2Q13 Conference Call

FOR IMMEDIATE RELEASE - São Paulo, August 09, 2013 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the second quarter ended June 30, 2013.

Duilio Calciolari, Chief Executive Officer, said: "The agreement reached with private equity funds Blackstone and Pátria to sell the majority share marks the completion of the strategic review of Alphaville operations that began in September 2012.

Management went ahead with the transaction because we believe that the partial sale of Alphaville is the best strategy to unlock the significant value created by Gafisa since it acquired the community development company back in 2006. We are also confident that it is the approach that will generate the highest returns for shareholders over the long term.

The association with Blackstone and Pátria means a partnership with the biggest, and one of the best, real estate funds in the world. This partnership will realize Alphaville's full potential and also create opportunities for future collaboration.

Furthermore, by retaining a 30% stake in Alphaville, Gafisa will be engaged in the brand's business and share in profit generation. The structure agreed upon will enable Gafisa, after 4 years, to either remain a holder or sell its share in an eventual IPO.

Upon completion of the transaction, Gafisa's capital structure will be much stronger. This will not only reduce interest rates but also reinforce our balance sheet. The resources will be used to reduce indebtedness and to maintain liquidity at a level on par with the volume of current operations. The use of resources will in future reflect leverage levels considered healthy by the Company, considering its long business cycle.

In the last two years, the Group has undertaken a series of actions to simplify its operations, including reducing the geographic scope of Gafisa and Tenda and

+ 1-516-300-1066 US EST revising processes. We will continue to restructure the Company's operations, maintaining our focus on the Gafisa brand's operations, while at the same time delivering legacy projects at Tenda and expanding the brand's profitability under its new business model.
Code: Gafisa

Management's sharpened focus on these two business segments will result in much higher efficiencies, seeking to create future returns for shareholders.

> 9am Brasilia Time

The homebuilding sector possesses long business cycles, so changes take some time to be reflected in the financial results. However rather than pursue short term growth, we strongly believe that it is more important to build sustainable foundations that generate profit and value over the long term."

RECENT EVENTS

Updated Status of Alphaville

On June 7, Gafisa announced it had signed an agreement to sell a majority stake in Alphaville Urbanismo S.A., the leading urban community development company in Brazil, Gafisa will retain the remaining 30% ownership of the brand post the conclusion of the sale transaction expected until October, 2013. The nonrecurring expected inflow of R\$1.4 billion from the cash sale, effect on the equity and level of leverage are not reflected in the 2Q13 results. The transaction is expected to conclude until October. Thereafter, Gafisa's net debt to equity will decrease from the 96% reported at the end of the 2Q13 to approximately 54%, based on unaudited pro-forma data for the period.

On the same date, Gafisa entered into an agreement with Alphaville's founding partners to complete the purchase of the outstanding 20% stake in Alphaville, for a total consideration of R\$367 million, ending the arbitration process. Subsequently, on July 3rd, 2013, Gafisa announced the liquidation of the purchase of the remaining stake.

Completion of the sale to Blackstone and Pátria is subject to closing conditions customary for a transaction of this nature and is expected to occur in the second half of the year.

Classification of Assets as Held for Sale with the Retention of Associate Non-Controlling Interest

Given the impending sale of a 70% stake in Alphaville and associated transfer of operations to the buyer, these assets have been classified as held for sale. These adjustments are designed to bring Brazilian accounting standards in line with international practices. The effect of disposal transactions on the ongoing operations for the current and comparative prior periods are summarized below. The income statement for June 30, 2012 was restated considering the effects of deconsolidation of Alphaville. Alphaville's result were classified as "Results from discontinued operations". The financial statements of prior periods (1Q13, 2Q12 and 1H12) were disclosed on a comparable basis.

Moreover, the delivery of legacy projects is proceeding according to plan and is expected to be substantially completed by year-end. Currently there are three remaining legacy projects scheduled for delivery in the second half of the year.

Given the high volume of deliveries in the second half of 2012, Gafisa brand registered a higher volume of sales cancellations in the 1H13. In the same period, the volume of dissolutions was R\$329 million (58% in 1Q13), of which 44% refer to completed units and 34% to units in non-core markets. Ex-dissolutions, sales velocity of the Gafisa segment in 1Q13 reached 13.2%. Out of the cancelled units, around 33% were already resold in the quarter (SP 40% resold, RJ 56% resold and other markets 21% resold). Throughout the year, we will work to resell the remaining units.

The sales speed for this inventory remains lower than that of sales within core markets, São Paulo and Rio de Janeiro, and the sale of non-core inventory is expected to be completed in 2014.

It is worth mentioning that, while the projects launched in Sao Paulo and Rio de Janeiro keep performing well, the segment's gross margin continues to be impacted by the resolution of legacy projects. During the 1H13, the contribution of legacy projects in total revenues for the segment Gafisa was 8% versus 18% in 2012 and 20% in 2011. This should result in more normalized profitability characteristics from 2014 onwards. Excluding these projects, the gross margin would have been 35%.

INCOME STATEMENT

As previously stated, Gafisa's 2Q13 consolidated results classify Alphaville assets as held for sale with the retention of associate non-controlling interest, given the impending sale of a 70% stake to Blackstone and Pátria. Alphaville's results for the quarter ended June 30, 2013 were reclassified to reflect this change. Thus, the consolidated statements for the quarters ending March 31st, 2013 and June 30, 2012 were reclassified for comparison purposes.

Revenues

On a consolidated basis, 2Q13 net revenues totaled R\$641 million, an increase of 26% from the R\$507 million posted in the 1Q13, due to fewer sales cancellations in the second quarter. The result represents a decrease of 18% from the R\$780 million posted in the 2Q12. During the 2Q13, the Gafisa brand accounted for 58% of net revenues and Tenda the remaining 42%. Gross Profit

Gross profit was R\$144 million compared to R\$78 million in the 1Q13 and R\$169 million in the 2Q12. Gross margin reached 22.4% in the 2Q13, compared with 15.4% in the first quarter and 21.7% in the 2Q12. The result was impacted by the poor performance of Tenda and Gafisa brand legacy projects launched in non-core markets. Excluding these legacy projects, the gross margin for Sao Paulo and Rio de Janeiro would have been 35%. During the 2Q13, the Gafisa brand accounted for 86% of consolidated gross profit (versus 68% a year ago) and Tenda the remaining 14% (versus 32% a year ago).

Selling, General, and Administrative Expenses (SG&A)

During the 2Q13, administrative expenses reached R\$50 million, a 6% decrease Q-o-Q, and 17% decrease over the R\$60 million posted in the 2Q12, mainly due to the reduction of the Tenda business. During 1H13, the expenses over launches were impacted by the lower level of launches in the 1H13. While, the expenses over net pre-sales were impacted by the sales cancellations in the 1H13. Selling expenses increased 9% Q-o-Q, as a result of expenses related to the sales of launches and up 8% on a Y-o-Y basis to R\$60 million given the marketing expenses related to the efforts to the sale of inventory, respectively. SG&A expenses totaled R\$110 million in the 2Q13, a 5% decrease on the R\$116 million posted in the 2Q12 and remained stable on a Q-o-Q basis. Selling expenses, general and administrative on launches and sales ratios were impacted by a lower concentration of launches in the 1H13 and a higher volume of sales cancellations, respectively.

We continue to seek opportunities to improve the efficient of our processes, reduce costs and increase productivity. In June 2013, we moved the headquarters of the Shared Services Center (CSC) to a location with costs 45% lower than the original one.

2.2. Summary of significant accounting practices --Continued

2.2.1 Business Combination --Continued

In the acquisition of a business, Management measures the financial assets and liabilities assumed with the objective of classifying and designating them according to the contractual terms, economic conditions, and the pertinent conditions at the acquisition date.

Goodwill is initially measured as the excess of transferred consideration in relation to the fair value of net assets acquired (identifiable assets and liabilities assumed, net). If the consideration is lower than the fair value of the net assets acquired, the difference shall be recognized as a gain in statement of income.

After initial recognition, goodwill is measured at cost, less any accumulated impairment. For purposes of the impairment test, the goodwill acquired in a business combination, as of the acquisition date, shall be designed to each cash-generating unit of the Company that are expected to benefit from the synergies of the combination, whether or not other assets or liabilities of the acquiree are designated to these units.

On February 27th, 2013, the Company carried out a business combination, as detailed in Note 9.1.

2.2.2 Non-current assets held for sale and profit of discontinued operations

The Company classified a non-current asset into held for sale if its carrying value is recovered by means of a sale transaction. In such case, the asset or the group of assets held for sale shall be available for immediate sale on current conditions, only subject to the usual and customary terms for selling such assets held for sale. Then its sale shall be highly probable.

For a sale to be highly probable, Management shall be committed to a plan to sell the asset, and have initiated a solid program for finding a buyer and complete the plan. In addition, the asset held for sale shall be effectively put on sale at a price that is reasonable in relation to its current fair value.

2.2. Summary of significant accounting practices--Continued

2.2.2 Non-current asset held for sale and profit of discontinued operations --Continued

In addition, the sale shall be expected to be completed in up to one year after the classification date, unless events that are beyond the control of the Company change this period.

The asset held for sale is measured at the lower of its carrying value and fair value, less cost to sell. In case the carrying value exceeds its fair value, an impairment loss is recognized in the statement of income for the year. Any reversal or gain shall only be recorded until the limit of such recognized loss.

Assets and liabilities of the group of discontinued assets are reported in separate lines in assets and liabilities. The profit of discontinued operations is presented at a single amount in statement of income, which includes the total profit after income tax of these operations, less any impairment-related loss. The net cash amounts attributable to operating, investing and financing activities of discontinued operations are presented in Note 8.2.

According to Note 1, on June 7, 2013, the Company disclosed a material fact informing about the signature of the contract for selling the majority interest it held in 70% of AUSA, as detailed in Note 8.2.

21. Financial instruments

The Company and its subsidiaries participate in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at liquidity, return and safety. The use of financial instruments with the objective of hedging is made through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is submitted to the corresponding Management bodies for approval and performance of the proposed strategy. The policy on control consists of permanently following up the contracted conditions in relation to the conditions prevailing in the market. The Company and its subsidiaries do not invest for speculation in derivatives or any other risky assets. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the risk factors described below:

21. Financial instruments --Continued

(i) Risk considerations --Continued

During the period ended June 30, 2013, the amount of R\$2,894 (R\$5,186 in 2012) in the Company's statements and R\$8,306 (R\$10,035 in 2012) in the consolidated statements, which refers to net result of the interest swap transaction, was recognized in the "financial income" line in the statement of income for the period, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note 25).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific evaluation methodologies. However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction. Accordingly, the estimates above do not necessarily indicate the actual amounts to be realized upon the financial settlement of transactions.

Gafisa is expected to represent 42% of 2013 launches, Alphaville 46% and Tenda the remaining 12%.
