June 30, 2016 (Unaudited)

To Our Shareholders:

The first half of 2016 was the one of the best six-month stretches for below investment grade products in years, but the stellar returns belie the dramatic swing that began in February. During the first six weeks of the year, credit markets continued the freefall that began during the second half of 2015. The high yield market's option-adjusted spread ("OAS") widened to 839bp and the senior loan market's average price fell below \$90 by the middle of February. Both represented some of the cheapest valuations since 2011 as investors digested the December Fed rate hike and began to question the strength of the U.S. economy. Ultimately, the market reversed when the Fed abruptly turned dovish and reduced the number of rate hikes it expected to execute in 2016 and beyond. In particular, the Fed's shift helped halt the dollar's rally, support the price of oil and stabilize the flow of capital across countries. In summary, the divergence in monetary policy between the U.S. and its major global counterparts the market expected in 2016 has not materialized and risky assets have rallied as a result.

The Barclays High Yield Index surged 9.06% through June, the best start to a year since 2009, marking a 15% recovery off the mid-February nadir. The S&P/LSTA Leveraged Loan Index produced a more modest 4.51% return though senior loans didn't fall to the same depths as high yield bonds in 2015. Performance was also very strong in investment grade assets as fixed income profited from the impressive Treasury bull-flattening. Investors can be forgiven for forgetting that the 10-year Treasury yield began the year at 2.27%, 80bp above where it closed June. Given the rate backdrop, investment grade corporates soared 7.68%. Interestingly, equities failed to fully capitalize on the credit and fixed income rally as large cap equities returned a respectable, yet restrained, 3.84% including dividends.

Within the senior loan and high yield bond markets, two notable trends were apparent. First, the rebound in commodity prices boosted the beaten-down energy and metals & mining sectors. The high yield energy sector, which represents 14% of the market, advanced 21.61%, while energy loans climbed 15.77%. Metals & mining staged an even more remarkable stretch, gaining 29.70% in high yield. Second, low-quality paper outperformed after an extended stretch of high-quality outperformance. Triple-C rated bonds returned 16.03%, well above the 7.60% return recorded by double-B rated bonds. Triple-C rated loans also outpaced double-B rated loans by a 9.74% to 3.57% margin. Besides those two trends, high yield benefited from the rates rally as well. Removing the rates component of high yield's return reduces it to 5.03% versus 9.06%.

Default rates accelerated during the first half of 2016 as the high yield rate climbed to 3.6% at the end of June from 1.8% at year end and the loan rate rose to 2.2% from 1.7%, as per JP Morgan. Excluding commodities, the rates remain low, however. Removing energy and metals & mining defaults lowers the high yield and loan default rates to 0.5% and 0.9%, respectively. JP Morgan forecasts a 6% default rate in 2016 for high yield and 3% for senior loans. Adjusting for commodities lowers their projections to 2% for both asset classes, well below the 3.5% long-term average.

The first half closed with the surprising result of the UK referendum but the market was not derailed. We interpret the resilience following Brexit as investors expressing confidence that global central bank policy will be effective in supporting asset prices. That has certainly been the case in the sovereign debt market where rising valuations have resulted in over \$11 trillion of paper yielding less than 0%, up from \$4 trillion at the start of the year. Much of the negative-yielding universe is denominated in euros and yen and, as a result, the U.S. credit markets have received substantial interest from investors in those regions.

The technical backdrop has been particularly strong as supply of new issuance in the high yield and loan markets is not matching the incremental demand for these products. A combination of regulations and market volatility is

limiting the acquisition activity that typically drives much of the market's growth and we do not think the meager net supply is likely to change any time soon. For example, the forward loan pipeline slumped to \$29 billion at the end of June, half of the pipeline at the beginning of 2016 (\$57.6 billion).

We believe the current environment is supportive for credit products. An average of sell-side economist forecasts indicates that the U.S. economy is expected to grow at 2% in 2016. Easy monetary policies from the Fed and its global counterparts will continue to encourage investors to seek yield in credit products. Of course we continue to monitor many potential market pitfalls such as a sudden reversal of those policies, upcoming elections in the U.S. this year and Europe next year, international capital flows, etc.

Blackstone / GSO Senior Floating Rate Term Fund Fund Summary

June 30, 2016 (Unaudited)

Fund Overview

Blackstone / GSO Senior Floating Rate Term Fund (“BSL” or herein, the “Fund”) is a closed-end term fund that trades on the New York Stock Exchange under the symbol “BSL”. BSL’s primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, the fund invests at least 80% of its total assets in senior, secured floating rate loans (“Senior Loans”). BSL may also invest in second-lien loans and high yield bonds and employs financial leverage, which may increase risk to the Fund. The Fund has a limited term, and absent shareholder approval to extend the life of the Fund, the Fund will dissolve on or about May 31, 2020.

Portfolio Management Commentary

Fund Performance

BSL outperformed its key benchmark, the S&P LSTA Leveraged Loan Index (“S&P LLI”), on a Net Asset Value (“NAV”) per share basis for the periods of six months, five years, and the life of the Fund since inception, and underperformed for the periods of one year and three years. On a share price basis, the Fund outperformed its benchmark for the period of six months, and underperformed its benchmark for the periods of one year, three years, five years, and since inception. The shares of the Fund traded at an average discount to NAV of 6.1% for the six months ended June 30, compared to its peer group average discount of 10.2% over the same time.¹

NAV Performance Factors²

The Fund’s outperformance relative to its benchmark was attributable to its under-allocation to higher-rated (BB- or above) assets (11.6% vs. 47.5% for the benchmark), which underperformed during the period. By sector, the Fund’s credit selection in energy, utilities, and IT were the strongest contributors to outperformance, while the Fund’s modest allocation to bonds (3.4%) also contributed positively. By issuer, the largest detractors from performance relative to the benchmark were Nine West, Fairway and Crossmark, which were partially offset by strong positive contributions from Smile Brands, Aspect and Cunningham Lindsey.

Portfolio Activity and Positioning

Over the six months, BSL’s industry exposure remained generally unchanged. The Fund maintained a low cash balance throughout the period, increased its allocation in high yield bonds, and reduced its second lien loan allocation, effectively reducing its triple-C rated assets. The Portfolio average loan spread decreased 10 basis points from the end of 2015. BSL increased its monthly distribution from \$0.09 to \$0.097, as declared on February 25th of this year – an 8% increase.

As of June 30, 2016, the Fund held approximately 92% of its Managed Assets in bank loans and 5% in high yield bonds. BSL’s investments represented the obligations of 177 companies diversified across 28 distinct industries, with an average position size representing 0.47% of Managed Assets and the top five industry groups representing 46% of total holdings of the Fund.

Fund Overview

Blackstone / GSO Long Short Credit Income Fund (“BGX” or herein, the “Fund”) is a closed-end fund that trades on the New York Stock Exchange under the symbol “BGX”. BGX’s primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX will take long positions in investments which we believe offer the potential for attractive returns under various economic and interest rate environments. BGX may also take short positions in investments which we believe will under-perform due to a greater sensitivity to earnings growth of the issuer, default risk or the general level and direction of interest rates. BGX must hold no less than 70% of its Managed Assets in first-and second-lien secured floating rate loans (“Secured Loans”), but may also invest in unsecured loans and high yield bonds. BGX’s long positions may total up to 150% of the Fund’s net assets, short positions may total up to 30% of net assets, and BGX’s total long and short positions may total up to 160% of the BGX’s net assets.

Portfolio Management Commentary

Fund Performance

BGX outperformed a composite weighting of the S&P LLI and the Barclays High Yield Index (“Barclays HYI”) (70% loans, 30% high yield bonds) on a NAV per share basis for the periods of six months, five years, and the life of the Fund since inception, and underperformed for the one and three year periods. On a share price basis, the Fund outperformed its benchmark for the periods of six months and one year, and underperformed its benchmark for the periods of three years, five years, and since inception. The shares of the Fund traded at an average discount to NAV of 12.2% for the six months ended June 30, compared to its peer group average discount of 12.1% over the same time.¹

NAV Performance Factors²

The Fund’s outperformance relative to its benchmark during the first half of 2016 was attributable to both strong credit selection and asset allocation. The Fund’s under-allocation to higher-rated (BB- or above) assets (11.9% vs. 49.4% for the benchmark) contributed positively as higher-rated assets generally underperformed during the period. By sector, the Fund’s credit selection in consumer discretionary, healthcare and energy were the strongest contributors to outperformance, while the Fund’s strong credit selection within bonds also contributed positively during the period, though partially offset by an underweight allocation to bonds (21.3% vs. 30.0%). By issuer, the largest contributors to performance relative to the benchmark were Scientific Games, Comstock Resources and Coveris, which were partially offset by negative contributions from Avaya, Payless and Crossmark.

Portfolio Activity and Positioning

Over the past six months, BGX reduced its exposure to utilities (electric), and healthcare, and increased its exposure to business services and construction and building companies. The Fund’s asset allocation and cash balance remained generally stable throughout the period, though it reduced its triple-C rated assets. The Fund’s cash balance remained stable throughout the period. The portfolio average loan spread decreased by 35 basis points and its average high yield bond coupon decreased by 60 basis points from the end of 2015.

As of June 30, 2016, approximately 77% of BGX’s assets were invested in Secured Loans and 20% were invested in high yield bonds. The Fund also held one position totaling just over 1% of its assets in the Ba3 rated tranche of collateralized loan obligations. In the aggregate, BGX’s positions represented the direct obligations of 197 companies diversified across 28 distinct industries, with an average position representing 0.43% of Managed Assets. The top five industry groups represented 50% of total holdings of the Fund.

Blackstone / GSO Strategic Credit Fund Fund Summary

June 30, 2016 (Unaudited)

Fund Overview

Blackstone / GSO Strategic Credit Fund (“BGB” or herein, the “Fund”) is a closed-end term fund that trades on the New York Stock Exchange under the symbol “BGB”. BGB’s primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. BGB invests primarily in a diversified portfolios or loans and other fixed income instruments of predominantly US Corporate issuers, including first- and second-lien loans (“Senior Secured Loans”) and high yield corporate bonds of varying maturities. BGB must hold no less than 80% of its Managed Assets in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics. The Fund has a limited term and will dissolve on or about September 15, 2027, absent shareholder approval to extend such term.

Portfolio Management Commentary

Fund Performance

BGB outperformed a composite weighting of the S&P LLI and the Barclays HYI (75% loans, 25% high yield bonds) on both a NAV per share and a share price basis for the period of six months, and underperformed for the periods of one year, three years, and the life of the Fund since inception. The shares of the Fund traded at an average discount to NAV of 11.3% for the six months ended June 30, compared to its peer group average discount of 12.2% over the same time.¹

NAV Performance Factors²

The Fund’s outperformance relative to its benchmark during the first half of 2016 was attributable to both strong credit selection and asset allocation. The Fund’s under-allocation to higher-rated (BB- or above) assets (12.4% vs. 49.1% for the benchmark) contributed positively as higher-rated assets generally underperformed during the period. By sector, the Fund’s credit selection in consumer discretionary, IT, and energy were the strongest contributors to outperformance, while the Fund’s modest overweight allocation to bonds (27.9% vs. 25.0%) as well as strong credit selection within bonds also contributed positively during the period. By issuer, the largest contributors to performance relative to the benchmark were Scientific Games, Coveris and PF Chang’s, which were partially offset by negative contributions from FR Dixie, Avaya and Calumet Specialty Products.

Portfolio Activity and Positioning

Over the six months, BGB decreased its exposure to energy, oil and gas, and increased its exposure to healthcare and construction and building companies. The Fund maintained a low cash balance throughout the period, and allocated more of its portfolio to Senior Secured Loans by reducing its holdings of High Yield Bonds, thereby reducing its triple-C rated assets. The portfolio average loan spread decreased by 24 basis points and the average high yield bond coupon decreased by 39 basis points from the end of 2015.

As of June 30, 2016, approximately 72% of BGB’s assets were invested in Senior Secured Loans and 25% were invested in high yield bonds. In the aggregate, BGB’s investments represented the direct obligations of 225 companies diversified across 28 distinct industries, with an average position representing 0.37% of Managed Assets. The top five industry groups represented 48% of total holdings of the Fund.

(a) The interest rate shown represents the rate at period end.

All or a portion of this position has not settled as of June 30, 2016. The interest rate shown represents the stated spread over the London Interbank Offered Rate ("LIBOR" or "L") or the applicable LIBOR floor; the Fund will not accrue interest until the settlement date, at which point LIBOR will be established.

Security exempt from registration under Rule 144A of the Securities Act of 1933. Total market value of Rule 144A securities amounts to \$192,770,418, which represents approximately 26.74% of net assets as of June 30, 2016. Such securities may normally be sold to qualified institutional buyers in transactions exempt from registration.

(d) Option to convert to pay-in-kind security.

(e) Security is currently in default and is therefore non-income producing.

(a) Calculated using average common shares outstanding.

Total investment return is calculated assuming a purchase of common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions, if any, and are not annualized.

(b) Annualized.

(c) Ratios do not reflect dividend payments to preferred shareholders.

(d) Average managed assets represent net assets applicable to common shares plus principal value of leverage.

(e) On October 8, 2014, BSL redeemed 100% of the term preferred shares at 100% of their liquidation preference.

Calculated by subtracting the Fund's total liabilities (excluding Term Preferred Shares and Senior Secured Notes)

(f) from the Fund's total assets and dividing by the sum of the Term Preferred Shares and the Senior Secured Notes and then multiplying by \$1,000.

(g) Calculated by subtracting the Fund's total liabilities (excluding Term Preferred Shares) from the Fund's total assets and dividing by the number of Term Preferred Shares outstanding.

(h) On October 8, 2014, BSL redeemed 100% of the senior secured notes at 100% of their principal amount and entered into a new 364-day revolving credit facility. Average borrowings are shown for the period January 1, 2014 through the redemption date.

NOTE 1. ORGANIZATION

Blackstone / GSO Senior Floating Rate Term Fund (“BSL”) is a diversified, closed-end management investment company. BSL was organized as a Delaware statutory trust on March 4, 2010. BSL was registered under the Investment Company Act of 1940, as amended (the “1940 Act”), on March 5, 2010. BSL commenced operations on May 26, 2010. Prior to that date, BSL had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BSL to GSO / Blackstone Debt Funds Management LLC (the “Adviser”) at a price of \$19.10 per share. The Adviser serves as BSL’s investment adviser. BSL’s common shares are listed on the New York Stock Exchange (the “Exchange”) and trade under the ticker symbol “BSL.”

Absent shareholder approval to extend the term of BSL, BSL will dissolve on or about May 31, 2020. Upon dissolution, BSL will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities. Pursuant to BSL’s Amended and Restated Agreement and Declaration of Trust (the “Declaration of Trust”), prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the shareholders entitled to vote (as defined in the 1940 Act) may extend the life of BSL. If approved, the dissolution date of BSL may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of BSL may be extended an unlimited number of times.

Blackstone / GSO Long-Short Credit Income Fund (“BGX”) is a diversified closed end management investment company. BGX was organized as a Delaware statutory trust on October 22, 2010. BGX was registered under the 1940 Act on October 26, 2010. BGX commenced operations on January 27, 2011. Prior to that, BGX had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGX to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGX. BGX’s common shares are listed on the Exchange and trade under the ticker symbol “BGX.”

Blackstone / GSO Strategic Credit Fund (“BGB” and collectively with BSL and BGX, the “Funds”) is a diversified closed end management investment company. BGB was organized as a Delaware statutory trust on March 28, 2012. BGB was registered under the 1940 Act on April 6, 2012. BGB commenced operations on September 26, 2012. Prior to that, BGB had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGB to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGB. BGB’s common shares are listed on the Exchange and trade under the ticker symbol “BGB.”

BGB will dissolve on or about September 15, 2027, absent shareholder approval to extend such term. Upon dissolution, BGB will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities of the Fund. Pursuant to BGB’s Agreement and Declaration of Trust, prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the outstanding voting securities entitled to vote (as defined in the 1940 Act), may extend the life of BGB. If approved, the dissolution date of the Fund may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of the Fund may be extended an unlimited number of times.

BGX, BSL and BGB were previously classified as non-diversified investment companies for purposes of the 1940 Act. As a result of ongoing operations, BGX and BSL are now classified as diversified companies as of April 1, 2014 and BGB as of September 25, 2015. This means that with respect to 75% of each Fund’s total assets, no more than 5% of such Fund’s total assets may be invested in any one issuer, excepting cash and cash items, U.S. government securities and securities of other investment companies. BGX, BSL and BGB may not resume operating in a non-diversified manner without first obtaining shareholder approval in accordance with the 1940 Act.

BSL's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, at least 80% of BSL's assets will be invested in senior secured, floating rate loans ("Senior Loans").

BGX's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX seeks to achieve its investment objectives by employing a dynamic long short strategy in a diversified portfolio of loans and fixed-income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans ("Secured Loans") and high-yield corporate debt securities of varying maturities. BGX's long positions in loans and fixed income instruments will typically be rated below investment grade at the time of purchase. BGX's long positions, either directly or through the use of derivatives, may total up to 150% of BGX's net assets. BGX's short positions, either directly or through the use of derivatives, may total up to 30% of such Fund's net assets. Subject to the preceding restrictions, such Fund's total long and short positions, either directly or through the use of derivatives, may total up to 160% of such Fund's net assets.

BGB's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. The Fund will seek to achieve its investment objectives by investing primarily in a diversified portfolio of loans and other fixed income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans ("Senior Secured Loans") and high yield corporate bonds of varying maturities. Under normal market conditions, at least 80% of BGB's assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Senior Loans, Secured Loans and Senior Secured Loans are referred to collectively as "Loans" throughout the Notes to Financial Statements.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements. The preparation of their financial statements is in accordance with accounting principles generally accepted in the United States of America ("GAAP"), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates and these differences could be material. Each Fund is considered an investment company for financial reporting purposes under GAAP.

Portfolio Valuation: Each Fund's net asset value ("NAV") is determined daily on each day that the Exchange is open for business, as of the close of the regular trading session on the Exchange. Each Fund calculates NAV per share by subtracting liabilities (including accrued expenses or dividends) from the total assets of such Fund (the value of the securities plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of outstanding common shares of such Fund.

Loans are primarily valued by using a composite loan price from a nationally recognized loan pricing service. The methodology used by the Funds' nationally recognized loan pricing provider for composite loan prices is to value loans at the mean of the bid and ask prices from one or more brokers or dealers. Collateralized Loan Obligations ("CLOs") are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized pricing service are typically based on the evaluated mid-price of each of the CLOs. Corporate bonds, other than short term investments, are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized pricing service are typically based on the mean of bid and ask prices for each corporate bond security. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrices, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. Equity securities for which market quotations are available are generally valued at the last sale price or official closing price on the primary market or exchange on which they trade. Short term debt investments, if any, having a remaining maturity of 60 days or less when purchased would be valued at cost adjusted for amortization of premiums and accretion of discounts. Any investments and other assets for which such current market quotations are not readily available are generally valued at fair value ("Fair Valued Assets") as determined in good faith by a committee of the Adviser ("Fair Valued Asset Committee") under procedures established by, and under the general supervision and responsibility of, the Funds' Boards of Trustees. A Fair Valued Asset Committee meeting may be called at any time by any member of the Fair Valued Asset Committee. The pricing of all Fair Valued Assets and determinations thereof shall be reported by the Fair Valued Asset Committee to the Board at each regularly scheduled quarterly meeting.

Various inputs are used to determine the value of the Funds' investments. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1— Unadjusted quoted prices in active markets for identical investments at the measurement date.

Level 2— Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3— Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments).

The valuation techniques used by the Funds to measure fair value during the six months ended June 30, 2016 maximized the use of observable inputs and minimized the use of unobservable inputs. The categorization of a value determined for investments and other financial instruments is based on the pricing transparency of the investment and other financial instrument and does not necessarily correspond to the Funds' perceived risk of investing in those securities.

(a) A change to the unobservable input may result in a significant change to the value of the investment as follows:

Unobservable Input	Impact to Value if Input Increases	Impact to Value if Input Decreases
Market Yield	Decrease	Increase

The Funds evaluate transfers into or out of Level 1, 2 and 3 as of the end of the reporting period. There were no transfers between Level 1 and 2 during the period. Securities were transferred from Level 2 to Level 3 because of a

lack of observable market data due to decrease in market activity and information for these securities. Other securities were moved from Level 3 to Level 2 as observable inputs were available for purposes of valuing those assets.

Securities Transactions and Investment Income: Securities transactions are recorded on trade date for financial reporting purposes and amounts payable or receivable for trades not settled at the time of period end are reflected as liabilities and assets, respectively. Interest income, including accretion of discount and amortization of premium, is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations.

When the Funds sell a floating rate loan interest they may pay an agency fee. The Funds earn facility and other fees on floating rate loan interests, and facility fees are typically amortized to income over the term of the loan. Consent and amendment fees are also recorded to income as earned. All of these fees are shown on the Statement of Operations under "Facility and other fees."

June 30, 2016 (Unaudited)

Federal Income Taxes: It is the policy of the Funds to continue to qualify as regulated investment companies by complying with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of their earnings to their shareholders.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Funds, timing differences and differing characterization of distributions made by the Funds as a whole.

As of and during the six months ended June 30, 2016, the Funds did not have a liability for any unrecognized tax benefits. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return for federal purposes and four years for most state returns. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Distributions to Shareholders: The Funds make monthly cash distributions of all or a portion of their net investment income to common shareholders. The Funds will distribute to common shareholders at least annually all or substantially all of their net investment income after the payment of dividends and interest, if any, owed with respect to outstanding preferred shares and/or borrowings, if applicable. The Funds intend to pay any capital gains distributions at least annually.

NOTE 3. MANAGEMENT FEES, ADMINISTRATION FEES, AND OTHER AGREEMENTS

The Adviser, a wholly-owned subsidiary of GSO Capital Partners LP (collectively with its affiliates, "GSO"), is a registered investment adviser and is responsible for the day-to-day management of, and providing administrative and compliance oversight services to, the Funds. GSO is an affiliate of The Blackstone Group L.P.

For BSL, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BSL's total assets (including any assets attributable to any leverage used) minus the sum of the BSL's accrued liabilities (other than Fund liabilities incurred for any leverage) ("Managed Assets"). For BGX, the Adviser receives a monthly fee at the annual rate of 1.20% of the average daily value of BGX's net assets (total assets of BGX minus liabilities, including accrued expenses or dividends). For BGB, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BGB's Managed Assets.

Each Fund pays every Trustee who is not a director, officer, employee, or affiliate of GSO or ALPS (as defined below), a fee of \$16,667 per annum, plus \$2,500 per regular in-person joint meeting of the Board of Trustees. If such in-person regular board meeting is not held jointly, the respective Fund will pay each Trustee \$3,000 for each such meeting attended. For each in-person special meeting of the Board of Trustees, each Fund will pay each Trustee \$2,000 if held jointly, and \$2,500 per applicable Fund if not held jointly. If a meeting is held telephonically the Funds will pay each Trustee \$750 if held jointly, and \$1,000 per applicable Fund if not held jointly. The Chairman of the Audit Committee and the Chairman of the Nominating and Governance Committee also each receive \$2,500 per annum from each Fund. The Lead Independent Trustee receives \$2,667 from each Fund. In addition, for each joint meeting of a committee of the Board of Trustees that does not occur on a regular meeting or special meeting of the Funds, the Funds will each pay every committee member \$750 for each such committee meeting attended. If such committee meeting is not held jointly, the respective Fund will pay each committee member \$1,000 for each such meeting attended. The Funds will also reimburse independent Trustees for travel and out-of-pocket expenses incurred

in connection with such meetings.

ALPS Fund Services, Inc. (“ALPS”) serves as administrator to the Funds. Under the administration agreement, ALPS is responsible for calculating the net asset value of the common shares and generally managing the administrative affairs of the Funds. For BSL and BGB, ALPS receives a monthly fee based on the average daily value of the Funds’ respective Managed Assets, plus out of pocket expenses. For BGX, ALPS receives a monthly fee based on the average daily value of the Fund’s net assets, plus out of pocket expenses. ALPS is not considered an affiliate of the Funds, as defined under the 1940 Act.

The Bank of New York Mellon serves as the Funds’ custodian. Computershare Shareowner Services, LLC, serves as the Funds’ transfer agent. The Bank of New York Mellon and Computershare Shareowner Services, LLC are not considered affiliates of the Funds as defined under the 1940 Act.

NOTE 6. SENIOR AND SECURED FLOATING RATE LOANS

BSL defines “Senior Loans” as first lien senior secured, floating rate loans that are made to U.S. and, to a limited extent, non U.S. corporations, partnerships and other business entities (“Borrowers”), which operate in various industries and geographical regions. BGX includes first and second lien secured, floating rate loans in its definition of “Secured Loans.” Under normal market conditions, at least 80% of BSL’s Managed Assets will be invested in Senior Loans and 70% of BGX’s managed assets will be invested in Secured Loans. Under normal market conditions, at least 80% of BGB’s Managed Assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics. BGX defines its managed assets as net assets plus effective leverage obtained through securities lending, swap contract arrangements, and short selling or other derivative transactions (“BGX Managed Assets”). At June 30, 2016, 80.09% of BSL’s Managed Assets were held in Senior Loans, 76.58% of BGX’s Managed Assets were held in Secured Loans, and 97.00% of BGB’s Managed Assets were held in corporate fixed income instruments including Senior Secured Loans.

Loans hold a senior position in the capital structure of a business entity, are secured with specific collateral and have a claim on the assets and/or stock of the Borrower that is senior to that held by unsecured creditors, subordinated debt holders and stockholders of the Borrower.

Loans often require prepayments from Borrowers’ excess cash flows or permit the Borrowers to repay at their election. The degree to which Borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, floating rate loans typically have an expected average life of two to four years. Floating rate loans typically have rates of interest which are re-determined periodically, either daily, monthly, quarterly or semi-annually by reference to a floating base lending rate, primarily the London Interbank Offered Rate (LIBOR), plus a premium or credit spread.

Loans are subject to the risk of payment defaults of scheduled interest or principal. Such non-payment could result in a reduction of income, a reduction in the value of the investment and a potential decrease in the net asset value of any of the Funds. Risk of loss of income is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. There can be no assurance that the liquidation of any collateral securing a Loan would satisfy the Borrower’s obligation to the applicable Fund in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Second lien loans generally are subject to similar risks as those associated with investments in first lien loans except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on a second lien loan, the first priority lien holder has first claim to the underlying collateral of the loan. Second lien loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior obligations of the Borrower. At June 30, 2016, BSL, BGX and BGB had invested \$44,980,702, \$47,178,977 and \$157,390,757, respectively, in second lien secured loans. Second lien secured loans are considered Secured Loans for BGX and Senior Secured Loans for BGB, but are not considered Senior Loans for BSL.

Loans can be rated below investment grade or may also be unrated. As a result, the risks associated with Loans may be similar to the risks of other below investment grade securities, although they are senior and secured in contrast to other below investment grade securities, which are often subordinated or unsecured. BSL, BGX and BGB typically invest in Loans rated below investment grade, which are considered speculative because of the credit risk of the

Borrowers. Such companies are more likely than investment grade issuers to default on their payments of interest and principal owed to BSL, BGX and BGB, and such defaults could reduce net asset value and income distributions. The amount of public information available with respect to below investment grade loans will generally be less extensive than that available for registered or exchange-listed securities. In evaluating the creditworthiness of Borrowers, the Adviser will consider, and may rely in part on, analyses performed by others. The Adviser's established best execution procedures and guidelines require trades to be placed for execution only with broker-dealer counterparties approved by the Counterparty Committee of the Adviser. The factors considered by the Counterparty Committee when selecting and approving brokers and dealers include, but are not limited to: (i) quality, accuracy, and timeliness of execution, (ii) review of the reputation, financial strength and stability of the financial institution, (iii) willingness and ability of the counterparty to commit capital, (iv) ongoing reliability and (v) access to underwritten offerings and secondary markets. The Counterparty Committee regularly reviews each broker-dealer counterparty based on the foregoing factors.

BSL, BGX and BGB may acquire Loans through assignments or participations. BSL, BGX and BGB typically acquire these Loans through assignment, and if a Fund acquires a Loan through participation, it will seek to elevate a participation interest into an assignment as soon as practicably possible. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, the purchaser's rights can be more restricted than those of the assigning institution, and BSL, BGX or BGB may not be able to unilaterally enforce all rights and remedies under the Loan and with regard to any associated collateral. A participation typically results in a contractual relationship only with the institution participating out the interest, not with the Borrower. Sellers of participations typically include banks, broker-dealers, other financial institutions and lending institutions. The Adviser has adopted best execution procedures and guidelines to mitigate credit and counterparty risk in the atypical situation when BSL, BGX or BGB must acquire a Loan through a participation. None of the Funds had outstanding participations as of June 30, 2016.

June 30, 2016 (Unaudited)

NOTE 7. COLLATERALIZED LOAN OBLIGATIONS

BGX has invested in Collateralized Loan Obligations (“CLOs”). A CLO is a financing company (generally called a Special Purpose Vehicle (“SPV”)), created to reapportion the risk and return characteristics of a pool of assets. While the assets underlying CLOs are typically Secured Loans, the assets may also include (i) unsecured loans, (ii) debt securities that are rated below investment grade, and (iii) equity securities incidental to investments in Secured Loans. When investing in CLOs, BGX will not invest in equity tranches, which are the lowest tranche. However, BGX may invest in lower tranches of CLOs, which typically experience a lower recovery, greater risk of loss or deferral or non-payment of interest than more senior tranches of the CLO. In addition, BGX intends to invest in CLOs consisting primarily of individual Secured Loans of Borrowers and not repackaged CLO obligations from other high risk pools. The underlying Secured Loans purchased by CLOs are generally performing at the time of purchase but may become non-performing, distressed or defaulted. CLOs with underlying assets of non-performing, distressed or defaulted loans are not contemplated to comprise a significant portion of the BGX’s investments in CLOs. The key feature of the CLO structure is the prioritization of the cash flows from a pool of debt securities among the several classes of the CLO. The SPV is a company founded solely for the purpose of securitizing payment claims arising out of this diversified asset pool. On this basis, marketable securities are issued by the SPV which, due to the diversification of the underlying risk, generally represent a lower level of risk than the original assets. The redemption of the securities issued by the SPV typically takes place at maturity out of the cash flow generated by the collected claims.

NOTE 8. LEVERAGE

On August 13, 2010, BSL issued \$96 million in aggregate principal amount of senior secured notes and 48,000 term preferred shares with an aggregate liquidation preference of \$48 million, both rated “AAA” by Fitch Ratings. On October 8, 2014, BSL redeemed 100% of the senior secured notes and term preferred shares at 100% of their principal amount or liquidation preference, as applicable, and paid amounts representing the final accumulated interest or dividend amounts owed through the redemption date. BSL financed the prepayment of its senior secured notes and term preferred shares with borrowings under a new 364-day revolving credit facility described below.

Through July 29, 2014, BGX employed leverage through securities lending arrangements and swap arrangements. All costs and expenses related to any form of leverage used by BGX are borne entirely by holders of common shares. BGX’s leverage consisted of (i) the amount of securities lending cash collateral held less proforma cash (which includes the net difference between receivables and payables for investments sold/purchased), (ii) the fair market value of the reference securities of total return swaps less cash pledged and (iii) the fair market value of securities sold short less any segregated cash or offsetting securities. BGX’s use of these forms of effective leverage did not exceed 30% of its net assets.

Each Fund has entered into a separate Credit Agreement (each, an “Agreement”) with a bank to borrow money pursuant to a 364-day revolving line of credit (“Leverage Facility”). BSL entered into an agreement dated October 8, 2014, as amended on October 7, 2015, to borrow up to a limit of \$142 million. BGX entered into an agreement dated July 29, 2014, as amended on January 26, 2015, and July 28, 2015 to borrow up to a limit of \$117 million. BGB entered into an agreement dated December 21, 2012, as amended at December 20, 2013, December 19, 2014, and December 18, 2015 to borrow up to a limit of \$425 million. Borrowings under each Agreement are secured by the assets of each Fund. Interest is charged at a rate of 0.75% above LIBOR for BSL & BGX and 0.80% above LIBOR for BGB, with LIBOR measured for the period commencing on the date of the making of such LIBOR loan (or the last date upon which any other Loan was converted to, or continued as, such LIBOR loan) and ending on the numerically

corresponding day in the calendar month that is one (1) week or one (1), two (2), three (3), six (6) or nine (9) months thereafter, as each Fund may elect, or such other period as the lender may agree in its sole and absolute discretion. Under the terms of the applicable Agreement, each Fund must pay a commitment fee on any undrawn amounts. The commitment fee payable in BSL and BGX is 0.20% on the undrawn amounts and in BGB is 0.15% on the undrawn amounts when drawn amounts exceed 50% of the borrowing limit and 0.25% on the undrawn amounts at any other time. Interest and fees are payable quarterly. Each Fund may elect to extend the applicable Agreement for a further 364-day period with the consent of the lending bank. At June 30, 2016, BSL, BGX, and BGB had borrowings outstanding under its respective Leverage Facility of \$125 million, \$98 million, and \$347 million, at an interest rate of 1.20%, 1.21%, and 1.26%, respectively. Due to the short term nature of each Agreement, face value approximates fair value at June 30, 2016. This fair value is based on Level 2 inputs under the three tier fair valuation hierarchy (see Note 2). For the period of January 1, 2016 through June 30, 2016, the average borrowings under BSL's, BGX's and BGB's Leverage Facility and the average interest rate were \$117,814,560 and 1.18%, \$93,662,088 and 1.17%, and \$328,598,904 and 1.23%, respectively.

Under each Agreement, each Fund has agreed to certain covenants and additional investment limitations while the leverage is outstanding. Each Fund agreed to maintain asset coverage of three times over borrowings. Compliance with the investment restrictions and calculations are performed by the Funds' custodian, The Bank of New York Mellon. As of June 30, 2016, each Fund was in compliance with all required investment limitations and asset coverage requirements related to its leverage.

The use of borrowings to leverage the common shares of the Funds can create risks. Changes in the value of the Funds' portfolios, including securities bought with the proceeds of leverage, are borne entirely by the holders of common shares of the Funds. All costs and expenses related to any form of leverage used by the Funds are borne entirely by common shareholders. If there is a net decrease or increase in the value of the Funds' investment portfolios, the leverage may decrease or increase, as the case may be, the net asset value per common share to a greater extent than if the Funds did not utilize leverage. During periods when BSL and BGB are using leverage, the fees paid to the Adviser for advisory services and to ALPS for administrative services are higher than if BSL and BGB did not use leverage because the fees paid are calculated on the basis of BSL and BGB's Managed Assets, which include the assets purchased through leverage. As of June 30, 2016, BSL's, BGX's, and BGB's leverage represented 32.98%, 32.13% and 32.49% of each Fund's Managed Assets, respectively.

NOTE 9. TAX BASIS DISTRIBUTIONS

The amounts and characteristics of tax basis distributions and composition of distributable earnings/ (accumulated losses) are finalized at fiscal year end; accordingly, tax basis balances have not been determined as of June 30, 2016.

Ordinary income (inclusive of short term capital gains) and long term capital gains are allocated to common stockholders after payment of the available amounts on any outstanding term preferred shares. To the extent that the amount distributed to common stockholders exceeds the amount of available ordinary income and long term capital gains after allocation to any outstanding term preferred shares, these distributions are treated as a tax return of capital. Additionally, to the extent that the amount distributed on any outstanding term preferred shares exceeds the amount of available ordinary income and long term capital gains, these distributions are treated as a tax return of capital.

As determined on December 31, 2015, certain permanent differences between financial and tax accounting were reclassified. These differences were primarily due to the differing tax treatment of certain investments. The amounts reclassified did not affect net assets. The reclassifications were as follows:

Fund	Decrease Paid-in capital	Increase/(Decrease) Accumulated net investment income	Increase Accumulated net realized loss on investments
Blackstone / GSO Senior Floating Rate Term Fund	\$(134,312)	\$ 95,240	\$ 39,072
Blackstone / GSO Long Short Credit Income Fund	\$-	\$ -	\$ -
Blackstone / GSO Strategic Credit Fund	\$-	\$ (997) \$ 997

The tax character of distributions paid by the Funds during the fiscal year ended December 31, 2015 was as follows:

2015	Blackstone / Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Distributions Paid From:			
Ordinary Income	\$ 17,804,690	\$ 16,182,551	\$ 60,966,881
Long Term Capital Gain	-	-	-
Return of Capital	-	-	-
Total	\$ 17,804,690	\$ 16,182,551	\$ 60,966,881

At December 31, 2015, the Funds had available for federal tax purposes unused capital loss carryforwards, which are available to offset future realized gains. To the extent that these carryforwards are used to offset future gains, it is probable that the amount offset will not be distributed to shareholders. The carryforward losses are as follows:

Fund	Short Term	Long Term
Blackstone / GSO Senior Floating Rate Term Fund	\$971,742	\$2,693,396
Blackstone / GSO Long Short Credit Income Fund	\$1,052,906	\$4,967,689

Blackstone / GSO Funds Summary of Dividend Reinvestment Plan

June 30, 2016 (Unaudited)

Pursuant to the Funds' Dividend Reinvestment Plan (the "DRIP"), shareholders whose shares are registered in their own name may "opt in" to the plan and elect to reinvest all or a portion of their distributions in common shares by providing the required enrollment notice to Computershare, the DRIP administrator. Shareholders whose shares are held in the name of a broker or other nominee may have distributions reinvested only if such a service is provided by the broker or the nominee or if the broker or the nominee permits participation in the DRIP. Shareholders whose shares are held in the name of a broker or other nominee should contact the broker or nominee for details. A shareholder may terminate participation in the DRIP at any time by notifying the DRIP administrator before the record date of the next distribution through the Internet, by telephone or in writing. All distributions to shareholders who do not participate in the DRIP, or have elected to terminate their participation in the DRIP, will be paid by check mailed directly to the record holder by or under the direction of the DRIP administrator when the Funds' Board of Trustees declares a distribution.

When the Funds declare a distribution, shareholders who are participants in the applicable DRIP receive the equivalent of the amount of the distribution in common shares. If you participate in the DRIP, the number of common shares of the Funds that you will receive will be determined as follows:

(1) If the market price of the common shares plus any brokerage commissions on the payable date (or, if the payable date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the "determination date") is equal to or exceeds 98% of the net asset value per common share, the Fund will issue new common shares at a price equal to the greater of:

(a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or

(b) 95% of the market price per common share on the determination date.

(2) If 98% of the net asset value per common share exceeds the market price of the common shares plus any brokerage commissions on the determination date, the DRIP administrator will receive the distribution in cash and will buy common shares in the open market, on the New York Stock Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price plus any brokerage commissions rises so that it equals or exceeds 98% of the net asset value per common share at the close of trading on the New York Stock Exchange on the determination date before the DRIP administrator has completed the open market purchases or (ii) the DRIP administrator is unable to invest the full amount eligible to be reinvested in open market purchases, the DRIP administrator will cease purchasing common shares in the open market and the Fund will issue the remaining common shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or (b) 95% of the then current market price per share.

The DRIP administrator maintains all shareholder accounts in the dividend reinvestment plan and furnishes written confirmations of all transactions in the account, including information needed by shareholders for personal and tax records. Common shares in the account of each DRIP participant are held by the DRIP administrator in non-certificated form in the name of the participant, and each shareholder's proxy includes shares purchased pursuant to the DRIP.

There is no charge to participants for reinvesting regular distributions and capital gains distributions. The fees of the DRIP administrator for handling the reinvestment of regular distributions and capital gains distributions are included in the fee to be paid by us to our transfer agent. There are no brokerage charges with respect to shares issued directly by us as a result of regular distributions or capital gains distributions payable either in shares or in cash. However, each participant bears a pro rata share of brokerage commissions incurred with respect to the DRIP administrator's open market purchases in connection with the reinvestment of such distributions. Shareholders that opt in to the DRIP will add to their investment through dollar cost averaging. Because all dividends and distributions paid to such shareholder will be automatically reinvested in additional common shares, the average cost of such shareholder's common shares will decrease over time. Dollar cost averaging is a technique for lowering the average cost per share over time if the Fund's net asset value declines. While dollar cost averaging has definite advantages, it cannot assure profit or protect against loss in declining markets.

The automatic reinvestment of such dividends or distributions does not relieve participants of any income tax that may be payable on such dividends or distributions.

You may obtain additional information by contacting the DRIP administrator at the following address:
Computershare, Attn: Sales Dept., P.O. Box 358035, Pittsburgh, PA 15252.

The Investment Company Act of 1940, as amended (the “1940 Act”), requires that the Board of Trustees (collectively, the “Board”) of each of Blackstone / GSO Senior Floating Rate Term Fund (“BSL”), Blackstone / GSO Long-Short Credit Income Fund (“BGX”), and Blackstone / GSO Strategic Credit Fund (“BGB,” and together with BSL and BGX, the “Funds” and each a “Fund”), including a majority of its members who are not considered to be “interested persons” under the 1940 Act (the “Independent Trustees”) voting separately, approve on an annual basis the continuation of the Fund’s investment advisory agreement (each an “Agreement” and, collectively, the “Agreements”) with the Fund’s investment adviser, GSO / Blackstone Debt Funds Management LLC (the “Adviser”). At a joint meeting (the “Contract Renewal Meeting”) held in person on May 17, 2016, the Board of each Fund, including the Independent Trustees, considered and approved the continuation of each Agreement for an additional one-year term. To assist in its consideration of the renewal of each of the Agreements, the Board requested, received and considered a variety of information (together with the information provided at the Contract Renewal Meeting, the “Contract Renewal Information”) about the Adviser, as well as the advisory arrangements for the Funds, certain portions of which are discussed below. In preparation for the Contract Renewal Meeting, the Independent Trustees met in person on May 16, 2016 in a private session (the “Review Session”) with counsel to the Independent Trustees (“Independent Counsel”) to review the Contract Renewal Information received to that time. No representatives of the Funds, the Adviser, or Fund management were present at the Review Session. In addition to the Contract Renewal Information, the Board received performance and other information since each Fund’s inception related to the services rendered by the Adviser to such Fund. The Board’s evaluation took into account the information received since each Fund’s inception and also reflected the knowledge and familiarity gained as members of the Board with respect to the investment advisory and other services provided to each Fund by the Adviser under the Fund’s Agreement.

Board Approval of the Continuation of the Agreements

In its deliberations regarding renewal of each Agreement, the Board, including the Independent Trustees, considered various factors, including those set forth below.

Nature, Extent and Quality of the Services Provided to each Fund under the Agreements

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Funds by the Adviser under the Agreements. The Board also reviewed Contract Renewal Information regarding the Funds’ compliance policies and procedures established pursuant to the 1940 Act and considered each Fund’s compliance record during the previous year and since its inception.

The Board reviewed the qualifications, backgrounds and responsibilities of the Funds’ senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of each Fund. The Board also considered, based on its knowledge of the Adviser and its affiliates, the Contract Renewal Information and the Board’s discussions with the Adviser at the Contract Renewal Meeting, the general reputation and investment performance records of the Adviser and its affiliates and the financial resources of the corporate parent of the Adviser, The Blackstone Group L.P., available to support the Adviser’s activities in respect of the Funds.

The Board considered the responsibilities of the Adviser under each Fund’s Agreement, including the Adviser’s coordination and oversight of the services provided to the Fund by other unaffiliated parties.

In reaching its determinations regarding continuation of each Fund’s Agreement, the Board took into account that such Fund’s shareholders, in pursuing their investment goals and objectives, likely considered the reputation and the investment style, philosophy and strategy of the Adviser, as well as the resources available to the Adviser, in purchasing their shares.

Fund Performance

Among other things, the Board received and considered information and analyses (the “Morningstar Performance Information”) comparing the performance of each Fund with a group of funds (the “Peer Group”) selected by Morningstar, Inc. (“Morningstar”), an independent provider of investment company data, from its US Senior Loan Funds Leveraged CEF classification (the “Morningstar Senior Loan Leveraged Classification”), which classification consisted of 27 closed-end funds for the 1-year period ended March 31, 2016 (the “1-year period”); 24 closed end funds for the 3 year period ended March 31, 2016 (the “3-year period”); and 21 closed-end funds for the 5-year period ended such date (the “5-year period”). The Peer Group funds were selected from the Morningstar Senior Loan Leveraged Classification to be more comparable to the Funds based upon Morningstar’s consideration of the constituent funds’ investment style, share class characterization, and assets. The Board was provided with a description of the methodology used by Morningstar to select each Fund’s Peer Group. Each of the members of the Board participated in a conference call and webinar with Morningstar regarding its peer grouping methodology and reporting format in advance of the Review Session. The Board noted Morningstar’s advice that the relatively limited number of closed-end funds compared to the open end fund universe poses particular challenges for peer grouping.

The Peer Group for BSL consisted of 11 funds for the 1-year period and 10 funds for each of the 3- and 5-year periods, including BSL, with historical net portfolio allocations to bank loans exceeding 75%. The Peer Group for BGX and BGB was the same and consisted of 10 funds for the 1-year period, 8 funds for the 3-year period, and 4 funds for the 5-year period, including BGX and BGB, when applicable. The Peer Group included funds with historical portfolio allocations to bank loans greater than 20% and allowances for high-yield bonds. In addition, four funds from outside the Morningstar Senior Loan Leveraged Classification with portfolio allocations to bank loans of at least 20% were included in the Peer Group. The Board noted that it had received and discussed with the Adviser information at periodic intervals since each Fund’s inception comparing such Fund’s performance against its benchmarks and its Peer Group funds. The Board considered the return volatility and Sharpe ratio (a measure of portfolio risk) of each Fund relative to its Peer Group funds. The performance discussion below focuses on the comparison of the Funds’ performance relative to the Peer Groups, rather than to the broader Morningstar Senior Loan Leveraged Classification.

June 30, 2016 (Unaudited)

BSL

The Morningstar Performance Information comparing BSL's performance to that of the Peer Group based on net asset value ("NAV") per share showed, among other things, that BSL's returns, whether measured on a gross or net return basis, ranked eleventh among the Peer Group funds for the 1-year period and ranked tenth among the Peer Group funds for each of the 3- and 5-year periods. In these performance rankings, first represents the fund with the best performance in the Peer Group, whether measured on a gross or net return basis. The Fund's net performance was lower than the Peer Group median performance in each of the 1-, 3-, and 5-year periods. The Board also considered BSL's performance relative to its benchmark and in absolute terms. The Adviser noted that BSL's gross NAV returns underperformed its benchmark for the 1- and 3-year periods but outperformed its benchmark for the 5-year period. Moreover, the Adviser noted that, on a net NAV return basis, the Fund underperformed its benchmark for each of the 1-, 3-, and 5-year periods. The Adviser also presented information derived from Morningstar demonstrating that the Fund's distribution rate for the 1-year period was in the top half of the Peer Group.

BGX

The Morningstar Performance Information comparing BGX's performance to that of the Peer Group based on NAV per share showed, among other things, that BGX's gross returns ranked seventh, sixth, and third among the funds in its Peer Group for the 1-, 3-, and 5-year periods, respectively. The Morningstar Performance Information also showed that BGX's net return ranked seventh, sixth, and third among the funds in its Peer Group for each of the 1-, 3-, and 5-year periods, respectively. The Fund's net performance was worse than the Peer Group median performance in each period. The Board also considered BGX's performance relative to its benchmark and in absolute terms. The Adviser noted that BGX on a gross NAV return basis underperformed its benchmark for the 1- and 3-year periods but outperformed its benchmark for the 5-year period. On a net NAV return basis, BGX underperformed its benchmark for each of the 1-, 3-, and 5-year periods.

BGB

The Morningstar Performance Information comparing BGB's performance to that of the Peer Group based on NAV per share showed, among other things, that BGB's gross return ranked eighth among the funds in its Peer Group for the 1-year period and ranked seventh among the funds in its Peer Group for the 3-year period. BGB's net NAV return ranked eighth among the Peer Group funds for the 1-year period and ranked seventh among the Peer Group funds for the 3-year period. The Fund's net performance was worse than the Peer Group median performance in each period. The Board also considered BGB's performance relative to its benchmark and in absolute terms. The Adviser noted that BGB underperformed its benchmark for each period on a gross and net NAV return basis.

In assessing Fund performance, the Adviser noted that the small number and varying investment strategies of funds in the Peer Groups for BSL, BGX and BGB made meaningful performance comparisons difficult. Morningstar itself noted that the relatively limited number of closed-end funds compared to the open-end funds poses particular challenges for peer grouping. The Adviser questioned whether the Morningstar Senior Loan Leveraged Classification provided relevant and appropriate performance comparisons in the case of BGX and BGB in light of the broad range investment strategies within the Peer Group. In addition to the Morningstar Performance Information, the Board considered and gave significant weight to information provided by the Adviser regarding the Funds and the Morningstar Senior Loan Leveraged Classification and their respective Peer Groups as to differences in each fund's portfolio composition by asset class, credit rating, investment size, and other relevant metrics. The Board noted the Adviser's efforts to maintain each Fund's level of distributions to shareholders at a competitive level in light of the prevailing low interest rate environment and credit market conditions, although there can be no assurance that each Fund's past levels of distribution will continue in light of the prevailing low interest rate environment. The Board also noted the comprehensive and rigorous credit review and other processes employed by the Adviser in managing the Funds' investment portfolios as well as the Adviser's arranging and management of the respective Funds' leverage.

Significantly, the Adviser noted that the leadership of the Funds' portfolio management team changed in October 2015 and that the portfolio of each Fund had been repositioned to implement the strategies of the new team. The Board gave significant weight to the changes made to the portfolio management team, and to the Funds' limited but improved performance history under the new portfolio management team, and each Fund's performance in recent periods under the new portfolio management team. Based on its review and considering other relevant factors, including those noted above, the Board concluded that, under the circumstances, continuation of each Fund's Agreement for an additional period of one year would be consistent with the interests of the Fund's shareholders.

June 30, 2016 (Unaudited)

Management Fees and Expenses

The Board reviewed and considered the investment advisory fee (the “Advisory Fee”) payable by each Fund to the Adviser under its Agreement in light of the nature, extent and overall quality of the investment advisory and other services provided by the Adviser to the Fund.

Additionally, the Board received and considered information and analyses (the “Morningstar Expense Information”) prepared by Morningstar, comparing, among other things, the Advisory Fee for each Fund and each Fund’s overall expenses with the Morningstar Senior Loan Leveraged Classification and the Fund’s Peer Group. The comparison was based upon the constituent funds’ latest fiscal years. The discussion below focuses on the Funds’ expenses relative to their respective Peer Groups, rather than to the broader Morningstar Senior Loan Leveraged Classification.

BSL

BSL’s Peer Group funds had average common share net assets ranging from \$121.92 million to \$1.25 billion. Eight of the other funds in the Peer Group were larger than BSL and two were smaller. The Morningstar Expense Information, comparing BSL’s actual total expenses to the Peer Group, showed, among other things, that the Fund’s actual Advisory Fee (i.e., giving effect to any voluntary fee waivers implemented by the Adviser with respect to the Fund and by the managers of the other Peer Group funds) compared on the basis of common share net assets ranked second highest among the 11 funds in the Peer Group and was higher (i.e., worse) than the Peer Group median for that expense component. The Fund’s actual total expenses compared on the basis of common share net assets ranked third highest among the funds in the Peer Group and were higher than the Peer Group median. The Morningstar Expense Information noted that BSL’s non-adviser fees were at or slightly above their respective Peer Group medians.

BGX

BGX’s Peer Group funds had average common share net assets ranging from \$191.67 million to \$1.37 billion. Seven of the other funds in the Peer Group were larger than BGX and two were smaller. The Morningstar Expense Information, comparing BGX’s actual total expenses to the Fund’s Peer Group, showed, among other things, that the Fund’s actual Advisory Fee compared on the basis of common share net assets ranked third lowest among the eleven funds in BGX’s Peer Group and was lower than the Peer Group median for that expense component. The Fund’s actual total expenses compared on the basis of common share net assets ranked fourth lowest among the funds in the Peer Group and were lower (i.e., better) than the Peer Group median. The Morningstar Expense Information noted that the Fund’s non-adviser fees were generally on a par with Peer Group medians.

BGB

BGB’s Peer Group funds had average common share net assets ranging from \$191.67 million to \$1.37 billion. Two of the other funds in the Peer Group were larger than BGB and seven were smaller. The Morningstar Expense Information, comparing BGB’s actual total expenses to the Fund’s Peer Group, showed, among other things, that the Fund’s actual Advisory Fee compared on the basis of common share net assets ranked sixth among the funds in the Peer Group and was higher than the Peer Group median for that expense component. The Fund’s actual total expenses compared on the basis of common share net assets ranked fifth among the funds in the Peer Group and were below the Peer Group median.

In its evaluation of the Advisory Fee and Morningstar Expense Information for each Fund, the Board took into account the complexity of such Fund’s investment program and the comprehensive and rigorous credit review and other processes employed by the Adviser in managing the Funds’ investment portfolios, including the Adviser’s prominence in the leveraged finance market and the strength of its investment management team and trading and middle office support. The Board further noted Morningstar’s advice that the relatively limited number of closed-end funds compared to the open-end fund universe poses particular challenges for peer grouping and that the small number

and varying sizes of funds in the Funds' Peer Groups made meaningful expense comparisons difficult. The Board considered the Adviser's belief that smaller funds, such as BSL and BGX, may be disadvantaged in comparison with larger funds that have greater opportunities for economies of scale. The Board also considered the Adviser's belief that other Peer Group funds launched prior to the financial crisis in 2008 and 2009 that are parts of larger fund complexes than the Funds' fund complex benefit from cost-sharing opportunities and opportunities owing to economies of scale that are not available to the Funds. The Adviser provided and the Board considered expense information provided by the Adviser in support of this belief.

The Board also considered Contract Renewal Information regarding fees (including sub-advisory fees) charged by the Adviser to other U.S. clients investing primarily in an asset class similar to that of the Funds, including, where applicable, institutional commingled funds and exchange-traded funds. The Board was advised that the base fees paid by such institutional and other clients generally are lower, and may be significantly lower, than the Advisory Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Funds and to these other clients, noting that the Funds were subject to heightened regulatory requirements relative to institutional clients; that the Funds were provided with administrative services, office facilities and Fund officers (including each Fund's chief executive, chief financial and chief compliance officers); and that the Adviser manages the leverage arrangements of the Funds and coordinates and oversees the provision of services to the Funds by other fund service providers. The Board considered the fee comparisons in light of the different services provided in managing these other types of clients and funds.

Taking all of the above into consideration, the Board determined that the Advisory Fee for each Fund was reasonable in light of the nature, extent and overall quality of the investment advisory and other services provided to such Fund under its Agreement.

Profitability

The Board, as part of the Contract Renewal Information, received an analysis of the profitability to the Adviser and its affiliates in providing services to each Fund for each of the past two fiscal years. In addition, the Board received Contract Renewal Information with respect to the Adviser's revenue and cost allocation methodologies used in preparing such profitability data. The profitability analysis, among other things, indicated that the profitability to the Adviser in providing investment advisory and other services to each Fund was at a level, which was not considered excessive by the Board in light of the nature, extent and overall quality of such services.

Economies of Scale

The Board received and discussed Contract Renewal Information concerning whether the Adviser would realize economies of scale if the Funds' assets grow. The Board noted that because each Fund is a closed-end fund with no current plans to seek additional common share assets beyond maintaining its dividend reinvestment plan, any significant growth in its common share assets generally will occur through appreciation in the value of each Fund's investment portfolio, rather than sales of additional common shares in the Fund, although each Fund may also seek to increase its use of leverage through borrowings or preferred shares in a manner permitted by applicable legal and other limitations. The Board determined that the Advisory Fee structure was appropriate under present circumstances.

Other Benefits to the Adviser

The Board considered other benefits received by the Adviser and its affiliates as a result of the Adviser's relationship with each of the Funds and did not regard such benefits as excessive.

* * * * *

In light of all of the foregoing and other relevant factors, the Board determined that, under the circumstances, continuation of each Fund's Agreement would be in the interests of the Fund and its shareholders and unanimously voted to continue the Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of each Agreement for the next year, and each Board member attributed different weights to the various factors. The Independent Trustees were advised by separate independent legal counsel throughout the process. Prior to the Review Session and the Contract Renewal Meeting, the Board received a memorandum prepared by counsel to the Funds discussing its responsibilities in connection with the proposed continuation of the Agreements as part of the Contract Renewal Information and the Independent Trustees separately received a memorandum as to their responsibilities in this regard from their independent counsel.

The oversight of the business and affairs of the Funds is vested in the Board of Trustees. The Board of Trustees is classified into three classes—Class I, Class II and Class III—as nearly equal in number as reasonably possible, with the Trustees in each class to hold office until their successors are elected and qualified. At each annual meeting of shareholders, the successors to the class of Trustees whose terms expire at that meeting shall be elected to hold office for terms expiring at the later of the annual meeting of shareholders held in the third year following the year of their election or the election and qualification of their successors. The Funds’ executive officers were appointed by the Board of Trustees to hold office until removed or replaced by the Board of Trustees or until their respective successors are duly elected and qualified.

Below is a list of the Trustees and officers of the Funds and their present positions and principal occupations during the past five years. The business address of the Funds, the Trustees, the Funds’ officers, and the Adviser is 345 Park Avenue, 31st Floor, New York, NY 10154, unless specified otherwise below.
