**Overview**

We are a commercial-stage diagnostics company committed to reducing healthcare costs and improving patient care through the provision of innovative tests within established markets. Our initial focus is on blood grouping and donor disease screening, which is commonly referred to as transfusion diagnostics. Blood grouping involves specific procedures performed at donor or patient testing laboratories to characterize blood, which includes antigen typing and antibody detection. Disease screening involves the screening of donor blood for unwanted pathogens using two different methods, a serological approach (testing for specific antigens or antibodies) and a molecular approach (testing for DNA or RNA).

We have over 30 years of experience developing, manufacturing and commercializing conventional reagent products used for blood grouping within the global transfusion diagnostics market. We are developing MosaiQ, our proprietary technology platform, to better address the comprehensive needs of this large and established market. MosaiQ will initially comprise two separate microarrays, one for immunohematology (blood grouping), or IH, and one for serological disease screening, or SDS, and a high-throughput instrument. We are also developing a third microarray for molecular disease screening. We believe MosaiQ has the potential to transform transfusion diagnostics, significantly reducing the cost of blood grouping in the donor and patient testing environments, while improving patient outcomes.

We have designed MosaiQ to offer a breadth of diagnostic tests that is unmatched by existing commercially available transfusion diagnostic instrument platforms. Time to result for MosaiQ is expected to be significantly quicker than existing methods for extended antigen typing and antibody detection and is expected to be equivalent to the time to result for current instrument platforms performing basic antigen typing. We believe that customer adoption of MosaiQ will lead to improved patient outcomes through better and easier matching of donor and patient blood, given cost-effective extended antigen typing offered by MosaiQ. Improved patient outcomes using MosaiQ include the potential for reduced incidence of alloimmunization, where the patient develops antibodies to foreign antigens introduced to the body through transfused blood. Cost savings and efficiencies should also be available to customers that adopt MosaiQ, as a result of:

comprehensive characterization of donor or patient blood, eliminating the need for routine manual testing typically undertaken by skilled technicians;

simplification of required consumables and testing processes;

consolidation of multiple instrument platforms in donor testing laboratories;

significant reduction of sample volume requirements;

S-3

## **Table of Contents**

reduction of consumable and reagent waste; and

more streamlined processes for matching donor units to patients.

We have designed MosaiQ to match the existing performance of automated platforms used by donor testing laboratories for serological disease screening. We also believe the incorporation of molecular disease screening on MosaiQ will offer considerable advantages over existing approaches in use by donor testing laboratories, delivering operational cost savings and a reduced time to result, while also eliminating the need to pool samples.

Our initial aim is to provide donor testing laboratories with a single instrument platform to be utilized for blood grouping and, if applicable, both serological and molecular disease screening for donated red blood cells and plasma. We expect there to be two blood grouping microarrays, one for the donor testing market and one for the patient testing market. We refer to the blood grouping microarrays as the MosaiQ IH Microarray. We refer to the serological disease screening microarrays as the MosaiQ SDS Microarray. The initial MosaiQ SDS Microarray will comprise assays to detect CMV and Syphilis. We expect to follow our initial MosaiQ SDS Microarray launch with the launch of a range of additional MosaiQ SDS II Microarrays incorporating all remaining mandated serological disease screening assays, depending upon the final application for the product. Based on historical annual blood donations collected by our key target donor testing customers, we estimate that the potential market for MosaiQ microarrays (for blood grouping, serological disease screening and molecular disease screening) should exceed 100 million microarrays per annum following receipt of applicable regulatory clearances and approvals for MosaiQ.

We also believe that MosaiQ may have the potential for use beyond transfusion diagnostics in the larger clinical diagnostics market, and are evaluating the potential for our technology as a platform for diagnosis and monitoring of other disease states. We have identified opportunities for future partnership and development in relation to disease states for which a broad array of tests are required using multiple testing modalities for a single diagnosis or for ongoing therapy monitoring.

We have a proven track record and significant expertise in product development, manufacturing and quality assurance, tailored to the highly regulated transfusion diagnostics market. We currently derive revenue from a portfolio of products used for blood grouping, as well as whole blood controls used daily for quality assurance testing of third-party blood grouping instruments. We have introduced a range of U.S. Food and Drug Administration, or the FDA, licensed products in the United States under the Quotient brand, which we sell directly to donor testing laboratories, hospitals and independent patient testing laboratories. We also develop, manufacture and sell conventional reagent products to original equipment manufacturers, or OEMs, such as Ortho-Clinical Diagnostics, Inc., or Ortho, Bio-Rad Laboratories, Inc. and Grifols S.A. In March and June 2017, the FDA licensed a range of conventional reagent products developed and manufactured by us for use on instrument and semi-manual testing platforms commercialized by Ortho.

## **Recent Developments**

### ***MosaiQ Update***

In June 2018, we reported the preliminary concordance results from the European Union field trial for our initial MosaiQ IH Microarray.

In September 2018, we submitted the completed dossier for the CE marking of the initial MosaiQ IH Microarray, and we successfully completed a regulatory audit required for the consolidation of our liquid reagent manufacturing into our recently completed new conventional reagents manufacturing facility near Edinburgh, Scotland.

In addition, in September 2018, we reported the final concordance results of our field trials for the MosaiQ IH Microarray, and, in December 2018, we reported verification and validation, or V&V, concordance data for the initial MosaiQ SDS Microarray.

S-4

**Table of Contents***MosaiQ IH Microarray Assay Performance*

Greater than 3,000 donor samples were tested in the field trial and the results compared with predicate technologies. A summary of the internally audited head-to-head data submitted with the CE mark filing is set out below:

*Antigen Typing*

<b>BLOOD GROUP ANTIGEN</b>	<b>A</b>	<b>B</b>	<b>D</b>	<b>C</b>	<b>C</b>	<b>E</b>	<b>E</b>	<b>CW</b>	<b>K</b>	<b>K</b>
Concordance	99.9%	99.4%	99.5%	99.9%	99.6%	100.0%	99.9%	100.0%	99.9%	100.0%

The above results imply overall concordance of 99.8% for MosaiQ as compared to an established target of 99%.

*Antibody Detection*

The internally audited field trial head-to-head data for antibody detection achieved 97.4% concordance as compared to an established target of 95%.

In October 2018, we completed the self certification process required to CE mark the MosaiQ instrument and also successfully concluded the ISO 13485 : 2016 audit of the MosaiQ microarray manufacturing facility in Eysins, Switzerland. Both are critical steps to pave the way for the future commercialization of the MosaiQ microarray once approved for sale in Europe.

*MosaiQ SDS Microarray Assay Performance*

Results of the V&V head-to-head study for the initial MosaiQ SDS Microarray used for the detection of CMV and Syphilis achieved the required performance compared with predicate technologies. The V&V data, which were derived using microarrays manufactured in our ISO-audited manufacturing facility and run on the recently CE-marked MosaiQ instrument, represent the final step before moving to field trials for the initial MosaiQ SDS Microarray currently planned for early 2019.

A summary of the V&V head-to-head study results for our initial MosaiQ SDS Microarray are set out below:

**PATHOGEN**

	<b>SENSITIVITY</b>	<b>SPECIFICITY</b>
	<b>%</b>	<b>%</b>
CMV	98.5%	98.8%
Syphilis	100.0%	99.9%

In this V&V study, a total of 1,126 samples were tested for both CMV and Syphilis.

#### *Regulatory and Commercial Milestones*

Having filed for European CE marking of our initial MosaiQ IH Microarray in September 2018, we expect to file for European CE marking of our initial MosaiQ SDS Microarray in the first half of 2019.

We expect to commence U.S. field trials for our initial MosaiQ SDS Microarray in the first half of 2019, and to file for U.S. regulatory approval of our initial MosaiQ SDS Microarray in the second half of 2019.

We have already received invitations to participate in tenders in Europe subject to regulatory approval of our initial MosaiQ IH Microarray.

We plan to continue to expand MosaiQ's IH antigen testing menu and we expect to commence U.S. field trials with the expanded IH antigen testing menu during the first half of 2019.

We expect to file for U.S. and European regulatory approval for the expanded MosaiQ IH Microarray during the second half of 2019.

We expect to commence field trials in the U.S. and Europe for the MosaiQ SDS II Microarray in the first half of 2020.

***Modifications to our Senior Notes***

On December 4, 2018, we announced the receipt of consents from all of the holders, or the Consenting Holders, of our outstanding \$120.0 million aggregate principal amount of 12% senior secured notes due 2023, or our Senior Notes, to certain amendments, or the Proposed Amendments, to the indenture governing the Senior Notes and the Senior Notes. The Proposed Amendments include a six-month extension of the final maturity of the Senior Notes to April 2024 and a revision of the Senior Notes' principal amortization (currently scheduled to commence semi-annually beginning April 2019) to commence April 2021, in order to better align the maturity and amortization schedule with our financial goals. The revised amortization schedule will defer approximately \$39.6 million of principal amortization currently scheduled to occur between April 2019 and April 2021. In addition, the Proposed Amendments include a one-year extension of the optional redemption call schedule to October 2022. The Consenting Holders also approved amendments to permit us to issue up to an additional \$25.0 million aggregate principal amount of Senior Notes following the European CE marking of our initial MosaiQ IH Microarray.

In consideration for these modifications, we have agreed to pay to the Consenting Holders a one-time consent payment of \$32.50 per \$1,000 principal amount of Senior Notes, representing an aggregate consent payment of \$3.9 million, or the Consent Payment. In addition, we have agreed to enter into royalty rights agreements, or the Consent Royalty Rights Agreements, with each of the Consenting Holders, pursuant to which we will issue to such holders the right to receive, in the aggregate, a payment equal to 1.0% of the aggregate net sales of MosaiQ instruments and consumables in the donor testing market in the European Union and the United States, which will effectively increase the aggregate amount of royalty rights we have issued in connection with the Senior Notes from 2% to 3%.

On December 4, 2018, we entered into a supplemental indenture, or the Supplemental Indenture, to the indenture governing the Senior Notes, which provides for the Proposed Amendments. The Supplemental Indenture became effective on December 4, 2018, but the Proposed Amendments will not become operative until the Depository Trust Company issues certain proxies formally confirming the Consenting Holders' ability to act as record holders of our Senior Notes, we pay in full the Consent Payment and we and each of the Consenting Holders enter into the Consent Royalty Rights Agreements. We expect to pay the Consent Payment and enter into the Consent Royalty Rights Agreements promptly following the receipt of such proxies, which we expect to occur by December 31, 2018.

For additional information about the terms of the consents and the Supplemental Indenture, and the expected terms of the Consent Royalty Rights Agreements, see our Current Report on Form 8-K filed with the SEC on December 5, 2018, and incorporated by reference herein.

***Short-Term Liquidity***

The audited consolidated financial statements appearing in our FY 2018 10-K were prepared assuming we would continue as a going concern. In the notes to these financial statements, we disclosed that: (i) we had incurred net losses and negative cash flows from operations in each year since we commenced operations in 2007; (ii) as of March 31, 2018, we had an accumulated deficit of \$275.6 million; and (iii) we had expenditure plans for the year ending March 31, 2018 that were in excess of our current cash and short-term investment balances, raising substantial

doubt about our ability to continue as a going concern. On June 29, 2018, we issued an additional \$36.0 million aggregate principal amount of Senior Notes and, from April 1, 2018 through July 31, 2018, 8,414,683 warrants issued in our October 2017 private placement of ordinary shares and warrants were exercised for 8,414,683 ordinary shares at \$5.80 per share, generating \$48.8 million of proceeds.

S-6

## **Table of Contents**

In its audit report related to these financial statements, our independent registered public accounting firm, Ernst & Young LLP, made reference to our disclosure regarding substantial doubt about our ability to continue as a going concern. We expect to fund our operations, including the ongoing development of MosaiQ to commercialization from our existing cash and short-term investment balances and the issuance of new equity (including this offering) or debt (including, following the date the Proposed Amendments become operative and subject to certain conditions, additional Senior Notes, as described above under "Recent Developments Modifications to our Senior Notes"). We expect additional financing to be available from these funding sources.

**RISK FACTORS**

*Investing in our ordinary shares involves a high degree of risk. Before buying any of our ordinary shares, you should carefully consider the risks described below, together with all of the other information included in this prospectus supplement and the accompanying prospectus, together with the information incorporated by reference herein and therein, and any free writing prospectus, including the risks described under the heading **Risk Factors** in our FY 2018 10-K. Any of these risks could materially adversely affect our business, financial condition and results of operations. As a result, the market price of our ordinary shares could decline, and you could lose all or part of your investment. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect our business operations and could result in complete or partial loss of your investment. Certain statements below are forward-looking statements. See the information included under the heading **Forward-Looking Statements**.*

**Risks Related to this Offering and our Ordinary Shares**

***Galen Partners LLP and management own a significant percentage of our ordinary shares and will be able to exercise significant influence over matters subject to shareholder approval.***

Certain entities affiliated with Galen Partners LLP and our executive officers and directors, together with their respective affiliates, held 13.5% of our outstanding ordinary shares, as of September 30, 2018. These shareholders will be able to exert a significant degree of influence over our management and affairs and over matters requiring shareholder approval, including the election of our Board of Directors and approval of significant corporate transactions. This concentration of ownership could have the effect of entrenching our management and/or our Board of Directors, delaying or preventing a change in our control or otherwise discouraging a potential acquirer from attempting to obtain control of us, which in turn could have a material and adverse effect on the fair market value of our ordinary shares.

***If securities analysts do not continue to cover our ordinary shares or publish unfavorable research or reports about our business, this may have a negative impact on the market price of our ordinary shares.***

The trading market for our ordinary shares depends on the research and reports that securities analysts publish about our business and our company. We do not have any control over these analysts. There is no guarantee that securities analysts will continue to cover our ordinary shares. If securities analysts do not cover our ordinary shares, the lack of research coverage may adversely affect the market price of our ordinary shares. If our shares are the subject of an unfavorable report, our share price and trading volume would likely decline. If one or more of these analysts ceases to cover our company or fails to publish regular reports on our company, we could lose visibility in the financial markets, which could cause our share price or trading volume to decline.

***The price of our ordinary shares is likely to be volatile, and purchasers of our ordinary shares could incur substantial losses.***

Like other emerging life sciences companies, the market price of our ordinary shares is likely to be volatile. The factors below may also have a material adverse effect on the market price of our ordinary shares:

fluctuations in our results of operations;

delays in the planned commercialization of MosaiQ;

speed and timing of adoption of MosaiQ by key target customers;

our ability to enter new markets;

negative publicity;

changes in securities or industry analyst recommendations regarding our company, the sectors in which we operate, the securities market generally, conditions in the financial markets and the perception of our ability to raise additional funding;

regulatory developments affecting MosaiQ or our industry, including announcement of new adverse regulatory decisions affecting our industry or MosaiQ;

announcements of studies and reports relating to our products, including MosaiQ, or those of our competitors;

changes in economic performance or market valuations of our competitors;

S-9

**Table of Contents**

actual or anticipated fluctuations in our annual and quarterly financial results;

conditions in the industries in which we operate;

announcements by us or our competitors of new products, acquisitions, strategic relations, joint ventures or capital commitments;

additions to or departures of our key executives and employees;

fluctuations of exchange rates;

release or expiry of lock-up or other transfer restrictions on our outstanding ordinary shares subject to such restrictions; and

sales or perceived sales of additional ordinary shares.

In addition, the securities of life sciences companies have recently experienced significant volatility. The volatility of the securities of life sciences companies often does not relate to the operating performance of those companies. As we operate in a single industry, we are especially vulnerable to these factors to the extent that they affect our industry or our products, or to a lesser extent our markets. In the past, securities class action litigation has often been initiated against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources, and could also require us to make substantial payments to satisfy judgments or to settle litigation.

***You will incur immediate and substantial dilution as a result of this offering.***

Since the price per share of the ordinary shares being offered is substantially higher than the net tangible book value per share of our ordinary shares, you will suffer immediate and substantial dilution in the net tangible book value of the ordinary shares you purchase in this offering. Based on the public offering price of \$6.50 per share, if you purchase ordinary shares in this offering, you will suffer immediate dilution of \$5.86 per share with respect to the net tangible book value of the ordinary shares. See Dilution.

***Substantial future sales of our ordinary shares in the public market, or the perception that these sales could occur, could cause the price of our ordinary shares to decline, irrespective of the underlying performance of our business.***

Additional sales of our ordinary shares in the public market after this offering, and in particular sales by our directors, executive officers and principal shareholders, or the perception that these sales could occur, could cause the market price of our ordinary shares to decline. Approximately 8,306,556 ordinary shares directly or indirectly owned by our executive officers, directors and certain of our other existing shareholders as of December 4, 2018 will be subject to lock-up agreements with the underwriters of this offering that restrict the sale of ordinary shares by those parties for a period of 90 days after the date of this prospectus supplement. However, all of the ordinary shares sold in this offering and the remaining ordinary shares outstanding prior to this offering (which include certain shares that are held by persons that beneficially own more than 5% of our outstanding ordinary shares) will not be subject to lock-up

agreements with the underwriters and, except to the extent such shares are held by our affiliates, will be freely tradable without restriction under the Securities Act. To the extent any of these shares are sold into the market, particularly in substantial quantities, the market price of our ordinary shares could decline.

***Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.***

Our management will have broad discretion as to the application of the net proceeds of this offering and could use them for purposes other than those currently contemplated and may not use them effectively. Our shareholders may not agree with the manner in which our management chooses to allocate and spend the net proceeds. Moreover, our management may use the net proceeds for corporate purposes that may not increase our profitability or our market value. See **Use of Proceeds** for a description of our management's intended use of the proceeds from this offering. The failure by our management to apply these funds effectively could result in financial losses, and those financial losses could have a material adverse effect on our business and cause the price of our ordinary shares to decline. Pending their use, our management may invest the net proceeds from this offering in a manner that does not produce income.

***We may need to raise additional capital, which may not be available on favorable terms, if at all, and which may cause dilution to shareholders, restrict our operations or adversely affect our ability to operate our business.***

We expect to fund our operations in the near-term, including the ongoing development of MosaiQ to commercialization, from our existing cash and short-term investment balances and the issuance of new equity

**Table of Contents**

(including this offering) or debt (including, following the date the Proposed Amendments become operative and subject to certain conditions, additional Senior Notes, as described in Prospectus Supplement Summary Recent Developments Modifications to our Senior Notes ). Our ability to raise additional capital may be significantly affected by general market conditions, the market price of our ordinary shares, our financial condition, uncertainty about the future commercial success of MosaiQ, regulatory developments, the status and scope of our intellectual property, any ongoing litigation, our compliance with applicable laws and regulation and other factors, many of which are outside our control. Furthermore, the indenture governing our Senior Notes contains limitations on our ability to incur debt and issue preferred and/or disqualified stock. Accordingly, we cannot be certain that we will be able to obtain additional financing on favorable terms or at all. If we are unable to obtain needed financing on acceptable terms, or otherwise, we may not be able to implement our business plan, which could have a material adverse effect on our business, financial condition and results of operations, and result in a decline in the trading price of our ordinary shares. Any additional equity financings we pursue could result in additional dilution to our then existing shareholders. In addition, we may enter into additional financings that restrict our operations or adversely affect our ability to operate our business and, if we issue equity, debt or other securities to raise additional capital or restructure or refinance our existing indebtedness, the new equity, debt or other securities may have rights, preferences and privileges senior to those of our existing shareholders.

***We have never paid cash dividends and do not intend to pay cash dividends on our ordinary shares in the foreseeable future.***

We have never paid dividends on ordinary shares and do not anticipate paying any cash dividends on our ordinary shares in the foreseeable future. In addition, the indenture governing our Senior Notes contains covenants that limit our ability to pay dividends on our ordinary shares. Under Jersey, Channel Islands law, any payment of dividends would be subject to relevant legislation and our Amended Articles of Association provide that all dividends must be approved by our Board of Directors and, in some cases, our shareholders, and may only be paid from our distributable profits available for the purpose, determined on an unconsolidated basis.

**Risks Related to Government Regulation**

***Recent global economic and political conditions could result in significant changes to legislation, government policies, rules and regulations, which may have a material adverse effect on our business.***

The impact of recent political and economic developments in the United States, the United Kingdom and Europe, including the election of Mr. Donald Trump as president of the United States and the referendum in the United Kingdom in which voters approved an exit from the European Union, commonly referred to as Brexit, are uncertain. These political and economic developments could result in changes to legislation or reformation of government policies, rules and regulations pertaining to the U.S. healthcare system, tax and trade. Such changes could have a significant impact on our business by increasing the cost of doing business, affecting our ability to sell our products and negatively impacting our profitability.

Efforts to repeal and replace the U.S. Patient Protection and Affordable Care Act, or the PPACA, have been ongoing since the 2016 election, but it is unclear if these efforts will be successful. Since January 2017, President Trump has signed two Executive Orders to delay, circumvent or loosen the implementation of certain requirements mandated by the PPACA or otherwise circumvent some of the requirements for health insurance mandated by the PPACA.

In addition, as part of the December 2017 Tax Cuts and Jobs Act, the individual mandate, which required individuals to purchase insurance, was repealed. The PPACA significantly impacts the pharmaceutical and medical device industries and clinical laboratories, and the repeal, replacement or modification of the PPACA, or other legislative or

regulatory actions, could meaningfully further change the way healthcare services are delivered and may materially impact aspects of our business. We cannot predict whether future healthcare initiatives will be implemented at the federal or state level or in countries outside of the United States in which we may do business, or the effect any future legislation or regulation will have on us.

Our conventional reagent products are manufactured in Scotland and our MosaiQ instruments and Microarrays will be manufactured in Germany and Switzerland, respectively. There have been public announcements by members of the U.S. Congress, President Trump and his administration regarding the possible implementation of a border tax,

S-11

**Table of Contents**

tariff or increase in custom duties on products manufactured outside of and imported into the United States, as well as the renegotiation of U.S. trade agreements, and, in March 2018, President Trump issued two proclamations imposing tariffs on imports of certain steel and aluminum products. The implementation of a border tax, tariff or higher customs duties on our products imported into the United States, or any potential corresponding actions by other countries in which we do business, could negatively impact our financial performance.

Lastly, on November 13, 2018, the United Kingdom reached a draft agreement with the European Union as part of its negotiations on the terms of its exit from the European Union. Although it is unknown what the final terms will be, it is possible that there will be greater restrictions on imports and exports between the United Kingdom and European Union countries and increased regulatory complexities. These changes may adversely affect our operations and financial results. For instance, our current notified body for our CE marking of the MosaiQ Microarrays, UL International (UK) Ltd., is located in the United Kingdom. If, as a result of the United Kingdom's exit from the European Union, we must utilize a separate notified body located in the European Union in order to commercialize MosaiQ in the European Union, our ability to commercialize MosaiQ in the European Union may be interrupted or delayed, which may adversely affect our operations and financial results.

**USE OF PROCEEDS**

We estimate that the net proceeds of the sale of our ordinary shares in this offering will be approximately \$56.1 million, or approximately \$64.6 million if the underwriters exercise in full their option to purchase additional ordinary shares from us, after deducting the underwriting discount and estimated offering expenses payable by us.

We currently anticipate that we will use the net proceeds received by us to fund the ongoing scale up and, if approved, commercialization of MosaiQ and for working capital and other general corporate purposes.

Our expected use of the net proceeds from this offering is based upon our present plans and business condition. As of the date of this prospectus supplement, we cannot predict with certainty all of the particular uses for the net proceeds to be received upon the completion of this offering or the amounts that we will actually spend on the uses set forth above. The amounts and timing of our actual use of proceeds will vary depending on numerous factors, including the factors described under the heading **Risk Factors** in this prospectus supplement and under the heading **Risk Factors** beginning on page 15 of our FY 2018 10-K, which is incorporated by reference in this prospectus supplement. As a result, management will retain broad discretion over the allocation of the net proceeds from this offering, and investors will be relying on the judgment of our management regarding the application of the net proceeds.

Pending the use of the net proceeds of this offering as described above, we plan to invest the net proceeds of this offering on an interim basis in high-quality, short-term, interest-bearing obligations, investment-grade instruments or certificates of deposit.

**Table of Contents****CAPITALIZATION**

The following table sets forth our cash, cash equivalents and capitalization as of September 30, 2018:

on an actual basis;

on an as adjusted basis, to give effect to our issuance and sale of 9,230,770 ordinary shares at the public offering price of \$6.50 per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

As described in Prospectus Supplement Summary Recent Developments Modifications to our Senior Notes, we have agreed, subject to certain conditions, to pay the Consent Payment of \$3.9 million to, and to enter into the Consent Royalty Rights Agreements with, the Consenting Holders (which agreements will effectively increase the aggregate amount of royalty rights we have issued in connection with the Senior Notes from 2% to 3%). We expect to make this payment and enter into these agreements by December 31, 2018. As described in more detail in the notes to our consolidated financial statements, which are incorporated by reference in this prospectus supplement, the existing royalty rights we have issued are treated as debt in our financial statements, and we expect the royalty rights issued pursuant to the Consent Royalty Rights Agreements will be accounted for similarly. The following table does not reflect the payment of the Consent Payment or the entry into the Consent Royalty Rights Agreements.

2,099,306 ordinary shares issuable upon the exercise of options outstanding as of September 30, 2018, at a weighted-average exercise price of \$7.76 per ordinary share;

1,071,256 ordinary shares issuable upon the vesting of RSUs and MRSUs outstanding as of September 30, 2018; and

64,357 ordinary shares reserved for future grant or issuance under the Amended and Restated 2014 Plan as of September 30, 2018.

On October 31, 2018, our shareholders approved the Second Amended and Restated 2014 Plan, which increased the number of ordinary shares authorized for issuance by 550,000 additional ordinary shares pursuant to the terms of the Second Amended and Restated 2014 Plan. These ordinary shares are also not included in the table above.

The information set forth above does not reflect the grant of options to purchase 159,552 ordinary shares, the exercise of options to purchase 160 ordinary shares, the grant of 398,673 RSUs, or the vesting of 119,859 RSUs, in each case subsequent to September 30, 2018.

**DIVIDEND POLICY**

We have never declared or paid cash dividends on our ordinary shares. We currently intend to retain all available funds and any future earnings, if any, to fund the development and expansion of our business and we do not anticipate paying any cash dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends, if any, will be made at the discretion of our Board of Directors and will depend on then existing conditions, including our results of operations, financial conditions, contractual restrictions, capital requirements, business prospects and other factors our Board of Directors may deem relevant. In particular, the indenture governing our Senior Notes contains certain restrictive covenants that limit our ability to pay dividends.

S-18

**Table of Contents****DILUTION**

Our net tangible book value as of September 30, 2018 was approximately \$(15.5) million, or \$(0.29) per share. Net tangible book value per share is determined by dividing our total tangible assets, less total liabilities, by the number of ordinary shares outstanding as of September 30, 2018. Dilution in net tangible book value per share represents the difference between (i) the amount per share paid by investors purchasing ordinary shares in this offering and (ii) the net tangible book value per share immediately after this offering.

After giving effect to the sale of 9,230,770 ordinary shares in this offering at the public offering price of \$6.50 per share, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us, our as adjusted net tangible book value as of September 30, 2018 would have been approximately \$40.6 million, or \$.64 per share. This represents an immediate increase in net tangible book value of \$.93 per share to existing shareholders and an immediate dilution in net tangible book value of \$5.86 per share to investors purchasing our ordinary shares in this offering.

The following table illustrates this dilution on a per share basis:

Public offering price per share	\$ 6.50
Net tangible book value per share as of September 30, 2018	\$ (0.29)
Increase in net tangible book value per share attributable to this offering	\$ 0.93
As adjusted net tangible book value per share after this offering	\$ 0.64
Dilution per share to new investors purchasing ordinary shares in this offering	\$ 5.86

If the underwriters exercise in full their option to purchase an additional 1,384,615 ordinary shares at the public offering price of \$6.50 per share, our as adjusted net tangible book value per share would be \$0.76 per share, representing an immediate increase in net tangible book value of \$1.05 per share to existing shareholders and immediate dilution in net tangible book value of \$5.74 per share to investors purchasing ordinary shares in this offering.

The number of ordinary shares to be outstanding after this offering is based on 54,229,503 ordinary shares outstanding as of September 30, 2018, and excludes the following:

725,525 ordinary shares issuable upon the exercise of warrants outstanding as of September 30, 2018, at a weighted average exercise price of \$3.32 per ordinary share;

2,099,306 ordinary shares issuable upon the exercise of options outstanding as of September 30, 2018, at a weighted-average exercise price of \$7.76 per ordinary share;

1,071,256 ordinary shares issuable upon the vesting of restricted share units, or RSUs, and multi-year, performance-based restricted share units, or MRSUs, outstanding as of September 30, 2018; and

64,357 ordinary shares reserved for future grant or issuance under the Amended and Restated 2014 Plan as of September 30, 2018.

On October 31, 2018, our shareholders approved the Second Amended and Restated 2014 Plan, which increased the number of ordinary shares authorized for issuance by 550,000 additional ordinary shares pursuant to the terms of the Second Amended and Restated 2014 Plan. These ordinary shares are also not included in the number of ordinary shares to be outstanding after this offering.

The information set forth above does not reflect the grant of options to purchase 159,552 ordinary shares, the exercise of options to purchase 160 ordinary shares, the grant of 398,673 RSUs, or the vesting of 119,859 RSUs, in each case subsequent to September 30, 2018.

To the extent that new options are issued under the Second Amended and Restated 2014 Plan or we issue additional ordinary shares in the future (including upon any exercise of our warrants or options), there will be further dilution to investors participating in this offering. See **Risk Factors** You will incur immediate and substantial dilution as a result of this offering.

**CERTAIN U.S. FEDERAL TAX CONSIDERATIONS APPLICABLE TO HOLDERS OF ORDINARY SHARES**

The following discussion is the opinion of Clifford Chance US LLP as to the material U.S. federal income tax consequences of the investment in an ordinary share, based upon the U.S. Internal Revenue Code of 1986, as amended (the "Code"), the U.S. Treasury regulations promulgated thereunder, judicial decisions, revenue rulings and revenue procedures of the Internal Revenue Service ("IRS"), and other administrative pronouncements of the Internal Revenue Service, all available as of the date hereof. This discussion is applicable to U.S. Holders (as defined below) that hold our ordinary shares as capital assets for U.S. federal income tax purposes (generally property held for investment).

For purposes of this discussion you are a "U.S. Holder" if you are a beneficial owner of an ordinary share that is:

an individual citizen or resident of the United States, as determined for U.S. federal income tax purposes;

a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust.

This discussion does not address all U.S. federal income tax consequences applicable to you if you are subject to special treatment under the U.S. federal income tax laws, including if you are:

a broker or dealer in securities, commodities or currencies;

a financial institution;

a regulated investment company;

a real estate investment trust;

an insurance company;

an S corporation;

a tax exempt organization;

a person holding our ordinary shares as part of a hedging, wash sale, integrated or conversion transaction, a constructive sale or a straddle;

a trader in securities that has elected the mark to market method of accounting for your securities;

a person liable for alternative minimum tax;

a U.S. expatriate or former U.S. citizen or long-term resident;

an investor that holds ordinary shares through a financial account at a foreign financial institution that does not meet the requirements for avoiding withholding with respect to certain payments under Section 1471 of the Code;

persons who acquired ordinary shares pursuant to the exercise of any employee share option or otherwise as compensation;

a person who actually or constructively owns 10% or more of our stock by vote or value;

a person whose functional currency is not the U.S. dollar; or

a person holding the ordinary shares who is required to accelerate the recognition of any item of gross income for U.S. federal income tax purposes with respect to the ordinary shares as a result of such item being taken into account in an applicable financial statement.

If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds ordinary shares, the tax treatment of a partner will depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding ordinary shares you should consult your tax advisors.

The authorities upon which this discussion is based are subject to change, which could apply retroactively, and are subject to differing interpretations, either of which could affect the U.S. federal income tax consequences discussed

## **Table of Contents**

below. This discussion does not address all of the U.S. federal income tax consequences that may apply to you in light of your particular circumstances. Moreover, this discussion does not address any state, local or non-U.S. tax consequences, or any aspects of U.S. federal tax law other than income taxation. **If you are considering an investment in ordinary shares you should consult your own tax advisors concerning the U.S. federal income tax consequences to you in light of your particular circumstances as well as any consequences arising under the laws of any other taxing jurisdiction.**

The discussion below under **Distributions** and **Sale or Other Disposition of Ordinary Shares** is subject to the passive foreign investment company ( PFIC ) rules discussed under **Passive Foreign Investment Company**. See the discussion under **Passive Foreign Investment Company**.

### **Distributions on Ordinary Shares**

We currently do not expect to make any distributions to holders of our ordinary shares. If we make any distributions in respect of our ordinary shares, however, such distributions will be includible in a U.S. Holder's income as dividends to the extent paid out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent that the amount of any distribution exceeds our current and accumulated earnings and profits for a taxable year, as determined under U.S. federal income tax principles, the distribution will first be treated as a tax free return of capital, and the balance in excess of a U.S. Holder's adjusted tax basis in the shares will be taxed as capital gain recognized on a sale or exchange. However, we do not expect to calculate our earnings and profits in accordance with U.S. federal income tax principles, and, accordingly, U.S. Holders should expect that a distribution will generally be reported as a dividend (as discussed above) even if that distribution (or a portion thereof) would otherwise be treated as a tax-free return of capital or as capital gain. Such dividends will not be eligible for the dividends received deduction allowed to U.S. corporations for dividends received from other U.S. corporations.

Dividends received from a qualified foreign corporation are treated as qualified dividends provided that an investor holds the stock for at least 61 days within a specified 121-day period beginning on the date which is 60 days before the ex-dividend date and other requirements are satisfied. A non-U.S. corporation is treated as a qualified foreign corporation with respect to dividends received from that corporation on shares that are readily tradable on an established securities market in the United States. U.S. Department of the Treasury guidance indicates that shares are considered to be readily tradable on an established securities market in the United States if they are listed on The Nasdaq Global Market, where our ordinary shares are currently listed. Qualified dividends received by non-corporate U.S. Holders, including individuals, are taxed at the rates applicable to long-term capital gains, which are lower than the rates applicable to ordinary income. We should be treated as a qualified foreign corporation so long as we are listed on The Nasdaq Global Market. U.S. Holders should consult their own tax advisors regarding the application of these rules given their particular circumstances.

Generally, dividends will constitute non-U.S. source **passive category** income for U.S. foreign tax credit purposes. U.S. Holders should consult their own tax advisors regarding how to account for dividends that are paid in a currency other than the U.S. dollar.

### **Sale or Other Taxable Disposition of Ordinary Shares**

A U.S. Holder will recognize U.S. source capital gain or loss upon the sale or other taxable disposition of ordinary shares in an amount equal to the difference between the U.S. dollar value of the amount realized upon the disposition and the U.S. Holder's adjusted tax basis in such ordinary shares. Any capital gain or loss will be long-term if the ordinary shares have been held for more than one year at the time of the sale or other taxable disposition. Certain non-corporate U.S. Holders, including individuals, are eligible for reduced rates of taxation on long-term capital gains.

The deductibility of capital losses is subject to limitations. U.S. Holders should consult their own tax advisors regarding how to account for sale or other disposition proceeds that are paid in a currency other than the U.S. dollar.

### **Medicare Contribution Tax**

Certain U.S. Holders that are individuals, estates or certain trusts must pay a 3.8% tax, or Medicare contribution tax, on their net investment income. Net investment income generally includes, among other things, dividend income

S-21

---

**Table of Contents**

and net gains from the disposition of stock. A U.S. Holder that is an individual, estate or trust should consult its tax advisor regarding the applicability of the Medicare contribution tax to its income and gains in respect of its investment in our ordinary shares.

**Passive Foreign Investment Company**

In general, a non-U.S. corporation is treated as a PFIC for any taxable year in which: (i) at least 75% of its gross income for such year is passive income or (ii) at least 50% of the value (determined on a quarterly basis) of its assets during such year is attributable to assets that produce or are held for the production of passive income. For this purpose, passive income includes dividends, interest, certain royalties and rents and gains from the disposition of passive assets. If a non-U.S. corporation owns, directly or indirectly, at least 25% (by value) of the stock of another corporation, such non-U.S. corporation will be treated, for purposes of the PFIC tests, as owning its proportionate share of the other corporation's assets and receiving its proportionate share of the other corporation's income.

Based on the composition of our income and value of our assets (determined using their fair market values), we do not believe we were a PFIC for our taxable year ended March 31, 2018 and do not currently expect to be a PFIC for the taxable year ending March 31, 2019 or in the foreseeable future. There can be no assurance in this regard, however, because our status as a PFIC is determined by all of the facts, which may change over time, on an annual basis and such determination depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations. A non-U.S. corporation is classified as a PFIC in any year in which it meets either the gross income or gross asset test discussed above. This depends on the actual financial results for each tax year in question. Accordingly, it is possible that we may become a PFIC in the current or any future taxable year due to changes in our asset or income composition. Because we value our goodwill based on the market value of our equity, a decrease in the price of our ordinary shares may also result in our becoming a PFIC. In addition, the composition of our income and assets will be affected by how, and how quickly, we spend the cash we raised in offerings.

If we are a PFIC for any taxable year during which a U.S. Holder holds our ordinary shares, such U.S. Holder will be subject to special tax rules with respect to any excess distribution received and any gain realized from a sale or other disposition, including a pledge, of ordinary shares. Distributions received in a taxable year that are greater than 125% of the average annual distributions received during the shorter of the three preceding taxable years or a U.S. Holder's holding period for the ordinary shares will be treated as excess distributions. Under these special tax rules:

the excess distribution or gain will be allocated ratably over a U.S. Holder's holding period for the ordinary shares;

the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which we were a PFIC, will be treated as ordinary income; and

the amount allocated to each other year will be subject to tax at the highest tax rate in effect for that year and the interest charge applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

The tax liability for amounts allocated to taxable years prior to the year of disposition or excess distribution in which we were a PFIC cannot be offset by any net operating losses for such years, and gains (but not losses) realized on the sale or other disposition of the ordinary shares cannot be treated as capital gains, even if a U.S. Holder holds the

ordinary shares as capital assets. In addition, non-corporate U.S. Holders will not be eligible for reduced rates of taxation on any dividends received from us, if we are a PFIC in the taxable year in which such dividends are paid or in the preceding taxable year. A U.S. Holder will be required to file Internal Revenue Service Form 8621 (or any other form specified by the U.S. Department of the Treasury) if such U.S. Holder holds our ordinary shares in any year in which we are a PFIC.

If we are a PFIC for any taxable year during which a U.S. Holder holds ordinary shares, our ordinary shares will continue to be treated as interests in a PFIC with respect to that U.S. Holder for all succeeding taxable years during which that U.S. Holder holds our ordinary shares unless we cease to be a PFIC and a U.S. Holder makes a deemed sale election with respect to the ordinary shares. If a U.S. Holder makes a deemed sale election, such U.S. Holder

S-22

**Table of Contents**

will be deemed to have sold ordinary shares held at their fair market value as of the last day of the last year during which we were a PFIC (the termination date). U.S. Holders are urged to consult their tax advisors regarding our possible status as a PFIC as well as the benefit of making an actual or protective deemed sale election.

In certain circumstances, in lieu of being subject to the excess distribution rules discussed above, a U.S. Holder may make an election to include gain on the stock of a PFIC as ordinary income under a mark-to-market method, provided that such stock is regularly traded on a qualified exchange. In general, our ordinary shares will be treated as regularly traded for a given calendar year if more than a *de minimis* quantity of our ordinary shares is traded on a qualified exchange on at least 15 days during each calendar quarter of such calendar year. Our ordinary shares are currently listed on The Nasdaq Global Market, which should be a qualified exchange for this purpose. Consequently, if we are a PFIC and our ordinary shares remain listed and regularly traded on The Nasdaq Global Market, the mark-to-market election will be available to U.S. Holders.

If a U.S. Holder makes an effective mark-to-market election, such U.S. Holder will include in each year as ordinary income the excess of the fair market value of the ordinary shares at the end of the year over the adjusted tax basis in the ordinary shares. Such U.S. Holder will be entitled to deduct as an ordinary loss each year the excess of the adjusted tax basis in the ordinary shares over their fair market value at the end of the year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. A U.S. Holder's adjusted tax basis in the ordinary shares will be increased by the amount of any income inclusion and decreased by the amount of any deductions under the mark-to-market rules. Any distributions that we make generally will be subject to the rules discussed above under Distributions, except that the lower rate applicable to qualified dividend income will not apply. If a U.S. Holder makes a mark-to-market election it will be effective for the taxable year for which the election is made and all subsequent taxable years (provided that, for any subsequent taxable year in which we are not a PFIC, a U.S. Holder will not include in income mark-to-market gain or loss) unless the ordinary shares are no longer regularly traded on a qualified exchange or the IRS consents to the revocation of the election. U.S. Holders are urged to consult their tax advisors about the availability and advisability of the mark-to-market election in their particular circumstances.

Investors in certain PFICs can elect to be taxed on their share of the PFIC's ordinary income and net capital gain by making a qualified electing fund election (a QEF election), which, if made, would result in tax treatment different from (and generally less adverse than) the general tax treatment for PFICs described above under the excess distribution regime. We do not expect that a U.S. Holder will be eligible to make a QEF election with respect to our ordinary shares.

Each U.S. Holder is urged to consult its own tax advisor concerning the U.S. federal income tax consequences of holding ordinary shares if we are a PFIC in any taxable year during its holding period.

**Holder Reporting Requirements**

Certain U.S. Holders, including individuals and certain entities, that hold specified foreign financial assets, as defined in the Treasury regulations (which may include ordinary shares), other than in an account at a U.S. financial institution or the U.S. branch of a non-U.S. financial institution, are required to report certain information relating to such assets on Internal Revenue Service Form 8938 (Statement of Specified Foreign Financial Asset). U.S. Holders are urged to consult their tax advisors regarding the effect, if any, of this and any other reporting requirements on their ownership and disposition of our ordinary shares. Failure to comply with applicable reporting requirements could result in the imposition of substantial penalties.

A U.S. Holder who acquires ordinary shares for cash may be required to file Internal Revenue Service Form 926 (Return by a U.S. Transferor of Property to a Foreign Corporation) with the IRS and to supply certain additional information to the IRS if the amount of cash transferred to us in exchange for ordinary shares, when aggregated with all related transfers under applicable regulations, exceeds US\$100,000. Substantial penalties may be imposed on a U.S. Holder that fails to comply with this reporting requirement.

**Information Reporting and Backup Withholding**

A U.S. Holder may be subject to information reporting on amounts received by such U.S. Holder from a distribution on, or disposition of ordinary shares, unless such U.S. Holder establishes that it is exempt from these rules. If a U.S. Holder does not establish that it is exempt from these rules, it may be subject to backup withholding on the amounts received unless it provides a taxpayer identification number and otherwise complies with the requirements of the backup withholding rules. Backup withholding is not an additional tax and the amount of any backup withholding from a payment that is received will be allowed as a credit against a U.S. Holder's U.S. federal income tax liability and may entitle such U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

**JERSEY CHANNEL ISLANDS REGULATORY AND TAX MATTERS**

**Regulatory Matters**

It was a condition to the consummation of this offering that, prior to the pricing of this offering, a copy of this prospectus supplement and the accompanying prospectus shall have been delivered to the registrar of companies in accordance with Article 5 of the Companies (General Provisions) (Jersey) Order 2002, and the registrar shall have given, and not withdrawn, consent to its circulation. Such consent was received on December 5, 2018.

It was a condition to the consummation of this offering that, prior to the pricing of this offering, the Jersey Financial Services Commission shall have given, and not withdrawn, its consent under Article 2 of the Control of Borrowing (Jersey) Order 1958 to the issue of our ordinary shares by our company. Such consent was received on January 1, 2017.

It must be distinctly understood that, in giving these consents, neither the registrar of companies nor the Jersey Financial Services Commission takes any responsibility for the financial soundness of our company or for the correctness of any statements made, or opinions expressed, with regard to it.

As a result of changes to Jersey law on September 25, 2014 permitting us to participate in The Nasdaq Stock Markets direct registration system, in August 2015, we enabled direct registration ownership of our ordinary shares. Please contact your broker-dealer for additional information.

In response to concerns raised in 2017 by the EU Code of Conduct Group on Business Taxation in relation to the need for relevant businesses to demonstrate economic substance in Jersey (among other jurisdictions), Jersey has lodged the draft Taxation (Companies Economic Substance) (Jersey) Law 201, which we refer to as the Substance Law. The Substance Law is due to be debated by Jersey's parliament during 2018, and is expected to take effect for financial periods starting on or after January 1, 2019. The Substance Law will be administered by the Jersey Comptroller of Taxes, who will produce guidance as to its application. As of the date of this prospectus supplement, only limited guidance has been published.

The Substance Law is expected to apply to Jersey tax resident companies that carry on banking, insurance, fund management, financing and leasing, headquarters, shipping, and holding company or intellectual property activities, and impose certain requirements including that such companies be directed and managed in Jersey, have core income generating activities in Jersey and have an adequate level of employees, expenditures and premises in Jersey.

When enacted in its final form, the Substance Law may apply to our company and certain of our subsidiaries. The manner in which the Substance Law will apply to our company and/or our subsidiaries will be dependent on the final form of the Substance Law as enacted, and the final guidance. It is our intention to seek appropriate advice and take appropriate steps to ensure that we and each of our subsidiaries (to the extent they fall within the scope of the Substance Law) are fully compliant with the Substance Law in accordance with the guidance.

If you are in any doubt about the contents of this prospectus supplement and the accompanying prospectus you should consult your stockbroker, bank manager, solicitor, accountant or other financial adviser.

The directors of our company have taken all reasonable care to ensure that the facts stated in this prospectus supplement and the accompanying prospectus are true and accurate in all material respects, and that there are no other facts the omission of which would make misleading any statement in this prospectus supplement and the accompanying prospectus, whether of facts or of opinion. All the directors accept responsibility accordingly.

It should be remembered that the price of securities and the income from them can go down as well as up.

## **Tax Matters**

### ***Taxation of Quotient***

We are regarded as resident for tax purposes in Jersey, Channel Islands. On the basis that we are neither a financial services company nor a utility company for the purposes of the Income Tax (Jersey) Law 1961, as amended, we are subject to income tax in Jersey at a rate of 0%. Dividends on ordinary shares may be paid by us without withholding

or deduction for or on account of Jersey income tax and holders of ordinary shares (other than residents of Jersey) will not be subject to any tax in Jersey in respect of the holding, sale or other disposition of such ordinary shares.

### ***Goods and Services Tax***

Jersey charges a tax on goods and services supplied in the Island (which we refer to as GST). On the basis that we do not belong in Jersey for the purposes of the Goods and Services Tax (Jersey) Law 2007, GST is not chargeable on supplies of services made by us. Our Directors intend to conduct our business such that no GST will be incurred by us.

### ***Stamp Duty***

In Jersey, no stamp duty is levied on the issue or transfer of the ordinary shares except that stamp duty is payable on Jersey grants of probate and letters of administration, which will generally be required to transfer ordinary shares on the death of a holder of such ordinary shares. In the case of a grant of probate or letters of administration, stamp duty is levied according to the size of the estate (wherever situate in respect of a holder of ordinary shares domiciled in Jersey, or situate in Jersey in respect of a holder of ordinary shares domiciled outside Jersey) and is payable on a sliding scale at a rate of up to 0.75% of such estate.

Jersey does not otherwise levy taxes upon capital, inheritances, capital gains or gifts nor are there other estate duties.

If you are in any doubt as to your tax position you should consult your professional tax adviser.

**Table of Contents****UNDERWRITING**

Subject to the terms and conditions set forth in the underwriting agreement, dated December 6, 2018, between us and Jefferies LLC and Cowen and Company, LLC, as representatives of the underwriters named below and the joint book-running managers of this offering, we have agreed to sell to the underwriters and each of the underwriters has agreed, severally and not jointly, to purchase from us, the respective number of ordinary shares shown opposite its name below.

<b>Underwriters</b>	<b>NUMBER OF SHARES</b>
Jefferies LLC	4,961,539
Cowen and Company, LLC.	4,269,231
<b>Total</b>	<b>9,230,770</b>

The underwriting agreement provides that the obligations of the several underwriters are subject to certain conditions precedent such as the receipt by the underwriters of officers' certificates and legal opinions and approval of certain legal matters by its counsel. The underwriting agreement provides that the underwriters will purchase all of the ordinary shares if any of them are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated. We have agreed to indemnify the underwriters and certain of their controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make in respect of those liabilities.

The underwriters have advised us that, following the completion of this offering, they currently intend to make a market in the ordinary shares as permitted by applicable laws and regulations. However, the underwriters are not obligated to do so, and the underwriters may discontinue any market-making activities at any time without notice in their sole discretion. Accordingly, no assurance can be given as to the liquidity of the trading market for the ordinary shares, that you will be able to sell any of the ordinary shares held by you at a particular time or that the prices that you receive when you sell will be favorable.

The underwriters are offering the ordinary shares subject to their acceptance of the ordinary shares from us and subject to prior sale. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Frederick Hallsworth, a member of our Board of Directors, has agreed to purchase 10,000 ordinary shares at the public offering price. The underwriters will receive the same underwriting discount on any ordinary shares purchased by Mr. Hallsworth as it will on any other ordinary shares sold to the public in this offering.

**Commission and Expenses**

The underwriters have advised us that they propose to offer the ordinary shares to the public at the initial public offering price set forth on the cover page of this prospectus and to certain dealers, which may include the underwriters, at that price less a concession not in excess of \$0.234 per ordinary share. After the offering, the initial public offering price and concession may be reduced by the representative. No such reduction will change the amount of proceeds to be received by us as set forth on the cover page of this prospectus.

S-27

**Table of Contents**

The following table shows the public offering price, the underwriting discounts and commissions that we are to pay the underwriters and the proceeds, before expenses, to us in connection with this offering. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	PER SHARE		TOTAL

Public offering price	\$ 6.50	\$ 6.50	\$ 60,000,005	\$ 69,000,002

Proceeds to us, before expenses	\$ 6.11	\$ 6.11	\$ 56,400,005	\$ 64,860,002

We estimate expenses payable by us in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately \$300,000. We have also agreed to reimburse the underwriters up to \$10,000 for their FINRA counsel fee. In accordance with FINRA Rule 5110, this reimbursed fee is deemed underwriting compensation for this offering.

**Listing**

Our ordinary shares are listed on The Nasdaq Global Market under the trading symbol QTNT .

**Stamp Taxes**

If you purchase ordinary shares offered in this prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus.

**Option to Purchase Additional Shares**

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase, from time to time, in whole or in part, up to an additional 1,384,615 ordinary shares from us at the public offering price set forth on the cover page of this prospectus, less underwriting discounts and commissions. If the underwriters exercise this option, each underwriter will be obligated, subject to specified conditions, to purchase a number of additional shares proportionate to that underwriter's initial purchase commitment, as indicated in the table above.

**No Sales of Similar Securities**

We have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise dispose of, directly or indirectly, (ii) file with the SEC a registration statement under the Securities Act relating to, any of our ordinary shares or securities convertible into or exchangeable or exercisable for any ordinary shares, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or (iii) enter into any swap or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of any ordinary shares or any such other securities (regardless of whether any of these transactions are to be settled by

the delivery of ordinary shares or such other securities, in cash or otherwise), in each case without the prior written consent of the representatives for a period of 90 days after the date of this prospectus supplement other than (a) the ordinary shares to be sold hereunder, (b) issuances of ordinary shares upon the exercise or vesting of options, warrants, restricted share units or multi-year restricted share units disclosed as outstanding in this prospectus supplement, the accompanying prospectus and any documents incorporated by reference herein or therein, (c) any issuance to directors, executive officers or employees of ordinary shares, share options or other equity awards not exercisable for a period of 90 days after the date of this prospectus supplement under our existing equity incentive plans, (d) issuances of ordinary shares, or any securities convertible, exercisable or exchangeable for ordinary shares, issued by us in connection with the acquisition of businesses, technologies, assets or intellectual property as long as (x) the aggregate amount of any such securities does not exceed 5% of the number of ordinary shares outstanding immediately after the issuance and sale of the ordinary shares to be sold hereunder and (y) each

person to whom such securities are issued agrees in writing with the representatives to be bound by a lock-up agreement or (e) post-effective amendments in respect of our registration statement on Form S-3 (Registration Nos. 333-203818 and 333-221470), as amended.

For a period of 90 days after the date of this prospectus supplement, our directors, executive officers and certain shareholders, holding in the aggregate approximately 8,306,556 of our ordinary shares as of December 4, 2018, have agreed that they will not, without the prior written consent of the representatives, (1) sell, offer to sell, contract or agree to sell, hypothecate, pledge, grant any option to purchase or otherwise dispose of or agree to dispose of, directly or indirectly, or file (or participate in the filing of) a registration statement in respect of, or establish or increase a put equivalent position or liquidate or decrease a call equivalent position within the meaning of Section 16 of the Exchange Act with respect to, any ordinary shares or any securities convertible into or exercisable or exchangeable for our ordinary shares (including, without limitation, ordinary shares or such other securities which may be deemed to be beneficially owned by such directors, executive officers, managers and members in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant), (2) enter into any swap or other agreement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ordinary shares or any of our other securities that are substantially similar to the ordinary shares, or any securities convertible into or exercisable for, or any warrants or other rights to acquire, our ordinary shares, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of ordinary shares or such other securities, in cash or otherwise, or (3) publicly announce an intention to effect any transaction specified in clause (1) or (2) other than (a) the registration of the offer or sale of the ordinary shares to be sold hereunder, (b) *bona fide* gifts, (c) dispositions to any trust for the direct or indirect benefit of the director, executive officer or shareholder and/or their immediate family, (d) dispositions by will, other testamentary document or intestate succession to the legal representative, heir, beneficiary or a member of the immediate family of the director, executive officer or shareholder, (e) as a distribution to the limited partners, members, trust beneficiaries or shareholders of the shareholder, (f) dispositions to the director s, executive officer s or shareholder s affiliates, or to any investment fund or other entity controlled or managed by, directly or indirectly, the director, executive officer or shareholder, (g) the entry into any trading plan established pursuant to Rule 10b5-1 under the Exchange Act, provided that such plan does not provide for any sales or other dispositions of ordinary shares during the 90 days after the date of this prospectus supplement, no public announcement or public disclosure of entry into such plan is made or required to be made, and the director, executive officer or shareholder does not otherwise voluntarily effect any public announcement or public disclosure regarding the entry into or existence of any such plan, or (h) dispositions of ordinary shares pursuant to any trading plan established pursuant to Rule 10b5-1 under the Exchange Act existing as of the date of the lock-up agreement; provided, however, that (A) in the case of any transfer or disposition pursuant to clauses (b) through (f), (i) each transferee, distributee or recipient shall execute and deliver to the representatives a lock-up agreement, (ii) no public announcement or public disclosure of entry into such plan is voluntarily made or required to be made and (iii) any such transfer or distribution shall not involve a disposition for value; and (B) in the case of any disposition pursuant to clause (h), no filing under the Exchange Act or other public announcement shall be required or shall be made voluntarily in connection with such disposition unless such filing or announcement clearly states that such disposition was made pursuant to an established trading plan meeting the requirements of Rule 10b5-1 under the Exchange Act. For purposes of this paragraph, immediate family shall mean the undersigned and the spouse, any lineal descendent, father, mother, brother or sister of the undersigned.

The representatives may, in their sole discretion and at any time or from time to time before the termination of the 90-day period, release all or any portion of the securities subject to lock-up agreements. There are no existing agreements between the underwriters and any of our shareholders who will execute a lock-up agreement, providing consent to the sale of shares prior to the expiration of the lock-up period.

## **Stabilization**

The underwriters have advised us that, pursuant to Regulation M under the Exchange Act, certain persons participating in the offering may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the imposition of penalty bids in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the ordinary shares at a level above that which might otherwise prevail

S-29

---

**Table of Contents**

in the open market. Establishing short sales positions may involve either covered short sales or naked short sales.

Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares of our ordinary shares in this offering. The underwriters may close out any covered short position by either exercising their option to purchase additional ordinary shares or purchasing ordinary shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares.

Naked short sales are sales in excess of the option to purchase additional ordinary shares. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the ordinary shares in the open market after pricing that could adversely affect investors who purchase in this offering.

A stabilizing bid is a bid for the purchase of ordinary shares on behalf of the underwriters for the purpose of fixing or maintaining the price of the ordinary shares. A syndicate covering transaction is the bid for or the purchase of ordinary shares on behalf of the underwriters to reduce a short position incurred by the underwriters in connection with the offering. Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our ordinary shares or preventing or retarding a decline in the market price of our ordinary shares. As a result, the price of our ordinary shares may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the underwriters to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the ordinary shares originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of ordinary shares. The underwriters are not obligated to engage in these activities and, if commenced, any of the activities may be discontinued at any time.

The underwriters may also engage in passive market making transactions in our ordinary shares on The Nasdaq Global Market in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of our ordinary shares in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded.

**Electronic Distribution**

A prospectus in electronic format may be made available by e-mail or on the web sites or through online services maintained by the underwriters or their affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of ordinary shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations. Other than the prospectus in electronic format, the information on the underwriters' web sites and any information contained in any other web site maintained by any of the underwriters is not part of this prospectus, has not been approved and/or endorsed by us or the underwriters and should not be relied upon by investors.

**Other Activities and Relationships**

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

S-30

**Table of Contents**

In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the underwriters or their affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The underwriters and their affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the ordinary shares offered hereby. Any such short positions could adversely affect future trading prices of the ordinary shares offered hereby. The underwriters and certain of their affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

#### **Overview**

We are a commercial-stage diagnostics company committed to reducing healthcare costs and improving patient care through the provision of innovative tests within established markets. Our initial focus is on blood grouping and donor disease screening, which is commonly referred to as transfusion diagnostics. Blood grouping involves specific procedures performed at donor or patient testing laboratories to characterize blood, which includes antigen typing and antibody identification. Disease screening involves the screening of donor blood for unwanted pathogens using two different methods, a serological approach (testing for specific antigens or antibodies) and a molecular approach (testing for DNA or RNA).

We have over 30 years of experience developing, manufacturing and commercializing conventional reagent products used for blood grouping within the global transfusion diagnostics market. We are developing MosaiQ, our proprietary technology platform, to better address the comprehensive needs of this large and established market. MosaiQ will initially comprise two separate microarrays, one for immunohematology (blood grouping), or IH, and one for serological disease screening, or SDS, and a high-throughput instrument. We are also developing a third microarray for molecular disease screening. We believe MosaiQ has the potential to transform transfusion diagnostics, significantly reducing the cost of blood grouping in the donor and patient testing environments, while improving patient outcomes.

We have a proven track record and significant expertise in product development, manufacturing and quality assurance, tailored to the highly regulated transfusion diagnostics market. We currently derive revenue from a portfolio of products used for blood grouping, as well as whole blood controls used daily for quality assurance testing of third-party blood grouping instruments. We have introduced a range of U.S. Food and Drug Administration, or FDA, licensed products in the United States under the Quotient brand, which we sell directly to donor testing laboratories, hospitals and independent patient testing laboratories. We also develop, manufacture and sell conventional reagent products to original equipment manufacturers, or OEMs, such as Ortho-Clinical Diagnostics, Inc., Bio-Rad Laboratories, Inc., and Grifols S.A.

We are developing additional conventional reagent products for our OEM customers and for sale directly in the United States under the Quotient brand.

**Table of Contents****RATIO OF EARNINGS TO FIXED CHARGES AND PREFERENCE SHARE DIVIDENDS**

The ratios of earnings to fixed charges for each of the periods indicated are set forth in the following table. Our earnings were insufficient to cover fixed charges for each of those periods. For the periods indicated, we had no outstanding preference shares with required dividend payments. Therefore, earnings were insufficient to cover combined fixed charges and preference share dividends by the same amounts referenced in footnote 1 below.

	Three Months Ended June 30, 2018	Fiscal Year Ended March 31,				
	2018	2017	2016	2015	2014	
Ratio of Earnings to Fixed Charges	(1)	(1)	(1)	(1)	(1)	

- (1) The ratio of earnings to fixed charges is computed by dividing loss before taxes plus fixed charges by fixed charges. Fixed charges consist of interest expense (including interest expense from capital leases), debt financing expense and the estimated portion of rental expense deemed by us to be representative of the interest factor of rental payments under operating leases. Earnings were insufficient to cover fixed charges by \$3.987 million for the three months ended June 30, 2018, and \$1.761 million, \$3.544 million, \$6.059 million, \$11.854 million and \$17.622 million for the years ended March 31, 2014, 2015, 2016, 2017 and 2018, respectively.

**Authorized and Issued Share Capital**

We are a no par value company, meaning that our shares do not have any nominal or par value. Our constitutional documents permit us to issue an unlimited number of shares.

The issued share capital of our company as of August 3, 2018 was 54,187,042 fully paid ordinary shares of nil par value and 666,665 fully paid 7% cumulative redeemable preference shares of nil par value.

**Ordinary Shares**

Ordinary shares we may issue from time to time will have no preemptive rights or other rights to subscribe for additional ordinary shares, no rights of redemption, conversion or exchange and no sinking fund rights. In the event of liquidation, dissolution or winding-up, the holders of our ordinary shares are entitled to share equally and ratably in our assets, if any, remaining after the payment of all our debts and liabilities and the liquidation preference of any issued and outstanding preference shares, if applicable. All of the ordinary shares offered will be fully paid and non-assessable. Holders of our ordinary shares are entitled to receive such dividends as may be lawfully declared from time to time by our board of directors.

**Preference Shares**

Subject to limitations contained in our Memorandum and Articles of Association and in any Statement of Rights filed at the Companies Registry in Jersey in respect of the Company and any limitations prescribed by applicable law, our Board of Directors is authorized to issue preference shares in one or more series and to fix the designation, powers, preferences and rights and the qualifications, limitations or restrictions of such shares, including but not limited to dividend rates, conversion rights, voting rights, terms of redemption/repurchase (including sinking fund provisions), redemption/repurchase prices and liquidation preferences, and the number of shares constituting and the designation of any such series, without further vote or action by our shareholders. Each prospectus supplement will describe, as to the preference shares to which it relates, the title of the series, the designation, powers, preferences and rights the series, the qualifications, limitations and restrictions of the series and any other material terms of the series. All of the preference shares offered will be fully paid and non-assessable.

***Existing Preference Shares***

***7% Cumulative Redeemable Preference Shares***

On January 30, 2015, we issued in a private placement 666,665 7% cumulative redeemable preference shares, which we refer to below as the preference shares, at a price of \$22.50 per share, for an aggregate

subscription price of approximately \$15 million. The material terms and provisions of the preference shares, as set forth in the Statement of Rights in relation to Preference Shares in the capital of the Company, or the Statement of Rights, are summarized below. The following description is subject to, and qualified in its entirety by, the Statement of Rights, which is filed as an exhibit to our Current Report on Form 8-K filed with the SEC on January 30, 2015 and incorporated by reference into this prospectus. You should review a copy of the Statement of Rights for a complete description of the terms and conditions applicable to the preference shares.

Each preference share has a right to a cumulative preferential dividend of 7% per annum of the subscription price paid for that preference share on and from the date of issue of such preference share to (but excluding) the date of redemption of such preference share, or the Preferential Dividend. The Preferential Dividend accrues quarterly and is payable in connection with the redemption of the preference shares. We have the right (but are under no obligation) to make payments from time to time of some or all of the then accrued but unpaid Preferential Dividend balance, and will not declare or pay dividends or make any other distributions of income or profits to the holders of our ordinary shares for so long as any accrued Preferential Dividend remains accrued but unpaid.

The holders of the preference shares have the right to require us to redeem the preference shares after four years, or the Holder Redemption Trigger Date, subject to our right to extend the Holder Redemption Trigger Date in one year increments up to a maximum of ten (10) years from the issue date. We have the right to redeem all or some of the preference shares at any time. The preference shares are subject to automatic redemption upon a Change of Control of our company as defined in the Statement of Rights. On the redemption of the preference shares, we will first pay the amount of the accrued Preferential Dividend and then the redemption price per preference share, which is equal to the subscription price paid therefor.

On a winding-up or liquidation of our company, the preference shares will rank *pari passu* with our ordinary shares with respect to the repayment of amounts paid up thereon. Immediately prior to a winding-up or liquidation of our company, all accrued and unpaid Preferential Dividends in respect of the preference shares will be capitalized into new preference shares on the basis of one (1) new preference share for each whole \$22.50 of Preferential Dividend accrued.

The holders of the preference shares are subject to certain transfer restrictions and also have certain other rights described in the Statement of Rights.

## **Memorandum and Articles of Association**

Public limited companies formed under the laws of Jersey, Channel Islands are governed in general by two organizational documents, a Memorandum of Association and Articles of Association. The Memorandum of Association sets forth the basic constitutional details of the company and its authorized share capital. The Articles of Association set forth other general corporate matters, including the rights of shareholders and provisions concerning shareholder and director meetings and directors' terms and fees. The full text of both our Memorandum of Association and Articles of Association we have previously filed and are incorporated by reference as exhibits to the registration statement of which this prospectus forms a part.

## **Quotient Memorandum of Association**

Under the Jersey Companies Law, the capacity of a Jersey company is not limited by anything contained in its Memorandum or Articles of Association. Accordingly, we are able to operate in any markets and to provide any services which are legally permissible and that the directors deem appropriate. Our Memorandum of Association permits us to issue an unlimited number of shares and warrants.

#### ***Voting rights***

Each shareholder (other than holders of the preference shares) is entitled to one vote on a show of hands and to one vote per share held by such shareholder on a poll. There is no cumulative voting of shares.

Shareholders are ineligible to vote (unless our board determines otherwise) if any call or other sum presently payable by the shareholder to us in connection with such shares remains unpaid.

No holder of a preference share is entitled to vote (either in person or by proxy and whether by ballot or on a show of hands) at any general meeting of the Company or be counted in determining the total number of votes which may be cast at any such meeting, or required for the purposes of an ordinary resolution or special resolution of any members or any class of members, or for the purposes of any other consent required under our Articles of Association, except that the holders of the preference shares are entitled to receive notice of, attend and vote at any meeting of the holders of the preference shares as a class, where each holder of a preference share is entitled to vote one vote per share on a poll.

#### ***Transfer of Shares***

Shareholders may transfer certificated shares through a customary share transfer form and the presentation of the applicable physical share certificate. Any of our shares purchased on NASDAQ represent only beneficial interests in the underlying aggregate certificated share position held by DTC. Transfers in street name through the DTC system are legally considered a transfer of the beneficial interest and are to be conducted in accordance with NASDAQ and DTC procedures.

Beneficial holders in street name may request at any time that actual ordinary shares in certificated form be registered in their name, which would therefore accord them full rights as legal shareholders under Jersey law. A beneficial holder's broker may obtain on such holder's behalf shares in certificated form through Continental Stock Transfer & Trust Company, our transfer agent. However, the conversion from a beneficial interest in securities legally owned by Cede & Co., the nominee used by DTC, as holder of legal title to the securities to actual securities, and *vice versa*, may require both time and the payment of processing fees to our transfer agent in addition to fees that may be levied by a beneficial holder's brokerage firm.

Our Board of Directors in its discretion may suspend the registration of transfers of shares for periods not exceeding thirty (30) days in any year. Our Board of Directors may also decline to register transfers of shares:

that are not fully paid; and

upon which we have a lien.

If our Board of Directors declines to register a transfer of shares, we must notify the transferee within two (2) months thereafter.

#### ***Dividends and Other Distributions***

In order to be able to declare any dividends, our directors must issue a statutory solvency statement to the effect that, immediately following the date on which the dividends are proposed to be paid, the company will be able to discharge its liabilities as they fall due and, having regard to the prospects of the company and to the intentions of the directors with respect to the management of the company's business and the amount and character of the financial resources that will in the view of the directors be available to the company, the company will be able to continue to carry on business and discharge its liabilities as they fall due for the twelve (12) months immediately following the date on which the dividend is proposed to be paid (or until the company is dissolved on a solvent basis, if earlier).

- 11 -

## **Table of Contents**

Dividends (other than a preferential dividend) must be apportioned and paid *pro rata* according to the amounts paid on shares, unless otherwise specified in the rights attached to a specific class or classes of shares. Dividends (other than a preferential dividend) do not accrue interest and may, if unclaimed, be invested by our Board of Directors on our behalf until claimed. Any dividend unclaimed after a period of twelve (12) years from the date of declaration of such dividend or the date on which such dividend became due for payment is forfeited and becomes our property.

Our Articles of Association provide that our Board of Directors may offer our shareholders the right to receive in lieu of any cash dividend (or part thereof) that we declare on our ordinary shares, such number of our ordinary shares that are (or nearly as possible) equivalent in value to the cash dividend, based on the market price of such shares determined in accordance with our Articles of Association.

The terms of our preference shares provide that, other than the Preferential Dividend, no holder of preference shares has any right to participate in any distribution made by the Company, whether of income, profits or otherwise.

## ***Winding Up***

If we are wound up (whether the liquidation is voluntary, under supervision, or by the courts of Jersey) the liquidator (or the board, where no liquidator is appointed) may, with the authority of a special resolution of our shareholders, divide among our shareholders part or all of our assets, or transfer any part of our assets to a trustee for the benefit of our shareholders.

## ***Changes in Capital and Allotment of Securities***

We may, by special resolution of our shareholders, alter our Memorandum of Association to increase or reduce the number of shares that we are authorized to issue, to consolidate all or any of our shares (whether issued or not) into fewer shares or to divide all or any of our shares (whether issued or not) into more shares, in each case in compliance with the Jersey Companies Law.

Subject to the provisions of the Jersey Companies Law, our board has the discretion to issue authorized but unissued shares.

## ***Variation of Class Rights***

The rights attaching to any class of shares may only be altered by written consent of holders of not less than two-thirds (2/3) in number of the issued shares of that class, or by special resolution of the relevant class passed at a class shareholder meeting by the holders of not less than two-thirds (2/3) in number of the issued shares of that class being voted in person or by proxy at such meeting.

## ***Change in Control***

There are no provisions in our Articles of Association which would have an effect of delaying, deferring or preventing a change in our control.

## ***General Meetings***

An annual general meeting and any other shareholders' meeting (whether convened for the passing of an ordinary or a special resolution of our shareholders) shall be called by at least fourteen (14) clear days' notice given to our shareholders, directors and our auditors.

## **Table of Contents**

### ***Borrowing Powers***

Our Board of Directors has the full authority to authorize our entry into agreements to borrow money, to grant security over our assets and to issue debentures and other securities whether outright or as collateral security for any debt, liability or obligation of us or of any third party.

### ***Directors***

We may, by resolution of our shareholders, vary the minimum or maximum number of directors (subject to a minimum of two (2) directors). Currently the minimum number of directors is two (2) and there is no maximum number of directors. We currently have eight (8) members on our Board of Directors.

Shareholders are only able to appoint a person as a director at a shareholder meeting if (i) the relevant person has been recommended by our board or is a serving director who is retiring at that shareholder meeting; or (ii) if a shareholder (other than the person proposed as a director) who is entitled to attend and vote at that shareholder meeting has submitted written notice to us of their intention to nominate the relevant person during the period from (and including) the date that is one hundred twenty (120) days before, to and including the date that is ninety (90) days before, the first anniversary of the last annual general meeting of the Company meeting, along with a notice from the relevant person confirming their willingness to be appointed.

Directors are required to disclose any conflicts of interest with respect to any contract or proposed contract or any other arrangement or proposed arrangement with us.

### **Other Jersey, Channel Islands Law Considerations**

#### ***Purchase of Own Shares***

As with declaring a dividend, we may not buy back or redeem our shares unless our directors who are to authorize the buy back or redemption have made a statutory solvency statement that, immediately following the date on which the buy back or redemption is proposed, the company will be able to discharge its liabilities as they fall due and, having regard to prescribed factors, the company will be able to continue to carry on business and discharge its liabilities as they fall due for the twelve (12) months immediately following the date on which the buy back or redemption is proposed (or until the company is dissolved on a solvent basis, if earlier).

If the above conditions are met, we may purchase shares in the manner described below.

We may purchase on a stock exchange our own fully paid shares pursuant to a special resolution of our shareholders. The resolution authorizing the purchase must specify:

the maximum number of shares to be purchased;

the maximum and minimum prices which may be paid; and

a date, not being later than eighteen (18) months after the passing of the resolution, on which the authority to purchase is to expire.

We may purchase our own fully paid shares otherwise than on a stock exchange pursuant to a special resolution of our shareholders but only if the purchase is made on the terms of a written purchase contract which has been approved by an ordinary resolution of our shareholders. The shareholder from whom we propose to purchase or redeem shares is not entitled to take part in such shareholder vote in respect of the shares to be purchased.

We may fund a redemption or purchase of our own shares from any source. We cannot purchase our shares if, as a result of such purchase, only redeemable shares would remain in issue.

- 13 -

## **Table of Contents**

If authorized by a resolution of our shareholders, any shares that we redeem or purchase may be held by us as treasury shares. Any shares held by us as treasury shares may be cancelled, sold, transferred for the purposes of or under an employee share scheme or held without cancelling, selling or transferring them. Shares redeemed or purchased by us are cancelled where we have not been authorized to hold these as treasury shares.

### ***Mandatory Purchases and Acquisitions***

The Jersey Companies Law provides that where a person has made an offer to acquire a class of all of our outstanding shares not already held by the person and has as a result of such offer acquired or contractually agreed to acquire ninety percent (90%) or more of such outstanding shares, that person is then entitled (and may be required) to acquire the remaining shares. In such circumstances, a holder of any such remaining shares may apply to the Jersey court for an order that the person making such offer not be entitled to purchase the holder's shares or that the person purchase the holder's shares on terms different to those under which the person made such offer.

Other than as described above, we are not subject to any regulations under which a shareholder that acquires a certain level of share ownership is then required to offer to purchase all of our remaining shares on the same terms as such shareholder's prior purchase.

### ***Compromises and Arrangements***

Where we and our creditors or shareholders or a class of either of them propose a compromise or arrangement between us and our creditors or our shareholders or a class of either of them (as applicable), the Jersey court may order a meeting of the creditors or class of creditors or of our shareholders or class of shareholders (as applicable) to be called in such a manner as the court directs. Any compromise or arrangement approved by a majority in number representing seventy-five percent (75%) or more in value of the creditors or seventy-five percent (75%) or more of the voting rights of shareholders or class of either of them (as applicable) if sanctioned by the court, is binding upon us and all the creditors, shareholders or members of the specific class of either of them (as applicable).

Whether the capital of the company is to be treated as being divided into a single or multiple class(es) of shares is a matter to be determined by the court. The court may in its discretion treat a single class of shares as multiple classes, or multiple classes of shares as a single class, for the purposes of the shareholder approval referred to above taking into account all relevant circumstances, which may include circumstances other than the rights attaching to the shares themselves.

### ***No Pre-Emptive Rights***

The Jersey Companies Law does not confer any pre-emptive rights to purchase our shares or warrants on our security holders.

### ***Rights of Minority Shareholders***

Under Article 141 of the Jersey Companies Law, a shareholder may apply to court for relief on the ground that the conduct of our affairs, including a proposed or actual act or omission by us, is unfairly prejudicial to the interests of our shareholders generally or of some part of our shareholders, including at least the shareholder making the application. What amounts to unfair prejudice is not defined in the Jersey Companies Law. There may also be common law personal actions available to our shareholders.

Under Article 143 of the Jersey Companies Law (which sets out the types of relief a court may grant in relation to an action brought under Article 141 of the Jersey Companies Law), the court may make an order regulating our affairs, requiring us to refrain from doing or continuing to do an act complained of, authorizing civil proceedings and providing for the purchase of shares by us or by any of our other shareholders.

**DESCRIPTION OF THE DEBT SECURITIES**

The following description of our debt securities sets forth certain terms and provisions of our debt securities that we may offer from time to time in one or more distinct series. This section summarizes certain terms of any debt securities that we anticipate will be common to all series that we may offer under this prospectus. Please note that the terms of any series of debt securities that we may offer may differ significantly from the common terms described in this prospectus. Most of the specific terms of any series of debt securities that we offer, and any differences from the common terms described in this prospectus, will be described in the prospectus supplement for such securities to be attached to the front of this prospectus.

An indenture will govern any debt securities that we issue. An indenture is a contract between us and a financial institution acting as trustee on your behalf. We will enter into an indenture with an institution having corporate trust powers, which will act as trustee, relating to any debt securities that are offered by this prospectus. The indenture will be subject to the Trust Indenture Act of 1939, as amended. The trustee under an indenture has the following two main roles:

the trustee can enforce your rights against us if we default; there are some limitations on the extent to which the trustee acts on your behalf, which are described later in this prospectus; and

the trustee will perform certain administrative duties for us, which include sending you interest payments and notices.

As this section is a summary of some of the terms of the debt securities we may offer under this prospectus, it does not describe every aspect of the debt securities. In particular, the form of indenture we have previously filed and have incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part is a base indenture which contemplates that the specific terms of any debt securities may be set forth in one or more resolutions of our board of directors or supplemental indentures to the indenture. We urge you to read the indenture and the other documents (including any supplemental indentures) we file with the SEC relating to the debt securities because the indenture for those securities and those other documents, and not this description, will define your rights as a holder of our debt securities. We will file any such other documents (including any supplemental indentures) as exhibits to an annual, quarterly or other report that we file with the SEC. See [Where You Can Find More Information](#) for information on how to obtain copies of the indenture and any such other documents. References to the indenture mean the indenture that will define your rights as a holder of debt securities, a form of which we have filed as an exhibit to the registration statement. The actual indenture we enter into in connection with an offering of debt securities may differ significantly from the form of indenture we have filed.

**General**

The indenture does not limit the aggregate principal amount of our debt securities that we may issue. We may issue our debt securities under the indenture from time to time in one or more series. The indenture does not limit the amount of other indebtedness, or our debt securities other than secured indebtedness, which we or our subsidiaries may issue.

Unless otherwise provided in a prospectus supplement, our senior debt securities will be our unsecured obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness. Our subordinated debt securities will be our unsecured obligations and will be subordinated in right of payment to the prior payment in full

of all of our senior indebtedness.

Each prospectus supplement will describe the following terms of the offered debt securities:

the title of the series;

any limit on the aggregate principal amount;

- 16 -

Unless otherwise set forth in the applicable prospectus supplement, principal of, premium and interest on our debt securities will initially be payable at the corporate trust office of the trustee or any other office or agency designated by us. Interest on our debt securities issued in registered form:

may be paid by check mailed to the persons entitled to the payments at their addresses appearing on the security register or by transfer to an account maintained by the payee with a bank located in the United States; and

will be payable on any interest payment date to the persons in whose names the debt securities are registered at the close of business on the regular record date with respect to the interest payment date.

We will designate the initial paying agents, which will be named in the applicable prospectus supplement, and may, at any time, designate additional paying agents, rescind the designation of any paying agent or approve a change in the office through which any paying agent acts. However, we are required to maintain a paying agent in each place where the principal of or any premium or interest on our debt securities are payable.

Unless otherwise set forth in the applicable prospectus supplement, you may present our debt securities for transfer, duly endorsed or accompanied by a written instrument of transfer if so required by us or the security registrar, or exchange for other debt securities of the same series containing identical terms and provisions, in any authorized denominations, and of a like aggregate principal amount, in each case at the office or agency maintained by us for this purpose, which will initially be the corporate trust office of the trustee. Any transfer or exchange will be made without service charge, although we may require payment of a sum sufficient to cover any tax or other governmental charge and any other expenses then payable. We are not required to:

issue, register the transfer of, or exchange our debt securities during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any debt securities and ending at the close of business on the day of mailing; or

register the transfer of or exchange any debt security selected for redemption, in whole or in part, except the unredeemed portion of any debt security being redeemed in part.

Our debt securities issued as original issue discount securities will be sold at a substantial discount below their principal amount.

U.S. federal income tax and other considerations applicable to original issue discount securities will be described in the applicable prospectus supplement.

If the purchase price, or the principal of, or any premium or interest on any of our debt securities is payable in, or if any of our debt securities are denominated in, one or more foreign currencies or currency units, the restrictions, elections, U.S. federal income tax considerations, specific terms and other information will be set forth in the applicable prospectus supplement.

Unless otherwise set forth in the applicable prospectus supplement, the indenture will not limit our ability to incur indebtedness or protect holders of our debt securities in the event of a sudden and significant decline in our credit quality or a takeover, recapitalization or highly leveraged or similar transaction involving us. Accordingly, we could in the future enter into transactions that could increase the amount of our outstanding indebtedness or otherwise affect our capital structure or credit rating.

There is no requirement that we issue debt securities in the future under the indenture, and we may use other indentures or documentation, containing different provisions in connection with future issues of other debt securities.

## **Conversion and Exchange**

The terms, if any, on which our debt securities are convertible into or exchangeable for, either mandatorily or at our or your option, property or cash, ordinary shares, preference shares or other securities, whether or not issued by us, or a combination of any of these, will be set forth in the applicable prospectus supplement.

## **Global Securities**

Our debt securities may be issued, in whole or in part, in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the applicable prospectus supplement and registered in the name of the depositary or its nominee. Interests in any global debt security will be shown on, and transfers of our debt securities will be effected only through, records maintained by the depositary and its participants as described below.

The specific terms of the depositary arrangement will be described in the applicable prospectus supplement.

## **Covenants Applicable to Debt Securities**

The prospectus supplement related to an issuance of debt securities by us will set forth covenants that impose limitations and restrictions on us and our subsidiaries.

**Table of Contents**

**Consolidation, Amalgamation, Merger and Sale of Assets**

The indenture provides that we may not:

consolidate or amalgamate with or merge into any person or convey, sell, transfer or lease our properties and assets as an entirety or substantially as an entirety to any person; or

permit any person to consolidate or amalgamate with or merge into us, or convey, sell, transfer or lease its properties and assets as an entirety or substantially as an entirety to us;

unless:

the surviving entity (if other than us) expressly assumes the payment of all amounts on all of our debt securities and the performance of our obligations under the indenture and our debt securities;

the surviving entity (if other than us) provides for conversion or exchange rights in accordance with the provisions of our debt securities of any series that are convertible or exchangeable into ordinary shares or other securities;

immediately after giving effect to the transaction no event of default, and no event which after notice or lapse of time or both would become an event of default, will have happened and be continuing; and

we deliver an officers' certificate and legal opinion to the trustee with respect to the transaction.

**Events of Default**

Unless otherwise stated in the applicable prospectus supplement, each of the following events will constitute an event of default under the indenture for any series of debt securities issued hereunder:

default in the payment of any interest on any debt security of such series when the interest becomes due and payable, and continuance of this default for a period of 30 days;

default in the payment of the principal of or any premium on any debt security of such series when the principal or premium becomes due and payable either at maturity, upon any redemption, by declaration of acceleration or otherwise;

default in the deposit of any sinking fund payment when due;

default in the performance of any covenant in respect of the debt securities of such series, and the continuance of this default for a period of 60 days after we have received written notice from the trustee or the holders;

our bankruptcy, insolvency or reorganization; and

any other event of default, which will be described in the applicable prospectus supplement.

If an event of default with respect to our debt securities of any series, other than events of bankruptcy, insolvency or reorganization, occurs and is continuing, either the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of the series may declare the principal amount, or a lesser amount as may be provided for in our debt securities, of all outstanding debt securities of the series to be immediately due and payable by written notice. At any time after a declaration of acceleration has been made, but before a judgment or decree for payment of money has been obtained by the trustee, generally, the holders of not less than a majority in principal amount of the debt securities of the series may rescind and annul the declaration of acceleration. Any event of bankruptcy, insolvency or reorganization will cause the principal amount and accrued interest, or the lesser amount as provided for in our debt securities, to become immediately due and payable without any declaration or other act by the trustee or any holder.

## **Table of Contents**

The indenture provides that, within 90 days after the occurrence of any event which is, or after notice or lapse of time or both would become, an event of default the trustee will transmit notice of the default to each holder of our debt securities unless the default has been cured or waived. However, except in the case of a default in the payment of principal of, or premium, or interest, if any, on or any sinking fund or purchase fund installment with respect to any debt security, the trustee may withhold this notice if and so long as the board of directors, executive committee or trust committee of directors and/or responsible officers of the trustee determines in good faith that the withholding of the notice is in the best interest of the holders.

If an event of default occurs and is continuing with respect to our debt securities of any series, the trustee may, in its discretion, proceed to protect and enforce its rights and the rights of the holders of our debt securities by all appropriate judicial proceedings. The indenture provides that, subject to the duty of the trustee during any default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders, unless the holders have offered the trustee reasonable indemnity. Subject to these indemnification provisions, the holders of a majority in principal amount of our outstanding debt securities of any series will generally have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of such series.

## **Modification and Waiver**

We and the trustee may modify or amend the indenture with the consent of the holders of not less than a majority in principal amount of the outstanding debt securities of each series affected by the modification or amendment, so long as the modification or amendment does not, without the consent of each affected holder:

change the stated maturity of the principal of or any premium or installment of interest on any debt security;

reduce the principal amount of, or the rate, or modify the calculation of the rate, of interest on, or any premium payable upon the redemption of, any debt security;

reduce the amount of the principal of an original issue discount security that would be due and payable upon a declaration of acceleration of the maturity of the original issue discount security or the amount provable in bankruptcy;

change the place of payment or the coin or currency in which the principal of or any premium or interest on with respect to any debt security is payable;

impair the right to institute suit for the enforcement of any payment on or after the stated maturity of any debt security or, in the case of redemption, on or after the redemption date or, in the case of repayment at the option of any holder, on or after the repayment date;

reduce the percentage in principal amount of our outstanding debt securities, the consent of whose holders is required in order to take specific actions;

modify any of the provisions regarding the waiver of past defaults and the waiver of specified covenants by the holders of our debt securities, except to increase any percentage of consents required;

make any change that adversely affects the right to convert or exchange any debt security into or for our ordinary shares or other securities, whether or not issued by us, cash or property in accordance with its terms;

modify any of the provisions of any supplemental indenture relating to the subordination of our subordinated debt securities in a manner adverse to holders of our subordinated debt securities; or

modify any of the above provisions of the indenture dealing with modification and waiver in any other respect, except to increase any percentage of consents required to amend the indenture or for

**Table of Contents**

any waiver or to add to the provisions that cannot be modified without the approval of each affected holder.

We and the trustee may modify or amend the indenture and our debt securities of any series without the consent of any holder in order to, among other things:

provide for a successor to our company pursuant to a consolidation, amalgamation, merger or sale of assets;

add to our covenants for the benefit of the holders of all or any series of our debt securities or to surrender any right or power conferred upon us;

provide for a successor trustee with respect to our debt securities of all or any series;

cure any ambiguity or correct or supplement any provision which may be defective or inconsistent with any other provision, or to make any other provisions with respect to matters or questions arising under the indenture which will not adversely affect the interests of the holders of our debt securities of any series;

change the conditions, limitations and restrictions on the authorized amount, terms or purposes of issue, authentication and delivery of our debt securities;

add any additional events of default with respect to all or any series of our debt securities;

add guarantees of any series of our debt securities or secure any series of our debt securities;

provide for conversion or exchange rights of the holders of any series of our debt securities;

make any other change that does not materially adversely affect the interests of the holders of any of our debt securities then outstanding; or

comply with any requirement of the SEC in connection with the qualification of the indenture under the U.S. Trust Indenture Act of 1939.

The holders of not less than a majority in principal amount of our outstanding debt securities of any series may, on behalf of the holders of all debt securities of that series, waive any past default and its consequences with respect to the debt securities of that series, except a default:

in the payment of principal of or any premium or interest on the debt securities of that series; or

in respect of a covenant or provision that cannot be modified or amended without the consent of the holder of each outstanding debt security of any series affected.

Under the indenture, we must annually furnish the trustee with a statement regarding our performance of specified obligations and any default in our performance under the indenture. We are also required to deliver to the trustee, within five days after its occurrence, written notice of any event of default, or any event which after notice or lapse of time or both would constitute an event of default, resulting from the failure to perform any covenant contained in the indenture or our debt securities.

### **Defeasance and Covenant Defeasance**

We may discharge all our obligations on our debt securities, which we refer to as defeasance, or elect to be discharged from complying with certain covenants in the indenture, except for certain ministerial obligations, like registering transfers or exchanges of our debt securities, which we refer to as covenant defeasance.

Defeasance or covenant defeasance, as the case may be, will be conditioned upon the irrevocable deposit by us with the trustee, in trust, of a cash amount or government obligations, or both, which, through the scheduled payment of principal and interest in accordance with their terms, will provide money in an amount sufficient to pay the principal of and any premium and interest on our debt securities on the scheduled due dates.

## **Table of Contents**

We may only do this if, among other things:

the defeasance or covenant defeasance does not result in a breach or violation of, or constitute a default under, the indenture or any other material agreement or instrument to which we are a party or by which we are bound;

no event of default or event which with notice or lapse of time or both would become an event of default with respect to our debt securities to be defeased will have occurred and be continuing on the date of establishment of the trust and, with respect to defeasance only, there shall not have occurred a bankruptcy, insolvency or reorganization at any time during the period ending on the 91st day after that date; and

we have delivered to the trustee an opinion of counsel to the effect that you will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance or covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance or covenant defeasance had not occurred. The opinion of counsel, in the case of defeasance, must refer to and be based upon a letter ruling of the Internal Revenue Service received by us, a revenue ruling published by the Internal Revenue Service or a change in applicable U.S. federal income tax law occurring after the date of the indenture.

### **New York Law to Govern**

The indenture and our debt securities will be governed by, and construed in accordance with, the laws of the state of New York.

We will irrevocably submit to the non-exclusive jurisdiction of any New York state court or any U.S. federal court sitting in the Borough of Manhattan, The City of New York, in respect of any legal action or proceeding arising out of or in relation to the indenture and the debt securities and will agree that all claims in respect of such legal action or proceeding may be heard and determined in such New York state or U.S. federal court and will waive, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of any such action or proceeding in any such court.

### **Information Concerning the Trustee**

We may, from time to time, borrow from or maintain deposit accounts and conduct other banking transactions with the trustee and its affiliates in the ordinary course of business.

Under the indenture, the trustee is required to transmit annual reports to all holders regarding its eligibility and qualifications as trustee under the indenture and related matters.

**General**

The rights may be issued under the rights agreement independently or together with any other securities offered by a prospectus supplement. If rights are offered, the applicable prospectus supplement will describe the specific terms and provisions of the rights, which may differ from the terms described in this prospectus. To the extent that any particular terms of the rights described in a prospectus supplement differ from any of the terms described herein, then the terms described herein will be deemed to have been superseded by that prospectus supplement. The prospectus supplement will include the following terms, without limitations:

the exercise price;

the date of determining the shareholders entitled to the rights distribution;

the aggregate number of ordinary shares or preference shares purchasable upon exercise of the rights;

the aggregate number of rights issued;

the method by which holders of rights will be entitled to exercise;

the conditions to the completion of the offering, if any;

the withdrawal, termination and cancellation rights, if any;

any applicable federal income tax considerations; and

any other terms of the rights, including terms, procedures and limitations relating to the distribution, exchange and exercise of the rights.

Each right will entitle the holder of rights to purchase for cash the number of ordinary shares or preference shares at the exercise price provided in the applicable prospectus supplement. Rights may be exercised at any time up to the close of business on the expiration date for the rights provided in the applicable prospectus supplement.

### **Exercise of Rights**

Holders may exercise rights as described in the applicable prospectus supplement. Upon receipt of payment and the rights certificate properly completed and duly executed at the corporate trust office of the rights agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the ordinary shares or preference shares, as applicable, purchasable upon exercise of the rights. If less than all of the rights issued in any rights offering are exercised, we may offer any unsubscribed securities directly to persons other than shareholders, to or through agents, underwriters or dealers or through a combination of such methods, including pursuant to standby arrangements, as described in the applicable prospectus supplement.

**DESCRIPTION OF THE WARRANTS TO PURCHASE ORDINARY SHARES OR PREFERENCE SHARES**

The following summary sets forth certain terms and provisions of the ordinary share warrants and preference share warrants. The warrants will be issued pursuant to a share warrant agreement between us and a share warrant agent to be selected at the time of issue.

**General**

The share warrants may be issued under the share warrant agreement independently or together with any other securities offered by a prospectus supplement. If share warrants are offered, the applicable prospectus supplement will describe the designation and the specific terms of the share warrants, which may differ from the terms described in this prospectus. To the extent that any particular terms of the warrants described in a prospectus supplement differ from any of the terms described herein, then the terms described herein will be deemed to have been superseded by that prospectus supplement. We encourage you to read the applicable warrant agreement, which we will file as an exhibit to, or incorporate by reference in, the registration statement of which this prospectus forms a part. The prospectus supplement will include the following terms, without limitations:

the offering price, if any;

the designation and terms of the ordinary shares or preference shares purchasable upon exercise of the share warrants;

if applicable, the date on and after which the share warrants and the related offered securities will be separately transferable;

the number of ordinary shares or preference shares purchasable upon exercise of one share warrant and the initial price at which shares may be purchased upon exercise of the share warrant;

the date on which the right to exercise the share warrants shall commence and the date on which these rights shall expire;

a discussion of the material U.S. federal income tax considerations;

any call provisions;

the currency in which the offering price, if any, and exercise price are payable;

the antidilution provisions of the share warrants;

the maximum or minimum number of warrants that may be exercised at any time;

information with respect to book-entry procedures, if any; and

any other terms of the share warrants.

The ordinary shares or preference shares issuable upon exercise of the share warrants will, when issued in accordance with the share warrant agreement, be fully paid and nonassessable. This means that the shares will be paid for in full at the time they are issued, and, once they are paid for in full, there will be no further liability for further assessments or taxation.

### **Exercise of Share Warrants**

You may exercise your share warrants by surrendering to the share warrant agent your share warrant certificate with the form of election to purchase on the reverse of the certificate properly completed and executed by you, or your authorized agent, which signature must be guaranteed by a bank or trust company, by a broker or dealer which is a member of the Financial Industry Regulatory Authority, which we refer to in this prospectus as

---

the FINRA, or by a member of a national securities exchange. You must indicate on the form of election whether you are electing to exercise all or a portion of the share warrants evidenced by the certificate. You must also submit a payment of the aggregate exercise price of the share warrants to be exercised in lawful money of the United States along with your share warrant certificates, unless otherwise set forth in the applicable prospectus supplement. Upon receipt of the share warrant certificate, form of election and aggregate payment, if applicable, by the share warrant agent, the share warrant agent will requisition from the transfer agent for the ordinary shares or the preference shares, as the case may be, a certificate representing the number of ordinary shares or preference shares purchased for issuance and delivery to you or upon your written order. If you exercise less than all of the share warrants evidenced by any share warrant certificate, the share warrant agent shall deliver to you a new share warrant certificate representing your unexercised share warrants.

**Anti-dilution and Other Provisions**

The exercise price payable, the number of ordinary shares or preference shares purchasable upon the exercise of each share warrant and the number of share warrants outstanding are subject to adjustment if specified events occur. These events include:

the issuance of a stock dividend to holders of ordinary shares or preference shares; and

a combination, subdivision or reclassification of ordinary shares or preference shares.

In lieu of adjusting the number of ordinary shares or preference shares purchasable upon exercise of each share warrant, we may elect to adjust the number of share warrants. No adjustment in the number of shares purchasable upon exercise of the share warrants will be required until cumulative adjustments require an adjustment of at least 1% in the number of shares purchasable. We may also, at our option, reduce the exercise price at any time. No fractional shares will be issued upon exercise of share warrants, but we will pay the cash value of any fractional shares otherwise issuable. Notwithstanding the preceding sentences, in case of any consolidation, merger, or sale or conveyance of our property as an entirety or substantially as an entirety, you, as a share warrant holder, shall have the right to the kind and amount of shares of stock and other securities and property, including cash, receivable by a holder of the number of ordinary shares or preference shares into which your share warrants were exercisable immediately prior to this event.

**No Rights as Shareholders**

You will not be entitled, by virtue of being a share warrant holder, to vote, to consent, to receive dividends, to receive notice as shareholders with respect to any meeting of shareholders for the election of our directors or any other matter, or to exercise any rights whatsoever as shareholders of our company.

**PLAN OF DISTRIBUTION**

We may sell the offered securities in any one or more of the following ways from time to time:

through agents;

to or through underwriters;

through dealers; or

directly to purchasers.

The applicable prospectus supplement will set forth the specific terms of the offering of the offered securities, including:

the terms of the offering, including the offering price;

the name or names of any underwriters (including managing underwriters), dealers or agents;

the purchase price of the offered securities and the net proceeds to us from the sale;

any underwriting discounts, concessions, commissions or agency fees and other items constituting underwriters , dealers or agents compensation, which may be changed from time to time;

any delayed delivery arrangements; and

the offering expenses.

The distribution of the offered securities may be effected from time to time:

in one or more transactions at a fixed price or prices, which may be changed;

at market prices prevailing at the time of sale;

at prices related to the prevailing market prices; or

at negotiated prices.

Offers to purchase offered securities may be solicited by agents designated by us from time to time. Any agent involved in the offer or sale of the offered securities in respect of which this prospectus is delivered will be named, and any commissions payable by us to the agent will be set forth, in the applicable prospectus supplement. Any agent may be deemed to be an underwriter, as that term is defined in the Securities Act, of the offered securities so offered and sold.

If offered securities are sold to the public by means of an underwritten offering, either through underwriting syndicates represented by managing underwriters or directly by the managing underwriters, we will execute an underwriting agreement with an underwriter or underwriters, and the names of the specific managing underwriter or underwriters, as well as any other underwriters, will be set forth in the applicable prospectus supplement. In addition, the terms of the transaction, including commissions, discounts and any other compensation of the underwriters and dealers, if any, will be set forth in the applicable prospectus supplement, which prospectus supplement will be used by the underwriters to make resales of the offered securities. If underwriters are utilized in the sale of the offered securities, the offered securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including:

negotiated transactions;

at fixed public offering prices; or

at varying prices determined by the underwriters at the time of sale.

## **Table of Contents**

In addition, the underwriting agreement will provide that the obligations of the underwriters are subject to specified conditions precedent and that the underwriters with respect to a sale of offered securities will be obligated to purchase all of the offered securities of a series if any are purchased.

We may grant to the underwriters options to purchase additional offered securities to cover over-allotments, if any, at the public offering price, with additional underwriting discounts or commissions as may be set forth in the applicable prospectus supplement. If we grant any over-allotment option, the terms of the over-allotment option will be set forth in the applicable prospectus supplement.

If a dealer is utilized in the sales of offered securities, we will sell the offered securities to the dealer as principal. The dealer may then resell the offered securities to the public at varying prices to be determined by the dealer at the time of resale. Any dealer may be deemed to be an underwriter of the offered securities so offered and sold. The name of the dealer and the terms of the transaction will be set forth in the applicable prospectus supplement.

Offers to purchase offered securities may be solicited directly by us and the sale of the offered securities may be made by us directly to institutional investors or others with respect to any resale of the offered securities. The terms of any of these sales will be described in the applicable prospectus supplement.

Offered securities may also be offered and sold in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise by one or more remarketing firms acting as principals for their own accounts or as agents for us. Any remarketing firm will be identified and the terms of its agreements, if any, with us and its compensation will be described in the applicable prospectus supplement. Remarketing firms may be deemed to be underwriters in connection with the offered securities remarketed by them.

We may issue to our existing security holders, through a dividend or similar distribution, subscription rights to purchase our ordinary shares or preference shares, which may or may not be transferable. In any distribution of subscription rights to our existing security holders, if all of the underlying securities are not subscribed for, we may then sell the unsubscribed securities directly to third parties or may engage the services of one or more underwriters, dealers or agents, including standby underwriters, to sell the unsubscribed securities to third parties. The applicable prospectus supplement will describe the specific terms of any offering of our ordinary shares or preference shares through the issuance of subscription rights, including, if applicable, the material terms of any standby underwriting or purchase arrangement.

In compliance with FINRA guidelines, the maximum compensation to the underwriters or agents in connection with the sale of securities pursuant to this prospectus will not exceed 8% of the aggregate total offering price to the public of the securities as set forth on the cover page of any applicable prospectus supplement or other offering material. It is anticipated that the maximum compensation to be received in connection with the sale of the securities will be significantly less than 8% of the total offering price to the public as set forth on the cover page of any applicable prospectus supplement or other offering material.

Agents, underwriters, dealers and remarketing firms may be entitled, under agreements entered into with us, to indemnification by us against some civil liabilities, including liabilities under the Securities Act that may arise from any untrue statement or alleged untrue statement of a material fact or any omission or alleged omission to state a material fact in this prospectus, any supplement or amendment hereto or any other offering material, in the registration statement of which this prospectus forms a part or in any of the documents incorporated by reference herein or therein, or to contribution with respect to payments which the agents, underwriters, dealers or remarketing firms may be required to make. The specific terms of any lock-up provisions, if any, in respect of any given offering will be described in the applicable prospectus supplement.

We may authorize underwriters or other persons acting as our agent to solicit offers by specified institutions to purchase offered securities from us, pursuant to contracts providing for payments and delivery on a

- 30 -

**Table of Contents**

future date, which will be set forth in the applicable prospectus supplement. Institutions with which these contracts may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. However, in all cases, these institutions must be approved by us. The obligations of any purchaser under any contract will be subject to the condition that the purchase of the offered securities shall not, at the time of delivery, be prohibited under the laws of the jurisdiction to which the purchaser is subject. The underwriters and other agents will not have any responsibility in respect of the validity or performance of these contracts.

The offered securities may also be sold in one or more of the following transactions: (i) block transactions (which may involve crosses) in which a broker-dealer may sell all or a portion of such securities as agent, but may position and resell all or a portion of the block as principal to facilitate the transaction; (ii) a special offering, an exchange distribution or a secondary distribution in accordance with applicable NASDAQ or other stock exchange, quotation system or over-the-counter market rules; (iii) sales at the market to or through a market maker or into an existing trading market, on an exchange or otherwise, for such securities; and (iv) sales in other ways not involving market makers or established trading markets, including direct sales to purchasers.

Unless the applicable prospectus supplement states otherwise, each series of offered securities will be a new issue and, other than the ordinary shares, which are listed on the NASDAQ Global Market, will have no established trading market. We may elect to list any series of offered securities on an exchange and, in the case of the ordinary shares, on any additional exchange. However, unless otherwise specified in the applicable prospectus supplement, we shall not be obligated to do so. No assurance can be given as to the liquidity of the trading market for any of the offered securities.

Any underwriter may also engage in stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Rule 104 of Regulation M under the Exchange Act. Stabilizing transactions involve bids to purchase the underlying security in the open market for the purpose of preventing or retarding a decline in the price of the securities. Syndicate covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover syndicate short positions. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the securities originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

Stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our securities or preventing or retarding a decline in the market price of our securities. As a result, the price of the securities in the open market may be higher than it would otherwise be in the absence of these transactions. The underwriters may, if they commence these transactions, discontinue them at any time.

Concurrently with any offering of debt securities that are convertible into or exercisable or exchangeable for our ordinary shares, we may offer from time to time our ordinary shares by means of a separate prospectus supplement and accompanying prospectus. Our ordinary shares may be offered to the public in an offering by underwriters, dealers or agents. In addition, we may agree to loan ordinary shares to affiliates of such underwriters, dealers or agents, which affiliates we refer to as the share borrowers, pursuant to a share lending agreement to be described in the applicable prospectus supplement. Such share borrowers may use the borrowed shares to facilitate transactions by which investors in the notes may hedge their investments in such notes. In connection with facilitating those transactions, the share borrowers and their affiliates may receive customary, negotiated fees from investors.

In connection with any offering of debt securities that are convertible into or exercisable or exchangeable for our ordinary shares, we may enter into convertible debt security hedge transactions with affiliates of the underwriters. Such convertible debt security hedge transactions may reduce the potential dilution upon conversion of such debt

securities. We may apply a portion of the net proceeds from the sale of such debt securities to pay the cost of such convertible debt security hedge transactions.

In connection with establishing an initial hedge of these transactions, the hedge counterparty or its affiliates may enter into various derivative transactions with respect to our ordinary shares, concurrently with or shortly after the pricing of such debt securities. These activities could have the effect of increasing or preventing a decline in the price of our ordinary shares concurrently with or shortly after the pricing of such debt securities.

In addition, the hedge counterparty or its affiliates will likely modify its hedge position following the pricing of such debt securities from time to time by entering into or unwinding various derivative transactions and/or purchasing or selling our ordinary shares in secondary market transactions prior to the maturity of such debt securities (including during any settlement period in respect of any conversion of such debt securities). The effect, if any, of any of these transactions and activities on the market price of our ordinary shares or such debt securities will depend in part on market conditions and cannot be ascertained at this time, but any of these activities could impact the price of our ordinary shares and the value of such debt securities and, as a result, the value of the consideration and the number of shares, if any, that you would receive upon conversion of such debt securities and, under certain circumstances, your ability to convert such debt securities.

Underwriters, dealers, agents and remarketing firms may engage in transactions with, or perform services for, us and our subsidiaries or our affiliates in the ordinary course of business for which they receive customary compensation.
