**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

For the quarterly period ended June 30, 2018

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

Commission File No. 1-8951

M.D.C. HOLDINGS, INC.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction
of incorporation or organization)

84-0622967
(I.R.S.
employer
identification
no.)

4350 South Monaco Street, Suite 500 80237
Denver, Colorado (Zip code)
(Address of principal executive offices)
(303) 773-1100

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definition of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	Accelerated Filer
Non-Accelerated Filer	(Do not check if a smaller reporting company) Smaller Reporting Company
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 30, 2018, 56,436,968 shares of M.D.C. Holdings, Inc. common stock were outstanding.

Table of Contents

1. Basis of Presentation

The Unaudited Consolidated Financial Statements of M.D.C. Holdings, Inc. ("MDC," "the Company," "we," "us," or "our," which refers to M.D.C. Holdings, Inc. and its subsidiaries) have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all information and footnotes required by U.S. generally accepted accounting principles ("GAAP") for complete financial statements. These statements reflect all normal and recurring adjustments which, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows of MDC at June 30, 2018 and for all periods presented. These statements should be read in conjunction with MDC's Consolidated Financial Statements and Notes thereto included in MDC's Annual Report on Form 10-K for the year ended December 31, 2017.

On November 20, 2017, MDC's board of directors declared an 8% stock dividend that was distributed on December 19, 2017 to shareholders of record on December 5, 2017. In accordance with Accounting Standards Codification ("ASC") Topic 260, *Earnings Per Share* ("ASC 260"), basic and diluted earnings per share amounts, share amounts and dividends declared per share have been restated for any periods or dates prior to the stock dividend record date.

Included in these footnotes are certain statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding our business, financial condition, results of operations, cash flows, strategies and prospects. These forward-looking statements may be identified by terminology such as "likely," "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue," or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements contained in this section are reasonable, we cannot guarantee future results. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by the forward-looking statements. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in subsequent reports on Forms 10-K, 10-Q and 8-K should be considered.

When necessary, reclassifications have been made to our prior period financial information to conform to the current year presentation.

2. Recently Issued Accounting Standards

Adoption of New Accounting Standards

Accounting Standards Update (“ASU”) 2018-02, *Income Statement – Reporting Comprehensive Income (Topic 220)* (“ASU 2018-02”). ASU 2018-02 allows for a reclassification from accumulated other comprehensive income to retained earnings for certain tax effects resulting from the Tax Cuts and Jobs Act that was signed into law in December of 2017 (the “Act”). ASU 2018-02 is effective for our interim and annual reporting periods beginning January 1, 2018, and is to be applied either (a) at the beginning of the period of adoption or (b) retrospectively to each period in which the income tax effects of the Act related to items remaining in accumulated other comprehensive income are recognized. On January 1, 2018, we adopted ASU 2018-02 by recognizing an adjustment to the opening balance of retained earnings for certain tax effects related to net unrealized gains on equity investments. The comparative information has not been restated and continues to be reported under the accounting standards in effect for the period. Please see the table below for a summary of all transition adjustments from adoption of new accounting guidance.

ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash* (a consensus of the FASB Emerging Issues Task Force (“ASU 2016-18”). ASU 2016-18 amends ASC 830, *Statement of Cash Flows* and requires restricted cash to be included with cash and cash equivalents when reconciling the beginning and ending amounts on the statement of cash flows. In certain states, we are restricted from using deposits received from our customers who enter into home sale contracts for general purposes unless we take measures to release state imposed restrictions on such deposits received from homebuyers, which may include posting blanket surety bonds. As a result, cash deposits with such restrictions are classified as restricted cash. On January 1, 2018, we adopted ASU 2016-18 using the retrospective transition method. The comparative information in our statement of cash flows has been restated and the impact from adoption of this guidance was not material to our statement of cash flows.

Table of Contents

ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force)* (“ASU 2016-15”). ASU 2016-15 amends ASC 830, *Statement of Cash Flows* and clarifies guidance on the classification of certain cash receipts and payments in the statement of cash flows. On January 1, 2018, we adopted ASU 2016-15 using the retrospective transition method. There were no items in our comparative statement of cash flows that required restatement as a result of the adoption of ASU 2016-15 and the impact from adoption of this guidance was not material to our statement of cash flows.

ASU 2016-01, *Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities* (“ASU 2016-01”). On January 1, 2018, we adopted ASU 2016-01 using a modified retrospective transition method. Prior to this amendment, our equity investments with readily determinable fair values were classified as available for sale with changes in fair value being reported through other comprehensive income. Under the amended standard, any changes in fair value of equity investments with readily determinable fair values are now recognized in net income. We adopted the changes from ASU 2016-01 by recognizing an adjustment to beginning retained earnings for our net unrealized gains/losses on equity investments with readily determinable fair values. The comparative information has not been restated and continues to be reported under the accounting standards in effect for the period. Please see the table below for a summary of all transition adjustments from adoption of new accounting guidance. The effect of the change on income before income taxes for the three and six months ended June 30, 2018 was an increase of approximately \$1.1 million and a decrease of approximately \$0.3 million, respectively.

ASU 2014-09, *Revenue from Contracts with Customers* (“ASU 2014-09”). In May 2014, ASU 2014-09 was issued which created ASC Topic 606, *Revenue from Contracts with Customers* (“ASC 606”) and is a comprehensive new revenue recognition model. In addition, ASU 2014-09 amended ASC 340, *Other Assets and Deferred Costs*, by adding ASC 340-40, *Other Assets and Deferred Costs – Contracts with Customers* (“ASC 340-40”). On January 1, 2018, we adopted ASC 606 and ASC 340-40 using the modified retrospective transition method applied to contracts that were not completed as of January 1, 2018. We recognized the cumulative effect of initially applying ASC 606 and ASC 340-40 as an adjustment to the opening balance of retained earnings. The comparative information has not been restated and continues to be reported under the accounting standards in effect for the period. Please see the table below for a summary of all transition adjustments from adoption of the new accounting guidance. As a result of adopting ASC 606 and ASC 340-40, there was not a material impact to our consolidated balance sheets or consolidated statements of operations and comprehensive income. Furthermore, there were no significant changes to our internal controls, processes, or systems as a result of adoption of this new guidance.

The cumulative effect of the changes made to our consolidated January 1, 2018 balance sheet for the adoption of ASU 2018-02, ASU 2016-01 and ASU 2014-09 was as follows:

Balance at	Adjustments	Adjustments	Adjustments	Balance at
December 31,	due to ASU 2018-02	due to ASU 2016-01	due to ASU 2014-09	January 1,

Edgar Filing: MDC HOLDINGS INC - Form 10-Q

As substantially all of our contracts are completed within a year, we will not disclose the value of unsatisfied performance obligations. At January 1, 2018 and June 30, 2018, receivables from contracts with customers were \$32.6 million and \$30.9 million, respectively.

Table of Contents

As a result of our adoption of ASU 2014-09, our significant accounting policies have been updated as follows:

Revenue Recognition for Homebuilding Segments. We recognize home sale revenues from home deliveries when we have satisfied the performance obligations within the sales agreement, which is generally when title to and possession of the home are transferred to the buyer at the home closing date. Revenue from a home delivery includes the base sales price and any purchased options and upgrades and is reduced for any sales price incentives.

We generally do not record the sale of a home or recognize the associated revenue if all of the following criteria are present: (1) HomeAmerican Mortgage Corporation (“HomeAmerican”) originates the mortgage loan and has not sold the mortgage loan, or loans, as of the end of the pertinent reporting period; and (2) the homebuyer does not meet certain collectability thresholds, based on the type of mortgage loan, related to their credit score, debt to income ratio and loan to value ratio. The deferral is subsequently recognized at the time HomeAmerican sells the respective loan to a third-party purchaser. In the event the gross margin is a loss, we recognize such loss at the time the home is closed.

In certain states that we build, we are not always able to complete certain outdoor features (such as landscaping or pools) prior to closing the home. To the extent these separate deliverables are not complete upon the closing of a home, we will defer home sale revenues related to incomplete outdoor features, and recognize revenue upon completion of the outdoor features.

Home Cost of Sales. Home cost of sales includes the specific construction costs of each home and all applicable land acquisition, land development and related costs, warranty costs and finance and closing costs, including closing cost incentives. We use the specific identification method for the purpose of accumulating home construction costs and allocate costs to each lot within a subdivision associated with land acquisition and land development based upon relative fair value of the lots prior to home construction. Lots within a subdivision typically have comparable fair values, and, as such, we generally allocate costs equally to each lot within a subdivision. We record all home cost of sales when a home is closed and performance obligations have been completed on a house-by-house basis.

When a home is closed, we may not have paid for all costs necessary to complete the construction of the home. This includes (1) construction that has been completed on a house but has not yet been billed or (2) work still to be performed on a home (such as limited punch-list items or certain outdoor features). For each of these items, we create an estimate of the total expected costs to be incurred and, with the exclusion of outdoor features, the estimated total costs for those items, less any amounts paid to date, are included in home cost of sales. Actual results could differ from such estimates. For incomplete outdoor features, we will defer the revenue and any cost of sales on this separate stand-alone deliverable until complete.

Costs Related to Sales Facilities. Certain marketing costs related to model homes or on-site sales facilities are either recorded as inventory, capitalized as property and equipment, or expensed as incurred. Costs related to interior and exterior upgrades to the home that will be sold as part of the home, such as wall treatments and additional upgraded landscaping, are recorded as housing completed or under construction. Costs to furnish and ready the model home or on-site sales facility that will not be sold as part of the model home, such as furniture, construction of the sales facility parking lot or construction of the sales center, are capitalized as property and equipment, net. Other costs incurred related to the marketing of the community and readying the model home for sale are expensed as incurred.

Property and Equipment, net. Property and equipment is carried at cost less accumulated depreciation. For property and equipment related to on-site sales facilities, depreciation is recorded using the units of production method as homes are delivered. For all other property and equipment, depreciation is recorded using a straight-line method over the estimated useful lives of the related assets, which range from 2 to 29 years.

Table of Contents

Accounting Standards Issued But Not Yet Adopted

In February 2016, the Financial Accounting Standards Board (“FASB”) issued ASU 2016-02, *Leases* (“ASU 2016-02”), which requires a lessee to recognize a right-of-use asset and a corresponding lease liability for virtually all leases. The liability will be equal to the present value of the remaining lease payments while the right-of-use asset will be based on the liability, subject to adjustment, such as for initial direct costs. In addition, ASU 2016-02 expands the disclosure requirements for lessees. The Company is still evaluating the impact of the new standard and has begun evaluating the population of all leases and related systems and internal control considerations. The Company will be required to adopt the new standard effective January 1, 2019, and the Company’s consolidated balance sheets will be impacted by the recording of a lease liability and right of use asset for virtually all of its current operating leases. As of June 30, 2018, the Company had remaining contractual obligations for operating leases, primarily associated with our office facilities, of \$43.6 million. The amount of which and the potential impact on the consolidated statements of operations and comprehensive income and consolidated statements of cash flows has yet to be determined.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326) Measurement of Credit Losses on Financial Instruments* (“ASU 2016-13”), which requires measurement and recognition of expected credit losses for financial assets held. The amendments in ASU 2016-13 eliminate the probable threshold for initial recognition of a credit loss in current GAAP and reflect an entity’s current estimate of all expected credit losses. ASU 2016-13 is effective for our interim and annual reporting periods beginning January 1, 2021, and is to be applied using a modified retrospective transition method. Earlier adoption is permitted. We do not plan to early adopt ASU 2016-13 and with our current holdings of financial instruments that are subject to credit losses, we do not believe adoption of this guidance will be material to our financial statements.

3. Segment Reporting

An operating segment is defined as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the Chief Operating Decision Maker (“CODM”), or decision-making group, to evaluate performance and make operating decisions. We have identified our CODM as two key executives—the Chief Executive Officer (“CEO”) and the Chief Operating Officer (“COO”).

We have identified each homebuilding division as an operating segment. Our homebuilding operating segments have been aggregated into the reportable segments noted below because they are similar in the following regards: (1) economic characteristics; (2) housing products; (3) class of homebuyer; (4) regulatory environments; and (5) methods used to construct and sell homes. Our homebuilding reportable segments are as follows:

West (Arizona, California, Nevada, Washington and Oregon)

Mountain (Colorado and Utah)

East (Virginia, Florida and Maryland)

Our financial services business consists of the operations of the following operating segments: (1) HomeAmerican; (2) Allegiant Insurance Company, Inc., A Risk Retention Group (“Allegiant”); (3) StarAmerican Insurance Ltd. (“StarAmerican”); (4) American Home Insurance Agency, Inc.; and (5) American Home Title and Escrow Company. Due to its contributions to consolidated pretax income, we consider HomeAmerican to be a reportable segment (“mortgage operations”). The remaining operating segments have been aggregated into one reportable segment (“other”) because they do not individually exceed 10 percent of: (1) consolidated revenue; (2) the greater of (a) the combined reported profit of all operating segments that did not report a loss or (b) the positive value of the combined reported loss of all operating segments that reported losses; or (3) consolidated assets.

Table of Contents

Corporate is a non-operating segment that develops and implements strategic initiatives and supports our operating divisions by centralizing key administrative functions such as finance, treasury, information technology, insurance, risk management, litigation and human resources. Corporate also provides the necessary administrative functions to support MDC as a publicly traded company. A portion of the expenses incurred by Corporate are allocated to the homebuilding operating segments based on their respective percentages of assets, and to a lesser degree, a portion of Corporate expenses are allocated to the financial services segments. A majority of Corporate's personnel and resources are primarily dedicated to activities relating to the homebuilding segments, and, therefore, the balance of any unallocated Corporate expenses is included in the homebuilding operations section of our consolidated statements of operations and comprehensive income.

The following table summarizes revenues for our homebuilding and financial services operations:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2017		2017	
	(Dollars in thousands)			
Homebuilding				
West	\$391,806	\$323,758	\$711,315	\$632,837
Mountain	268,541	224,356	477,173	397,492
East	89,261	100,857	168,808	182,368
Total homebuilding revenues	\$749,608	\$648,971	\$1,357,296	\$1,212,697

Financial Services				
Mortgage operations	\$9,040	\$7,670	\$16,560	\$15,236
Other	5,239	4,061	7,790	7,504
Total financial services pretax income	\$14,279	\$11,731	\$24,350	\$22,740
Total pretax income	\$76,616	\$51,894	\$127,148	\$88,254

The following table summarizes total assets for our homebuilding and financial services operations. The assets in our West, Mountain and East segments consist primarily of inventory while the assets in our Corporate segment primarily include our cash and cash equivalents, marketable securities and deferred tax assets. The assets in our financial services segment consist mostly of cash and cash equivalents, marketable securities and mortgage loans held-for-sale.

	June 30, 2018	December 31, 2017
	(Dollars in thousands)	
Homebuilding assets		
West	\$1,268,004	\$1,084,756
Mountain	740,414	674,057
East	179,445	201,684
Corporate	445,530	597,589
Total homebuilding assets	\$2,633,393	\$2,558,086
Financial services assets		
Mortgage operations	\$121,692	\$152,345
Other	92,544	69,861
Total financial services assets	\$214,236	\$222,206
Total assets	\$2,847,629	\$2,780,292

Table of Contents**4. Earnings Per Share**

ASC 260 requires a company that has participating security holders (for example, holders of unvested restricted stock that have non-forfeitable dividend rights) to utilize the two-class method for calculating earnings per share ("EPS") unless the treasury stock method results in lower EPS. The two-class method is an allocation of earnings/(loss) between the holders of common stock and a company's participating security holders. Under the two-class method, earnings/(loss) for the reporting period are allocated between common shareholders and other security holders based on their respective rights to receive distributed earnings (i.e., dividends) and undistributed earnings (i.e., net income/(loss)). Our common shares outstanding are comprised of shareholder owned common stock and shares of unvested restricted stock held by participating security holders. Basic EPS is calculated by dividing income or loss attributable to common stockholders by the weighted average number of shares of common stock outstanding, excluding participating shares in accordance with ASC 260. To calculate diluted EPS, basic EPS is adjusted to include the effect of potentially dilutive stock options outstanding. The table below shows our basic and diluted EPS calculations.

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2017		2017	
	(Dollars in thousands, except per share amounts)			
Numerator				
Net income	\$63,899	\$33,871	\$102,663	\$56,120
Less: distributed earnings allocated to participating securities	(96)	) (61)	) (201)	) (128)
Less: undistributed earnings allocated to participating securities	(204)	) (98)	) (344)	) (140)
Net income attributable to common stockholders (numerator for basic earnings per share)	63,599	33,712	102,118	55,852
Add back: undistributed earnings allocated to participating securities	204	98	344	140
Less: undistributed earnings reallocated to participating securities	(201)	) (96)	) (338)	) (138)
Numerator for diluted earnings per share under two class method	\$63,602	\$33,714	\$102,124	\$55,854
Denominator				
Weighted-average common shares outstanding	56,102,684	55,635,454	55,987,525	55,542,325
Add: dilutive effect of stock options	938,322	1,004,199	980,477	688,920
Denominator for diluted earnings per share under two class method	57,041,006	56,639,653	56,968,002	56,231,245
Basic Earnings Per Common Share	\$1.13	\$0.61	\$1.82	\$1.01
Diluted Earnings Per Common Share	\$1.12	\$0.60	\$1.79	\$0.99

Diluted EPS for the three and six months ended June 30, 2018 excluded options to purchase approximately 0.7 and 0.6 million shares of common stock, respectively, because the effect of their inclusion would be anti-dilutive. For the same periods in 2017, diluted EPS excluded options to purchase approximately 0.9 and 1.4 million shares, respectively.

- 10 -

Table of Contents**5. Accumulated Other Comprehensive Income**

The following table sets forth our changes in accumulated other comprehensive income ("AOCI"):

	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018	2017
	(Dollars in thousands)		
Beginning balance ¹	\$- \$9,479	\$3,992	\$7,730
Adoption of accounting standards (Note 2)	- -	(3,992)	-
Other comprehensive income before reclassifications	- 2,389	-	4,423
Amounts reclassified from AOCI ²	- (692)	-	(977)
Ending balance	\$- \$11,176	\$-	\$11,176
Unrealized gains on available-for-sale metropolitan district bond securities ¹ :			
Beginning balance	\$- \$14,578	\$-	\$14,341
Other comprehensive income (loss) before reclassifications	- 247	-	484
Amounts reclassified from AOCI	- -	-	-
Ending balance	\$- \$14,825	\$-	\$14,825
Total ending AOCI	\$- \$26,001	\$-	\$26,001

(1) All amounts net-of-tax.

(2) See separate table below for details about these reclassifications.

During the first quarter of 2018, an election was made to reclassify the income tax effects of the Act related to net unrealized gains on equity investments from accumulated other comprehensive income to retained earnings. See Note 2 for further discussion of adoption of new accounting standards.

The following table sets forth the activity related to reclassifications out of accumulated other comprehensive income:

Three Months	Six Months

Table of Contents**6. Fair Value Measurements**

ASC Topic 820, *Fair Value Measurements* (“ASC 820”), defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs, other than quoted prices in active markets, that are either directly or indirectly observable; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following table sets forth the fair values and methods used for measuring the fair values of financial instruments on a recurring basis:

Financial Instrument	Hierarchy	Fair Value	
		June 30,	December
		2018	31,
		2017	
		(Dollars in thousands)	
Cash and cash equivalents			
Debt securities (available-for-sale)	Level 1	\$34,891	\$99,863
Marketable securities			
Equity securities	Level 1	\$44,328	\$42,004
Debt securities (available-for-sale)	Level 1	-	49,634
Total marketable securities		\$44,328	\$91,638
Mortgage loans held-for-sale, net	Level 2	\$107,185	\$138,114

The following methods and assumptions were used to estimate the fair value of each class of financial instruments as of June 30, 2018 and December 31, 2017.

Cash and cash equivalents (excluding debt securities with an original maturity of three months or less), restricted cash, trade and other receivables, prepaid and other assets, accounts payable, accrued liabilities and borrowings on our revolving credit facility. Fair value approximates carrying value.

Equity securities. Our equity securities consist of holdings in corporate equities, preferred stock and exchange traded funds. As of June 30, 2018, all of our equity securities were recorded at fair value with all changes in fair value recorded to either interest and other income or other expense, dependent upon whether there was a net gain or loss, respectively, in the homebuilding section or financial services section of our consolidated statements of operations and comprehensive income. As of December 31, 2017, all of our equity securities were treated as available-for-sale investments and as such, were recorded at fair value with all changes in fair value initially recorded through AOCI, subject to an assessment to determine if an unrealized loss, if applicable, was other-than-temporary. See Note 2 for further discussion of adoption of new accounting standards.

Debt securities. Our debt securities consist of U.S. government securities. As of June 30, 2018 and December 31, 2017, all of our debt securities were treated as available-for-sale investments and, as such, are recorded at fair value with all changes in fair value initially recorded through AOCI, subject to an assessment to determine if any unrealized loss, if applicable, is other-than-temporary.

Each quarter we assess all of our securities in an unrealized loss position (excluding marketable equity securities subsequent to the adoption of ASU 2016-01 – see Note 2 for further discussion of adoption of new accounting standards) for a potential other-than-temporary impairment (“OTTI”). If the unrealized loss is determined to be other-than-temporary, an OTTI is recorded in other-than-temporary impairment of marketable securities in the homebuilding or financial services sections of our consolidated statements of operations and comprehensive income. During the three and six months ended June 30, 2017, we recorded pretax OTTI’s of \$0.1 million and \$0.2 million, respectively. No such impairments were recorded during the three and six months ended June 30, 2018.

Table of Contents

The following tables set forth the cost and estimated fair value of our available for sale debt securities:

	June 30, 2018			
	Amortized	OTTI	Net Amortized	Fair
	Cost		Cost	Value
	Basis			
	(Dollars in thousands)			
Financial Services				
Cash and cash equivalents				
Debt securities	\$34,891	\$ -	\$ 34,891	\$34,891

	December 31, 2017			
	Amortized	OTTI	Net Amortized	Fair
	Cost		Cost	Value
	Basis			
	(Dollars in thousands)			
Homebuilding				
Cash and cash equivalents				
Debt securities	\$99,663	\$ -	\$ 99,663	\$99,663
Marketable securities				
Debt securities	\$49,634	\$ -	\$ 49,634	\$49,634
Financial Services				
Cash and cash equivalents				
Debt securities	\$200	\$ -	\$ 200	\$200

The following table reconciles the net gain recognized during the three and six months ended June 30, 2018 on equity securities to the unrealized gain recognized during the periods on equity securities still held at the reporting date.

	June 30, 2018	
	Three Months Ended	Six Months Ended
	(Dollars in thousands)	
Net gain recognized during the period on equity securities	\$1,278	\$ 125
Less: Net loss recognized during the period on equity securities sold during the period	(63)	(435)
Unrealized gain recognized during the reporting period on equity securities still held at the reporting date	\$1,341	\$ 560

Mortgage loans held-for-sale, net. Our mortgage loans held-for-sale, which are measured at fair value on a recurring basis, include (1) mortgage loans held-for-sale that are under commitments to sell and (2) mortgage loans held-for-sale that are not under commitments to sell. At June 30, 2018 and December 31, 2017, we had \$96.4 million and \$103.5 million, respectively, of mortgage loans held-for-sale under commitments to sell. The fair value for those loans was based on quoted market prices for those mortgage loans, which are Level 2 fair value inputs. At June 30, 2018 and December 31, 2017, we had \$10.8 million and \$34.6 million, respectively, of mortgage loans held-for-sale that were not under commitments to sell. The fair value for those loans was primarily based upon the estimated market price received from an outside party, which is a Level 2 fair value input.

Gains on sales of mortgage loans, net, are included as a component of revenues in the financial services section of our consolidated statements of operations and comprehensive income. For the three and six months ended June 30, 2018, we recorded net gains on the sales of mortgage loans of \$10.3 million and \$19.3 million, respectively, compared to \$10.2 million and \$18.7 million for the same periods in the prior year, respectively.

Mortgage Repurchase Facility. The debt associated with our mortgage repurchase facility (see Note 18 for further discussion) is at floating rates that approximate current market rates and have relatively short-term maturities, generally within 30 days. The fair value approximates carrying value and is based on Level 2 inputs.

Table of Contents

Senior Notes. The estimated values of the senior notes in the following table are based on Level 2 inputs, which primarily reflect estimated prices for our senior notes which were provided by multiple sources.

	June 30, 2018		December 31, 2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	(Dollars in thousands)			
\$250 Million 5 % Senior Notes due February 2020, net	\$248,344	\$256,911	\$247,853	\$261,991
\$250 Million 5½% Senior Notes due January 2024, net	248,685	251,829	248,585	263,617
\$500 Million 6% Senior Notes due January 2043, net	490,243	430,155	490,159	493,094
Total	\$987,272	\$938,895	\$986,597	\$1,018,702

7. Inventories

The following table sets forth, by reportable segment, information relating to our homebuilding inventories:

	June 30, 2018	December 31, 2017
	(Dollars in thousands)	
Housing completed or under construction:		
West	\$571,762	\$489,136
Mountain	396,272	328,897
East	109,372	118,652
Subtotal	1,077,406	936,685
Land and land under development:		
West	613,931	517,697
Mountain	308,304	309,072
East	55,459	66,282
Subtotal	977,694	893,051
Total inventories	\$2,055,100	\$1,829,736

Our inventories are primarily associated with communities where we intend to construct and sell homes, including models and unsold homes. Costs capitalized to land and land under development primarily include: (1) land costs; (2) land development costs; (3) entitlement costs; (4) capitalized interest; (5) engineering fees; and (6) title insurance, real property taxes and closing costs directly related to the purchase of the land parcel. Components of housing completed or under construction primarily include: (1) land costs transferred from land and land under development; (2) direct construction costs associated with a house; (3) real property taxes, engineering fees, permits and other fees; (4) capitalized interest; and (5) indirect construction costs, which include field construction management salaries and

benefits, utilities and other construction related costs. Land costs are transferred from land and land under development to housing completed or under construction at the point in time that construction of a home on an owned lot begins.

- 14 -

Table of Contents

In accordance with ASC Topic 360, *Property, Plant, and Equipment* (“ASC 360”), homebuilding inventories, excluding those classified as held for sale, are carried at cost unless events and circumstances indicate that the carrying value of the underlying subdivision may not be recoverable. We evaluate inventories for impairment at each quarter end on a subdivision level basis as each such subdivision represents the lowest level of identifiable cash flows. In making this determination, we review, among other things, the following for each subdivision:

- actual and trending “Operating Margin” (which is defined as home sale revenues less home cost of sales and all incremental costs associated directly with the subdivision, including sales commissions and marketing costs);
- estimated future undiscounted cash flows and Operating Margin;
- forecasted Operating Margin for homes in backlog;
- actual and trending net home orders;
 - homes available for sale;
- market information for each sub-market, including competition levels, home foreclosure levels, the size and style of homes currently being offered for sale and lot size; and
- known or probable events indicating that the carrying value may not be recoverable.

If events or circumstances indicate that the carrying value of our inventory may not be recoverable, assets are reviewed for impairment by comparing the undiscounted estimated future cash flows from an individual subdivision (including capitalized interest) to its carrying value. If the undiscounted future cash flows are less than the subdivision’s carrying value, the carrying value of the subdivision is written down to its then estimated fair value. We generally determine the estimated fair value of each subdivision by determining the present value of the estimated future cash flows at discount rates, which are Level 3 inputs, that are commensurate with the risk of the subdivision under evaluation. The evaluation for the recoverability of the carrying value of the assets for each individual subdivision can be impacted significantly by our estimates of future home sale revenues, home construction costs, and development costs per home, all of which are Level 3 inputs.

If land is classified as held for sale, in accordance with ASC 360, we measure it at the lower of the carrying value or fair value less estimated costs to sell. In determining fair value, we primarily rely upon the most recent negotiated price which is a Level 2 input. If a negotiated price is not available, we will consider several factors including, but not limited to, current market conditions, recent comparable sales transactions and market analysis studies, which are considered Level 3 inputs. If the fair value less estimated costs to sell is lower than the current carrying value, the land is impaired down to its estimated fair value less costs to sell.

Impairments of homebuilding inventory by segment for the three and six months ended June 30, 2018 and 2017 are shown in the table below.

Three	Six Months
Months	Ended

Edgar Filing: MDC HOLDINGS INC - Form 10-Q

	Ended			
	June 30,		June 30,	
	2018	2017	2018	2017
	(Dollars in thousands)			
West	\$-	\$ -	\$375	\$4,100
Mountain	-	-	175	-
East	200	-	200	750
Total inventory impairments	\$200	\$ -	\$750	\$4,850

The table below provides quantitative data, for the periods presented, used in determining the fair value of the impaired inventory.

Three Months Ended	Impairment Data			Quantitative Data	
	Total Inventory Subdivisions Tested	Impairments	Fair Value of Inventory After Impairments	Number of Subdivisions Impaired	Discount Rate
	(Dollars in thousands)				
March 31, 2018	24	\$ 550	\$ 5,223	2	12%
June 30, 2018	17	\$ 200	\$ 767	1	12%
March 31, 2017	33	\$ 4,850	\$ 19,952	2	12% to 18%
June 30, 2017	35	\$ -	\$ -	-	N/A

Table of Contents**8. Capitalization of Interest**

We capitalize interest to inventories during the period of development in accordance with ASC Topic 835, *Interest* (“ASC 835”). Homebuilding interest capitalized as a cost of inventories is included in cost of sales during the period that related units or lots are delivered. To the extent our homebuilding debt exceeds our qualified assets as defined in ASC 835, we expense a portion of the interest incurred. Qualified homebuilding assets consist of all lots and homes, excluding finished unsold homes or finished models, within projects that are actively selling or under development. The table set forth below summarizes homebuilding interest activity. For all periods presented below, our qualified assets exceeded our homebuilding debt and as such, all interest incurred has been capitalized.

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2017		2017	
	(Dollars in thousands)			
Homebuilding interest incurred	\$ 15,639	\$ 13,194	\$ 31,264	\$ 26,382
Less: Interest capitalized	(15,639)	(13,194)	(31,264)	(26,382)
Homebuilding interest expensed	\$-	\$-	\$-	\$-
Interest capitalized, beginning of period	\$ 58,738	\$ 66,076	\$ 57,541	\$ 68,085
Plus: Interest capitalized during period	15,639	13,194	31,264	26,382
Less: Previously capitalized interest included in home and land cost of sales	(16,150)	(17,179)	(30,578)	(32,376)
Interest capitalized, end of period	\$ 58,227	\$ 62,091	\$ 58,227	\$ 62,091

9. Homebuilding Prepaid and Other Assets

The following table sets forth the components of homebuilding prepaid and other assets:

	June 30, 2018	December 31, 2017
	(Dollars in thousands)	
Deferred marketing costs (Note 2)	\$-	\$ 34,227
Land option deposits	28,745	22,203
Goodwill	6,008	6,008

Prepaid expenses	4,328	6,128
Deferred debt issuance costs on revolving credit facility, net	5,326	5,880
Other	1,043	1,220
Total	\$45,450	\$ 75,666

10. Homebuilding Accrued Liabilities and Financial Services Accounts Payable and Accrued Liabilities

The following table sets forth information relating to homebuilding accrued liabilities:

	June 30, 2018	December 31, 2017
	(Dollars in thousands)	
Customer and escrow deposits	\$45,539	\$ 36,144
Warranty accrual	25,666	21,909
Accrued compensation and related expenses	25,040	32,600
Accrued interest	27,734	27,734
Construction defect claim reserves	8,084	8,406
Land development and home construction accruals	7,390	8,001
Other accrued liabilities	29,446	31,518
Total accrued liabilities	\$168,899	\$166,312

Table of Contents

The following table sets forth information relating to financial services accounts payable and accrued liabilities:

	June 30, 2018	December 31, 2017
	(Dollars in thousands)	
Insurance reserves	\$42,623	\$ 44,280
Accounts payable and other accrued liabilities	10,662	8,821
Total accounts payable and accrued liabilities	\$53,285	\$ 53,101

11. Warranty Accrual

Our homes are sold with limited third-party warranties and, under our agreement with the issuer of the third-party warranties, we are responsible for performing all of the work for the first two years of the warranty coverage and paying for substantially all of the work required to be performed during years three through ten of the warranties. We record accruals for general and structural warranty claims, as well as accruals for known, unusual warranty-related expenditures. Our warranty accrual is recorded based upon historical payment experience in an amount estimated to be adequate to cover expected costs of materials and outside labor during warranty periods. The determination of the warranty accrual rate for closed homes and the evaluation of our warranty accrual balance at period end are based on an internally developed analysis that includes known facts and interpretations of circumstances, including, among other things, our trends in historical warranty payment levels and warranty payments for claims not considered to be normal and recurring.

Our warranty accrual is included in accrued liabilities in the homebuilding section of our consolidated balance sheets and adjustments to our warranty accrual are recorded as an increase or reduction to home cost of sales in the homebuilding section of our consolidated statements of operations and comprehensive income.

The table set forth below summarizes accrual, adjustment and payment activity related to our warranty accrual for the three and six months ended June 30, 2018 and 2017. For the six months ended June 30, 2018 and 2017, we recorded adjustments to increase our warranty accrual by \$3.1 million and \$0.1 million, respectively. No such adjustments were recorded during the three months ended June 30, 2018 and 2017. The adjustments recorded during the six months ended June 30, 2018 were due to higher than expected recent warranty related expenditures.

Three Months Ended	Six Months Ended

12. Insurance and Construction Defect Claim Reserves

The establishment of reserves for estimated losses associated with insurance policies issued by Allegiant and re-insurance agreements issued by StarAmerican are based on actuarial studies that include known facts and interpretations of circumstances, including our experience with similar cases and historical trends involving claim payment patterns, pending levels of unpaid claims, product mix or concentration, claim severity, frequency patterns depending on the business conducted, and changing regulatory and legal environments. It is possible that changes in the insurance payment experience used in estimating our ultimate insurance losses could have a material impact on our insurance reserves.

The establishment of reserves for estimated losses to be incurred by our homebuilding subsidiaries associated with (1) the self-insured retention (“SIR”) portion of construction defect claims that are expected to be covered under insurance policies with Allegiant and (2) the entire cost of any construction defect claims that are not expected to be covered by insurance policies with Allegiant are based on actuarial studies that include known facts similar to those established for our insurance reserves. It is possible that changes in the payment experience used in estimating our ultimate losses for construction defect claims could have a material impact on our reserves.

Table of Contents

The table set forth below summarizes our insurance and construction defect claim reserves activity for the three and six months ended June 30, 2018 and 2017. These reserves are included as a component of accrued liabilities in either the financial services or homebuilding sections of the consolidated balance sheets.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2018	2017	2018	2017
	(Dollars in thousands)			
Balance at beginning of period	\$53,395	\$51,851	\$52,686	\$50,954
Expense provisions	2,733	2,385	5,037	4,501
Cash payments, net of recoveries	(5,421)	(4,589)	(7,016)	(5,808)
Balance at end of period	\$50,707	\$49,647	\$50,707	\$49,647

In the ordinary course of business, we make payments from our insurance and construction defect claim reserves to settle litigation claims arising from our homebuilding activities. These payments are irregular in both their timing and their magnitude. As a result, the cash payments, net of recoveries shown for the three and six months ended June 30, 2018 and 2017 are not necessarily indicative of what future cash payments will be for subsequent periods.

13. Income Taxes

Our overall effective income tax rates were 16.6% and 19.3% for the three and six months ended June 30, 2018, respectively, and 34.7% and 36.4% for the three and six months ended June 30, 2017, respectively. The rates for the three and six months ended June 30, 2018 resulted in income tax expense of \$12.7 million and \$24.5 million, respectively, compared to income tax expense of \$18.0 million and \$32.1 million for the three and six months ended June 30, 2017, respectively. The year-over-year decrease in our effective tax rate for the three and six months ended June 30, 2018 was impacted by the following items:

(1) The net impact from the enactment of the Act, which reduced the U.S. federal corporate income tax rate from 35% to 21% but also reduced the deductibility of certain executive based compensation and eliminated the domestic manufacturing deduction.

(2) Our estimated effective tax rate for the 2017 full year as of June 30, 2017 included no estimate for energy tax credits as the tax provision had expired and had not been extended for 2017. However, in February 2018, the Bipartisan Budget Act of 2018 was signed into law, retroactively extending energy tax credits for 2017. As a result, for the three and six months ended June 30, 2018, we recorded discrete tax adjustments for energy tax credits of \$6.8

million and \$8.0 million, respectively. The majority of these tax credits relate to certificates associated with 2017 closings that have been received throughout the first six months of 2018. The remaining credits are related to certificates received from closings in other open tax years prior to 2017. As of June 30, 2018, energy tax credits for 2018 were not approved and as a result, no such estimate has been included in our estimated effective tax rate for 2018.

(3) In the 2017 first quarter, we established a discrete valuation allowance against certain state net operating loss carryforwards. No such valuation allowances were established during the six months ended June 30, 2018.

At June 30, 2018 and December 31, 2017 we had deferred tax assets, net of valuation allowances and deferred tax liabilities, of \$37.4 million and \$41.5 million, respectively. The valuation allowances were primarily related to various state net operating loss carryforwards where realization is more uncertain at this time due to the limited carryforward periods that exist in certain states.

During the quarter ended June 30, 2018, there were no changes to the provisional amounts recorded in our December 31, 2017 financial statements. As the Internal Revenue Service has not yet issued additional guidance regarding performance-based executive compensation provisions that were changed as a result of the Act, we are still analyzing the impact this change will have on our estimates. In the second quarter, the Company continued to apply the guidance in SAB 118 when accounting for the enactment date effects of the Act.

Table of Contents**14. Senior Notes**

The carrying value of our senior notes as of June 30, 2018 and December 31, 2017, net of any unamortized debt issuance costs or discount, were as follows:

	June 30, 2018 (Dollars in thousands)	December 31, 2017
5 % Senior Notes due February 2020, net	\$248,344	\$247,853
5½% Senior Notes due January 2024, net	248,685	248,585
6% Senior Notes due January 2043, net	490,243	490,159
Total	\$987,272	\$986,597

Our senior notes are not secured and, while the senior note indentures contain some restrictions on secured debt and other transactions, they do not contain financial covenants. Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by most of our homebuilding segment subsidiaries.

15. Stock-Based Compensation

We account for share-based awards in accordance with ASC Topic 718 *Compensation—Stock Compensation* (“ASC 718”), which requires the fair value of stock-based compensation awards to be amortized as an expense over the vesting period. Stock-based compensation awards are valued at fair value on the date of grant. The following table sets forth share-based award expense activity for the three and six months ended June 30, 2018 and 2017:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
	2018	2017	2018	2017
	(Dollars in thousands)			
Stock option grants expense	\$141	\$80	\$197	\$172
Restricted stock awards expense	620	460	1,364	963
Performance share units expense	4,063	903	4,514	903
Total stock based compensation	\$4,824	\$1,443	\$6,075	\$2,038

Table of Contents

On May 23, 2018, June 20, 2017 and July 25, 2016, the Company granted long term performance stock unit awards (“PSUs”) to each of the CEO, the COO, and the Chief Financial Officer (“CFO”) under the Company’s 2011 Equity Incentive Plan. The PSUs will be earned based upon the Company’s performance, over a three year period (the “Performance Period”), measured by increasing home sale revenues over a “Base Period”. Each award is conditioned upon the Company achieving an average gross margin from home sales (excluding impairments) of at least fifteen percent (15%) over the Performance Period. Target goals will be earned if the Company’s three year average home sale revenues over the Performance Period (“Performance Revenues”) exceed the home sale revenues over the Base Period (“Base Revenues”) by at least 10% but less than 20%. If Performance Revenues exceed the Base Revenues by at least 5% but less than 10%, 50% of the Target Goals will be earned (“Threshold Goals”). If Performance Revenues exceed the Base Revenues by at least 20%, 200% of the Target Goals will be earned (“Maximum Goals”). For the PSUs granted in 2017 and 2018, the number of PSUs earned shall be adjusted to be proportional to the partial performance between the Threshold Goals, Target Goals and Maximum Goals. Details for each defined term above for both grants have been provided in the table below.

Awardee	Date of Award	Performance Period	Base Period	Base Period Revenues	Threshold Goal		Target Goal		Maximum Goal	
					PSUs	Home Sale Revenues	PSUs	Home Sale Revenues	PSUs	Home Sale Revenues
CEO	July 25, 2016	July 1, 2016	July 1, 2015		56,700		113,400		226,800	
COO		to	to	\$1.975 billion	56,700	\$2.074 billion	113,400	\$2.173 billion	226,800	\$2.370 billion
CFO		June 30, 2019	June 30, 2016		14,175		28,350		56,700	
CEO	June 20, 2017	April 1, 2017	April 1, 2016		59,400		118,800		237,600	
COO		to	to	\$2.426 billion	59,400	\$2.547 billion	118,800	\$2.669 billion	237,600	\$2.911 billion
CFO		March 31, 2020	March 31, 2017		14,850		29,700		59,400	
CEO	May 23, 2018	April 1, 2018	April 1, 2017		60,000		120,000		240,000	
COO		to	to	\$2.543 billion	60,000	\$2.670 billion	120,000	\$2.797 billion	240,000	\$3.052 billion
CFO		March 31, 2021	March 31, 2018		15,000		30,000		60,000	

* Dollars in thousands

In accordance with ASC 718, the PSUs were valued on the date of grant at their fair value. The fair value of these grants was equal to the closing price of MDC stock on the date of grant less the discounted cash flows of expected

future dividends over the respective vesting period (as these PSUs do not participate in dividends). The grant date fair value and maximum potential expense if the Maximum Goals were met for these awards has been provided in the table above. ASC 718 does not permit recognition of expense associated with performance-based stock awards until achievement of the performance targets are probable of occurring.

2016 PSU Grants. In the 2018 second quarter, the Company determined that achievement of the Maximum Goals for these awards was probable and as such, the Company recorded share-based award expense related to the awards of \$4.1 million and \$4.5 million for the three and six months ended June 30, 2018, respectively. As of June 30, 2017, the Company had concluded that achievement of the Threshold Goals was probable and, as such, recorded share-based award expense related to the awards of \$0.9 million for the three and six months ended June 30, 2017.

2017 and 2018 PSU Grants. For the PSUs granted in June of 2017 and in May of 2018, the Company concluded that achievement of any of the performance metrics has not met the level of probability required to record compensation expense and, as such, no expense related to these awards has been recognized as of June 30, 2018.

16. Commitments and Contingencies

Surety Bonds and Letters of Credit. We are required to obtain surety bonds and letters of credit in support of our obligations for land development and subdivision improvements, homeowner association dues, warranty work, contractor license fees and earnest money deposits. At June 30, 2018, we had outstanding surety bonds and letters of credit totaling \$205.4 million and \$72.0 million, respectively, including \$39.3 million in letters of credit issued by HomeAmerican. The estimated cost to complete obligations related to these bonds and letters of credit were approximately \$71.9 million and \$33.5 million, respectively. All letters of credit as of June 30, 2018, excluding those issued by HomeAmerican, were issued under our unsecured revolving credit facility (see Note 18 for further discussion of the revolving credit facility). We expect that the obligations secured by these performance bonds and letters of credit generally will be performed in the ordinary course of business and in accordance with the applicable contractual terms. To the extent that the obligations are performed, the related performance bonds and letters of credit should be released and we should not have any continuing obligations. However, in the event any such performance bonds or letters of credit are called, our indemnity obligations could require us to reimburse the issuer of the performance bond or letter of credit.

We have made no material guarantees with respect to third-party obligations.

Table of Contents

Litigation. Due to the nature of the homebuilding business, we have been named as defendants in various claims, complaints and other legal actions arising in the ordinary course of business, including product liability claims and claims associated with the sale and financing of homes. In the opinion of management, the outcome of these ordinary course matters will not have a material adverse effect upon our financial condition, results of operations or cash flows.

Lot Option Contracts. In the ordinary course of business, we enter into lot option purchase contracts (“Option Contracts”), generally through a deposit of cash or a letter of credit, for the right to purchase land or lots at a future point in time with predetermined terms. The use of such land option and other contracts generally allow us to reduce the risks associated with direct land ownership and development, reduces our capital and financial commitments, and minimizes the amount of land inventories on our consolidated balance sheets. In certain cases, these contracts will be settled shortly following the end of the period. Our obligation with respect to Option Contracts is generally limited to forfeiture of the related deposits. At June 30, 2018, we had cash deposits and letters of credit totaling \$24.8 million and \$6.0 million, respectively, at risk associated with the option to purchase 8,882 lots.

17. Derivative Financial Instruments

The derivative instruments we utilize in the normal course of business are interest rate lock commitments and forward sales of mortgage-backed securities, both of which typically are short-term in nature. Forward sales of mortgage-backed securities are utilized to hedge changes in fair value of our interest rate lock commitments as well as mortgage loans held-for-sale not under commitments to sell. For forward sales of mortgage-backed securities, as well as interest rate lock commitments that are still outstanding at the end of a reporting period, we record the changes in fair value of the derivatives in revenues in the financial services section of our consolidated statements of operations and comprehensive income with an offset to other assets or accounts payable and accrued liabilities in the financial services section of our consolidated balance sheets, depending on the nature of the change.

At June 30, 2018, we had interest rate lock commitments with an aggregate principal balance of \$191.8 million. Additionally, we had \$10.6 million of mortgage loans held-for-sale at June 30, 2018 that had not yet been committed to a mortgage purchaser. In order to hedge the changes in fair value of our interest rate lock commitments and mortgage loans held-for-sale that had not yet been committed to a mortgage purchaser, we had forward sales of securities totaling \$110.0 million at June 30, 2018.

For the three and six months ended June 30, 2018, we recorded net gains of \$0.8 million and \$2.3 million, respectively, on our derivatives, compared to a net gain of \$0.2 million and a net loss of \$0.0 million for the same periods in 2017.

18. Lines of Credit

Revolving Credit Facility. We have an unsecured revolving credit agreement (“Revolving Credit Facility”) with a group of lenders which may be used for general corporate purposes. This agreement was amended on September 29, 2017 to (1) extend the Revolving Credit Facility maturity to December 16, 2022, (2) increase the aggregate commitment from \$550 million to \$700 million (the “Commitment”) and (3) provide that the aggregate amount of the commitments may increase to an amount not to exceed \$1.25 billion upon our request, subject to receipt of additional commitments from existing or additional lenders and, in the case of additional lenders, the consent of the co-administrative agents. As defined in the Revolving Credit Facility, interest rates on base rate borrowings are equal to the highest of (1) 0.0%, (2) a prime rate, (3) a federal funds effective rate plus 1.50%, and (4) a specified eurocurrency rate plus 1.00% and, in each case, plus a margin that is determined based on our credit ratings and leverage ratio. Interest rates on eurocurrency borrowings are equal to a specified eurocurrency rate plus a margin that is determined based on our credit ratings and leverage ratio. At any time at which our leverage ratio, as of the last day of the most recent calendar quarter, exceeds 55%, the aggregate principal amount of all consolidated senior debt borrowings outstanding may not exceed the borrowing base. There is no borrowing base requirement if our leverage ratio, as of the last day of the most recent calendar quarter, is 55% or less.

The Revolving Credit Facility is fully and unconditionally guaranteed, jointly and severally, by most of our homebuilding segment subsidiaries. The facility contains various representations, warranties and covenants that we believe are customary for agreements of this type. The financial covenants include a consolidated tangible net worth test and a leverage test, along with a consolidated tangible net worth covenant, all as defined in the Revolving Credit Facility. A failure to satisfy the foregoing tests does not constitute an event of default, but can trigger a “term-out” of the facility. A breach of the consolidated tangible net worth covenant (but not the consolidated tangible net worth test) or a violation of anti-corruption or sanctions laws would result in an event of default.

Table of Contents

The Revolving Credit Facility is subject to acceleration upon certain specified events of default, including breach of the consolidated tangible net worth covenant, a violation of anti-corruption or sanctions laws, failure to make timely payments, breaches of certain representations or covenants, failure to pay other material indebtedness, or another person becoming beneficial owner of 50% or more of our outstanding common stock. We believe we were in compliance with the representations, warranties and covenants included in the Revolving Credit Facility as of June 30, 2018.

We incur costs associated with unused commitment fees pursuant to the terms of the Revolving Credit Facility. At June 30, 2018 and December 31, 2017, there were \$32.7 million and \$32.0 million, respectively, in letters of credit outstanding, which reduced the amounts available to be borrowed under the Revolving Credit Facility. We had \$15.0 million outstanding under the Revolving Credit Facility as of June 30, 2018 and December 31, 2017. As of June 30, 2018, availability under the Revolving Credit Facility was approximately \$652.3 million.

Mortgage Repurchase Facility. HomeAmerican has a Master Repurchase Agreement (the “Mortgage Repurchase Facility”) with U.S. Bank National Association (“USBNA”). Effective August 10, 2017, the Mortgage Repurchase Facility was amended to extend its termination date to August 9, 2018. The Mortgage Repurchase Facility provides liquidity to HomeAmerican by providing for the sale of up to an aggregate of \$75 million (subject to increase by up to \$75 million under certain conditions) of eligible mortgage loans to USBNA with an agreement by HomeAmerican to repurchase the mortgage loans at a future date. Until such mortgage loans are transferred back to HomeAmerican, the documents relating to such loans are held by USBNA, as custodian, pursuant to the Custody Agreement (“Custody Agreement”), dated as of November 12, 2008, by and between HomeAmerican and USBNA. In the event that an eligible mortgage loan becomes ineligible, as defined under the Mortgage Repurchase Facility, HomeAmerican may be required to repurchase the ineligible mortgage loan immediately. The maximum aggregate commitment of the Mortgage Repurchase Facility was temporarily increased on June 27, 2018 from \$75 million to \$100 million and was effective through July 26, 2018. The Mortgage Repurchase Facility also had a temporary increase in the maximum aggregate commitment from \$75 million to \$115 million on December 27, 2017 and was effective through January 25, 2018. At June 30, 2018 and December 31, 2017, HomeAmerican had \$80.8 million and \$112.3 million, respectively, of mortgage loans that HomeAmerican was obligated to repurchase under the Mortgage Repurchase Facility. Mortgage loans that HomeAmerican is obligated to repurchase under the Mortgage Repurchase Facility are accounted for as a debt financing arrangement and are reported as mortgage repurchase facility in the consolidated balance sheets. Advances under the Mortgage Repurchase Facility carry a price range that is LIBOR-based.

The Mortgage Repurchase Facility contains various representations, warranties and affirmative and negative covenants that we believe are customary for agreements of this type. The negative covenants include, among others, (i) a minimum Adjusted Tangible Net Worth requirement, (ii) a maximum Adjusted Tangible Net Worth ratio, (iii) a minimum adjusted net income requirement, and (iv) a minimum Liquidity requirement. The foregoing capitalized terms are defined in the Mortgage Repurchase Facility. We believe HomeAmerican was in compliance with the representations, warranties and covenants included in the Mortgage Repurchase Facility as of June 30, 2018.

19. Related Party Transactions

We contributed \$1.5 million in cash to the MDC/Richmond American Homes Foundation (the “Foundation”) during the six months ended June 30, 2017. The Foundation is a non-profit organization operated exclusively for charitable, educational and other purposes beneficial to social welfare within the meaning of Section 501(c)(3) of the Internal Revenue Code. The following Directors and/or officers of the Company served as directors of the Foundation at June 30, 2018, all of whom serve without compensation:

Name	MDC Title
Larry A. Mizel	Chairman and CEO
David D. Mandarich	President and COO

Three other individuals, who are independent of the Company, also serve as directors of the Foundation. All directors of the Foundation serve without compensation.

Table of Contents

20. Supplemental Guarantor Information

Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by the following subsidiaries (collectively, the "Guarantor Subsidiaries"), which are 100%-owned subsidiaries of the Company.

M.D.C. Land Corporation
RAH of Florida, Inc.
Richmond American Construction, Inc.
Richmond American Homes of Arizona, Inc.
Richmond American Homes of Colorado, Inc.
Richmond American Homes of Florida, LP
Richmond American Homes of Illinois, Inc.
Richmond American Homes of Maryland, Inc.
Richmond American Homes of Nevada, Inc.
Richmond American Homes of New Jersey, Inc.
Richmond American Homes of Oregon, Inc. (formerly known as Richmond American Homes of Delaware, Inc.)
Richmond American Homes of Pennsylvania, Inc.
Richmond American Homes of Utah, Inc.
Richmond American Homes of Virginia, Inc.
Richmond American Homes of Washington, Inc.

The senior note indentures do not provide for a suspension of the guarantees, but do provide that any Guarantor may be released from its guarantee so long as (1) no default or event of default exists or would result from release of such guarantee, (2) the Guarantor being released has consolidated net worth of less than 5% of the Company's consolidated net worth as of the end of the most recent fiscal quarter, (3) the Guarantors released from their guarantees in any year-end period comprise in the aggregate less than 10% (or 15% if and to the extent necessary to permit the cure of a default) of the Company's consolidated net worth as of the end of the most recent fiscal quarter, (4) such release would not have a material adverse effect on the homebuilding business of the Company and its subsidiaries and (5) the Guarantor is released from its guarantee(s) under all Specified Indebtedness (other than by reason of payment under its guarantee of Specified Indebtedness). Upon delivery of an officers' certificate and an opinion of counsel stating that all conditions precedent provided for in the indenture relating to such transactions have been complied with and the release is authorized, the guarantee will be automatically and unconditionally released. "Specified Indebtedness" means indebtedness under the senior notes, the Company's Indenture dated as of December 3, 2002, the Revolving Credit Facility, and any refinancing, extension, renewal or replacement of any of the foregoing.

We have determined that separate, full financial statements of the Guarantor Subsidiaries would not be material to investors and, accordingly, supplemental financial information for the Guarantor and Non-Guarantor Subsidiaries is presented below.

Table of Contents**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be read in conjunction with, and is qualified in its entirety by, the Unaudited Consolidated Financial Statements and Notes thereto included elsewhere in this Quarterly Report on Form 10-Q. This item contains forward-looking statements that involve risks and uncertainties. The forward-looking statements are based upon management's experiences, observations, and analyses. Actual results may differ materially from those indicated in such forward-looking statements. Factors that may cause such a difference include, but are not limited to, those discussed in "Item 1A: Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2017 and this Quarterly Report on Form 10-Q. The Company distributed an 8% stock dividend on December 19, 2017 to shareholders of record on December 5, 2017. In accordance with Accounting Standards Codification 260, "Earnings per Share," basic and diluted earnings per share amounts, weighted-average shares outstanding, and dividends declared per share have been restated for all periods presented to reflect the effect of this stock dividend.

Table of Contents

Overview

Three Months Ended June 30, 2018

For the three months ended June 30, 2018, our net income was \$63.9 million, or \$1.12 per diluted share, an 89% increase compared to net income of \$33.9 million, or \$0.60 per diluted share, for the same period in the prior year. The increase was primarily the result of a \$22.2 million improvement in our pretax income from homebuilding operations, which was driven by a 16% increase in home sale revenues coupled with a 230 basis point improvement in our gross margin from home sales. Additionally, net income benefited significantly from a decrease in our effective tax rate that was mostly due to (1) a \$6.8 million discrete benefit resulting from the identification of additional homes (closed in prior periods) that are eligible for federal energy tax credits and (2) the Tax Cuts and Jobs Act that was signed into law in December 2017.

Home sale revenues were up from \$647.6 million in the 2017 second quarter to \$749.6 million in the 2018 second quarter. The \$102.0 million year-over-year improvement was the result of a 7% increase in the number of homes delivered and an 8% increase in the average sales price of those homes.

The dollar value of our net new home orders increased 9% from the prior year period, driven mostly by an 8% improvement in our monthly sales absorption rate to 3.68, which was our highest second quarter absorption pace since 2005.

Six Months Ended June 30, 2018

For the six months ended June 30, 2018, our net income was \$102.7 million, or \$1.79 per diluted share, an 83% increase compared to net income of \$56.1 million, or \$0.99 per diluted share, for the same period in the prior year. Similar to the 2018 second quarter commentary above, the increase was primarily driven by an improvement in home sale revenues, a significant improvement in our gross margin from home sales and a decrease in our effective tax rate primarily due to federal energy tax credits and the Tax Cuts and Jobs Act.

*Industry Conditions and Outlook for MDC**

Low new and existing home inventories, healthy consumer demand and the success of our more affordable product offering have combined to drive a favorable pricing environment for our Company, resulting in a significant expansion of our gross margin during the first half of 2018.

Mortgage interest rates have recently stabilized following an uptick seen earlier in the year, although the Federal Reserve continued to signal further increases to the federal funds rate during the balance of 2018. With the cost of home ownership rising, we continued to focus on growing our more affordable product portfolio during the second quarter. During the quarter, we approved almost 3,700 lots for purchase, and our SeasonsTM collection represented nearly 50% of these approvals. Our total lots controlled at the end the quarter were 23,626, up 38% year-over-year.

We are maintaining our expectation for year-over-year period-end community count growth of at least 10% by the end of 2018. Our dollar value of homes in backlog to end the 2018 second quarter was up 16% year-over-year to \$1.95 billion, providing a solid foundation for a year-over-year increase in home sale revenues for the remainder of 2018. Furthermore, our average gross margin in backlog at June 30, 2018 remained healthy, at a level roughly even with the 2018 second quarter closing gross margin of 19.1%. And our liquidity to end the 2018 second quarter was up 18% year-over-year to \$1.14 billion, providing us with resources to fund our growth objectives.

* See "**Forward-Looking Statements**" below.

Table of Contents**Homebuilding***Pretax Income:*

	Three Months Ended				Six Months Ended			
	June 30, 2018	2017	Change Amount	%	June 30, 2018	2017	Change Amount	%
	(Dollars in thousands)							
West	\$37,708	\$21,134	\$16,574	78 %	\$62,081	\$36,589	\$25,492	70 %
Mountain	35,854	24,541	11,313	46 %	60,039	42,771	17,268	40 %
East	4,141	4,734	(593)	(12)%	7,516	7,376	140	2 %
Corporate	(15,366)	(10,246)	(5,120)	(50)%	(26,838)	(21,222)	(5,616)	26 %
Total Homebuilding pretax income	\$62,337	\$40,163	\$22,174	55 %	\$102,798	\$65,514	\$37,284	57 %

For the three months ended June 30, 2018, we recorded homebuilding pretax income of \$62.3 million, an increase of \$22.2 million from \$40.2 million for the same period in the prior year. The increase was primarily attributable to a 16% increase in home sale revenues and a 230 basis point improvement in our gross margin from home sales.

Our West segment experienced a \$16.6 million year-over-year improvement in pretax income, primarily due to a 21% increase in home sale revenues and an improved gross margin from home sales. Our Mountain segment experienced an \$11.3 million year-over-year improvement in pretax income primarily driven by a 20% increase in home sale revenues and an improved gross margin from home sales. The pretax loss for our Corporate segment increased from the prior year primarily as a result of an increase in compensation expense due to an increase in headcount as well as \$3.6 million in additional stock-based compensation expense associated with certain performance-based stock awards.

For the six months ended June 30, 2018, we recorded homebuilding pretax income of \$102.8 million, compared to \$65.5 million for the same period in the prior year, an increase of \$37.3 million, or 57%. The increase was primarily attributable to a 12% increase in home sale revenues and a 230 basis point improvement in our gross margin from home sales.

The year-over-year increases in pretax income for our West and Mountain segments were driven primarily by higher home sale revenues of 12% and 20%, respectively, as well as improved gross margins from home sales. Our West segment also benefited from a \$3.7 million reduction in inventory impairments. The pretax loss for our Corporate segment increased from the prior year primarily as a result of an increase in compensation expense due to an increase in headcount as well as the additional stock-based compensation expense discussed above.

Assets:

	June 30, 2018	December 31, 2017	Change Amount	%
	(Dollars in thousands)			
West	\$1,268,004	\$1,084,756	\$183,248	17 %
Mountain	740,414	674,057	66,357	10 %
East	179,445	201,684	(22,239)	(11)%
Corporate	445,530	597,589	(152,059)	(25)%
Total homebuilding assets	\$2,633,393	\$2,558,086	\$75,307	3 %

Total homebuilding assets increased only slightly from December 31, 2017 to June 30, 2018. Homebuilding assets in both our West and Mountain segments increased due to a higher number of homes completed or under construction as a result of an increase in backlog under construction during the six months ended June 30, 2018. Significant land acquisition activity drove increases in land and land under development balances in our West segment, further contributing to the higher homebuilding asset balance as of June 30, 2018. However, the funds for the land acquisition and construction activity came from our Corporate segment, driving an offsetting decline in our Corporate segment's assets. In addition, our East segment assets decreased due to a lesser investment in our mid-Atlantic market over the past two years; however, as is noted by the 45% year-over-year increase in lots owned and optioned in our East segment (25% year-over-year increase in our mid-Atlantic market), we have begun reinvesting in this market recently.

Table of Contents*New Home Deliveries & Home Sale Revenues:*

Changes in home sale revenues are impacted by changes in the number of new homes delivered and the average selling price of those delivered homes. Commentary for each of our segments on significant changes in these two metrics is provided below.

	Three Months Ended June 30, 2018			2017			% Change				
	Homes	Home Sale Revenues	Average Price	Homes	Home Sale Revenues	Average Price	Homes	Home Sale Revenues	Average Price		
	(Dollars in thousands)										
West	769	\$ 391,806	\$ 509.5	728	\$ 323,758	\$ 444.7	6 %	21	%	15	%
Mountain	522	268,541	514.4	462	223,005	482.7	13 %	20	%	7	%

East	398	168,808	424.1	404	182,365	451.4	(1)%	(7	)%	(6	)%
Total	2,786	\$ 1,357,296	\$ 487.2	2,668	\$ 1,211,099	\$ 453.9	4 %	12	%	7	%

West Segment Commentary

For both the three and six months ended June 30, 2018, we realized near double-digit year-over-year percentage increases in average selling price in each of our markets in the West segment, due to price increases implemented over the past twelve months and a shift in mix as a result of an increased proportion of closings coming from California, which has the highest average selling price in this segment. Our total new homes delivered were up for both the three and six months ended June 30, 2018 primarily due to an increase in the number of homes in backlog to start the respective periods, which were up 17% and 8%, respectively. The impact of the increased homes in backlog to start the respective periods was partially offset by a lower backlog conversion rate as a higher percentage of our homes in backlog to start each period were in California, which has the longest construction cycle times in this segment.

Mountain Segment Commentary

For both the three and six months ended June 30, 2018, our Mountain segment experienced a 13% year-over-year increase in the number of new homes delivered as a result of increases in the number of homes in backlog to start the respective periods of 20% and 17%. The average selling price of homes delivered was up 7% as compared to the respective periods in the prior year. While we have seen price increases implemented in most communities in this segment, we have also seen a slight shift in mix to lower priced communities, consistent with our focus on offering more affordable home plans.

East Segment Commentary

For both the three and six months ended June 30, 2018, the decrease in the average selling price of homes closed in our East segment is due to mix as a result of (1) a higher percentage of our deliveries coming from our Florida markets, which have a lower average selling price than our mid-Atlantic market and (2) a higher percentage of deliveries in this segment coming from communities that offer more affordable home plans. Slightly lower deliveries for both the three and six months ended June 30, 2018, as compared to the same periods in the prior year, were driven by year-over-year declines of 10% and 3%, respectively, in the number of homes in backlog to start the respective periods. The impact of the lower number of homes in backlog to start the 2018 second quarter was mostly offset by higher backlog conversion rates in our Florida markets as a higher percentage of our homes in backlog to start the 2018 second quarter were under construction at that time.

Table of Contents*Gross Margin from Home Sales:*

Our gross margin from home sales for the three months ended June 30, 2018 increased 230 basis points year-over-year from 16.8% to 19.1%. This improvement was primarily driven by improving gross margins across most of our markets as a result of favorable supply / demand dynamics, which gave us the ability to increase pricing in the majority of our selling communities. Our gross margin from home sales was also positively impacted by a higher percentage of our closings coming from our more affordable SeasonsTM product, which has a higher average gross margin than our traditional new home plans, and a 50 basis point improvement in our interest in cost of sales as a percentage of home sale revenues.

Our gross margin from home sales for the six months ended June 30, 2018 increased 230 basis points year-over-year from 16.4% to 18.7%. The primary drivers of the improved gross margin from home sales for the six months ended June 30, 2018 are consistent with those noted above for the three months ended June 30, 2018. Our gross margin from home sales was also positively impacted by a 50 basis point improvement in our interest in cost of sales as a percentage of home sale revenues. The six months ended June 30, 2018 included \$3.1 million of expense to adjust our warranty accrual (a 20 basis point negative impact to gross margin) and \$0.8 million of inventory impairments (a 10 basis point negative impact to gross margin), while the same period in 2017 included \$4.9 million of inventory impairments (a 40 basis point negative impact to gross margin).

Inventory Impairments:

Impairments of homebuilding inventory by segment for the three and six months ended June 30, 2018 and 2017 are shown in the table below:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
	2018	2017	2018	2017
	(Dollars in thousands)			
West	\$-	\$ -	\$375	\$4,100
Mountain	-	-	175	-
East	200	-	200	750
Total inventory impairments	\$200	\$ -	\$750	\$4,850

The table below provides quantitative data, for the periods presented, used in determining the fair value of the impaired inventory.

Three Months Ended	Impairment Data			Quantitative Data	
	Total Subdivisions Tested	Inventory Impairments	Fair Value of Inventory After Impairments	Number of Subdivisions Impaired	Discount Rate
	(Dollars in thousands)				
March 31, 2018	24	\$ 550	\$ 5,223	2	12%
June 30, 2018	17	\$ 200	\$ 767	1	12%
March 31, 2017	33	\$ 4,850	\$ 19,952	2	12% to 18%

Table of Contents*Selling, General and Administrative Expenses:*

	Three Months Ended June 30,					Six Months Ended June 30,				
	2018		2017		Change	2018		2017		Change
	(Dollars in thousands)									
General and administrative expenses	\$40,372		\$32,292		\$8,080	\$76,125		\$64,661		\$11,464
<i>General and administrative expenses as a percentage of home sale revenues</i>	5.4	%	5.0	%	40 bps	5.6	%	5.3	%	30 bps
Marketing expenses	\$17,215		\$16,976		\$239	\$32,786		\$32,100		\$686
<i>Marketing expenses as a percentage of home sale revenues</i>	2.3	%	2.6	%	(30) bps	2.4	%	2.7	%	(30) bps
Commissions expenses	\$23,984		\$21,441		\$2,543	\$44,001		\$40,246		\$3,755
<i>Commissions expenses as a percentage of home sale revenues</i>	3.2	%	3.3	%	(10) bps	3.2	%	3.3	%	(10) bps
Total selling, general and administrative expenses	\$81,571		\$70,709		\$10,862	\$152,912		\$137,007		\$15,905
<i>Total selling, general and administrative expenses as a percentage of home sale revenues</i>	10.9	%	10.9	%	0 bps	11.3	%	11.3	%	0 bps

For the three and six months ended June 30, 2018, the increases in our general and administrative expenses were primarily due to increased compensation-related expenses driven by higher average headcount as well as \$3.6 million in additional stock-based compensation expense associated with performance-based stock awards that were granted in 2016. Excluding this stock-based compensation expense, our general and administrative expenses as a percentage of home sale revenues would have been consistent year-over-year for both the three and six months ended June 30, 2018.

Our commissions expenses are variable with home sale revenues. As such, the year-over-year increases in home sale revenues drove the changes in commissions expenses year-over-year for both periods presented. Our marketing expenses remained reasonably consistent year-over-year, driving a 30 basis point reduction in our selling, general and administrative expenses as a percentage of home sale revenues for both the three and six months ended June 30, 2018.

Total	164	153	7	%	156	158	(1	)%	154	158	(3	)%

For both the three and six months ended June 30, 2018, we realized notable year-over-year increases in the dollar value of net new orders, predominantly supported by an improved year-over-year monthly sales absorption pace. Additionally, while our average active subdivisions were down slightly year-over-year for both periods presented, we did realize our first year-over-year increase in quarter-end active subdivision count since the 2016 third quarter.

West Segment Commentary

For both the three and six months ended June 30, 2018, the year-over-year increases in the dollar value of net new orders was primarily driven by significant improvements in our monthly sales absorption rate in both periods as this segment has seen especially strong demand dynamics. We experienced year-over-year active community count growth in all of our markets in this segment, with the exception of Nevada, where we have experienced the closeout of communities earlier than anticipated due to stronger than anticipated sales.

Table of Contents

Mountain Segment Commentary

For the three months ended June 30, 2018, the dollar value of net new orders increased 2%, driven by a 6% increase in the average sales price of those homes as a result of price increases we have implemented over the past twelve months in the majority of communities in this segment. The impact from the higher average selling price was slightly offset by a reduction in our number of net new orders as a 16% decrease in our monthly absorption pace was partially offset by a 14% increase in our average active communities. Colorado was the main driver of the decline in our sales pace as a result of (1) an increased cancellation rate (see further discussion below) and (2) a lower pace of gross sales (before cancellations) as we notably increased prices in prior quarters in response to market demand, which allowed us to offset cost increases and improve gross margins.

For the six months ended June 30, 2018, the dollar value of net new orders was up 16% from the same period in the prior year due to a 9% increase in our number of net new orders and a 7% improvement in our average selling price. Our higher number of net new orders was primarily the result of a 16% increase in average active community count as a result of growth in Colorado, where we have had a significant amount of land acquisition activity over the last two years. Commentary on our increase in average selling price of net new orders and the decline in monthly sales absorption pace is consistent with the 2018 second quarter discussion above.

East Segment Commentary

For both the three and six months ended June 30, 2018, our dollar value of net new orders were down 22% and 24%, respectively, from the same periods in 2017 as double-digit percentage declines in both our average selling price of net new orders and our average active community count were only slightly offset by strong improvements in our monthly sales absorption rate. The improved sales pace we realized during both periods was primarily due to an increased offering of more affordable products in our Florida markets, which have realized a higher selling pace, and strong order activity in the limited number of new communities we have opened in our mid-Atlantic market. In addition, our 2018 second quarter monthly sales absorption rate slightly benefited from a year-over-year increase in the number of net new orders coming from close-out communities. Our average active community count was down for both periods mostly due to decreased land acquisition activity in the mid-Atlantic region over the past two years as we have invested less because our returns in this market had been lower than expected. However, as noted above, we have recently experienced improving returns in the mid-Atlantic region resulting in reinvestment in this market. The decrease in the average selling price of net new orders is due to mix as a result of (1) a higher percentage of our net new orders coming from our Florida markets, which have a lower average selling price than our mid-Atlantic operations, and (2) a higher percentage of our net new orders coming from an expanded offering of more affordable home plans, due to an increasing level of demand for these plans.

Cancellation Rate:

Cancellations as a
Percentage of

Homes in Beginning
Backlog
Three
Months

Change in

Ended June
30,

	2018	2017	Percentage		
West	10%	10	%	0	%
Mountain	12%	9	%	3	%
East	17%	13	%	4	%
Total	12%	10	%	2	%

Our cancellations as a percentage of homes in beginning backlog to start the quarter (“cancellation rate”) increased from 10% in the 2017 second quarter to 12% in the 2018 second quarter. While our West segment experienced consistent cancellation rates, our East and Mountain segments had a 400 and 300 basis point increase in cancellation rates from the 2017 second quarter to the 2018 second quarter, respectively. This was primarily due to cancellations coming from our Florida and Colorado operations, where our mix has shifted to include more first-time homebuyers, who have a higher likelihood of cancellation.

Table of Contents*Backlog:*

	June 30, 2018			2017			% Change					
	Homes	Dollar Value	Average Price	Homes	Dollar Value	Average Price	Homes	Dollar Value	Average Price	Homes	Dollar Value	Average Price
	(Dollars in thousands)											
West	2,054	\$1,011,780	\$492.6	1,665	\$802,313	\$481.9	23 %	26 %	2 %			%
Mountain	1,490	766,539	514.5	1,319	634,181	480.8	13 %	21 %	7 %			%
East	454	170,364	375.3	526	241,341	458.8	(14)%	(29)%	(18)%			%
Total	3,998	\$1,948,683	\$487.4	3,510	\$1,677,835	\$478.0	14 %	16 %	2 %			%

At June 30, 2018, we had 3,998 homes in backlog with a total value of \$1.95 billion, representing respective increases of 14% and 16% from June 30, 2017. The majority of our markets experienced year-over-year growth in both the number of homes in backlog and the dollar value of backlog primarily as a result of year-over-year increases in net new orders and price increases over the last twelve months. The dollar value of homes in backlog in our East segment was down from the end of the 2017 second quarter as a result of reduced sales activity over the last twelve months due primarily to lower community count and a decrease in the average selling price of net new orders. As discussed above, the decrease in the average selling price of net new orders is due to mix as a result of (1) a higher percentage of our net new orders coming from our Florida markets, which have a lower average selling price than our mid-Atlantic operations, and (2) a higher percentage of our net new orders coming from an expanded offering of more affordable home plans, due to an increasing level of demand for these plans.

Homes Completed or Under Construction (WIP lots):

	June 30,		% Change	
	2018	2017		
Unsold:				
Completed	86	77	12	%
Under construction	268	153	75	%
Total unsold started homes	354	230	54	%
Sold homes under construction or completed	2,980	2,547	17	%
Model homes under construction or completed	373	316	18	%
Total homes completed or under construction	3,707	3,093	20	%

While we continue to focus on our build-to-order model, there were certain markets in the 2018 second quarter where we intentionally started construction on unsold lots in order to promote building efficiencies or to meet various municipal requirements. Our model homes under construction or completed were up 18% despite our active community count being up only 7% year-over-year. This is primarily the result of models being constructed to open

new communities in the near future as we plan for growth in our active community count.

- 37 -

Table of Contents*Lots Owned and Optioned (including homes completed or under construction):*

	June 30, 2018			June 30, 2017			Total %	
	Lots	Lots	Total	Lots	Lots	Total		
	Owned	Optioned		Owned	Optioned		Change	
West	7,906	2,916	10,822	5,665	2,011	7,676	41	%
Mountain	5,329	4,041	9,370	4,986	2,057	7,043	33	%
East	1,509	1,925	3,434	1,353	1,022	2,375	45	%
Total	14,744	8,882	23,626	12,004	5,090	17,094	38	%

Our total owned and optioned lots at June 30, 2018 were 23,626, up 38% from June 30, 2017, due to our significant land acquisition approval activity over the past year across all markets. We believe that our total lot supply, coupled with our planned acquisition activity, can support growth in future periods. See "**Forward-Looking Statements**" below.

Financial Services

	Three Months Ended				Six Months Ended			
	June 30, 2018	June 30, 2017	Change Amount	%	June 30, 2018	June 30, 2017	Change Amount	%

Total financial services pretax income	\$14,279	\$11,731	\$2,548	22 %	\$24,350	\$22,740	\$1,610	7 %

For the three and six months ended June 30, 2018, our financial service pretax income increased \$2.5 million, or 22%, and \$1.6 million, or 7%, respectively, from the same periods in the prior year. For the three and six months ended June 30, 2018 the increase in pretax income and revenues for our mortgage operations segment was primarily driven by a \$1.4 million gain recognized on the sale of conventional mortgage servicing rights. In our other financial services segment, the year-over-year change in pretax income for the three months ended June 30, 2018 was driven by \$1.3 million of net gains on equity securities.

Table of Contents

The following table sets forth information for our mortgage operations segment relating to mortgage loans originated and capture rate. "Capture rate" is defined as the number of mortgage loans originated by our mortgage operations segment for our homebuyers as a percent of our total home closings.

Loans Sold to Third Parties:												
Loans	932		901		3	%	1,805		1,809		(0	)%
Principal	\$346,501		\$311,915		11	%	\$667,254		\$628,056		6	%

(1) The net impact from the enactment of the Act, which reduced the U.S. federal corporate income tax rate from 35% to 21% but also reduced the deductibility of certain executive based compensation and eliminated the domestic manufacturing deduction.

(2) Our estimated effective tax rate for the 2017 full year as of June 30, 2017 included no estimate for energy tax credits as the tax provision had expired and had not been extended for 2017. However, in February 2018, the Bipartisan Budget Act of 2018 was signed into law, retroactively extending energy tax credits for 2017. As a result, for the three and six months ended June 30, 2018, we recorded discrete tax adjustments for energy tax credits of \$6.8 million and \$8.0 million, respectively. The majority of these tax credits relate to certificates associated with 2017 closings that have been received throughout the first six months of 2018. The remaining credits are related to certificates received from closings in other open tax years prior to 2017. As of June 30, 2018, energy tax credits for 2018 were not approved and as a result, no such estimate has been included in our estimated effective tax rate for 2018.

(3) In the 2017 first quarter, we established a discrete valuation allowance against certain state net operating loss carryforwards. No such valuation allowances were established during the six months ended June 30, 2018.

Table of Contents

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

The preparation of financial statements in conformity with accounting policies generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Management evaluates such estimates and judgments on an on-going basis and makes adjustments as deemed necessary. Actual results could differ from these estimates if conditions are significantly different in the future. See **"Forward-Looking Statements"** below.

With the exception of the items outlined below that were impacted by the adoption of ASU 2014-09, *Revenue from Contracts with Customers* on January 1, 2018, our critical accounting estimates and policies have not changed from those reported in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2017.

Revenue Recognition for Homebuilding Segments. We recognize home sale revenues from home deliveries when we have satisfied the performance obligations within the sales agreement, which is generally when title to and possession of the home are transferred to the buyer at the home closing date. Revenue from a home delivery includes the base sales price and any purchased options and upgrades and is reduced for any sales price incentives.

We generally do not record the sale of a home or recognize the associated revenue if all of the following criteria are present: (1) HomeAmerican originates the mortgage loan and has not sold the mortgage loan, or loans, as of the end of the pertinent reporting period; and (2) the homebuyer does not meet certain collectability thresholds, based on the type of mortgage loan, related to their credit score, debt to income ratio and loan to value ratio. The deferral is subsequently recognized at the time HomeAmerican sells the respective loan to a third-party purchaser. In the event the gross margin is a loss, we recognize such loss at the time the home is closed.

In certain states that we build, we are not always able to complete certain outdoor features (such as landscaping or pools) prior to closing the home. To the extent these separate deliverables are not complete upon the closing of a home, we will defer home sale revenues related to incomplete outdoor features, and recognize revenue upon completion of the outdoor features.

LIQUIDITY AND CAPITAL RESOURCES

We use our liquidity and capital resources to: (1) support our operations, including the purchase of land, land development and construction of homes; (2) provide working capital; and (3) provide mortgage loans for our homebuyers. Our liquidity includes our cash and cash equivalents, marketable securities, Revolving Credit Facility and Mortgage Repurchase Facility (defined below). Additionally, we have an existing effective shelf registration statement that allows us to issue equity, debt or hybrid securities up to \$1.35 billion.

We have marketable equity securities that consist primarily of holdings in corporate equities.

Capital Resources

Our capital structure is primarily a combination of (1) permanent financing, represented by stockholders' equity; (2) long-term financing, represented by our 5 % senior notes due 2020, 5½% senior notes due 2024 and our 6% senior notes due 2043; (3) our Revolving Credit Facility and (4) our Mortgage Repurchase Facility (defined below). Because of our current balance of cash, cash equivalents, marketable securities, ability to access the capital markets, and available capacity under both our Revolving Credit Facility and Mortgage Repurchase Facility, we believe that our capital resources are adequate to satisfy our short and long-term capital requirements, including meeting future payments on our senior notes as they become due. See "**Forward-Looking Statements**" below.

We may from time to time seek to retire or purchase our outstanding senior notes through cash purchases, whether through open market purchases, privately negotiated transactions or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Table of Contents

Senior Notes, Revolving Credit Facility and Mortgage Repurchase Facility

Senior Notes. Our senior notes are not secured and, while the senior note indentures contain some restrictions on secured debt and other transactions, they do not contain financial covenants. Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by most of our homebuilding segment subsidiaries. We believe that we are in compliance with the representations, warranties and covenants in the senior note indentures.

Revolving Credit Facility. We have an unsecured revolving credit agreement (“Revolving Credit Facility”) with a group of lenders which may be used for general corporate purposes. This agreement was amended on September 29, 2017 to (1) extend the Revolving Credit Facility maturity to December 16, 2022, (2) increase the aggregate commitment from \$550 million to \$700 million (the “Commitment”) and (3) provide that the aggregate amount of the commitments may increase to an amount not to exceed \$1.25 billion upon our request, subject to receipt of additional commitments from existing or additional lenders and, in the case of additional lenders, the consent of the co-administrative agents. As defined in the Revolving Credit Facility, interest rates on base rate borrowings are equal to the highest of (1) 0.0%, (2) a prime rate, (3) a federal funds effective rate plus 1.50%, and (4) a specified eurocurrency rate plus 1.00% and, in each case, plus a margin that is determined based on our credit ratings and leverage ratio. Interest rates on eurocurrency borrowings are equal to a specified eurocurrency rate plus a margin that is determined based on our credit ratings and leverage ratio. At any time at which our leverage ratio, as of the last day of the most recent calendar quarter, exceeds 55%, the aggregate principal amount of all consolidated senior debt borrowings outstanding may not exceed the borrowing base. There is no borrowing base requirement if our leverage ratio, as of the last day of the most recent calendar quarter, is 55% or less.

The Revolving Credit Facility is fully and unconditionally guaranteed, jointly and severally, by most of our homebuilding segment subsidiaries. The facility contains various representations, warranties and covenants that we believe are customary for agreements of this type. The financial covenants include a consolidated tangible net worth test and a leverage test, along with a consolidated tangible net worth covenant, all as defined in the Revolving Credit Facility. A failure to satisfy the foregoing tests does not constitute an event of default, but can trigger a “term-out” of the facility. A breach of the consolidated tangible net worth covenant (but not the consolidated tangible net worth test) or a violation of anti-corruption or sanctions laws would result in an event of default.

The Revolving Credit Facility is subject to acceleration upon certain specified events of default, including breach of the consolidated tangible net worth covenant, a violation of anti-corruption or sanctions laws, failure to make timely payments, breaches of certain representations or covenants, failure to pay other material indebtedness, or another person becoming beneficial owner of 50% or more of our outstanding common stock. We believe we were in compliance with the representations, warranties and covenants included in the Revolving Credit Facility as of June 30, 2018.

We incur costs associated with unused commitment fees pursuant to the terms of the Revolving Credit Facility. At June 30, 2018 and December 31, 2017, there were \$32.7 million and \$32.0 million, respectively, in letters of credit outstanding, which reduced the amounts available to be borrowed under the Revolving Credit Facility. We had \$15.0 million outstanding under the Revolving Credit Facility as of June 30, 2018 and December 31, 2017. As of June 30, 2018, availability under the Revolving Credit Facility was approximately \$652.3 million.

Mortgage Repurchase Facility. HomeAmerican has a Master Repurchase Agreement (the “Mortgage Repurchase Facility”) with U.S. Bank National Association (“USBNA”). Effective August 10, 2017, the Mortgage Repurchase Facility was amended to extend its termination date to August 9, 2018. The Mortgage Repurchase Facility provides liquidity to HomeAmerican by providing for the sale of up to an aggregate of \$75 million (subject to increase by up to \$75 million under certain conditions) of eligible mortgage loans to USBNA with an agreement by HomeAmerican to repurchase the mortgage loans at a future date. Until such mortgage loans are transferred back to HomeAmerican, the documents relating to such loans are held by USBNA, as custodian, pursuant to the Custody Agreement (“Custody Agreement”), dated as of November 12, 2008, by and between HomeAmerican and USBNA. In the event that an eligible mortgage loan becomes ineligible, as defined under the Mortgage Repurchase Facility, HomeAmerican may be required to repurchase the ineligible mortgage loan immediately. The maximum aggregate commitment of the Mortgage Repurchase Facility was temporarily increased on June 27, 2018 from \$75 million to \$100 million and was effective through July 26, 2018. The Mortgage Repurchase Facility also had a temporary increase in the maximum aggregate commitment from \$75 million to \$115 million on December 27, 2017 and was effective through January 25, 2018. At June 30, 2018 and December 31, 2017, HomeAmerican had \$80.8 million and \$112.3 million, respectively, of mortgage loans that HomeAmerican was obligated to repurchase under the Mortgage Repurchase Facility. Mortgage loans that HomeAmerican is obligated to repurchase under the Mortgage Repurchase Facility are accounted for as a debt financing arrangement and are reported as mortgage repurchase facility in the consolidated balance sheets. Advances under the Mortgage Repurchase Facility carry a price range that is LIBOR-based.

Table of Contents

The Mortgage Repurchase Facility contains various representations, warranties and affirmative and negative covenants that we believe are customary for agreements of this type. The negative covenants include, among others, (i) a minimum Adjusted Tangible Net Worth requirement, (ii) a maximum Adjusted Tangible Net Worth ratio, (iii) a minimum adjusted net income requirement, and (iv) a minimum Liquidity requirement. The foregoing capitalized terms are defined in the Mortgage Repurchase Facility. We believe HomeAmerican was in compliance with the representations, warranties and covenants included in the Mortgage Repurchase Facility as of June 30, 2018.

Dividends

During the three and six months ended June 30, 2018, we paid dividends of \$0.30 per share and \$0.60 per share, respectively, compared to \$0.23 per share and \$0.46 per share for the same periods in the prior year, respectively.

MDC Common Stock Repurchase Program

At June 30, 2018, we were authorized to repurchase up to 4,000,000 shares of our common stock. We did not repurchase any shares of our common stock during the three and six months ended June 30, 2018.

Consolidated Cash Flow

During the six months ended June 30, 2018, we used \$56.2 million of cash for operating activities, primarily due to a \$133.6 million net increase in housing inventory and an \$84.5 million net increase in land and land under development. This was partially offset by net income of \$102.7 million, non-cash add-backs to net income related to depreciation and stock-based compensation expense of \$10.0 million and \$6.1 million, respectively, and cash provided by a decrease in mortgage loans held-for-sale of \$30.9 million and an increase in accounts payable and accrued liabilities of \$15.8 million.

During the six months ended June 30, 2018, we generated \$34.8 million of cash from investing activities, primarily attributable to the maturity of \$50 million in debt securities, which was partially offset by the purchase of \$13.1 million in property and equipment.

During the six months ended June 30, 2018, we used \$59.5 million of cash for financing activities, primarily related to net payments of \$31.5 million on our mortgage repurchase facility and dividend payments totaling \$33.8 million. These amounts were slightly offset by proceeds of \$5.8 million from the exercise of stock options.

Off-Balance Sheet Arrangements

Lot Option Purchase Contracts. In the ordinary course of business, we enter into lot option purchase contracts in order to procure lots for the construction of homes. Lot option contracts enable us to control lot positions with a minimal capital investment, which substantially reduces the risks associated with land ownership and development. At June 30, 2018, we had deposits of \$28.7 million in the form of cash and \$7.7 million in the form of letters of credit that secured option contracts to purchase 8,882 lots for a total estimated purchase price of \$549.5 million.

Surety Bonds and Letters of Credit. At June 30, 2018, we had outstanding surety bonds and letters of credit totaling \$205.4 million and \$72.0 million, respectively, including \$39.3 million in letters of credit issued by HomeAmerican. The estimated cost to complete obligations related to these bonds and letters of credit was approximately \$71.9 million and \$33.5 million, respectively. We expect that the obligations secured by these performance bonds and letters of credit generally will be performed in the ordinary course of business and in accordance with the applicable contractual terms. To the extent that the obligations are performed, the related performance bonds and letters of credit should be released and we should not have any continuing obligations. However, in the event any such performance bonds or letters of credit are called, our indemnity obligations could require us to reimburse the issuer of the performance bond or letter of credit.

We have made no material guarantees with respect to third-party obligations.

IMPACT OF INFLATION, CHANGING PRICES AND ECONOMIC CONDITIONS

The impact of inflation and changing prices have not changed materially from the disclosure in our December 31, 2017 Annual Report on Form 10-K.

OTHER

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q, as well as statements made by us in periodic press releases, oral statements made by our officials in the course of presentations about the Company and conference calls in connection with quarterly earnings releases, constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding our business, financial condition, results of operations, cash flows, strategies and prospects. These forward-looking statements may be identified by terminology such as “likely,” “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential” or “continue,” or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements contained in this Report are reasonable, we cannot guarantee future results. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by the forward-looking statements. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in subsequent reports on Forms 10-K, 10-Q and 8-K should be considered. Additionally, information about issues that could lead to material changes in performance and risk factors that have the potential to affect us is contained under the caption “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017 and Item 1A of Part II of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have a cash and investment policy that enables us to achieve an appropriate investment return while preserving principal and managing risk. Under this policy, our cash and cash equivalents may include U.S. government securities, commercial bank deposits, commercial paper, certificates of deposit, money market funds, and time deposits, with maturities of three months or less. Our marketable securities under this policy may include holdings in U.S. government securities with a maturity of more than three months, equity securities and corporate debt securities.

The market value and/or income derived from our equity securities may go up or down, sometimes rapidly or unpredictably. Equity securities may decline in value due to factors affecting equity securities markets generally,

particular industries represented in those markets, or the issuer itself. The values of equity securities may decline due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. The value of equity securities may also decline for a number of other reasons that directly relate to the issuer, such as management performance, financial leverage, the issuer's historical and prospective earnings, the value of its assets and reduced demand for its goods and services. Equity securities generally have greater price volatility than bonds and other debt securities.

As of June 30, 2018, our cash and cash equivalents included U.S. government securities, commercial bank deposits, money market funds and time deposits, with maturities of three months or less. As of June 30, 2018, our marketable securities included holdings in corporate equities and exchange traded funds.

We are exposed to market risks related to fluctuations in interest rates on mortgage loans held-for-sale, mortgage interest rate lock commitments and debt. Derivative instruments utilized in the normal course of business by HomeAmerican include interest rate lock commitments and forward sales of mortgage-backed securities, which are used to manage the price risk on fluctuations in interest rates on our mortgage loans in inventory and interest rate lock commitments to originate mortgage loans. Such contracts are the only significant financial derivative instruments utilized by MDC. HomeAmerican's mortgage loans in process for which a rate and price commitment had been made to a borrower that had not closed at June 30, 2018 had an aggregate principal balance of \$191.8 million, all of which were under interest rate lock commitments at an average interest rate of 4.83%. In addition, HomeAmerican had mortgage loans held-for-sale with an aggregate principal balance of \$107.2 million at June 30, 2018, of which \$10.6 million had not yet been committed to a mortgage purchaser and had an average interest rate of 4.74%. In order to hedge the changes in fair value of interest rate lock commitments and mortgage loans held-for-sale which had not yet been committed to a mortgage purchaser, HomeAmerican had forward sales of securities totaling \$110.0 million and \$73.0 million at June 30, 2018 and December 31, 2017, respectively.

Table of Contents

HomeAmerican provides mortgage loans that generally are sold forward and subsequently delivered to a third-party purchaser between 10 and 35 days. Forward commitments are used for non-trading purposes to sell mortgage loans and hedge price risk due to fluctuations in interest rates on rate-locked mortgage loans in process that have not closed. Due to this economic hedging philosophy, the market risk associated with these mortgages is limited. For forward sales commitments, as well as commitments to originate mortgage loans that are still outstanding at the end of a reporting period, we record the fair value of the derivatives in the consolidated statements of operations and comprehensive income with an offset to either derivative assets or liabilities, depending on the nature of the change.

We utilize our Revolving Credit Facility, our Mortgage Repurchase Facility and senior notes in our financing strategy. For fixed rate debt, changes in interest rates generally affect the fair value of the debt instrument, but do not affect our earnings or cash flows. We do not have an obligation to prepay our senior notes prior to maturity and, as a result, interest rate risk and changes in fair value do not have an impact on our financial position, results of operations or cash flows. For variable rate debt such as our Revolving Credit Facility and Mortgage Repurchase Facility, changes in interest rates generally do not affect the fair value of the outstanding borrowing on the debt facilities, but does affect our earnings and cash flows. See “**Forward-Looking Statements**” above.

Item 4. Controls and Procedures

(a) *Conclusion regarding the effectiveness of disclosure controls and procedures* - An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures was performed under the supervision, and with the participation, of our management, including the Chief Executive Officer (principle executive officer) and the Chief Financial Officer (principal financial officer). Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) *Changes in internal control over financial reporting* - There were no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

FORM 10-Q

PART II

Item 1. Legal Proceedings

Because of the nature of the homebuilding business, we and certain of our subsidiaries and affiliates have been named as defendants in various claims, complaints and other legal actions arising in the ordinary course of business, including product liability claims and claims associated with the sale and financing of our homes. In the opinion of management, the outcome of these ordinary course matters will not have a material adverse effect upon our financial condition, results of operations or cash flows.

Item 1A. Risk Factors

There have been no significant changes in the risk factors previously identified as being attendant to our business in our Annual Report on Form 10-K for the year ended December 31, 2017. For a more complete discussion of other risk factors that affect our business, see “Risk Factors” in our Form 10-K for the year ended December 31, 2017, which include the following:

Changes in general economic, real estate and other business conditions may have an adverse effect on the homebuilding and mortgage industries, which could have a negative impact on our business.

Increased competition levels in the homebuilding and mortgage lending industries could have a negative impact on our homebuilding and mortgage operations.

If land is not available at reasonable prices or terms, we could be required to scale back our operations in a given market and/or we may operate at lower levels of profitability.

Supply shortages and other risks related to the demand for skilled labor and building materials could increase costs and delay deliveries.

If mortgage interest rates rise, if down payment requirements are increased, if loan limits are decreased, or if mortgage financing otherwise becomes less available, it could adversely affect our business.

Changes to tax laws, incentives or credits currently available to our customers may negatively impact our business.

A decline in the market value of our homes or carrying value of our land would have a negative impact on our business.

Natural disasters could cause an increase in home construction costs, as well as delays, and could negatively impact our business.

Changes in energy prices or regulations may have an adverse effect on our cost of building homes.

We have financial needs that we meet through the capital markets, including the debt and secondary mortgage markets, and disruptions in these markets could have an adverse impact on the results of our business.

Our business is subject to numerous federal, state and local laws and regulations concerning land development, construction of homes, sales, mortgage lending, environmental and other aspects of our business. These laws and regulations could give rise to additional liabilities or expenditures, or restrictions on our business.

In the ordinary course of business, we are required to obtain surety bonds, the unavailability of which could adversely affect our business.

Decreases in the market value of our investments in marketable securities could have an adverse impact on our business.

Product liability litigation and warranty claims that arise in the ordinary course of business may be costly.

Repurchase requirements associated with HomeAmerican's sale of mortgage loans, could negatively impact our business.

Table of Contents

Because of the seasonal nature of our business, our quarterly operating results can fluctuate.

We are dependent on the services of key employees, and the loss of their services could hurt our business.

The interests of certain controlling shareholders may be adverse to other investors

Information technology failures and data security breaches could harm our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company did not repurchase any shares during the three and six months ended June 30, 2018. Additionally, there were no sales of unregistered equity securities during the period.
