Lazar, Lowe, Sadana, Sooch and Wood and Ms. Richardson are each independent as defined in the applicable Marketplace Rules of the NASDAQ Stock Market, Inc. Independent directors met in executive session without the Chief Executive Officer and other non-independent directors present on four occasions during fiscal 2017.

The Nominating and Corporate Governance Committee selects director nominees based on their personal and professional integrity, depth and breadth of experience, ability to make independent analytical inquiries, understanding of our business, willingness to devote adequate attention and time to duties of the Board of Directors and such other criteria as is deemed relevant by the Nominating and Corporate Governance Committee. The Company's Corporate Governance Policy (approved by the Board of Directors) provides that the backgrounds and qualifications of the directors, considered as a group, should provide a diverse mix of experience, knowledge and skills. The Company does not have any other formal policy with respect to the diversity of our directors. The Nominating and Corporate Governance Committee considers the effectiveness of this policy and the effectiveness of the Board of Directors generally in the course of nominating directors for election.

In identifying potential director candidates, the Nominating and Corporate Governance Committee relies on recommendations made by current directors and officers. In addition, the Nominating and Corporate Governance Committee may engage a third party search firm to identify and recommend potential candidates. Finally, the Nominating and Corporate Governance Committee will consider candidates recommended by stockholders.

such stockholder, (iv) any material interest of the stockholder in such recommendation and (v) any other information that is required to be provided by the stockholder pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, in such stockholder's capacity as proponent of a stockholder proposal. Attendance at Annual Meetings

The Board of Directors encourages all directors to attend our annual meetings of stockholders if practicable. All of the directors in office at the time of the annual meeting of stockholders held on April 20, 2017 attended such meeting.

Stockholder Communications with the Board of Directors

The Board of Directors maintains a process for stockholders to communicate with the Board of Directors or with individual directors. Stockholders who wish to communicate with the Board of Directors or with individual directors should direct written correspondence to our Corporate Secretary at our principal executive offices located at 400 West Cesar Chavez, Austin, Texas 78701. Any such communication must contain (i) a representation that the stockholder is a holder of record of stock of the corporation, (ii) the name and address, as they appear on the corporation's books, of the stockholder sending such communication and (iii) the class and number of shares of the corporation that are beneficially owned by such stockholder. The Corporate Secretary will forward such communications to the Board of Directors or the specified individual director to whom the communication is directed unless such communication is deemed unduly hostile, threatening, illegal or similarly inappropriate, in which case the Corporate Secretary has the authority to discard the communication or to take appropriate legal action regarding such communication.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all officers, directors, employees and consultants. Our Code of Business Conduct and Ethics is located on our website under the "Investor Relations" page. Our website address is <http://www.silabs.com>.

Risk Management

Our Board of Directors oversees our management, which is responsible for the day-to-day issues of risk management. Such oversight is facilitated in large part by the Audit Committee, which receives reports from management, the internal audit team, and the Company's independent registered public accounting firm. In addition, members of management (including the Chief Executive Officer, Chief Financial Officer, and Chief Legal Officer) may also report directly to the Board of Directors on significant risk management issues.

Director Compensation and Indemnification Arrangements

Under the 2009 Stock Incentive Plan, on the date of the 2017 annual meeting of stockholders, the Board of Directors granted each non-employee director a Restricted Stock Unit (RSU) award that shall vest on approximately the first anniversary of the date of grant at no cost covering a number of shares of the Company s common stock equal to \$170,000 (or \$225,000 for the Chairperson of the Board) divided by the average closing price of the Company s common stock during the fourth fiscal quarter of 2016; provided that any former employee of the Company must have served as a non-employee director for at least six months in order to receive such award. Accordingly, as Chairman of the Board, Mr. Sooch received a grant of 3,576 RSUs and Messrs. Bock, Lazar, Lowe, Sadana, Wood and Ms. Richardson each received a grant of 2,702 RSUs on the date of the 2017 annual meeting of stockholders.

Cash compensation was pro-rated if the individual served less than the full year in a position.

Our certificate of incorporation limits the personal liability of our directors for breaches by them of their fiduciary duties. Our bylaws require us to indemnify our directors to the fullest extent permitted by Delaware law. We have also entered into indemnification agreements with all of our directors and have purchased directors and officers liability insurance.

In addition to the above compensation, we also reimburse non-employee directors for all reasonable out-of-pocket expenses incurred for attending board and committee meetings.

The following table provides summary information on compensation earned by each non-employee member of our Board of Directors in fiscal 2017.

FOR the election of the Nominees for Class II Directors as listed above.

PROPOSAL TWO: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Proposal Two: Ratification of Appointment of Independent Registered Public Accounting Firm

Our Audit Committee has appointed the firm of Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending December 29, 2018. Ernst & Young LLP has audited our financial statements since our inception in 1996. A representative of Ernst & Young LLP is expected to be present at the Annual Meeting, and will have an opportunity to make a statement if he or she so desires and will be available to respond to appropriate questions.

The following table presents fees for professional services rendered by Ernst & Young LLP for fiscal 2017 and 2016:

	2017	2016
	(\$)	(\$)
Audit fees	1,481,000	1,186,000
Audit-related fees	3,000	1,400
Tax fees	277,500	108,000
All other fees	2,160	2,160
Total	1,763,660	1,297,560

Audit Fees. Audit fees relate to services rendered in connection with the audits of the annual consolidated financial statements and attestation of management's report on internal controls over financial reporting included in our Form 10-K, the quarterly reviews of financial statements included in our Form 10-Q filings, fees associated with SEC registration statements, assistance in responding to SEC comment letters, accounting consultations related to audit services and statutory audits required internationally.

Audit-Related Fees. Audit-related fees include services for assurance and other related services, such as consultations concerning financial accounting and reporting matters and due diligence related to mergers and acquisitions.

Tax Fees. Tax fees include services for tax compliance, research and technical tax advice.

All Other Fees. All other fees include the aggregate fees for products and services provided by Ernst & Young LLP that are not reported under Audit Fees, Audit-Related Fees or Tax Fees.

The Audit Committee is authorized by its charter to pre-approve all auditing and permitted non-audit services to be performed by our independent registered public accounting firm. The Audit Committee reviews and approves the independent registered public accounting firm's retention to perform attest services, including the associated fees. The Audit Committee also evaluates other known potential engagements of the independent registered public accounting firm, including the scope of the proposed work and the proposed fees, and approves or rejects each service, taking into account whether the services are permissible under applicable law and the possible impact of each non-audit service

on the independent registered public accounting firm's independence from management. At subsequent meetings, the Committee will receive updates on the services actually provided by the independent registered public accounting firm, and management may present additional services for approval. The Committee has delegated to the Chairman of the Audit Committee the authority to evaluate and approve engagements on behalf of the Committee in the event that a need arises for pre-approval between Committee meetings. If the Chairman so approves any such engagements, he will report that approval to the full Audit Committee at its next meeting. During fiscal 2017, all such services were pre-approved in accordance with the procedures described above.

Our Audit Committee has reviewed the fees described above and believes that such fees are compatible with maintaining the independence of Ernst & Young LLP.

Stockholder ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm is not required by our bylaws or other applicable legal requirement. However, the appointment of Ernst & Young LLP is being submitted to the stockholders for ratification. If the stockholders fail to ratify the appointment, the Audit Committee will

PROPOSAL TWO: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

reconsider whether or not to retain the firm. Even if the appointment is ratified, the Audit Committee at its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be appropriate.

Recommendation of the Board of Directors

Upon the recommendation of our Audit Committee, our Board of Directors unanimously recommends that the stockholders vote FOR the ratification of the appointment of Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending December 29, 2018.

PROPOSAL THREE: ADVISORY VOTE ON EXECUTIVE COMPENSATION

Proposal Three: Advisory Vote on Executive Compensation

The Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted in July 2010, enables our stockholders to vote to approve, on an advisory (non-binding) basis, the compensation of our Named Executive Officers as disclosed in this Proxy Statement in accordance with the rules of the Securities and Exchange Commission.

This vote is advisory, and, therefore, not binding on the Company, the Compensation Committee, or our Board of Directors. However, our Board of Directors and our Compensation Committee value the opinions of our stockholders and to the extent there is any significant vote against the compensation of the Named Executive Officers as disclosed in this Proxy Statement, we will consider our stockholders' concerns and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

As described in detail under the heading "Compensation Discussion and Analysis," our executive compensation program is designed to attract, motivate, and retain the Named Executive Officers, who are critical to our success. Under this program, the Named Executive Officers are rewarded for the achievement of strategic and operational objectives and the realization of increased stockholder value. Please read the Compensation Discussion and Analysis and the accompanying compensation tables beginning on page 21 of this Proxy Statement for additional information about our executive compensation program, including information about the compensation of the Named Executive Officers in 2017.

The Compensation Committee regularly reviews our executive compensation program to ensure that it achieves the desired goal of aligning our executive compensation structure with the interests of our stockholders and current market practices.

We are asking our stockholders to indicate their support for the compensation of the Named Executive Officers as described in this Proxy Statement. This proposal, commonly known as a "Say-on-Pay" proposal, gives our stockholders the opportunity to express their views on the compensation of the Named Executive Officers. Please note that this vote is not intended to address any specific item of compensation, but rather the overall compensation of the Named Executive Officers and the philosophy, policies and practices described in this Proxy Statement.

We will ask our stockholders to vote **FOR** the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to the Company's Named Executive Officers as disclosed in this Proxy Statement is hereby approved.

Recommendation of the Board of Directors

Our Board of Directors unanimously recommends that the stockholders

vote FOR approval of the above resolution.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Transactions, and Director Independence

Certain Relationships and Related Transactions

Our bylaws require us to indemnify our directors and executive officers to the fullest extent permitted by Delaware law. We have entered into indemnification agreements with all of our directors and executive officers and have purchased directors and officers liability insurance. In addition, our certificate of incorporation limits the personal liability of the members of our Board of Directors for breaches by the directors of their fiduciary duties.

Our Chairman of the Board, Mr. Sooch, is Chief Executive Officer, as well as a stockholder, of Ketra, Inc., a private company in the field of solid state lighting. In fiscal 2017, we sold approximately \$0.3 million of products to Ketra in the ordinary course of business.

Policies and Procedures with Respect to Related Party Transactions

Our Audit Committee Charter requires that the members of our Audit Committee, all of whom are independent directors, review and approve all related party transactions as described in Item 404 of Regulation S-K promulgated by the SEC. We have also adopted a written policy regarding the approval of all related party transactions. Under such policy, each of our directors and executive officers must notify the Corporate Secretary (who, in turn, will provide such information to the Audit Committee) of any proposed related party transactions. To assist with the identification of potential related party transactions, we solicit information through questionnaires in connection with the appointment of new directors and executive officers and on an annual basis with respect to existing directors and executive officers. The Chairman of the Audit Committee is delegated the authority to approve or ratify any related party transactions in which the aggregate amount involved is expected to be less than \$1 million per year. All other proposed related party transactions are subject to approval or ratification by the Audit Committee except for certain categories of transactions that are deemed to be pre-approved by the Audit Committee. In determining whether to approve or ratify a related party transaction, the Audit Committee and the Chairman, if applicable, will take into account, among other factors deemed appropriate, whether the related party transaction is on terms no more favorable to the counterparty than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related party's interest in the transaction.

Our Code of Business Conduct and Ethics requires our executive officers and directors to disclose any conflicts of interest, including any material transaction or relationship involving a potential conflict of interest. No executive officer may work, including as a consultant or a board member, simultaneously for us and any competitor, customer, supplier or business partner without the prior written approval of our Chief Financial Officer or legal department. Furthermore, executive officers are encouraged to avoid any direct or indirect business connections with our competitors, customers, suppliers or business partners.

Pursuant to our Corporate Governance Policy, we expect each of our directors to ensure that other existing and future commitments do not conflict with or materially interfere with their service as a director. Directors are expected to avoid any action, position or interest that conflicts with our interests, or gives the appearance of a conflict. In addition,

directors should inform the Chairman of our Nominating and Corporate Governance Committee prior to joining the board of another public company to ensure that any potential conflicts, excessive time demands or other issues are carefully considered.

Director Independence

The Committee's responsibility is to monitor and oversee these processes.

In this context, the Committee has met and held discussions with management and the independent registered public accounting firm. Management represented to the Committee that the Company's consolidated financial statements in the Annual Report were prepared in accordance with accounting principles generally accepted in the United States, and the Committee has reviewed and discussed the consolidated financial statements in the Annual Report with management and the independent registered public accounting firm. COMPENSATION DISCUSSION AND ANALYSIS

Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides information regarding the 2017 compensation program for our principal executive officer, principal financial officer, and three other most highly compensated executive officers of the Company. For 2017, these individuals were:

G. Tyson Tuttle, our Chief Executive Officer (our CEO).

John C. Hollister, our Senior Vice President and Chief Financial Officer (CFO).

Brandon Tolany, our Senior Vice President of Worldwide Sales

Sandeep P. Kumar, PhD, our Senior Vice President of Worldwide Operations

Alessandro Piovaccari, PhD, our Chief Technology Officer

We refer to these executive officers collectively in this Proxy Statement as the Named Executive Officers or NEOs.

Here, we describe the material elements of our compensation program for the Named Executive Officers during 2017 as administered by the Compensation Committee of our Board of Directors (the Compensation Committee). This analysis also provides an overview of our executive compensation philosophy, including our principal compensation policies and practices, with respect to Named Executive Officers. Finally, it explains how and why the Compensation Committee arrived at the specific compensation decisions for our Named Executive Officers in 2017, and discusses the key factors that the Compensation Committee considered in determining their compensation.

2017 Business Results

Fiscal 2017 revenue of \$769 million grew 10% from fiscal 2016. Continued growth in IoT and Infrastructure products was the key driver of these results. Silicon Labs continued to deliver strong gross margins, of 59% in 2017, reflecting the quality of the company's products and served markets. Through disciplined management of operating expenses combined with strong revenue growth, Silicon Labs delivered 28% growth in operating income for the year. Net income declined due to higher interest expense related to the Company's convertible notes, combined with an increase in our income tax provision resulting from U.S. corporate tax reform. Headcount increased by approximately 2% from 2016 due to organic hiring and an acquisition.

Silicon Labs' cash flow from operations has been positive nearly every quarter since it went public in 2000. In fiscal 2017, the company delivered record operating cash flows of \$190 million. The company ended the year with \$770 million in cash, cash equivalents and investments, and is well-positioned to execute on its capital deployment strategy focusing on M&A and share repurchases.

2017 Business Highlights

IoT products grew 26% year-on-year, exceeding expectations, and representing 51% of total 2017 revenue, up from 45% in 2016. Silicon Labs' wireless products led these results, with growth outpacing the overall market.

Infrastructure grew 7% year-on-year, falling short of expectations due to macro weakness in optical networking impacting our timing products, offset by robust performance by our isolation products. During 2017, the company's infrastructure products benefited from continued widespread adoption of its isolation products in industrial and automotive markets.

Broadcast product revenues also exceeded expectations in 2017, declining only 3% for the year. Reductions in TV tuner ASPs drove a decline in Broadcast consumer product revenue despite increasing market share, with some offset by growth in automotive radio products.

COMPENSATION DISCUSSION AND ANALYSIS

Access declined 11%, consistent with expectations.

Participation in the Industrial end market grew to roughly half of 2017 revenue, up from approximately 40% in 2016.

Worldwide distribution revenue increased to 73% of total revenue, up 16% from 2016.

The company's customer count increased by more than 15% to 35,000.

Significant Executive Compensation Actions

Our Compensation Committee, which consists entirely of independent directors, sets the compensation of our Named Executive Officers. For 2017, the Compensation Committee took the following actions with respect to the compensation of our Named Executive Officers:

Increased base salaries for Messrs. Tuttle and Hollister to bring them to the approximate median level of the market data (as adjusted to reflect the factors described under "Compensation-Setting Process" below).

Approved cash incentive bonus targets tied to our 2017 financial performance (such awards to our continuing Named Executive Officers ultimately paid out at 107.9% of target for Messrs. Tuttle, Hollister and Dr. Kumar, at 119.9% of target for Mr. Tolany and at 98.2% of target for Dr. Piovaccari).

Approved long-term incentive compensation, in the form of a combination of Restricted Stock Units (RSUs), Performance Shares (PSU), and Market Stock Units (MSU) to further align the incentives of the executives and stockholders, retain key employees, and reward performance.

We extended stock ownership guidelines beyond our CEO to include our CFO and other executive officers. The CFO is required to hold equity with a value of three times his base salary. Other Section 16 officers will be required to hold equity with a value of one times base salary. A phase-in period will be allowed in all cases.

We prohibited pledging of the Company's securities.

Significant Corporate Governance Standards

We have endeavored to maintain high standards in our executive compensation and governance practices. The following policies remained in effect in 2017:

We do not provide excise tax gross-ups in the event of a change in control.

We have stock ownership guidelines for our CEO and CFO that require the holding of our equity with a value equal to a multiple of three times their base salary (following a phase-in period). Other NEOs will be required to hold equity with a value of one time their base salary (following a phase-in period).

All change in control agreements contain double trigger (rather than single trigger) change in control provisions.

We have stock ownership requirements for our Board of Directors to require the holding of our equity with a value equal to three times their annual cash retainer following a phase-in period.

We do not provide significant perquisites or other personal benefits to our executive officers. Other than an annual physical examination paid for by the Company, our executive officers participate in broad-based company-sponsored health and welfare benefits programs on the same basis as our other full-time employees.

We have operated with the roles of Chairman of the Board and Chief Executive Officer separated for several years. We also have a Lead Independent Director on our Board.

We do not offer retirement plans or nonqualified deferred compensation plans or arrangements to our executive officers, other than the 401(k) plan offered to our other salaried full-time employees.

The compensation consultant engaged by the Compensation Committee does not provide any other services to the Company.

COMPENSATION DISCUSSION AND ANALYSIS

We conduct an annual review of our compensation programs for executive officers and other employees to assess the level of risk associated with those programs and the effectiveness of our policies and practices for monitoring and managing these risks.

We have a recoupment (or clawback) policy to provide for recovery of incentive compensation from any executive officer whose fraud or willful misconduct results in a restatement of our financial results.

Compensation Philosophy

Our executive compensation program supports our long-term strategic and operational goals. It is intended to attract, motivate, and retain talented individuals to serve as our executive officers. The Compensation Committee designs the various components of our executive compensation program to be market competitive and support growth and profitability objectives while remaining aligned with our culture.

We hold our executives to high performance standards and our compensation plans for our CEO and other Named Executive Officers are designed to deliver competitive base pay and attractive incentive opportunities if performance is outstanding while delivering significantly lower actual compensation when performance is below our rigorous standards. To this end, a significant portion of target compensation for our executives is designed to be at risk.

Salaries are compared not only to our peer group listed below, but also to data from Radford Technology survey. Our target for salaries, considering data from each source, is market competitive. Our cash incentive plan, discussed below, is based on achieving corporate targets including financial targets with MBO targets for two of our Named Executive Officers. This plan targets above-market awards when the Company is performing and places cash incentives at risk when performance targets are not achieved. See also Cash Incentive Bonus below.

In our equity program, in addition to time-based RSUs, we use two forms of performance shares, MSUs and PSUs, to maintain high performance standards in our long-term incentive plan. Our use of MSUs began in 2012 and has consistently been part of our long-term incentive strategy. We require significant levels of performance in terms of Total Shareholder Return (or TSR) relative to the Philadelphia Semiconductor Index (XSOX or Index) for MSUs to be earned at target levels.

In addition to MSUs, we use PSUs to incentivize and reward operational focus on revenue growth. With a target at 10% revenue growth year-over-year, PSUs provide zero reward for 5% or less revenue growth and, conversely, pays 200% of target upon achieving 15% revenue growth. The revenue growth factor is prorated for revenue growth between 5% and 15% (i.e. if revenue growth is 9%, the revenue growth factor of 80% is applied to determine the PSU result). We believe these performance awards appropriately focus our executives on operational activities that drive sustained performance and growth.

This equity approach provides a strong alignment between pay-for-performance, operational results and retention of key executive talent. The design appropriately establishes a clear focus on TSR and year-over-year revenue growth. As such, our compensation program provides modest compensation when longer-term performance is below expectations. We believe that this approach optimally aligns the interests of management and our stockholders and results in the greatest emphasis on long-term stockholder value creation. For more information on the design of our equity programs and for awards granted in 2017, see [Long-term Incentives Equity Awards](#) below.

Compensation-Setting Process

Role of Compensation Committee. The Compensation Committee is responsible for administering our executive compensation program, as well as determining and approving the compensation for our Named Executive Officers. The Compensation Committee regularly reports to our Board of Directors on its deliberations and actions.

The Compensation Committee uses a balanced approach to set the compensation of our executive officers, with each primary direct component of compensation (base salary, annual cash incentive bonus, and long-term incentive compensation) designed to play a specific role in achieving this objective. The Compensation Committee determines the

COMPENSATION DISCUSSION AND ANALYSIS

compensation of each executive officer with respect to each compensation component based, in part, on its own analysis of competitive market data and the recommendations of our CEO, both as described below. Additionally, the Compensation Committee periodically reviews whether our compensation policies and practices create any risks reasonably likely to have a material adverse impact on the Company and the steps that have or should be taken to monitor and mitigate such risks.

The Compensation Committee exercises its own judgment in making its compensation decisions and may accept or reject our CEO's recommendations. In addition, the Compensation Committee receives input from its compensation consultant and meets in executive session (without our CEO present) prior to making its final determinations regarding compensation.

Differences in compensation among our executive officers are the result of the Compensation Committee's exercise of its judgment, following its review of our CEO's recommendations, its analysis of competitive market data and its consideration of overall Company performance, competitive pressures, business conditions, the value of current equity holdings and the potential financial impact of its compensation decisions. The key factors in the variance in compensation levels among our executive officers are differences in the competitive market data for each position and differences in each executive officer's individual performance.

In determining the compensation of our CEO, the Compensation Committee consults with the other independent members of our Board of Directors, assesses our CEO's individual performance, and considers competitive market data and the other factors described above.

For our Named Executive Officers, the Committee targets a market competitive range for base salaries and targets a range between 65th and 75th percentile in total direct compensation when our stringent performance targets are achieved. The factors described above provide the framework for compensation decision-making and final decisions regarding the compensation opportunity for each Named Executive Officer. No single factor was determinative in setting pay levels, nor was the impact of any factor on the determination of pay levels quantifiable.

The Committee also noted that our stockholders approved our executive compensation practices pursuant to the advisory vote at our 2017 annual stockholders meeting, and the Committee believes that our compensation practices are at least as favorable to the Company as those that were previously approved.

Role of Management. In carrying out its responsibilities, the Compensation Committee works with members of our management, including our CEO. Typically, our management assists the Compensation Committee by providing information on Company performance and its perspective on compensation matters. Our CEO generally attends Compensation Committee meetings (except with respect to discussions involving his own compensation).

Our CEO formulates recommendations regarding our executive officers' compensation (except for his own compensation) for the Compensation Committee. These recommendations are based on a review of the competitive market data developed by the Compensation Consultant, his performance evaluation of each executive officer and other considerations, including competitive pressures, business conditions, the value of current equity holdings, each

individual's tenure, compensation history, prior experience, distinctive value to the Company, variances in job responsibilities relative to similarly titled executives at other companies, the appropriate mix of compensation components, the Company's overall performance and the potential financial impact (including dilution and compensation cost) associated with their compensation. Our CEO does not use a specific formula to weight these various factors.

Our CEO conducts this assessment with the assistance of our Chief People Officer. Our CEO then makes formal recommendations to the Compensation Committee regarding adjustments to base salary, annual cash incentive bonus opportunities and equity awards for our executives (except with respect to his own compensation). Our CEO also recommends performance measures and related target levels for annual cash incentive bonus and equity awards (except with respect to his own compensation).

While the Compensation Committee solicits and reviews our CEO's recommendations and proposals with respect to compensation-related matters, the Compensation Committee only uses these recommendations and proposals as one factor in making its own compensation decisions for our executive officers.

COMPENSATION DISCUSSION AND ANALYSIS

Role of Compensation Consultant. The Compensation Committee is authorized to retain the services of compensation consultants and other advisors from time to time, as it sees fit, in connection with the administration of our executive compensation programs.

The Compensation Committee retained Compensia, Inc., a national compensation consulting firm providing executive compensation advisory services (Compensia), to provide competitive market data and analysis regarding material elements of compensation, including base salary, cash incentives and equity incentives. Compensia served at the discretion of the Compensation Committee. Compensia did not provide any other services to the Company in 2017.

With the approval of the Compensation Committee, Compensia also provides our CEO and our Chief People Officer with market data regarding compensation for our executive officers so that our CEO's compensation recommendations to the Compensation Committee are consistent with our compensation philosophy.

Competitive Positioning. The Compensation Committee believes it is in the best interests of our stockholders to ensure that our executive compensation is competitive with that of other companies of similar size and complexity. In late 2016, the Compensation Committee directed Compensia to use data gathered from the 2016 Radford Executive Compensation Survey and publicly-available information from the following companies to identify and analyze the competitive market for 2017 executive compensation:

Cavium Inc.	InvenSense
Cirrus Logic	Lattice Semiconductor Corp.
Cree	MaxLinear
Cypress Semiconductor Corporation	Microsemi Corporation
Diodes Incorporated	Monolithic Power Systems Inc.
Inphi	Power Integrations Inc.
Integrated Device Technology, Inc.	Semtech Corporation
Intersil Corporation	Synaptics Incorporated

Compensation Elements

The primary direct components of our executive compensation program are base salary, annual cash incentive bonus and equity awards. The Compensation Committee does not use a prescribed formula for allocating compensation between annual and long-term compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

Base Salary. The 2017 base salaries are set forth in the following table:

Named Executive Officer	2016	Percentage	2017
-------------------------	------	------------	------

	Base Salary	Increase	Base Salary
	(\$) ⁽¹⁾		(\$)
G. Tyson Tuttle	600,000	4.3%	626,000
John C. Hollister	360,000	3.3%	372,000
Brandon Tolany	375,000		375,000
Sandeep P. Kumar	340,000		340,000
Alessandro Piovaccari	340,230		340,230

(1) The actual base salaries paid to the Named Executive Officers during 2017 are set forth in the Summary Compensation Table below.

Annual Cash Incentive Bonus. Each year, the Compensation Committee adopts a bonus plan (the Bonus Plan) to reward exceptional performance and align the financial incentives of our Named Executive Officers with our short-term operating plan and long-term strategic objectives and the interests of our stockholders. The Compensation Committee

COMPENSATION DISCUSSION AND ANALYSIS

approves the design, structure, and performance objectives, as well as each objective's relative weighting, under the Bonus Plan. The Compensation Committee designs the Bonus Plan to pay each Named Executive Officer up to 150% of his target annual cash incentive bonus opportunity for outstanding performance. Consistent with our pay-for-performance philosophy, however, no payment is guaranteed if an executive officer fails to meet the minimum established performance objectives for his award opportunity under the Bonus Plan.

Typically, the Compensation Committee establishes one or more corporate financial metrics tied to our annual operating plan as the principal measures for determining each executive officer's annual cash incentive bonus. For 2017, consistent with our business strategy, the Compensation Committee established adjusted revenue, adjusted operating income as a percentage of adjusted revenue and adjusted margin as the principal corporate financial metrics. For this purpose, adjusted revenue and adjusted margin percentage and adjusted operating income mean revenue gross margin and operating income (as a percentage of adjusted revenue) as determined under generally accepted accounting principles modified for intangible asset amortization, acquisition-related items, termination costs and impairments. These adjusted measures more clearly highlight the results of core ongoing operations. For purposes of cash incentive bonuses, the Compensation Committee reserves the authority to determine whether to exclude any item when making adjustments from the corresponding GAAP metric.

To reflect their functional roles and responsibilities, the Compensation Committee established corporate financial metrics as set forth in the table below for the purpose of determining the annual cash incentive bonuses, for the Named Executive Officers. With respect to revenue and adjusted operating income, the percentage payout was determined using a sliding scale based on actual performance, with no minimum payout and a maximum payout of 150% of the executive's target annual cash incentive bonus opportunity for above-target performance. The plan allowed for 100% payout at 100% of plan target. For the adjusted revenue component, there was a decreasing scale to 10% at 90% of plan target, no payment below 90% of target and a maximum payout of 150% at 110% of target. For the adjusted margin and operating income components, there was a decreasing scale to 10% at 80% of plan target, no payment below 80% of target and a maximum payout of 150% at 120% of target.

For 2017, the target annual cash incentive bonus opportunities and the relative weighting of the corporate financial metrics in their capacities as Named Executive Officers were as follows:

Named Executive Officer	Target Annual Cash Incentive Award Opportunity (as a Percentage of Base Salary) (%)	Performance Metrics	Weighting %
G. Tyson Tuttle	125%	Adjusted Revenue	50%
		Adjusted Operating Income %	50%
John C. Hollister	85%	Adjusted Revenue	50%
		Adjusted Operating Income %	50%

Brandon Tolany	100%	Adjusted Revenue	75%
		MBO	25%
Sandeep P. Kumar	75%	Adjusted Revenue	50%
		Adjusted Margin %	50%
Alessandro Piovaccari	75%	Adjusted Revenue	25%
		Adjusted Operating Income %	25%
		MBO	50%

Award Decisions and Analysis. To ensure a direct correlation between our short-term performance and our actual business results, the Compensation Committee makes quarterly payments to our Named Executive Officers under the Bonus Plan. Each fiscal quarter, bonus payments are made to the extent we have achieved our pre-established corporate financial metrics.

COMPENSATION DISCUSSION AND ANALYSIS

Our Board of Directors and the Compensation Committee may exercise discretion either to make payments absent attainment of the relevant performance metric target levels or to reduce or increase the size of any award payment. Neither the Board of Directors nor the Compensation Committee exercised such discretion in 2017.

For each of the Named Executive Officers, the portion of his target annual cash incentive bonus opportunity that was attributable to these corporate financial metrics was allocated over the four fiscal quarters of 2017 in proportion to the amount of revenue that we estimated we would generate in each such quarter as reflected in our 2017 annual operating plan approved by our Board of Directors. Our Board of Directors established quarterly target levels with respect to the annual operating plan for each of the corporate financial metrics. We set these target levels to be very challenging this year and, as a result, set a higher incentive for achieving the plan.

Messrs. Tuttle, Hollister and Dr. Kumar's bonus payments were directly tied to the achievement of our corporate financial metrics. Mr. Tolany and Dr. Piovaccari's bonus targets included both corporate financial metrics and a functional Management Bonus Objective (MBO) component. MBO payments are based on the achievement of individual goals, which are designed to support our short and long term corporate objectives.

Mr. Tuttle's cash incentive bonus was based solely on Company financial targets with 50% of the incentive based on Adjusted Revenue and 50% based on Adjusted Operating Income. The Adjusted Revenue portion of his bonus paid out at 109.6% of target and Adjusted Operating Income paid out at 106%. This resulted in a total bonus payout of 107.9%

Mr. Hollister's cash incentive bonus also was based solely on Company financial targets with 50% of the incentive based on Adjusted Revenue and 50% based on Adjusted Operating Income. The Adjusted Revenue portion of his bonus paid out at 109.6% of target and Adjusted Operating Income paid out at 106%. This resulted in a total bonus payout of 107.9%

Mr. Tolany's cash incentive bonus metrics also included financial and MBO targets. Mr. Tolany's incentive was based 75% on adjusted revenue, where he achieved 109.6% of his target for 2017, and also included an MBO with respect to 25% of the total cash incentive bonus. His MBO targets were based on quarter over quarter growth in design wins and lifetime revenue associated with those wins. Mr. Tolany received a score of 150% for his MBO target achievement in 2017, making his total incentive achieved 120% for the year.

Dr. Kumar's cash incentive bonus was based solely on Company financial targets with 50% of the incentive based on Adjusted Revenue and 50% based on Adjusted Margin. The Adjusted Revenue portion of his bonus paid out at 109.6% of target and the Adjusted Margin portion paid out at 105%. This resulted in a total bonus payout of 107.4%.

Dr. Piovaccari's cash incentive bonus metrics included both Company financial and individual MBO targets. With respect to his financial targets, the cash incentive bonus was based on 25% on adjusted revenue and 25% on adjusted operating income; these portions of his target cash incentive bonus paid out at 109.6% and 106%, respectively. Dr. Piovaccari's MBO, based on timely product launches in 2017, informed 50% of his bonus. Dr. Piovaccari received a score of 88.3% for his MBO and his total incentive achieved was 98% for 2017.

Appendix I provides a reconciliation of GAAP and non-GAAP executive compensation financial measures and shows the corporate financial metric targets and actual performance against those targets for 2017.

The resulting payments to the continuing Named Executive Officers were as follows:

Named Executive Officer	Target Bonus as a Percent of Base Salary (%)	Actual Bonus as a Percent of Base Salary (%)
G. Tyson Tuttle	125%	134.9%
John C. Hollister	85%	91.7%
Brandon Tolany	100%	119.9%
Sandeep P. Kumar	75%	80.5%
Alessandro Piovaccari	75%	73.6%

COMPENSATION DISCUSSION AND ANALYSIS

The cash incentive bonus paid to the Named Executive Officers during 2017 are set forth in the Summary Compensation Table below under the heading Non-Equity Incentive Plan Compensation.

Long-Term Incentive Equity Awards. The Compensation Committee uses long-term incentive compensation, typically in the form of equity awards, for our Named Executive Officers, to retain talent, to align their interests with the interests of our stockholders and to provide incentives that we believe encourage behaviors that will maximize stockholder value. For 2017, the Compensation Committee approved the use of a mix of MSUs, PSUs and RSUs.

MSU Awards. Since 2011 we have awarded MSUs that compare our TSR against the XSOX. For MSU awards granted prior to 2017, a payment equal to the target number of units can only be earned if our TSR exceeds the TSR results of the Index by 25 points. Where our TSR is either greater or lower than the Index results, payment is scaled 1.54 to 1, as shown in MSU Scale A.

MSU Scale A

SLAB TSR%	Payout	
<u>minus</u>	% of Target	
Index TSR%	MSUs	Comment
90+	200.0%	To earn the maximum award, SLAB TSR must exceed Index TSR by 90 points
70	169.3%	
50	138.5%	
30	107.7%	
25	100.0%	To earn the target MSU award, SLAB TSR must exceed Index TSR by 25 points
20	92.3%	
10	76.9%	
0	61.5%	If SLAB TSR matches the Index TSR, MSUs are earned at 61.5% of Target
-20	30.8%	
-30	15.4%	
-40 or worse	0.0%	If SLAB TSR is more than 40 points below the Index TSR no MSUs are earned

For MSU awards granted in 2017, a payment equal to the target number of units can be earned if our TSR is equal to the results of the XSOX. Payment is scaled 2 to 1 if our TSR exceeds the XSOX, and 3 to 1 when our TSR is lower than the XSOX, as shown in MSU Scale B.

MSU Scale B

SLAB TSR%	Payout

-20	40%	
-30	10%	
-33.34 or worse	0.0%	If SLAB TSR is more than 33.34 points below the Index TSR no MSUs are earned

COMPENSATION DISCUSSION AND ANALYSIS

Our MSUs include the following features:

Cap on MSU payouts if TSR is negative. Our Compensation Committee included a cap on MSU payouts such that in the event our TSR is negative, the maximum payout under the MSUs would be 100% of the target award (regardless of the amount of TSR outperformance relative to the XSOX). This feature was added to reflect leading best practices in program design and to further strengthen the program from a pay-for-performance and shareholder alignment perspective.

One- and two-year measurement points. In order to further promote sustained performance and to support multi-year retention, our awards provide an opportunity for our executives to bank up to one-third of their target award based on relative TSR performance after one- and two-years. The remaining one-third of the target award opportunity and all potential upside opportunity remains reserved for the three-year measurement period. All shares earned or banked are settled at the end of the three-year period to maximize the retentive value of the awards. Pursuant to the payment scale above, in order for the target number of shares to be banked for one- or two- year performance, our TSR must exceed that of the XSOX by 25 points or more in the applicable performance period for grants prior to 2017. For grants in 2017, our TSR must equal that of the XSOX in the applicable performance period. Grants prior to 2017 continue to be measured using MSU Scale A. MSU grants made in 2017 are measured using MSU Scale B.

PSU Awards. The Compensation Committee granted PSUs in 2017 to align our executive s incentives with our revenue growth expectations. The PSUs measure revenue during a single fiscal year relative to revenue for the preceding fiscal year. The number of eligible PSUs is a product of the (a) target number of units and (b) the revenue growth factor. The revenue growth factor is scaled on a performance matrix where 5% or less revenue growth results in zero units, 15% or greater revenue growth results in 200% of the target units and with straight line scaling between 5% and 15% revenue growth. Accordingly, less than 10% revenue growth results in below-target units. The eligible PSUs vest after three years of service following the date of grant.

RSU Awards. The RSUs awarded in 2017 provide a retention incentive and align the interests of our executive officers with those of our stockholders. These RSUs generally vest as to the underlying shares of common stock in three annual installments on each anniversary of the date of grant.

The Named Executive Officers were granted the following MSU, PSU and RSU awards during 2017:

Named Executive Officer	Performance Awards	Grant Date Fair Value (\$)	RSU Awards

CEO Pay Ratio

The CEO Pay Ratio analysis is a required disclosure enacted by the Securities and Exchange Commission (SEC) pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act).

A reasonable estimate was prepared of our CEO s annual total compensation for fiscal year 2017 to that of all other full-and part-time Company employees for the same period. The calculation of all employees compensation was determined in the same manner as the Total Compensation shown for our CEO in the Summary Compensation Table with some adjustments necessary to report all amounts in US currency. The calculations do not use the SEC-permitted exclusions for small sites or the application of cost-of-living adjustments for non-US locations. Our employees do not work in locations where data privacy rules prohibit the inclusion of their compensation data in this analysis. Due to

differences in permissible methodologies as well as certain exclusions and use of estimates and assumptions, the pay ratio reported by other companies may not be comparable to the pay ratio reported below.

Pay elements included in the annual total compensation for each employees may include all or some of the following:

Base salary including 13th month payments

Bonus, including quarterly profit sharing, annual MBO, recruiting referral bonuses, and ad-hoc bonuses earned via outstanding performance or for international travel

Sales commissions

Benefits, as provided to eligible roles in certain markets such as Company-paid life insurance premiums, car allowances or reimbursement for Company-paid executive physicals

COMPENSATION DISCUSSION AND ANALYSIS

Long term incentives including RSUs and Restricted Cash Awards (RCAs) as provided to eligible roles in certain markets.

Our calculations were prepared based on our active headcount as of December 31, 2017.

We determined the compensation of our median employees by calculating the total annual compensation using the applicable components above, ranking employees (excluding our CEO) from highest to lowest paid and identifying the median employee.

The total annual compensation for our CEO was \$6,874,675 and our median employee was \$130,891. The resulting ratio is 51.8 to 1.

Post-Employment Compensation

The equity awards granted to our Named Executive Officers under the Company's 2009 Stock Incentive Plan, as amended and restated on April 20, 2017, and Change in Control Agreements approved by the Board on October 20, 2016 provide for accelerated vesting of any unvested shares in the event that (i) such equity awards are not assumed or replaced by the acquiring entity in connection with a change in control of the Company or (ii) the Named Executive Officer is demoted, relocated, or terminated other than for misconduct within the period beginning upon the earlier of our execution of a definitive agreement that results in a change in control or 90 days prior to a change in control and ending 18 months following the change in control transaction. We have provided for this treatment based on our belief that such treatment ensures that the executive officers remain focused on their responsibilities in the event of a potential transaction that will result in a significant benefit to our stockholders. Additionally, the Change in Control Agreements provide twelve months of base salary, target bonus and twelve months of COBRA should said events take place. The terms and conditions of these change in control provisions are provided at a level that the Compensation Committee believes to be comparable to those of companies of similar size in our industry sector.

Welfare, Retirement, and Other Benefits

Welfare Benefits. The Company maintains an array of benefit programs to meet the health care and welfare needs of our employees, including medical and prescription drug coverage, dental and vision programs, medical and dependent care flexible spending accounts, short-term disability insurance, long-term disability insurance, accidental death and dismemberment insurance, and group life insurance, as well as customary vacation, paid holiday, leave of absence and other similar policies. Our executive officers, including the Named Executive Officers, participate in these benefit programs on the same general terms as all of our salaried employees.

Retirement Benefits. The Company has established a tax-qualified Section 401(k) retirement savings plan for our employees. Our executive officers, including the Named Executive Officers, are eligible to participate in this plan on the same general terms available to all of our full-time employees. Currently, plan participants are provided with matching contributions that are subject to time-based vesting conditions. It is intended that this plan qualify under

Section 401(a) of the Internal Revenue Code so that contributions by participants to the plan, and income earned on plan contributions, are not taxable to participants until withdrawn from the plan. Our executive officers, including the Named Executive Officers, do not receive any retirement benefits beyond those generally available to our full-time employees.

Perquisites and Other Personal Benefits. In addition to the general welfare benefits described above, the Compensation Committee has determined that we provide our executive officers, including the Named Executive Officers, with an annual physical examination beyond the benefit provided under our standard health care plans.

The Compensation Committee does not view perquisites or other personal benefits as a significant component of our executive compensation program and, except as described in the preceding paragraph, did not provide any perquisites or other personal benefits to our executive officers during 2017.

COMPENSATION DISCUSSION AND ANALYSIS

Income Tax and Accounting Considerations

Deductibility of Executive Compensation. In determining which elements of compensation are to be paid, and how they are weighted, the Compensation Committee takes into account the implications of Section 162(m) of the Internal Revenue Code (Section 162(m)). Generally, Section 162(m) prohibits us from taking a federal income tax deduction for remuneration in excess of \$1 million paid to our CEO and each of the other three most highly-compensated executive officers of the Company in a taxable year (not including the CFO for taxable years ending on or before December 31, 2017). For taxable years ending on or before December 31, 2017, remuneration in excess of \$1 million may be deducted if, among other things, it qualifies as performance-based compensation within the meaning of the Internal Revenue Code. In this regard, the compensation income realized upon the exercise of stock options and settlement of other performance-based equity awards granted under a stockholder-approved equity incentive plan generally will be deductible so long as the awards are granted by a committee whose members are non-employee directors and certain other conditions are satisfied.

Under federal tax legislation enacted on December 22, 2017 and effective for taxable years beginning on or after January 1, 2018, the exemption from the \$1 million deduction limit for performance-based compensation has been repealed, and the persons treated as covered employees subject to the deduction limit have been expanded to include our CFO, as well as our CEO and our other three most highly-compensated Named Executive Officers. Further, any executive officer who was a covered employee for any taxable year beginning after December 31, 2016 will continue to be treated as a covered employee in all future years. The prior Section 162(m) provisions will, however, continue to apply to remuneration paid pursuant to binding written contracts in effect on November 2, 2017 and that are not materially modified after that date.

The Compensation Committee believes that its primary responsibility is to provide a compensation program to meet our stated business objectives and accordingly the Company reserves the right to pay compensation that is not tax-deductible if it determines that such a payment is in the best interests of the Company and our stockholders.

Accounting Treatment of Executive Compensation. The Company follows Financial Accounting Standards Board Accounting Standards Codification Topic 718 (ASC Topic 718), formerly known as SFAS 123(R), for our stock-based awards. ASC Topic 718 requires companies to measure the compensation cost for all stock-based awards made to employees (including our executive officers) and directors, including stock options and restricted stock awards, based on the grant date fair value of these awards. This calculation is performed for accounting purposes and reported in the compensation tables below, even though our executive officers may never realize any value from their awards. ASC Topic 718 also requires companies to recognize the compensation cost of their stock-based awards in their income statements over the period that an executive officer is required to render service in exchange for his or her award.

Compensation Committee Report on Executive Compensation

We, the Compensation Committee of the Board of Directors, have reviewed and discussed the Compensation Discussion and Analysis within the Executive Compensation section of this Proxy Statement with the management of

the Company. Based on such review and discussion, we are of the opinion that the executive compensation policies and plans provide appropriate compensation to properly align Silicon Labs' performance and the interests of its stockholders through the use of competitive and equitable executive compensation in a balanced and reasonable manner, for both the short-and long-term. Accordingly, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included as part of this Proxy filing.

Potential Payments Upon Termination upon Change in Control

Consistent with practices within our industry, we also provide certain post-employment termination benefits. We have implemented these programs in order to ensure we are able to continue to attract and retain top talent as well as ensure that during the uncertainty associated with a potential change in control or succession plan, the executives remain

focused on their responsibilities and ensure a maximum return for our stockholders.

Change in Control Agreements. In October 2016, we entered into Change in Control Agreements with Messrs. Tuttle, Hollister Tolany and Drs. Kumar and Piovaccari. Each of the Change in Control Agreements is effective until October 31, 2019. Each Change in Control Agreement provides for the following potential payments and benefits upon a Change in Control Termination (as defined in the agreement): (a) 100% of annual base salary, (b) 100% of target variable compensation for a full fiscal year, (c) stock options, restricted stock, and restricted stock units shall become fully vested, (d) market stock units and performance stock units shall be vested at 100% of the target value, and (e) a lump sum equal to the pre-tax cost of 12 months of continued COBRA coverage after the deduction for tax withholding. Change in Control Termination occurs if the executive officer is demoted, relocated, or terminated other than for misconduct within the period beginning upon the earlier of our execution of a definitive agreement that results in a change in control or 90 days prior to a change in control and ending 18 months following the change in control transaction.

Equity Compensation. At our 2009 annual stockholders meeting, our stockholders approved the 2009 Stock Incentive Plan (the 2009 Plan) and the 2009 Plan became effective immediately. On April 15, 2014, our stockholders approved amendments of the 2009 Plan. The amendments updated the 2009 Plan to comply with changes in local laws, authorized additional shares of common stock for future issuance, improved the Company s corporate governance, and implement

COMPENSATION DISCUSSION AND ANALYSIS

other best practices. The 2009 Plan was subsequently amended and restated on April 20, 2017 upon approval by our stockholders, in order to authorize additional shares of common stock for future issuance under the 2009 Plan, to establish limits on the value of awards that may be granted to our non-employee directors in any calendar year, to comply with changes in applicable law and to make certain other administrative changes. Under our prior 2000 Stock Incentive Plan (the 2000 Plan), no shares remain issuable except for those that were subject to outstanding awards as of the date of approval of the 2009 Plan. The 2009 Plan and the 2000 Plan (together, the Plans) govern the equity awards granted to our Named Executive Officers and other participants.

The Plans include the following general change in control provisions, which may result in the accelerated vesting of outstanding stock options and stock awards:

Automatic Acceleration of Awards if not Assumed: In the event that we experience a change in control, the vesting of outstanding equity awards will automatically fully accelerate and any transfer restrictions or repurchase rights will lapse, unless the awards are assumed or replaced by the successor company or otherwise continued in effect.

Discretionary Acceleration of Awards: Our Compensation Committee, as plan administrator of the Plans, has the authority to accelerate the vesting of all outstanding equity awards at any time, including in the event of a change in control of the Company, by means of a hostile take-over or otherwise, whether or not those awards are assumed or replaced or otherwise continued in effect. Under the 2000 Plan, any options so accelerated shall remain exercisable until the expiration or sooner termination of the option term in the case of a hostile take-over.

Acceleration Upon Termination After a Change in Control: During a change in control, our Compensation Committee may provide for the acceleration of vesting if a participant (including a Named Executive Officer) is involuntarily terminated within a period of 18 months following a change in control. Pursuant to this authority, the terms of the stock options and stock awards granted to the Named Executive Officers and other participants under the Plans provide for such acceleration in vesting in the event of involuntary termination within 18 months following a change in control. Under the 2000 Plan, any options so accelerated shall remain exercisable until the earlier of (i) one year from the date of the participant's termination and (ii) the expiration of the option term in the case of a change of control, and until the expiration or sooner termination of the option term in the case of a hostile take-over. Involuntary Termination includes termination by the successor company for reasons other than misconduct or resignation by the individual following a material reduction in duties, a material reduction in compensation, or involuntary relocation.

The following table depicts potential compensation arrangements with our NEOs as a result of a change in control that subsequently results in involuntary termination. Such termination is assumed to occur on December 29, 2017, the last business day of our fiscal 2017.

Section 16(a) Beneficial Ownership Reporting Compliance

The members of our Board of Directors, the executive officers and persons who hold more than 10% of our outstanding common stock are subject to the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934 which require them to file reports with respect to their ownership of the common stock and their transactions in such common stock. Based upon (i) the copies of Section 16(a) reports which we received from such persons for their fiscal 2017 transactions in the common stock and their common stock holdings and (ii) the written representations received from one or more of such persons, we believe that all reporting requirements under Section 16(a) for such fiscal year were met in a timely manner by our directors, executive officers and greater than 10% beneficial owners, other than a Form 3 timely filed by Dr. Piovaccari on November 29, 2017 that incorrectly reported his holdings of Company common stock as 20,510 shares instead of 23,678 shares.
