$1.7 billion for the nine months ended September 30, 2016, compared to \$6 million for the nine months ended September 30, 2015. Impairment of goodwill and long-lived assets for the nine months ended September 30, 2016 includes impairment of approximately \$12 million related to the reporting unit goodwill and fixed assets allocated to two hospitals sold during the three months ended March 31, 2016, impairment of approximately \$31 million related to the reporting unit goodwill allocated to the four hospitals designated as held for sale during the three months ended September 30, 2016, impairment of approximately \$7 million related to certain long-lived assets at one of our smaller hospitals permanently closed, impairment of approximately \$1.395 billion related to goodwill for our hospital reporting unit and \$249 million related to the adjustment of the fair value of certain long-lived assets at certain hospitals we intend to sell and for other underperforming hospitals. Impairment of goodwill and long-lived assets for the nine months ended September 30, 2015 includes an impairment charge of approximately \$6 million related to the reporting unit goodwill allocated to one hospital where a definitive agreement to sell the hospital was entered into during the quarter.

Interest expense, net, increased by \$7 million to \$730 million for the nine months ended September 30, 2016 compared to \$723 million for the nine months ended September 30, 2015, primarily due to an increase in interest rates during the nine months ended September 30, 2016, compared to the same period in 2015 resulting in an increase in interest expense of \$30 million. Additionally, interest expense increased \$7 million as a result of less interest being capitalized during the nine months ended September 30, 2016, as compared to the same period in 2015, due to the decline in major construction projects during the nine-month period and an increase in interest expense of \$3 million due to one additional day of interest expense since 2016 was a leap year. As a partial offset to these increases, our average outstanding debt during the nine months ended September 30, 2016 decreased, which resulted in a decrease in interest expense of \$33 million.

The loss from early extinguishment of debt of \$30 million was recognized during the nine months ended September 30, 2016 resulting from the repayment of certain outstanding notes and term loans under the Credit Facility. The loss from early extinguishment of debt of \$16 million was recognized during the nine months ended September 30, 2015 resulting from the repayment of certain outstanding term loans as part of the amendment of the Credit Facility.

The gain on sale of investments in unconsolidated affiliates of \$94 million was recognized during the nine months ended September 30, 2016 resulting from the sale of our unconsolidated minority equity interests in Valley Health System LLC, a joint venture with UHS representing four hospitals in Las Vegas, Nevada, in which we owned a 27.5% interest, and in Summerlin Hospital Medical Center LLC, a joint venture with UHS representing one hospital in Las Vegas, Nevada, in which we owned a 26.1% interest.

Equity in earnings of unconsolidated affiliates, as a percentage of net operating revenues, was 0.3% for each of the nine-month periods ended September 30, 2016 and 2015.

The net results of the above-mentioned changes resulted in income from continuing operations before income taxes decreasing \$2.1 billion from income of \$502 million for the nine months ended September 30, 2015 to a loss of \$1.6 billion for the nine months ended September 30, 2016.

The provision for income taxes on income from continuing operations decreased from \$167 million for the nine months ended September 30, 2015 to a benefit of \$141 million for the nine months ended September 30, 2016, primarily due to the decrease in income from continuing operations before income taxes. Our effective tax rates were 9.0% and 33.3% for the nine months ended September 30, 2016 and 2015, respectively. The decrease in our effective tax rate for the nine months ended September 30, 2016, when compared to the nine months ended September 30, 2015, was primarily due to the impairment of non-deductible goodwill and the non-deductible nature of certain costs incurred to complete the spin-off of QHC. Including the expense related to income attributable to noncontrolling interests, the effective tax rate for the nine months ended September 30, 2016 and 2015 would have been 8.6% and 38.4%, respectively. This decrease was primarily due to the non-deductible nature of goodwill written off for impairment and divestitures, as well as the non-deductible nature of certain costs incurred to complete the spin-off of QHC.

Table of Contents

Income (loss) from continuing operations, as a percentage of net operating revenues, decreased from 2.3% for the nine months ended September 30, 2015 to (10.2)% for the nine months ended September 30, 2016.

Discontinued operations for these periods include the results of operations of certain hospitals owned or leased by us as of September 30, 2016 and 2015, which were classified as being held for sale or sold. The operation of these hospitals resulted in a loss, net of taxes, of \$4 million and \$22 million included in discontinued operations during the nine months ended September 30, 2016 and 2015, respectively. An after-tax impairment charge of \$1 million was recorded during the nine months ended September 30, 2016, based on the difference between the estimated fair value and the carrying value of the assets held for sale, including an allocation of reporting unit goodwill, compared to an impairment charge of \$2 million during the nine months ended September 30, 2015. In addition, a loss on the sale of hospitals, net of tax, of \$3 million was recorded during the nine months ended September 30, 2015. Overall, discontinued operations during the nine months ended September 30, 2016, consisted of a loss, net of taxes, of \$5 million, compared to a loss, net of taxes, of \$27 million during the nine months ended September 30, 2015.

Net (loss) income, as a percentage of net operating revenues, decreased from 2.1% for the nine months ended September 30, 2015 to (10.2)% for the nine months ended September 30, 2016.

Net income attributable to noncontrolling interests, as a percentage of net operating revenues, was 0.5% for each of the nine-month periods ended September 30, 2016 and 2015.

Net loss attributable to Community Health Systems, Inc. was \$1.5 billion for the nine months ended September 30, 2016, compared to net income of \$241 million for the nine months ended September 30, 2015. The decrease in net income attributable to Community Health Systems, Inc. is primarily due to the impairment of goodwill and certain long-lived assets based on their estimated fair values.

Liquidity and Capital Resources

Net cash provided by operating activities increased \$195 million, from approximately \$615 million for the nine months ended September 30, 2015 to approximately \$810 million in cash provided by operating activities for the nine months ended September 30, 2016. The increase in cash provided by operating activities was primarily the result of an increase in cash receipts related to the collections of accounts receivable, a decrease in cash outflow related to the timing of payments on supplies and other current assets, and an increase in cash due to the timing of payments on payroll and other employee compensation liabilities. This increase in cash provided by operating activities was partially offset by an increase in cash outflow related to the timing of payments on accounts payable. Total cash paid for interest during the nine months ended September 30, 2016 increased to approximately \$767 million compared to \$752 million for the nine months ended September 30, 2015, which is related to the increase in interest rates.

Approximately \$6 million was paid for income taxes for the nine months ended September 30, 2016, compared to approximately \$10 million paid for income taxes for the nine months ended September 30, 2015. Included in net cash provided by operating activities for the nine months ended September 30, 2016 was \$116 million of cash received for HITECH incentive reimbursements, compared to \$71 million received for the nine months ended September 30, 2015.

The cash provided by investing activities increased \$1.5 billion, from approximately \$777 million in cash used in investing activities for the nine months ended September 30, 2015 to approximately \$751 million in cash provided by investing activities for the nine months ended September 30, 2016. The increase in cash provided by investing activities was primarily due to the distribution from QHC of \$1.2 billion received as part of the spin-off transaction, as well as a decrease in the cash used for the purchase of property and equipment of \$135 million, and an increase in cash provided by the sale of investments in unconsolidated affiliates of \$403 million, related to the sale of our unconsolidated interest in Valley Health System, LLC, a joint venture with UHS representing four hospitals in Las

Vegas, Nevada, and Summerlin Hospital Medical Center, LLC, a joint venture with UHS representing one hospital in Las Vegas, Nevada. The increase in cash provided by investing activities was partially offset by an increase in the cash used in the acquisition of facilities and other related equipment of \$81 million as a result of no hospital acquisitions during the nine months ended September 30, 2015 compared to the acquisition of three hospitals during the nine months ended September 30, 2016, a decrease in proceeds from the disposition of hospitals and other ancillary operations of \$75 million, a decrease in proceeds from the sale of property and equipment of \$3 million, a decrease in the net impact of the purchases and sales of available-for-sale securities of \$5 million and an increase in cash used for other investments (primarily from internal-use software expenditures and physician recruiting costs) of \$65 million for the nine months ended September 30, 2016. Included in cash outflows for other investments for the nine months ended September 30, 2016 is approximately \$49 million of capital expenditures related to the purchase and implementation of certified EHR technology, including implementation of Cerner software at several hospital locations. The remaining cash outflows for other investments for the nine months ended September 30, 2016 consists primarily of purchases and development of other internal-use software and payments made under non-employee physician recruiting agreements of \$152 million. We anticipate being able to fund future routine capital expenditures with cash flows generated from operations.

Table of Contents

Our net cash used in financing activities was \$1.6 billion for the nine months ended September 30, 2016, compared to \$161 million for the nine months ended September 30, 2015. The increase in cash used in financing activities, in comparison to the prior year period, is primarily due to an increase in repayments of our long-term debt of \$1.9 billion utilizing the cash distribution received from QHC as part of the spin-off transaction, with an offset from an increase in our long-term borrowings of \$465 million, a decrease in the proceeds from our receivables facility of \$46 million, a decrease in the proceeds from the exercise of stock options of \$24 million and an increase in cash paid for the redemption of noncontrolling investments in joint ventures of \$1 million. These increases were offset by a decrease in the cash paid to repurchase vested restricted stock for payroll tax withholding requirements of \$15 million and a reduction in cash paid for deferred financing costs and other debt-related costs of \$8 million.

Capital Expenditures

Cash expenditures for purchases of facilities were \$122 million for the nine months ended September 30, 2016, compared to \$41 million for the nine months ended September 30, 2015. Our expenditures for the nine months ended September 30, 2016 were primarily related to the purchase of two hospitals in Indiana and one hospital in Arkansas, physician practices and other ancillary services. Our expenditures for the nine months ended September 30, 2015 were primarily related to physician practices and other ancillary services. No hospital acquisitions occurred during the nine months ended September 30, 2015.

Excluding the cost to construct replacement hospitals, our cash expenditures for routine capital for the nine months ended September 30, 2016 totaled \$553 million, compared to \$593 million for the nine months ended September 30, 2015. These capital expenditures related primarily to the purchase of additional equipment, minor renovations and information systems infrastructure. Costs to construct replacement hospitals totaled \$8 million for the nine months ended September 30, 2016, compared to \$103 million for the nine months ended September 30, 2015. The costs to construct replacement hospitals for the nine months ended September 30, 2016 represent both planning and construction costs for the replacement hospital in York, Pennsylvania. The costs to construct replacement hospitals for the nine months ended September 30, 2015, included planning and construction costs for the replacement hospitals in both York, Pennsylvania and Birmingham, Alabama. Completion of the replacement hospital, Grandview Medical Center in Birmingham, Alabama, and transfer of all operations was completed on October 10, 2015.

Pursuant to a hospital purchase agreement in effect as of September 30, 2016, we have committed to build a replacement facility in York, Pennsylvania by July 2017. Construction costs, including equipment costs, for the York replacement facility are currently estimated to be approximately \$125 million.

Pursuant to a hospital purchase agreement from our March 1, 2016 acquisition of IU Health La Porte Hospital and IU Health Starke Hospital, we have committed to build replacement facilities in both La Porte, Indiana and Knox, Indiana within five years, or by March 2021. Construction costs, including equipment costs, for the La Porte and Starke replacement facilities are currently estimated to be approximately \$125 million and \$15 million, respectively.

Capital Resources

Net working capital was approximately \$1.9 billion at September 30, 2016, compared to \$2.1 billion at December 31, 2015. Adjusting for the net working capital reduction attributed to the spin-off of QHC, net working capital increased by approximately \$96 million between December 31, 2015 and September 30, 2016. This increase in working capital is primarily due to an increase in cash and a decrease in accounts payable, offset by an increase in employee compensation accrued liabilities and a decrease in other current assets.

Table of Contents

We have senior secured financing under a credit facility with a syndicate of financial institutions led by Credit Suisse, as administrative agent and collateral agent. In connection with the HMA merger in 2014, we and CHS/Community Health Systems, Inc., or CHS, entered into a third amendment and restatement of its Credit Facility, providing for additional financing and recapitalization of certain of our term loans, including (i) the replacement of the revolving credit facility with a new \$1.0 billion revolving facility maturing in 2019, or Revolving Facility, (ii) the addition of a new \$1.0 billion Term A facility due 2019, or the Term A Facility, (iii) a Term D facility in an aggregate principal amount equal to approximately \$4.6 billion due 2021 (which included certain term C loans that were converted into such Term D facility (collectively, the Term D Facility)), (iv) the conversion of certain term C loans into Term E Loans and the borrowing of new Term E Loans in an aggregate principal amount of approximately \$1.7 billion due 2017 and (v) the addition of flexibility commensurate with our post-acquisition structure. In addition to funding a portion of the consideration in connection with the HMA merger, some of the proceeds of the Term A Facility and Term D Facility were used to refinance the outstanding \$637 million existing term A facility due 2016 and the \$60 million of term B loans due 2014, respectively. The Revolving Facility includes a subfacility for letters of credit. On March 9, 2015, CHS entered into Amendment No. 1 and Incremental Term Loan Assumption Agreement to refinance the existing Term E Loans due 2017 into Term F Loans due 2018, in an original aggregated principal amount of \$1.7 billion. On May 18, 2015, CHS entered into an Incremental Term Loan Assumption Agreement to provide for a new \$1.6 billion incremental Term G facility due 2019, or Term G facility, and a new approximately \$2.9 billion incremental Term H facility due 2021, or Term H facility. The proceeds of the Term G facility and Term H facility were used to repay our existing Term D facility in full. On April 29, 2016, using part of the cash generated from the QHC spin-off, we repaid approximately \$190 million of our Term F Loans due 2018.

The loans under the Credit Facility bear interest on the outstanding unpaid principal amount at a rate equal to an applicable percentage plus, at our option, either (a) an Alternate Base Rate (as defined) determined by reference to the greater of (1) the Prime Rate (as defined) announced by Credit Suisse or (2) the Federal Funds Effective Rate (as defined) plus 0.5% or (3) the adjusted LIBOR rate on such day for a three-month interest period commencing on the second business day after such day plus 1% or (b) LIBOR. Loans in respect of the Revolving Facility and the Term A Facility will accrue interest at a rate per annum initially equal to LIBOR plus 2.75%, in the case of LIBOR borrowings, and Alternate Base Rate plus 1.75%, in the case of Alternate Base Rate borrowings. In addition, the margin in respect of the Revolving Facility and the Term A Facility will be subject to adjustment determined by reference to a leverage-based pricing grid. Loans in respect of the Term F Facility will accrue interest at a rate per annum equal to LIBOR plus 3.25%, in the case of LIBOR borrowings, and Alternate Base Rate plus 2.25%, in the case of Alternate Base Rate Borrowings. The Term G Loan and Term H Loan will accrue interest at a rate per annum equal to LIBOR plus 2.75% and 3.00%, respectively, in the case of LIBOR borrowings, and Alternate Base Rate plus 1.75% and 2.00%, respectively, in the case of Alternate Base Rate Borrowings. The Term G Loan and the Term H Loan are subject to a 1.00% LIBOR floor and a 2.00% Alternate Base Rate floor.

The term loan facility must be prepaid in an amount equal to (1) 100% of the net cash proceeds of certain asset sales and dispositions by us and our subsidiaries, subject to certain exceptions and reinvestment rights, (2) 100% of the net cash proceeds of issuances of certain debt obligations or receivables-based financing by us and our subsidiaries, subject to certain exceptions, and (3) 50%, subject to reduction to a lower percentage based on our leverage ratio (as defined in the Credit Facility generally as the ratio of total debt on the date of determination to our EBITDA, as defined, for the four quarters most recently ended prior to such date), of excess cash flow (as defined) for any year, subject to certain exceptions. Voluntary prepayments and commitment reductions are permitted in whole or in part, without any premium or penalty, subject to minimum prepayment or reduction requirements.

The borrower under the Credit Facility is CHS. All of our obligations under the Credit Facility are unconditionally guaranteed by Community Health Systems, Inc. and certain of its existing and subsequently acquired or organized domestic subsidiaries. All obligations under the Credit Facility and the related guarantees are secured by a perfected

first priority lien or security interest in substantially all of the assets of Community Health Systems, Inc., CHS and each subsidiary guarantor, including equity interests held by us or any subsidiary guarantor, but excluding, among others, the equity interests of non-significant subsidiaries, syndication subsidiaries, securitization subsidiaries and joint venture subsidiaries.

We have agreed to pay letter of credit fees equal to the applicable percentage then in effect with respect to Eurodollar rate loans under the Revolving Facility times the maximum aggregate amount available to be drawn under all letters of credit outstanding under the subfacility for letters of credit. The issuer of any letter of credit issued under the subfacility for letters of credit will also receive a customary fronting fee and other customary processing charges. We are obligated to pay commitment fees of 0.50% per annum (subject to adjustment based upon our leverage ratio), on the unused portion of the Revolving Facility.

Table of Contents

The Credit Facility contains customary representations and warranties, subject to limitations and exceptions, and customary covenants restricting our and our subsidiaries' ability, subject to certain exception, to, among other things, (1) declare dividends, make distributions or redeem or repurchase capital stock, (2) prepay, redeem or repurchase other debt, (3) incur liens or grant negative pledges, (4) make loans and investments and enter into acquisitions and joint ventures, (5) incur additional indebtedness or provide certain guarantees, (6) make capital expenditures, (7) engage in mergers, acquisitions and asset sales, (8) conduct transactions with affiliates, (9) alter the nature of our businesses, (10) grant certain guarantees with respect to physician practices, (11) engage in sale and leaseback transactions or (12) change our fiscal year. We and our subsidiaries are also required to comply with specified financial covenants (consisting of a maximum secured net leverage ratio and an interest coverage ratio) and various affirmative covenants. Under the Credit Facility, the secured net leverage ratio is calculated as the ratio of total secured debt, less unrestricted cash and cash equivalents, to consolidated EBITDA, as defined in the Credit Facility, and the interest coverage ratio is the ratio of consolidated EBITDA, as defined in the Credit Facility, to consolidated interest expense for the period. The calculation of consolidated EBITDA as defined in the Credit Facility is a trailing 12-month calculation that begins with net income attributable to the Company, with certain pro forma adjustments to consider the impact of material acquisitions or divestitures, and adjustments for interest, taxes, depreciation and amortization, net income attributable to noncontrolling interests, stock compensation expense, restructuring costs, and the financial impact of other non-cash or non-recurring items recorded during any such 12-month period. For the 12-month period ended September 30, 2016, the secured net leverage ratio financial covenant in the Credit Facility limited the ratio of secured debt to EBITDA, as defined, to less than or equal to 4.25 to 1.00. For the trailing 12-month period ended September 30, 2016, the interest coverage ratio financial covenant in the Credit Facility limited the ratio of consolidated EBITDA, as defined, to consolidated interest expense to greater than or equal to 2.00 to 1.00. We were in compliance with all such covenants at September 30, 2016, with a secured net leverage ratio of approximately 3.95 and an interest coverage ratio of approximately 2.55.

Events of default under the Credit Facility include, but are not limited to, (1) our failure to pay principal, interest, fees or other amounts under the credit agreement when due (taking into account any applicable grace period), (2) any representation or warranty proving to have been materially incorrect when made, (3) covenant defaults subject, with respect to certain covenants, to an available cure through the issuance of qualified equity for a period of 60 days after the end of the first three quarters and 100 days after a year end, (4) bankruptcy events, (5) a cross default to certain other debt, (6) certain undischarged judgments (not paid within an applicable grace period), (7) a change of control, (8) certain ERISA-related defaults and (9) the invalidity or impairment of specified security interests, guarantees or subordination provisions in favor of the administrative agent or lenders under the Credit Facility.

As of September 30, 2016, the availability for additional borrowings under our Credit Facility, subject to certain limitations as set forth in the Credit Facility, after taking into account the \$33 million outstanding at that date, was \$967 million pursuant to the Revolving Facility, of which \$55 million was set aside for outstanding letters of credit. We believe that these funds, along with internally generated cash and continued access to the capital markets, will be sufficient to finance future acquisitions, capital expenditures and working capital requirements during the next 12 months.

In connection with the consummation of the HMA merger, CHS issued: (i) \$1.0 billion aggregate principal amount of 5 ¹/₈% Senior Secured Notes due 2021, or the 2021 Senior Secured Notes, pursuant to an indenture, as supplemented, dated as of January 27, 2014, collectively, the Secured Indenture, by and among CHS, the Parent Company, the other guarantors from time to time party thereto, Regions Bank, as trustee, and Credit Suisse AG, as collateral agent, or the Collateral Agent and (ii) \$3.0 billion aggregate principal amount of 6 ⁷/₈% Senior Notes due 2022, or the 6 ⁷/₈% Senior Notes, pursuant to an indenture, as supplemented, dated as of January 27, 2014, collectively, the Unsecured Indenture, by and among CHS, the Parent Company, the other guarantors from time to time party thereto, and Regions Bank, as trustee, or the Unsecured Indenture.

On November 22, 2011, CHS completed its offering of \$1.0 billion aggregate principal amount of 8% Senior Notes due 2019, which were issued in a private placement. On March 21, 2012, CHS completed the secondary offering of \$1.0 billion aggregate principal amount of 8% Senior Notes, which were issued in a private placement (at a premium of 102.5%). The net proceeds from these issuances were used to finance the purchase of approximately \$1.85 billion aggregate principal amount of CHS then outstanding $8\frac{1}{8}\%$ Senior Notes, to pay related fees and expenses and for general corporate purposes. During the nine months ended September 30, 2016, we repurchased approximately \$75 million of the approximately \$2 billion aggregate principal amount outstanding of the 8% Senior Notes due 2019 in open market transactions.

On July 18, 2012, CHS completed an underwritten public offering under our automatic shelf registration filed with the SEC of \$1.2 billion aggregate principal amount of $7\frac{1}{8}\%$ Senior Notes due 2020. The net proceeds of the offering were used to finance the purchase or redemption of the then outstanding \$934 million principal amount plus accrued interest of the $8\frac{7}{8}\%$ Senior Notes, to pay for consents delivered in connection therewith, to pay related fees and expenses, and for general corporate purposes.

Table of Contents

On August 17, 2012, CHS completed an underwritten public offering under our automatic shelf registration filed with the SEC of \$1.6 billion aggregate principal amount of 5 $\frac{1}{8}$ % Senior Secured Notes due 2018, or the 2018 Senior Secured Notes. Both the 2018 Senior Secured Notes and the 2021 Senior Secured Notes are secured by a first-priority lien subject to a shared lien of equal priority with certain other obligations, including obligations under the Credit Facility, and subject to prior ranking liens permitted by the indentures governing the 2018 Senior Secured Notes and the 2021 Senior Secured Notes on substantially the same assets, subject to certain exceptions, that secure CHS obligations under the Credit Facility. The net proceeds of the offering, together with available cash on hand, were used to finance the prepayment of \$1.6 billion of the outstanding term loans due 2014 under the Credit Facility and related fees and expenses. On May 16, 2016, we completed a cash tender offer for \$900 million of approximately \$1.6 billion aggregate principal amount outstanding of the 2018 Senior Secured Notes.

On March 21, 2012, through certain of its subsidiaries, CHS entered into an accounts receivable loan agreement, or the Receivables Facility, with a group of lenders and banks, Credit Agric  le Corporate and Investment Bank, as a managing agent and as the administrative agent, and The Bank of Nova Scotia, as a managing agent. On March 7, 2013, CHS and certain of its subsidiaries amended the Receivables Facility to add an additional managing agent, The Bank of Tokyo-Mitsubishi UFJ, Ltd., to increase the size of the facility from \$300 million to \$500 million and to extend the scheduled termination date. Additional subsidiaries also agreed to participate in the Receivables Facility as of that date. On March 31, 2014, CHS and certain of its subsidiaries amended the Receivables Facility to increase the size of the facility from \$500 million to \$700 million and to extend the scheduled termination date. Additional subsidiaries also agreed to participate in the Receivables Facility as of that date. On November 13, 2015, CHS and certain of its subsidiaries amended the Receivables Facility to extend the scheduled termination date and amend certain other provisions thereof. The existing and future non-self pay patient-related accounts receivable, or the Receivables, for certain hospitals of CHS and its subsidiaries serve as collateral for the outstanding borrowings under the Receivables Facility. The interest rate on the borrowings is based on the commercial paper rate plus an applicable interest rate spread. Unless earlier terminated or subsequently extended pursuant to its terms, the Receivables Facility will expire on November 13, 2017, subject to customary termination events that could cause an early termination date. CHS maintains effective control over the Receivables because, pursuant to the terms of the Receivables Facility, the Receivables are sold from certain of CHS subsidiaries to CHS, and CHS then sells or contributes the Receivables to a special-purpose entity that is wholly-owned by CHS. The wholly-owned special-purpose entity in turn grants security interests in the Receivables in exchange for borrowings obtained from the group of third-party lenders and banks of up to \$700 million outstanding from time to time based on the availability of eligible Receivables and other customary factors. The group of third-party lenders and banks do not have recourse to CHS or its subsidiaries beyond the assets of the wholly-owned special-purpose entity that collateralizes the loan. The Receivables and other assets of the wholly-owned special-purpose entity will be available first and foremost to satisfy the claims of the creditors of such entity. The outstanding borrowings pursuant to the Receivables Facility at September 30, 2016 totaled \$643 million and are classified as long-term debt on the condensed consolidated balance sheet. At September 30, 2016, the carrying amount of Receivables included in the Receivables Facility totaled approximately \$1.7 billion and is included in patient accounts receivable on the condensed consolidated balance sheet.

We have transitioned all of our hospitals to the ICD-10 coding system, which was required effective October 1, 2015 of all healthcare providers covered by the Health Insurance Portability and Accountability Act, or HIPAA. This transition continues to involve a significant focus on our technology and information systems, as well as costs related to training of hospital employees and providers and corporate support staff involved with coding and billing. As noted in the risk factors as previously set forth in our Annual Report on Form 10-K filed with the SEC on February 17, 2016, or 2015 Form 10-K, the potential for delay in billing and collection on patient receivables resulting from these changes or from new payment systems and processes implemented by third-party payors could have an adverse effect on the quality of receivables that serve as collateral under the Receivables Facility, resulting in a potential default or repayment of outstanding borrowings. Should such a repayment of borrowings under the Receivables Facility be

required, we have availability, and expect to continue to have availability, under the Revolving Facility to provide sufficient financial resources and liquidity to fund the repayment.

As of September 30, 2016, we are currently a party to the following interest rate swap agreements to limit the effect of changes in interest rates on approximately 36.3% of our variable rate debt. On each of these swaps, we receive a variable rate of interest based on the three-month LIBOR, in exchange for the payment by us of a fixed rate of interest. We currently pay, on a quarterly basis, interest on the Revolving Facility and the Term A Facility at a rate per annum equal to LIBOR plus 2.75%. Loans in respect of the Term F Facility accrue interest at a rate per annum equal to LIBOR plus 3.25%. The Term G Loan and Term H Loan accrue interest at a rate per annum equal to LIBOR plus 2.75% and 3.00%, respectively, in the case of LIBOR borrowings, and Alternate Base Rate plus 1.75% and 2.00%, respectively, in the case of Alternate Base Rate Borrowings. The Term G Loan and the Term H Loan are subject to a 1.00% LIBOR floor and a 2.00% Alternate Base Rate floor.

Table of Contents

Swap #	Notional Amount (in millions)	Fixed Interest Rate	Termination Date	Fair Value (in millions)
1	\$ 100	3.005 %	November 30, 2016	\$ -
2	200	2.055 %	July 25, 2019	5
3	200	2.059 %	July 25, 2019	6
4	400	1.882 %	August 30, 2019	7
5	200	2.515 %	August 30, 2019	7
6	200	2.613 %	August 30, 2019	8
7	300	2.041 %	August 30, 2020	8
8	300	2.738 %	August 30, 2020	15
9	300	2.892 %	August 30, 2020	17
10	300	2.363 %	January 27, 2021	12
11	200	2.368 %	January 27, 2021	8

The swaps that were in effect prior to the HMA merger remain in effect after the refinancing for the HMA merger and will continue to be used to limit the effects of changes in interest rates on portions of our amended credit facility.

The Credit Facility and/or our outstanding notes contain various covenants that limit our ability to take certain actions including; among other things, our ability to:

incur, assume or guarantee additional indebtedness;

issue redeemable stock and preferred stock;

repurchase capital stock;

make restricted payments, including paying dividends and making certain loans and investments;

redeem debt that is subordinated in right of payment to our outstanding notes;

create liens;

sell or otherwise dispose of assets, including capital stock of subsidiaries;

enter into agreements that restrict dividends from subsidiaries;

merge, consolidate, sell or otherwise dispose of substantially all of our assets;

enter into transactions with affiliates; and

guarantee certain obligations.

In addition, our Credit Facility contains restrictive covenants and requires us to maintain specified financial ratios and satisfy other financial condition tests. Our ability to meet these restricted covenants and financial ratios and tests can be affected by events beyond our control, and we cannot assure you that we will meet those tests. A breach of any of these covenants could result in a default under our Credit Facility and/or our outstanding notes. Upon the occurrence of an event of default under our Credit Facility or our outstanding notes, all amounts outstanding under our Credit Facility and the notes may become immediately due and payable and all commitments under the Credit Facility to extend further credit may be terminated.

Table of Contents

We believe that internally generated cash flows, availability for additional borrowings under our Credit Facility of \$967 million (consisting of a \$1.0 billion Revolving Facility, of which \$55 million is set aside for outstanding letters of credit and \$33 million was outstanding at September 30, 2016) and our ability to amend the Credit Facility to provide for one or more tranches of term loans in an aggregate principal amount of \$1.5 billion, and our continued access to the capital markets will be sufficient to finance acquisitions, capital expenditures, working capital requirements, and any equity or debt repurchases or other debt repayments we may elect to make through the next 12 months. In addition, we may elect to utilize proceeds received from any dispositions of hospitals or investments to repay outstanding debt.

We may elect from time to time to purchase our common stock under our open market repurchase program adopted on November 6, 2015, which authorizes us to purchase up to 10,000,000 shares of our common stock, not to exceed \$300 million in repurchases (we have currently repurchased 532,188 shares under such program, all of which shares were repurchased during the three months ended December 31, 2015). In addition, we may elect from time to time to purchase our outstanding debt in open market purchases, privately negotiated transactions or otherwise. Any such equity or debt repurchases will depend upon prevailing market conditions, our liquidity requirements, contractual restrictions, applicable securities laws requirements, and other factors.

On May 6, 2015, we filed a universal automatic shelf registration statement on Form S-3ASR that will permit us, from time to time, in one or more public offerings, to offer debt securities, common stock, preferred stock, warrants, depositary shares, or any combination of such securities. The shelf registration statement will also permit our subsidiary, CHS, to offer debt securities that would be guaranteed by us, from time to time in one or more public offerings. The terms of any such future offerings would be established at the time of the offering.

The ratio of earnings to fixed charges is a measure of our ability to meet our fixed obligations related to our indebtedness. The following table shows the ratio of earnings to fixed charges for the nine months ended September 30, 2016:

**Nine Months Ended
September 30,
2016**

Ratio of earnings to fixed charges (1)	*
--	---

(1) Fixed charges include interest expensed and capitalized during the year plus an estimate of the interest component of rent expense. There are no shares of preferred stock outstanding. See exhibit 12 filed as part of this Report for the calculation of this ratio.

* For the nine months ended September 30, 2016, earnings were insufficient to cover fixed charges by approximately \$1.6 billion.

Off-balance Sheet Arrangements

In the past, we have utilized operating leases as a financing tool for obtaining the operations of specified hospitals without acquiring, through ownership, the related assets of the hospital and without a significant outlay of cash at the front end of the lease. We utilize the same operating strategies to improve operations at those hospitals held under operating leases as we do at those hospitals that we own. We have not entered into any operating leases for hospital operations since December 2000. At September 30, 2016, we operated two hospitals under operating leases that had an immaterial impact on our consolidated operating results. The terms of the two operating leases we currently have in place expire between December 2020 and June 2028, not including lease extension options. If we allow these leases to expire, we would no longer generate revenues nor incur expenses from these hospitals.

Table of Contents

Noncontrolling Interests

We have sold noncontrolling interests in certain of our subsidiaries or acquired subsidiaries with existing noncontrolling interest ownership positions. As of September 30, 2016, we have hospitals in 24 of the markets we serve, with noncontrolling physician ownership interests ranging from less than 1% to 40%, including one hospital that also has a non-profit entity as a partner. In addition, we have 9 other hospitals with noncontrolling interests owned by non-profit entities. Redeemable noncontrolling interests in equity of consolidated subsidiaries was \$553 million and \$571 million as of September 30, 2016 and December 31, 2015, respectively, and noncontrolling interests in equity of consolidated subsidiaries was \$106 million and \$86 million as of September 30, 2016 and December 31, 2015, respectively. The amount of net income attributable to noncontrolling interests was \$23 million for each of the three-month periods ended September 30, 2016 and 2015, and \$73 million and \$67 million for the nine months ended September 30, 2016 and 2015, respectively. As a result of the change in the Stark Law whole hospital exception included in the Reform Legislation, we are not permitted to introduce physician ownership at any of our hospital facilities that did not have physician ownership at the time of the adoption of the Reform Legislation, or increase the aggregate percentage of physician ownership in any of our former or existing hospital joint ventures in excess of the aggregate physician ownership level held at the time of the adoption of the Reform Legislation.

Reimbursement, Legislative and Regulatory Changes

Ongoing legislative and regulatory efforts could reduce or otherwise adversely affect the payments we receive from Medicare and Medicaid. Within the statutory framework of the Medicare and Medicaid programs, including programs currently unaffected by the Reform Legislation, there are substantial areas subject to administrative rulings, interpretations and discretion which may further affect payments made under those programs, and the federal and state governments might, in the future, reduce the funds available under those programs or require more stringent utilization and quality reviews of hospital facilities. Additionally, there may be a continued rise in managed care programs and additional restructuring of the financing and delivery of healthcare in the United States. These events could cause our future financial results to decline. We cannot estimate the impact of Medicare and Medicaid reimbursement changes that have been enacted or are under consideration. We cannot predict whether additional reimbursement reductions will be made or whether any such changes would have a material adverse effect on our business, financial conditions, results of operations, cash flow, capital resources and liquidity.

Inflation

The healthcare industry is labor intensive. Wages and other expenses increase during periods of inflation and when labor shortages occur in the marketplace. In addition, our suppliers pass along rising costs to us in the form of higher prices. We have implemented cost control measures, including our case and resource management program, to curb increases in operating costs and expenses. We have generally offset increases in operating costs by increasing reimbursement for services, expanding services and reducing costs in other areas. However, we cannot predict our ability to cover or offset future cost increases, particularly any increases in our cost of providing health insurance benefits to our employees as a result of the Reform Legislation.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our condensed consolidated financial statements. Actual results may differ from these estimates under different

assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. We believe that our critical accounting policies are limited to those described below.

Table of Contents***Third-party Reimbursement***

Net operating revenues include amounts estimated by management to be reimbursable by Medicare and Medicaid under prospective payment systems and provisions of cost-reimbursement and other payment methods. In addition, we are reimbursed by non-governmental payors using a variety of payment methodologies. Amounts we receive for treatment of patients covered by these programs are generally less than the standard billing rates. Contractual allowances are automatically calculated and recorded through our internally developed automated contractual allowance system. Within the automated system, payors' historical paid claims data are utilized to calculate the contractual allowances. This data is automatically updated on a monthly basis. All hospital contractual allowance calculations are subjected to monthly review by management to ensure reasonableness and accuracy. We account for the differences between the estimated program reimbursement rates and the standard billing rates as contractual allowance adjustments, which we deduct from gross revenues to arrive at operating revenues (net of contractual allowances and discounts). The process of estimating contractual allowances requires us to estimate the amount expected to be received based on payor contract provisions. The key assumption in this process is the estimated contractual reimbursement percentage, which is based on payor classification and historical paid claims data. Our automated contractual allowance system does not maintain the contractual allowance at the patient account level as it estimates an average contractual allowance by payor classification. Due to the complexities involved in these estimates, actual payments we receive could be different from the amounts we estimate and record. If the actual contractual reimbursement percentage under government programs and managed care contracts differed by 1% at September 30, 2016 from our estimated reimbursement percentage, net (loss) income for the nine months ended September 30, 2016 would have changed by approximately \$52 million, and net accounts receivable at September 30, 2016 would have changed by \$126 million. Final settlements under some of these programs are subject to adjustment based on administrative review and audit by third parties. We account for adjustments to previous program reimbursement estimates as contractual allowance adjustments and report them in the periods that such adjustments become known. Contractual allowance adjustments related to final settlements and previous program reimbursement estimates impacted net operating revenues and net (loss) income by an insignificant amount in each of the three-month and nine-month periods ended September 30, 2016 and 2015.

Allowance for Doubtful Accounts

Substantially all of our accounts receivable are related to providing healthcare services to patients at our hospitals and affiliated businesses. Collection of these accounts receivable is our primary source of cash and is critical to our operating performance. Our primary collection risks relate to uninsured patients and outstanding patient balances for which the primary insurance payor has paid some but not all of the outstanding balance, with the remaining outstanding balance (generally deductibles and co-payments) owed by the patient. For all procedures scheduled in advance, our policy is to verify insurance coverage prior to the date of the procedure. Insurance coverage is not verified in advance of procedures for walk-in and emergency room patients.

We estimate the allowance for doubtful accounts by reserving a percentage of all self-pay accounts receivable without regard to aging category, based on collection history, adjusted for expected recoveries and any anticipated changes in trends. Our ability to estimate the allowance for doubtful accounts is not impacted by not utilizing an aging of our net accounts receivable as we believe that substantially all of the risk exists at the point in time such accounts are identified as self-pay. For all other non-self-pay payor categories, we reserve an estimated amount based on historical collection rates for the uncontractualized portion of all accounts aging over 365 days from the date of discharge. These amounts represent an immaterial percentage of our outstanding accounts receivable. The percentage used to reserve for all self-pay accounts is based on our collection history. We believe that we collect substantially all of our third-party insured receivables, which include receivables from governmental agencies.

Collections are impacted by the economic ability of patients to pay and the effectiveness of our collection efforts. Significant changes in payor mix, business office operations, economic conditions or trends in federal and state governmental healthcare coverage could affect our collection of accounts receivable and are considered in our estimates of accounts receivable collectability. If the actual collection percentage differed by 1% at September 30, 2016 from our estimated collection percentage as a result of a change in expected recoveries, net (loss) income for the nine months ended September 30, 2016 would have changed by \$33 million, and net accounts receivable at September 30, 2016 would have changed by \$78 million. We also continually review our overall reserve adequacy by monitoring historical cash collections as a percentage of trailing net revenue less provision for bad debts, as well as by analyzing current period net revenue and admissions by payor classification, days revenue outstanding, the composition of self-pay receivables between pure self-pay patients and the patient responsibility portion of third-party insured receivables and the impact of recent acquisitions and dispositions.

Table of Contents

Our policy is to write-off gross accounts receivable if the balance is under \$10.00 or when such amounts are placed with outside collection agencies. We believe this policy accurately reflects our ongoing collection efforts and is consistent with industry practices. We had approximately \$3.7 billion and \$4.0 billion at September 30, 2016 and December 31, 2015, respectively, being pursued by various outside collection agencies. We expect to collect less than 3%, net of estimated collection fees, of the amounts being pursued by outside collection agencies. As these amounts have been written-off, they are not included in our gross accounts receivable or our allowance for doubtful accounts. Collections on amounts previously written-off are recognized as a reduction to bad debt expense when received. However, we take into consideration estimated collections of these future amounts written-off in evaluating the reasonableness of our allowance for doubtful accounts.

All of the following information is derived from our hospitals, excluding clinics, unless otherwise noted.

Patient accounts receivable from our hospitals represent approximately 95% of our total consolidated accounts receivable.

Days revenue outstanding, adjusted for the impact of receivables for state Medicaid supplemental payment programs, was 65 days at September 30, 2016 and 63 days at December 31, 2015. Our target range for days revenue outstanding is from 60 to 65 days.

Total gross accounts receivable (prior to allowance for contractual adjustments and doubtful accounts) was approximately \$19.8 billion as of September 30, 2016 and approximately \$20.5 billion as of December 31, 2015. The approximate percentage of total gross accounts receivable (prior to contractual adjustments and the allowance for doubtful accounts) summarized by aging categories is as follows:

As of September 30, 2016:

Payor	% of Gross Receivables			
	0 - 90 Days	90 - 180 Days	180 - 365 Days	Over 365 Days
Medicare	15 %	1 %	- %	- %
Medicaid	8 %	2 %	1 %	1 %
Managed Care and Other	24 %	4 %	3 %	2 %
Self-Pay	9 %	7 %	12 %	11 %

As of December 31, 2015:

Payor	% of Gross Receivables			
	0 - 90 Days	90 - 180 Days	180 - 365 Days	Over 365 Days
Medicare	14 %	1 %	- %	- %
Medicaid	9 %	2 %	1 %	1 %
Managed Care and Other	24 %	4 %	3 %	2 %
Self-Pay	9 %	7 %	12 %	11 %

The approximate percentage of total gross accounts receivable (prior to allowances for contractual adjustments and doubtful accounts) summarized by payor is as follows:

	September 30, 2016	December 31, 2015
Insured receivables	60.8 %	60.6 %
Self-pay receivables	39.2	39.4
Total	100.0 %	100.0 %

For the hospital segment, the combined total of the allowance for doubtful accounts for self-pay accounts receivable and related allowances for other self-pay discounts and contractuals, as a percentage of gross self-pay receivables, was approximately 89% and 88% at September 30, 2016 and December 31, 2015, respectively. If the receivables that have been written-off, but where collections are still being pursued by outside collection agencies, were included in both the allowances and gross self-pay receivables specified above, the percentage of combined allowances to total self-pay receivables would have been approximately 93% and 92% at September 30, 2016 and December 31, 2015, respectively.

Table of Contents***Goodwill and Other Intangibles***

Goodwill represents the excess of the fair value of the consideration conveyed in the acquisition over the fair value of net assets acquired. Goodwill is evaluated for impairment at the same time every year and when an event occurs or circumstances change that, more likely than not, reduce the fair value of the reporting unit below its carrying value. There is a two-step method for determining goodwill impairment. Step one is to compare the fair value of the reporting unit with the unit's carrying amount, including goodwill. If this test indicates the fair value is less than the carrying value, then step two is required to compare the implied fair value of the reporting unit's goodwill with the carrying value of the reporting unit's goodwill. The Company performed its last annual goodwill evaluation as of September 30, 2015. No impairment was indicated by this evaluation. The next annual goodwill evaluation will be performed during the fourth quarter of 2016.

During the nine months ended September 30, 2016, we allocated approximately \$709 million of goodwill to the spin-off of QHC, including approximately \$33 million of goodwill related to the former management services reporting unit and approximately \$676 million of goodwill allocated from the hospital operations reporting unit based on a relative fair value calculation of the hospitals that were included in the QHC distribution. At September 30, 2016, after giving effect to the disposition of QHC and the estimated \$1.395 billion impairment charge incurred during the three months ended June 30, 2016, as adjusted during the three months ended September 30, 2016, as discussed below, we had approximately \$6.9 billion of goodwill recorded. Substantially all of our goodwill resides at our hospital operations reporting unit.

During the six months ended June 30, 2016, we identified certain indicators of impairment requiring an interim goodwill impairment evaluation. Those indicators were primarily the decline in our market capitalization and fair value of long-term debt during the three months ended June 30, 2016, and a decline in our projected future earnings compared to our most recent annual evaluation. We performed a calculation of fair value in step one of the impairment test at June 30, 2016, which indicated that the carrying value of our hospital operations reporting unit exceeded its fair value. An initial step two calculation was performed to determine the implied value of goodwill in a hypothetical purchase price allocation. We recorded an estimated non-cash impairment charge of \$1.4 billion to goodwill at June 30, 2016 based on our best estimate at the time of fair value and resulting implied goodwill. As allowed by generally accepted accounting principles, this amount represented an estimate of the implied goodwill in the step two evaluation until that process could be finalized. We initiated this step two evaluation process during the third quarter of 2016 and such process is subject to ongoing review as noted below.

Based on the updated step two analysis performed during the three months ended September 30, 2016, we adjusted the initial goodwill impairment estimate downward in the amount of \$5 million, resulting in a total goodwill impairment charge of \$1.395 billion. The decrease in the goodwill impairment from the original estimate was primarily due to lower estimated fair values of the individual hospital property and equipment assets as compared to the assumptions used in the June 30, 2016 estimate, resulting in a higher implied goodwill amount when applied to a hypothetical purchase price allocation as required in the step two analysis. The Company is in the process of reviewing the updated valuation information obtained as part of the detailed step two analysis and changes in the calculation of implied goodwill from the step two analysis could result from this review. Changes to the Company's goodwill impairment charge as a result of this ongoing review could be material.

Impairment or Disposal of Long-Lived Assets

Whenever events or changes in circumstances indicate that the carrying values of certain long-lived assets may be impaired, we project the undiscounted cash flows expected to be generated by these assets. If the projections indicate that the reported amounts are not expected to be recovered, such amounts are reduced to their estimated fair value

based on a quoted market price, if available, or an estimate based on valuation techniques available in the circumstances.

Table of Contents***Professional Liability Claims***

As part of our business of owning and operating hospitals, we are subject to legal actions alleging liability on our part. We accrue for losses resulting from such liability claims, as well as loss adjustment expenses that are out-of-pocket and directly related to such liability claims. These direct out-of-pocket expenses include fees of outside counsel and experts. We do not accrue for costs that are part of our corporate overhead, such as the costs of our in-house legal and risk management departments. The losses resulting from professional liability claims primarily consist of estimates for known claims, as well as estimates for incurred but not reported claims. The estimates are based on specific claim facts, our historical claim reporting and payment patterns, the nature and level of our hospital operations, and actuarially determined projections. The actuarially determined projections are based on our actual claim data, including historic reporting and payment patterns which have been gathered over approximately a 20-year period. As discussed below, since we purchase excess insurance on a claims-made basis that transfers risk to third-party insurers, the liability we accrue does include an amount for the losses covered by our excess insurance. We also record a receivable for the expected reimbursement of losses covered by our excess insurance. Since we believe that the amount and timing of our future claims payments are reliably determinable, we discount the amount we accrue for losses resulting from professional liability claims using the risk-free interest rate corresponding to the timing of our expected payments.

The net present value of the projected payments was discounted using a weighted-average risk-free rate of 1.6%, 1.7% and 1.6% in 2015, 2014 and 2013, respectively. This liability is adjusted for new claims information in the period such information becomes known to us. Professional malpractice expense includes the losses resulting from professional liability claims and loss adjustment expense, as well as paid excess insurance premiums, and is presented within other operating expenses in the accompanying condensed consolidated statements of income.

Our processes for obtaining and analyzing claims and incident data are standardized across all of our hospitals and have been consistent for many years. We monitor the outcomes of the medical care services that we provide and for each reported claim, we obtain various information concerning the facts and circumstances related to that claim. In addition, we routinely monitor current key statistics and volume indicators in our assessment of utilizing historical trends. The average lag period between claim occurrence and payment of a final settlement is between four and five years, although the facts and circumstances of individual claims could result in the timing of such payments being different from this average. Since claims are paid promptly after settlement with the claimant is reached, settled claims represent less than 1.0% of the total liability at the end of any period.

For purposes of estimating our individual claim accruals, we utilize specific claim information, including the nature of the claim, the expected claim amount, the year in which the claim occurred and the laws of the jurisdiction in which the claim occurred. Once the case accruals for known claims are determined, information is stratified by loss layers and retentions, accident years, reported years, geography, and claims relating to the acquired HMA hospitals versus claims relating to our other hospitals. Several actuarial methods are used against this data to produce estimates of ultimate paid losses and reserves for incurred but not reported claims. Each of these methods uses our company-specific historical claims data and other information. This company-specific data includes information regarding our business, including historical paid losses and loss adjustment expenses, historical and current case loss reserves, actual and projected hospital statistical data, a variety of hospital census information, employed physician information, professional liability retentions for each policy year, geographic information and other data.

Based on these analyses, we determine our estimate of the professional liability claims. The determination of management's estimate, including the preparation of the reserve analysis that supports such estimate, involves subjective judgment of management. Changes in reserving data or the trends and factors that influence reserving data may signal fundamental shifts in our future claim development patterns or may simply reflect single-period anomalies.

Even if a change reflects a fundamental shift, the full extent of the change may not become evident until years later. Moreover, since our methods and models use different types of data and we select our liability from the results of all of these methods, we typically cannot quantify the precise impact of such factors on our estimates of the liability. Due to our standardized and consistent processes for handling claims and the long history and depth of our company-specific data, our methodologies have produced reliably determinable estimates of ultimate paid losses.

The impact of risk management patient safety quality programs and initiatives implemented at our hospitals, as well as decreasing obstetric admissions, surgeries, admissions and a slightly lower same-store acuity case mix, resulted in the current accident year expense decreasing, as a percentage of net operating revenues, for each year presented. Income/expense related to prior accident years reflects changes in estimates resulting from the filing of claims for prior year incidents, claim settlements, updates from litigation and our ongoing investigation of open claims. Expense/income from discounting reflects the changes in the weighted-average risk-free interest rate used and timing of estimated payments for discounting in each year.

Table of Contents

We are primarily self-insured for these claims; however, we obtain excess insurance that transfers the risk of loss to a third-party insurer for claims in excess of our self-insured retentions. Our excess insurance is underwritten on a claims-made basis. For claims reported prior to June 1, 2002, substantially all of our professional and general liability risks were subject to a less than \$1 million per occurrence self-insured retention and for claims reported from June 1, 2002 through June 1, 2003, these self-insured retentions were \$2 million per occurrence. Substantially all claims reported after June 1, 2003 and before June 1, 2005 are self-insured up to \$4 million per claim. Substantially all claims reported on or after June 1, 2005 and before June 1, 2014 are self-insured up to \$5 million per claim. Substantially all claims reported on or after June 1, 2014 are self-insured up to \$10 million per claim. Management, on occasion, has selectively increased the insured risk at certain hospitals based upon insurance pricing and other factors and may continue that practice in the future. Excess insurance for all hospitals has been purchased through commercial insurance companies and generally covers us for liabilities in excess of the self-insured retentions. The excess coverage consists of multiple layers of insurance, the sum of which totals up to \$95 million per occurrence and in the aggregate for claims reported on or after June 1, 2003, up to \$145 million per occurrence and in the aggregate for claims reported on or after January 1, 2008, up to \$195 million per occurrence and in the aggregate for claims reported on or after June 1, 2010, and up to \$220 million per occurrence and in the aggregate for claims reported on or after June 1, 2015. In addition, for integrated occurrence malpractice claims, there is an additional \$50 million of excess coverage for claims reported on or after June 1, 2014 and an additional \$75 million of excess coverage for claims reported on or after June 1, 2015. For certain policy years prior to June 1, 2014, if the first aggregate layer of excess coverage becomes fully utilized, then the self-insured retention will increase to \$10 million per claim for any subsequent claims in that policy year until our total aggregate coverage is met.

Effective June 1, 2014, the hospitals acquired from HMA were insured on a claims-made basis as described above and through commercial insurance companies as described above for substantially all claims reported on or after June 1, 2014 except for physician-related claims with an occurrence date prior to June 1, 2014. Prior to June 1, 2014, the former HMA hospitals obtained insurance coverage through a wholly-owned captive insurance subsidiary and a risk retention group subsidiary which are domiciled in the Cayman Islands and South Carolina, respectively. Those insurance subsidiaries, which are collectively referred to as the Insurance Subsidiaries, provided (i) claims-made coverage to all of the former HMA hospitals and (ii) occurrence-basis coverage to most of the physicians employed by the former HMA hospitals. The employed physicians not covered by the Insurance Subsidiaries generally maintained claims-made policies with unrelated third party insurance companies. To mitigate the exposure of the program covering the former HMA hospitals and other healthcare facilities, the Insurance Subsidiaries bought claims-made reinsurance policies from unrelated third parties for claims above self-retention levels of \$10 million or \$15 million per claim, depending on the policy year.

Effective January 1, 2008, the former Triad Hospitals, Inc., or Triad, hospitals were insured on a claims-made basis as described above and through commercial insurance companies as described above for substantially all claims occurring on or after January 1, 2002 and reported on or after January 1, 2008. Substantially all losses for the former Triad hospitals in periods prior to May 1, 1999 were insured through a wholly-owned insurance subsidiary of HCA Holdings, Inc., or HCA, Triad's owner prior to that time, and excess loss policies maintained by HCA. HCA has agreed to indemnify the former Triad hospitals in respect of claims covered by such insurance policies arising prior to May 1, 1999. From May 1, 1999 through December 31, 2006, the former Triad hospitals obtained insurance coverage on a claims incurred basis from HCA's wholly-owned insurance subsidiary with excess coverage obtained from other carriers that is subject to certain deductibles. Effective for claims incurred after December 31, 2006, Triad began insuring its claims from \$1 million to \$5 million through its wholly-owned captive insurance company, replacing the coverage provided by HCA. Substantially all claims occurring during 2007 were self-insured up to \$10 million per claim.

There have been no significant changes in our estimate of the reserve for professional liability claims during the three and nine months ended September 30, 2016.

Income Taxes

We must make estimates in recording provision for income taxes, including determination of deferred tax assets and deferred tax liabilities and any valuation allowances that might be required against the deferred tax assets. We believe that future income will enable us to realize certain deferred tax assets, subject to the valuation allowance we have established.

The total amount of unrecognized benefit that would impact the effective tax rate, if recognized, was approximately \$5 million as of September 30, 2016. A total of approximately \$3 million of interest and penalties is included in the amount of liability for uncertain tax positions at September 30, 2016. It is our policy to recognize interest and penalties related to unrecognized benefits in our condensed consolidated statements of income as income tax expense.

It is possible the amount of unrecognized tax benefit could change in the next 12 months as a result of a lapse of the statute of limitations and settlements with taxing authorities; however, we do not anticipate the change will have a material impact on our condensed consolidated results of operations or condensed consolidated financial position.

Table of Contents

We, or one of our subsidiaries, files income tax returns in the United States federal jurisdiction and various state jurisdictions. We have extended the federal statute of limitations through March 31, 2017 for Triad Hospitals, Inc. for the tax periods ended December 31, 1999, December 31, 2000, April 30, 2001, June 30, 2001, December 31, 2001, December 31, 2002, December 31, 2003, December 31, 2004, December 31, 2005, December 31, 2006 and July 25, 2007. With few exceptions, we are no longer subject to state income tax examinations for years prior to 2011. Our federal income tax returns for the 2009 and 2010 tax years are currently under examination by the Internal Revenue Service. We believe the results of these examinations will not be material to our consolidated results of operations or consolidated financial position. We have extended the federal statute of limitations through January 31, 2018 for Community Health Systems, Inc. for the tax periods ended December 31, 2007, 2008, 2009 and 2010, and through March 31, 2017 for the tax periods ended December 31, 2011 and 2012.

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU, 2014-08, which changes the requirements for reporting discontinued operations. A discontinued operation continues to include a component of an entity or a group of components of an entity, or a business activity. However, in a shift reflecting stakeholder concerns that too many disposals of small groups of assets that are recurring in nature qualified for reporting as discontinued operations, a disposal of a component of an entity or a group of components of an entity will be required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. A business or nonprofit activity that, on acquisition, meets the criteria to be classified as held for sale will still be a discontinued operation. Additional disclosures will be required for significant components of the entity that are disposed of or are held for sale but do not qualify as discontinued operations. This ASU is effective for fiscal years beginning after December 15, 2014 and is to be applied on a prospective basis for disposals or components initially classified as held for sale after that date. We adopted this ASU on January 1, 2015 and the adoption resulted in divestitures occurring subsequent to the date of adoption being included in continuing operations for the three and nine months ended September 30, 2016 and 2015.

In May 2014, the FASB issued ASU 2014-09, which outlines a single comprehensive model for recognizing revenue and supersedes most existing revenue recognition guidance, including guidance specific to the healthcare industry. This ASU provides companies the option of applying a full or modified retrospective approach upon adoption. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted for annual periods beginning after December 15, 2016. We expect to adopt this ASU on January 1, 2018 and are currently developing our plan for adoption and the impact on our revenue recognition policies, procedures and control framework and the resulting impact on our consolidated financial position, results of operations and cash flows.

In April 2015, the FASB issued ASU 2015-03, which requires debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of that debt liability, consistent with the accounting for debt discounts. The ASU did not change the measurement or recognition guidance for debt issuance costs. This ASU is effective for fiscal years beginning after December 31, 2015. We adopted this ASU on January 1, 2016, which resulted in the reclassification of approximately \$266 million of debt issuance costs from other long-term assets to a reduction of the related long-term debt.

In November 2015, the FASB issued ASU 2015-17, which amended the balance sheet classification requirements for deferred income taxes to simplify their presentation in the statement of financial position. The ASU requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. This ASU is effective for fiscal years beginning after December 31, 2016, with early adoption permitted. We early adopted the provisions of this ASU for the presentation and classification of its deferred tax assets at December 31, 2015. The effect of this change primarily resulted in the current portion of deferred income taxes at December 31, 2015 being

included in the noncurrent deferred income tax liability.

In January 2016, the FASB issued ASU 2016-01, which amends the measurement, presentation and disclosure requirements for equity investments, other than those accounted for under the equity method or that require consolidation of the investee. The ASU eliminates the classification of equity investments as available-for-sale with any changes in fair value of such investments recognized in other comprehensive income, and requires entities to measure equity investments at fair value, with any changes in fair value recognized in net income. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. We expect to adopt this ASU on January 1, 2018, and are currently evaluating the impact that adoption of this ASU will have on our consolidated financial position and results of operations.

Table of Contents

In February 2016, the FASB issued ASU 2016-02, which amends the accounting for leases, requiring lessees to recognize most leases on their balance sheet with a right-of-use asset and a lease liability. Leases will be classified as either finance or operating leases, which will impact the expense recognition of such leases over the lease term. The ASU also modifies the lease classification criteria for lessors and eliminates some of the real estate leasing guidance previously applied for certain leasing transactions. This ASU is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. We expect to adopt this ASU on January 1, 2019. Because of the number of leases we utilize to support our operations, the adoption of this ASU is expected to have a significant impact on our consolidated financial position and results of operations. We are currently evaluating the extent of this anticipated impact on our consolidated financial position and results of operations and the quantitative and qualitative factors that will impact us as part of the adoption of this ASU, as well as any changes to our leasing strategy because of the changes to the accounting and recognition of leases.

In March 2016, the FASB issued ASU 2016-09, which was issued to simplify some of the accounting guidance for share-based compensation. Among the areas impacted by the amendments in this ASU is the accounting for income taxes related to share-based payments, accounting for forfeitures, classification of awards as equity or liabilities, and classification on the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. We expect to adopt this ASU on January 1, 2017. We are evaluating the impact that the adoption of this ASU will have on our consolidated financial position, results of operations and cash flows.

FORWARD-LOOKING STATEMENTS

Some of the matters discussed in this Report include forward-looking statements. Statements that are predictive in nature, that depend upon or refer to future events or conditions or that include words such as expects, anticipates, intends, plans, believes, estimates, thinks, and similar expressions are forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause our actual results and performance to be materially different from any future results or performance expressed or implied by these forward-looking statements. These factors include the following:

general economic and business conditions, both nationally and in the regions in which we operate,

implementation, effect of, and changes to, adopted and potential federal and state healthcare reform legislation and other federal, state or local laws or regulations affecting the healthcare industry,

the extent to which states support increases, decreases or changes in Medicaid programs, implement health insurance exchanges or alter the provision of healthcare to state residents through regulation or otherwise,

the success and long-term viability of health insurance exchanges, which may be impacted by whether a sufficient number of payors participate,

risks associated with our substantial indebtedness, leverage and debt service obligations, including our ability to incur additional indebtedness,

demographic changes,

changes in, or the failure to comply with, governmental regulations,

potential adverse impact of known and unknown government investigations, audits, and federal and state false claims act litigation and other legal proceedings,

our ability, where appropriate, to enter into and maintain provider arrangements with payors and the terms of these arrangements, which may be further impacted by the increasing consolidation of health insurers and managed care companies,

changes in, or the failure to comply with, contract terms with payors and changes in reimbursement rates paid by federal or state healthcare programs or commercial payors,

any potential additional impairments in the carrying value of goodwill (or additional changes in the estimated goodwill impairment charge incurred during the three months ended June 30, 2016, as a result of our ongoing review of updated valuation information as part of our step two goodwill analysis), other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets,

Table of Contents

changes in inpatient or outpatient Medicare and Medicaid payment levels,

the effects related to the continued implementation of the sequestration spending reductions and the potential for future deficit reduction legislation,

increases in the amount and risk of collectability of patient accounts receivable, including the impact of the implementation of ICD-10 and decreases in collectability which may result from, among other things, self-pay growth in states that have not expanded Medicaid and difficulties in recovering payments for which patients are responsible, including co-pays and deductibles,

the efforts of insurers, healthcare providers and others to contain healthcare costs, including the trend toward value-based purchasing,

our ongoing ability to demonstrate meaningful use of certified EHR technology and recognize income for the related Medicare or Medicaid incentive payments,

increases in wages as a result of inflation or competition for highly technical positions and rising supply and drug costs due to market pressure from pharmaceutical companies and new product releases,

liabilities and other claims asserted against us, including self-insured malpractice claims,

competition,

our ability to attract and retain, at reasonable employment costs, qualified personnel, key management, physicians, nurses and other healthcare workers,

trends toward treatment of patients in less acute or specialty healthcare settings, including ambulatory surgery centers or specialty hospitals,

changes in medical or other technology,

changes in U.S. GAAP,

the availability and terms of capital to fund additional acquisitions or replacement facilities or other capital expenditures,

our ability to successfully make acquisitions or complete divestitures, including the intended disposition of certain hospitals, our ability to complete any such acquisitions or divestitures on desired terms or at all (including to realize the anticipated amount of proceeds from contemplated dispositions), the timing of the completion of any such acquisitions or divestitures, and our ability to realize the intended benefits from any such acquisitions or divestitures,

our ability to successfully integrate any acquired hospitals, including those of HMA, or to recognize expected synergies from acquisitions,

the impact of seasonal severe weather conditions,

our ability to obtain adequate levels of general and professional liability insurance,

timeliness of reimbursement payments received under government programs,

effects related to outbreaks of infectious diseases,

the impact of the external, criminal cyber-attack suffered by us in the second quarter of 2014, including potential reputational damage, the outcome of our investigation and any potential governmental inquiries, the outcome of litigation filed against us in connection with this cyber-attack, the extent of remediation costs and additional operating or other expenses that we may continue to incur, and the impact of potential future cyber-attacks or security breaches,

the effects of the spin-off of QHC that was completed on April 29, 2016, on our business, including our ability to achieve the anticipated benefits of the spin-off,

Table of Contents

any effects of our recently announced adoption of a Stockholder Protection Rights Agreement,

any effects related to our previously announced exploration of strategic alternatives, and

the other risk factors set forth in our 2015 Form 10-K and our other public filings with the SEC.

Although we believe that these forward-looking statements are based upon reasonable assumptions, these assumptions are inherently subject to significant regulatory, economic and competitive uncertainties and contingencies, which are difficult or impossible to predict accurately and may be beyond the control of the Company. Accordingly, the Company cannot give any assurance that its expectations will in fact occur and cautions that actual results may differ materially from those in the forward-looking statements. Given these uncertainties, prospective investors are cautioned not to place undue reliance on these forward-looking statements. These forward-looking statements are made as of the date of this filing. The Company undertakes no obligation to revise or update any forward-looking statements, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to interest rate changes, primarily as a result of our Credit Facility which bears interest based on floating rates. In order to manage the volatility relating to the market risk, we entered into interest rate swap agreements described under the heading "Liquidity and Capital Resources" in Part I, Item 2. We utilize risk management procedures and controls in executing derivative financial instrument transactions. We do not execute transactions or hold derivative financial instruments for trading purposes. Derivative financial instruments related to interest rate sensitivity of debt obligations are used with the goal of mitigating a portion of the exposure when it is cost effective to do so. As of September 30, 2016, our approximately \$2.7 billion notional amount of interest rate swap agreements outstanding represented approximately 36.3% of our variable rate debt.

A 1% change in interest rates on variable rate debt in excess of that amount covered by interest rate swaps would have resulted in interest expense fluctuating approximately \$12 million and \$15 million for the three months ended September 30, 2016 and 2015, respectively, and \$37 million and \$48 million for the nine months ended September 30, 2016 and 2015, respectively.

Item 4. Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, with the participation of other members of management, have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) under the Securities and Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on such evaluations, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective (at the reasonable assurance level) to ensure that the information required to be included in this report has been recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and to ensure that the information required to be included in this report was accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting during the three months ended September 30, 2016 that have materially affected or are reasonably likely to materially affect our internal controls over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. *Legal Proceedings***

From time to time, we receive inquiries or subpoenas from state regulators, state Medicaid Fraud Control units, fiscal intermediaries, the Centers for Medicare and Medicaid Services, the Department of Justice and other government entities regarding various Medicare and Medicaid issues. In addition to the matters discussed below, we are currently responding to subpoenas and administrative demands concerning (a) certain cardiology procedures, medical records and policies at a New Mexico hospital, (b) an inquiry regarding a sleep lab at a Louisiana hospital, (c) a subpoena regarding wound care services at one of our Florida hospitals (which appears to be related to unsealed cases against Healogics, Inc.), (d) a subpoena concerning provider based billing status for hyperbaric oxygen therapy at one of our Tennessee hospitals, (e) a civil investigative demand concerning neonatal services at one of our Washington hospitals, (f) a subpoena concerning a physician relationship at one of our Texas hospitals and (g) a civil investigative demand concerning short-term Medicaid eligibility determinations processed by third party vendors at one of our Pennsylvania hospitals. In addition, we are subject to other claims and lawsuits arising in the ordinary course of our business including lawsuits and claims related to billing practices and the administration of charity care policies at our hospitals. Based on current knowledge, management does not believe that loss contingencies arising from pending legal, regulatory and governmental matters, including the matters described herein, will have a material adverse effect on the consolidated financial position or liquidity of the Company. However, in light of the inherent uncertainties involved in pending legal, regulatory and governmental matters, some of which are beyond our control, and the very large or indeterminate damages sought in some of these matters, an adverse outcome in one or more of these matters could be material to our results of operations or cash flows for any particular reporting period. Settlements of suits involving Medicare and Medicaid issues routinely require both monetary payments as well as corporate integrity agreements. Additionally, qui tam or whistleblower actions initiated under the civil False Claims Act may be pending but placed under seal by the court to comply with the False Claims Act's requirements for filing such suits. In September 2014, the Criminal Division of the United States Department of Justice, or DOJ, announced that all qui tam cases will be shared with their Division to determine if a parallel criminal investigation should be opened. The Criminal Division has also frequently stated an intention to pursue corporations in criminal prosecutions. From time to time, we detect issues of non-compliance with Federal healthcare laws pertaining to claims submission and reimbursement practices and/or financial relationships with physicians. We avail ourselves of various mechanisms to address potential overpayments arising out of these issues, including repayment of claims, rebilling of claims, and participation in voluntary disclosure protocols offered by the Centers for Medicare and Medicaid Services and the Office of the Inspector General. Participating in voluntary repayments and voluntary disclosure protocols can have the potential for significant settlement obligations or even enforcement action.

The following legal proceedings are described in detail because, although they may not be required to be disclosed in this Part II, Item 1 under SEC rules, due to the nature of the business of the Company, we believe that the following discussion of these matters may provide useful information to security holders. This discussion does not include claims and lawsuits covered by medical malpractice, general liability or employment practices insurance and risk retention programs, none of which claims or lawsuits would in any event be required to be disclosed in this Part II, Item 1 under SEC rules. Certain of the matters referenced below are also discussed in the Notes to Condensed Consolidated Financial Statements at Part I, Item 1 under Note 17 Contingencies.

Community Health Systems, Inc. Legal Proceedings*Shareholder Litigation*

Class Action Shareholder Federal Securities Cases. Three purported class action cases have been filed in the United States District Court for the Middle District of Tennessee; namely, Norfolk County Retirement System v. Community Health Systems, Inc., et al., filed May 9, 2011; De Zheng v. Community Health Systems, Inc., et al., filed May 12, 2011; and Minneapolis Firefighters Relief Association v. Community Health Systems, Inc., et al., filed June 21, 2011. All three seek class certification on behalf of purchasers of our common stock between July 27, 2006 and April 11, 2011 and allege that misleading statements resulted in artificially inflated prices for our common stock. In December 2011, the cases were consolidated for pretrial purposes and NYC Funds and its counsel were selected as lead plaintiffs/lead plaintiffs' counsel. In lieu of ruling on our motion to dismiss, the court permitted the plaintiffs to file a first amended consolidated class action complaint which was filed on October 5, 2015. Our motion to dismiss was filed on November 4, 2015 and oral argument took place on April 11, 2016. Our motion to dismiss was granted on June 16, 2016 and on June 27, 2016, the plaintiffs filed a notice of appeal to the Sixth Circuit Court of Appeals. The plaintiffs' initial brief was filed on September 28, 2016. Our response is due December 7, 2016. We believe this consolidated matter is without merit and will vigorously defend this case.

Table of Contents

Shareholder Derivative Actions. Three purported shareholder derivative actions have also been filed in the United States District Court for the Middle District of Tennessee; Plumbers and Pipefitters Local Union No. 630 Pension Annuity Trust Fund v. Wayne T. Smith, et al., filed May 24, 2011; Roofers Local No. 149 Pension Fund v. Wayne T. Smith, et al., filed June 21, 2011; and Lambert Sweat v. Wayne T. Smith, et al., filed October 5, 2011. These three cases allege breach of fiduciary duty arising out of allegedly improper inpatient admission practices, mismanagement, waste and unjust enrichment. These cases have been consolidated into a single, consolidated action. The plaintiffs filed an operative amended derivative complaint in these three consolidated actions on March 15, 2012. Our motion to dismiss was argued on June 13, 2013. On September 27, 2013, the court issued an order granting in part and denying in part our motion to dismiss. An agreement in principle on the settlement of this case has been reached by the parties.

Other Government Investigations

Dothan, Alabama Independent Lab Billing. On February 12, 2015, our hospital in Dothan, Alabama received a Civil Investigative Demand, or CID, from the United States Department of Justice for information concerning its status as a covered hospital under certain lab billing regulations. These regulations discuss permissible billing of the technical component of lab tests performed for hospital patients by an independent laboratory. The CID seeks documentation and explanation whether the hospital qualifies as a covered hospital for billing purposes under the applicable regulations. We are cooperating fully with this investigation.

Qui Tam Cases Government Declined Intervention

On February 4, 2014, a redacted case then styled (Sealed Party) v. Pottstown Hospital Co., LLC d/b/a Pottstown Memorial Medical Center and Community Health Systems, Inc. was filed in the Eastern District of Pennsylvania. On May 6, 2014, the district court ordered the seal lifted. The relator is Alan E. Cooper, M.D. The complaint alleges the hospital traded on call agreements for referrals. There is no indication that the DOJ has intervened in this matter. This matter was previously reported in prior filings in the Legal Proceedings section as subpoenas to two Pennsylvania hospitals and one of our subsidiaries concerning on call agreements and physician directorships. On June 5, 2014, we filed motions to dismiss the complaint and on June 30, 2014 the relator filed his response. Oral argument occurred on October 15, 2014 and the matter was taken under advisement and discovery was stayed. Our motions to dismiss were granted with prejudice on March 13, 2015; the relator filed an appeal and oral argument on the appeal was originally set for November 20, 2015 but by order of the court was submitted on paper only. On June 10, 2016 the Third Circuit Court of Appeals upheld the dismissal of the case. The plaintiff has until September 8, 2016 to seek review by the United States Supreme Court. The plaintiff did not seek review and this case has now been dismissed.

On May 28, 2010 a complaint was filed by a relator in the matter of U.S. ex. rel. John Underwood, et al v. Amgen, Inc. and Community Health Systems, Inc. et al. and forty-eight other non-affiliated defendants including numerous pharma companies, distributors and hospital systems. On May 11, 2016 the case was unsealed. The government declined to intervene and we have not been served at this time. The relator alleges pharma companies supplied excess biologics (over maximum dosage) characterized as free over fill which distributors repackaged and furnished to providers. On August 5, 2016, the relator took a nonsuit without prejudice dismissing this case.

On July 28, 2013 a complaint was filed by a relator in the matter of U.S. ex rel. Omni Healthcare, Inc. v. U.S. Laboratory and Radiology, Inc. and Health Management Associates, Inc. et al. and six other non-affiliated defendant laboratories and skilled nursing facility systems. We were served on July 12, 2016. The government filed a Notice of Non-Intervention At This Time. The relator names only one HMA affiliated hospital in Florida and alleges generally that named laboratories and skilled nursing facilities engaged in trading discounts by the labs to the skilled nursing facilities on Medicare Part A business in exchange for referrals by the skilled nursing facilities to the laboratories of all their Medicare Part B patients. The conduct described in the complaint occurred prior to HMA acquiring its interest

in the Florida hospital and we intend to seek indemnification. On September 14, 2016, the court dismissed this case without prejudice because the relator failed to obtain new counsel.

Table of Contents

Commercial Litigation and Other Lawsuits

Becker v. Community Health Systems, Inc. d/b/a Community Health Systems Professional Services Corporation d/b/a Community Health Systems d/b/a Community Health Systems PSC, Inc. d/b/a Rockwood Clinic P.S. and Rockwood Clinic, P.S. (Superior Court, Spokane, Washington). This suit was filed on February 29, 2012, by a former chief financial officer at Rockwood Clinic in Spokane, Washington. Becker claims he was wrongfully terminated for allegedly refusing to certify a budget for Rockwood Clinic in 2012. On February 29, 2012, he also filed an administrative complaint with the Department of Labor, Occupational Safety and Health Administration alleging that he is a whistleblower under Sarbanes-Oxley, which was dismissed by the agency and was appealed to an administrative law judge for a hearing that occurred on January 19-26, 2016 and is now ready for decision following the submittal of final briefing. At a hearing on July 27, 2012, the trial court dismissed Community Health Systems, Inc. from the state case and subsequently certified the state case for an interlocutory appeal of the denial to dismiss his employer and the management company. The appellate court accepted the interlocutory appeal, and it was argued on April 30, 2014. On August 14, 2014, the court denied our appeal. On October 20, 2014, we filed a petition to review the denial with the Washington Supreme Court. Our appeal was accepted and oral argument was heard on June 9, 2015. On September 15, 2015, the court denied our appeal and remanded to the trial court; a previous trial setting of September 12, 2016 has been vacated and not reset. We are vigorously defending these actions.

Eliel Ntakirutimana, M.D. and Anesthesia Healthcare Partners of Laredo, P.A., Jose Berlioz, M.D. and Jose Berlioz, M.D., P.A. d/b/a Safari Pediatrics v. Laredo Texas Hospital Company, L.P. d/b/a Laredo Medical Center, CHS/Community Health Systems, Inc., Webb Hospital Corporation, Community Health Systems Professional Services Corporation, Community Health Systems, Inc., Abraham Abe Martinez, Argelia Argie Martinez, Michael Portacci, Wayne Smith, Timothy P. Adams, and Timothy Schmidt. On December 28, 2012, two physicians and each of their professional associations, who previously contracted as independent contractors with Laredo Medical Center under contracts that could be terminated without cause upon certain written notice, filed a first amended complaint. The first amended complaint alleged claims for breaches of contracts, unjust enrichment, violation of the Texas Theft Liability Act, negligence, breach of fiduciary duty, knowing participation in breach of fiduciary duty, defamation and business disparagement, R.I.C.O., economic duress/coercion, tortious interference with contracts or prospective business relations, conspiracy, respondent superior, actual and apparent authority, ratification, vice-principal liability, and joint enterprise liability. The first amended complaint, in part, alleges facts concerning payments made by Dr. Eliel Ntakirutimana to former Laredo Medical Center CEO, Abe Martinez, who is also a defendant in the suit. On October 23, 2013, an Order staying the case until further notice was entered. On April 13, 2016 the magistrate judge entered an Order lifting the stay and set scheduling conference that was held on June 8, 2016. On July 22, 2016 we filed several motions for summary judgment. We continue to vigorously defend this matter.

Cyber Attack. As previously disclosed on a Current Report on Form 8-K filed by us on August 18, 2014, our computer network was the target of an external, criminal cyber-attack that we believe occurred between April and June, 2014. We and Mandiant (a FireEye Company), the forensic expert engaged by us in connection with this matter, believe the attacker was a foreign Advanced Persistent Threat group who used highly sophisticated malware and technology to attack our systems. The attacker was able to bypass our security measures and successfully copy and transfer outside the Company certain non-medical patient identification data (such as patient names, addresses, birthdates, telephone numbers and social security numbers), but not including patient credit card, medical or clinical information. We continue to work closely with federal law enforcement authorities in connection with their investigation and possible prosecution of those determined to be responsible for this attack. Mandiant has conducted a thorough investigation of this incident and continues to advise us regarding security and monitoring efforts. We have provided appropriate notification to affected patients and regulatory agencies as required by federal and state law. We are offering identity theft protection services to individuals affected by this attack.

Table of Contents

We have incurred certain expenses to remediate and investigate this matter, and expect to continue to incur expenses of this nature in the foreseeable future. In addition, multiple purported class action lawsuits have been filed against us and certain subsidiaries. These lawsuits allege that sensitive information was unprotected and inadequately encrypted by us. The plaintiffs claim breach of contract and other theories of recovery, and are seeking damages, as well as restitution for any identity theft. On February 4, 2015, the United States Judicial Panel on Multidistrict Litigation ordered the transfer of the purported class actions pending outside of the District Court for the Northern District of Alabama to the District Court for the Northern District of Alabama for coordinated or consolidated pretrial proceedings. A consolidated complaint was filed and we filed a motion to dismiss on September 21, 2015, which was partially argued on February 10, 2016. In an oral ruling from the bench, the court greatly limited the potential class by ruling only plaintiffs with specific injury resulting from the breach had standing to sue. Further, on jurisdictional grounds, the court dismissed Community Health Systems, Inc. from all non-Tennessee based cases. Finally, the court set April 15, 2016 for further argument on whether the remaining plaintiffs have sufficiently stated a cause of action to continue their cases. On April 15, 2016 in an oral ruling from the bench, the court dismissed additional claims and following this oral ruling only eight of the forty plaintiffs remained with significant limitations imposed on their ability to assert claims for damages. These oral rulings were confirmed in a written order filed on September 12, 2016. On October 20, 2016, the plaintiffs filed a renewed motion for interlocutory appeal from the motion to dismiss ruling and a stay of discovery is in place pending the decision on the request. At this time, we are unable to predict the outcome of this litigation or determine the potential impact, if any, that could result from this litigation, but we intend to vigorously defend these lawsuits. This matter may subject us to additional litigation, potential governmental inquiries, potential reputational damage, and additional remediation, operating and other expenses.

Mounce v. Community Health Systems, Inc. This case is a purported class action lawsuit served on July 29, 2015, claiming our affiliated Arkansas hospitals violated payor contracts by allegedly improperly asserting hospital liens against third-party tortfeasors and seeking class certifications for any similarly situated plaintiffs at any affiliated Arkansas hospital. Discovery is ongoing with a cut-off date of August 19, 2016. A Motion of Summary Judgment and a Motion of Class Certification have been filed and both are set for hearing on November 3, 2016. We believe these claims are without merit and will vigorously defend the case.

Morrow v. Community Health Systems, Inc. This case is a purported class action lawsuit filed on July 25, 2016, in the United States District Court, Middle District of Tennessee alleging our affiliated hospital, South Baldwin Regional Medical Center in Foley, AL, violated a payor contract by allegedly improperly asserting a hospital lien against a third-party tortfeasor and allegedly unjustly enriching the hospital. The plaintiff seeks certification of a class for any similarly situated plaintiffs at any Company affiliated hospital. A Motion to Dismiss has been filed. We believe the claims are without merit and will vigorously defend the case.

HMA Midwest City Memorial Hospital Authority v. Health Management Associates, Inc., Midwest Regional Medical Center, LLC and Community Health Systems, Inc. During the three months ended September 30, 2016, we reached an agreement in principle to settle a matter related to the lease for our hospital in Midwest City, Oklahoma. The landlord's amended petition sought damages due to an alleged breach of the right of first refusal to purchase the hospital, which was triggered with our acquisition of HMA in 2014. Based on the estimate of probable liability determined by the settlement agreement, a liability for this matter was recorded during the three months ended September 30, 2016.

Table of Contents**Certain Legal Proceedings Related to HMA***Medicare/Medicaid Billing Lawsuits*

On January 11, 2010, HMA and one of its subsidiaries were named in a qui tam lawsuit entitled *U.S. ex rel. J. Michael Mastej v. Health Management Associates, Inc. et al.* in the United States District Court for the Middle District of Florida, Tampa Division. The plaintiff's complaint alleged that, among other things, the defendants erroneously submitted claims to Medicare and that those claims were falsely certified to be in compliance with Section 1877 of the Social Security Act of 1935 (commonly known as the Stark law) and the Anti-Kickback Statute. The plaintiff's complaint further alleged that the defendants' conduct violated the False Claims Act. The plaintiff seeks recovery of all Medicare and Medicaid reimbursement that the defendants received as a result of the alleged false certifications and treble damages under the False Claims Act, as well as a civil penalty for each Medicare and Medicaid claim supported by such alleged false certifications. On August 18, 2010, the plaintiff filed a first amended complaint that was similar to the original complaint. On February 23, 2011, the case was transferred to the United States District Court for the Middle District of Florida, Fort Myers Division. On May 5, 2011, the plaintiff filed a second amended complaint, which was similar to the first amended complaint. On May 17, 2011, the defendants moved to dismiss the second amended complaint for failure to state a claim with the particularity required and failure to state a claim upon which relief can be granted. On January 26, 2012, the United States gave notice of its decision not to intervene in this lawsuit. On February 16, 2012, the court granted the defendants' motion to dismiss, without prejudice. The court's order permitted the plaintiff to file an amended complaint. On March 8, 2012, the plaintiff filed a third amended complaint, which was similar to the first amended complaint and the second amended complaint. On March 26, 2012, the defendants moved to dismiss the third amended complaint on the same bases set forth in earlier motions to dismiss. On March 19, 2013, the United States District Court for the Middle District of Florida, Tampa Division, dismissed the third amended complaint with prejudice. On March 28, 2013, the United States of America filed a motion to clarify that the dismissal with prejudice did not relate to the United States. On April 4, 2013, the defendants filed an opposition to the United States' motion for clarification. The Government's motion remains pending at this time. The case was appealed by Mastej to the Eleventh Circuit Court of Appeals and on October 30, 2014 the appellate court affirmed the dismissal of part of the case and reversed the dismissal of part of the case. The relator sought further relief from the United States Supreme Court, which was denied on June 1, 2015. The case has been remanded to the district court and has been set for trial during the November 1, 2016 trial term. We have reached an agreement to settle this matter. This matter has now been dismissed.

Beginning during the week of December 16, 2013 eleven qui tam lawsuits filed by private individuals against HMA were unsealed in various United States district courts. The United States has elected to intervene in all or part of eight of these matters; namely *U.S. ex rel. Craig Brummer v. Health Management Associates, Inc. et al.* (Middle District Georgia) (*Brummer*); *U.S. ex rel. Ralph D. Williams v. Health Management Associates, Inc. et al.* (Middle District Georgia) (*Williams*); *U.S. ex rel. Scott H. Plantz, M.D. et al. v. Health Management Associates, Inc., et al.* (Northern District Illinois) (*Plantz*); *U.S. ex rel. Thomas L. Mason, M.D. et al. v. Health Management Associates, Inc. et al.* (Western District North Carolina) (*Mason*); *U.S. ex rel. Jacqueline Meyer, et al. v. Health Management Associates, Inc., Gary Newsome et al.* (*Jacqueline Meyer*) (District of South Carolina); *U.S. ex rel. George Miller, et al. v. Health Management Associates, Inc.* (Eastern District of Pennsylvania) (*Miller*); *U.S. ex rel. Bradley Nurkin v. Health Management Associates, Inc. et al.* (Middle District of Florida) (*Nurkin*); and *U.S. ex rel. Paul Meyer v. Health Management Associates, Inc. et al.* (Southern District Florida) (*Paul Meyer*). The United States has elected to intervene with respect to allegations in these cases that certain HMA hospitals inappropriately admitted patients and then submitted reimbursement claims for treating those individuals to federal healthcare programs in violation of the False Claims Act or that certain HMA hospitals had inappropriate financial relationships with physicians which violated the Stark law, the Anti-Kickback Statute, and the False Claims Act. Certain of these complaints also allege the same actions violated various state laws which prohibit false claims. The United States has declined to intervene in

three of the eleven matters, namely *U.S. ex rel. Anita France, et al. v. Health Management Associates, Inc. (Middle District Florida)* (*France*) which involved allegations of wrongful billing and was settled; *U.S. ex rel. Sandra Simmons v. Health Management Associates, Inc. et al. (Eastern District Oklahoma)* (*Simmons*) which alleges unnecessary surgery by an employed physician and which was settled as to all allegations except alleged wrongful termination; and *U.S. ex rel. David Napoliello, M.D. v. Health Management Associates, Inc. (Middle District Florida)* (*Napoliello*) which alleges inappropriate admissions. On April 3, 2014, the Multi District Litigation Panel ordered the transfer and consolidation for pretrial proceedings of the eight intervened cases, plus the Napoliello matter, to the District of the District of Columbia under the name *In Re: Health Management Associates, Inc. Qui Tam Litigation*. On June 2, 2014, the court entered a stay of this matter until October 6, 2014, which was subsequently extended until February 27, 2015, May 27, 2015, September 25, 2015, January 25, 2016, May 25, 2016, September 26, 2016 and now until December 27, 2016. We intend to defend against the allegations in these matters, but have also been cooperating with the government in the ongoing investigation of these allegations. We have been in discussions with the Civil Division of the DOJ regarding the resolution of these matters. During the first quarter of 2015, we were informed the Criminal Division continues to investigate former executive-level employees of HMA and continues to consider whether any HMA entities should be held criminally liable for the acts of the former HMA employees. We are voluntarily cooperating with these inquiries and have not been served with any subpoenas or other legal process.

Table of Contents

Securities and Exchange Commission Investigations

On April 25, 2013, HMA received a subpoena from the SEC, issued pursuant to an investigation, requesting documents related to accounts receivable, billing write-downs, contractual adjustments, reserves for doubtful accounts, and accounts receivable aging, and revenue from Medicare, Medicaid and from privately insured or uninsured patients. On June 5, 2013, HMA received a supplemental subpoena from the SEC which requests additional financial reports. Subsequent subpoenas have been directed to us, our accountants, the former accountants for HMA and certain individuals. On July 17, 2014, we received an additional subpoena from the SEC seeking numerous categories of documents relating to the financial statement adjustments taken in the fourth quarter of 2013 in the areas described above. This investigation is ongoing and we are unable to determine the potential impact, if any, of this investigation.

Class Action Lawsuits

On April 30, 2012, two class action lawsuits that were brought against HMA and certain of its then executive officers, one of whom was at that time also a director, were consolidated in the United States District Court for the Middle District of Florida under the caption In Re: Health Management Associates, Inc., et al. and three pension fund plaintiffs were appointed as lead plaintiffs. On July 30, 2012, the lead plaintiffs filed an amended consolidated complaint purportedly on behalf of stockholders who purchased HMA's common stock during the period from July 27, 2009, through January 9, 2012. The amended consolidated complaint (i) alleges that HMA made false and misleading statements in certain public disclosures regarding its business and financial results and (ii) asserts claims for violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended. Among other things, the plaintiffs claim that HMA inflated its earnings by engaging in fraudulent Medicare billing practices that entailed admitting patients to observation status when they should not have been admitted at all and to inpatient status when they should have been admitted to observation status. The plaintiffs seek unspecified monetary damages. On October 22, 2012, the defendants moved to dismiss the plaintiffs' amended consolidated complaint for failure to state a claim or plead facts required by the Private Securities Litigation Reform Act. The plaintiffs filed an unopposed stipulation and proposed order to suspend briefing on the defendants' motion to dismiss because they intended to seek leave of court to file a proposed second amended consolidated complaint. On December 15, 2012, the court entered an order approving the stipulation and providing a schedule for briefing with respect to the proposed amended pleadings. On February 25, 2013, the plaintiffs filed a second amended consolidated complaint, which asserted substantially the same claims as the amended consolidated complaint. As of August 15, 2013, the defendants' motion to dismiss the second amended complaint for failure to state a claim and plead facts required by the Private Securities Litigation Reform Act was fully briefed and awaiting the Court's decision. On May 22, 2014, the court granted the motion to dismiss and on June 20, 2014 the plaintiffs appealed to the Eleventh Circuit, where oral argument was heard on February 6, 2015. On May 11, 2015, the Eleventh Circuit Court affirmed the granting of the motion to dismiss. On June 11, 2015, plaintiffs filed an application for an en banc review. On June 24, 2016 the application for en banc review was denied and the plaintiffs will have until September 22, 2016 to appeal to the United States Supreme Court. The plaintiffs obtained an extension until November 21, 2016 to appeal to the United States Supreme Court. We intend to vigorously defend against the allegations in this lawsuit. We are unable to predict the outcome or determine the potential impact, if any, that could result from its final resolution.

Lopez v. Yakima Regional Medical & Cardiac Center and Toppenish Community Hospital is a class action lawsuit arising out of alleged conduct at these hospitals prior to the HMA acquisition. The suit alleges the hospitals' charity care policies did not comply with Washington state law. The trial court has certified a class and granted partial summary judgment in favor of the plaintiffs. This matter has now been settled.

Management of Significant Legal Proceedings

In accordance with our governance documents, including our Governance Guidelines and the charter of the Audit and Compliance Committee, our management of significant legal proceedings is overseen by the independent members of the Board of Directors and, in particular, the Audit and Compliance Committee. The Audit and Compliance Committee is charged with oversight of compliance, regulatory and litigation matters, and enterprise risk management. Management has been instructed to refer all significant legal proceedings and allegations of financial statement fraud, error, or misstatement to the Audit and Compliance Committee for its oversight and evaluation. Consistent with New York Stock Exchange, NASDAQ and Sarbanes-Oxley independence requirements, the Audit and Compliance Committee is comprised entirely of individuals who are independent of our management, and all three members of the Audit and Compliance Committee are audit committee financial experts as defined in the Securities Exchange Act, as amended.

Table of Contents

In addition, the Audit and Compliance Committee and the other independent members of the Board of Directors oversee the functions of the voluntary compliance program, including its auditing and monitoring functions and confidential disclosure program. In recent years, the voluntary compliance program has addressed the potential for a variety of billing errors that might be the subject of audits and payment denials by the CMS Recovery Audit Contractors permanent project, including MS-DRG coding, outpatient hospital and physician coding and billing, and medical necessity for services (including a focus on hospital stays of very short duration). Efforts by management, through the voluntary compliance program, to identify and limit risk from these government audits have included significant policy and guidance revisions, training and education, and auditing. The Board of Directors now oversees and reviews periodic reports of our compliance with the Corporate Integrity Agreement, or CIA, that we entered into with the United States Department of Health and Human Services Office of the Inspector General during 2014.

For the past several years, our Board of Directors has met monthly to review the status of the lawsuits and investigations relating to allegations of improper billing for inpatient care at our hospitals and to oversee management in connection with our investigation and defense of these matters. Following the consummation of the HMA merger, these meetings have been expanded to include the review and oversight of the legal proceedings related to HMA that are covered by the CVR. The independent members of our Board of Directors remain fully engaged in the oversight of these matters.

Item 1A. Risk Factors

The Company hereby supplements the Company's risk factors previously disclosed in the 2015 Form 10-K by adding the following risk factors:

The Company's Stockholder Protection Rights Agreement could delay or prevent a change in control of the Company, which could have a negative effect on the price of the Company's common stock.

The Board of Directors of the Company adopted a Stockholder Protection Rights Agreement on October 3, 2016. Under the terms of the Stockholder Protection Rights Agreement, any person (together with certain affiliated persons) that acquires 15% or more of the Company's common stock could suffer substantial dilution of its ownership interest in the Company through the issuance of a large amount of stock to shareholders other than the acquiring person.

Our Stockholder Protection Rights Agreement was adopted in order to prevent the accumulation of a potentially controlling block of the Company's common stock pending our exploration of potential strategic options and alternatives. However, our Stockholders Protection Rights Agreement may impede an attempt to acquire a significant or controlling ownership interest in the Company, and may prevent or make more difficult takeovers or unsolicited corporate transactions involving the Company not supported by our Board of Directors, even if such a transaction were considered beneficial by some of our stockholders.

There can be no assurance that our exploration of strategic alternatives will result in any transaction, and exploration of strategic alternatives may impact our ability to pursue other opportunities.

As initially disclosed on September 19, 2016, we announced that, with the assistance of advisors, we are exploring a variety of options with financial sponsors, as well as other potential alternatives. The discussions are at a very preliminary stage and there is no timeline established for this review. There can be no certainty that the exploration will result in any kind of transaction. In addition, the process of exploring strategic alternatives could involve the dedication of significant resources, including the time and attention of our management, and the incurrence of significant costs and expenses. Moreover, uncertainty regarding the possible outcome of our exploration of strategic alternatives may increase the challenge of recruiting and retaining talented and skilled personnel. It is also possible

that potentially inaccurate market speculation regarding the outcome of the process may cause our stock to trade based on factors other than our financial and operating performance and prospects as a stand-alone company.

Table of Contents**Item 2. Unregistered Sale of Equity Securities and Use of Proceeds**

The following table contains information about our purchases of common stock during the three months ended September 30, 2016.

Period	Total Number of Shares		Average Price Paid per Share		Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(b)	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs(b)
	(a)				(b)	(b)
July 1, 2016 -						
July 31, 2016	-	\$	-	-	-	9,467,812
August 1, 2016 -						
August 31, 2016	1,046		12.52	-	-	9,467,812
September 1, 2016 -						
September 30, 2016	1,095		11.06	-	-	9,467,812
Total	2,141	\$	11.77	-	-	9,467,812

(a) Includes 2,141 shares withheld by us to satisfy the payment of tax obligations related to the vesting of restricted stock awards.

(b) On November 9, 2015, we announced the adoption of a new open market repurchase program for up to 10,000,000 shares of our common stock, not to exceed \$300 million in repurchases. The new repurchase program will expire on the earlier of November 5, 2018, when the maximum number of shares has been repurchased, or when the maximum dollar amount has been expended. No shares were repurchased under this program during the three months ended September 30, 2016.

With the exception of a special cash dividend of \$0.25 per share paid by us in December 2012, historically, we have not paid any cash dividends. Subject to certain exceptions, our Credit Facility limits the ability of our subsidiaries to pay dividends and make distributions to us, and limits our ability to pay dividends and/or repurchase stock, to an amount not to exceed \$200 million in the aggregate plus an additional \$25 million in any particular year plus the aggregate amount of proceeds from the exercise of stock options. The indentures governing our senior and senior secured notes also restrict our subsidiaries from, among other matters, paying dividends and making distributions to us, which thereby limits our ability to pay dividends and/or repurchase stock. The non-cash dividend of approximately \$695 million recorded during the nine months ended September 30, 2016 to reflect the distribution of the net assets of QHC was a permitted transaction under our Credit Facility. As of September 30, 2016, under the most restrictive test under these agreements (and subject to certain exceptions), we have approximately \$318 million remaining available

with which to pay permitted dividends and/or repurchase shares of our stock or our senior and senior secured notes.
