Notes to the Condensed Consolidated Financial Statements (unaudited)

1. Background and Basis of Presentation

Description of Business. Discover Financial Services (“DFS” or the “Company”) is a direct banking and payment services company. The Company is a bank holding company under the Bank Holding Company Act of 1956 and therefore is subject to oversight, regulation and examination by the Board of Governors of the Federal Reserve System (the “Federal Reserve”). Through its Discover Bank subsidiary, a Delaware state-chartered bank, the Company offers its customers credit cards, student loans, personal loans and deposit products. Through its DFS Services LLC subsidiary and its subsidiaries, the Company operates the Discover Network, the PULSE Network (“PULSE”) and Diners Club International (“Diners Club”). The Discover Network is a payment card transaction processing network for Discover card-branded and third-party issued credit, debit and prepaid cards. PULSE operates an electronic funds transfer network, providing financial institutions issuing debit cards on the PULSE network with access to ATMs domestically and internationally, as well as point of sale terminals at retail locations throughout the U.S. for debit card transactions. Diners Club is a global payments network of licensees, which are generally financial institutions, that issue Diners Club branded credit cards and/or provide card acceptance services.

The Company’s business segments are Direct Banking and Payment Services. The Direct Banking segment includes Discover card-branded credit cards issued to individuals and small businesses on the Discover Network and other consumer products and services, including personal loans, student loans, prepaid cards and other consumer lending and deposit products offered through the Company’s Discover Bank subsidiary. The Payment Services segment includes PULSE, Diners Club and the Company’s third-party issuing business, which includes credit, debit and prepaid cards issued on the Discover Network by third parties.

Basis of Presentation. The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, the financial statements reflect all adjustments which are necessary for a fair presentation of the results for the quarter. All such adjustments are of a normal, recurring nature. The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and related disclosures. These estimates are based on information available as of the date of the condensed consolidated financial statements. The Company believes that the estimates used in the preparation of the condensed consolidated financial statements are reasonable. Actual results could differ from these estimates. These interim condensed consolidated financial statements should be read in conjunction with the Company’s 2010 audited consolidated financial statements filed with the Company’s annual report on Form 10-K for the fiscal year ended November 30, 2010.

Recently Issued Accounting Pronouncements

In September 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment. ASU 2011-08 is intended to simplify goodwill impairment testing by adding a qualitative review step to assess whether the required quantitative impairment analysis that exists today is necessary. Under the amended rule, a company will not be required to calculate the fair value of a business that contains recorded goodwill unless it concludes, based on the qualitative assessment, that it is more likely than not that the fair value of that business is less than its book value. If such a decline in fair value is deemed more likely than not to have occurred, then the quantitative goodwill impairment test that exists under current GAAP must be completed; otherwise, goodwill is deemed to be not impaired and no further testing is required until the next annual test date (or sooner if conditions or events before that date raise concerns of potential impairment in the business). The amended goodwill impairment guidance does not affect the manner in which a company estimates fair value. The new standard is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The

Company has \$255 million in goodwill, all of which is associated with its PULSE network. The value of that goodwill will not be affected by the adoption of this standard.

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. This ASU will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The standard does not change the items which must be reported in other comprehensive income, how such items are measured or when they must be reclassified to net income. This standard is effective for interim and annual periods beginning after December 15, 2011. Because this ASU

Table of Contents

impacts presentation only, it will have no effect on the Company's financial condition, results of operations or cash flows.

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU is intended to result in convergence between U.S. GAAP and International Financial Reporting Standards ("IFRS") requirements for measurement of and disclosures about fair value. The amendments are not expected to have a significant impact on companies applying U.S. GAAP. Key provisions of the amendment include: a prohibition on grouping financial instruments for purposes of determining fair value, except when an entity manages market and credit risks on the basis of the entity's net exposure to the group; an extension of the prohibition against the use of a blockage factor to all fair value measurements (that prohibition currently applies only to financial instruments with quoted prices in active markets); and a requirement that for recurring Level 3 fair value measurements, entities disclose quantitative information about unobservable inputs, a description of the valuation process used and qualitative details about the sensitivity of the measurements. In addition, for items not carried at fair value but for which fair value is disclosed, entities will be required to disclose the level within the fair value hierarchy that applies to the fair value measurement disclosed. This ASU is effective for interim and annual periods beginning after December 15, 2011. The adoption of this ASU is not expected to have a significant impact on the Company's fair value measurements, financial condition, results of operations or cash flows.

In April 2011, the FASB issued ASU No. 2011-03, Transfers and Servicing (Topic 860): Reconsideration of Effective Control for Repurchase Agreements. This ASU amends the sale accounting requirement concerning a transferor's ability to repurchase transferred financial assets even in the event of default by the transferee, which typically is facilitated in a repurchase agreement by the presence of a collateral maintenance provision. Specifically, the level of cash collateral received by a transferor will no longer be relevant in determining whether a repurchase agreement constitutes a sale. As a result of this amendment, more repurchase agreements will be treated as secured financings rather than sales. This ASU is effective prospectively for new transfers and existing transactions that are modified in the first interim or annual period beginning on or after December 15, 2011. Because essentially all repurchase agreements entered into by the Company have historically been deemed to constitute secured financing transactions, this amendment is expected to have no impact on the Company's characterization of such transactions and therefore is not expected to have any impact on the Company's financial condition, results of operations or cash flows.

In April 2011, the FASB issued ASU No. 2011-02, Receivables (Topic 310): A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring. This ASU is intended to clarify the FASB's views on the conditions under which a loan modification should be deemed to be a troubled debt restructuring and could result in the determination that more loan modifications meet that definition. Loans which constitute troubled debt restructurings are considered impaired when calculating the allowance for loan losses and are subject to additional disclosures pursuant to ASU No. 2010-20, Receivables (Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses, which becomes effective concurrent with ASU No. 2011-02. The amendment is effective for the first interim or annual period beginning after June 15, 2011 and must be applied retrospectively to loan modifications occurring on or after the beginning of the fiscal year of adoption. The Company has reviewed the loan modifications it makes in light of this guidance, and has determined that this amendment is not expected to result in any change to the characterization of the Company's current loan modification programs. The amendment is therefore not expected to impact the Company's financial condition, results of operations or cash flows.

2. Business Combinations

Acquisition of The Student Loan Corporation. On December 31, 2010, the Company acquired The Student Loan Corporation ("SLC"), which is now a wholly-owned subsidiary of Discover Bank and included in the Company's Direct Banking segment. The Company acquired SLC's ongoing private student loan business, which includes certain private student loans held in three securitization trusts and other assets, and assumed SLC's asset-backed securitization debt

incurred by those trusts and other liabilities. The acquired loans are considered to be purchased credit-impaired loans for accounting purposes, the details of which are discussed further in Note 4: Loan Receivables. The acquisition significantly increased the size of the Company's private student loan portfolio. In addition, the acquisition has provided the Company with a developed student loan business platform, additional school relationships and SLC's website. Since the acquisition date, the results of operations and cash flows of SLC have been included in the Company's condensed consolidated results of operations and cash flows. Pro forma data is not provided as the impact of the SLC acquisition was not significant to the Company's condensed consolidated results of operations or cash flows.

Table of Contents

Net cash consideration paid. The following table provides a calculation of the amount paid by the Company for SLC based on the net assets of the SLC securitization trusts acquired after applying an 8.5% discount to the trust assets (the “Trust Certificate Purchase Price”) (dollars in millions):

	Actual	Estimate at Closing December 31, 2010
Gross trust assets	\$3,977	\$3,993
Less: 8.5% discount	(338)	(339)
Net trust assets	3,639	3,654
Less: Principal amount of and accrued interest on trust debt	(3,193)	(3,215)
Trust Certificate Purchase Price	\$446	\$439

Although the Company paid SLC shareholders \$600 million for the acquisition of SLC (“Aggregate Merger Consideration”), the Company received a purchase price adjustment from Citibank, N.A. (“Citibank”) equivalent to the amount by which the Aggregate Merger Consideration exceeded the value of the Trust Certificate Purchase Price. In addition, Citibank agreed to adjust the cash consideration paid by the Company to compensate it for (i) agreeing to commute certain insurance policies covering certain of the loans acquired and (ii) for the value of non-trust related liabilities assumed by the Company. The following table provides a summary of total consideration paid by Discover at the closing of the acquisition on December 31, 2010 and a summary of the consideration revised for post-closing adjustments (dollars in millions):

	Actual	Estimate at Closing December 31, 2010
Aggregate Merger Consideration	\$600	\$600
Less: Purchase price adjustment ⁽¹⁾	(154)	(161)
Trust Certificate Purchase Price	446	439
Less: Further adjustments provided for by Citibank		
Cash received for consent to insurance commutation	(16)	(16)
Cash received related to reimbursable liabilities ⁽¹⁾	(29)	(57)
Net cash consideration paid ⁽¹⁾	\$401	\$366

Based on the final SLC closing balance sheet, the Company accrued a \$35 million liability, at the end of the first quarter of fiscal 2011, payable to Citibank for post-closing adjustments arising from a \$7 million increase in the (1) Trust Certificate Purchase Price and a \$28 million reduction in reimbursable liabilities, which together resulted in the difference between the actual and estimated numbers shown. The accrued amount was paid to Citibank during the second quarter of 2011.

Net assets acquired. The Company acquired net assets (including \$155 million of cash) with an aggregate fair value of \$572 million in exchange for cash consideration of \$556 million, resulting in the recognition of a bargain purchase gain of approximately \$16 million. The bargain purchase gain primarily resulted from Citibank’s adjustment of the cash consideration to be paid by the Company in exchange for the Company’s consent to permit SLC to commute, immediately prior to the acquisition, certain student loan insurance policies covering loans in one of the three trusts. The bargain purchase gain is recorded in other income on the Company’s condensed consolidated statement of income. Adjustments to these amounts may occur during 2011, as the Company completes its final valuation analysis of assets acquired and liabilities assumed.

Table of Contents

The following table summarizes the fair values of the assets acquired and liabilities assumed at the date of the SLC acquisition (dollars in thousands):

	At December 31, 2010
Student loan receivables	\$ 3,050,784
Cash	155,347
Indemnification asset	101,127
Student relationships intangible	2,400
Trade name intangible	3,800
Total intangible assets	6,200
Other assets	218,514
Total assets acquired	3,531,972
Securitized debt	2,921,372
Other liabilities	38,178
Total liabilities assumed	2,959,550
Net assets acquired	\$ 572,422

The Company acquired \$6.2 million in identifiable intangible assets. These intangible assets consist of student relationships and trade name intangibles. Acquired student relationships consist of those relationships in existence between SLC and the numerous students that carry student loan balances. This intangible asset is deemed to have a finite useful life of five years and will be amortized over this period. Trade name intangibles relate to trademarks, trade names and internet domains and content. This intangible asset is deemed to have an indefinite useful life and therefore is not subject to amortization.

The Company also recorded a \$101 million indemnification asset at the acquisition date. This asset reflects the discounted present value of payments expected to be received under Citibank's indemnification of student loan credit losses that would have been recoverable under certain student loan insurance policies which, as noted above, were commuted pursuant to an agreement entered into by SLC with the Company's consent immediately prior to the acquisition. The indemnification pertains only to loans in one of the three SLC securitization trusts that the Company acquired, namely the SLC Private Student Loan Trust 2010-A ("SLC 2010-A"). The SLC 2010-A trust included loans with an aggregate outstanding principal balance of \$1.2 billion at the time of acquisition; outstanding loans in that trust totaled \$1.1 billion as of August 31, 2011. The initial value of the indemnification asset is based on the insured portion of expected credit losses reflected in the initial carrying value of the related loans. Under the terms of the indemnification agreement with Citibank, indemnification payments related to student loan credit losses are subject to an overall cap of \$166.8 million, consistent with the terms of the insurance policies which the indemnification serves to replace.

The subsequent accounting for the indemnification asset will generally reflect the manner in which the indemnified loans are subsequently measured. The value of the indemnification asset will increase or decrease as expected credit losses on the purchased credit-impaired ("PCI") student loans increase or decrease, respectively. An increase in expected losses on PCI student loans that results in the immediate recognition of an allowance for loan losses will result in an immediate increase in the indemnification asset. A decrease in expected losses that results in an immediate reversal of a previously recognized loan loss allowance will result in the immediate reduction of the indemnification asset.

Recognition of an allowance for loan losses on PCI student loans is discussed in more detail within Note 4: Loan Receivables under "Purchased Credit-Impaired Loans." To the extent that a decrease in expected losses results in a prospective increase in the accretable yield on PCI student loans rather than an immediate reduction of the loan loss allowance, the value of the indemnification asset will be adjusted prospectively through a reduction in the rate of amortization. Amortization and valuation adjustments to the indemnification asset are recorded through other income on the condensed consolidated statement of income.

Table of Contents

3. Investment Securities

The Company's investment securities consist of the following (dollars in thousands):

	August 31, 2011	November 30, 2010
U.S. Treasury securities	\$2,371,805	\$1,575,403
U.S. government agency securities	2,669,180	1,888,701
States and political subdivisions of states	39,670	51,774
Other securities:		
Credit card asset-backed securities of other issuers	356,940	1,031,112
Corporate debt securities ⁽¹⁾	501,705	507,896
Residential mortgage-backed securities	7,344	9,800
Other debt and equity securities	5,524	10,709
Total other securities	871,513	1,559,517
Total investment securities	\$5,952,168	\$5,075,395

(1) Amount represents corporate debt obligations issued under the Temporary Liquidity Guarantee Program (TLGP) that are guaranteed by the Federal Deposit Insurance Corporation (FDIC).

Table of Contents

The amortized cost, gross unrealized gains and losses, and fair value of available-for-sale and held-to-maturity investment securities are as follows (dollars in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
At August 31, 2011				
Available-for-Sale Investment Securities ⁽¹⁾				
U.S Treasury securities	\$2,322,042	\$49,213	\$—	\$2,371,255
U.S government agency securities	2,627,392	41,788	—	\$2,669,180
Credit card asset-backed securities of other issuers	348,606	8,335	(1) \$356,940
Corporate debt securities	500,716	989	—	\$501,705
Total available-for-sale investment securities	\$5,798,756	\$100,325	\$(1) \$5,899,080
Held-to-Maturity Investment Securities ⁽²⁾				
U.S. Treasury securities ⁽³⁾	\$550	\$—	\$—	\$550
States and political subdivisions of states	39,670	219	(2,923) 36,966
Residential mortgage-backed securities	7,344	805	—	8,149
Other debt securities ⁽⁴⁾	5,524	—	—	5,524
Total held-to-maturity investment securities	\$53,088	\$1,024	\$(2,923) \$51,189
At November 30, 2010				
Available-for-Sale Investment Securities ⁽¹⁾				
U.S Treasury securities	\$1,576,094	\$344	\$(1,585) \$1,574,853
U.S government agency securities	1,888,909	1,090	(1,298) 1,888,701
Credit card asset-backed securities of other issuers	1,017,183	13,983	(54) 1,031,112
Corporate debt securities	507,757	241	(102) 507,896
Equity securities	15	2	—	17
Total available-for-sale investment securities	\$4,989,958	\$15,660	\$(3,039) \$5,002,579
Held-to-Maturity Investment Securities ⁽²⁾				
U.S. Treasury securities ⁽³⁾	\$550	\$—	\$—	\$550
States and political subdivisions of states	51,774	281	(3,771) 48,284
Residential mortgage-backed securities	9,800	869	—	10,669
Other debt securities ⁽⁴⁾	10,692	—	—	10,692
Total held-to-maturity investment securities	\$72,816	\$1,150	\$(3,771) \$70,195

(1) Available-for-sale investment securities are reported at fair value.

(2) Held-to-maturity investment securities are reported at amortized cost.

(3) Amount represents securities pledged as collateral to a government-related merchant for which transaction settlement occurs beyond the normal 24-hour period.

(4) Included in other debt securities at August 31, 2011 and November 30, 2010 are commercial advances of \$2.8 million and \$7.9 million respectively related to the Company's Community Reinvestment Act strategies.

Table of Contents

The following table provides information about investment securities with aggregate gross unrealized losses and the length of time that individual investment securities have been in a continuous unrealized loss position as of August 31, 2011 and November 30, 2010 (dollars in thousands):

	Number of Securities in a Loss Position	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
At August 31, 2011					
Available-for-Sale Investment Securities					
U.S. Treasury securities	—	\$—	\$—	\$—	\$—
U.S. government agency securities	—	—	—	\$—	\$—
Credit card asset-backed securities of other issuers	1	4,126	1	\$—	\$—
Corporate debt securities	—	—	—	\$—	\$—
Held-to-Maturity Investment Securities					
State and political subdivisions of states	4	\$6,084	\$1	\$21,538	\$2,922
At November 30, 2010					
Available-for-Sale Investment Securities					
U.S. Treasury securities	17	\$1,262,670	\$1,585	\$—	\$—
U.S. government agency securities	18	\$1,181,148	\$1,298	\$—	\$—
Credit card asset-backed securities of other issuers	23	\$238,646	\$54	\$—	\$—
Corporate debt securities	5	\$230,441	\$102	\$—	\$—
Held-to-Maturity Investment Securities					
State and political subdivisions of states	4	\$7,731	\$239	\$27,603	\$3,532

During the three and nine months ended August 31, 2011, the Company received \$170.5 million and \$803.9 million, respectively, of proceeds related to maturities or redemptions of investment securities, as compared to \$159.7 million and \$560.3 million for the three and nine months ended August 31, 2010, respectively. For the three and nine months ended August 31, 2011, approximately \$165.0 million and \$786.5 million, respectively, of these proceeds related to maturities of credit card asset-backed securities of other issuers. For the three and nine months ended August 31, 2010, approximately \$75.2 million and \$469.6 million, respectively, of these proceeds related to maturities of credit card asset-backed securities of other issuers.

The Company records unrealized gains and losses on its available-for-sale investment securities in other comprehensive income. For the three months ended August 31, 2011 and 2010, the Company recorded a net unrealized gain of \$61.0 million (\$38.2 million after tax) and a net unrealized loss of \$13.6 million (\$8.5 million after tax), respectively, in other comprehensive income. For the nine months ended August 31, 2011 and 2010, the Company recorded a net unrealized gain of \$87.7 million (\$54.9 million after tax) and a net unrealized loss of \$9.9 million (\$6.3 million after tax), respectively, in other comprehensive income. Additionally for the nine months ended August 31, 2010, the Company reversed an unrealized gain of \$7.5 million (\$4.7 million after tax) from other comprehensive income upon liquidation of the collateral supporting the Golden Key U.S. LLC investment.

At August 31, 2011 and November 30, 2010, the Company had \$2.9 million and \$3.5 million, respectively, of gross unrealized losses in a continuous loss position for more than 12 months on its held-to-maturity investment securities in states and political subdivisions of states. The Company believes the unrealized loss on these investments is the result of changes in interest rates subsequent to the Company's acquisitions of these securities and that the reduction in value

is temporary. The Company does not intend to sell these investments nor does it expect to be required to sell these investments before recovery of their amortized cost bases, but rather expects to collect all amounts due according to the contractual terms of these securities.

Table of Contents

Maturities of available-for-sale debt securities and held-to-maturity debt securities at August 31, 2011 are provided in the table below (dollars in thousands):

	One Year or Less	After One Year Through Five Years	After Five Years Through Ten Years	After Ten Years	Total
Available-for-sale—Amortized Cost ⁽¹⁾					
U.S Treasury securities	\$590,462	\$1,731,580	\$—	\$—	\$2,322,042
U.S government agency securities	921,790	1,705,602	—	—	2,627,392
Credit card asset-backed securities of other issuers	191,269	157,337	—	—	348,606
Corporate debt securities	353,224	147,492	—	—	500,716
Total available-for-sale investment securities	\$2,056,745	\$3,742,011	\$—	\$—	\$5,798,756
Held-to-maturity—Amortized Cost ⁽²⁾

Total held-to-maturity investment securities	\$825	\$4,766	\$3,702	\$41,896	\$51,189

(1) Available-for-sale investment securities are reported at fair value.

(2) Held-to-maturity investment securities are reported at amortized cost.

Table of Contents

4. Loan Receivables

The Company has three portfolio segments: credit card loans, other consumer loans and purchased credit-impaired (“PCI”) student loans acquired in the SLC transaction (See Note 2: Business Combinations). Within these portfolio segments, the Company has classes of receivables which are depicted in the table below (dollars in thousands):

	August 31, 2011	November 30, 2010
Loans held for sale ⁽¹⁾	\$738,382	\$788,101
Loan portfolio:		
Credit card loans:		
Discover card ⁽²⁾	45,949,224	44,904,267
Discover business card	228,449	252,727
Total credit card loans	46,177,673	45,156,994
Other consumer loans:		
Personal loans	2,439,330	1,877,633
Private student loans	1,828,493	999,322
Other	11,790	14,363
Total other consumer loans	4,279,613	2,891,318
PCI student loans ⁽³⁾	2,886,783	—
Total loan portfolio	53,344,069	48,048,312
Total loan receivables	54,082,451	48,836,413
Allowance for loan losses	(2,273,058)	(3,304,118)
Net loan receivables	\$51,809,393	\$45,532,295

- (1) Amount represents federal student loans. At August 31, 2011 and November 30, 2010, \$463.9 million and \$500.2 million of federal student loan receivables, respectively, were pledged as collateral against a long-term borrowing. Amounts include \$16.9 billion and \$19.5 billion of underlying investors’ interest in trust debt at August 31, 2011 and November 30, 2010, respectively, and \$17.0 billion and \$14.9 billion in seller’s interest at August 31, 2011 and November 30, 2010, respectively. See Note 5: Credit Card and Student Loan Securitization Activities for further information.

- (2) Amount includes \$2.9 billion of loans pledged as collateral against the notes issued from the SLC securitization trusts. See Note 5: Credit Card and Student Loan Securitization Activities. The remaining \$9.9 million not pledged as collateral represents loans eligible for reimbursement through an indemnification claim. Discover Bank must purchase such loans from the trust before a claim may be filed.

(3) Credit Quality Indicators. The Company regularly reviews its collection experience (including delinquencies and net charge-offs) in determining its allowance for loan losses. Credit card and closed-end consumer loan receivables are placed on nonaccrual status upon receipt of notification of the bankruptcy or death of a customer or suspected fraudulent activity on an account. In some cases of suspected fraudulent activity, loan receivables may resume accruing interest upon completion of the fraud investigation.

Table of Contents

Information related to the delinquencies and net charge-offs in the Company's loan portfolio, which excludes loans held for sale, is shown below by each class of loan receivables except for PCI student loans, which is shown under the heading "Purchased Credit-Impaired Loans" (dollars in thousands):

Delinquent and Non-Accruing Loans:

	30-89 Days Delinquent	90 or More Days Delinquent	Total Past Due	90 or More Days Delinquent and Accruing	Total Non-accruing ⁽²⁾
At August 31, 2011					
Credit card loans:					
Discover card ⁽¹⁾	\$553,174	\$561,127	\$1,114,301	\$498,752	\$ 208,404
Discover business card	2,885	3,929	6,814	3,655	889
Total credit card loans	556,059	565,056	1,121,115	502,407	209,293
Other consumer loans:					
Personal loans	14,170	6,446	20,616	5,814	3,527
Private student loans (excluding PCI)	12,415	2,150	14,565	2,150	—
Other ⁽³⁾	438	2,199	2,637	—	2,426
Total other consumer loans (excluding PCI)	27,023	10,795	37,818	7,964	5,953
Total loan receivables (excluding PCI) ⁽³⁾	\$583,082	\$575,851	\$1,158,933	\$510,371	\$ 215,246
At November 30, 2010					
Total loan receivables ⁽¹⁾	\$908,306	\$993,618	\$1,901,924	\$853,757	\$ 325,900

Consumer credit card loans that are 90 or more days delinquent and accruing interest include \$36.4 million and \$35 (1) million of loans accounted for as troubled debt restructurings at August 31, 2011 and November 30, 2010, respectively.

The Company estimates that the gross interest income that would have been recorded in accordance with the original terms of these loans was \$10.6 million and \$35.6 million for the three months and nine months ended August 31, 2011, respectively. The Company does not separately track the amount of gross interest income that would have been recorded in accordance with the original terms of loans. These amounts were estimated based on customers' current balances and most recent rates.

(3) Amount also excludes federal student loans that are held for sale.

Net Charge-Offs:	For the Three Months Ended August 31, 2011		For the Nine Months Ended August 31, 2011	
	Net Charge-offs	Net Charge-off Rate	Net Charge-offs	Net Charge-off Rate

Table of Contents

As part of credit risk management activities, on an ongoing basis the Company reviews information related to the performance of a customer's account with the Company as well as information from credit bureaus, such as a FICO score, relating to the customer's broader credit performance. FICO scores are generally obtained at origination of the account and monthly or quarterly thereafter. The following table provides the most recent FICO scores available for the Company's customers as of August 31, 2011, as a percentage of each class of loan receivables:

	Credit Risk Profile by FICO Score	
	660 and Above	Less than 660 or No Score
Discover card	79%	21%
Discover business card	87%	13%
Private student loans (excluding PCI)	95%	5%
Personal loans	95%	5%

Allowance for Loan Losses. The Company maintains an allowance for loan losses at an appropriate level to absorb probable losses inherent in the loan portfolio. The Company considers the collectibility of all amounts contractually due on its loan receivables, including those components representing interest and fees. Accordingly, the allowance for loan losses represents the estimated uncollectible principal, interest and fee components of loan receivables. The allowance is evaluated monthly and is maintained through an adjustment to the provision for loan losses. Charge-offs of principal amounts of loans outstanding are deducted from the allowance and subsequent recoveries of such amounts increase the allowance. Charge-offs of loan balances representing unpaid interest and fees result in a reversal of interest and fee income, respectively, which is effectively a reclassification of provision for loan loss.

For its credit card loan receivables, the Company bases its allowance for loan losses on several analyses that help estimate incurred losses as of the balance sheet date. While the Company's estimation process includes historical data and analysis, there is a significant amount of judgment applied in selecting inputs and analyzing the results produced by the models to determine the allowance. The Company uses a migration analysis to estimate the likelihood that a loan will progress through the various stages of delinquency. The loan balances used in the migration analysis represent all amounts contractually due and, as a result, the migration analysis captures principal, interest and fee components in estimating uncollectible accounts. The Company uses other analyses to estimate losses incurred on non-delinquent accounts. The considerations in these analyses include past performance, risk management techniques applied to various accounts, historical behavior of different account vintages, current economic conditions, recent trends in delinquencies, bankruptcy filings, account collection management, policy changes, account seasoning, loan volume and amounts, payment rates, and forecasting uncertainties. The Company does not identify individual loans for impairment, but instead estimates its allowance for credit card loan losses on a pooled basis, which includes loans that are delinquent and/or no longer accruing interest.

For its other consumer loans, the Company considers historical and forecasted estimates of incurred losses in estimating the related allowance for loan losses. The Company may also consider other factors, such as current economic conditions, recent trends in delinquencies and bankruptcy filings, account collection management, policy changes, account seasoning, loan volume and amounts, payment rates and forecasting uncertainties.

Table of Contents

The following table provides changes in the Company's allowance for loan losses for the three and nine months ended August 31, 2011 and 2010 (dollars in thousands):

	For the Three Months Ended August 31,		For the Nine Months Ended August 31,	
	2011	2010	2011	2010
Balance at beginning of period	\$2,632,320	\$3,930,624	\$3,304,118	\$1,757,899
Additions:				
Addition to allowance related to securitized receivables ⁽¹⁾	—	—	—	2,144,461
Provision for loan losses	99,514	712,565	692,763	2,824,035
Deductions:				
Charge-offs:				
Discover card	(584,534)	(982,920)	(2,085,452)	(3,203,959)
Discover business card	(4,416)	(14,502)	(17,672)	(50,190)
Total credit card loans	(588,950)	(997,422)	(2,103,124)	(3,254,149)
Personal loans	(16,458)	(23,836)	(52,438)	(70,957)
Federal student loans	—	(11)	—	(308)
Private student loans	(2,663)	(660)	(5,646)	(1,264)
Other	(411)	(139)	(1,025)	(858)
Total other consumer loans	(19,532)	(24,646)	(59,109)	(73,387)
Total charge-offs	(608,482)	(1,022,068)	(2,162,233)	(3,327,536)
Recoveries:				
Discover card	148,292	121,255	434,141	341,337
Discover business card	910	875	2,735	2,516
Total credit card loans	149,202	122,130	436,876	343,853
Personal loans	458	421	1,458	942
Private student loans	45	14	73	22
Other	1	35	3	45
Total other consumer loans	504	470	1,534	1,009
Total recoveries	149,706	122,600	438,410	344,862
Net charge-offs	(458,776)	(899,468)	(1,723,823)	(2,982,674)
Balance at end of period	\$2,273,058	\$3,743,721	\$2,273,058	\$3,743,721

⁽¹⁾ On December 1, 2009, upon adoption of FASB Statements No. 166 and 167, the Company recorded \$2.1 billion allowance for loan losses related to newly consolidated and reclassified credit card loan receivables.

Net charge-offs of principal are recorded against the allowance for loan losses, as shown in the table above.

Information regarding net charge-offs of interest and fee revenues on credit card and other consumer loans is as follows (dollars in thousands):

	For the Three Months Ended August 31,		For the Nine Months Ended August 31,	
	2011	2010	2011	2010
Interest and fees accrued subsequently charged off, net of recoveries (recorded as a reduction of interest income) ⁽¹⁾	\$128,329	\$219,422	\$480,044	\$723,909
Fees accrued subsequently charged off, net of recoveries (recorded as a reduction to other income) ⁽¹⁾	\$22,807	\$58,331	\$86,762	\$228,039

⁽¹⁾ Beginning in 2011, net charge-offs of interest and fees include amounts related to other consumer loans. Prior to 2011 such amounts were not included as they were not material.

Table of Contents

The following table provides additional detail of the Company's allowance for loan losses and recorded investment in its loan portfolio (which excludes loans held for sale) by impairment methodology (dollars in thousands):

	Credit Card	Personal Loans	Student Loans	Other Loans	Total
At August 31, 2011					
Allowance for loans evaluated for impairment as:					
Collectively evaluated for impairment ⁽¹⁾	\$1,963,962	\$75,562	\$43,406	\$220	\$2,083,150
Troubled debt restructurings ⁽²⁾	189,908	—	—	—	189,908
Purchased credit-impaired ⁽³⁾	—	—	—	—	—
Total allowance for loan losses	\$2,153,870	\$75,562	\$43,406	\$220	\$2,273,058
Recorded investment in loans evaluated for impairment as:					
Collectively evaluated for impairment ⁽¹⁾	\$44,972,100	\$2,439,330	\$1,828,493	\$11,790	\$49,251,713
Troubled debt restructurings ⁽²⁾	1,205,573	—	—	—	1,205,573
Purchased credit-impaired ⁽³⁾	—	—	2,886,783	—	2,886,783
Total recorded investment	\$46,177,673	\$2,439,330	\$4,715,276	\$11,790	\$53,344,069
At November 30, 2010					
Allowance for loans evaluated for impairment as:					
Collectively evaluated for impairment ⁽¹⁾	\$3,095,046	\$76,087	\$18,569	\$574	\$3,190,276
Troubled debt restructurings ⁽²⁾	113,842	—	—	—	113,842
Purchased credit-impaired ⁽³⁾	—	—	—	—	—
Total allowance for loan losses	\$3,208,888	\$76,087	\$18,569	\$574	\$3,304,118
Recorded investment in loans evaluated for impairment as:					
Collectively evaluated for impairment ⁽¹⁾	\$44,851,650	\$1,877,633	\$999,322	\$14,363	\$47,742,968
Troubled debt restructurings ⁽²⁾	305,344	—	—	—	305,344
Purchased credit-impaired ⁽³⁾	—	—	—	—	—
Total recorded investment	\$45,156,994	\$1,877,633	\$999,322	\$14,363	\$48,048,312

(1) Represents loans evaluated for impairment in accordance with ASC 450-20, Loss Contingencies.

Represents loans evaluated for impairment in accordance with ASC 310-10, Receivables, which consists of modified loans accounted for as troubled debt restructurings. The unpaid principal balance of such loans was \$1.0 billion at August 31, 2011. All loans accounted for as troubled debt restructurings have a related allowance for loan losses. In the first quarter 2011, the Company began accounting for credit card loans modified through temporary hardship and external programs as troubled debt restructurings. The impact on the total allowance for loan losses as a result of this change was not material.

(2) Represents loans evaluated for impairment in accordance with ASC 310-30, Receivables-Loans and Debt Securities Acquired with Deteriorated Credit Quality.

Impaired Loans and Troubled Debt Restructurings. The Company has loan modification programs that provide for temporary or permanent hardship relief for credit card loans to borrowers experiencing financial hardship. The temporary hardship program primarily consists of a reduced minimum payment and an interest rate reduction, both lasting for a period no longer than twelve months. The permanent workout program involves changing the structure of the loan to a fixed payment loan with a maturity no longer than 60 months and reducing the interest rate on the loan. These programs do not normally provide for the forgiveness of unpaid principal, but may allow for the reversal of certain unpaid interest or fee assessments.

The Company also makes loan modifications for customers who request financial assistance through external sources, such as a consumer credit counseling agency program (referred to below as external programs). These loans typically

receive a reduced interest rate but continue to be subject to the original minimum payment terms and do not normally include waiver of unpaid principal, interest or fees.

Credit card loan receivables modified and included in a temporary, permanent or external program are accounted for as a troubled debt restructuring and are recorded at their present value with impairment measured as the difference between the loan balance and the discounted present value of cash flows expected to be collected. Consistent with the Company's measurement of impairment of modified loans on a pooled basis, the Company uses as its discount rate the average current annual percentage rate it applies to non-impaired credit card loans, similar to what would have applied to the pool of modified loans prior to impairment.

Table of Contents

Interest income from loans accounted for as troubled debt restructurings is accounted for in the same manner as other accruing loans. Cash collections on these loans are allocated according to the same payment hierarchy methodology applied to loans that are not in such programs. Additional information about modified loans in the Company's credit card portfolio is shown below (dollars in thousands):

	For the three months ended August 31, 2011 ⁽¹⁾		For the nine months ended August 31, 2011 ⁽¹⁾	
	Temporary and Permanent Programs	External Programs	Temporary and Permanent Programs	External Programs
Average recorded investment in loans	\$519,884	\$709,211	\$534,479	\$727,113
Interest income recognized during the time within the period these loans were impaired ⁽²⁾	\$4,518	\$15,391	\$16,660	\$46,974
Gross interest income that would have been recorded in accordance with the original terms ⁽³⁾	\$16,411	\$2,467	\$47,950	\$7,535
	For the three months ended August 31, 2010		For the nine months ended August 31, 2010	
	Permanent Programs		Permanent Programs	
Average recorded investment in loans	\$271,114		\$248,686	
Interest income recognized during the time within the period these loans were impaired ⁽²⁾	\$765		\$2,107	
Gross interest income that would have been recorded in accordance with the original terms ⁽³⁾	\$10,462		\$28,707	

In addition to loans modified through permanent workout programs, in the first quarter 2011, the Company began (1) accounting for credit card loans modified through temporary hardship and external programs as troubled debt restructurings. The impact on the allowance for loan losses as a result of this change was not material.

(2) The Company does not separately track interest income on loans in modification programs. Amounts shown are estimated by applying an average interest rate to the average loans in the various modification programs.

The Company does not separately track the amount of gross interest income that would have been recorded if the loans in modification programs had not been restructured and interest had instead been recorded in accordance with (3) the original terms. Amounts shown are estimated by applying the difference between the average interest rate earned on non-impaired credit card loans and the average interest rate earned on loans in the modification programs to the average loans in the modification programs.

Purchased Credit-Impaired Loans. Purchased loans with evidence of credit deterioration after origination for which it is probable that not all contractually required payments will be collected are considered impaired at acquisition and are reported as PCI loans. The private student loans acquired in The Student Loan Corporation transaction comprise the Company's only PCI loans at August 31, 2011.

PCI loans are subject to interest income recognition on the basis of expected cash flows rather than contractual cash flows, pursuant to ASC Subtopic 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality. The Company accounts for the entire portfolio of acquired private student loans on the basis of expected cash flows. The loan portfolio was acquired at a discount related, at least in part, to a decline in the credit quality of the loans after their origination, and management has concluded it is probable that it will be unable to collect all contractually required payments due. However, the Company is unable to specifically identify which loans it will be unable to collect.

The PCI student loans were aggregated into pools based on common risk characteristics. Loans were grouped primarily on the basis of origination date as loans originated in a particular year generally reflect the application of

common origination strategies and/or underwriting criteria. Because student loan payments are deferred while a student is in school and all loans in deferment are considered performing, the segmentation between performing and non-performing loans is not considered an accurate risk indicator and was therefore not used as a basis for segmentation. The loan pools match the composition of the securitization trusts in which the acquired loans are held. Each pool is accounted for as a single asset and each has a single composite interest rate, total contractual cash flows and total expected cash flows.

As of the December 31, 2010 acquisition date, the PCI student loans had an aggregate outstanding balance of approximately \$3.8 billion, including accrued interest, and a fair value (initial carrying value) of approximately \$3.1 billion. Of the \$3.8 billion aggregate outstanding balance of loans acquired, loans with an aggregate outstanding balance of approximately \$31 million were non-performing as of the acquisition date. PCI student loans had an outstanding balance of \$3.4 billion, including accrued interest, and a related carrying amount of \$2.9 billion as of August 31, 2011.

Table of Contents

At the time of acquisition, these loans were recorded at fair value. The Company estimated the initial fair value of the acquired loans based on the cash flows expected to be collected, discounted at a market rate of interest. Expected cash flows used in the initial fair value measurement reflect the effect of expected losses and prepayments as well as anticipated changes in the interest rate indices applicable to these variable rate loans.

Interest income is recognized on each pool of PCI student loans through accretion on a level-yield basis over the life of the loan pool of the difference between the carrying amount of the loan pool and the expected cash flows (accretable yield). The initial estimate of the fair value of the PCI student loans includes the impact of expected credit losses, and therefore, no allowance for loan losses was recorded at the purchase date. The difference between contractually required cash flows and cash flows expected to be collected, as measured at the acquisition date, is referred to as the non-accretable difference. Charge-offs are absorbed by the non-accretable difference and do not result in a charge to earnings.

The estimate of cash flows expected to be collected is updated each reporting period to reflect management's latest assumptions about expected credit losses and borrower prepayments, and interest rates in effect in the current period. To the extent expected credit losses increase after the date of acquisition, the Company must record an allowance for loan losses through the provision for loan losses, which would reduce net income. There has not been any significant credit deterioration since the acquisition date, and therefore no allowance has been established for the PCI student loans at August 31, 2011. Changes in expected cash flows related to changes in prepayments or interest rate indices for variable rate loans generally are recorded prospectively as adjustments to interest income.

To the extent that a significant increase in cash flows due to lower expected losses is deemed probable, the Company will first reverse any previously established allowance for loan losses and then increase the amount of remaining accretable yield. The increase to yield would be recognized prospectively over the remaining life of the loan pool. An increase in the accretable yield would reduce the remaining non-accretable difference available to absorb subsequent charge-offs.

Certain PCI student loans in one of the pools are covered by an indemnification agreement with Citibank for credit losses. The indemnified loans are presented along with all other PCI student loans and the related indemnification asset is recognized as a separate asset on the Company's condensed consolidated statement of financial condition. See Note 2: Business Combinations for a description of the indemnification asset.

The following table shows contractually required payments receivable, cash flows expected to be collected and fair value of loans acquired as of the acquisition date (dollars in millions):

	At December 31, 2010
Contractually required payments receivable ⁽¹⁾	\$ 5,673
Less: Non-accretable difference ⁽²⁾	(846)
Cash flows expected to be collected	4,827
Less: Accretable yield ⁽³⁾	(1,776)
Fair value of loans acquired	\$ 3,051

(1) Amount represents principal and interest payments, both currently due and due in the future, adjusted for the effect of estimated prepayments.

(2) Charge-offs on acquired loans will be written off against non-accretable difference.

(3) Amount accreted into interest income over the estimated lives of the acquired loans.

The following table provides changes in accretable yield for the acquired loans for the three and nine month periods ended August 31, 2011 (dollars in millions):

	For the Three Months Ended August 31, 2011	For the Nine Months Ended August 31, 2011
Balance at beginning of period	\$1,772	\$—
Acquisition of The Student Loan Corporation	—	1,776

Edgar Filing: Discover Financial Services - Form 10-Q

Accretion into interest income	(54)(149)
Reclassifications from non-accretable difference	—	91	
Balance at end of period	\$1,718	\$1,718	

During the nine months ended August 31, 2011, the Company reclassified \$91 million from non-accretable difference because of an increase in expected cash flows. This amount will be recognized prospectively as an adjustment to yield over the remaining life of the pools.

Table of Contents

At August 31, 2011, the 30 or more days delinquency and 90 or more days delinquency rates on PCI student loans (which includes loans not yet in repayment) were 2.60% and 0.83% , respectively. These rates include private student loans that are greater than 120 days delinquent that are covered by an indemnification agreement or insurance arrangements through which the Company expects to recover a substantial portion of the loan. The net charge-off rate on PCI student loans for the three and nine months ended August 31, 2011 was 1.23% and 1.22%, respectively.

5. Credit Card and Student Loan Securitization Activities

Credit Card Securitization Activities

The Company accesses the term asset securitization market through the Discover Card Master Trust I (“DCMT”) and the Discover Card Execution Note Trust (“DCENT”), which are trusts into which credit card loan receivables are transferred (or, in the case of DCENT, into which beneficial interests in DCMT are transferred) and from which beneficial interests are issued to investors.

The DCMT structure consists of Class A, triple-A rated certificates and Class B, single-A rated certificates held by third parties. Credit enhancement is provided by the subordinated Class B certificates, cash collateral accounts, and more subordinated Series 2009-CE certificates that are held by a wholly-owned subsidiary of Discover Bank. The DCENT debt structure consists of four classes of securities (DiscoverSeries Class A, B, C and D notes), with the most senior class generally receiving a triple-A rating. In this structure, in order to issue senior, higher rated classes of notes, it is necessary to obtain the appropriate amount of credit enhancement, generally through the issuance of junior, lower rated or more highly subordinated classes of notes. The majority of these more highly subordinated classes of notes are held by subsidiaries of Discover Bank. In addition, there is another series of certificates (Series 2009-SD) issued by DCMT which provides increased excess spread levels to all other outstanding securities of the trusts. The Series 2009-SD certificates are held by a wholly-owned subsidiary of Discover Bank. In January 2010, the Company increased the size of the Class D (2009-1) note and Series 2009-CE certificate to further support the more senior securities of the trusts. The Company was not contractually required to provide this incremental level of credit enhancement but did so pursuant to the trusts’ governing documents in order to maintain the credit ratings of the securities issued by the trusts and to preserve the Company’s ability to participate in the credit card asset-backed securitization markets. The credit-related risk of loss associated with trust assets as of the balance sheet date to which the Company is exposed through the retention of these subordinated interests is fully captured in the allowance for loan losses recorded by the Company.

The Company’s credit card securitizations are accounted for as secured borrowings and the trusts are treated as consolidated subsidiaries of the Company. The Company’s retained interests in the assets of the trusts, principally consisting of investments in DCMT certificates and DCENT notes held by subsidiaries of Discover Bank, constitute intercompany positions which are eliminated in the preparation of the Company’s condensed consolidated statement of financial condition.

Table of Contents

Upon transfer of credit card loan receivables to the trust, the receivables and certain cash flows derived from them become restricted for use in meeting obligations to the trusts' creditors. The trusts have ownership of cash balances that also have restrictions, the amounts of which are reported in restricted cash. Investment of trust cash balances is limited to investments that are permitted under the governing documents of the trusts and which have maturities no later than the related date on which funds must be made available for distribution to trust investors. With the exception of the seller's interest in trust receivables, the Company's interests in trust assets are generally subordinate to the interests of third-party investors and, as such, may not be realized by the Company if needed to absorb deficiencies in cash flows that are allocated to the investors in the trusts' debt. The carrying values of these restricted assets, which are presented on the Company's condensed consolidated statement of financial condition as relating to securitization activities, are shown in the table below (dollars in thousands):

	August 31, 2011	November 30, 2010
Cash collateral accounts ⁽¹⁾	\$226,579	\$459,474
Collections and interest funding accounts	585,030	904,284
Restricted cash	811,609	1,363,758
Investors' interests held by third-party investors	12,621,054	14,921,057
Investors' interests held by wholly owned subsidiaries of Discover Bank	4,327,121	4,608,210
Seller's interest	17,030,805	14,923,722
Loan receivables ⁽²⁾	33,978,980	34,452,989
Allowance for loan losses allocated to securitized loan receivables ⁽²⁾	(1,589,949)	(2,431,399)
Net loan receivables	32,389,031	32,021,590
Other	25,195	24,083
Carrying value of assets of consolidated variable interest entities	\$33,225,835	\$33,409,431

(1) As of November 30, 2010, the full amount was pledged as collateral against a long-term borrowing.

The Company maintains its allowance for loan losses at an amount sufficient to absorb probable losses inherent in (2) all loan receivables, which includes all loan receivables in the trusts. Therefore, credit risk associated with the transferred receivables is fully reflected on the Company's balance sheet in accordance with GAAP.

The debt securities issued by the consolidated VIEs are subject to credit, payment and interest rate risks on the transferred credit card loan receivables. To protect investors, the securitization structures include certain features that could result in earlier-than-expected repayment of the securities. The primary investor protection feature relates to the availability and adequacy of cash flows in the securitized pool of receivables to meet contractual requirements. Insufficient cash flows would trigger the early repayment of the securities. This is referred to as the "economic early amortization" feature.

Investors are allocated cash flows derived from activities related to the accounts comprising the securitized pool of receivables, the amounts of which reflect finance charges billed, certain fee assessments, allocations of merchant discount and interchange, and recoveries on charged-off accounts. From these cash flows, investors are reimbursed for charge-offs occurring within the securitized pool of receivables and receive a contractual rate of return and Discover Bank is paid a servicing fee as servicer. Any cash flows remaining in excess of these requirements are reported to investors as excess spread. An excess spread rate of less than 0% for a contractually specified period, generally a three-month average, would trigger an economic early amortization event. In such an event, the Company would be required to seek immediate sources of replacement funding. Apart from the restricted assets related to securitization activities, the investors and the securitization trusts have no recourse to the Company's other assets or credit for a shortage in cash flows.

The Company is required to maintain a contractual minimum level of receivables in the trust in excess of the face value of outstanding investors' interests. This excess is referred to as the minimum seller's interest requirement. The required minimum seller's interest in the pool of trust receivables, which is included in credit card loan receivables restricted for securitization investors, is set at approximately 7% in excess of the total investors' interests (which

includes interests held by third parties as well as those certificated interests held by the Company). If the level of receivables in the trust was to fall below the required minimum, the Company would be required to add receivables from the unrestricted pool of receivables, which would increase the amount of credit card loan receivables restricted for securitization investors. A decline in the amount of the excess seller's interest could occur if balance repayments and charge-offs exceeded new lending on the securitized accounts or as a result of changes in total outstanding investors' interests. If the Company could not add enough receivables to satisfy the requirement, an early amortization (or repayment) of investors' interests would be triggered.

Table of Contents

Another feature of the Company's securitization structure that is designed to protect investors' interests from loss, which is applicable only to the notes issued from DCENT, is a reserve account funding requirement in which excess cash flows generated by the transferred loan receivables are held at the trust. This funding requirement is triggered when DCENT's three-month average excess spread rate decreases to below 4.5%, with increasing funding requirements as excess spread levels decline below preset levels to 0%.

In addition to performance measures associated with the transferred credit card loan receivables, there are other events or conditions which could trigger an early amortization event. As of August 31, 2011, no economic or other early amortization events have occurred.

The tables below provide information concerning investors' interests and related excess spreads at August 31, 2011 (dollars in thousands):

	Investors' Interests ⁽¹⁾	# of Series Outstanding
Discover Card Master Trust I	\$3,830,858	7
Discover Card Execution Note Trust (DiscoverSeries notes)	13,117,317	28
Total investors' interests	\$16,948,175	35

(1) Investors' interests include third-party interests and subordinated interests held by wholly-owned subsidiaries of Discover Bank.

	3-Month Rolling Average Excess Spread ⁽¹⁾⁽²⁾	%
Group excess spread percentage	16.92	%
DiscoverSeries excess spread percentage	16.76	%

DCMT certificates refer to the higher of the Group excess spread or their applicable series excess spread (not (1) shown) and DiscoverSeries notes refer to the higher of the Group or DiscoverSeries excess spread in assessing whether an economic early amortization has been triggered.

Discount Series (DCMT 2009-SD) makes principal collections available for reallocation to other series to cover (2) shortfalls in interest and servicing fees and to reimburse charge-offs. Three-month rolling average excess spread rates reflected the availability of these additional collections.

The Company continues to own and service the accounts that generate the loan receivables held by the trusts. Discover Bank receives servicing fees from the trusts based on a percentage of the monthly investor principal balance outstanding. Although the fee income to Discover Bank offsets the fee expense to the trusts and thus is eliminated in consolidation, failure to service the transferred loan receivables in accordance with contractual requirements could lead to a termination of the servicing rights and the loss of future servicing income.

Student Loan Securitization Activities

The Company's student loan securitizations are accounted for as secured borrowings and the trusts are treated as consolidated subsidiaries of the Company. Trust receivables underlying third-party investors' interests are recorded in purchased credit-impaired loans, and the related debt issued by the trusts is reported in long-term borrowings. The assets of the Company's consolidated VIEs are restricted from being sold or pledged as collateral for other borrowings and the cash flows from these restricted assets may be used only to pay obligations of the trust.

Under terms of all the trust arrangements, the Company has the option, but not the obligation, to provide financial support to the trusts, but has never provided such support. A substantial portion of the credit risk associated with the securitized loans has been transferred to third parties under private credit insurance or indemnification arrangements. See Note 2: Business Combinations.

Table of Contents

The carrying values of these restricted assets, which are presented on the Company's condensed consolidated statement of financial condition as relating to securitization activities, are shown in the table below (dollars in thousands):

	August 31, 2011
Restricted cash	\$125,621
Student loan receivables	\$2,876,923
Other assets	\$5,209
Carrying value of assets of consolidated variable interest entities	\$3,007,753

6. Deposits

The Company offers its deposit products, including certificates of deposit, money market accounts, online savings accounts and Individual Retirement Account (IRA) certificates of deposit to customers through two channels:

- (i) through direct marketing, internet origination and affinity relationships ("direct-to-consumer deposits"); and
- (ii) indirectly through contractual arrangements with securities brokerage firms ("brokered deposits"). As of August 31, 2011 and November 30, 2010, the Company had approximately \$24.5 billion and \$20.6 billion, respectively, of direct-to-consumer deposits and approximately \$13.0 billion and \$13.7 billion, respectively, of brokered deposits.

A summary of interest-bearing deposit accounts is as follows (dollars in thousands):

	August 31, 2011	November 30, 2010
Certificates of deposit in amounts less than \$100,000 ⁽¹⁾	\$19,524,679	\$19,797,420
Certificates of deposit from amounts of \$100,000 ⁽¹⁾ to less than \$250,000 ⁽¹⁾	4,999,091	4,626,792
Certificates of deposit in amounts of \$250,000 ⁽¹⁾ or greater	1,148,445	1,146,843
Savings deposits, including money market deposit accounts	11,797,822	8,738,784
Total interest-bearing deposits	\$37,470,037	\$34,309,839
Average annual interest rate	2.67	% 3.12 %

⁽¹⁾ \$100,000 represents the basic insurance amount previously covered by the FDIC. Effective July 21, 2010, the basic insurance per depositor was permanently increased to \$250,000.

At August 31, 2011, certificates of deposit maturing during the remainder of 2011, over the next four years and thereafter were as follows (dollars in thousands):

Year	Amount
2011	\$2,650,831
2012	\$10,787,166
2013	\$5,939,329
2014	\$2,576,005
2015	\$1,949,946
Thereafter	\$1,768,938

Table of Contents

7. Borrowings

Long-term borrowings consist of borrowings and capital leases having original maturities of one year or more. The following table provides a summary of the Company's long-term borrowings and weighted average interest rates on balances outstanding at period end (dollars in thousands):

	August 31, 2011			November 30, 2010			Interest Rate Terms	Maturity
	Outstanding	Interest Rate		Outstanding	Interest Rate			
Securitized Debt								
Fixed rate asset-backed securities (including discount of \$1,339)	\$1,748,660	5.65 %		\$2,598,343	5.47 %	Various fixed rates		Various June 2013—September 2017
Floating rate asset-backed securities	9,371,055	0.77 %		10,621,057	0.75 %	1-month LIBOR(1) + 3 to 130 basis points		Various September 2011—September 2015
Floating rate asset-backed securities	1,250,000	0.59 %		1,250,000	0.63 %	3-month LIBOR(1) + 34 basis points		December 2012
Floating rate asset-backed securities and other borrowings	250,000	0.89 %		450,000	0.98 %	Commercial Paper rate + 70 basis points		April 2013
Total Discover Card Master Trust I and Discover Card Execution Note Trust	12,619,715			14,919,400				
Floating rate asset-backed securities (including discount of \$238,629)	1,436,906	0.45 %	—			3-month LIBOR(1) + 7 to 45 basis points		Various April 2018—July 2036(2)
Floating rate asset-backed securities (including discount of \$3,847)	648,407	4.25 %	—			Prime rate +100 basis points		June 2031(2)
Floating rate asset-backed securities (including premium of \$2,927)	165,597	4.00 %	—			Prime rate + 75 basis points		July 2042(2)
Floating rate asset-backed securities (including premium of \$6,894)	389,884	3.71 %	—			1-month LIBOR(1) + 350 basis points		July 2042(2)
Total SLC Private Student Loan Trusts	2,640,794		—					
Total Long-Term Borrowings—owed to securitization investors	15,260,509			14,919,400				
Discover Financial Services (Parent Company)								
Fixed rate senior notes due 2017								
Principal value (including discount of	399,528	6.45 %		399,467	6.45 %	Fixed		June 2017

\$472)

Book value	407,984		391,579			
Fixed rate senior notes due 2019	400,000	10.25 %	400,000	10.25 %	Fixed	July 2019
Discover Bank Subordinated bank notes due 2019 (including discount of \$1,483)	698,517	8.70 %	698,382	8.70 %	Fixed	November 2019
Subordinated bank notes due 2020 (including discount of \$2,988)	497,012	7.00 %	496,753	7.00 %	Fixed	April 2020
Floating rate secured borrowings	—	— %	93,980	0.79 %	Commercial Paper rate + 50 basis points	December 2010
Floating rate secured borrowings	—	— %	212,336	0.70 %	1-month LIBOR(1) + 45 basis points	December 2010
Floating rate secured borrowings ⁽⁴⁾	454,178	0.72 %	492,910	0.66 %	Commercial Paper rate + 50 basis points	August 2013(4)
Capital lease obligations	—	— %	388	6.26 %	Fixed	June 2011
Total long-term borrowings	\$17,718,200		\$17,705,728			

(1) London Interbank Offered Rate ("LIBOR").

(2) Repayment of this debt is dependent upon the timing of principal and interest payments on the underlying student loans. The dates shown represent final maturity dates.

(3) The Company uses interest rate swaps to hedge this long-term borrowing against changes in fair value attributable to changes in LIBOR. See Note 14: Derivatives and Hedging Activities.

(4) Under a program established by the U.S. Department of Education, this loan facility was entered into to fund certain federal student loans, which were held for sale at August 31, 2011 and November 30, 2010. Principal and interest payments on the underlying student loans will reduce the balance of the secured borrowing over time, with final maturity in August 2013. However, upon sale of the loans, this loan facility will be repaid.

Table of Contents

Maturities. At August 31, 2011, long-term borrowings maturities during the remainder of 2011, over the next four years and thereafter were as follows (dollars in thousands):

Year	Amount
2011	\$ 526,234
2012	3,325,989
2013	5,632,873
2014	1,989,293
2015	599,819
Thereafter	5,643,992
Total	\$ 17,718,200

The Company has an unsecured credit agreement that is effective through May 2012. The agreement provides for a revolving credit commitment of up to \$2.4 billion (of which the Company may borrow up to 30% and Discover Bank may borrow up to 100% of the total commitment). As of August 31, 2011, the Company had no outstanding balances due under the facility. The credit agreement provides for a commitment fee on the unused portion of the facility, which can range from 0.07% to 0.175% depending on the index debt ratings. Loans outstanding under the credit facility bear interest at a margin above the Federal Funds rate, LIBOR, the EURIBOR or the Euro Reference rate. The terms of the credit agreement include various affirmative and negative covenants, including financial covenants related to the maintenance of certain capitalization and tangible net worth levels, and certain double leverage, delinquency and Tier 1 capital to managed loans ratios. The credit agreement also includes customary events of default with corresponding grace periods, including, without limitation, payment defaults, cross-defaults to other agreements evidencing indebtedness for borrowed money and bankruptcy-related defaults. The commitment may be terminated upon an event of default.

The Company also has access to committed undrawn capacity through private securitizations to support the funding of its credit card loan receivables. As of August 31, 2011, the total commitment of secured credit facilities through private providers was \$6.8 billion, of which \$250 million had been used and was included in long-term borrowings at August 31, 2011. Access to the unused portions of the secured credit facilities is dependent upon the agreement with each of the providers which have various expirations in 2012, 2013 and 2014. Borrowings outstanding under each facility bear interest at a margin above LIBOR or the asset-backed commercial paper costs of each individual conduit provider. The terms of each agreement provide for a commitment fee to be paid on the unused capacity, and include various affirmative and negative covenants, including performance metrics and legal requirements similar to those required to issue any term securitization transaction.

Short-Term Borrowings. Short-term borrowings consist of overnight Federal Funds purchased with original maturities less than one year. Total short-term borrowings as of August 31, 2011 were \$100 million and the weighted-average interest rate was 0.06%. There were no outstanding short-term borrowings as of November 30, 2010.

8. Income Taxes

Table of Contents

Income tax expense consisted of the following (dollars in thousands):

	For the Three Months Ended August 31,		For the Nine Months Ended August 31,	
	2011	2010	2011	2010
Current:				
U.S. federal	\$213,765	\$68,942	\$550,250	\$166,541
U.S. state and local	38,576	24,451	74,292	38,512
International	747	53	3,018	298
Total	253,088	93,446	627,560	205,351
Deferred:				
U.S. federal	135,145	73,149	332,965	61,301
U.S. state and local	10,024	4,931	18,882	1,830
International	6	—	7	—
Total	145,175	78,080	351,854	63,131
Income tax expense	\$398,263	\$171,526	\$979,414	\$268,482

The following table reconciles the Company's effective tax rate to the U.S. federal statutory income tax rate:

	For the Three Months Ended August 31,				For the Nine Months Ended August 31,			
	2011		2010		2011		2010	
U.S. federal statutory income tax rate	35.0	%	35.0	%	35.0	%	35.0	%
U.S. state and local income taxes, net of U.S. federal income tax benefits	3.4		4.8		2.6		4.3	
Valuation allowance - capital loss	—		—		(0.8)	—	
Non-deductible compensation	—		0.1		—		0.5	
Other	(0.4)	(0.2)	(0.4)	(0.5)
Effective income tax rate	38.0	%	39.7	%	36.4	%	39.3	%

The Company is under continuous examination by the IRS and the tax authorities for various states. The tax years under examination vary by jurisdiction; for example, the current IRS examination covers 1999 through the short period June 30, 2007 when Discover was a subsidiary of Morgan Stanley. The Company was recently notified by the IRS that the years 2008 through 2009, which are after Discover spun off from Morgan Stanley, are going to be audited. The Company regularly assesses the likelihood of additional assessments in each of the taxing jurisdictions resulting from these and subsequent years' examinations. As part of its audit of 1999 through 2005, the IRS has proposed additional tax assessments. In August 2010, the Company filed an appeal with the IRS to protest the proposed adjustments. The Company does not anticipate that a resolution of this matter will occur within the next twelve months as it is in the preliminary stage. Due to uncertainty of the outcome of the appeal, the Company is unable to determine if the total amount of unrecognized tax benefits will significantly increase or decrease within the next twelve months. However, the Company believes that its reserve is sufficient to cover any penalties and interest that would result in an increase in federal taxes due.

9. Earnings Per Share

Table of Contents

The following table presents the calculation of basic and diluted EPS (in thousands, except per share amounts):

	For the Three Months Ended August 31, 2011		For the Nine Months Ended August 31, 2011	
	2010		2010	
Numerator:				
Net income	\$648,818	\$260,617	\$1,714,129	\$415,146
Preferred stock dividends	—	—	—	(23,811)
Preferred stock accretion	—	—	—	(66,492)
Net income available to common stockholders	648,818	260,617	1,714,129	324,843
Income allocated to participating securities	(7,046)	(2,423)	(19,493)	(3,230)
Net income allocated to common stockholders	\$641,772	\$258,194	\$1,694,636	\$321,613
Denominator:				
Weighted average shares of common stock outstanding	544,438	544,314	544,997	543,874
Effect of dilutive common stock equivalents	743	2,768	701	6,237
Weighted average shares of common stock outstanding and common stock equivalents	545,181	547,082	545,698	550,111
Basic earnings per share	\$1.18	\$0.47	\$3.11	\$0.59
Diluted earnings per share	\$1.18	\$0.47	\$3.11	\$0.58

The following securities were considered anti-dilutive and therefore were excluded from the denominator in the computation of diluted EPS (shares in thousands):

	For the Three Months Ended August 31, 2011		For the Nine Months Ended August 31, 2011	
	2010		2010	
Unexercised stock options	348	3,944	374	3,418
Unexercised restricted stock units	8	—	3	—
Warrants issued to the U.S. Treasury	—	2,768	—	6,225

10. Capital Adequacy

The Company is subject to capital adequacy guidelines of the Federal Reserve, and Discover Bank (the “Bank”), the Company’s main banking subsidiary, is subject to various regulatory capital requirements as administered by the Federal Deposit Insurance Corporation (the “FDIC”). Failure to meet minimum capital requirements can result in the initiation of certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the financial position and results of the Company and the Bank. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance sheet items, as calculated under regulatory accounting practices. Capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (as defined in the regulations) of total risk-based capital and Tier 1 capital to risk-weighted assets, and of Tier 1 capital to average assets. As of August 31, 2011, the Company and the Bank met all capital adequacy requirements to which they were subject.

Under regulatory capital requirements, the Company and the Bank must maintain minimum levels of capital that are dependent upon the risk-weighted amount or average level of the financial institution’s assets, specifically (a) 8% to 10% of total risk-based capital to risk-weighted assets (“total risk-based capital ratio”), (b) 4% to 6% of Tier 1 capital to risk-weighted assets (“Tier 1 risk-based capital ratio”) and (c) 4% to 5% of Tier 1 capital to average assets (“Tier 1 leverage ratio”). To be categorized as “well-capitalized,” the Company and the Bank must maintain minimum total

risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the table below. As of August 31, 2011, the Company and the Bank met the requirements for well-capitalized status and there have been no conditions or events that management believes have changed the Company's or the Bank's category.

Table of Contents

The following table shows the actual capital amounts and ratios of the Company and the Bank as of August 31, 2011 and November 30, 2010 and comparisons of each to the regulatory minimum and “well-capitalized” requirements (dollars in thousands):

	Actual		Minimum Capital Requirements		Capital Requirements To Be Classified as Well-Capitalized	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
August 31, 2011						
Total capital (to risk-weighted assets)						
Discover Financial Services	\$9,493,172	17.0	% \$4,460,846	≥8.0%	\$5,576,057	≥10.0%
Discover Bank	\$8,562,286	15.6	% \$4,398,133	≥8.0%	\$5,497,666	≥10.0%
Tier 1 capital (to risk-weighted assets)						
Discover Financial Services	\$7,581,177	13.6	% \$2,230,423	≥4.0%	\$3,345,634	≥6.0%
Discover Bank	\$6,659,969	12.1	% \$2,199,066	≥4.0%	\$3,298,599	≥6.0%
Tier 1 capital (to average assets)						
Discover Financial Services	\$7,581,177	11.7	% \$2,599,434	≥4.0%	\$3,249,292	≥5.0%
Discover Bank	\$6,659,969	10.4	% \$2,560,346	≥4.0%	\$3,200,433	≥5.0%
November 30, 2010						
Total capital (to risk-weighted assets)						
Discover Financial Services	\$7,946,619	15.9	% \$3,989,689	≥8.0%	\$4,987,111	≥10.0%
Discover Bank	\$7,817,205	15.9	% \$3,923,344	≥8.0%	\$4,904,180	≥10.0%
Tier 1 capital (to risk-weighted assets)						
Discover Financial Services	\$6,095,000	12.2	% \$1,994,844	≥4.0%	\$2,992,266	≥6.0%
Discover Bank	\$5,975,824	12.2	% \$1,961,672	≥4.0%	\$2,942,508	≥6.0%
Tier 1 capital (to average assets)						
Discover Financial Services	\$6,095,000	9.9	% \$2,464,324	≥4.0%	\$3,080,406	≥5.0%
Discover Bank	\$5,975,824	9.8	% \$2,431,610	≥4.0%	\$3,039,512	≥5.0%

Table of Contents

11. Commitments, Contingencies and Guarantees

Lease commitments. The Company leases various office space and equipment under capital and non-cancelable operating leases which expire at various dates through 2021. At August 31, 2011, future minimum payments on leases with original terms in excess of one year consist of the following (dollars in thousands):

	Operating Leases
2011	\$2,537
2012	10,401
2013	8,614
2014	7,161
2015	6,135
Thereafter	14,458
Total minimum lease payments	\$49,306

Unused commitments to extend credit. At August 31, 2011, the Company had unused commitments to extend credit for consumer loans and commercial loans of approximately \$164 billion. Such commitments arise primarily from agreements with customers for unused lines of credit on certain credit cards and certain other consumer loan products, provided there is no violation of conditions in the related agreement. These commitments, substantially all of which the Company can terminate at any time and which do not necessarily represent future cash requirements, are periodically reviewed based on account usage, customer creditworthiness and loan qualification.

Commitments to purchase private student loans. Prior to its acquisition by Discover Bank on December 31, 2010, SLC had an agreement with Citibank providing for the origination and servicing of private student loans. Citibank would originate and fund such loans and, after final disbursement, SLC would purchase the loans from Citibank. This agreement between SLC and Citibank was terminated on December 31, 2010, at which time Discover Bank entered into an agreement with Citibank to purchase (i) eligible private student loans originated by Citibank prior to December 31, 2010 and (ii) any private student loans originated by Citibank on or after December 31, 2010 under a new loan origination agreement entered into between Citibank and SLC on December 31, 2010. Discover Bank has agreed to purchase the loans at the funded amount (plus accrued interest and less any capitalized fees for any loans first funded prior to December 31, 2010) and, for any loans first funded by Citibank on December 31, 2010 or later, pay a premium equal to 0.125%. Discover Bank completed the first purchase of loan participations under this agreement on January 3, 2011. The agreement has been amended to extend to December 31, 2012, effective only upon the closing of Discover Bank's purchase of private student loans from Citibank pursuant to an asset purchase agreement dated August 31, 2011. Although the agreement does not set forth a minimum or maximum amount of loans to be purchased, Discover Bank must purchase all eligible loans originated by Citibank, which the Company estimates to be \$1.0 billion to \$1.5 billion over the life of the agreement, as amended. As of August 31, 2011, Discover Bank had an outstanding commitment to purchase \$88.2 million of loans under this agreement.

Secured Borrowing Representations and Warranties. As part of the Company's financing activities, the Company provides representations and warranties that certain assets pledged as collateral in secured borrowing arrangements conform to specified guidelines. Due diligence is performed by the Company which is intended to ensure that asset guideline qualifications are met. If the assets pledged as collateral do not meet certain conforming guidelines, the Company may be required to replace, repurchase or sell such assets. In its credit card securitization activities, the Company would replace nonconforming receivables through the allocation of excess seller's interest or from additional transfers from the unrestricted pool of receivables. If the Company could not add enough receivables to satisfy the requirement, an early amortization (or repayment) of investors' interests would be triggered. In its student loan securitizations, the Company would generally repurchase the loans from the trust at the outstanding principal amount plus interest.

The maximum potential amount of future payments the Company could be required to make would be equal to the current outstanding balances of third-party investor interests in credit card asset-backed securities plus the principal amount of any other outstanding secured borrowings. The Company has recorded substantially all of the maximum potential amount of future payments in long-term borrowings on the Company's statement of financial condition. The Company has not recorded any incremental contingent liability associated with its secured borrowing representations and warranties. Management believes that the probability of having to replace, repurchase or sell assets pledged as collateral under secured borrowing arrangements, including an early amortization event, is low.

Table of Contents

Guarantees. The Company has obligations under certain guarantee arrangements, including contracts and indemnification agreements, which contingently require the Company to make payments to the guaranteed party based on changes in an underlying asset, liability or equity security of a guaranteed party, rate or index. Also included as guarantees are contracts that contingently require the Company to make payments to a guaranteed party based on another entity's failure to perform under an agreement. The Company's use of guarantees is disclosed below by type of guarantee.

Counterparty Settlement Guarantees. Diners Club and DFS Services LLC, on behalf of PULSE, have various counterparty exposures, which are listed below.

Merchant Guarantee. Diners Club has entered into contractual relationships with certain international merchants, which generally include travel-related businesses, for the benefit of all Diners Club licensees. The licensees hold the primary liability to settle the transactions of their customers with these merchants. However, Diners Club retains a counterparty exposure if a licensee fails to meet its financial payment obligation to one of these merchants.

ATM Guarantee. PULSE entered into contractual relationships with certain international ATM acquirers in which DFS Services LLC retains counterparty exposure if an issuer fails to fulfill its settlement obligation.

The maximum potential amount of future payments related to such contingent obligations is dependent upon the transaction volume processed between the time a counterparty defaults on its settlement and the time at which the Company disables the settlement of any further transactions for the defaulting party, which could be up to one month depending on the type of guarantee/counterparty. However, there is no limitation on the maximum amount the Company may be liable to pay. The actual amount of the potential exposure cannot be quantified as the Company cannot determine whether particular counterparties will fail to meet their settlement obligations. While the Company has some contractual remedies to offset these counterparty settlement exposures (such as letters of credit or pledged deposits), in the event that all licensees and/or issuers were to become unable to settle their transactions, the Company estimates its maximum potential counterparty exposures to these settlement guarantees, based on historical transaction volume of up to one month, would be as follows:

	August 31, 2011
Diners Club:	
Merchant guarantee (in millions)	\$255
PULSE:	
ATM guarantee (in thousands)	\$1,077

With regard to the counterparty settlement guarantees discussed above, the Company believes that the estimated amounts of maximum potential future payments are not representative of the Company's actual potential loss exposure given Diners Club's and PULSE's insignificant historical losses from these counterparty exposures. As of August 31, 2011, the Company had not recorded any contingent liability in the condensed consolidated financial statements for these counterparty exposures, and management believes that the probability of any payments under these arrangements is low.

The Company also retains counterparty exposure for the obligations of Diners Club licensees that participate in the Citishare network, an electronic funds processing network. Through the Citishare network, Diners Club customers are able to access certain ATMs directly connected to the Citishare network. The Company's maximum potential future payment under this counterparty exposure is limited to \$15 million, subject to annual adjustment based on actual transaction experience. However, as of August 31, 2011, the Company had not recorded any contingent liability in the condensed consolidated financial statements related to this counterparty exposure, and management believes that the probability of any payments under this arrangement is low.

Merchant Chargeback Guarantees. The Company issues and permits third parties to issue payment cards and owns and operates the Discover Network. The Company is contingently liable for certain transactions processed on the Discover Network in the event of a dispute between the payment card customer and a merchant. The contingent liability arises if the disputed transaction involves a merchant or merchant acquirer with whom the Discover Network has a direct relationship. If a dispute is resolved in the customer's favor, the Discover Network will credit or refund the disputed amount to the Discover Network card issuer, who in turn credits its customer's account. The Discover Network will then charge back the disputed amount of the payment card transaction to the merchant or merchant acquirer, where permitted by the applicable agreement, to seek recovery of amounts already paid to the merchant for payment card transactions. If the Discover Network is unable to collect the amount subject to dispute from the merchant or merchant acquirer (e.g., in the event of merchant default or dissolution) or after

Table of Contents

expiration of the time period for chargebacks in the applicable agreement, the Discover Network will bear the loss for the amount credited or refunded to the customer. In most instances, a loss by the Discover Network is unlikely to arise in connection with payments on card transactions because most products or services are delivered when purchased, and credits are issued by merchants on returned items in a timely fashion, thus minimizing the likelihood of cardholder disputes with respect to amounts paid by the Discover Network. However, where the product or service is not scheduled to be provided to the customer until a later date following the purchase, the likelihood of a contingent payment obligation by the Discover Network increases.

The maximum potential amount of obligations of the Discover Network arising as a result of such contingent obligations is estimated to be the portion of the total Discover Network transaction volume processed to date for which timely and valid disputes may be raised under applicable law and relevant issuer and customer agreements. There is no limitation on the maximum amount the Company may be liable to pay to issuers. However, the Company believes that such amount is not representative of the Company's actual potential loss exposure based on the Company's historical experience. The actual amount of the potential exposure cannot be quantified as the Company cannot determine whether the current or cumulative transaction volumes may include or result in disputed transactions.

The table below summarizes certain information regarding merchant chargebacks guarantees:

	For the Three Months Ended August 31, 2011		For the Nine Months Ended August 31, 2011	
	2011	2010	2011	2010
Losses related to merchant chargebacks (in thousands)	\$291	\$1,036	\$1,625	\$2,294
Aggregate sales transaction volume (in millions) ⁽¹⁾	\$28,416	\$25,990	\$81,051	\$74,645

⁽¹⁾ Represents period transactions processed on the Discover Network to which a potential liability exists which, in aggregate, can differ from credit card sales volume.

The Company has not recorded any contingent liability in the condensed consolidated financial statements for merchant chargeback guarantees on August 31, 2011 and November 30, 2010. The Company mitigates the risk of potential loss exposure by withholding settlement from merchants, obtaining third party guarantees, or obtaining escrow deposits or letters of credit from certain merchant acquirers or merchants that are considered higher risk due to various factors such as time delays in the delivery of products or services. The table below provides information regarding settlement withholdings and escrow deposits, which are recorded in interest-bearing deposit accounts, and accrued expenses and other liabilities on the Company's condensed consolidated statements of financial condition (dollars in thousands):

	August 31, 2011	November 30, 2010
Settlement withholdings and escrow deposits	\$21,948	\$30,483

12. Litigation

In the normal course of business, from time to time, the Company has been named as a defendant in various legal actions, including arbitrations, class actions, and other litigation, arising in connection with its activities. Certain of the actual or threatened legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. The Company contests liability and/or the amount of damages as appropriate in each pending matter. In accordance with applicable accounting guidance, the Company establishes an accrued liability for legal and regulatory matters when those matters present loss contingencies which are both probable and estimable. In such cases, there may be an exposure to loss in excess of any amounts accrued. The Company believes the estimate of the aggregate range of reasonably possible losses (meaning those losses the likelihood of which is more than remote but less than likely) in excess of the amounts that the Company has accrued for legal and regulatory proceedings is from \$0 to \$40 million. This estimated range of reasonably possible losses is based upon currently

available information for those proceedings in which the Company is involved, takes into account the Company's best estimate of such losses for those matters for which an estimate can be made, and does not represent the Company's maximum potential loss exposure. Various aspects of the legal proceedings underlying the estimated range will change from time to time and actual results may vary significantly from the estimate.

The Company's estimated range above involves significant judgment, given the varying stages of the proceedings, the existence of numerous yet to be resolved issues, the breadth of the claims (often spanning multiple years and, in some cases, a wide range of business activities), unspecified damages and/or the novelty of the legal issues presented. The outcome of pending matters could be material to the Company's consolidated financial condition, operating results and cash flows for a particular future period, depending on, among other things, the level of the Company's income for such period, and could adversely affect the Company's reputation.

Table of Contents

The Company has historically relied on the arbitration clause in its cardmember agreements, which has in some instances limited the costs of, and the Company's exposure to, litigation, but there can be no assurance that the Company will continue to be successful in enforcing its arbitration clause in the future. Legal challenges to the enforceability of these clauses have led most card issuers and may cause the Company to discontinue their use, and there are bills pending in Congress to directly or indirectly prohibit the use of pre-dispute arbitration clauses. Further, the Company is involved in pending legal actions challenging its arbitration clause.

The Company is also involved, from time to time, in other reviews, investigations and proceedings (both formal and informal) by governmental agencies regarding the Company's business including, among other matters, accounting, tax and operational matters, some of which may result in significant adverse judgments, settlements, fines, penalties, injunctions, decreases in regulatory ratings or other relief, which could materially impact the Company's financial statements, increase its cost of operations, or limit its ability to execute its business strategies and engage in certain business activities. For example, the Company received a notice of proposed assessment from the IRS related to its audit of the Company's 1999-2005 tax years as further discussed in Note 8: Income Taxes.

In addition, as previously disclosed, the FDIC has been reviewing Discover Bank's marketing practices with respect to its fee-based products, including its payment protection fee product. The FDIC has notified Discover Bank that it plans to take an enforcement action against Discover Bank. Since well before the FDIC's review began, Discover Bank has made changes to both its fee-based products and program, and Discover Bank believes its current practices substantially address the FDIC's concerns.

There are eight class action cases pending in relation to the sale of the Company's payment protection fee product. The cases were filed (all in United States District Courts) on: July 8, 2010 in the Northern District of California (Walker, et al. v. DFS, Inc. and Discover Bank; subsequently transferred to the Northern District of Illinois); July 16, 2010 in the Central District of California (Conroy v. Discover Financial Services and Discover Bank); October 22, 2010 in the District of South Carolina (Alexander v. Discover Financial Services, Inc.; DFS Services LLC; Discover Bank; and Morgan Stanley); November 5, 2010 in the Northern District of Illinois (Callahan v. Discover Financial Services, Inc. and Discover Bank); December 17, 2010 in the Western District of Tennessee (Sack v. DFS Services LLC; Discover Financial Services, Inc.; and Discover Bank); January 14, 2011 in the Eastern District of Pennsylvania (Boyce v. DFS Services LLC; Discover Financial Services Inc.; Discover Bank); February 15, 2011 in the Southern District of Florida (Triplett v. Discover Financial Services, Inc., DFS Financial Services LLC, Discover Bank and Morgan Stanley); and March 7, 2011 in the Eastern District of Pennsylvania (Carter v. Discover Financial Services, Inc., DFS Financial Services LLC, Discover Bank, Morgan Stanley et al.). All of the cases have been transferred to the U.S. District Court for the Northern District of Illinois pursuant to a multi-district litigation order issued by the Joint Panel on Multidistrict Litigation in February 2011. These class actions challenge the Company's marketing practices with respect to its payment protection fee product to cardmembers under various state laws and the Truth in Lending Act. The plaintiffs seek monetary remedies including unspecified damages and restitution, attorneys' fees and costs, and various forms of injunctive relief including an order rescinding the payment protection fee product enrollments of all class members. In June 2011, the Company and class counsel entered into a preliminary global settlement of all of the pending class actions. The settlement is subject to judicial approval.

On December 6, 2010, the Attorney General for the State of Minnesota filed a lawsuit against the Company in the District Court for Hennepin County, Minnesota (Minnesota v. Discover Financial Services, Discover Bank and DFS Services LLC). The lawsuit challenges the Company's enrollment of Discover cardmembers in various fee based products under Minnesota law. The remedies sought in the lawsuit include an injunction prohibiting the Company from engaging in the alleged violations, restitution for all persons allegedly injured by the complained of practices, civil penalties and costs. The Company will seek to vigorously defend all claims asserted against it.

On August 16, 2011, the Attorney General of West Virginia filed a lawsuit against the Company in the Circuit Court of Mason County, West Virginia (West Virginia v. Discover Financial Services, Inc., Discover Bank, DFS Services LLC et al.). The lawsuit asserts various claims related to the Company's marketing and administration of various fee based products under West Virginia law. The relief sought in the lawsuit includes an injunction prohibiting the company from engaging in the alleged violations, restitution and disgorgement of monies received from the complained of practices, civil penalties and costs. The Company will seek to vigorously defend all claims asserted against it.

On August 26, 2011, the Attorney General of Missouri issued a request for information to the Company in connection with an investigation to determine whether the Company has engaged in conduct that violates Missouri law in the marketing of its payment protection fee product to its credit card customers. The Company is cooperating with the Attorney General in the

Table of Contents

investigation.

13. Fair Value Disclosures

The Company is required to disclose the fair value of financial instruments for which it is practical to estimate fair value. To obtain fair values, observable market prices are used if available. In some instances, observable market prices are not readily available and fair value is determined using present value or other techniques appropriate for a particular financial instrument. These techniques involve some degree of judgment and, as a result, are not necessarily indicative of the amounts the Company would realize in a current market exchange. The use of different assumptions or estimation techniques may have a material effect on the estimated fair value amounts.

The following table provides the estimated fair values of financial instruments (dollars in thousands):

	August 31, 2011		November 30, 2010	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial Assets				
Cash and cash equivalents	\$3,957,525	\$3,957,525	\$5,098,733	\$5,098,733
Restricted cash	\$937,230	\$937,230	\$1,363,758	\$1,363,758
Other short-term investments	\$—	\$—	\$375,000	\$375,000
Investment securities:				
Available-for-sale	\$5,899,080	\$5,899,080	\$5,002,579	\$5,002,579
Held-to-maturity	\$53,088	\$51,189	\$72,816	\$70,195
Net loan receivables	\$51,809,393	\$52,802,885	\$45,532,295	\$45,835,543
Derivative financial instruments	\$60,955	\$60,955	\$4,995	\$4,995
Financial Liabilities				
Deposits	\$37,586,884	\$38,395,963	\$34,413,383	\$35,500,526
Short-term borrowings	\$100,000	\$100,000	\$—	\$—
Long-term borrowings—owed to securitization investors	\$15,260,509	\$15,698,374	\$14,919,400	\$15,148,534
Other long-term borrowings	\$2,457,691	\$2,834,879	\$2,786,328	\$3,118,967
Derivative financial instruments	\$4	\$4	\$6,594	\$6,594

Cash and cash equivalents. The carrying value of cash and cash equivalents approximates fair value due to the low level of risk these assets present to the Company as well as the relatively liquid nature of these assets, particularly given their short maturities.

Restricted cash. The carrying value of restricted cash approximates fair value due to the relatively liquid nature of these assets, particularly given the short maturities of the assets in which the restricted cash is invested.

Other short-term investments. The carrying value of other short-term investments approximates fair value due to the low level of risk these assets present to the Company as well as the relatively liquid nature of these assets, particularly given their maturities of less than one year.

Available-for-sale investment securities. Investment securities classified as available-for-sale consist of credit card asset-backed securities issued by other financial institutions, U.S. Treasury and government agency securities, and corporate debt securities. The fair value for the U.S. Treasury and government agency securities are valued based on quoted market prices for the same or similar securities. The fair value estimation techniques for the credit card

asset-backed securities issued by other financial institutions and corporate debt securities are discussed below.

Held-to-maturity investment securities. Held-to-maturity investment securities are generally valued based on quoted market prices for the same or similar securities.

Net loan receivables. The Company's loan receivables are comprised of credit card and installment loans, including the

Table of Contents

private student loans acquired from SLC. To estimate the fair value of loan receivables, loans are aggregated into pools of similar loan types, characteristics and expected repayment terms. The fair values of all loan receivables are estimated by discounting expected future cash flows using rates at which similar loans could be made under current market conditions.

Derivative financial instruments. The Company's derivative financial instruments consist of interest rate swaps and foreign currency forward contracts. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and option volatility. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. See Note 14: Derivatives and Hedging Activities for more information.

Deposits. The carrying values of money market deposits, non-interest bearing deposits, interest-bearing demand deposits and savings deposits approximate fair value due to the liquid nature of these deposits. For time deposits for which readily available market rates do not exist, fair values are estimated by discounting expected future cash flows using market rates currently offered for deposits with similar remaining maturities.

Short-term borrowings. The carrying values of short-term borrowings approximate fair value. Federal Funds purchased and repurchase agreements are short-term in nature and have maturities of less than one year.

Long-term borrowings—owed to securitization investors. Fair values of long-term borrowings owed to credit card securitization investors are determined utilizing quoted market prices of the same transactions. Fair values of long-term borrowings owed to student loan securitization investors are calculated by discounting cash flows using estimated assumptions including, among other things, maturity and market discount rates.

Other long-term borrowings. Fair values of other long-term borrowings are determined utilizing current observable market prices for those transactions, if available. If there are no observable market transactions, then fair values are determined by discounting cash flows of future interest accruals at market rates currently offered for borrowings with similar credit risks, remaining maturities and repricing terms.

Assets and Liabilities Measured at Fair Value on a Recurring Basis. ASC 820 defines fair value, establishes a fair value hierarchy that distinguishes between valuations that are based on observable inputs from those based on unobservable inputs, and requires certain disclosures about those measurements. In general, fair values determined by Level 1 inputs are defined as those that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Fair values determined by Level 2 inputs are those that utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active or inactive markets, quoted prices for the identical assets in an inactive market, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. The Company evaluates factors such as the frequency of transactions, the size of the bid-ask spread and the significance of adjustments made when considering transactions involving similar assets or liabilities to assess the relevance of those observed prices. If relevant and observable prices are available, the fair values of the related assets or liabilities would be classified as Level 2. Fair values determined by Level 3 inputs are those based on unobservable inputs, and include situations where there is little, if any, market activity for the asset or liability being valued. In instances in which the inputs used to measure fair value may fall into different levels of the fair value hierarchy, the level in the fair value

hierarchy within which the fair value measurement in its entirety is classified is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company may utilize both observable and unobservable inputs in determining the fair values of financial instruments classified within the Level 3 category. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and involves consideration of factors specific to the asset or liability.

Table of Contents

Disclosures concerning assets and liabilities measured at fair value on a recurring basis are as follows (dollars in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1) ⁽¹⁾	Significant Other Observable Inputs (Level 2) ⁽¹⁾	Significant Unobservable Inputs (Level 3)	Total
Balance at August 31, 2011				
Assets

Derivative financial instruments	\$ —	\$ 6,594	\$ —	\$6,594

(1) There were no transfers between Levels 1 and 2 within the fair value hierarchy for the three and nine months ended August 31, 2011 and 2010.

At August 31, 2011, amounts reported in credit card asset-backed securities issued by other institutions reflected senior-rated Class A securities having a par value of \$302.0 million and more junior-rated Class B and Class C securities with par values of \$32.0 million and \$22.3 million, respectively. The Class A securities had a weighted-average coupon of 0.67% and a weighted-average remaining maturity of 12.9 months, the Class B, 0.52% and 14.1 months, respectively, and the Class C, 0.63% and 10.6 months, respectively. The assets underlying these securities are predominantly prime general-purpose credit card loan receivables. Amounts reported in corporate debt securities reflected AAA-rated corporate debt obligations issued under the Temporary Liquidity Guarantee Program ("TLGP") that are guaranteed by the Federal Deposit Insurance Corporation ("FDIC") with a par value of \$495.0 million, a weighted-average coupon of 2.42% and a weighted-average remaining maturity of 8.6 months.

Regarding the corporate debt obligations issued under TLGP, fair values estimates are derived utilizing a spread relative to an underlying benchmark curve which reflects the terms and conditions of specific instruments being valued. Regarding credit card asset-backed securities, the expected cash flow models used to derive fair value

estimates utilize observable market data to the extent available and other valuation inputs such as benchmark yields, reported trades, broker quotes, issuer spreads, bids and offers, the priority of which may vary based on availability of information.

Table of Contents

The following tables provide changes in the Company's Level 3 assets and liabilities measured at fair value on a recurring basis. Net transfers into and/or out of Level 3 are presented using beginning of the period fair values excluding purchases and other settlements. There were no Level 3 assets or liabilities measured at fair value on a recurring basis at any point during the quarter ended August 31, 2011.

(1) Reflects unrealized pretax gains recorded in other comprehensive income in the condensed consolidated statement of financial condition.

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis. The Company also has assets that under certain conditions are subject to measurement at fair value on a non-recurring basis. These assets include those associated with acquired businesses, including goodwill and other intangible assets. For these assets, measurement at fair value in periods subsequent to their initial recognition is applicable if one or more is determined to be impaired. During the three and nine months ended August 31, 2011 and 2010, the Company had no impairments related to these assets.

As of August 31, 2011, the Company had not made any fair value elections with respect to any of its eligible assets and liabilities as permitted under ASC 825-10-25.

Table of Contents

14. Derivatives and Hedging Activities

The Company uses derivatives to manage its exposure to various financial risks. The Company does not enter into derivatives for trading or speculative purposes. Derivatives not designated as hedges are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict requirements of hedge accounting. All derivatives are recorded in other assets at their gross positive fair values and in accrued expenses and other liabilities at their gross negative fair values.

Derivatives may give rise to counterparty credit risk. The Company enters into derivative transactions with established dealers that meet minimum credit criteria established by the Company. All counterparties must be pre-approved prior to engaging in any transaction with the Company. Counterparties are monitored on a periodic basis by the Company to ensure compliance with the Company's risk policies and limits.

Derivatives designated as Hedges

Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges.

Cash Flow Hedges. The Company uses interest rate swaps to manage its exposure to changes in interest rates related to future cash flows resulting from credit card loan receivables. These transactions are hedged for a maximum period of three years. The derivatives are designated as a hedge of the risk of overall changes in cash flows on the Company's portfolios of prime-based interest receipts and qualify for hedge accounting in accordance with ASC Topic 815, Derivatives and Hedging ("ASC 815").

The effective portion of the change in the fair value of derivatives designated as cash flow hedges is recorded in other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted cash flows affect earnings. The ineffective portion of the change in fair value of the derivative, if any, is recognized directly in earnings. Amounts reported in accumulated other comprehensive income related to derivatives at August 31, 2011 will be reclassified to interest income as interest payments are received on certain of the Company's floating rate credit card loan receivables. During the next 12 months, the Company estimates it will reclassify to earnings \$7.7 million of pretax gains related to its derivatives designated as cash flow hedges.

Fair Value Hedges. The Company is exposed to changes in fair value of certain of its fixed rate debt obligations due to changes in interest rates. During the three and nine months ended August 31, 2011, the Company used interest rate swaps to manage its exposure to changes in fair value of certain fixed rate senior notes and interest-bearing brokered deposits attributable to changes in LIBOR, a benchmark interest rate as defined by ASC 815. The interest rate swaps involve the receipt of fixed rate amounts from the respective counterparties in exchange for the Company making payments of variable rate amounts over the life of the agreements without exchange of the underlying notional amounts. These interest rate swaps qualify as fair value hedges in accordance with ASC 815. Changes in both (i) the fair values of the derivatives and (ii) the hedged fixed rate senior notes and interest-bearing brokered deposits relating to the risk being hedged were recorded in interest expense and provided substantial offset to one another. Ineffectiveness related to these fair value hedges was recorded in interest expense. Any basis differences between the fair value and the carrying amount of the hedged fixed rate senior notes and interest-bearing brokered deposits at the inception of the hedging relationship is amortized and recorded in interest expense.

Derivatives not designated as Hedges

Foreign Exchange Forward Contracts. The Company has derivatives that are economic hedges and are not designated as hedges for accounting purposes. The Company enters into foreign exchange forward contracts to manage foreign currency risk. Foreign exchange forward contracts involve the purchase or sale of a designated currency at an agreed upon rate for settlement on a specified date. Changes in the fair value of these contracts are recorded in other income.

Interest Rate Swaps. The Company also may have from time to time interest rate swap agreements that are not designated as hedges. As part of its acquisition of SLC, the Company also acquired an interest rate swap related to the securitized debt assumed in the SLC transaction. Such agreements are not speculative and are also used to manage interest rate risk but are not designated for hedge accounting. Changes in the fair value of these contracts are recorded in other income.

Table of Contents

The following table summarizes the fair value (including accrued interest) and related outstanding notional amounts of derivative instruments and indicates where within the statement of financial condition each is reported as of August 31, 2011 and November 30, 2010. See Note 13: Fair Value Disclosures for a description of the valuation methodologies of derivatives. (Dollars in thousands, except notional amounts):

	August 31, 2011				November 30, 2010		
	Balance Sheet Location				Balance Sheet Location		
	Notional Amount	Number of Transactions	Other Assets (At Fair Value)	Accrued Expenses and Other Liabilities (At Fair Value)	Notional Amount	Other Assets (At Fair Value)	Accrued Expenses and Other Liabilities (At Fair Value)
Derivatives designated as hedges:							
Interest rate swaps—Cash Flow hedge	\$2,000,000	8	\$ 16,721	\$ —	\$2,000,000	\$ 4,989	\$ —
Interest rate swaps—Fair Value hedge	\$1,543,905	64	\$ 38,998	\$ 4	\$400,000	\$ —	\$ 6,587
Derivatives not designated as hedges:							
Foreign exchange forward contracts ⁽¹⁾	\$8,471	2	\$38	\$ —	\$7,800	\$ 6	\$ 7
Interest rate swap	\$1,367,809	1	\$5,198	\$ —	\$—	\$—	\$—

(1) The foreign exchange forward contracts have notional amounts of EUR 4 million and GBP 1.7 million as of August 31, 2011 and November 30, 2010.

The following table summarizes the impact of the derivative instruments on income, and indicates where within the condensed consolidated statements of income such impact is reported for the three and nine months ended August 31, 2011 and 2010 (dollars in thousands):

	Location	For the Three Months Ended August 31,		For the Nine Months Ended August 31,

Table of Contents

Collateral Requirements and Credit-Risk Related Contingency Features

For its interest rate swaps, the Company has master netting arrangements and minimum collateral posting thresholds with its counterparties. Collateral is required by either the Company or the counterparty depending on the net fair value position of all interest rate swaps held with that counterparty. The Company may also be required to post collateral with a counterparty depending on the credit rating it or Discover Bank receives from specified major credit rating agencies. Collateral amounts recorded in the condensed consolidated statement of financial condition are based on the net collateral receivable or payable position for each counterparty. Collateral receivable or payable amounts are not offset against the fair value of the interest rate swap, but are recorded separately in other assets or deposits.

As of August 31, 2011, the Company had a right to reclaim \$4 million of cash collateral that had been posted (net of amounts required to be posted by the counterparty) because the credit rating of the Company did not meet specified thresholds. At August 31, 2011, Discover Bank's credit rating met specified thresholds set by its counterparties. However, if Discover Bank's credit rating is reduced to below investment grade, the Company would be required to post collateral, which would have been \$53 million as of August 31, 2011.

As of August 31, 2011, the Company had interest rate swaps in a net asset position with all of its counterparties, inclusive of accrued interest. If the Company had breached any provisions of the derivative agreements, there would have been no obligation to settle termination values since none of the derivative agreements were in net liability positions as of August 31, 2011.

The Company also has agreements with certain of its derivative counterparties that contain a provision where if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations.

15. Segment Disclosures

The Company's business activities are managed in two segments: Direct Banking and Payment Services.

Direct Banking. The Direct Banking segment includes Discover card-branded credit cards issued to individuals and small businesses and other consumer products and services, including personal loans, student loans, prepaid cards and other consumer lending and deposit products offered through the Company's Discover Bank subsidiary. The majority of the Direct Banking revenues relate to interest income earned on each of its loan products. Additionally, the Company's credit card products generate substantially all of the Company's revenues related to discount and interchange, fee products and loan fee income.

Payment Services. The Payment Services segment includes PULSE, an automated teller machine, debit and electronic funds transfer network; Diners Club, a global payments network; and the Company's third-party issuing business, which includes credit, debit and prepaid cards issued on the Discover Network by third parties. The majority of the Payment Services revenues relate to transaction processing revenue from PULSE and royalty and licensee revenue (included in other income) from Diners Club.

The business segment reporting provided to and used by the Company's chief operating decision maker is prepared using the following principles and allocation conventions:

Corporate overhead is not allocated between segments; all corporate overhead is included in the Direct Banking segment.

Through its operation of the Discover Network, the Direct Banking segment incurs fixed marketing, servicing and infrastructure costs that are not specifically allocated among the operating segments.

The assets of the Company are not allocated among the operating segments in the information reviewed by the Company's chief operating decision maker.

The revenues of each segment are derived from external sources. The segments do not earn revenue from intercompany sources.

Income taxes are not specifically allocated among the operating segments in the information reviewed by the Company's chief operating decision maker.

16. Subsequent Events

Long-term Borrowings. On September 20, 2011, DCENT, one of the Company's securitization trusts, issued \$800 million of credit card asset-backed securities in a registered public offering at an interest rate of one-month LIBOR plus 21 basis points and with a maturity of three years.

Cash Dividend. On September 14, 2011, the Company announced a cash dividend of \$0.06 per share, payable on October 20, 2011, to stockholders of record at the close of business on October 6, 2011.

Table of Contents

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this quarterly report. This quarterly report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements, which speak to our expected business and financial performance, among other matters, contain words such as “believe,” “expect,” “anticipate,” “intend,” “plan,” “aim,” “will,” “may,” “should,” “could,” “would,” “likely,” and similar expressions. Such statements are based upon the current beliefs and expectations of our management and are subject to significant risks and uncertainties. Actual results may differ materially from those set forth in the forward-looking statements. These forward-looking statements speak only as of the date of this quarterly report, and there is no undertaking to update or revise them as more information becomes available.

The following factors, among others, could cause actual results to differ materially from those set forth in the forward-looking statements: changes in economic variables, such as the availability of consumer credit, the housing market, energy costs, the number and size of personal bankruptcy filings, the rate of unemployment and the levels of consumer confidence and consumer debt, and investor sentiment; the impact of current, pending and future legislation, regulation and regulatory and legal actions, including new laws and rules and rules related to financial regulatory reform, new laws and rules limiting or modifying certain credit card practices, new laws and rules affecting securitizations, funding and liquidity, and bank holding company regulations and supervisory guidance on our ability to execute our business strategies; the actions and initiatives of current and potential competitors; our ability to manage our expenses; our ability to successfully achieve card acceptance across our networks and maintain relationships with network participants; our ability to sustain and grow our private student loan business; our ability to manage our credit risk, market risk, liquidity risk, operational risk, legal and compliance risk, and strategic risk; the availability and cost of funding and capital; access to deposit, securitization, equity, debt and credit markets; the impact of rating agency actions; the level and volatility of equity prices, commodity prices and interest rates, currency values, investments, other market fluctuations and other market indices; losses in our investment portfolio; restrictions on our operations resulting from financing transactions; our ability to increase or sustain Discover card usage or attract new customers; our ability to attract new merchants and maintain relationships with current merchants; the effect of political, economic and market conditions, geopolitical events and unforeseen or catastrophic events; fraudulent activities or material security breaches of key systems; our ability to introduce new products and services; our ability to sustain our investment in new technology and manage our relationships with third-party vendors; our ability to collect amounts for disputed transactions from merchants and merchant acquirers; our ability to attract and retain employees; our ability to protect our reputation and our intellectual property; difficulty obtaining regulatory approval for, financing, transitioning, integrating or managing the expenses of acquisitions of or investments in new businesses, products or technologies; and new lawsuits, investigations or similar matters or unanticipated developments related to current matters. We routinely evaluate and may pursue acquisitions of or investments in businesses, products, technologies, loan portfolios or deposits, which may involve payment in cash or our debt or equity securities. Our pending acquisition of the mortgage origination business of Tree.com, Inc. is subject to closing conditions including regulatory approvals. Our pending acquisition of private student loans from Citibank, N.A. is subject to customary closing conditions. For additional information on these pending acquisitions, see our current reports on Form 8-K filed with the SEC on May 12, 2011 and September 1, 2011.

Additional factors that could cause our results to differ materially from those described below can be found in this section in this quarterly report and in “Risk Factors,” “Business—Competition,” “Business—Supervision and Regulation” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the fiscal year ended November 30, 2010, filed with the SEC and available at the SEC’s internet site (<http://www.sec.gov>).

Introduction and Overview

Edgar Filing: Discover Financial Services - Form 10-Q

Discover Financial Services is a direct banking and payment services company. Through our Discover Bank subsidiary, we offer our customers credit cards, student loans, personal loans and deposit products. Through our DFS Services LLC subsidiary and its subsidiaries, we operate the Discover Network, the PULSE Network (“PULSE”) and Diners Club International (“Diners Club”). The Discover Network is a payment card transaction processing network for Discover card-branded and third-party issued credit, debit and prepaid cards. PULSE operates an electronic funds transfer network, providing financial institutions issuing debit cards on the PULSE Network with access to ATMs domestically and internationally, as well as point of sale terminals at retail locations throughout the U.S. for debit card transactions. Diners Club is a global payments network of licensees, which are generally financial institutions, that issue Diners Club branded credit cards and/or provide card acceptance services. Our fiscal year ends on November 30 of each year.

Our primary revenues consist of interest income earned on loan receivables and fees earned from customers, merchants and issuers. The primary expenses required to operate our business include funding costs (interest expense), loan loss

Table of Contents

provisions, customer rewards, and expenses incurred to grow, manage and service our loan receivables and networks. Our business activities are funded primarily through consumer deposits, securitization of loan receivables and the issuance of both secured and unsecured debt.

Third Quarter 2011 Highlights

Net income was \$649 million in the third quarter 2011 as compared to \$261 million in the third quarter 2010.

Discover card sales volume showed strong year-over-year growth of 9% with \$26.3 billion in volume in the quarter.

Credit card loans increased \$930 million, or 2%, as compared to the third quarter of 2010 and grew \$1.2 billion, or 3%, from second quarter 2011. Total loans increased 8% from the prior year to \$54.1 billion.

Credit performance continued to improve in the third quarter of 2011. The delinquency rate for credit card loans over 30 days past due at August 31, 2011 was 2.43% compared to 2.79% at May 31, 2011. Our credit card net charge-off rate declined to 3.85% for the quarter as compared to 5.01% for the second quarter 2011. Additionally, we had a \$359 million reduction of our allowance for loan losses during the third quarter of 2011.

Payment Services continues to grow profitably with pretax income of \$38 million in the quarter. Transaction volume for the segment was \$45 billion in the quarter, an increase of 15% from the same period in the prior year.

We agreed to acquire approximately \$2.5 billion of private student loans from Citibank, N.A. ("Citi") for a purchase price equal to 99% of the outstanding aggregate principal and accrued interest balance of the purchased loans through the closing date. The acquisition is expected to close on or around September 30, 2011, subject to customary closing conditions.

We repurchased 8.4 million shares of our common stock in the third quarter for approximately \$198 million through our share repurchase program.

Recent Developments

We issued \$800 million of credit card asset-backed securities in a registered public offering on September 20, 2011 at an interest rate of one-month LIBOR plus 21 basis points and with a maturity of three years.

Outlook

Credit performance continued to improve in the third quarter as shown by the decline in the delinquency rate of loans 30 or more days past due. We expect our delinquency rates through the end of 2011 to remain lower compared to 2010 levels, which should result in continued lower principal and interest charge-offs. As we approach cyclical lows in delinquency and net charge-off rates, we expect the level of reserve releases to decline. As our loan portfolio continues to grow, we may need to build loan loss reserves in 2012.

The implementation of the Credit Card Accountability Responsibility and Disclosure Act of 2009 (the "CARD Act") has had and will continue to have an unfavorable impact on the yield of our loan portfolio. We anticipate further yield compression in the fourth quarter due to increased promotional offer balances in the third quarter and continued growth in lower-rate student and personal loans, partially offset by ongoing improvement in credit and reduced funding costs. Net interest margin is expected to decrease slightly in the fourth quarter of 2011 as we plan to close on the previously announced acquisition of \$2.5 billion in additional private student loans.

Our funding plan contemplates accessing all of our current funding channels. We expect to issue additional credit card asset-backed securities when we believe market conditions are favorable. We intend to maintain a strong capital level while investing for future growth, and returning capital to shareholders through dividends and our share repurchase program.

Investments in marketing and advertising during 2011 are expected to lead to an increase in Discover card sales volume during the fourth quarter of 2011. We will continue to emphasize marketing, rewards programs, and merchant acceptance to strengthen our brand. Additionally, we continue to pursue opportunities to strengthen our core business. We expect our marketing efforts, increased sales volume, and positive credit performance trends to contribute to

modest year over year growth in credit card receivables in the fourth quarter of 2011.

Table of Contents

Legislative and Regulatory Developments

Financial Regulatory Reform

The 2010 Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Reform Act”) contains a comprehensive set of provisions designed to govern the practices and oversight of financial institutions and other participants in the financial markets. The Reform Act, as well as other legislative and regulatory changes, could have a significant impact on us by, for example, requiring us to change our business practices, requiring us to meet more stringent capital, liquidity and leverage ratio requirements, limiting our ability to pursue business opportunities, imposing additional costs on us, limiting fees we can charge for services, impacting the value of our assets, or otherwise adversely affecting our businesses.

The Reform Act addresses risks to the economy and the payments system, especially those posed by large systemically significant financial firms. Under the Reform Act, bank holding companies with \$50 billion or more in total consolidated assets, including Discover, are considered systemically significant and are subject to heightened prudential standards, including heightened capital, leverage, liquidity, credit exposure and risk management requirements and other requirements that may be recommended by the new Financial Stability Oversight Council and implemented by the Board of Governors of the Federal Reserve System (the “Federal Reserve”).

On September 13, 2011, the FDIC approved a final rule pursuant to Section 165(d) of the Reform Act which requires bank holding companies with \$50 billion or more in consolidated assets (which would include us) and certain other financial companies to submit a resolution plan (or so-called “living will”) to the FDIC, the Federal Reserve Board, and the Financial Stability Oversight Council for their rapid and orderly liquidation in the event of material financial distress or failure. On the same date, the FDIC issued an interim final rule requiring insured depository institutions with assets of \$50 billion or more (which would include Discover Bank) to submit a contingent plan to the FDIC for their resolution in the event of failure. These rules are meant to be complementary and use the same staggered submission schedule. Under the rules, the initial resolution plans for us and Discover Bank are required to be submitted on or before December 31, 2013. Thereafter, we and Discover Bank are required to update such plans annually and, in certain circumstances, more frequently.

The Reform Act also provides for restrictions on and additional disclosure of executive compensation, additional corporate governance requirements and far more stringent requirements with respect to affiliate transactions and mergers and acquisitions. The Reform Act also grants broad new powers to the government to seize and conduct an orderly liquidation of failing systemically-important financial firms, including bank holding companies and other nonbank financial companies, and to recover the costs of such liquidations through assessments on large financial firms.

Effective July 2011, the Reform Act requires a bank holding company that elects treatment as a financial holding company, such as Discover, to be both well-capitalized and well-managed in addition to the existing requirement that a financial holding company's subsidiary banks be well-capitalized and well-managed. If we were to fail to meet requirements to be a financial holding company, we could be restricted from engaging in new financial activities or acquisitions or be required to discontinue or divest existing activities that are not generally permissible for bank holding companies.

The Reform Act established the Consumer Financial Protection Bureau (the “CFPB”), which regulates consumer financial products and services provided by certain financial services providers, including Discover. On July 21, 2011, many consumer financial protection functions formerly assigned to the federal banking and other agencies transferred to the CFPB. The CFPB is authorized to prevent “unfair, deceptive or abusive practices” and ensure consistent enforcement of laws so that all consumers have access to markets for consumer financial products and services that are fair, transparent and competitive. The CFPB has rulemaking and interpretive authority under the Reform Act and other federal consumer financial services laws (including the CARD Act), as well as broad supervisory, examination and enforcement authority over large providers of consumer financial products and services, such as Discover. State officials are authorized to enforce consumer protection rules issued by the CFPB and other requirements of the Reform Act. Prior to the confirmation of a CFPB Director by the U.S. Senate, there are limitations on the CFPB's authority, including its ability to promulgate regulations. However, the CFPB is already engaged in consumer

education activities and has established an online process to collect consumer complaints about credit cards.

In addition, the Reform Act requires that interchange fees received or charged by payment card issuers on debit card and certain prepaid transactions be “reasonable” and “proportional” to the issuer's cost in connection with such transactions. It also prohibits debit and prepaid card networks and issuers from requiring debit and prepaid card transactions to be processed solely on a single payment network, or two or more affiliated payment networks. In addition, provisions of the Reform Act prohibit credit/debit network rules that restrict merchants from offering discounts to customers in order to encourage them to use a particular form of payment, or from setting minimum transaction amounts of \$10.00 or less for use of credit cards, as long as such merchant practices do not differentiate on the basis of the issuer or network. The Federal Reserve issued final implementing regulations with respect to the interchange fee and routing provisions on June 29, 2011, some of which become effective on October 1, 2011. Discover Network and PULSE are reviewing and modifying operating rules and interchange fee

Table of Contents

schedules to ensure consistency with the Reform Act and Federal Reserve implementing regulations. The ultimate impact of these laws and regulations will depend upon the actions of our competitors and the behavior of other marketplace participants. It is uncertain how PULSE's business practices, network transaction volume, revenue, and prospects for future growth, as well as the debit card market as a whole, may be impacted.

The Reform Act also imposes a number of significant changes relating to the asset-backed securities and structured finance markets, which may impact our ability and/or desire to utilize those markets to meet funding and liquidity needs. For more information regarding these and other changes related to asset-backed securities, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Legislative and Regulatory Developments - Asset-Backed Securities Regulations" in our Quarterly Report on Form 10-Q for the quarter ended February 28, 2011 and "Liquidity and Capital Resources - Funding Sources - Credit Card Securitization Financing" in this report.

It is uncertain at this time what the final rules implementing many of the provisions of the Reform Act will ultimately look like and what impact they will have on our business and operations. In addition, the Reform Act mandates multiple studies, which could result in additional legislative or regulatory action. We may be required to invest significant management time and resources to address the various provisions of the Reform Act and the numerous regulations that are required to be issued under it. The Reform Act, any related legislation and any implementing regulations could have a material adverse effect on our business, results of operations, cash flows and financial condition.

Regulatory Initiatives Related to Capital and Liquidity

In December 2010, the Basel Committee released the Basel III rules text, which includes significant changes to bank capital, leverage and liquidity requirements. Implementation of Basel III in the U.S. will require implementing regulations and guidelines by U.S. banking regulators, which may differ in significant ways from the recommendations published by the Basel Committee. It is unclear how U.S. banking regulators will define "well-capitalized" in their implementation of Basel III. For more information regarding Basel III, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Legislative and Regulatory Developments - International Initiatives Related to Capital and Liquidity" in our Quarterly Report on Form 10-Q for the quarter ended February 28, 2011.

The Reform Act also includes provisions related to increased capital and liquidity requirements. Such provisions would establish minimum leverage and risk-based capital requirements on a consolidated basis for all depository institution holding companies and insured depository institutions that cannot be less than the strictest requirements in effect for depository institutions as of the date of enactment of the Reform Act (i.e., July 21, 2010).

In June 2011, the bank regulatory agencies released proposals related to stress testing and capital planning that would apply to Discover. On June 9, 2011, the agencies jointly issued proposed guidance on stress testing that outlines principles for a satisfactory stress testing framework and describes the manner in which stress testing should be employed as an integral component of risk management and capital and liquidity planning. In addition, on June 10, 2011, the Federal Reserve issued a proposed rule that would require us to submit an annual capital plan for review and to provide prior notice to the Federal Reserve under certain circumstances before making a capital distribution (including a dividend payment or share repurchase). The proposed rule includes a list of mandatory elements the capital plan will be required to contain, a list of factors the Federal Reserve will consider in reviewing the capital plan and a description of actions to be taken by the Federal Reserve in response to submission of the capital plan.

We are not able to predict at this time the precise content of capital and liquidity guidelines or regulations that may be adopted by regulatory agencies having authority over us and our subsidiaries or the impact that any changes in regulation would have on us. However, we expect that the new standards will generally require us or our banking subsidiaries to maintain more capital, with common equity as a more predominant component, or manage the configuration of our assets and liabilities in order to comply with formulaic liquidity requirements, which could significantly impact our return on equity, financial condition, operations, capital position and ability to pursue business opportunities.

Table of Contents

Segments

We manage our business activities in two segments: Direct Banking and Payment Services. In compiling the segment results that follow, our Direct Banking segment bears all overhead costs that are not specifically associated with a particular segment and all costs associated with Discover Network marketing, servicing and infrastructure, with the exception of an allocation of direct and incremental costs driven by our Payment Services segment.

Direct Banking. The Direct Banking segment includes Discover card-branded credit cards issued to individuals and small businesses and other consumer products and services, including personal loans, student loans, prepaid cards and other consumer lending and deposit products offered through the Company's Discover Bank subsidiary. The majority of the Direct Banking revenues relate to interest income earned on each of its loan products. Additionally, the Company's credit card products generate substantially all of the Company's revenues related to discount and interchange, fee products and loan fee income.

Payment Services. The Payment Services segment includes PULSE, an automated teller machine, debit and electronic funds transfer network; Diners Club, a global payments network; and the Company's third-party issuing business, which includes credit, debit and prepaid cards issued on the Discover Network by third parties. The majority of the Payment Services revenues relate to transaction processing revenue from PULSE and royalty and licensee revenue (included in other income) from Diners Club.

(1) Represents gross proprietary sales volume on the Discover Network.

(2) Represents Discover card activity related to net sales, balance transfers, cash advances and fee-based products.

(3) Represents Discover card activity related to net sales.

Direct Banking

Our Direct Banking segment reported pretax income of \$1.0 billion and \$2.6 billion for the three and nine months ended August 31, 2011, respectively, as compared to pretax income of \$395 million and \$574 million for the three and nine months ended August 31, 2010, respectively.

Loan receivables totaled \$54.1 billion at August 31, 2011, which was up from \$48.8 billion at November 30, 2010. This was primarily driven by the increase in private student loans due to the acquisition of The Student Loan Corporation ("SLC") (see Note 2: Business Combinations to our condensed consolidated financial statements) as well as an increase in credit card promotional offer balances. Credit card loan receivables were \$46.2 billion at August 31, 2011, which was up from \$45.2 billion at November 30, 2010. Discover card sales volume was \$26.3 billion and \$75.1 billion for the three and nine months ended August 31, 2011, respectively, an increase of 9% and 8% as compared to the same periods in the prior year. This increase is driven by growth in spending from both new and existing customers, along with increased gas prices.

Net interest income improved in the three and nine months ended August 31, 2011 as compared to the three and nine months ended August 31, 2010 due to an increase in total loan receivables and lower funding-related costs. This was partially offset by a decline in yield. For a more detailed discussion on net interest income, see "Net Interest Income."

At August 31, 2011, our delinquency rate for credit card loans over 30 days past due was 2.43% as compared to 4.06% at November 30, 2010, reflective of continued improvement in credit performance. For the three and nine months ended August 31, 2011, our net charge-off rate on credit cards declined to 3.85% and 4.93%, respectively, as compared to 7.73% and 8.44% for the three and nine months ended August 31, 2010. A reduction in the loan loss reserve rate and a decline in the level of net charge-offs led to a decline in the provision for loan losses for the three and nine months ended August 31, 2011 as compared to the same period in 2010. For a more detailed discussion on

provision for loan losses, see “-Loan Quality-Provision and Allowance for Loan Losses.”

Other income decreased for the three months ended August 31, 2011, as compared to the same period in 2010. This decrease is primarily attributable to the inclusion of a gain of \$19.6 million related to the liquidation of the collateral supporting our investment in the asset-backed commercial paper notes of Golden Key U.S. LLC ("Golden Key") during 2010. There was also a decrease in loan fee income due to lower late fee income, partially offset by lower related charge-offs. These declines were offset by an increase in discount and interchange revenue. The increase in discount and interchange revenue was driven

Table of Contents

by higher sales volume, partially offset by an increase in Cashback Bonus rewards earned by our customers. In addition, other income for the three months ended August 31, 2011 benefited from the inclusion of income from the transition service agreement related to SLC, which was acquired in the first quarter of 2011.

Total other income increased for the nine months ended August 31, 2011 as compared to the same period in 2010, primarily due to the inclusion of income from the transition service agreement, as well as the purchase gain of approximately \$16 million related to the acquisition of SLC in first quarter 2011 (see Note 2: Business Combinations to our condensed consolidated financial statements). Furthermore, there was an increase in income from the sale of fee products. These increases were partially offset by declines in loan fee income and losses on investments. Loan fee income declined due to the implementation of the provisions of the CARD Act which resulted in lower late fees and the discontinuance of overlimit fees on consumer credit card loans. Gain on investments declined for nine months ended August 31, 2011 as compared to the same period in 2010 due to the inclusion of a gain of \$19.6 million related to the liquidation of the collateral supporting our Golden Key investment during 2010. There was not a similar benefit recognized in 2011.

Total other expenses increased for the three months ended August 31, 2011 as compared to the same period in 2010 due to various factors including higher compensation expense. Professional fees increased due to higher costs related to key technology and growth initiatives, costs relating to the SLC acquisition, and an increase in costs related to recovering charged-off accounts. Other expense increased for the three months ended August 31, 2011 as compared to the same period in 2010 due to a number of factors. There were higher expenses relating to incentive payments to increase global acceptance for the Discover Network. Furthermore, other expense increased due to higher fraud costs as well as expenses related to SLC.

Total other expense increased for the nine months ended August 31, 2011 as compared to the same period in 2010 primarily due to higher compensation expenses, and higher marketing and business development costs due to an increase in investments in new account acquisitions. Professional fees also increased due to higher costs related to key technology and growth initiatives, costs relating to the SLC acquisition, as well as an increase in costs related to recovering charged-off accounts. Furthermore, other expense also increased due to an increase in fraud related costs and an increase in legal reserves related to pending litigation. For the nine months ended August 31, 2010, other expense benefited from a \$29 million expense reversal related to the payment to Morgan Stanley under an amendment to the special dividend agreement that occurred in the first quarter of 2010. There was not a similar benefit recognized in 2011.

Payment Services

Our Payment Services segment reported pretax income of \$38 million and \$124 million for the three and nine months ended August 31, 2011, respectively, up \$1 million and \$14 million, as compared to the three and nine months ended August 31, 2010, respectively. Revenues increased during both periods as a result of higher volumes and margins from transactions on the PULSE network. Expenses increased for both periods due to higher investments related to enhancing infrastructure.

Transaction dollar volume increased \$6 million and \$22 million for the three and nine months ended August 31, 2011, respectively, as compared to the three and nine months ended August 31, 2010, primarily driven by increased PULSE volume. The number of transactions on the PULSE network increased by 8% and 20% for the three and nine months ended August 31, 2011, respectively, as compared to the same periods in 2010.

Critical Accounting Estimates

In preparing our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States ("GAAP"), management must make judgments and use estimates and assumptions about the effects of matters that are uncertain. For estimates that involve a high degree of judgment and subjectivity, it is

possible that different estimates could reasonably be derived for the same period. For estimates that are particularly sensitive to changes in economic or market conditions, significant changes to the estimated amount from period to period are also possible. Management believes the current assumptions and other considerations used to estimate amounts reflected in our condensed consolidated financial statements are appropriate. However, if actual experience differs from the assumptions and other considerations used in estimating amounts in our consolidated financial statements, the resulting changes could have a material effect on our consolidated results of operations and, in certain cases, could have a material effect on our consolidated financial condition. Management has identified the estimates related to our allowance for loan losses, the accrual of credit card customer rewards cost, the evaluation of goodwill and other nonamortizable intangible assets for potential impairment and the accrual of income taxes as critical accounting estimates. These critical accounting estimates are discussed in greater detail in our annual report on Form 10-K for the fiscal year ended November 30, 2010. That discussion can be found within “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under the heading “Critical Accounting Estimates.” There have not been any material changes in the methods used to formulate these critical accounting estimates from those discussed in our annual report on Form 10-K for the fiscal year ended November 30, 2010.

Table of Contents

In the first quarter 2011, we determined the estimates related to our accounting for purchased credit-impaired ("PCI") loans acquired from SLC to be critical accounting estimates. The estimate of expected future cash flows on PCI loans determines the amount of yield we can recognize in future periods and impacts whether a loan loss reserve must be established for these loans. We reevaluate the amount and timing of expected cash flows quarterly. Because estimates of expected future cash flows on PCI loans involve assumptions and significant judgment, it is reasonably possible that others could derive different estimates than ours for the same periods. In addition, changes in estimates from one period to the next can have a significant impact on our consolidated financial condition and results of operations. A decrease in expected cash flows involving an increase in estimated credit losses would result in an immediate charge to earnings for the recognition of a loan loss provision. Increases or decreases in expected cash flows related solely to changes in estimated prepayments or to changes in variable interest rate indices would result in prospective yield adjustments over the remaining life of the loans. An increase in expected cash flows due to a reduction in expected credit losses would result first in the reversal of any previously established loan loss reserve on PCI loans through an immediate credit to earnings and then, if needed, a prospective adjustment to yield over the remaining life of the loans. The accounting and estimates used in our calculations are discussed further in Note 4: Loan Receivables to our condensed consolidated financial statements.

Earnings Summary

The following table outlines changes in our condensed consolidated statements of income for the periods presented (dollars in thousands):

	For the Three Months Ended August 31,		2011 vs. 2010 increase (decrease)			For the Nine Months Ended August 31,		2011 vs. 2010 increase (decrease)		
	2011	2010	\$	%		2011	2010			
Interest income	\$1,599,092	\$1,535,939	\$63,153	4 %		\$4,725,334	\$4,646,871	\$78,463	2 %

Net Interest Income

The tables that follow this section have been provided to supplement the discussion below and provide further analysis of net interest income, net interest margin and the impact of rate and volume changes on net interest income. Net interest income represents the difference between interest income earned on our interest-earning assets and the interest expense incurred to finance those assets. We analyze net interest income in total by calculating net interest margin (interest income, net of interest expense, as a percentage of average total loan receivables) and net yield on interest-bearing assets (net interest income as a percentage of average total interest-earning assets). We also separately consider the impact of the level of loan receivables and the related interest yield and the impact of the cost of funds related to each of our funding sources, along with the income generated by our liquidity investment portfolio, on net interest income.

Our interest-earning assets consist of: (i) loan receivables, (ii) cash and cash equivalents, which includes amounts on deposit with the Federal Reserve, highly rated certificates of deposit, and triple-A rated government mutual funds, (iii) restricted cash, (iv) short-term investments and (v) investment securities. Our interest-bearing liabilities consist primarily of deposits, both direct-to-consumer and brokered, and long-term borrowings, including amounts owed to securitization investors. Net interest income is influenced by the following:

- The level and composition of loan receivables, including the proportion of credit card loans to other consumer loans, as well as the proportion of loan receivables bearing interest at promotional rates as compared to standard rates;
- The credit performance of our loans, particularly with regard to charge-offs of finance charges, which reduce interest income;
- The terms of long-term borrowings and certificates of deposit upon initial offering, including maturity and interest rate;
- The level and composition of other interest-bearing assets and liabilities, including our liquidity investment portfolio;
- Changes in the interest rate environment, including the levels of interest rates and the relationships among interest rate indices, such as the prime rate, the Federal Funds rate and LIBOR; and
- The effectiveness of interest rate swaps in our interest rate risk management program.

Net interest income improved in the three and nine months ended August 31, 2011 as compared to the three and nine months ended August 31, 2010 due to an increase in loan receivables and lower funding related costs. This was partially offset by a decline in yield. This, along with other factors affecting net interest income, is discussed in further detail below.

Interest income on loan receivables increased during both the three and nine months ended August 31, 2011 as compared to the same periods in 2010, as an increase in interest income from other consumer loans was partially offset by a decline in interest income from credit card loans. The increase in interest income from other consumer loans for both the three and nine months ended August 31, 2011 as compared to the same periods in 2010 is primarily attributable to the acquisition of SLC during the first quarter of 2011, as well as growth in personal loans. For the three months ended August 31, 2011, the decline in interest income from credit card loans was primarily due to a decline in yield caused by an increase in promotional rate balances and an increase in customers who pay their balances in full, partially offset by lower interest charge-offs. Furthermore, the decline in yield was also impacted by the CARD Act that was implemented in 2010, which led to restrictions on imposing default interest rates on existing balances. For the three months ended August 31, 2011, these declines were partially offset by higher income relating to higher average levels of credit card loan receivables. However, for the nine months ended August 31, 2011, the average level of credit card loan receivables declined, causing a further decrease in interest income from credit card receivables for the period.

Interest expense declined in the three and nine months ended August 31, 2011 as compared to the same periods in 2010. This was primarily due to a decline in interest expense related to maturities of deposits bearing higher interest

rates. This was partially offset by an increase in interest expense on securitized borrowings, primarily due to the acquisition of three SLC securitization trusts in the first quarter of 2011. Although interest expense on securitized borrowings increased, the average level of securitized borrowings decreased for the nine months ended August 31, 2011 as compared to the same periods in 2010. This is primarily because a substantial portion of the securitized borrowings that matured in 2010 had been issued at lower interest rates than the issuances that have not yet matured.

Interest income on other interest-earning assets, which largely relates to investment income on our liquidity investment portfolio, increased primarily due to a shift in the mix of our liquidity investment portfolio in the fourth quarter of 2010 from cash and cash equivalents to investments in securities of the U.S Treasury and U.S. government agencies, which typically have a higher yield than cash.

Interest rate spread ⁽⁸⁾		7.21	%		6.70	%

Average balances of loan receivables include non-accruing loans, which are included in the yield calculations. If (1) the non-accruing loan balances were excluded, there would not be a material impact on the amounts reported above.

(2) Interest income on credit card loans includes \$60.8 million and \$170.1 million of amortization of balance transfer fees for the three and nine months ended August 31, 2011, respectively. Interest income on credit card loans

includes \$41.0 million and \$124.2 million of amortization of balance transfer fees for the three and nine months ended August 31, 2010, respectively.

(3) Includes federal student loans held for sale.

(4) Includes the impact of interest rate swap agreements used to change a portion of fixed-rate funding to floating-rate funding.

(5) Includes the impact of FDIC insurance premiums and special assessments.

(6) Net interest margin represents net interest income as a percentage of average total loan receivables.

(7) Net yield on interest-earning assets represents net interest income as a percentage of average total interest-earning assets.

(8) Interest rate spread represents the difference between the rate on total interest-earning assets and the rate on total interest-bearing liabilities.

The rate/volume variance for each category has been allocated on a consistent basis between rate and volume (1) variances between August 31, 2011 and August 31, 2010 based on the percentage of the rate or volume variance to the sum of the two absolute variances.

Table of Contents

Loan Quality

Loan receivables consist of the following (dollars in thousands):

	August 31, 2011	November 30, 2010
Loans held for sale	\$738,382	\$788,101
Loan portfolio:		
Credit card loans:		
Discover card	45,949,224	44,904,267
Discover business card	228,449	252,727
Total credit card loans	46,177,673	45,156,994
Other consumer loans:		
Personal loans	2,439,330	1,877,633
Private student loans	1,828,493	999,322
Other	11,790	14,363
Total other consumer loans	4,279,613	2,891,318
PCI student loans ⁽¹⁾	2,886,783	—
Total loan portfolio	53,344,069	48,048,312
Total loan receivables	54,082,451	48,836,413
Allowance for loan losses	(2,273,058)	(3,304,118)
Net loan receivables	\$51,809,393	\$45,532,295

Represents purchased credit-impaired private student loans acquired from SLC on December 31, 2010 which do (1) not have a related allowance for loan losses or charge-offs (see Note 4: Loan Receivables to our condensed consolidated financial statements).

Provision and Allowance for Loan Losses

Provision for loan losses is the expense related to maintaining the allowance for loan losses at an appropriate level to absorb the estimated probable losses in the loan portfolio at each period end date. Factors that influence the provision for loan losses include:

- The impact of general economic conditions on the consumer, including unemployment levels, bankruptcy trends and interest rate movements;
- Changes in consumer spending and payment behaviors;
- Changes in our loan portfolio, including the overall mix of accounts, products and loan balances within the portfolio;
 - The level and direction of historical and anticipated loan delinquencies and charge-offs;
- The credit quality of the loan portfolio, which reflects, among other factors, our credit granting practices and effectiveness of collection efforts; and
- Regulatory changes or new regulatory guidance.

In calculating the allowance for loan losses, we estimate probable losses separately for segments of the loan portfolio that have similar risk characteristics, such as credit card and other consumer loans. For our credit card loans, we use a migration analysis to estimate the likelihood that a loan will progress through the various stages of delinquency. We use other analyses to estimate losses incurred from non-delinquent accounts which broadens the identification of loss emergence. We use these analyses together to determine our allowance for loan losses.

During the three and nine months ended August 31, 2011, the provision for loan losses decreased by \$613 million and \$2.1 billion as compared to the three and nine months ended August 31, 2010, respectively. This decrease is primarily due to improved credit performance, which resulted in a decline in the level of net charge-offs during the three and

nine months ended August 31, 2011 as compared to the three and nine months ended August 31, 2010. Improvements in credit performance were also evidenced by a decline in the delinquency rate for the periods, which was the primary driver of the reduction in the allowance for loan losses during both the three and nine months ended August 31, 2011.

Table of Contents

The following table provides changes in our allowance for loan losses for the periods presented (dollars in thousands):

	For the Three Months Ended		For the Nine Months Ended	
	August 31,	2010	August 31,	2010
	2011		2011	
Balance at beginning of period	\$2,632,320	\$3,930,624	\$3,304,118	\$1,757,899

Total credit card loans	(588,950) (997,422) (2,103,124) (3,254,149
Personal loans	(16,458) (23,836) (52,438) (70,957
Federal student loans	—	(11) —	(308
Private student loans	(2,663) (660) (5,646) (1,264
Other	(411) (139) (1,025) (858
Total other consumer loans	(19,532) (24,646) (59,109) (73,387
Total charge-offs	(608,482) (1,022,068) (2,162,233) (3,327,536
Recoveries:				
Discover card	148,292	121,255	434,141	341,337
Discover business card	910	875	2,735	2,516
Total credit card loans	149,202	122,130	436,876	343,853
Personal loans	458	421	1,458	942
Private student loans	45	14	73	22
Other	1	35	3	45
Total other consumer loans	504	470	1,534	1,009
Total recoveries	149,706	122,600	438,410	344,862
Net charge-offs	(458,776) (899,468) (1,723,823) (2,982,674
Balance at end of period	2,273,058	\$3,743,721	2,273,058	\$3,743,721

On December 1, 2009, upon adoption of the Financial Accounting Standards Board ("FASB") Statements No. 166 (1) and 167, the Company recorded \$2.1 billion allowance for loan losses related to newly consolidated and reclassified credit card loan receivables.

The following table presents a breakdown of the allowance for loan losses (dollars in thousands):

	August 31,	November 30,
	2011	2010
Discover card	\$2,139,610	\$3,182,603
Discover business card	14,260	26,285
Total credit card loans	2,153,870	3,208,888
Personal loans	75,562	76,087
Private student loans	43,406	18,569
Other	220	574
Total other consumer loans	119,188	95,230
Total allowance for loan losses	\$2,273,058	\$3,304,118

While the overall allowance decreased, as discussed and as reflected in the table above, the allowance for private student loans increased as a result of receivables growth.

Table of Contents

Net Charge-offs

Our net charge-offs include the principal amount of losses charged-off less principal recoveries and exclude charged-off interest and fees, recoveries of interest and fees and fraud losses. Charged-off and recovered interest and fees are recorded in interest and loan fee income, respectively, for loan receivables as an effective reclassification of the provision while fraud losses are recorded in other expense. Credit card loan receivables are charged-off at the end of the month during which an account becomes 180 days contractually past due. Closed-end consumer loan receivables are generally charged-off at the end of the month during which an account becomes 120 days contractually past due. Generally, customer bankruptcies and probate accounts are charged-off at the end of the month 60 days following the receipt of notification of the bankruptcy or death but not later than the 180-day or 120-day contractual time frame.

The following table presents amounts and rates of net charge-offs of key loan portfolio segments (dollars in thousands):

	For the Three Months Ended August 31, 2011					For the Nine Months Ended August 31, 2011						
	\$	%		2010	%		\$	%		2010	%	
Credit card loans	\$439,748	3.85	%	\$875,292	7.73	%	\$1,666,248	4.93	%	\$2,910,296	8.44	%
Personal loans	\$16,000	2.73	%	\$23,414	5.67	%	\$50,980	3.19	%	\$70,015	6.11	%
Private student loans (excluding PCI ⁽¹⁾)	\$2,618	0.62	%	\$653	0.31	%	\$5,573	0.49	%	\$1,255	0.21	%

Charge-offs for PCI loans did not result in a charge to earnings during 2011 and are therefore excluded from the (1) calculation. See Note 4: Loan Receivables to our condensed consolidated financial statements for more information regarding the accounting for charge-offs on PCI loans.

The net charge-off rate on our credit card loan receivables decreased 388 basis points and 351 basis points respectively for the three and nine months ended August 31, 2011, as compared to the three and nine months ended August 31, 2010. The decrease in net charge-offs on our credit card loans was attributable to improvement in both contractual and bankruptcy related charge-offs subsequent to a peak in the level of charge-offs in the first quarter of 2010. Furthermore, during the three and nine months ended August 31, 2011, there were higher levels of recoveries as compared to the same periods in 2010.

Delinquencies

Delinquencies are an indicator of credit quality at a point in time. Loan balances are considered delinquent when contractual payments on the loan become 30 days past due. Information related to loans on nonaccrual status and loans 90 days or more delinquent and accruing interest is provided in Note 4: Loan Receivables to our condensed consolidated financial statements.

The following table presents the amounts and delinquency rates of key loan portfolio segments that are 30 and 90 days or more delinquent (dollars in thousands):

	August 31, 2011			November 30, 2010		
	\$	%		\$	%	
Loans 30 days delinquent or more:						
Credit card loans	\$1,121,115	2.43	%	\$1,831,119	4.06	%
Personal loans	\$20,616	0.85	%	\$29,486	1.57	%
Private student loans (excluding PCI ⁽¹⁾)	\$14,565	0.80	%	\$5,030	0.50	%
Loans 90 days delinquent or more:						
Credit card loans	\$565,056	1.22	%	\$958,216	2.12	%

Edgar Filing: Discover Financial Services - Form 10-Q

Personal loans	\$6,446	0.26	% \$10,670	0.57	%
Private student loans (excluding PCI ⁽¹⁾)	\$2,150	0.12	% \$1,408	0.14	%

Excludes PCI loans that were acquired as part of the SLC transaction which are accounted for on a pooled basis.

(1) Since a pool is accounted for as a single asset with a single composite interest rate and aggregate expectation of cash flows, the past-due status of a pool, or that of the individual loans within a pool, is not meaningful. Because we are recognizing interest income on a pool of loans, it is all considered to be performing.

Delinquency rates at August 31, 2011 have generally declined as compared to November 30, 2010 due to continued improvement in credit trends, which has resulted in improvements in early delinquency balances. The decline is also attributable to enhanced collection management and underwriting processes.

Table of Contents

Modified Loans

We have programs that provide for temporary hardship and permanent workout programs for our credit card loans. The temporary hardship program primarily consists of a reduced minimum payment and an interest rate reduction, both lasting for a period no longer than twelve months. The permanent workout program involves changing the structure of the loan to a fixed payment loan with a maturity no longer than 60 months and reducing the interest rate on the loan. These programs do not normally provide for the forgiveness of unpaid principal, but may allow for the reversal of certain unpaid interest or fee assessments. We also make loan modifications for customers who request financial assistance through external sources, such as a consumer credit counseling agency program. These loans continue to be subject to the original minimum payment terms and do not normally include waiver of unpaid principal, interest or fees. For additional information regarding the accounting treatment for these loans as well as amounts recorded in the financial statements related to these loans, see Note 4: Loan Receivables to our condensed consolidated financial statements.

Other Income

The following table presents the components of other income for the periods presented (dollars in thousands):

	For the Three Months Ended August 31, 2011		2011 vs. 2010 increase (decrease) \$ %			For the Nine Months Ended August 31, 2011		2011 vs. 2010 increase (decrease) \$ %		
Discount and interchange revenue ⁽¹⁾	\$282,889	\$273,932	\$8,957	3	%	\$809,631	\$805,209	\$4,422	1	%
Fee products	107,858	104,132	3,726	4	%	321,527	309,590	11,937	4	%
Loan fee income	84,243	92,465	(8,222)	(9)	%	250,596	267,483	(16,887)	(6)	%
Transaction processing revenue	43,931	40,184	3,747	9	%	131,792	109,570	22,222	20	%
Merchant fees	4,110	7,220	(3,110)	(43)	%	12,981	23,091	(10,110)	(44)	%
(Loss) gain on investments	(3,614)	18,951	(22,565)	(119)	%	(3,622)	19,131	(22,753)	(119)	%
Other income	32,546	27,260	5,286	19	%	135,526	88,790	46,736	53	%
Total other income	\$551,963	\$564,144	\$(12,181)	(2)	%	\$1,658,431	\$1,622,864	\$35,567	2	%

Net of rewards, including Cashback Bonus rewards, of \$234 million and \$194 million for the three months ended (1) August 31, 2011 and 2010, respectively, and \$664 million and \$535 million for the nine months ended August 31, 2011 and 2010, respectively.

Total other income decreased \$12 million during the three months ended August 31, 2011 as compared to the three months ended August 31, 2010 due to various factors, including a gain of \$19.6 million recognized in 2010 related to the liquidation of the collateral supporting our Golden Key investment. There was not a similar benefit recognized in 2011. Additionally, loan fee income for the three months ended August 31, 2011 decreased as compared to the three months ended August 31, 2010 primarily as the result of fewer late fee assessments, partially offset by lower related charge-offs. These decreases were partially offset by an increase in discount and interchange revenue. Discount and interchange revenue increased as higher sales volumes were partially offset by higher Cashback Bonus rewards earned by our customers. Transaction processing fees increased due to higher PULSE revenue, reflecting an increase in the number of transactions, including higher margin volume. In addition, other income for the three months ended

August 31, 2011 benefits from the inclusion of income from the transition service agreements related to the acquisition of SLC in the first quarter of 2011 (see Note 2: Business Combinations to our condensed consolidated financial statements).

Total other income increased \$36 million during the nine months ended August 31, 2011 as compared to the nine months ended August 31, 2010 due to increased transaction processing revenue, discount and interchange revenue, fee products and other income partially offset by decreases in loan fee income, merchant fees and gain (loss) on investment securities. Other income increased in 2011 primarily due to the inclusion of income from the transition service agreement as well as the purchase gain of approximately \$16 million, both of which related to the SLC acquisition. Transaction processing revenue increased for the nine months ended August 31, 2011 as compared to the nine months ended August 31, 2010 due to higher PULSE revenue, reflecting an increase in the number of transactions, including higher margin volume. Discount and interchange revenue increased slightly as higher sales volume was partially offset by an increase in Cashback Bonus rewards earned by our

Table of Contents

customers. Furthermore, there was an increase in income from the sale of fee products. These increases were partially offset by a decrease in loan fee income due to the implementation of the provisions of the CARD Act which resulted in fewer late fee assessments and the discontinuance of overlimit fees on consumer credit card loans. Our direct fees from merchants decreased as we continue to grow merchant acceptance through merchant acquirers. Gain (loss) on investment securities in 2010 included a gain of \$19.6 million which related to the liquidation of collateral supporting the asset-backed commercial paper notes of Golden Key. There was not a similar benefit recognized in 2011.

Other Expense

The following table represents the components of other expense for the periods presented (dollars in thousands):

	For the Three Months Ended August 31,		2011 vs. 2010 increase (decrease)			For the Nine Months Ended August 31,		2011 vs. 2010 increase (decrease)		
	2011	2010	\$	%		2011	2010	\$	%	
Employee compensation and benefits	\$241,881	\$204,210	\$37,671	18	%	\$684,782	\$602,510	\$82,272	14	%
Marketing and business development	133,398	130,532	2,866	2	%	393,244	313,175	80,069	26	%
Information processing and communications	63,547	62,357	1,190	2	%	194,852	190,862	3,990	2	%
Professional fees	106,042	85,289	20,753	24	%	301,122	239,169	61,953	26	%
Premises and equipment	18,063	17,722	341	2	%	53,268	53,273	(5)	—	%
Other expense	79,476	66,128	13,348	20	%	245,431	155,601	89,830	58	%
Total other expense	\$642,407	\$566,238	\$76,169	14	%	\$1,872,699	\$1,554,590	\$318,109	21	%

Total other expense increased in the three month period ended August 31, 2011 by \$76 million as compared to the three month period ended August 31, 2010. This increase was due to higher employee compensation and benefits, professional fees and other expense. Professional fees increased due to higher costs related to key technology and growth initiatives and the SLC acquisition. Other expenses increased due to higher incentive payments to increase growth in network operations as well as an increase in fraud costs.

Total other expense increased by \$318 million for the for the nine months ended August 31, 2011 as compared to the same period in 2010 due to a number of factors. There was an increase in employee compensation and benefits during the nine months ended August 31, 2011 as compared to the same period in 2010. Marketing and business development costs also increased due to higher investments in new account acquisitions. In addition, there was an increase in professional fees in the nine month period ended August 31, 2011 as compared to the nine month period ended August 31, 2010 due to higher costs related to key technology and growth initiatives, higher costs due to the SLC acquisition and higher costs related to recovering charged-off accounts. Furthermore, there was an increase in other expense due to an increase in fraud related costs and an increase in legal reserves related to pending litigation. For the nine month period ended August 31, 2010, other expense benefited from a \$29 million expense reversal related to the payment to Morgan Stanley under an amendment to the special dividend agreement that occurred in the first quarter of 2010. There was not a similar benefit recognized in 2011.

Income Tax Expense

For the three and nine months ended August 31, 2011 compared to the three and nine months ended August 31, 2010 income tax expense increased \$227 million and \$711 million, respectively, as a result of increased pretax income. Due to the substantially higher pretax income and the regressive nature of certain state taxes, the effective tax rate decreased from 39.7% and 39.3% for the three and nine months ended August 31, 2010 to 38.0% and 36.4% for the three and nine months ended August 31, 2011. The nine months ended August 31, 2011 also included receiving confirmation of a state's treatment on a previously uncertain tax position, the settlement of certain state examination issues and the release of the valuation allowance previously recognized in May 2009 on a tax benefit arising from the capital loss associated with sale of the Goldfish business unit.

Liquidity and Capital Resources

Funding and Liquidity

We seek to maintain diversified funding sources and a strong liquidity profile in order to fund our business and repay or refinance our maturing obligations. In addition, we seek to achieve an appropriate maturity profile and utilize a cost-effective mix of funding sources. Our primary funding sources include deposits, sourced directly from consumers or through brokers, term asset-backed securitizations, private asset-backed securitizations and long-term borrowings.

Funding Sources

Deposits. We offer deposit products, including certificates of deposit, money market accounts, online savings accounts and Individual Retirement Account (“IRA”) certificates of deposit, to customers through two channels: (i) through direct marketing, internet origination and affinity relationships (“direct-to-consumer deposits”); and (ii) indirectly through contractual arrangements with securities brokerage firms (“brokered deposits”).

At August 31, 2011, we had \$24.5 billion of direct-to-consumer deposits and \$13.0 billion of brokered deposits. Maturities of our certificates of deposit range from one month to ten years, with a weighted average maturity of 21 months at August 31, 2011. The following table summarizes deposits by contractual maturity as of August 31, 2011 (dollars in thousands):

	Total	Three Months or Less	Over Three Months Through Six Months	Over Six Months Through Twelve Months	Over Twelve Months
Certificates of deposit in amounts less than \$100,000 ⁽¹⁾	\$ 19,524,679	\$ 1,873,291	\$ 2,115,900	\$ 4,835,014	\$ 10,700,474
Certificates of deposit in amounts of \$100,000 to less than \$250,000 ⁽¹⁾	4,999,091	605,042	729,184	1,288,124	2,376,741
Certificates of deposit in amounts of \$250,000 ⁽¹⁾ or greater	1,148,445	172,498	218,013	286,318	471,616
Savings deposits, including money market deposit accounts	11,797,822	11,797,822	—	—	—
Total interest-bearing deposits	\$ 37,470,037	\$ 14,448,653	\$ 3,063,097	\$ 6,409,456	\$ 13,548,831

⁽¹⁾ \$100,000 represents the basic insurance amount previously covered by the FDIC. Effective July 21, 2010, the basic insurance per depositor was permanently increased to \$250,000.

Credit Card Securitization Financing. We use the securitization of credit card receivables as an additional source of funding. We access the asset-backed securitization market using the Discover Card Master Trust I (“DCMT”) and the Discover Card Execution Note Trust (“DCENT”), through which we issue asset-backed securities both publicly and through private transactions.

The DCMT structure utilizes Class A and Class B certificates held by third parties, with credit enhancement provided by the subordinated Class B certificates, cash collateral accounts and subordinated Series 2009-CE. The DCENT structure utilizes four classes of securities with declining levels of seniority (Class A, B, C and D), with credit enhancement provided by the more subordinated classes of notes. Both DCMT and DCENT are further enhanced by Series 2009-SD through its provisions to reallocate principal cash flows, thereby enhancing the excess spread, discussed below, of both trusts. We retain significant exposure to the performance of trust assets through holdings of the seller's interest and subordinated security classes of DCMT and DCENT.

The securitization structures include certain features designed to protect investors. The primary feature relates to the availability and adequacy of cash flows in the securitized pool of receivables to meet contractual requirements, the insufficiency of which triggers early repayment of the securities. We refer to this as “economic early amortization,” which is based on excess spread levels. Excess spread is the amount by which income received by a trust during a collection period, including interest collections, fees and interchange, as well as the amount of certain principal collections available to be reallocated from Series 2009-SD exceeds the fees and expenses of the trust during such collection period, including interest expense, servicing fees and charged-off receivables. In the event of an economic early amortization, which would occur if the excess spread fell below 0% on a three-month rolling average basis, we would be required to repay the affected outstanding securitized borrowings over a period of months using all available collections received by the trust (the period of ultimate repayment would be determined by the amount and timing of collections received). An early amortization event would

Table of Contents

negatively impact our liquidity, and require us to utilize our available non-securitization related contingent liquidity or rely on alternative funding sources, which may or may not be available at the time. As of August 31, 2011, the 3-month rolling average excess spread was 16.92%.

Another feature of our securitization structure, which is applicable only to the notes issued from DCENT, is a reserve account funding requirement in which, in limited circumstances, excess cash flows generated by the transferred loan receivables are held at the trust. This funding requirement is triggered when DCENT's three-month average excess spread rate decreases to below 4.50%, with increasing funding requirements as excess spread levels decline below preset levels to 0%. See Note 5: Credit Card and Student Loan Securitization Activities to our condensed consolidated financial statements for additional information regarding the structures of DCMT and DCENT and for tables providing information concerning investors' interests and related excess spreads at August 31, 2011.

At August 31, 2011, we had \$12.4 billion of outstanding public asset-backed securities, \$0.3 billion of outstanding private asset-backed securitizations and \$4.3 billion of outstanding asset-backed securities that had been issued to our wholly-owned subsidiaries. The following table summarizes expected contractual maturities of the investors' interests in credit card securitizations excluding those that have been issued to our wholly-owned subsidiaries at August 31, 2011 (dollars in thousands):

	Total	Less Than One Year	One Year Through Three Years	Four Years Through Five Years	After Five Years
Scheduled maturities of long-term borrowings—owed to credit card securitization investors	\$12,619,715	\$3,852,305	\$7,167,952	\$599,639	\$999,819

At August 31, 2011, we had capacity to issue up to \$5.0 billion in triple-A rated asset-backed securities from DCENT without the issuance of additional Class B or Class C notes as subordination, which was reduced to \$4.2 billion after we issued \$800 million in credit card asset-backed securities on September 20, 2011. The triple-A rating of DCENT Class A Notes issued to date has been based, in part, on an FDIC rule which created a safe harbor that provides that the FDIC, as conservator or receiver, will not, using its power to disaffirm or repudiate contracts, seek to reclaim or recover assets transferred in connection with a securitization, or recharacterize them as assets of the insured depository institution, provided such transfer satisfies the conditions for sale accounting treatment under previous GAAP. Pursuant to amendments to GAAP related to transfers of financial assets, effective for us on December 1, 2009, certain transfers of assets to special purpose entities (including Discover Bank's transfers of assets to the DCMT) no longer qualify for sale accounting treatment. However, on September 27, 2010, the FDIC approved a final rule that preserves the safe-harbor treatment applicable to revolving trusts and master trusts, including the DCMT, so long as those trusts would have satisfied the original FDIC safe harbor if evaluated under GAAP pertaining to transfers of financial assets in effect prior to December 1, 2009. Other legislative and regulatory developments, namely the proposed SEC Regulation AB II (including the SEC's July 2011 reproposal of certain of its provisions), the August 2011 SEC advance notice of proposed rulemaking regarding the rule exempting securitization entities from being regarded as "investment companies" under the Investment Company Act of 1940, the securitization and rating agency provisions of the Reform Act and the rules promulgated or proposed thereunder, including proposed rules requiring us to retain risk in our securitization on an unhedged basis, may, however, impact our ability and/or desire to issue asset-backed securities in the future.

Short-Term Borrowings. We primarily access short-term borrowings through the Federal Funds market or through repurchase agreements. In the past two years, we have rarely used short-term borrowings; however, we have recently been borrowing overnight Federal Funds on an opportunistic basis. Total short-term borrowings as of August 31, 2011 were \$100 million and the weighted-average interest rate was 0.06%. Information about our use of short-term borrowings for the three and nine months ended August 31, 2011 is shown in the table below (dollars in thousands):

	For the three months ended, August 31, 2011 Maximum Daily Balance During the Period	For the nine months ended, August 31, 2011 Maximum Daily Balance During the Period
Overnight Federal Funds purchased	\$265,000	\$265,000
Overnight repurchase agreements	—	48,188

Corporate and Bank Debt. At August 31, 2011, we had \$800 million in principal amount of senior unsecured notes outstanding and Discover Bank had \$1.2 billion in principal amount of subordinated notes outstanding. Our senior unsecured

Table of Contents

notes are comprised of two issuances, each \$400 million in principal amount, with one issuance maturing in June 2017 and the other issuance maturing in July 2019. The senior unsecured notes would require us to offer to repurchase the notes at a price equal to 101% of their aggregate principal amount plus accrued and unpaid interest in the event of a change of control involving us and a corresponding ratings downgrade to below investment grade. Discover Bank's subordinated notes are comprised of one \$700 million issuance due in November 2019 and a \$500 million issuance due in April 2020. For more information, see Note 7: Long-Term Borrowings to our condensed consolidated financial statements.

Other Long-Term Borrowings—Student Loans. At August 31, 2011, we had \$454 million and \$2.6 billion of funding related to federal student loans, which are currently classified as held for sale, and private student loans, respectively. We obtained \$500 million of funding in April 2010 through an agreement with an asset-backed commercial paper conduit sponsored by the U.S. Department of Education under the Ensuring Continued Access to Student Loans Act of 2008. However, upon sale of the loans, this loan facility will be repaid. We assumed \$3.2 billion principal amount outstanding of securitization debt in December 2010 as part of the SLC acquisition. Principal and interest payments on the underlying student loans will reduce the balance of these secured borrowings over time.

Additional Funding Sources

Private Asset-Backed Securitizations. We have access to committed undrawn capacity through privately placed asset-backed securitizations to support the funding of our credit card loan receivables. Under these arrangements, we had used \$250 million of capacity and had undrawn capacity of \$6.5 billion at August 31, 2011.

Unsecured Committed Credit Facility. Our unsecured committed credit facility of \$2.4 billion is available through May 2012. This facility serves to diversify our funding sources and enhance our liquidity. This facility is provided by a group of major global banks, and is available to both Discover Financial Services and Discover Bank (Discover Financial Services may borrow up to 30% and Discover Bank may borrow up to 100% of the total commitment). The facility is available to support general liquidity needs and may be drawn to meet short-term funding needs from time to time. The terms of the credit facility include various affirmative and negative covenants, including financial covenants related to the maintenance of certain capitalization and tangible net worth levels, and certain double leverage, delinquency and tier 1 capital to managed loans ratios. The credit facility also includes customary events of default with corresponding grace periods, including, without limitation, payment defaults, cross-defaults to other agreements evidencing indebtedness for borrowed money and bankruptcy-related defaults. The facility may be terminated upon an event of default. We have no outstanding balances due under the facility.

Federal Reserve. Discover Bank has access to the Federal Reserve Bank of Philadelphia's discount window. As of August 31, 2011, Discover Bank had \$8.2 billion of available capacity through the discount window based on the amount of assets pledged. We have no borrowings outstanding under the discount window.

Credit Ratings

Our borrowing costs and capacity in certain funding markets, including securitizations and senior and subordinated debt, may be affected by the credit ratings of Discover Financial Services, Discover Bank and the securitization trusts. Downgrades in these credit ratings could result in higher interest expense on our unsecured debt and asset securitizations, as well as potentially higher fees related to borrowings under our lines of credit. In addition to increased funding costs, deterioration in credit ratings could reduce our borrowing capacity in the unsecured debt and asset securitization capital markets.

We also have agreements with certain of our derivative counterparties that contain provisions that require Discover Bank's debt to maintain an investment grade credit rating from specified major credit rating agencies. If Discover

Bank's credit rating is reduced to below investment grade, we would be required to post additional collateral, which, as of August 31, 2011, would have been \$53 million.

Table of Contents

A credit rating is not a recommendation to buy, sell or hold securities, may be subject to revision or withdrawal at any time by the assigning rating organization, and each rating should be evaluated independently of any other rating. The credit ratings are summarized in the following table:

	Discover Financial Services Senior Unsecured Debt	Discover Bank Senior Unsecured Debt	Outlook for Senior Unsecured Debt	Discover Bank Subordinated Debt	Discover Card Master Trust I Class A ⁽¹⁾	Class B	Discover Card Execution Note Trust Class A ⁽¹⁾	Class B	Class C
Moody's									
Investors	Ba1	Baa3	Stable	Ba1	Aaa(sf)	A1(sf)	Aaa(sf)	A1(sf)	N/A ⁽²⁾
Service									
Standard & Poor's	BBB-	BBB	Stable	BBB-	AAA(SF)	AA+(SF)	AAA(SF)	AA+(SF)	N/A ⁽²⁾
Fitch									
Ratings	BBB	BBB	Stable	BBB-	AAAsf	AAsf	AAAsf	AA-sf	N/A ⁽²⁾

(1) An “sf” in the rating denotes an identification for structured finance product ratings that was implemented for these products by the rating agencies as of September 2010.

(2) All Class C notes are currently held by subsidiaries of Discover Bank and therefore, are not publicly rated.

Several rating agencies have announced that they will be evaluating the effects of the Reform Act in order to determine the extent, if any, to which financial institutions, including us, may be negatively impacted. While we are currently unaware of any negative actions, there is no assurance that our credit ratings could not be downgraded in the future as a result of any such reviews. See “—Legislative and Regulatory Developments” for information regarding the Reform Act.

Liquidity

We seek to ensure that we have adequate liquidity to sustain business operations, fund asset growth and satisfy debt obligations. In the assessment of our liquidity needs, we also evaluate a range of stress events that would impact our access to normal funding sources, cash needs and/or liquidity. We maintain contingent funding sources, including our liquidity investment portfolio, private securitizations with unused capacity, committed credit facility capacity and Federal Reserve discount window capacity, which we could seek to utilize to satisfy liquidity needs during such stress events. We expect to be able to satisfy all maturing obligations and fund business operations during the next 12 months by utilizing our deposit channels, credit card asset-backed securitizations and our contingent funding sources.

We maintain policies outlining the overall framework and general principles for managing liquidity risk across our business, which is the responsibility of our Asset and Liability Committee (the “ALCO”). We seek to balance the trade-offs between maintaining too much liquidity, which may limit financial flexibility and be costly, with having too little liquidity that could cause financial distress. Liquidity risk is centrally managed by the ALCO, which is chaired by our Treasurer and has cross-functional membership. The ALCO monitors positions and determines any actions that need to be taken.

At August 31, 2011, our liquidity investment portfolio was comprised of cash and cash equivalents and high quality, liquid investment securities. Cash and cash equivalents are invested primarily in deposits with the Federal Reserve. Investment securities included credit card asset-backed securities of other issuers and U.S. Treasury, U.S. government

agency and AAA-rated corporate debt obligations issued under the Temporary Liquidity Guarantee Program that are guaranteed by the FDIC, all of which are considered highly liquid. In addition, we have the ability to raise cash by utilizing repurchase agreements and pledging certain of these investments. The level of our liquidity investment portfolio may fluctuate based upon the level of expected maturities of our funding sources as well as operational requirements and market conditions.

Table of Contents

At August 31, 2011, our liquidity investment portfolio and undrawn credit facilities were \$26.3 billion, which was \$3.8 billion higher than the balance at November 30, 2010 due to the addition of multi-year conduit capacity during 2011 in order to balance the flexibility and economics of our liquidity mix, partially offset by maturities of securitized debt.

	August 31, 2011	November 30, 2010
	(dollars in billions)	
Liquidity investment portfolio		
Cash and cash equivalents ⁽¹⁾	\$3.5	\$4.7
Other short term investments	—	0.4
Investment securities	5.9	5.0
Total liquidity investment portfolio	9.4	10.1
Undrawn credit facilities ⁽²⁾		
Private asset-backed securitizations	6.5	3.3
Unsecured committed credit facility	2.4	2.4
Federal Reserve discount window ⁽³⁾	8.0	6.7
Total undrawn credit facilities	16.9	12.4
Total liquidity investment portfolio and undrawn credit facilities	\$26.3	\$22.5

(1) Cash-in-process is excluded from cash and cash equivalents for liquidity purposes.

(2) See "—Funding Sources—Additional Funding Sources" for additional information.

(3) Excludes \$302 million and \$1.5 billion of investments accounted for in the liquidity investment portfolio that were pledged to the Federal Reserve as of August 31, 2011 and November 30, 2010, respectively.

Capital

Our primary sources of capital are from the earnings generated by our businesses and issuances in the capital markets. We seek to manage capital to a level and composition sufficient to support the risks of our businesses, meet regulatory requirements, adhere to rating agency guidelines and support future business growth. Within these constraints, we are focused on deploying capital in a manner that provides attractive returns to our stockholders. The level, composition and utilization of capital are influenced by changes in the economic environment, strategic initiatives, and legislative and regulatory developments. See "—Legislative and Regulatory Developments—Regulatory Initiatives Related to Capital and Liquidity" for a discussion of recent initiatives related to capital matters.

Under regulatory capital requirements adopted by the FDIC, the Federal Reserve and other bank regulatory agencies, we, along with Discover Bank, must maintain minimum levels of capital. Failure to meet minimum capital requirements can result in the initiation of certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could limit our business activities and have a direct material effect on our financial position and results. We must meet specific capital guidelines that involve quantitative measures of assets and liabilities as calculated under regulatory accounting practices. Capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Our capital adequacy assessment also includes tax and accounting considerations in accordance with regulatory guidance. We maintain a substantial deferred tax asset on our balance sheet, and we include this asset when calculating our regulatory capital levels. However, for regulatory capital purposes, deferred tax assets that are dependent on future taxable income are currently limited to the lesser of: (i) the amount of deferred tax assets we expect to realize within one year of the calendar quarter-end date, based on our projected future taxable income for that year; or (ii) 10% of the amount of our Tier 1 capital. At August 31, 2011, no portion of our deferred tax asset was disallowed for regulatory capital purposes.

At August 31, 2011, Discover Financial Services and Discover Bank met the requirements for well-capitalized status, exceeding the regulatory minimums to which they were subject. See Note 10: Capital Adequacy to our condensed consolidated financial statements for quantitative disclosures of our capital ratios and levels. Recent regulatory initiatives may subject us to increased capital requirements in the future. See “—Legislative and Regulatory Developments—Regulatory Initiatives Related to Capital and Liquidity.”

Table of Contents

Dividends. We declared a common stock dividend of \$0.06 per share in September 2011. The declaration and payment of future dividends, as well as the amount thereof, are subject to the discretion of our board of directors and will depend upon our results of operations, financial condition, capital levels, cash requirements, future prospects and other factors deemed relevant by our board of directors. Accordingly, there can be no assurance that we will declare and pay any dividends in the future. In addition, our banking regulators and applicable banking laws and regulations may limit our ability to pay dividends or take other actions that impact our capital levels, such as share repurchases. Further, as a result of provisions that may be contained in our borrowing agreements or the borrowing agreements of our subsidiaries, our ability to pay dividends to our stockholders may be limited.

Share Repurchase Program. On June 15, 2011, our board of directors approved a share repurchase program authorizing the repurchase of up to \$1 billion of our outstanding shares of common stock. The program expires on June 14, 2013, and may be terminated at any time. We expect to make share repurchases under the program from time to time based on market conditions and other factors, subject to legal and regulatory restrictions.

Guarantees

Guarantees are contracts or indemnification agreements that contingently require us to make payments to a guaranteed party based on changes in an underlying asset, liability, or equity security of a guaranteed party, rate or index. Also included in guarantees are contracts that contingently require the guarantor to make payments to a guaranteed party based on another entity's failure to perform under an agreement. Our guarantees relate to transactions processed on the Discover Network and certain transactions processed by PULSE and Diners Club. See Note 11: Commitments, Contingencies and Guarantees to our condensed consolidated financial statements for further discussion regarding our guarantees.

Contractual Obligations and Contingent Liabilities and Commitments

In the normal course of business, we enter into various contractual obligations that may require future cash payments. Contractual obligations at August 31, 2011, which include deposits, securitized debt, long-term borrowings, operating and capital lease obligations, purchase obligations and other long-term liabilities, were \$58 billion, which includes \$2.9 billion of securitized debt assumed as part of the SLC acquisition. For a description of our contractual obligations, see our annual report on Form 10-K for the fiscal year ended November 30, 2010 under "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Contractual Obligations and Contingent Liabilities and Commitments."

We extend credit for consumer and commercial loans, primarily arising from agreements with customers for unused lines of credit on certain credit cards, provided there is no violation of conditions established in the related agreement. At August 31, 2011, our unused commitments were \$164 billion. These commitments, substantially all of which we can terminate at any time and which do not necessarily represent future cash requirements, are periodically reviewed based on account usage and customer creditworthiness. In addition, in the ordinary course of business, we guarantee payment on behalf of subsidiaries relating to contractual obligations with external parties. The activities of the subsidiaries covered by any such guarantees are included in our condensed consolidated financial statements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk refers to the risk that a change in the level of one or more market prices, rates, indices, correlations or other market factors will result in losses for a position or portfolio. We are exposed to market risk primarily from changes in interest rates.

Interest Rate Risk. We borrow money from a variety of depositors and institutions in order to provide loans to our customers, as well as invest in other assets and our business. These loans and other assets earn interest, which we use to pay interest on the money borrowed. Our net interest income and, therefore, earnings, will be negatively affected if the interest rate earned on assets increases at a slower pace than increases to the interest rate we owe on our borrowings. Changes in interest rates and competitor responses to those changes may influence customer payment rates, loan balances or deposit account activity. We may face higher-cost alternative sources of funding as a result, which has the potential to decrease earnings.

Our interest rate risk management policies are designed to measure and manage the potential volatility of earnings that may arise from changes in interest rates by having a financing portfolio that reflects the mix of variable and fixed rate assets. To the extent that asset and related financing repricing characteristics of a particular portfolio are not matched effectively, we may utilize interest rate derivative contracts, such as swap agreements, to achieve our objectives. Interest rate swap agreements effectively convert the underlying asset or financing from fixed to floating rate or from floating to fixed rate. See Note 14: Derivatives and Hedging Activities to our condensed consolidated financial statements for information on our derivatives activity.

We use an interest rate sensitivity simulation to assess our interest rate risk exposure. For purposes of presenting the possible earnings effect of a hypothetical, adverse change in interest rates over the 12-month period from our reporting date, we assume that all interest rate sensitive assets and liabilities will be impacted by a hypothetical, immediate 100 basis point increase in interest rates as of the beginning of the period. The sensitivity is based upon the hypothetical assumption that all relevant types of interest rates that affect our results would increase instantaneously, simultaneously and to the same degree.

Our interest rate sensitive assets include our variable rate loan receivables and the assets that make up our liquidity investment portfolio. Due to recently enacted credit card legislation, we now have restrictions on our ability to mitigate interest rate risk by adjusting rates on existing balances. At August 31, 2011, the majority of our credit card loans were at variable rates. Beginning in the third quarter 2010, we began using interest rate derivatives to reduce the asset sensitivity that resulted from having a larger percentage of our loan portfolio at variable rates. Assets with rates that are fixed at period end but which will mature, or otherwise contractually reset to a market-based indexed rate or other fixed rate prior to the end of the 12-month period, are considered to be rate sensitive. The latter category includes certain credit card loans that may be offered at below-market rates for an introductory period, such as balance transfers and special promotional programs, after which the loans will contractually reprice in accordance with our normal market-based pricing structure. For purposes of measuring rate sensitivity for such loans, only the effect of the hypothetical 100 basis point change in the underlying market-based indexed rate or other fixed rate has been considered rather than the full change in the rate to which the loan would contractually reprice. For assets that have a fixed interest rate at the fiscal period end but which contractually will, or are assumed to, reset to a market-based indexed rate or other fixed rate during the next 12 months, earnings sensitivity is measured from the expected repricing date. In addition, for all interest rate sensitive assets, earnings sensitivity is calculated net of expected loan losses.

Interest rate sensitive liabilities are assumed to be those for which the stated interest rate is not contractually fixed for the next 12-month period. Thus, liabilities that vary with changes in a market-based index, such as Federal Funds or LIBOR, which will reset before the end of the 12-month period, or liabilities whose rates are fixed at the fiscal period

end but which will mature and are assumed to be replaced with a market-based indexed rate prior to the end of the 12-month period, also are considered to be rate sensitive. For these fixed rate liabilities, earnings sensitivity is measured from the expected repricing date.

Assuming an immediate 100 basis point increase in the interest rates affecting all interest rate sensitive assets and liabilities at August 31, 2011, we estimate that net interest income over the following 12-month period would increase by approximately \$55 million, or 1%. Assuming an immediate 100 basis point increase in the interest rates affecting all interest rate sensitive assets and liabilities at November 30, 2010, we estimated that net interest income over the following 12-month period would increase by approximately \$50 million, or 1%. We have not provided an estimate of any impact on net interest income of a decrease in interest rates as many of our interest rate sensitive assets and liabilities are tied to interest rates that are already at or near their minimum levels (i.e., Prime and LIBOR) and, therefore, could not materially decrease further.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), which are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting

On December 31, 2010, we completed our acquisition of SLC, which includes its existing information systems and internal controls over financial reporting that previously existed when SLC was a separate publicly traded company. In conducting our evaluation of the effectiveness of our internal control over financial reporting, we have elected to exclude SLC from our evaluation as permitted under SEC rules. We are currently in the process of evaluating and integrating SLC’s historical internal controls over financial reporting with ours. We expect to complete this integration by November 30, 2011, the end of our current fiscal year.

Other than the change noted above, there have been no changes in our internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) that occurred during the quarter ended August 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For a description of legal proceedings, see Note 12: Litigation to our condensed consolidated financial statements.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in our annual report on Form 10-K for the fiscal year ended November 30, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The table below sets forth information regarding purchases of our common stock related to our share repurchase program and employee transactions that were made by us or on our behalf during the three months ended August 31, 2011.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Program ⁽¹⁾	Maximum Dollar Value of Shares that may yet be purchased under the Plans or Programs ⁽¹⁾
June 1- 30, 2011				
Repurchase program ⁽¹⁾	55,330	\$25.68	55,330	\$998,579,341
Employee transactions ⁽²⁾	—	\$—	N/A	N/A
July 1 - 31, 2011				
Repurchase program ⁽¹⁾	716,784	\$25.62	716,784	\$980,214,629
Employee transactions ⁽²⁾	161,511	\$26.55	N/A	N/A
August 1 - 31, 2011				
Repurchase program ⁽¹⁾	7,614,731	\$23.36	7,614,731	\$802,325,809
Employee transactions ⁽²⁾	8,784	\$23.24	N/A	N/A
Total				
Repurchase program ⁽¹⁾	8,386,845	\$23.57	8,386,845	\$802,325,809
Employee transactions ⁽²⁾	170,295	\$27.11	N/A	N/A

(1) On June 15, 2011, our board of directors approved a share repurchase program authorizing the repurchase of up to \$1 billion of our outstanding shares of common stock. This share repurchase program expires on June 14, 2013 and may be terminated at any time.

(2) Reflects shares withheld (under the terms of grants under employee stock compensation plans) to offset tax withholding obligations that occur upon the delivery of outstanding shares underlying restricted stock units or upon the exercise of stock options.

Item 3. Defaults Upon Senior Securities

None

Item 4. (Removed and Reserved)

Item 5. Other Information
