CEMEX ANNOUNCES COMPLETION
OF COMPREHENSIVE REFINANCING

Monterrey, Mexico. August 14, 2009 – CEMEX, S.A.B. de C.V. (NYSE: CX) announced today that it has completed its previously announced refinancing of the majority of the Company's outstanding debt. The refinancing plan extends the maturities of approximately US\$15 billion in syndicated and bilateral obligations with approximately 75 banks and private placement noteholders, providing for a semi-annual amortization schedule, with a final maturity of February 14, 2014. Final documentation has been signed and all conditions precedent have been satisfied in full.

Key components of the refinancing plan include:

- A revised maturity schedule running through February 2014, paying LIBOR plus 450bps to its bank creditors and a fixed rate of 8.91% to its private placement creditors that represent US\$895 million of the total refinancing package, subject to adjustments, with semi-annual amortizations prior to that date.
- A covenant package, including revised financial covenants, mandatory prepayment obligations, and other limitations.
- A security package comprised of security over stock in certain subsidiaries of the company and guarantees from most of the guarantors under the existing debt facilities joining the refinancing plan.
- The company intends to meet the amortization requirements prior to final maturity using funds from a variety of sources, including free cash flow from operations and net cash proceeds from non-core asset sales as well as capital market transactions.

Lorenzo H. Zambrano, Chairman and CEO of CEMEX said: “We are pleased with the outcome of this refinancing, as it significantly improves our debt maturity profile while providing the Company with greater flexibility and the ability to diversify sources of financing. As a result, CEMEX is in a much stronger financial position to regain our financial flexibility and, eventually, our investment-grade capital structure.”

Lazard acted as CEMEX’s exclusive financial advisor in this transaction.
