Preparer of the reviewed interim financial results

Dashni Sinivasan CA(SA), Senior Manager Finance: Holding Companies at Sasol South Africa (Pty) Ltd, is responsible for this set of condensed consolidated interim financial statements and has supervised the preparation thereof in conjunction with Loyd Matsilele, Manager Finance: Holding Companies, Sasol South Africa (Pty) Ltd.

Sasol Inzalo Public Limited (RF) Reviewed interim financial results for the six months ended 31 December 2014
1

Sasol Inzalo Public Limited (RF) is the holding company of Sasol Inzalo Public Funding (Pty) Ltd (RF). The condensed consolidated interim financial results comprise the financial results of Sasol Inzalo Public Limited (RF) and its subsidiary (“the group”).

Significant transactions for the six months ended

31 December 2014

Finance income

A dividend of R15,40 per share was received on the 16 085 199 Sasol preferred ordinary shares amounting to R248 million for the period (R195 million for the period ended 31 December 2013 and R389 million for the year ended 30 June 2014).

Finance costs

Interest payable on the preference shares is accounted for in accordance with the effective interest method and amounted to

R295 million for the period (R287 million for the period ended 31 December 2013 and R581 million for the year ended 30 June 2014).

Refinancing of debt

As reported previously in the June 2014 annual financial statements, Sasol Inzalo Public Funding (Pty) Ltd (RF) initiated a process

of negotiating the refinancing of the D preference shares through a subsequent issue of C preference shares. The refinancing

transaction was implemented on 17 October 2014, when all conditions stipulated in the refinancing agreements were met.

The refinancing transaction resulted in a subscription of additional C preference shares by the existing C preference shareholders

(R2 178 million), which was used to repay the outstanding capital and notional interest on the D preference shares on 17

October 2014. The interest rate on the C preference shares also reduced from 80,3% of the prime interest rate to 68% of the prime

interest rate, effective 17 October 2014.

Cash flows

The finance income received of R248 million was mainly utilised to pay finance costs of R116 million and capital repayments

of R48 million. The remainder of the finance costs is only payable at the end of the transaction period. The total proceeds

of R2 178 million received on the issue of the additional C preference shares to the current holders was used to redeem the

D preference shares. The taxation paid of R3 million relates to Security Transfer Tax levied on the redemption of the D preference

shares with Sasol Limited.

Going concern

The group incurred a net loss of R58 million for the period ended 31 December 2014 and, as of that date, the group’s total liabilities

exceeded its total assets by R372 million. The group is structured to receive fixed dividends from its investment in Sasol Limited

over the life of the transaction and will therefore have sufficient cash to meet its preference share obligations in the short term.

The directors have made an assessment of the group’s ability to continue as a going concern and there is no reason to believe the

business will not be a going concern in the year ahead.

Investment in security

The investment in Sasol Limited was revalued at 31 December 2014 at a closing market price of R431,01 per share to an amount of R6 933 million (R8 276 million at 31 December 2013 at a closing market price of R514,50 per share and R10 172 million at 30 June 2014 at a closing market price of R632,36 per share).

Investment fair value reserve

As a result of the revaluation of the investment in Sasol Limited to a higher value than the original cost price, a positive investment

fair value reserve of R851 million is recognised (R1 944 million at 31 December 2013 and a R3 486 million at 30 June 2014).

Long-term/short-term debt

A summary of the terms and conditions of the preference shares at 31 December 2014 is set out in Page 5.

Declaration of ordinary dividend

Taking into account the recent decline in the value of the underlying investment (Sasol Limited) due to the lower oil price and

difficult macro-economic environment, the board of directors have seen it prudent to conserve cash and have concluded that no

ordinary dividend will be declared for the six months ended 31 December 2014.

On 17 October 2014 additional C preference shares were issued to the current holders of the C preference shares. The interest rate on this tranche of the debt as well as the existing debt reduced to 68% of the prime interest rate when compared to the previous 80,3% of the prime interest rate. The D preference shares have also been redeemed from the proceeds received for the additional C preference shares.

2

One 'A' ordinary share of R0,01 was issued to Sasol Limited during the period ended 30 June 2008. The rights to this share provide that immediately when any ordinary share is issued, it is converted to a preference share. As a result of the ordinary shares issued during the year ended 30 June 2009, the share was converted to a preference share. The preference share will be entitled in the aggregate to a dividend of R1,00 immediately prior to redemption, on 8 September 2018, and to redemption proceeds of R0,01.

6

Basis of preparation

The condensed consolidated interim financial statements for the six months ended 31 December 2014 have been prepared in accordance with International Financial Reporting Standards, IAS 34 Interim Financial Reporting, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council, as well as the requirements of the South African Companies Act, 2008, as amended. The condensed consolidated interim financial results were approved for issue by the Sasol Inzalo Public Limited (RF) board of directors on 18 March 2015. The condensed consolidated interim financial statements do not include all the disclosure required for complete annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

These condensed consolidated interim financial statements have been prepared in accordance with the historic cost convention

except that certain items, including available-for-sale financial assets, are stated at fair value.

The condensed consolidated interim financial statements are presented in South African rand, which is Sasol Inzalo Public Limited

(RF)'s functional and presentation currency.

The condensed consolidated interim financial statements appearing in this announcement are the responsibility of the directors.

The directors take full responsibility for the preparation of the condensed consolidated interim financial statements.

Accounting policies

The accounting policies applied in the preparation of these condensed consolidated interim financial statements are in terms of IFRS

and are consistent with those applied in the consolidated annual financial statements for the year ended 30 June 2014.

Related party transactions

The group, in the ordinary course of business, entered into various transactions on an arm's length basis at market rates with its

related party. The effect of these transactions is included in the financial performance and results of the group.
