Explanatory Note

This report combines the quarterly reports on Form 10-Q for the three months ended March 31, 2018 of Spirit Realty Capital, Inc., a Maryland corporation, and Spirit Realty, L.P., a Delaware limited partnership. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “we,” “us,” “our,” or the “Company” refer to Spirit Realty Capital, Inc. together with its consolidated subsidiaries, including Spirit Realty, L.P. Unless otherwise indicated or unless the context requires otherwise, all references to the “Operating Partnership” refer to Spirit Realty, L.P. together with its consolidated subsidiaries.

Spirit General OP Holdings, LLC (“OP Holdings”) is the sole general partner of the Operating Partnership. The Company is a real estate investment trust, or REIT, and the sole member of OP Holdings, as well as the special limited partner of the Operating Partnership. As sole member of the general partner of our Operating Partnership, our Company has the full, exclusive and complete responsibility for our Operating Partnership’s day-to-day management and control.

We believe combining the quarterly reports on Form 10-Q of our Company and Operating Partnership into a single report results in the following benefits:

- enhancing investors’ understanding of our Company and Operating Partnership by enabling investors to view the business as a whole, reflective of how management views and operates the business;
- eliminating duplicative disclosure and providing a streamlined presentation as a substantial portion of the disclosures apply to both our Company and Operating Partnership; and
- creating time and cost efficiencies by preparing one combined report in lieu of two separate reports.

There are a few differences between our Company and Operating Partnership, which are reflected in the disclosures in this report. We believe it is important to understand these differences in the context of how we operate as an interrelated, consolidated company. Our Company is a REIT, the only material assets of which are the partnership interests in our Operating Partnership. As a result, our Company does not conduct business itself, other than acting as the sole member of the general partner of our Operating Partnership, issuing equity from time to time and guaranteeing certain debt of our Operating Partnership. Our Operating Partnership holds substantially all the assets of our Company. Our Company issued convertible notes and guarantees some of the debt of our Operating Partnership. See footnote 4 to the consolidated financial statements included herein for further discussion. Our Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for net proceeds from the issuance of convertible notes and equity issuances by our Company, which are generally contributed to our Operating Partnership in exchange for partnership units of our Operating Partnership, our Operating Partnership generates the capital required by our Company’s business through our Operating Partnership’s operations or our Operating Partnership’s incurrence of indebtedness.

The presentation of stockholders’ equity and partners’ capital are the main areas of difference between the consolidated financial statements of our Company and those of our Operating Partnership. The partnership units in our Operating Partnership are accounted for as partners’ capital in our Operating Partnership’s consolidated financial statements.

There are no non-controlling interests in the Company or the Operating Partnership.

To help investors understand the significant differences between our Company and our Operating Partnership, this report presents the consolidated financial statements separately for our Company and our Operating Partnership. All other sections of this report, including “Selected Financial Data,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Quantitative and Qualitative Disclosures About Market Risk,” are presented together for our Company and our Operating Partnership.

In order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that our Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, or the Exchange Act, and 18 U.S.C. §1350, this report also includes separate “Item 4. Controls and Procedures” sections and separate Exhibit 31 and 32 certifications for each of our Company and our Operating Partnership.

Note 1. Organization

Company Organization and Operations

Spirit Realty Capital, Inc. (the "Corporation" or, with its consolidated subsidiaries, the "Company") operates as a self-administered and self-managed REIT that seeks to generate and deliver sustainable and attractive returns for stockholders by primarily investing in and managing a portfolio of single-tenant, operationally essential real estate throughout the U.S. that is generally leased on a long-term, triple-net basis to tenants operating within retail, office, industrial and data center property types. Single tenant, operationally essential real estate generally refers to free-standing, commercial real estate facilities where tenants conduct activities that are essential to the generation of their sales and profits. The Company began operations through a predecessor legal entity in 2003.

The Company's operations are generally carried out through Spirit Realty, L.P. (the "Operating Partnership") and its subsidiaries. Spirit General OP Holdings, LLC ("OP Holdings"), one of the Corporation's wholly-owned subsidiaries, is the sole general partner and owns approximately 1% of the Operating Partnership. The Corporation and a wholly-owned subsidiary ("Spirit Notes Partner, LLC") are the only limited partners and together own the remaining 99% of the Operating Partnership.

On August 3, 2017, the Company announced a proposed Spin-Off of almost all of the properties leased to Shopko, the assets that collateralize Master Trust 2014 and certain other assets into an independent, publicly traded REIT, Spirit MTA REIT, or SMTA. Transaction costs associated with the Spin-Off for the three months ended March 31, 2018 totaled \$3.9 million and are reflected as transaction costs on the accompanying consolidated statements of operations and comprehensive income.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting and Principles of Consolidation

The accompanying consolidated financial statements of the Company and the Operating Partnership have been prepared pursuant to the rules and regulations of the SEC. In the opinion of management, the consolidated financial statements include the normal, recurring adjustments necessary for a fair statement of the information required to be set forth therein. The results for interim periods are not necessarily indicative of the results for the entire year. Certain information and note disclosures, normally included in financial statements prepared in accordance with GAAP, have been condensed or omitted from these statements pursuant to SEC rules and regulations and, accordingly, these financial statements should be read in conjunction with the Company's audited consolidated financial statements as filed with the SEC in its Annual Report on Form 10-K for the year ended December 31, 2017.

The consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries. The consolidated financial statements of the Operating Partnership include the accounts of the Operating Partnership and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

All expenses incurred by the Company have been allocated to the Operating Partnership in accordance with the Operating Partnership's first amended and restated agreement of limited partnership, which management determined to be a reasonable method of allocation. Therefore, expenses incurred would not be materially different if the Operating Partnership had operated as an unaffiliated entity.

The Company has formed numerous special purpose entities to acquire and hold real estate encumbered by indebtedness (see Note 4). Each special purpose entity is a separate legal entity and is the sole owner of its assets and responsible for its liabilities. The assets of these special purpose entities are not available to pay, or otherwise satisfy obligations to, the creditors of any affiliate or owner of another entity unless the special purpose entities have expressly agreed and are permitted to do so under their governing documents. As of March 31, 2018 and December 31, 2017, net assets totaling \$2.84 billion and \$2.78 billion, respectively, were held, and net liabilities

totaling \$2.70 billion and \$2.63 billion, respectively, were owed by these encumbered special purpose entities and are included in the accompanying consolidated balance sheets.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes its estimates are reasonable, actual results could differ from those estimates.

Segment Reporting

The Company views its operations as one segment, which consists of net leasing operations. The Company has no other reportable segments.

Allowance for Doubtful Accounts

The Company reviews its rent and other tenant receivables for collectability on a regular basis, taking into consideration changes in factors such as the tenant's payment history, the financial condition of the tenant, business conditions in the industry in which the tenant operates, and economic conditions in the area in which the tenant operates. If the collectability of a receivable with respect to any tenant is in doubt, a provision for uncollectible amounts will be established or a direct write-off of the specific receivable will be made. The Company's reserves for uncollectible amounts totaled \$11.5 million and \$12.4 million as of March 31, 2018 and December 31, 2017, respectively, against accounts receivable balances of \$23.8 million and \$27.2 million, respectively. Receivables are recorded within deferred costs and other assets, net in the accompanying consolidated balance sheets. Receivables are written off against the reserves for uncollectible amounts when all possible means of collection have been exhausted. For deferred rental revenues related to the straight-line method of reporting rental revenue, the collectability review includes management's estimates of amounts that will not be realized based on an assessment of the risks inherent in the portfolio, considering historical experience. The Company established a reserve for losses of \$1.5 million at March 31, 2018 and \$1.8 million at December 31, 2017 against deferred rental revenue receivables of \$85.8 million and \$81.6 million, respectively. Deferred rental revenue receivables are recorded within deferred costs and other assets, net in the accompanying consolidated balance sheets.

Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents include cash and highly liquid investment securities with maturities at acquisition of three months or less. The Company invests cash primarily in money market funds of major financial institutions with fund investments consisting of highly-rated money market instruments and other short-term investments. Restricted cash is classified within deferred costs and other assets, net in the accompanying consolidated balance sheets. Cash, cash equivalents and restricted cash consisted of the following (in thousands):

	March 31, 2018	December 31, 2017	March 31, 2017
Cash and cash equivalents	\$ 10,989	\$ 8,798	\$ 9,309

⁽¹⁾ Funds held in lender controlled accounts generally used to meet future debt service or certain property operating expenses.

⁽²⁾ Deposits held as additional collateral support by lenders to fund improvements, repairs and leasing commissions incurred to secure a new tenant.

- (3) Proceeds from the sale of assets pledged as collateral under the Spirit Master Funding Program, which are held on deposit until a qualifying substitution is made or the funds are applied as prepayment of principal.
- (4) Liquidity reserve cash was placed on deposit for Master Trust 2014 and is held until there is a cashflow shortfall or upon achieving certain performance criteria, as defined in the agreements governing Master Trust 2014, or a liquidation of Master Trust 2014 occurs.
- (5) Funds held in lender controlled accounts released after scheduled debt service requirements are met.

Goodwill

Goodwill arises from business combinations and represents the excess of the cost of an acquired entity over the net fair value amounts that were assigned to the identifiable assets acquired and the liabilities assumed. Goodwill is tested for impairment at the reporting unit level on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying value.

Income Taxes

The Company has elected to be taxed as a REIT under the Code. As a REIT, the Company generally will not be subject to federal income tax provided it continues to satisfy certain tests concerning the Company's sources of income, the nature of its assets, the amounts distributed to its stockholders and the ownership of Company stock. Management believes the Company has qualified and will continue to qualify as a REIT and therefore, no provision has been made for federal income taxes in the accompanying consolidated financial statements. Even if the Company qualifies for taxation as a REIT, it may be subject to state and local income and franchise taxes, and to federal income tax and excise tax on its undistributed income. Taxable income from non-REIT activities managed through any of the Company's taxable REIT subsidiaries is subject to federal, state, and local taxes, which are not material.

The Operating Partnership is a partnership for federal income tax purposes. Partnerships are pass-through entities and are not subject to U.S. federal income taxes, therefore no provision has been made for federal income taxes in the accompanying financial statements. Although most states and cities where the Operating Partnership operates follow the U.S. federal income tax treatment, there are certain jurisdictions such as Texas, Tennessee and Ohio that impose income or franchise taxes on a partnership.

Franchise taxes are included in general and administrative expenses on the accompanying consolidated statements of operations and comprehensive income.

New Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers: Topic 606. This new guidance establishes a principles-based approach for accounting for revenue from contracts with customers and is effective for annual reporting periods beginning after December 15, 2017, with early application permitted for annual reporting periods beginning after December 15, 2016. The Company adopted the new revenue recognition standard effective January 1, 2018 under the modified retrospective method, and elected to apply the standard only to contracts that were not completed as of the date of adoption (i.e. January 1, 2018). In evaluating the impact of this new standard, the Company identified that lease contracts covered by Leases (Topic 840) are excluded from the scope of this new guidance, as such, this ASU had no material impact on the Company's reported revenues, results of operations, financial position, cash flows and disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which supersedes the existing guidance for lease accounting Leases (Topic 840). ASU 2016-02 requires lessees to recognize leases on their balance sheets, and leaves lessor accounting largely unchanged. Leases pursuant to which the Company is the lessee primarily consist of its corporate office and equipment leases. The amendments in this ASU are effective for the fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early application is permitted for all entities. ASU 2016-02 requires a modified retrospective approach for all leases existing at, or entered into after, the date of initial application, with an option to elect to use certain transition relief. Under the guidance as currently contemplated, the Company will record certain expenses paid directly by tenants that protect the Company's interests in its properties, such as insurance and real estate taxes, however the FASB has announced it will re-evaluate this requirement. The Company has begun implementation of the ASU and is currently evaluating the overall impact of this ASU on its consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Measurement of Credit Losses on Financial Instruments, which requires more timely recognition of credit losses associated with financial assets. ASU 2016-13 requires financial

assets (or a group of financial assets) measured at an amortized cost basis to be presented at the net amount expected to be collected. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018, including interim

periods within those fiscal years. The Company is currently evaluating the impact of this ASU on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments, which addresses specific cash flow issues with the objective of reducing the existing diversity in practice. ASU 2016-15 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, and requires retrospective adoption unless it is impracticable to apply, in which case it is to be applied prospectively as of the earliest date practicable. The Company adopted ASU 2016-15 effective January 1, 2018 and has applied it retrospectively. As a result of adoption, debt prepayment and debt extinguishment costs, previously presented in operating activities, are now presented in financing activities in the consolidated statement of cash flows. There was no impact on the statements of cash flows for the Company for other types of transactions.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. This guidance requires entities to include restricted cash and restricted cash equivalents within the cash and cash equivalents balances presented in the statement of cash flows. The new guidance is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, and the new guidance is to be applied retrospectively. The Company adopted ASU 2016-18 effective January 1, 2018 and applied it retrospectively. As a result, restricted cash and restricted cash equivalents are included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the consolidated statements of cash flows.

Note 3. Investments

Real Estate Investments

As of March 31, 2018, the Company's gross investment in real estate properties and loans totaled approximately \$7.8 billion, representing investments in 2,446 properties, including 82 properties securing mortgage loans. The gross investment is comprised of land, buildings, lease intangible assets and lease intangible liabilities, as adjusted for any impairment, and the carrying amount of loans receivable, real estate assets held under direct financing leases and real estate assets held for sale. The portfolio is geographically dispersed throughout 49 states with Texas, at 12.0%, as the only state with a real estate investment value greater than 10% of the real estate investment value of the Company's entire portfolio.

The mortgage loans are secured by single-tenant commercial properties and generally have fixed interest rates over the term of the loans. There are four other notes receivable included within loans receivable, of which three notes totaling \$39.1 million are secured by tenant assets and stock and the remaining note with a balance of \$1.7 million is unsecured.

On January 16, 2018, the Operating Partnership funded a \$35.0 million B-1 Term Loan, included in the table above, as part of a syndicated loan and security agreement with Shopko as borrower and several banks as lenders. The B-1 Term Loan bears interest at a rate of 12% per annum and matures on June 19, 2020. Principal will be repaid in quarterly installments of \$0.6 million commencing on November 1, 2018, while interest will be paid monthly. The loan is secured by Shopko's assets in its \$784 million asset-backed lending facility and is subordinate to other loans made under the syndicated loan and security agreement. The Operating Partnership received a commitment fee equal to 3.00% of the B-1 Term Loan.

Lease Intangibles, Net

Note 4. Debt

The debt of the Company and the Operating Partnership are the same, except for the presentation of the Convertible Notes. The Convertible Notes were issued by the Company. Subsequently, an intercompany note between the Company and the Operating Partnership was executed with terms identical to those of the Convertible Notes. Therefore, in the consolidated balance sheet of the Operating Partnership, the amounts related to the Convertible Notes are reflected as notes payable to Spirit Realty Capital, Inc., net. The Company's debt is summarized below:

⁽¹⁾ The effective interest rates include amortization of debt discount/premium, amortization of deferred financing costs, facility fees, and non-utilization fees, where applicable, calculated for the three months ended March 31, 2018 and based on the average principal balance outstanding during the period.

⁽²⁾ Represents the weighted average stated interest rate based on the outstanding principal balance as of March 31, 2018.

⁽³⁾ Represents the weighted average maturity based on the outstanding principal balance as of March 31, 2018.

⁽⁴⁾ The Company records deferred financing costs for its Revolving Credit Facility in deferred costs and other assets, net on its consolidated balance sheets.

Revolving Credit Facility

The Company has access to an unsecured credit facility, the Revolving Credit Facility, which matures on March 31, 2019 (extendable at the Operating Partnership's option to March 31, 2020, subject to satisfaction of certain requirements) and includes an accordion feature to increase the committed facility size up to \$1.0 billion, subject to satisfying certain requirements and obtaining additional lender commitments. The Operating Partnership may voluntarily prepay the Revolving Credit Facility, in whole or in part, at any time without premium or penalty, but subject to applicable LIBOR breakage fees, if any.

Borrowings bear interest at 1-Month LIBOR plus 0.875% to 1.55% per annum and require a facility fee in an amount equal to the aggregate revolving credit commitments (whether or not utilized) multiplied by a rate equal to 0.125% to 0.30% per annum. As of March 31, 2018, the Revolving Credit Facility bore interest at 1-Month LIBOR plus 1.25% and incurred a facility fee of 0.25% per annum.

In connection with placement and use of the Revolving Credit Facility, the Company has incurred costs of \$4.8 million. These deferred financing costs are being amortized to interest expense over the remaining initial term of the Revolving Credit Facility. The unamortized deferred financing costs relating to the Revolving Credit Facility were \$1.3 million and \$1.6 million as of March 31, 2018 and December 31, 2017, respectively, and recorded in deferred

costs and other assets, net on the accompanying consolidated balance sheets.

As of March 31, 2018, \$154.5 million was outstanding and \$645.5 million of borrowing capacity was available under the Revolving Credit Facility. The Operating Partnership's ability to borrow under the Revolving Credit Facility is subject to ongoing compliance with a number of customary financial covenants and other customary affirmative and negative covenants. As of March 31, 2018, the Corporation and the Operating Partnership were in compliance with these financial covenants.

Term Loan

On November 3, 2015, the Company entered into a Term Loan Agreement with an initial maturity date of November 2, 2018, which may be extended at the Company's option pursuant to two one-year extension options, subject to the satisfaction of certain conditions and payment of an extension fee. In addition, an accordion feature allows the facility to be increased to \$600.0 million, subject to obtaining additional lender commitments. Borrowings may be repaid without premium or penalty, and may be re-borrowed within 30 days up to the then available loan commitment and subject to occurrence limitations within any twelve-month period.

As of March 31, 2018, the Term Loan had a zero outstanding balance and \$420.0 million of available borrowing capacity. The Term Loan Agreement provides that outstanding borrowings bear interest at 1-Month LIBOR plus 0.90% to 1.75% per annum, depending on the Corporation's credit ratings.

As a result of entering into the Term Loan, the Company incurred origination costs of \$2.4 million. These deferred financing costs are being amortized to interest expense over the remaining initial term of the Term Loan. As of March 31, 2018 and December 31, 2017, the unamortized deferred financing costs relating to the Term Loan were \$0.5 million and \$0.7 million, respectively, and were recorded net against the principal balance of mortgages and notes payable as of March 31, 2018 and December 31, 2017, on the accompanying consolidated balance sheets.

Senior Unsecured Notes

On August 18, 2016, the Operating Partnership completed a private placement of \$300.0 million aggregate principal amount of senior notes, which are guaranteed by the Corporation. The Senior Unsecured Notes were issued at 99.378% of their principal face amount, resulting in net proceeds of \$296.2 million, after deducting transaction fees and expenses. The Senior Unsecured Notes accrue interest at a rate of 4.45% per annum, payable on March 15 and September 15 of each year, and mature on September 15, 2026. The Company filed a registration statement with the SEC to exchange the private Senior Unsecured Notes for registered Senior Unsecured Notes with substantially identical terms, which became effective on April 14, 2017. All \$300.0 million aggregate principal amount of private Senior Unsecured Notes were tendered in the exchange for registered Senior Unsecured Notes.

The Senior Unsecured Notes are redeemable in whole at any time or in part from time to time, at the Operating Partnership's option, at a redemption price equal to the sum of: an amount equal to 100% of the principal amount of the Senior Unsecured Notes to be redeemed plus accrued and unpaid interest and liquidated damages, if any, up to, but not including, the redemption date; and a make-whole premium calculated in accordance with the indenture.

Notwithstanding the foregoing, if any of the Senior Unsecured Notes are redeemed on or after June 15, 2026 (three months prior to the maturity date of the Senior Unsecured Notes), the redemption price will not include a make-whole premium.

In connection with the offering, the Operating Partnership incurred \$3.4 million in deferred financing costs and an offering discount of \$1.9 million. These amounts are being amortized to interest expense over the life of the Senior Unsecured Notes. As of March 31, 2018 and December 31, 2017, the unamortized deferred financing costs relating to the Senior Unsecured Notes were \$2.9 million and \$3.0 million, respectively, and the unamortized discount was \$1.6 million and \$1.7 million, respectively, with both the deferred financing costs and offering discount recorded net against the Senior Unsecured Notes principal balance on the accompanying consolidated balance sheets.

In connection with the issuance of the Senior Unsecured Notes, the Corporation and Operating Partnership are subject to ongoing compliance with a number of customary financial covenants and other customary affirmative and negative covenants. As of March 31, 2018, the Corporation and the Operating Partnership were in compliance with these financial covenants.

Master Trust Notes

The Company has access to an asset-backed securitization platform, the Spirit Master Funding Program, to raise capital through the issuance of non-recourse net-lease mortgage notes collateralized by commercial real estate, net-leases and mortgage loans. The Spirit Master Funding Program consists of two separate securitization trusts,

Master Trust 2013 and Master Trust 2014, each of which have one or multiple bankruptcy-remote, special purpose entities as issuers or co-issuers of the notes. Each issuer is an indirect wholly-owned special purpose entity of the Corporation.

On January 23, 2018, the Company re-priced a private offering of the Master Trust 2014 Series 2017-1 notes with \$674.2 million aggregate principal amount. As a result, the interest rate on the Class B Notes was reduced from 6.35% to 5.49%, while the other terms of the Class B Notes will remain unchanged. The terms of the Class A Notes were unaffected by the repricing. In connection with the re-pricing, the Company received \$8.2 million in additional proceeds, that reduced the discount on the underlying debt.

On February 2, 2018, Spirit Realty, L.P., sold its holding of Master Trust 2014 Series 2014-2 notes with a principal balance of \$11.6 million to a third-party. This transaction resulted in an increase in the Company's mortgages and notes payable, net balance as shown in the balance sheet.

The Master Trust Notes are summarized below:

⁽¹⁾ Represents the individual series stated interest rate as of March 31, 2018 and the weighted average stated rate of the total Master Trust Notes, based on the collective series outstanding principal balances as of March 31, 2018.

⁽²⁾ The Operating Partnership acquired \$27.1 million in aggregate principal amount of Class A Notes and \$6.6 million in aggregate principal amount of Class B Notes to satisfy its regulatory risk retention obligations.

As of March 31, 2018, the Master Trust 2014 notes were secured by 790 owned and financed properties issued by five indirect wholly-owned subsidiaries of the Corporation. The notes issued under Master Trust 2014 are cross-collateralized by the assets of all issuers within this trust. As of March 31, 2018, the Master Trust 2013 notes were secured by 295 owned and financed properties issued by a single indirect wholly-owned subsidiary of the Corporation.

CMBS

As of March 31, 2018, indirect wholly-owned special purpose entity subsidiaries of the Corporation were borrowers under seven fixed-rate non-recourse loans, excluding three loans in default, which have been securitized into CMBS and are secured by the borrowers' respective leased properties and related assets. The stated interest rates of the loans as of March 31, 2018, excluding the defaulted loans, ranged from 4.67% to 6.00% with a weighted average stated interest rate of 4.84%. As of March 31, 2018, these fixed-rate loans were secured by 101 properties. As of March 31, 2018 and December 31, 2017, the unamortized deferred financing costs associated with these fixed-rate loans were \$4.8 million and \$3.9 million, respectively, and the unamortized net offering discount was \$0.1 million as-of both

periods. Both the deferred financing costs and offering discount were recorded net against the principal balance of the mortgages and notes payable on the accompanying consolidated balance sheets and are being amortized to interest expense over the term of the respective loans.

Included in mortgages and notes payable, net is a new non-recourse loan agreement with Société Générale and Barclays Bank PLC as lenders, which the Company entered into on January 22, 2018. The loan is collateralized by a single distribution center property located in Katy, Texas. The loan has a term of 10 years to maturity with an interest rate based on the 10-year mid-market swap rate (or Treasury rate, whichever is greater) plus a spread of 245 basis points. As a result of the issuance, the Company received approximately \$84 million in proceeds.

As of March 31, 2018, certain borrowers were in default under the loan agreements relating to three separate CMBS fixed-rate loans, where three properties securing the respective loans were no longer generating sufficient revenue to pay the scheduled debt service. The default interest rate on these loans was between 7.53% and 9.85%. Each defaulted borrower is a bankruptcy remote special purpose entity and the sole owner of the collateral securing the loan obligations. As of March 31, 2018, the aggregate principal balance under the defaulted loans was \$31.4 million, which includes \$10.3 million of interest capitalized to the principal balance.

Convertible Notes

In May 2014, the Corporation issued \$402.5 million aggregate principal amount of 2.875% convertible notes due in 2019 and \$345.0 million aggregate principal amount of 3.75% convertible notes due in 2021. Interest on the Convertible Notes is payable semiannually in arrears on May 15 and November 15 of each year. The 2019 Notes will mature on May 15, 2019 and the 2021 Notes will mature on May 15, 2021. Proceeds from the issuance were contributed to the Operating Partnership and are recorded as a note payable to Spirit Realty Capital, Inc., on the consolidated balance sheets of the Operating Partnership.

The Convertible Notes are convertible only during certain periods and, subject to certain circumstances, into cash, shares of the Corporation's common stock, or a combination thereof. The initial conversion rate applicable to each series is 76.3636 per \$1,000 principal note (equivalent to an initial conversion price of \$13.10 per share of common stock, representing a 22.5% premium above the public offering price of the common stock offered concurrently at the time the Convertible Notes were issued). The conversion rate is subject to adjustment for certain anti-dilution events, including special distributions and regular quarterly cash dividends exceeding \$0.16625 per share. As of March 31, 2018, the conversion rate was 77.4557 per \$1,000 principal note. Earlier conversion may be triggered if shares of the Corporation's common stock trade higher than the established thresholds, if the Convertible Notes trade below established thresholds, or certain corporate events occur.

In connection with the issuance of the Convertible Notes, the Company recorded a discount of \$56.7 million, which represents the estimated value of the embedded conversion feature for each of the Convertible Notes. The discount is being amortized to interest expense using the effective interest method over the term of each of the 2019 Notes and 2021 Notes. As of March 31, 2018 and December 31, 2017, the unamortized discount was \$21.1 million and \$23.7 million, respectively. The discount is shown net against the aggregate outstanding principal balance of the Convertible Notes on the accompanying consolidated balance sheets. The equity component of the conversion feature is recorded in capital in excess of par value in the accompanying consolidated balance sheets, net of financing transaction costs. In connection with the offering, the Company also incurred \$19.6 million in deferred financing costs. This amount has been allocated on a pro-rata basis to each of the Convertible Notes and is being amortized to interest expense over the term of each note. As of March 31, 2018 and December 31, 2017, the unamortized deferred financing costs relating to the Convertible Notes were \$7.1 million and \$8.0 million, respectively, and recorded net against the Convertible Notes principal balance on the accompanying consolidated balance sheets.

Debt Extinguishment

During the three months ended March 31, 2018, the Company extinguished a total of \$33.9 million aggregate principal amount of CMBS indebtedness with a weighted average contractual default interest rate of 9.88%. As a result of these transactions, the Company recognized a net gain on debt extinguishment of approximately \$21.3 million.

During the three months ended March 31, 2017, the Company extinguished a total of \$49.2 million aggregate principal amount of mortgage indebtedness with a weighted average contractual interest rate of 5.69%. As a result of these transactions, the Company recognized a de minimis net loss.

Note 5. Stockholders' Equity and Partners' Capital

Common Stock

During the three months ended March 31, 2018, portions of awards of restricted common stock and performance share awards granted to certain of the Company's officers and other employees vested. The vesting of these awards, granted pursuant to the Amended Incentive Award Plan, resulted in federal and state income tax liabilities for the recipients. As permitted by the terms of the Amended Incentive Award Plan and the award grants, certain executive officers and employees elected to surrender 0.1 million shares of common stock valued at \$0.5 million, solely to pay the associated statutory tax withholdings during the three months ended March 31, 2018.

Preferred Stock

As of March 31, 2018, the Company had 6.9 million shares of 6.00% Series A Preferred Stock outstanding. The Series A Preferred Stock pays cumulative cash dividends at the rate of 6.00% per annum on the liquidation preference of \$25.00 per share (equivalent to \$0.375 per share on a quarterly basis and \$1.50 per share on an annual basis). During the quarter ended March 31, 2018, the Company paid \$2.6 million in Series A Preferred Stock dividends.

ATM Program

In November 2016, the Company's Board of Directors approved a new ATM Program and the Company terminated its existing program. As of March 31, 2018, no shares of the Company's common stock had been sold under the new ATM Program and \$500.0 million in gross proceeds capacity remained available.

Stock Repurchase Programs

In August 2017, the Company's Board of Directors approved a stock repurchase program, which authorizes the Company to repurchase up to \$250.0 million of its common stock. These purchases can be made in the open market or through private transactions from time to time over the 18-month time period following authorization, depending on prevailing market conditions and applicable legal and regulatory requirements. Purchase activity will be dependent on various factors, including the Company's capital position, operating results, funds generated by asset sales, dividends that may be required by those sales, and investment options that may be available, including acquiring new properties or retiring debt. The stock repurchase program does not obligate the Company to repurchase any specific number of shares and may be suspended at any time at the Company's discretion. During the three months ended March 31, 2018, 13,161,065 shares of the Company's common stock have been repurchased in open market transactions under the stock repurchase program at a weighted average price of \$7.88 per share and \$63.9 million in available capacity remains under the stock repurchase program. Fees associated with the repurchase of \$301,161 are included in accumulated deficit.

Dividends Declared

For the three months ended March 31, 2018, the Corporation's Board of Directors declared the following preferred and common stock dividends:

Declaration Date	Dividend Per Share	Record Date	Total Amount (in thousands)	Payment Date
Preferred Stock				
March 5, 2018	\$ 0.375	March 15, 2018	\$ 2,588	March 30, 2018

Note 6. Commitments and Contingencies

The Company is periodically subject to claims or litigation in the ordinary course of business, including claims generated from business conducted by tenants on real estate owned by the Company. In these instances, the Company is typically indemnified by the tenant against any losses that might be suffered, and the Company and/or the tenant are typically insured against such claims.

In 2015, Haggen Holdings, LLC and a number of its affiliates, including Haggen Operations Holdings, LLC ("Haggen"), filed petitions for bankruptcy. At the time of the filing, Haggen leased 20 properties from a subsidiary of the Company under a master lease. The Company and Haggen restructured the master lease in an initial settlement agreement with approved claims of \$21.0 million. In 2016, the Company entered into a second settlement agreement with both Haggen and Albertsons, LLC for \$3.4 million and \$3.0 million, respectively. To date, the Company has collected \$5.5 million of the total claims and there is no guaranty that the remaining claims of \$21.9 million will be paid or otherwise satisfied in full.

As of March 31, 2018, there were no outstanding claims against the Company that are expected to have a material adverse effect on the Company's financial position, results of operations or cash flows.

As of March 31, 2018, the Company had commitments totaling \$65.7 million, of which \$17.8 million relates to future acquisitions with the majority of the remainder to fund revenue generating improvements on properties the Company currently owns. Commitments related to acquisitions contain standard cancellation clauses contingent on the results of due diligence. Of the total commitments of \$65.7 million, \$63.3 million is expected to be funded during fiscal year 2018. In addition, the Company is contingently liable for \$5.7 million of debt owed by one of its tenants and is indemnified by that tenant for any payments the Company may be required to make on such debt.

The Company estimates future costs for known environmental remediation requirements when it is probable that the Company has incurred a liability and the related costs can be reasonably estimated. The Company considers various factors when estimating its environmental liabilities, and adjustments are made when additional information becomes available that affects the estimated costs to study or remediate any environmental issues. When only a wide range of estimated amounts can be reasonably established and no other amount within the range is better than another, the low end of the range is recorded in the consolidated financial statements. As of March 31, 2018, no accruals have been made.

Note 7. Fair Value Measurements

Recurring Fair Value Measurements

The Company did not have any assets or liabilities that are required to be measured at fair value on a recurring basis as of March 31, 2018 and December 31, 2017.

Nonrecurring Fair Value Measurements

Fair value measurement of an asset on a nonrecurring basis occurs when events or changes in circumstances related to an asset indicate that the carrying amount of the asset is no longer recoverable. The following table sets forth the Company's assets that were accounted for at fair value on a nonrecurring basis as of March 31, 2018 and December 31, 2017. (in thousands):

Description	Fair Value	Fair Value Hierarchy Level	
		Level 2	Level 3
March 31, 2018			
Long-lived assets held and used	\$ 27,346	—	\$ 27,346
Long-lived assets held for sale	\$ 1,005	—	\$ 1,005
December 31, 2017			
Long-lived assets held and used	\$ 28,312	—	\$ 28,312
Long-lived assets held for sale	\$ 42,142	—	\$ 42,142

Real estate and the related intangible assets are evaluated for impairment based on certain indicators including, but not limited to: the asset being held for sale, vacant, non-operating or the lease on the asset expiring in three months or less. The fair values of impaired real estate and intangible assets were determined by using the following information, depending on availability, in order of preference: signed purchase and sale agreements or letters of intent; recently quoted bid or ask prices, or market prices for comparable properties; estimates of cash flow, which consider, among other things, contractual and forecasted rental revenues, leasing assumptions, and expenses based upon market conditions; and expectations for the use of the real estate. Based on these inputs, the Company determined that its valuation of the impaired real estate and intangible assets falls within Level 3 of the fair value hierarchy.

During the three months ended March 31, 2018 and for the year ended December 31, 2017, we determined that 20 and 18 long-lived assets held and used, respectively, were impaired.

For 14 of the held and used properties impaired during the three months ended March 31, 2018 and 17 of the held and used properties during the year ended December 31, 2017, the Company estimated property fair value using price per square foot of comparable properties. The following table provides information about the price per square foot of comparable properties used as inputs (price per square foot in dollars):

March 31, 2018				December 31, 2017		
Description	Range	Weighted Square Average	Square Footage	Range	Weighted Square Average	Square Footage

For the 6 remaining held and used properties impaired during the three months ended March 31, 2018 and 1 held and used properties impaired during the year ended December 31, 2017, the Company estimated property fair value using price per square foot based on a listing price or a broker opinion of value. The following table provides information about the price per square foot of listing price and broker opinion of value used as inputs (price per square foot in dollars):

Description	March 31, 2018			December 31, 2017		
	Range	Weighted Average	Square Footage	Range	Weighted Average	Square Footage
Long-lived assets held and used by asset type						
Retail	\$7.00 - \$107.57	\$ 57.62	102,742	\$88.89	\$ 88.89	22,500

For the three months ended March 31, 2018 and year ended December 31, 2017, we determined that 2 and 8 long-lived assets held for sale, respectively, were impaired. The Company estimated fair value of held for sale properties using price per square foot from the signed purchase and sale agreements as follows (price per square foot in dollars):

Description	March 31, 2018			December 31, 2017		
	Range	Weighted Average	Square Footage	Range	Weighted Average	Square Footage
Long-lived assets held for sale by asset type						
Retail	\$239.73 - \$603.54	\$ 421.64	2,336	\$55.30 - \$346.23	\$ 230.52	150,376
Industrial	—	—	—	\$24.02 - \$54.21	\$ 37.09	223,747

Estimated Fair Value of Financial Instruments

Financial assets and liabilities for which the carrying values approximate their fair values include cash and cash equivalents, restricted cash and escrow deposits, and accounts receivable and payable. Generally, these assets and liabilities are short-term in duration and are recorded at cost, which approximates fair value, on the accompanying consolidated balance sheets.

In addition to the disclosures for assets and liabilities required to be measured at fair value at the balance sheet date, companies are required to disclose the estimated fair values of all financial instruments, even if they are not carried at their fair values. The fair values of financial instruments are estimates based upon market conditions and perceived risks at March 31, 2018 and December 31, 2017. These estimates require management's judgment and may not be indicative of the future fair values of the assets and liabilities.

The estimated fair values of the following financial instruments have been derived based on market quotes for comparable instruments or discounted cash flow analyses using estimates of the amount and timing of future cash flows, market rates and credit spreads. These measurements are classified as Level 2 of the fair value hierarchy. The following table discloses fair value information for these financial instruments (in thousands):

	March 31, 2018		December 31, 2017

Note 8. Significant Credit and Revenue Concentration

As of March 31, 2018 and December 31, 2017, the Company's real estate investments are occupied by 417 and 419 tenants, respectively, that operate within retail, office, industrial and data center property types across various industries throughout the U.S. Shopko operates in the general merchandise industry and is the Company's largest tenant as a percentage of rental revenue. Total rental revenues from properties leased to Shopko for the three months ended March 31, 2018 and 2017, contributed 7.1% and 8.3% of the rental revenue presented in the accompanying consolidated statements of operations and comprehensive income. No other tenant contributed 4% or more of the rental revenue during any of the periods presented. As of both March 31, 2018 and December 31, 2017, the Company's net investment in Shopko properties represents approximately 5.1% of the Company's total assets shown in the accompanying consolidated balance sheets.

Note 9. Incentive Award Plan

Restricted Shares of Common Stock

During the three months ended March 31, 2018, the Company granted 0.9 million restricted shares under the Amended Incentive Award Plan to certain executive officers and employees. The Company recorded \$7.0 million in deferred compensation associated with these grants, which will be recognized in expense over the service period of the awards. As of March 31, 2018, there were approximately 2.1 million unvested restricted shares outstanding.

Performance Share Awards

During the three months ended March 31, 2018, the Board of Directors or committee thereof approved target grants of 0.5 million performance shares to executive officers of the Company. The performance period of these grants runs through December 31, 2020. Potential shares of the Corporation's common stock that each participant is eligible to receive is based on the initial target number of shares granted multiplied by a percentage range between 0% and 250%. Grant date fair value was calculated using the Monte Carlo simulation model, which incorporated stock price correlation, projected dividend yields and other variables over the time horizons matching the performance periods. Stock-based compensation expense associated with unvested performance share awards is recognized on a straight-line basis over the minimum required service period, which is generally three years.

Approximately \$1.1 million and \$0.8 million in dividend rights have been accrued for non-vested performance share awards outstanding as of March 31, 2018 and December 31, 2017, respectively. For outstanding non-vested awards at March 31, 2018, 1.8 million shares would have been released based on the Corporation's TSR relative to the specified peer groups through that date.

Stock-based Compensation Expense

For the three months ended March 31, 2018 and 2017, the Company recognized \$4.4 million and \$2.2 million, respectively, in stock-based compensation expense, which is included in general and administrative expenses in the accompanying consolidated statements of operations and comprehensive income.

As of March 31, 2018, the remaining unamortized stock-based compensation expense totaled \$25.4 million, with \$14.4 million related to restricted stock awards and \$11.0 million related to performance share awards. Amortization is recognized as the greater of the amount amortized on a straight-line basis over the service period of each applicable award or the amount vested over the vesting periods.

Note 10. Income Per Share and Partnership Unit

Income per share has been computed using the two-class method, which is computed by dividing the sum of distributed earnings to common stockholders and undistributed earnings allocated to common stockholders by the weighted average number of shares of common stock outstanding for the period. In applying the two-class method, undistributed earnings are allocated to both shares of common stock and participating securities based on the weighted average shares outstanding during the period. Classification of the Company's unvested restricted stock, which contain rights to receive non-forfeitable dividends, are deemed participating securities under the two-class method. Under the two-class method, earnings attributable to unvested restricted shares are deducted from income from continuing operations in the computation of net income attributable to common stockholders.

The table below is a reconciliation of the numerator and denominator used in the computation of basic and diluted net income per share computed using the two-class method (dollars in thousands):

	Three Months Ended March 31, 2018	2017
Basic and diluted income:

Total	252,475	78,637

⁽¹⁾ Assumes the most dilutive issuance of potentially issuable shares between the two-class and treasury stock method unless the result would be anti-dilutive.

The Corporation intends to satisfy its exchange obligation for the principal amount of the Convertible Notes to the note holders entirely in cash, therefore, the "if-converted" method does not apply and the treasury stock method is being used. For the three months ended March 31, 2018, the Corporation's average stock price was below the conversion price, resulting in zero potentially dilutive shares related to the conversion spread for both periods.

Note 11. Subsequent Events

Share Repurchase Programs

In April 2018, the Company fully utilized the remaining \$63.9 million authorized under the existing share repurchase program, having purchased 8.1 million shares of its common stock at a weighted average price of \$7.93 per share.

On April 30, 2018, the Company's Board of Directors approved a new stock repurchase program, which authorizes the Company to repurchase up to 250 million of its common stock. These purchases can be made in the open market or through private transactions from time to time over the 18-month time period following authorization, depending on prevailing market conditions and applicable legal and regulatory requirements.

Spin-Off of SMTA

On May 1, 2018, the Company's Board of Directors formally declared the distribution in connection with the Company's previously announced Spin-Off of SMTA, subject to certain conditions, and set May 18, 2018, as the record date for the distribution. The Company's stockholders at the close of business on the record date will be entitled to receive shares of SMTA common stock in the Spin-Off, which the Company expects to occur on May 31, 2018, the distribution date. Each SRC stockholder will receive one share of SMTA common stock for every 10 shares of SRC common stock held on the record date.

Prepayment on Master Trust 2013

On April 30, 2018, the Company notified the trustee of Master Trust 2013 of Spirit's intent to redeem the Series 2013-1 Class A notes on May 21, 2018, at which time the principal payment, along with any unpaid interest, will be settled. The principal balance outstanding of the Series 2013-1 Class A notes was \$123.8 million as of March 31, 2018. There is no make-whole payment associated with the redemption of these notes.

Special Note Regarding Forward-looking Statements

This quarterly report contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. When used in this quarterly report, the words "estimate," "anticipate," "expect," "believe," "intend," "may," "will," "should," "seek," "approximately" or "plan," or the negative of these words or similar words or phrases that are predictions of or indicate future events or trends and which do not relate solely to historical matters are intended to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions of management.

Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all).

The following risks and uncertainties, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- industry and economic conditions;
- volatility and uncertainty in the financial markets, including potential fluctuations in the CPI;
- our success in implementing our business strategy and our ability to identify, underwrite, finance, consummate, integrate and manage diversifying acquisitions or investments;
- the financial performance of our retail tenants and the demand for retail space, particularly with respect to challenges being experienced by general merchandise retailers;
- our ability to diversify our tenant base and reduce the concentration of our significant tenant;
- the nature and extent of future competition;
- increases in our costs of borrowing as a result of changes in interest rates and other factors;
- our ability to access debt and equity capital markets;
- our ability to pay down, refinance, restructure and/or extend our indebtedness as it becomes due;
- our ability and willingness to renew our leases upon expiration and to reposition our properties on the same or better terms upon expiration in the event such properties are not renewed by tenants or we exercise our rights to replace existing tenants upon default;
- the impact of any financial, accounting, legal or regulatory issues or litigation that may affect us or our major tenants;
- our ability to manage our expanded operations;
- our ability and willingness to maintain our qualification as a REIT;
- uncertainties as to the completion and timing of our proposed Spin-Off, and the impact of the Spin-Off on our business; and
- other risks inherent in the real estate business, including tenant defaults, potential liability relating to environmental matters, illiquidity of real estate investments and potential damages from natural disasters.

The factors included in this quarterly report, including the documents incorporated by reference, and documents we subsequently file with the SEC and incorporate by reference, are not exhaustive and additional factors could adversely affect our business and financial performance. For a discussion of additional risk factors, see the factors included under the caption "Risk Factors" in our most recent Annual Report on Form 10-K. All forward-looking statements are based on information that was available, and speak only, to the date on which they were made. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, new information, data or methods, future events or other changes, except as required by law.

Overview

Spirit Realty Capital, Inc. is a New York Stock Exchange listed company under the ticker symbol "SRC." We are a self-administered and self-managed REIT with in-house capabilities including acquisition, portfolio management, asset management, credit research, real estate research, legal, finance and accounting and capital markets. We primarily invest in single-tenant, operationally essential real estate assets throughout the U.S., which are generally acquired through strategic sale-leaseback transactions and subsequently leased on a long-term, triple-net basis to high quality tenants with business operations within retail, office, data centers and industrial property types. Single tenant, operationally essential real estate consists of properties that are generally free-standing, commercial real estate facilities where our tenants conduct activities that are essential to the generation of their sales and profits. In support of our primary business of owning and leasing real estate, we have also strategically originated or acquired long-term, commercial mortgage and other loans to provide a range of financing solutions to our tenants.

As of March 31, 2018, our owned real estate represented investments in 2,364 properties. Our properties are leased to 417 tenants across 49 states and 32 industries. As of March 31, 2018, our owned properties were approximately 98.9% occupied (based on the number of economically yielding properties). In addition, our investment in real estate includes commercial mortgage and other loans receivable primarily secured by 82 real estate properties or other related assets.

Our operations are primarily carried out through the Operating Partnership. OP Holdings, one of our wholly-owned subsidiaries, is the sole general partner and owns approximately 1% of the Operating Partnership. We and one of our wholly-owned subsidiaries are the only limited partners, and together own the remaining 99% of the Operating Partnership.

Although the Operating Partnership is wholly-owned by us, in the future, we may issue partnership interests in the Operating Partnership to third parties in exchange for property owned by such third parties. In general, any partnership interests in the Operating Partnership issued to third parties would be exchangeable for cash or, at our election, shares of our common stock at specified ratios set when such partnership interests in the Operating Partnership are issued. We have elected to be taxed as a REIT for federal income tax purposes and believe we have been organized and have operated in a manner that allows us to qualify as a REIT for federal income tax purposes.

On August 3, 2017, we announced a proposed Spin-Off of almost all of our interests in our properties leased to Shopko, assets that collateralize Master Trust 2014 and certain other assets into an independent, publicly traded REIT, Spirit MTA REIT, or SMTA. If the Spin-Off is completed, our stockholders would receive a distribution of common shares of beneficial interest in SMTA, which will be treated as a taxable distribution to them. The Spin-Off is subject to certain conditions, including declaration by the U.S. Securities and Exchange Commission that SMTA's registration statement on Form 10 is effective and receipt of certain third party consents. Such conditions and other unforeseen developments, including in the debt or equity markets or general market conditions, could delay or prevent the Spin-Off or cause the Spin-Off to occur on terms or conditions that are less favorable and/or different than those described herein. The transaction is expected to be completed in the second quarter of 2018. We may, at any time and for any reason until the proposed transaction is complete, abandon the Spin-Off or modify or change its terms, including the assets we plan to contribute to SMTA.

Highlights

For the three months ended March 31, 2018:

Generated net income of \$0.06 versus \$0.03 per share, FFO of \$0.24 versus \$0.20 per share and AFFO of \$0.21 (\$0.22 per share excluding cash severance charges) versus \$0.20 per share, in each case, compared to same quarter in 2017.

Real estate portfolio occupancy was 98.9% as of March 31, 2018.

Repurchased 13.2 million shares of outstanding common stock at a weighted average purchase price of \$7.88 per share.

Our corporate liquidity was \$1.1 billion as of March 31, 2018, including availability under our unsecured line of credit, term loan and cash available for investment.

Adjusted Debt to Annualized Adjusted EBITDA was 6.3x as of March 31, 2018.

Invested \$9.9 million in one property and revenue producing capital expenditures.

Disposed of 29 properties for \$37.7 million, including four non-revenue producing properties transferred to CMBS lenders to satisfy \$26.2 million in debt obligations.

Factors that May Influence Our Operating Results

ACQUISITIONS AND LEASE STRUCTURE

Our principal business is acquiring commercial real estate properties, generally leased to tenants under triple-net leases. Our ability to grow revenue and produce superior risk-adjusted returns depends on our ability to acquire additional properties at a yield sufficiently in excess of our cost of capital. We focus on opportunities to acquire attractive commercial real estate by providing capital to small and middle-market companies that we conclude have stable and proven operating histories and attractive credit characteristics. Small and middle-market companies are often willing to enter into leases with structures and terms that we consider appealing and that we believe increase the security of rental payments.

Portfolio Diversification

Our strategy emphasizes a portfolio that (1) derives no more than 10% of its Contractual Rent from any single tenant and no more than 3.0% of its Contractual Rent from any single property, (2) is leased to tenants operating in various industries and (3) is located across the U.S. without significant geographic concentration.

A core component of our business is investing in and managing a portfolio of single-tenant, operationally essential retail real estate throughout the U.S. Accordingly, our performance is substantially dependent on the performance of our retail tenants. The market for retail space has previously been, and could continue to be, adversely affected by weakness in the national, regional and local economies, the adverse financial condition of some retail companies, the ongoing consolidation in the retail industry, the excess amount of retail space in a number of markets and increasing consumer purchases through catalogs or over the internet.

In particular, we have experienced and expect to continue to experience challenges with some of our retailers through increased credit losses. These credit losses may result in lower revenues from non-performing leases and certain charges for the write-off of unrecoverable receivables. We expect the non-performance for certain of our leases to continue.

Shopko Update

As of March 31, 2018, Shopko represents our most significant tenant. As of March 31, 2018, we lease 98 properties to Shopko, pursuant to three master leases and two single site leases, under which we receive approximately \$3.9 million in Contractual Rent per month. We reduced our Shopko tenant concentration to 7.9% of Contractual Rent at March 31, 2018 compared to 8.1% at March 31, 2017.

As a result of the significant number of properties leased to Shopko, our results of operations and financial condition are significantly impacted by Shopko's performance under its leases. Shopko operates as a multi-department general merchandise retailer and retail health services provider primarily in mid-size and large communities in the Midwest, Pacific Northwest, North Central and Western Mountain states.

In January 2018, the Operating Partnership funded a \$35.0 million, B-1 term loan as part of a syndicated loan and security agreement with Shopko as borrower and several banks as lenders. The loan bears interest at 12.0% per annum and matures in June 2020. Principal will be repaid in quarterly installments of \$0.6 million commencing on November 1, 2018, while interest will be paid monthly. The loan is secured by Shopko's assets in its \$784 million asset-backed lending facility and is subordinate to other loans made under the syndicated loan and security agreement. The Operating Partnership received a commitment fee equal to 3.00% of the B-1 term loan.

We continue monitoring Shopko's financial information, as well as other challenges impacting the retail industry generally, and continue evaluating Shopko's ongoing ability to meet its obligations to us under its leases. Although Shopko is current on all of its obligations under its lease arrangements with us as of March 31, 2018, we can give you no assurance that this will continue to be the case, particularly if Shopko experiences a further decline in its business, financial condition and results of operations or loses access to liquidity. If such events were to occur, Shopko may request discounts or deferrals on the rents it pays to us, seek to terminate its master leases with us or close certain of its stores, or file for bankruptcy, all of which could significantly decrease the amount of revenue we receive from it.

Operationally Essential Real Estate with Long-Term Leases

We seek to own properties that are operationally essential to our tenants, thereby reducing the risk that our tenants would choose not to renew an expiring lease or reject a lease in bankruptcy. We also seek to enter into leases with

relatively long initial terms, typically 15 to 20 years, and renewal options with attractive rent escalation provisions. As of March 31, 2018, our leases had a weighted average remaining lease term of 9.9 years, based on Contractual Rent, compared to a weighted average remaining lease term of 10.6 years as of March 31, 2017.

Rent Escalators

Our leases generally contain provisions contractually increasing the rental revenue over the term of the lease at specified dates by (1) a fixed amount or (2) the lesser of (a) 1 to 2 times CPI over a specified period, (b) a fixed percentage or (c) a fixed schedule. The percentage of our single-tenant properties containing rent escalators remained consistent at 89% as of both March 31, 2018 and March 31, 2017, respectively.

Master Lease Structure

Where appropriate, we seek to enter into master leases, whereby we lease multiple properties to a single tenant on an “all or none” basis. The master lease structure prevents a tenant from unilaterally giving up under-performing properties while retaining well-performing properties. Master lease revenue contributed approximately 45% of our Contractual Rent as of March 31, 2018, compared to approximately 44% as of March 31, 2017.

Triple-Net Leases

Our leases are predominantly triple-net leases, whereby the tenant pays all property operating expenses, including but not limited to real estate taxes, insurance premiums and repair and maintenance costs. As of March 31, 2018, approximately 84% of our properties (based on Contractual Rent) are subject to triple-net leases, compared to approximately 83% as of March 31, 2017.

ASSET MANAGEMENT

The stability of the rental revenue generated by our properties depends principally on our tenants’ ability to pay rent and our ability to:

- collect rent due,
- renew expiring leases or re-lease space upon expiration or other termination,
- lease or dispose of currently vacant properties, and
- maintain or increase rental rates.

Each of these could be negatively impacted by adverse economic conditions, particularly those that affect the markets in which our properties are located, downturns in our tenants’ industries, increased competition for our tenants at our property locations, or the bankruptcy of one or more of our tenants. We seek to manage these risks by using our developed underwriting and risk management processes to structure and manage our portfolio.

Active Management and Monitoring of Risks Related to Our Investments

We seek to measure tenant financial distress risk and lease renewal risk through various processes. Many of our tenants are required to provide corporate-level and/or unit-level financial information, which includes balance sheet, income statement and cash flow statement data on a quarterly and/or annual basis. Our underwriting and risk management processes are designed to structure new investments and manage existing investments to mitigate tenant credit quality risks and preserve the long-term return on our invested capital. Since our inception, our occupancy based on economically yielding properties has never fallen below 96.1%, despite the economic downturn of 2008 through 2010. The percentage of our properties that were economically yielding increased to approximately 98.9% as of March 31, 2018 from approximately 97.7% as of March 31, 2017.

On September 8, 2015, Haggen Holdings, LLC and a number of its affiliates, including Haggen Operations Holdings, LLC, filed petitions for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code. At the time of the filing, Haggen Operations Holdings, LLC leased 20 properties on a triple net basis from a subsidiary of ours under a master lease. For discussion of the related settlement and current status of these properties, see Note 6 to the consolidated financial statements herein.

CAPITAL RECYCLING

We continuously evaluate opportunities for the disposition of properties in our portfolio when we believe such dispositions are appropriate in view of our business objectives, considering criteria including, but not limited to, tenant concentration, tenant credit quality, local market conditions and lease rates, associated indebtedness, asset location and tenant operation type (e.g., industry, sector, or concept/brand), as well as potential uses of proceeds and tax considerations.

As part of this strategy, we may enter into 1031 Exchanges to defer some or all of the taxable gains on the dispositions, if any, for federal and state income tax purposes. We can provide no assurance that we will dispose of any additional properties or that future acquisitions and/or dispositions, if any, will qualify as 1031 Exchanges. Furthermore, we can provide no assurance that we will deploy the proceeds from future dispositions in a manner that produces comparable or better yields.

CAPITAL FUNDING

Our principal demands for funds are for property acquisitions, payment of principal and interest on our outstanding indebtedness, operating and property maintenance expenses and distributions to our stockholders. Generally, property acquisitions are temporarily funded through our Revolving Credit Facility, followed by permanent financing through asset level financing or issuance of debt or equity securities. Our remaining cash needs are typically met by cash flows from operations, which are primarily driven by the rental income received from our leased properties, interest income earned on loans receivable and interest income on our cash balances.

Interest Costs

Our fixed-rate debt structure provides us with a stable and predictable cash requirement related to our debt service. Any changes to our debt structure, including borrowings under our Revolving Credit Facility or debt financing associated with property acquisitions, could materially influence our operating results depending on the terms of any such indebtedness. A significant amount of our debt provides for scheduled principal payments. As principal is repaid, our interest expense decreases. Fluctuations in interest rates will affect the interest expense we incur on unhedged variable interest rate debt and may impact our ability to refinance maturing debt.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base estimates on the best information available to us at the time, our experience and various other assumptions deemed reasonable under the circumstances. From time to time, we re-evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current estimates and assumptions about matters that are inherently uncertain. A summary of our critical accounting policies is included in our Annual Report on Form 10-K for the year ended December 31, 2017 in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations." We have not made any material changes to these policies during the periods covered by this quarterly report.

REVENUES

Rentals

Rental revenue for the comparative period remained relatively flat as decreases in contractual rent were offset by decreases in tenant credit losses. Our contractual rental revenue between periods decreased 3.1% as we were a net disposer of income producing real estate over the trailing twelve month period. Our overall dispositions resulted in a decrease in real estate investments, which totaled \$7.7 billion at March 31, 2018, compared to \$8.3 billion at March 31, 2017.

Non-cash rentals for the three months ended March 31, 2018 and 2017 were \$6.1 million and \$8.1 million, respectively. These amounts represent approximately 3.8% and 5.1% of total rental revenue for the three months ended March 31, 2018 and 2017, respectively. Tenant credit losses decreased between periods due to a higher amount of nonperforming properties in the convenience store and movie theater industries in the prior period.

Interest income on loans receivable

The increase in interest income on loans receivable is a result of the Operating Partnerships' funding of a \$35.0 million B-1 term loan as part of a syndicated loan and security agreement with Shopko as borrower and several banks as lenders. Interest income on mortgage loans remained relatively flat period-over-period.

Tenant reimbursement income

We have a number of leases that require our tenants to reimburse us for certain property costs we incur. Tenant reimbursement income is driven by the tenant reimbursable property costs described below.

Other income

The period-over-period increase in other income was primarily due to the increase in interest income on an increased restricted cash balance related to Master Trust reserve balances and the creation of a liquidity reserve for Master Trust 2014.

EXPENSES**General and administrative**

The period-over-period increase in general and administrative expenses is primarily due to a \$4.1 million increase in compensation and benefits expenses, primarily due to severance costs following the departure of two executive officers recognized in the three months ended March 31, 2018, and no comparable expense in the three months ended March 31, 2017. This was partially offset by a \$0.8 million decrease in each of professional fees, primarily legal fees, and bad debt expense recorded period-over-period. The decrease in bad debt expense was primarily a result of certain sporting goods and restaurant - casual dining properties for which the rent had been determined to be uncollectible for the three months ended March 31, 2017.

Transaction costs

In connection with the Spin-Off, we incurred \$3.9 million in costs during three months ended March 31, 2018. These costs are comprised of \$3.5 million in legal, accounting, auditing and financial adviser fees and \$0.4 million in consulting and other costs.

Property costs

The decrease in property costs is primarily due to a decrease in property taxes compared to the same period in 2017, driven by fewer vacancies.

Interest

The increase in interest expense is primarily related to the new issuance of Master Trust 2014 notes in November 2017 and a new CMBS loan entered into in January 2018, partially offset by the extinguishment of \$223.2 million of mortgage debt during the twelve months ended March 31, 2018.

The following table summarizes our interest expense on related borrowings:

⁽¹⁾ Includes facility fees of approximately \$0.5 million and \$0.6 million for the three months ended March 31, 2018 and 2017, respectively.

Depreciation and amortization

During the twelve months ended March 31, 2018, we acquired 14 properties, representing an investment in real estate of \$184.9 million, and we disposed of 164 properties with a gross investment of \$409.8 million. While we were a net disposer during the period (based on investment in real estate), the impact to depreciation was relatively flat due to the timing of acquisition and disposition activity. The following table summarizes our depreciation and amortization expense:

(In Thousands)	Three Months Ended	
	March 31, 2018	March 31, 2017
Depreciation of real estate assets	\$52,022	\$53,663
Other depreciation	141	139
Amortization of lease intangibles	9,954	11,192
Total depreciation and amortization	\$62,117	\$64,994

Impairment

Impairment charges for the three months ended March 31, 2018 were \$14.6 million. These charges included \$14.2 million on properties held in use, including \$3.0 million on 10 restaurant - casual dining properties, \$1.3 million on one drug store/pharmacy property and \$0.6 million on one medical office building. The remaining \$9.3 million was related to eight vacant held in use properties. There was also \$0.4 million of impairment recorded on two properties held for sale.

For the same period in 2017, impairment charges primarily included \$11.9 million on properties held for sale, including \$11.3 million on vacant held for sale properties, and \$12.6 on vacant properties not classified as held for sale. Impairment charges also include \$11.1 million on eight underperforming properties within the drug store/pharmacy, consumer electronics and general merchandise industries.

Gain (loss) on debt extinguishment

During the three months ended March 31, 2018, we extinguished \$33.9 million of mortgage debt related to four loans on five underperforming properties, resulting in a gain on debt extinguishment of \$21.3 million. For the same period in 2017, we extinguished \$49.2 million of mortgage debt related to seven loans and recorded a de minimis loss.

(Loss) gain on disposition of assets

For the three months ended March 31, 2018, the loss on disposition of 29 properties included \$1.6 million from the sale of 22 restaurant - casual dining properties and three mortgage notes and a net loss of \$0.1 million from the disposal of five underperforming properties and two partial takings, mostly offset by a gain of \$1.2 million on the sale of two convenience stores. For the same period in 2017, the gain on disposition of 57 properties primarily included \$7.0 million from the sale of three Shopko properties, \$4.5 million on the sale of a multi-tenant property and \$4.1 million from the sale of 34 convenience store properties.

Lease Expirations

The following table sets forth a summary schedule of expiration dates for leases in place as of March 31, 2018. The weighted average remaining non-cancelable initial term of our leases (based on Contractual Rent) was 9.9 years. The information set forth in the table assumes that tenants do not exercise renewal options and or any early termination rights:

Liquidity and Capital Resources

SHARE REPURCHASE PROGRAM

In August 2017, our Board of Directors approved a stock repurchase program, which authorizes the repurchase of up to \$250.0 million of our common stock. These purchases can be made in the open market or through private transactions from time to time over the 18-month time period following authorization. Purchase activity will be dependent on various factors, including our capital position, operating results, funds generated by asset sales, dividends that may be required by those sales, and investment options that may be available, including acquiring new properties or retiring debt. The stock repurchase program does not obligate us to repurchase any specific number of shares and may be suspended at any time at our discretion. We intend to fund any repurchases with the new proceeds from asset sales, cash flows from operations, existing cash on the balance sheet and other sources, including debt. During the three months ended March 31, 2018, 13,161,065 shares of the Company's common stock have been repurchased in open market transactions under the stock repurchase program at a weighted average price of \$7.88 per share. As of March 31, 2018, 22,663,735 shares of our common stock have been repurchased in open market transactions since the authorization of the stock repurchase program, at a weighted average price of \$8.21 per share, leaving \$63.9 million in available capacity. Fees associated with the repurchase, of \$0.5 million, are included in accumulated deficit.

SHORT-TERM LIQUIDITY AND CAPITAL RESOURCES

On a short-term basis, our principal demands for funds will be for operating expenses, including financing of acquisitions, distributions to stockholders and payment of interest and principal on current and any future debt financings. We expect to fund these demands primarily through cash provided by operating activities and borrowings under the Revolving Credit Facility and Term Loan. As of March 31, 2018, available liquidity was comprised of \$645.5 million of borrowing capacity under the Revolving Credit Facility and \$420.0 million under the Term Loan, \$117.2 million in restricted cash and restricted cash equivalents and \$11.0 million in cash and cash equivalents.

LONG-TERM LIQUIDITY AND CAPITAL RESOURCES

We plan to meet our long-term capital needs, including long-term financing of property acquisitions, by issuing registered debt or equity securities, obtaining asset level financing and by issuing fixed rate secured or unsecured notes and bonds. In the future, some of our property acquisitions could be made by issuing partnership interests of our Operating Partnership in exchange for property owned by third parties. These partnership units would be exchangeable for cash or, at our election, shares of our common stock.

We continually evaluate alternative financing and believe that we can obtain financing on reasonable terms. However, we cannot be sure that we will have access to the capital markets at times and on terms that are acceptable to us. We expect that our primary uses of capital will be for property and other asset acquisitions, the payment of tenant improvements, operating expenses, debt service payments and distributions to our stockholders.

DESCRIPTION OF CERTAIN DEBT

The following descriptions of debt should be read in conjunction with footnote 4 to the consolidated financial statements herein.

Revolving Credit Facility

As of March 31, 2018, the aggregate gross commitment under the Revolving Credit Facility was \$800.0 million, which may be increased up to \$1.0 billion by exercising an accordion feature, subject to satisfying certain requirements and obtaining additional lender commitments. The Revolving Credit Facility also includes a \$50.0 million sub-limit for swing-line loans and up to \$60.0 million available for issuances of letters of credit. Swing-line loans and letters of credit reduce availability under the Revolving Credit Facility on a dollar-for-dollar basis. The Revolving Credit Facility has an initial maturity of March 31, 2019, which is extendable for one year at our option. The Operating Partnership may voluntarily prepay the Revolving Credit Facility, in whole or in part, at any time without premium or penalty, but subject to applicable LIBOR breakage fees, if any. Payment of the Revolving Credit Facility is unconditionally guaranteed by the Corporation and material subsidiaries that meet certain conditions (as defined in the Credit Agreement). As of March 31, 2018, there were no subsidiaries that met this requirement.

As of March 31, 2018, the Revolving Credit Facility bore interest at LIBOR plus 1.25%, with \$154.5 million in borrowings outstanding, and a 0.25% annual facility fee. As of March 31, 2018, there were no swing-line loans or letters of credit outstanding.

Term Loan

As of March 31, 2018, there was no outstanding balance on the Term Loan. The borrowing capacity under the Term Loan was \$420.0 million and may be increased up to \$600.0 million by exercising an accordion feature, subject to obtaining additional lender commitments. The Term Loan has an initial maturity date of November 2, 2018, which may be extended at our option pursuant to two one-year extension options, subject to the satisfaction of certain conditions.

Borrowings may be repaid without premium or penalty, and may be re-borrowed within 30 days up to the then available loan commitment and subject to occurrence limitations within any twelve-month period.

Senior Unsecured Notes

The Senior Unsecured Notes of the Operating Partnership have an aggregate principal amount of \$300.0 million and are guaranteed by the Corporation. The Senior Unsecured Notes accrue interest at a rate of 4.45% per year, payable on March 15 and September 15 with a final maturity date of September 15, 2026.

The Senior Unsecured Notes are redeemable in whole at any time or in part from time to time, at the Operating Partnership's option, at a redemption price equal to the sum of: an amount equal to 100% of the principal amount of the Senior Unsecured Notes to be redeemed plus accrued and unpaid interest and liquidated damages, if any, up to, but not including, the redemption date; and a make-whole premium calculated in accordance with the indenture.

Notwithstanding the foregoing, if any of the Senior Unsecured Notes are redeemed on or after June 15, 2026, the redemption price will not include a make-whole premium.

Spirit Master Funding Program

The Spirit Master Funding Program is an asset-backed securitization platform through which we raise capital by issuing non-recourse net lease mortgage notes collateralized by commercial real estate, net leases and mortgage loans. The commercial real estate is managed by the Company in our capacity as property manager. Rental and mortgage receipts are deposited with the indenture trustee, who first utilizes these funds to satisfy the debt service requirements on the notes and any fees and costs of administration of the Spirit Master Funding Program. Any remaining funds are remitted to the issuers on the monthly note payment date.

Upon satisfaction of certain conditions, we may, from time to time, sell or exchange real estate properties or mortgage loans in the Collateral Pools. Proceeds from the sale of the assets are held on deposit by the indenture trustee until a qualifying substitution is made or the amounts are distributed as an early repayment of principal. At March 31, 2018, \$97.0 million was held on deposit with the indenture trustees and classified as restricted cash within deferred costs and other assets, net in our consolidated balance sheets.

As of March 31, 2018, the Master Trust 2014 notes were secured by 790 owned and financed properties issued by five indirect wholly-owned subsidiaries of the Corporation. The notes issued under Master Trust 2014 are cross-collateralized by the assets of all issuers within Master Trust 2014. As of March 31, 2018, the Master Trust 2013 notes were secured by 295 owned and financed properties issued by a single indirect wholly-owned subsidiary of the Corporation. All outstanding series of Master Trust Notes were rated investment grade as of March 31, 2018.

CMBS

As of March 31, 2018, we had 10 fixed-rate CMBS loans with \$382.7 million of aggregate outstanding principal, a weighted-average contractual interest rate of 5.56% and a weighted average maturity of six years. Approximately 73% of this debt is partially amortizing and requires a balloon payment at maturity. These balances include three CMBS fixed-rate loans that are in default, discussed further below.

The following table shows the scheduled principal repayments, including amortization, of the CMBS fixed-rate loans, excluding the three defaulted loans and the properties securing them as of March 31, 2018.

CMBS Liquidity Matters

As of March 31, 2018, we are in default on three CMBS fixed-rate loans due to the underperformance of the three properties securing the loans. The aggregate principal balance under the defaulted loans was \$31.4 million, including \$10.3 million of accrued interest. We believe the value of the three properties is less than the related debt. As a result, we have notified the special servicer for these loans that we anticipate either surrendering these properties or selling them in exchange for relieving the indebtedness of our special purpose borrowers.

⁽¹⁾ Interest capitalized to principal that remains unpaid.

⁽²⁾ Represents restricted cash controlled by the lender that may be applied to reduce the outstanding principal balance.

Convertible Notes

The Convertible Notes are comprised of two series of notes: \$402.5 million aggregate principal amount of 2.875% convertible notes maturing on May 15, 2019 and \$345.0 million aggregate principal amount of 3.75% convertible notes maturing on May 15, 2021. Interest on the Convertible Notes is payable semiannually in arrears on May 15 and November 15 of each year. As of March 31, 2018, the carrying amount of the Convertible Notes was \$719.3 million, which is net of discounts (primarily consisting of the value of the embedded conversion feature) and unamortized deferred financing costs.

Holders may convert notes of either series prior to November 15, 2018, in the case of the 2019 Notes, or November 15, 2020, in the case of the 2021 Notes, only under specific circumstances: (1) if the closing price of our common stock for each of at least 20 trading days (whether or not consecutive) during the last 30 consecutive trading days in the quarter is greater than or equal to 130% of the conversion price for the Convertible Notes; (2) during the five business day period after any 10 consecutive trading day period in which the trading price per \$1,000 principal amount of the Convertible Notes for each trading day of the measurement period was less than 98% of the product of the last closing price of our common stock and the conversion rate for the Convertible Notes; (3) if we call any or all of the Convertible Notes for redemption prior to the redemption date; or (4) upon the occurrence of specified corporate events as described in the Convertible Notes prospectus supplement. On or after November 15, 2018, in the case of the 2019 Notes, or November 15, 2020, in the case of the 2021 Notes, until the close of business on the second scheduled trading day immediately preceding the maturity date of the Convertible Notes, holders may convert the Convertible Notes of the applicable series at any time, regardless of the foregoing circumstances. Upon conversion, we will pay or deliver cash, shares of common stock or a combination of cash and shares of common stock, at our election.

The conversion rate for each series of the Convertible Notes is subject to adjustment for some events, including dividends paid in excess of threshold amounts stipulated in the agreement, but will not be adjusted for any accrued and unpaid interest. As of March 31, 2018, the conversion rate was 77.4557 per \$1,000 principal note. If we undergo a fundamental change (as defined in the Convertible Notes supplemental indentures), holders may require us to repurchase all or any portion of their notes at a repurchase price equal to 100% of the principal amount of such notes to be repurchased, plus accrued and unpaid interest.

DEBT MATURITIES

Future principal payments due on our various types of debt outstanding as of March 31, 2018 (in thousands):

(1) 2019 includes the Revolving Credit Facility which is extendible for one year at the borrower's option.

(2) The CMBS payment balance in 2018 includes \$21.1 of principal and \$10.3 million of capitalized interest, for the three defaulted CMBS fixed-rate loans with stated maturities in 2018.

CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of business to the information regarding specified contractual obligations contained in our Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the SEC.

We may enter into commitments to purchase goods and services in connection with the operations of our properties. Those commitments generally have terms of one-year or less and reflect expenditure levels comparable to our historical expenditures.

DISTRIBUTION POLICY

Distributions from our current or accumulated earnings are generally classified as ordinary income, whereas distributions in excess of our current and accumulated earnings, to the extent of a stockholder's federal income tax basis in our common stock, are generally characterized as a return of capital. Under the 2017 Tax Legislation, U.S. stockholders that are individuals, trusts and estates generally may deduct up to 20% of the ordinary dividends (e.g., dividends not designated as capital gain dividends or qualified dividend income) received from a REIT for taxable years beginning after December 31, 2017 and before January 1, 2026. Distributions in excess of a stockholder's federal income tax basis in our common stock are generally characterized as capital gain.

We are required to distribute 90% of our taxable income (subject to certain adjustments and excluding net capital gains) on an annual basis to maintain qualification as a REIT for federal income tax purposes and are required to pay federal income tax at regular corporate rates to the extent we distribute less than 100% of our taxable income (including capital gains).

We intend to make distributions that will enable us to meet the distribution requirements applicable to REITs and to eliminate or minimize our obligation to pay corporate-level federal income and excise taxes.

Any distributions will be at the sole discretion of our Board of Directors, and their form, timing and amount, if any, will depend upon a number of factors, including our actual and projected results of operations, FFO, liquidity, cash flows and financial condition, the revenue we actually receive from our properties, our operating expenses, our debt service requirements, our capital expenditures, prohibitions and other limitations under our financing arrangements, our REIT taxable income, the annual REIT distribution requirements, applicable laws and such other factors as our Board of Directors deems relevant.

Cash Flows

The following table presents a summary of our cash flows for the three months ended March 31, 2018 and March 31, 2017, respectively:

	Three Months Ended March 31, 2018 2017 Change		
	(in Thousands)		
Net cash provided by operating activities	\$93,160	\$96,802	\$(3,642)
Net cash used in investing activities	(18,182)	(16,065)	(2,117)
Net cash used in financing activities	(61,531)	(64,952)	3,421
Net increase in cash, cash equivalents and restricted cash	\$13,447	\$15,785	\$(2,338)

As of March 31, 2018, we had \$128.2 million of cash, cash equivalents and restricted cash as compared to \$114.7 million as of December 31, 2017 and \$52.7 million as of March 31, 2017.

Operating Activities

Our cash flows from operating activities are primarily dependent upon the occupancy level of our portfolio, the rental rates specified in our leases, the collectability of rent and the level of our operating expenses and other general and administrative costs.

The decrease in net cash provided by operating activities was primarily attributable to:

- an increase in compensation and benefit expenses, primarily due to \$2.1 million of cash severance charges incurred during the three months ended March 31, 2018,

- an increase in cash interest expense of \$2.4 million, and

- incurrence of transaction costs of \$3.9 million during the three months ended March 31, 2018.

This decrease was partially offset by:

- an increase in cash revenue of \$2.8 million, driven by fewer tenant credit losses as well as interest income received on a \$35.0 million principal Shopko term loan entered into in January 2018,

- a decrease in non-reimbursable property costs of \$1.9 million, due to a reduction in vacant properties, and

- a decrease in non-compensation general and administrative expenses of \$1.5 million.

Investing Activities

Cash used in investing activities is generally used to fund property acquisitions, for investments in loans receivable and, to a lesser extent, for capital expenditures. Cash provided by investing activities generally relates to the disposition of real estate and other assets.

Net cash used in investing activities during the three months ended March 31, 2018 consisted of \$35.0 million funded to Shopko for a term loan, \$2.7 million for the acquisition of one property, and \$9.9 million of capitalized real estate expenditures. These outflows were partially offset by \$26.1 million in proceeds from the disposition of 29 properties. During the same period in 2017, net cash used in investing activities primarily consisted of \$135.6 million for the acquisition of 26 properties and \$13.3 million of capitalized real estate expenditures. These outflows were partially offset by \$134.7 million in proceeds from the disposition of 57 properties.

Financing Activities

Generally, our net cash used in financing activities is impacted by our borrowings under our Revolving Credit Facility and Term Loan, issuances of net-lease mortgage notes, common stock offerings and repurchases and dividend payments on our common and preferred stock.

Net cash used in financing activities during the three months ended March 31, 2018 was primarily attributable to common stock share repurchases totaling \$104.5 million and payment of dividends to equity owners of \$83.4 million. These amounts were partially offset by net borrowings of \$42.5 million under our Revolving Credit Facility and \$86.2 million under mortgages and notes payable.

During the same period in 2017, net cash used in financing activities was primarily attributable to debt repayment of \$19.3 million and the payment of dividends to equity owners of \$87.2 million. These amounts were partially offset by net borrowings under our Revolving Credit Facility of \$43.0 million.

Off-Balance Sheet Arrangements

As of March 31, 2018, we did not have any material off-balance sheet arrangements.

Non-GAAP Financial Measures

FFO AND AFFO

We calculate FFO in accordance with the standards established by NAREIT. FFO represents net income (loss) attributable to common stockholders (computed in accordance with GAAP), excluding real estate-related depreciation and amortization, impairment charges and net losses (gains) from property dispositions. FFO is a supplemental non-GAAP financial measure. We use FFO as a supplemental performance measure because we believe that FFO is beneficial to investors as a starting point in measuring our operational performance. Specifically, in excluding real estate related depreciation and amortization, gains and losses from property dispositions and impairment charges, which do not relate to or are not indicative of operating performance, FFO provides a performance measure that, when compared year-over-year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of the performance of equity REITs, FFO will be used by investors as a basis to compare our operating performance with that of other equity REITs. However, because FFO excludes depreciation and amortization and does not capture the changes in the value of our properties that result from use or market conditions, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. In addition, other equity REITs may not calculate FFO as we do, and, accordingly, our FFO may not be comparable to such other equity REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income (loss) attributable to common stockholders as a measure of our performance.

AFFO is a non-GAAP financial measure of operating performance used by many companies in the REIT industry. Accordingly, AFFO should be considered only as a supplement to net income (loss) attributable to common stockholders as a measure of our performance. We adjust FFO to eliminate the impact of certain items that we believe are not indicative of our core operating performance, including restructuring costs, other general and administrative costs associated with relocation of our headquarters, transaction costs associated with our proposed Spin-Off, default interest on non-recourse mortgage indebtedness, debt extinguishment gains (losses), transaction costs incurred in connection with the acquisition of real estate investments subject to existing leases and certain non-cash items. These certain non-cash items include non-cash revenues (comprised of straight-line rents, amortization of above and below market rent on our leases, amortization of lease incentives, amortization of net premium (discount) on loans receivable and amortization of capitalized lease transaction costs), non-cash interest expense (comprised of amortization of deferred financing costs and amortization of net debt discount/premium) and non-cash compensation expense (stock-based compensation expense). In addition, other equity REITs may not calculate AFFO as we do, and, accordingly, our AFFO may not be comparable to such other equity REITs' AFFO. AFFO does not represent cash generated from operating activities determined in accordance with GAAP, is not necessarily indicative of cash available to fund cash needs and should not be considered as an alternative to net income determined in accordance with GAAP as a performance measure. A reconciliation of our FFO and AFFO to net income (loss) attributable to common stockholders (computed in accordance with GAAP) is included in the financial information accompanying this report.

EBITDAre

EBITDAre is a non-GAAP financial measure and is computed in accordance with standards established by NAREIT. EBITDAre is defined as net income (loss) (computed in accordance with GAAP), plus interest expense, plus income tax expense (if any), plus depreciation and amortization, plus (minus) losses and gains on the disposition of depreciated property, plus impairment write-downs of depreciated property and investments in unconsolidated real estate ventures, plus adjustments to reflect the Company's share of EBITDAre of unconsolidated real estate ventures.

Adjusted EBITDAre and Annualized Adjusted EBITDAre

Adjusted EBITDAre represents EBITDAre modified to include other adjustments to GAAP net income (loss) for restructuring charges, severance charges, real estate acquisition costs, and debt transactions and other items that we do not consider to be indicative of our on-going operating performance. We focus our business plans to enable us to sustain increasing shareholder value. Accordingly, we believe that excluding these items, which are not key drivers of our investment decisions and may cause short-term fluctuations in net income, provides a useful supplemental measure to investors and analysts in assessing the net earnings contribution of our real estate portfolio. Because these measures do not represent net income (loss) that is computed in accordance with GAAP, they should not be considered alternatives to net income (loss) or as an indicator of financial performance. A reconciliation of net income (loss) (computed in accordance with GAAP) to EBITDAre, Adjusted EBITDAre and Annualized Adjusted EBITDAre is included in the financial information accompanying this report.

Adjusted Debt

Adjusted Debt represents interest bearing debt (reported in accordance with GAAP) adjusted to exclude unamortized debt discount/premium and deferred financing costs, as further reduced by cash and cash equivalents and cash reserves on deposit with lenders as additional security. By excluding unamortized debt discount/premium and deferred financing costs, cash and cash equivalents, and cash reserves on deposit with lenders as additional security, the result provides an estimate of the contractual amount of borrowed capital to be repaid, net of cash available to repay it. We believe this calculation constitutes a beneficial supplemental non-GAAP financial disclosure to investors in understanding our financial condition.

Adjusted Debt to Annualized Adjusted EBITDAre is a supplemental non-GAAP financial measure we use to evaluate the level of borrowed capital being used to increase the potential return of our real estate investments, and a proxy for a measure we believe is used by many lenders and ratings agencies to evaluate our ability to repay and service our debt obligations over time. We believe the ratio is a beneficial disclosure to investors as a supplemental means of evaluating our ability to meet obligations senior to those of our equity holders. Our computation of this ratio may differ from the methodology used by other equity REITs, and, therefore, may not be comparable to such other REITs. A reconciliation of interest bearing debt (reported in accordance with GAAP) to Adjusted Debt is included in the financial information accompanying this report.

Initial Cash Yield

We calculate initial cash yield from properties by dividing the annualized first month base rent (excluding any future rent escalations provided for in the lease) by the gross investment in the related properties. Gross investment for an acquired property represents gross acquisition costs including the contracted purchase price and related capitalized transaction costs. Initial cash yield is a measure (expressed as a percentage) of the contractual cash rent expected to be earned on an acquired property in the first year. Because it excludes any future rent increases or additional rent that may be contractually provided for in the lease, as well as any other income or fees that may be earned from lease modifications or asset dispositions, initial cash yield does not represent the annualized investment rate of return of our acquired properties. Additionally, actual contractual cash rent earned from the properties acquired may differ from the initial cash yield based on other factors, including difficulties collecting anticipated rental revenues and unanticipated expenses at these properties that we cannot pass on to tenants, as well as the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2017.

Capitalization Rate

We calculate the capitalization rate for disposed properties as the annualized cash rent on the date of disposition divided by the gross sales price. For multi-tenant properties, non-reimbursable property costs are deducted from the annualized cash rent prior to computing the capitalization rate. Annualized cash rent for a disposed property represents the annualized monthly contractual cash rent under the related lease at time of disposition.

FFO and AFFO

The following is a reconciliation of net income attributable to common stockholders (which we believe is the most comparable GAAP measure) to FFO and AFFO. Also presented is information regarding distributions paid to common stockholders and the weighted average shares of common stock outstanding used for the basic and diluted computations per share (dollars in thousands, except per share amounts):

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to financial market risks, especially interest rate risk. Interest rates and other factors, such as occupancy, rental rates and the financial condition of our tenants, influence our performance more so than does inflation. Changes in interest rates do not necessarily correlate with inflation rates or changes in inflation rates. As described in Item 2, we generally offer leases that provide for payments of base rent with scheduled increases and, to a lesser extent, contingent rent based on a percentage of the tenant's gross sales to help mitigate the effect of inflation. Because the properties in our portfolio are generally leased to tenants under triple-net leases, our exposure to rising property operating costs due to inflation is mitigated.

Interest rates are highly sensitive to many factors, including governmental monetary policies and domestic and global economic and political conditions, which are beyond our control. Our operating results depend heavily on the difference between the revenue from our assets and the interest expense incurred on our borrowings. We may incur additional variable rate debt in the future, including amounts that we may borrow under our Revolving Credit Facility and Term Loan. In addition, decreases in interest rates may lead to additional competition for the acquisition of real estate due to a reduction in desirable alternative income-producing investments, which may lead to a decrease in the yields on real estate we have targeted for acquisition. In such circumstances, if we are not able to offset the decrease in yields by obtaining lower interest costs on our borrowings, our results of operations will be adversely affected.

Significant increases in interest rates may also have an adverse impact on our earnings if we are unable to acquire real estate with rental rates high enough to offset the increase in interest rates on our borrowings.

In the event interest rates rise significantly or there is an economic downturn, defaults may increase and result in credit losses, which may adversely affect our liquidity and operating results. In a decreasing interest rate environment, borrowers are generally more likely to prepay their loans in order to obtain financing at lower interest rates. However, the vast majority of our mortgage notes payable have prepayment clauses that make refinancing during a decreasing interest rate environment uneconomical. Investments in our mortgage loans receivable also have significant prepayment protection in the form of yield maintenance provisions, which provide us with substantial yield protection in a decreasing interest rate environment with respect to this portion of our investment portfolio.

The objective of our interest rate risk management policy is to match fund fixed-rate assets with fixed-rate liabilities.

As of March 31, 2018, our assets were primarily long-term, fixed-rate leases (though most have scheduled rental increases during the terms of the leases). As of March 31, 2018, \$3.7 billion of our indebtedness was fixed-rate, consisting of our Master Trust Notes, fixed-rate CMBS loans, Senior Unsecured Notes and Convertible Notes, with a weighted average stated interest rate of 4.64%, excluding amortization of deferred financing costs and debt discounts/premiums. As of March 31, 2018, \$154.5 million of our indebtedness was variable-rate, consisting of our Revolving Credit Facility with a weighted average stated interest rate of 3.06%, excluding amortization of deferred financing costs and debt discounts/premiums. If one-month LIBOR as of March 31, 2018 increased by 100 basis points, or 1.0%, the resulting increase in annual interest expense with respect to the \$154.5 million outstanding under the Revolving Credit Facility would impact our future earnings and cash flows by \$1.5 million.

The estimated fair values of our debt instruments have been derived based on market quotes for comparable instruments or discounted cash flow analysis using estimates of the amount and timing of future cash flows, market rates and credit spreads. The debt instrument balances as of March 31, 2018 are as follows (in thousands):

	Carrying Value	Estimated Fair Value

Mortgages and notes payable, net ⁽¹⁾	2,571,794	2,684,410

Item 4. Controls and Procedures

SPIRIT REALTY CAPITAL, INC.

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of Spirit Realty Capital, Inc.'s management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness as of March 31, 2018 of the design and operation of Spirit Realty Capital, Inc.'s disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

Changes in Internal Control over Financial Reporting

There were no changes to Spirit Realty Capital, Inc.'s internal control over financial reporting (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that occurred during the quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, Spirit Realty Capital, Inc.'s internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

From time-to-time, we may be subject to certain claims and lawsuits in the ordinary course of business, the outcome of which cannot be determined at this time. We are not currently a party as plaintiff or defendant to any legal proceedings that we believe to be material or that individually or in the aggregate would be expected to have a material effect on our business, financial condition or results of operations if determined adversely to us.

Item 1A. Risk Factors.

There have been no material changes to the risk factors as disclosed in the section entitled "Risk Factors" beginning on page 12 of our Annual Report on Form 10-K for the year ended December 31, 2017 and filed with the SEC on February 23, 2018.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table summarized the repurchases of the Company's equity securities during the first quarter of 2018 :

Item 5. Other Information.

As previously disclosed on Form 8-k filed by the Company on March 21, 2018, we entered into an employment agreement (the "Employment Agreement") with Michael Hughes in connection with his appointment as our Executive Vice President and Chief Financial Officer. In addition to the description of the Employment Agreement in the 8-k, the Employment Agreement provides that, in the event Mr. Hughes employment is terminated (i) by the Company without "Cause", (ii) by Mr. Hughes for "Good Reason" (each as defined by the Employment Agreement), (iii) by reason of the Company's failure to extend the term at the end of the initial term or at the one-year extension periods thereafter or (iv) by reason of Mr. Hughes's death or disability, then Mr. Hughes will be entitled to receive vesting at "target" of any outstanding performance-based equity and/or long-term incentive awards held by Mr. Hughes on the date of such termination.
