Form 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended September 30, 2011

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from to
Commission File No. 001-34005

Lender Processing Services, Inc.
(Exact name of registrant as specified in its charter)
Delaware 26-1547801
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

601 Riverside Avenue 32204
Jacksonville, Florida (Zip Code)
(Address of principal executive offices)
(904) 854-5100
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: Lender Processing Services, Inc. - Form 10-Q

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

As of October 31, 2011, 84,380,575 shares of the registrant's common stock were outstanding.

Table of Contents

LENDER PROCESSING SERVICES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Except as otherwise indicated or unless the context otherwise requires, all references to “LPS,” “we,” the “Company,” or the “registrant” are to Lender Processing Services, Inc., a Delaware corporation that was incorporated in December 2007 as a wholly-owned subsidiary of FIS, and its subsidiaries; and all references to “FIS,” the “former parent,” or the “holding company” are to Fidelity National Information Services, Inc., a Georgia corporation formerly known as Certegy Inc., and its subsidiaries, that owned all of LPS's shares until they were distributed to the shareholders of FIS in a tax-free spin-off on July 2, 2008.

(1) Basis of Presentation

The unaudited financial information included in this report includes the accounts of Lender Processing Services, Inc. and its subsidiaries prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and the instructions to Form 10-Q and Article 10 of Regulation S-X. All adjustments considered necessary for a fair presentation have been included. The preparation of these condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. This report should be read in conjunction with the Company's Annual Report on Form 10-K that was filed on March 1, 2011 and our other filings with the Securities and Exchange Commission.

Reporting Segments

We are a provider of integrated technology and outsourced services to the mortgage lending industry, with mortgage processing and default management services in the U.S. We conduct our operations through two reporting segments, Technology, Data and Analytics and Loan Transaction Services.

Reclassifications

Due to the discontinued operations discussed in note 7 below, certain amounts in prior periods have been reclassified to conform with the current period presentation.

(2) Fair Value

Fair Value of Financial Assets and Liabilities

The fair values of financial assets and liabilities are determined using the following fair value hierarchy:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 Inputs to the valuation methodology include:

quoted prices for similar assets or liabilities in active markets;

quoted prices for identical or similar assets or liabilities in inactive markets;

inputs other than quoted prices that are observable for the asset or liability; and

inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. We believe our valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, our assets and liabilities measured at fair value on a

8

Table of Contents

recurring basis. The fair values of other financial instruments, which primarily include short-term financial assets and liabilities and long term debt, are estimated as of period-end and disclosed elsewhere in these notes.

As of September 30, 2011 (in millions):

	Classification	Carrying Value	Fair Value			
			Level 1	Level 2	Level 3	Total
Investments (note 6)	Asset	\$48.7	\$7.0	\$41.7	\$—	\$48.7
Interest rate swaps (note 10)	Liability	\$4.3	\$—	\$4.3	\$—	\$4.3

As of December 31, 2010 (in millions):

	Classification	Carrying Value	Fair Value			
			Level 1	Level 2	Level 3	Total
Investments (note 6)	Asset	\$32.5	\$6.8	\$25.7	\$—	\$32.5
Interest rate swaps (note 10)	Liability	\$0.9	\$—	\$0.9	\$—	\$0.9

Our Level 1 financial instruments include U.S government and agency bonds, for which there are quoted prices in active markets. Our Level 2 financial instruments consist of corporate bonds, municipal bonds and derivatives, for which there are parallel markets or alternative means to estimate fair value using observable information inputs. The estimates used are subjective in nature and involve uncertainties and significant judgment in the interpretation of current market data. Therefore, the values presented are not necessarily indicative of amounts we could realize or settle currently.

Fair Value of Assets Acquired and Liabilities Assumed

The fair values of assets acquired and liabilities assumed in business combinations are estimated using various assumptions. The most significant assumptions, and those requiring the most judgment, involve the estimated fair values of intangible assets and software, with the remaining value, if any, attributable to goodwill. The Company utilizes third-party experts to assist with determining the fair values of intangible assets and software purchased in business combinations.

(3) Related Party Transactions

Lee A. Kennedy has served as a director since our spin-off from FIS, our Executive Chairman since September 15, 2009, and our interim President and Chief Executive Officer from July 6, 2011 to October 6, 2011. Mr. Kennedy served as Chairman of Ceridian Corporation (“Ceridian”) from January 25, 2010 until July 28, 2011, and he also served as Chief Executive Officer of Ceridian from January 25, 2010 until August 19, 2010. Therefore, Ceridian was a related party of the Company for periods from January 25, 2010 until July 28, 2011. During those periods we were party to certain agreements with Ceridian under which we incurred expenses. A summary of the Ceridian related party agreements in effect as of September 30, 2011 is as follows:

Administrative Services. Ceridian provides certain administrative services to our human resources group, including Family and Medical Leave Act (“FMLA”) administrative services, military leave administrative services, flexible spending account services and tax processing services. Each of the administrative services agreements has an initial term of one year and is automatically renewable for successive one year terms unless either party gives 90 days prior written notice. Each agreement may be terminated upon 30 days written notice in the event of a breach.

COBRA Health Benefit Services. Ceridian also provides us with Consolidated Omnibus Budget Reconciliation Act (“COBRA”) health benefit services. The COBRA agreement had an initial term of one year and is automatically

renewable for successive one year terms unless either party gives 90 days prior written notice. This agreement may be terminated upon 30 days written notice in the event of a breach.

In addition, Mr. Kennedy served as an executive and a director of FIS through February 28, 2010. Therefore, FIS was a related party of the Company for periods prior to that date. From the spin-off until July 2010, we were allocated corporate costs from FIS and received certain corporate services from FIS.

Table of Contents

A detail of related party items included in expenses for the three and nine months ended September 30, 2011 and 2010 is as follows (in millions):

	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Corporate services- Ceridian	\$—	\$—	\$0.2	\$0.1
Cost sharing agreements- FIS	—	—	—	(0.1)
Total expenses	\$—	\$—	\$0.2	\$—

We believe the amounts charged by Ceridian and FIS under the above-described service arrangements are fair and reasonable.

(4) Net Earnings Per Share

The basic weighted average shares and common stock equivalents are computed using the treasury stock method. The following table summarizes the earnings per share for the three and nine months ending September 30, 2011 and 2010 (in thousands, except per share amounts):

	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Earnings from continuing operations, net of tax	\$41,929	\$79,159	\$138,404	\$233,389
Discontinued operations, net of tax	(1,479)	(468)	(20,660)	(1,769)
Net earnings	\$40,450	\$78,691	\$117,744	\$231,620
Net earnings per share - basic from continuing operations	\$0.50	\$0.86	\$1.61	\$2.48
Net loss per share - basic from discontinued operations	(0.02)	(0.01)	(0.24)	(0.02)
Net earnings per share - basic	\$0.48	\$0.85	\$1.37	\$2.46
Weighted average shares outstanding - basic	84,370	92,422	85,946	94,109
Net earnings per share - diluted from continuing operations	\$0.50	\$0.86	\$1.61	\$2.48
Net loss per share - diluted from discontinued operations	(0.02)	(0.01)	(0.24)	(0.03)
Net earnings per share - diluted	\$0.48	\$0.85	\$1.37	\$2.45
Weighted average shares outstanding - diluted	84,415	92,682	86,108	94,658

Options to purchase approximately 8.3 million and 6.7 million shares of our common stock for the three months ended September 30, 2011 and 2010, respectively, and 7.8 million and 4.0 million shares of our common stock for the nine months ended September 30, 2011 and 2010, respectively, were not included in the computation of diluted earnings per share because they were antidilutive. In addition, as of September 30, 2011, 1.2 million shares of restricted stock are not included in the computation of diluted earnings per share due to vesting restrictions that contain forfeitable rights to dividends. We may, in the future, limit dilution caused by option exercises, including anticipated exercises, by repurchasing shares on the open market or in privately negotiated transactions.

On October 28, 2010, our Board of Directors approved an authorization for us to repurchase up to \$250.0 million of our common stock and/or our senior notes, effective through December 31, 2011. Subsequently, on June 16, 2011 our Board of Directors approved an authorization for us to repurchase up to \$100.0 million of our common stock and/or

our senior notes, effective through December 31, 2012. This authorization replaced the previous authorization and subsumed all amounts remaining available thereunder. Our ability to repurchase shares of common stock or senior notes is subject to restrictions contained in our senior secured credit agreement and in the indenture governing our senior unsecured notes. During the nine months ended September 30, 2011, we repurchased 4.6 million shares of our stock for \$136.9 million, at an average price of \$29.98 per share, and \$5.0 million face value of our senior notes for \$4.9 million. As of September 30, 2011, we had \$95.1 million remaining available under our \$100.0 million repurchase authorization.

Table of Contents

(5) Acquisitions

The results of operations of entities acquired during the nine months ended September 30, 2011 and 2010 are included in the condensed consolidated financial statements from and after the date of acquisition. The purchase price of each acquisition was allocated to the assets acquired and liabilities assumed based on their fair value with any excess cost over fair value being allocated to goodwill. The impact of the acquisitions made from January 1, 2010 through September 30, 2011 was not significant individually or in the aggregate to our historical financial results.

PCLender

On March 14, 2011, our subsidiary, LPS Mortgage Processing Solutions, Inc., acquired PCLender.com, Inc. ("PCLender") for \$9.8 million (net of cash acquired). As a result of the transaction, we recognized a liability for contingent consideration totaling \$3.0 million. The acquisition resulted in the recognition of \$8.2 million of goodwill and \$6.1 million of other intangible assets and software. The allocation of the purchase price to goodwill and intangible assets was based on the valuation performed to determine the value of such assets as of the acquisition date. The valuation was determined utilizing the income approach using a combination of Level 2 and Level 3-type inputs. PCLender is now a part of the Technology, Data and Analytics segment and further expands our loan origination offerings and market by complementing our Empower origination technology.

True Automation, Inc.

On November 12, 2010, our subsidiary, LPS Mortgage Processing Solutions, Inc., acquired True Automation, Inc. for \$18.7 million (net of cash acquired). As a result of the transaction, we recognized a liability for contingent consideration totaling \$2.0 million. The acquisition resulted in the recognition of \$14.6 million of goodwill and \$10.0 million of other intangible assets and software. The allocation of the purchase price to goodwill and intangible assets was based on the valuation performed to determine the value of such assets as of the acquisition date. The valuation was determined using the income approach utilizing Level 3-type inputs. True Automation, Inc. is now a part of the Technology, Data and Analytics segment and expands our government solutions offerings.

NRC Rising Tide National Auction & REO Solutions, LLC

On October 30, 2009, our subsidiary, LPS Auction Solutions, LLC, acquired substantially all of the assets of NRC Rising Tide National Auction & REO Solutions, LLC ("Rising Tide"). As a result of the transaction, we recognized a contingent earn-out liability totaling \$6.0 million. As of June 30, 2011, and based on the process of analyzing certain underperforming businesses for impairment, we recorded a decrease to the contingent earn-out liability of \$6.0 million, with a corresponding decrease to cost of revenues, related to the revised cash flow projections of the business.

(6) Investments

Our title insurance underwriter subsidiary, National Title Insurance of New York Inc., is statutorily required to maintain investment assets backing its reserves for settling losses on the policies it issues. These investments, which consist of treasury bonds, municipal bonds, government agency bonds and corporate bonds, are classified as available for sale securities, and are included in the accompanying condensed consolidated balance sheets at fair value within other non-current assets. Any gains or losses on these investments are recognized in other comprehensive earnings (loss) until the investment maturity date. Since the Company does not intend to sell and will more-likely-than-not maintain each debt security until its anticipated recovery, and no significant credit risk is deemed to exist, these investments are not considered other than temporarily impaired. The amortized cost and fair value of our available for

Edgar Filing: Lender Processing Services, Inc. - Form 10-Q

sale securities at September 30, 2011 and December 31, 2010 are as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
As of September 30, 2011	\$46,652	\$ 2,335	\$ (245)	\$48,742
As of December 31, 2010	\$32,065	\$ 815	\$ (352)	\$32,528

There have been no significant changes to the stated maturities on our investment portfolio since our 2010 annual report on Form 10-K was filed on March 1, 2011.

Table of Contents

(7) Discontinued Operations and Impairments of Long-Lived Assets

On August 31, 2011, the Company completed the sale of certain operations previously included in our Real Estate group. As part of the sale, we recorded a pre-tax loss of \$2.4 million. The results of discontinued operations of the Real Estate group, as well as other businesses exited or shut down in prior periods were previously included within other technology, data and analytics services of the Technology, Data and Analytics segment. As we no longer influence the operations of the businesses, and continuing cash flows are not expected to be significant, the results of these businesses are classified as discontinued operations. The fair value of each of the business units was determined under the income approach using Level 3 unobservable inputs of the fair value hierarchy by calculating the present value of the future cash flows associated with continuing to operate the business units. The results of operations of discontinued operations are presented net of tax, as a separate component in the condensed consolidated statements of earnings. Prior period amounts of these operations have been reclassified to reflect them as discontinued for all periods presented.

The table below illustrates the impairments and loss from operations related to discontinued operations for the three and nine months ended September 30, 2011 and 2010 (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Revenues	\$5,702	\$9,038	\$17,458	\$28,486
Pretax loss from operations	(2,366)	(757)	(4,742)	(2,862)
Impairment charges:				
Goodwill	—	—	(17,684)	—
Other tangible and intangible assets (1)	—	—	(12,239)	—
Pretax loss from discontinued operations	(2,366)	(757)	(34,665)	(2,862)
Income tax benefit on discontinued operations	887	289	14,005	1,093
Discontinued operations, net of tax	\$(1,479)	\$(468)	\$(20,660)	\$(1,769)

(1) Impairment charges consist of a \$2.7 million charge to customer relationships, a \$6.0 million charge to software and a \$3.6 million charge to property, plant and equipment for the nine month period ended September 30, 2011.

Impairment Charges on Assets Held for Use

Certain other underperforming operations and asset groups that management has decided to dispose of or wind down do not meet the criteria to be considered discontinued operations and qualify as assets held for use. As of June 30, 2011, these operations and asset groups were analyzed for impairment based on changes in circumstances that indicated that the carrying amount of those assets may not be recoverable based on revised estimates of future cash flows. For the nine months ended September 30, 2011, the impact of these items resulted in an additional impairment charge to long-lived assets of \$7.9 million, consisting of a \$1.4 million charge within other technology, data and analytics services of the Technology, Data and Analytics segment and a \$6.5 million charge in loan facilitation services of the Loan Transaction Services segment. The impairment charges on assets held for use are presented in cost of revenues in the condensed consolidated statements of earnings.

Table of Contents

(8) Goodwill

Changes to goodwill during the nine months ended September 30, 2011 are summarized as follows (in thousands):

	Technology, Data and Analytics	Loan Transaction Services	Total
Balance, December 31, 2010	\$774,061	\$385,478	\$1,159,539
Goodwill impairments related to discontinued operations	(17,684)	—	(17,684)
Goodwill related to PCLender acquisition in 2011	8,181	—	8,181
Adjustment to goodwill related to True Automation, Inc. acquisition	595	—	595
Balance, September 30, 2011	\$765,153	\$385,478	\$1,150,631

As of June 30, 2011, management committed to dispose of or sell the Fraud Services and Capital Markets business units within other technology, data and analytics services of the Technology, Data and Analytics segment. Goodwill and other assets of a business that are to be disposed of may be required to be tested for impairment when events suggest that there is a current expectation that a long-lived asset group will be sold or otherwise disposed of before the end of its useful life. As the businesses to be disposed of were not integrated into the Technology, Data and Analytics segment following the original acquisition, the current carrying amount of that goodwill has been included in the carrying amount of the business to be sold and tested for impairment. We performed a two step test to evaluate the goodwill of the to-be-disposed-of businesses. In step one, the fair value of the business less costs to sell is compared to its carrying value. The Company used the income approach to estimate fair value, which is based on management assumptions of the present value of future cash flows. If step one indicates that an impairment potentially exists, the second step is performed to measure the amount of an impairment, if any. Goodwill impairment exists when the estimated fair value of goodwill is less than its carrying value.

As a result of the Company's goodwill impairment tests performed over the to-be-disposed of businesses, for the nine month period ended September 30, 2011, a \$17.7 million goodwill impairment charge was recorded that is classified in the accompanying condensed consolidated statements of earnings within discontinued operations, net of tax.

(9) Restructuring

During the first and second quarters of 2011, management committed to two separate restructuring plans in order to remove duplicate headcount, reduce future operating expenses, and improve operational performance and profitability. For the nine month period ended September 30, 2011, the total restructuring costs related to these efforts amounted to \$21.4 million of employee termination costs, of which approximately \$3.9 million relates to the acceleration of stock compensation expense, included as part of the change in additional-paid-in capital in the accompanying condensed consolidated statement of equity.

For the nine months ended September 30, 2011, the cumulative charges are recorded in the accompanying condensed consolidated statement of earnings as selling, general and administrative expenses of \$13.9 million and cost of revenues of \$7.5 million. Of the \$21.4 million of employee termination costs recorded for the nine months ended September 30, 2011, \$6.9 million, \$4.1 million and \$10.4 million applies to the Technology, Data and Analytics, Loan Transaction Services and Corporate segments, respectively. The estimated completion date of these activities and final cash payout is December 31, 2011.

The following table sets forth the Company's first quarter restructuring plan, exclusive of stock-based compensation charges, as of and for the nine months ended September 30, 2011 (in millions):

1st Quarter Restructuring Plan	Additions to Expense	Cash Paid	Other Accrued Liabilities September 30, 2011
Ongoing termination arrangement	\$ 1.4	\$(1.4) \$—
Contract termination costs - severance	10.1	(10.1) —
Total	\$ 11.5	\$(11.5) \$—

13

The following table sets forth the Company's second quarter restructuring plan, exclusive of stock-based compensation charges, as of and for the nine months ended September 30, 2011 (in millions):

2nd Quarter Restructuring Plan	Additions to Expense	Cash Paid	Other Accrued Liabilities September 30, 2011
Ongoing termination arrangement	\$2.0	\$(0.6)) \$1.4
Contract termination costs - severance	4.0	(0.8)) 3.2
Total	\$6.0	\$(1.4)) \$4.6

(10) Long-Term Debt

Long-term debt as of September 30, 2011 and December 31, 2010 consists of the following (in thousands):

	September 30, 2011	December 31, 2010
Term A Loan, secured, interest payable at LIBOR plus 2.25% (2.49% at September 30, 2011) quarterly principal amortization, maturing August 2016	\$ 535,000	\$ —
Term B Loan, secured, interest payable at LIBOR plus 4.50%, subject to 1% LIBOR Floor, (5.50% at September 30, 2011) quarterly principal amortization, maturing August 2018	249,375	—
Term A Loan, secured, interest payable at LIBOR plus 2.00%, quarterly principal amortization, maturing July 2013	—	385,000
Term B Loan, secured, interest payable at LIBOR plus 2.50%, quarterly principal amortization, maturing July 2014	—	497,250
Revolving Loan, secured, interest payable at LIBOR plus 2.25% (Eurocurrency Borrowings) (2.49% at September 30, 2011), Fed-funds plus 2.25% (Swingline borrowings) (2.31% at September 30, 2011), or the highest of (a) Fed-funds plus 0.50%, (b) Prime or (c) LIBOR plus 1%, plus the Applicable Margin for Base Rate borrowings of 1.25% (Base Rate Borrowings) (1.81%, 4.50% or 2.49% respectively at September 30, 2011), maturing August 2016. Total of \$283.2 million unused (net of outstanding letters of credit and revolver) as of September 30, 2011.	115,000	—
Senior unsecured notes, issued at par, interest payable semiannually at 8.125%, due July 2016	362,000	367,000
Other promissory notes with various interest rates and maturities	111	151
Total debt	1,261,486	1,249,401
Less current portion	(29,308)	(145,154)
Long-term debt, excluding current portion	\$ 1,232,178	\$ 1,104,247

Refinancing of Credit Facilities

On August 18, 2011, the Company entered into an Amendment, Restatement and Joinder Agreement (the "Amendment Agreement") in respect of the Credit Agreement dated as of July 2, 2008 (the "2008 Credit Agreement") with JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer, and various other lenders who are parties to the 2008 Credit Agreement. In connection with entering into the Amendment Agreement, on August 18, 2011, the Company also entered into an Amended and Restated Credit Agreement (the "2011 Credit Agreement") with JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and

Letters of Credit Issuer, and various other lenders who are parties to the 2011 Credit Agreement which amends and restates the 2008 Credit Agreement.

The 2011 Credit Agreement consists of: (i) a 5-year revolving credit facility in an aggregate principal amount outstanding at any time not to exceed \$400 million (with a \$25 million sub-facility for Letters of Credit); (ii) a 5-year Term A Loan in an initial aggregate principal amount of \$535 million; and (iii) a Term B Loan with a maturity date of August 14, 2018 in an aggregate principal amount of \$250 million.

Table of Contents

The loans under the 2011 Credit Agreement bear interest at a floating rate, which is an applicable margin plus, at the Company's option, either (a) the Eurodollar (LIBOR) rate or (b) the highest of (i) the prime rate, (ii) the federal funds rate plus 0.50% and (iii) the one Month LIBOR rate plus 1.00% (the highest of clauses (i), (ii) and (iii), the "Base rate"). The annual margin on the Term A Loan and the revolving credit facility until the first business day following delivery of the compliance certificate with respect to the first fiscal quarter ending following the closing and funding of the amended and restated facility is 2.25% in the case of LIBOR loans and 1.25% in the case of the Base rate loans, and after that time will be a percentage to be determined in accordance with a leverage ratio-based pricing grid. The annual margin on the Term B Loan is 4.50% in the case of LIBOR loans (with LIBOR subject to a floor of 1%) and 3.50% in the case of the Base rate loans.

The 2011 Credit Agreement provides that, beginning on December 31, 2011, the Company shall repay the outstanding principal amount of Term A Loans in quarterly installments of \$6.7 million. These quarterly installment payments increase to \$13.4 million beginning on December 31, 2013 and then to \$20.1 million beginning on December 31, 2014 through March 31, 2016. The Term B Loans are subject to quarterly installment payments of \$0.6 million beginning on September 30, 2011 until March 31, 2018. All remaining outstanding principal amounts of Term Loan A and B loans shall be repaid at the respective maturity dates.

In addition to scheduled principal payments, the Term Loans are (with certain exceptions) subject to mandatory prepayment upon issuances of debt, casualty and condemnation events, and sales of assets, as well as from up to 50% of excess cash flow (as defined in the Credit Agreement) in excess of an agreed threshold commencing with the cash flow for the year ended December 31, 2012. Voluntary prepayments of the loans are generally permitted at any time without fee upon proper notice and subject to a minimum dollar requirement, except that, under certain conditions, voluntary prepayments of the Term B Loan made on or prior to August 18, 2012 are subject to a 1% prepayment premium. Commitment reductions of the revolving credit facility are also permitted at any time without fee upon proper notice. The revolving credit facility has no scheduled principal payments, but it will be due and payable in full on August 18, 2016.

The Company is allowed to raise additional term loans and/or increase commitments under the Revolving Credit Facility in an aggregate principal amount of up to \$250.0 million (the "Incremental Facilities"). The Incremental Facilities are subject to restrictions on pricing and tenor of any new term loan, pro-forma compliance with financial covenants, pro-forma leverage ratio not to exceed 2.00:1.00, and other usual and customary conditions.

The obligations under the 2011 Credit Agreement are fully and unconditionally guaranteed, jointly and severally, by certain of our domestic subsidiaries. Additionally, the Company and such subsidiary guarantors pledged substantially all of our respective assets as collateral security for the obligations under the Credit Agreement and our respective guarantees.

The 2011 Credit Agreement contains customary affirmative, negative and financial covenants including, among other things, limits on the creation of liens, limits on the incurrence of indebtedness, restrictions on investments, dispositions and sale and leaseback transactions, limits on the payment of dividends and other restricted payments, a minimum interest coverage ratio and a maximum leverage ratio. Upon an event of default, the administrative agent can accelerate the maturity of the loan. Events of default include events customary for such an agreement, including failure to pay principal and interest in a timely manner, breach of covenants and a change of control of the Company. These events of default include a cross-default provision that permits the lenders to declare the 2011 Credit Agreement in default if (i) the Company fails to make any payment after the applicable grace period under any indebtedness with a principal amount in excess of \$70 million or (ii) the Company fails to perform any other term under any such indebtedness, as a result of which the holders thereof may cause it to become due and payable prior to its maturity.

We accrued for or paid fees and other costs of \$22.3 million associated with the refinancing transactions, including fees paid to lenders, arrangers, and outside professionals such as attorneys and rating agencies. In accordance with

FASB ASC 470 — Debt, we performed an analysis to determine whether the old debt had been extinguished or modified. This analysis determines the treatment of fees paid in connection with the transaction and any existing unamortized fees associated with the old debt. As a result of that analysis, we recorded a writeoff of unamortized debt issuance costs associated with the old debt of \$5.7 million, and capitalized the remaining existing unamortized fees related to the old debt of \$2.5 million, which will be amortized as an increase to interest expense over the term of the new debt using the effective interest method. Of the \$22.3 million of fees associated with the refinancing, \$20.0 million is capitalized and will be amortized as an increase to interest expense over the term of the new debt using the effective interest method and the remaining \$2.3 million was expensed.

Old Credit Facilities

On July 2, 2008, we entered into a Credit Agreement (the "2008 Credit Agreement") among JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer and various other lenders who are parties to the 2008 Credit Agreement. The 2008 Credit Agreement consisted of: (i) a 5-year revolving credit facility in an aggregate principal amount outstanding at any time not to exceed \$140.0 million (with a \$25.0 million sub-facility for Letters of Credit) (ii) a Term A Loan in

Table of Contents

an initial aggregate principal amount of \$700.0 million; and (iii) a Term B Loan in an initial aggregate principal amount of \$510.0 million. Proceeds from disbursements under the 5-year revolving credit facility were used for general corporate purposes.

The loans under the 2008 Credit Agreement accrued interest at a floating rate, which was an applicable margin plus, at our option, either (a) the Eurodollar (LIBOR) rate or (b) the higher of (i) the prime rate or (ii) the federal funds rate plus 0.5% (the higher of clauses (i) and (ii), the "ABR rate"). The annual margin on the Term A Loan and the revolving credit facility was a percentage per annum to be determined in accordance with a leverage ratio-based pricing grid and on the Term B Loan is 2.4% in the case of LIBOR loans and 1.5% in the case of ABR rate loans.

Senior Notes

On July 2, 2008, we issued senior notes (the "Notes") in an initial aggregate principal amount of \$375.0 million under which \$362.0 million was outstanding at September 30, 2011. The Notes were issued pursuant to an Indenture dated July 2, 2008 (the "Indenture") among the Company, the guarantor parties thereto and U.S. Bank Corporate Trust Services, as Trustee.

The Notes bear interest at a rate of 8.125% per annum. Interest payments are due semi-annually each January 1 and July 1. The maturity date of the Notes is July 1, 2016. From time to time we may be in the market to repurchase portions of the Notes, subject to limitations set forth in the Credit Agreement.

The Indenture contains covenants that, among other things, limit LPS' ability and the ability of certain of LPS' subsidiaries (a) to incur or guarantee additional indebtedness or issue preferred stock, (b) to make certain restricted payments, including dividends or distributions on equity interests held by persons other than LPS or certain subsidiaries, in excess of an amount generally equal to 50% of consolidated net income generated since July 1, 2008, (c) to create or incur certain liens, (d) to engage in sale and leaseback transactions, (e) to create restrictions that would prevent or limit the ability of certain subsidiaries to (i) pay dividends or other distributions to LPS or certain other subsidiaries, (ii) repay any debt or make any loans or advances to LPS or certain other subsidiaries or (iii) transfer any property or assets to LPS or certain other subsidiaries, (f) to sell or dispose of assets of LPS or any restricted subsidiary or enter into merger or consolidation transactions and (g) to engage in certain transactions with affiliates. These covenants are subject to a number of exceptions, limitations and qualifications in the Indenture.

The Notes are our general unsecured obligations. Accordingly, they rank equally in right of payment with all of our existing and future unsecured senior debt; senior in right of payment to all of our future subordinated debt; effectively subordinated to our existing and future secured debt to the extent of the assets securing such debt, including all borrowings under our credit facilities; and effectively subordinated to all of the liabilities of our non-guarantor subsidiaries, including trade payables and preferred stock.

The Notes are guaranteed by each existing and future domestic subsidiary that is a guarantor under our credit facilities. The guarantees are general unsecured obligations of the guarantors. Accordingly, they rank equally in right of payment with all existing and future unsecured senior debt of our guarantors; senior in right of payment with all existing and future subordinated debt of such guarantors; and effectively subordinated to such guarantors' existing and future secured debt to the extent of the assets securing such debt, including the guarantees by the guarantors of obligations under our credit facilities.

LPS has no independent assets or operations and our subsidiaries' guarantees are full and unconditional and joint and several. There are no significant restrictions on the ability of LPS or any of the subsidiary guarantors to obtain funds from any of our subsidiaries other than National Title Insurance of New York Inc. ("NTNY"), our title insurance underwriter subsidiary, by dividend or loan. NTNY is statutorily required to maintain investment assets backing its

reserves for settling losses on the policies it issues, and its ability to pay dividends or make loans is limited by regulatory requirements.

We may redeem some or all of the Notes on or after July 1, 2011, at the redemption prices described in the Indenture, plus accrued and unpaid interest. Upon the occurrence of a change of control, unless we have exercised our right to redeem all of the Notes as described above, each holder may require us to repurchase such holder's Notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the purchase date.

The Indenture contains customary events of default, including failure of the Company (i) to pay principal and interest when due and payable and breach of certain other covenants and (ii) to make an offer to purchase and pay for Notes tendered as required by the Indenture. Events of default also include cross defaults, with respect to any other debt of the Company or debt of certain subsidiaries having an outstanding principal amount of \$80.0 million or more in the aggregate for all such debt, arising from (i) failure to make a principal payment when due and such defaulted payment is not made, waived or extended within the applicable grace period or (ii) the occurrence of an event which results in such debt being due and payable prior to its scheduled maturity. Upon the occurrence of an event of default (other than a bankruptcy default with respect to the Company or certain subsidiaries), the trustee or holders of at least 25% of the Notes then outstanding may accelerate the Notes by giving us appropriate notice. If,

Table of Contents

however, a bankruptcy default occurs with respect to the Company or certain subsidiaries, then the principal of and accrued interest on the Notes then outstanding will accelerate immediately without any declaration or other act on the part of the trustee or any holder.

The fair value of the Company's long-term debt at September 30, 2011 is estimated to be approximately 96% of the carrying value. We have estimated the fair value of our debt using Level 2 Inputs, based on values of recent quoted market prices on our term loans and values of recent trades on our senior notes.

Interest Rate Swaps

On August 26, 2011, we entered into an interest rate swap to hedge forecasted monthly interest rate payments on \$250 million of our floating rate debt, in which the bank pays a variable rate equal to 1 Month LIBOR (equal to 0.24% as of September 30, 2011) and the Company pays a fixed rate of 1.265%. The effective date of the swap is August 31, 2011 and maturity date is July 31, 2016.

On August 4, 2010, we entered into the following interest rate swap transactions, which have been designated as cash flow hedges:

Period	Notional Amount (in millions)	Bank Pays Variable Rate of (1)	LPS Pays Fixed Rate of (2)	
December 31, 2010 to December 31, 2011	\$225.0	1 Month LIBOR	0.605	%
December 31, 2011 to December 31, 2012	150.0	1 Month LIBOR	1.295	%
December 31, 2012 to December 31, 2013	75.0	1 Month LIBOR	2.080	%

(1) 0.24% as of September 30, 2011.

(2) In addition to the fixed rate paid under the swaps, we pay an applicable margin to our bank lenders on our Term A Loan and Revolving Loan equal to 2.25%.

We have entered into interest rate swap transactions in order to convert a portion of our interest rate exposure on our floating rate debt from variable to fixed. We have designated these interest rate swaps as cash flow hedges. A portion of the amount included in accumulated other comprehensive earnings (loss) will be reclassified into interest expense as a yield adjustment as interest payments are made on the Term Loans. The inputs used to determine the estimated fair value of our interest rate swaps are Level 2-type measurements. We have considered our own credit risk when determining the fair value of our interest rate swaps.

Estimated fair values of interest rate swaps in the condensed consolidated balance sheets were as follows (in millions):

Balance Sheet Account	September 30, 2011	December 31, 2010
Other accrued liabilities	\$0.2	\$0.6
Other long-term liabilities	\$4.1	\$0.3

A cumulative loss of \$3.0 million and \$0.6 million is reflected in accumulated other comprehensive loss as of September 30, 2011 and December 31, 2010, respectively. A summary of the effect of derivative instruments on amounts recognized in other comprehensive earnings (loss) ("OCE") and on the accompanying condensed consolidated statement of earnings for the three and nine months ended September 30, 2011 and 2010 is as follows (in millions):

Edgar Filing: Lender Processing Services, Inc. - Form 10-Q

	Amount of (Loss) Gain Recognized in OCE on Derivatives		Amount of Gain (Loss) Reclassified from Accumulated OCE into Income	
	2011	2010	2011	2010
Interest Rate Swap contract				
Three months ended September 30,	\$(2.7) \$(1.9) \$0.5	\$2.9
Nine months ended September 30,	\$(4.3) \$(3.0) \$0.9	\$12.2

17

Table of Contents

It is our policy to execute such instruments with credit-worthy banks and not to enter into derivative financial instruments for speculative purposes. As of September 30, 2011, we believe our interest rate swap counterparties will be able to fulfill their obligations under our agreements, and we believe we will have debt outstanding through the various expiration dates of the swaps such that the occurrence of future hedge cash flows remains probable.

(11) Income Taxes

Reserves for uncertain tax positions are computed by determining a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. The Company has performed an evaluation of its tax positions and has concluded that as of September 30, 2011 and December 31, 2010, there were no significant uncertain tax positions requiring recognition in its financial statements. The Company's policy is to recognize interest and penalties related to unrecognized tax benefits as a component of income tax expense.

(12) Commitments and Contingencies

Litigation Matters

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. We believe that no actions, other than the matters listed below, depart from customary litigation incidental to our business. As background to the disclosure below, please note the following:

In these matters, plaintiffs seek a variety of remedies but do not make a specific statement as to the dollar amount of damages demanded. Due to these reasons and the early stage of these cases, it is not possible to make meaningful estimates of the amount or range of loss that could result from these matters at this time.

We review these matters on an ongoing basis and follow the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 450, Contingencies, when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, we base our decision on our assessment of the ultimate outcome following all appeals.

We intend to vigorously defend all litigation matters that are brought against us, and we do not believe that their ultimate disposition will have a material adverse impact on our financial position or results of operations.

In defending these matters, we expect to incur additional legal costs for the remaining quarter of the current year at least equal to those recorded in the third quarter.

Default Services Class Actions

We have been named in twelve putative class actions filed in Alabama, Florida and Mississippi that generally allege that the defendants engaged in the unauthorized practice of law and unlawful fee splitting with attorneys representing creditors in bankruptcy proceedings. Each of these individual complaints was filed by the same plaintiff's attorney. Five of these cases have been dismissed, some with prejudice or on summary judgment. The remaining cases are in the preliminary stages and none of these cases has been certified as a class action.

Securities Class Action Litigation

On December 1, 2010, the Company was served with a complaint entitled St. Clair Shores General Employees' Retirement System v. Lender Processing Services, Inc., et al., which was filed in the United States District Court for the Middle District of Florida. The putative class action seeks damages for alleged violations of federal securities laws in connection with our disclosures relating to our default operations. An amended complaint was filed on May 18, 2011. LPS filed a motion to dismiss the complaint on July 18, 2011 and the plaintiff filed a response to the Company's motion on September 12, 2011. The Company is awaiting a ruling on its motion to dismiss.

Shareholder Derivative Litigation

On December 22, 2010, a complaint entitled International Brotherhood of Electrical Workers Local 164 Pension Fund,

Table of Contents

derivatively on behalf of Lender Processing Services, Inc. v. Lee A. Kennedy, et al., was filed in the Court of Chancery in the State of Delaware. The complaint seeks recovery on behalf of the Company of damages from certain directors for purported violations of fiduciary duties and breaches of good faith in connection with our default operations. LPS filed a motion to dismiss the complaint on August 1, 2011 and the plaintiff filed a response to the Company's motion on September 9, 2011. On January 21, 2011, a second complaint entitled Michael Wheatley, derivatively on behalf of Lender Processing Services, Inc. v. Jeffrey S. Carbiener, et al., was filed in the Circuit Court of the 4th Judicial Circuit, in and for Duval County, Florida. The second complaint also seeks damages from our directors and certain current and former executives and contains nearly identical allegations. The parties have agreed to a voluntary stay in this matter. The Company is awaiting a ruling on its motion to dismiss.

Washington Mutual Receivership Proceedings

The Federal Deposit Insurance Corporation ("FDIC"), in its capacity as Receiver for Washington Mutual Bank ("WAMU"), filed a complaint against the Company and certain of its subsidiaries on May 9, 2011 in the U.S. District Court for the Central District of California to recover alleged losses of approximately \$154.5 million. The FDIC contends these losses were a direct and proximate result of the defendants' alleged breach of contract with WAMU and alleged gross negligence with respect to the provision of certain services by the Company's subsidiary LSI Appraisal LLC, an appraisal management company. In particular, the FDIC claims that the services provided failed to conform to federal and state law, regulatory guidelines and other industry standards, including specifically the provisions of the Uniform Standards of Professional Appraisal Practice ("USPAP"). The Company believes that the services it provided satisfied the terms and conditions of its contract with WAMU and were not performed with gross negligence. LPS filed a motion to dismiss the complaint on July 22, 2011 and the FDIC filed a response opposing the motion on August 4, 2011. On November 2, 2011, the court issued an order granting the Company's motion to dismiss the FDIC's claims of gross negligence, alter ego, single business enterprise and joint venture. The only claim remaining in this matter is the FDIC's claim for breach of contract, which the Company intends to vigorously defend.

Regulatory Matters

Due to the heavily regulated nature of the mortgage industry, from time to time we receive inquiries and requests for information from various state and federal regulatory agencies, including state attorneys general, the U.S. Department of Justice and other agencies, about various matters relating to our business. These inquiries take various forms, including informal or formal requests, reviews, investigations and subpoenas. We attempt to cooperate with all such inquiries.

At present, there is increased scrutiny of all parties involved in the mortgage industry by governmental authorities, judges and the news media, among others. We have responded to or are currently responding to inquiries from multiple governmental agencies. These inquiries range from informal requests for information to grand jury subpoenas. In 2010, we learned that the U.S. Attorney's office for the Middle District of Florida and the Florida Attorney General had begun conducting separate inquiries concerning certain business processes in our default operations. Since then, other federal and state authorities, including various regulatory agencies, and other state attorneys general, have initiated inquiries about these matters, and additional agencies may do so in the future. The business processes that these authorities are considering include the former document preparation, verification, signing and notarization practices of certain of our default operations and our relationships with foreclosure attorneys. We have discovered, during our own internal reviews, potential issues related to some of these practices which may cause the validity of certain documents used in foreclosure proceedings to be challenged. However, we are not aware of any person who was wrongfully foreclosed upon as a result of a potential error in the processes used by our employees. We have been cooperating and we have expressed our willingness to continue to fully cooperate with all such inquiries.

Following a review by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Office of the Comptroller of the Currency and the Office of Thrift Supervision (collectively, the “banking agencies”), we have entered into a consent order (the “Order”) dated April 13, 2011 with the banking agencies. The banking agencies' review of our services included the services provided by our default operations to mortgage servicers regulated by the banking agencies, including document execution services. The Order does not make any findings of fact or conclusions of wrongdoing, nor does LPS admit any fault or liability. Under the Order, we agreed to further study the issues identified in the review and to enhance our compliance, internal audit, risk management and board oversight plans with respect to those businesses. We also agreed to engage an independent third party to conduct a risk assessment and review of our default management businesses and the document execution services we provided to servicers from January 1, 2008 through December 31, 2010. To the extent such review requires additional remediation of mortgage documents or identifies any financial injury from the document execution services we provided, we have agreed to implement an appropriate plan to address the issues. The Order contains various deadlines by which we have agreed to accomplish the undertakings set forth therein, and we have agreed to make periodic reports to the banking agencies on our progress. The Order does not include any fine or other monetary penalty, although the banking agencies have not yet concluded their assessment of whether any civil monetary penalties may be imposed.

Table of Contents

We continue to believe that the outcome of these inquiries and matters will not have a material adverse impact on our business or results of operations, although it is difficult to predict the final outcome of these matters due, among other things, to the early stage of many of these inquiries. As a result, there can be no assurance that we will not incur material costs and expenses in the future, including but not limited to fines or penalties and legal costs, or be subject to other remedies, as a result of regulatory, legislative or administrative investigations or actions relating to our default operations.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements other than operating leases and the escrow arrangements described below and in our Annual Report on Form 10-K filed March 1, 2011.

Escrow Arrangements

In conducting our title agency, closing and tax services, we routinely hold customers' assets in escrow accounts, pending completion of real estate related transactions. Certain of these amounts are maintained in segregated accounts, and these amounts have not been included in the accompanying condensed consolidated balance sheets. As an incentive for holding deposits at certain banks, we periodically have programs for realizing economic benefits through favorable arrangements with these banks. As of September 30, 2011, the aggregate value of all amounts held in escrow in our title agency, closing and tax services operations totaled \$303.2 million.

(13) Stock Option Plans

Prior to May 19, 2011, our employees participated in LPS's 2008 Omnibus Incentive Plan. On May 19, 2011, our shareholders approved the Lender Processing Services, Inc. Amended and Restated 2008 Omnibus Incentive Plan (the "Plan"), the primary purpose of which was to increase the authorized shares available under the Plan by 4.7 million shares. Under the Plan, the Company may grant up to 18.7 million share-based awards to officers, directors and key employees. The 18.7 million shares authorized under the Plan includes (i) 14.0 million shares originally authorized under the 2008 Omnibus Incentive Plan, of which 1.1 million remained available for future grants of share-based awards as of September 30, 2011, and (ii) 4.7 million newly authorized shares, all of which remained available for future grant as of September 30, 2011, so that a total of 5.8 million shares were available for future grant under the Plan as of September 30, 2011. The shares may be issued from authorized and unissued shares of the Company's common stock, or from the Company's treasury shares. Expired and forfeited awards are available for re-issuance. Vesting and exercise of share-based awards are generally contingent on continued employment.

The Company recognizes equity compensation expense, which is included in selling, general and administrative expenses in the accompanying condensed consolidated statements of earnings, on a straight-line basis or graded vesting basis over the vesting period. We recorded stock compensation expense of \$9.3 million and \$8.2 million during the three months ended September 30, 2011 and September 30, 2010, respectively and \$28.2 million and \$22.1 million during the nine month periods ended September 30, 2011 and 2010, respectively. Of the \$28.2 million of stock compensation expense recorded in the nine months ended September 30, 2011, \$3.9 million is due to the acceleration of stock compensation expense related to employee terminations.

During the three months ended September 30, 2011 and 2010, respectively, \$0.4 million and \$1.0 million of cash was used for minimum statutory withholding requirements upon net settlement of employee share-based awards. During the nine months ended September 30, 2011 and 2010, respectively, \$3.3 million and \$3.2 million of cash was used for minimum statutory withholding requirements upon net settlement of employee share-based awards.

As of September 30, 2011, the Company had \$46.2 million of unrecognized compensation cost related to share-based payments, which is expected to be recognized in pre-tax earnings over a weighted average period of 1.28 years.

We measured the fair value of the awards at the date of grant using a Black-Scholes option pricing model with various assumptions. The risk-free interest rate is based on the rate in effect for the expected term of the option at the grant date. The dividend yield is based on historical dividends. The volatility assumptions are based on our historical volatility and the historical volatilities of comparable publicly traded companies using daily closing prices for the historical period commensurate with the expected term of the option. The expected life of the options is determined based on the Securities and Exchange Commission's simplified method for companies without enough historical data.

Table of Contents

The following table summarizes assumptions used to estimate weighted average fair values for awards granted during the nine months ended September 30, 2011 and 2010:

Year	Weighted Average Fair Value	Risk Free Interest Rate	Volatility Factor	Expected Dividend Yield	Weighted Average Expected Life (In Years)
2011	\$7.95	1.8 %	36 %	1.5 %	4.5
2010	\$10.87	2.3 %	36 %	1.1 %	4.5

Options

The following table summarizes stock option activity under the Plan during the nine months ended September 30, 2011:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Exercisable Shares
Outstanding as of December 31, 2010	7,719,442	\$33.06		
Total granted	1,128,020	27.87		
Exercised (1)	(52,723)	12.61		
Cancelled	(284,155)	33.79		
Outstanding as of September 30, 2011 (2)	8,510,584	\$32.42	3.68	5,933,340

(1) The total intrinsic value of stock options exercised during the nine months ended September 30, 2011 was \$0.8 million.

(2) The total intrinsic value of stock options outstanding as of September 30, 2011 was \$0.1 million. The total intrinsic value of stock options exercisable as of September 30, 2011 was \$0.1 million.

The number of shares vested and expected to vest, which is calculated using our forfeiture rate of 0.5%, total approximately 8.5 million, have a weighted average remaining contractual life of 3.68 years, a weighted average exercise price of \$32.42 and an intrinsic value of \$1.6 million.

Restricted Stock

During the three months ended September 30, 2011 we granted approximately 0.2 million shares of restricted stock with a weighted average grant date fair value of \$18.32. All of these restricted shares are subject to both a service and performance-based vesting condition. If the performance objective is not achieved, the restricted stock is subject to automatic forfeiture to the Company for no consideration. Dividends on the unvested restricted stock are accrued until the vest date, at which time they are paid in full to the participants. Additionally, all executive officers of the Company who were granted restricted stock in connection with this grant are required to hold a portion of their vested shares for a period of six months following the vesting of each tranche.

As of September 30, 2011, approximately 0.1 million shares of restricted stock awards with service-based vesting conditions were outstanding, and approximately 1.2 million shares of restricted stock awards with service and performance-based vesting conditions were outstanding.

(15) Condensed Consolidating Financial Information

As explained in note 10, on August 18, 2011, LPS (the "Parent Company") entered into an Amendment, Restatement and Joinder Agreement (the "Amendment Agreement") in respect of the Credit Agreement dated as of July 2, 2008 (the "2008 Credit Agreement"). The 2011 Credit Agreement and the Notes are fully and unconditionally guaranteed, jointly and severally, by the majority of the subsidiaries of the Parent Company (the "Subsidiary Guarantors"). Certain other subsidiaries (the "Other Subsidiaries") are not guarantors of the 2011 Credit Agreement and the Notes. The guarantees of the Notes by the Subsidiary Guarantors are general unsecured obligations of the Subsidiary Guarantors, and accordingly are senior to any of their existing and future subordinated debt obligations, equal in right of payment with any of their existing and future senior unsecured indebtedness and effectively subordinated to any of their existing and future secured indebtedness to the extent of the assets securing such debt (including the Subsidiary Guarantors' obligations under the 2011 Credit Agreement).

The Parent Company conducts virtually all of its business operations through its Subsidiary Guarantors and Other Subsidiaries. Accordingly, the Parent Company's main sources of internally generated cash are dividends and distributions with respect to its ownership interests in the subsidiaries, which are derived from the cash flow generated by the subsidiaries.

As of September 30, 2011, the Parent Company has no independent assets or operations, and our subsidiaries' guarantees are

Table of Contents

full and unconditional and joint and several. There are no significant restrictions on the ability of LPS or any of the Subsidiary Guarantors to obtain funds from any of our subsidiaries other than National Title Insurance of New York Inc. ("NTNY"), our title insurance underwriter subsidiary, by dividend or loan. As discussed in note 6, NTNY is statutorily required to maintain investment assets backing its reserves for settling losses on the policies it issues, and its ability to pay dividends or make loans is limited by regulatory requirements. NTNY, which is not a subsidiary guarantor, was more than a minor subsidiary as of and during the three and nine month periods ended September 30, 2011 and 2010.

The following tables set forth, on a condensed consolidating basis, the balance sheets, the statements of earnings and the statements of cash flows for the Parent Company, the Subsidiary Guarantors and Other Subsidiaries as of and for the three and nine months ended September 30, 2011 and September 30, 2010, respectively.

The following table represents our condensed consolidating balance sheet as of September 30, 2011 (in thousands):

	Parent Company (1)	Subsidiary Guarantors	Other Subsidiaries	Consolidating Adjustments	Total Consolidated Amounts

(16) Subsequent Events

Management evaluated all activity of the Company and concluded that no subsequent events have occurred, other than those described below, that would require recognition in the condensed consolidated financial statements or disclosure in these notes.

Appointment of New Chief Executive Officer

On October 5, 2011, the Company announced that Hugh R. Harris was appointed as the Company's President and Chief Executive Officer and a director, replacing Lee A. Kennedy. Mr. Kennedy continues to serve as the Executive Chairman of the Company's Board of Directors.

Dividend Declared

On October 20, 2011 we announced a regular dividend of \$0.10 per common share. The dividend is payable on December 15, 2011, to shareholders of record as of the close of business on December 1, 2011.

Table of Contents

Except as otherwise indicated or unless the context otherwise requires, all references to “LPS,” “we,” the “Company,” or the “registrant” are to Lender Processing Services, Inc., a Delaware corporation that was incorporated in December 2007 as a wholly-owned subsidiary of FIS, and its subsidiaries; and all references to “FIS,” the “former parent,” or the “holding company” are to Fidelity National Information Services, Inc., a Georgia corporation formerly known as Certegy Inc., and its subsidiaries, that owned all of LPS's shares until they were distributed to the shareholders of FIS in a tax-free spin-off on July 2, 2008.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with Item 1: Condensed Consolidated Financial Statements (Unaudited) and the notes thereto included elsewhere in this report. The discussion below contains forward-looking statements that involve a number of risks and uncertainties. Those forward-looking statements include all statements that are not historical facts, including statements about our beliefs and expectations. Forward-looking statements are based on management's beliefs, as well as assumptions made by and information currently available to management. Because such statements are based on expectations as to future economic performance and are not statements of historical fact, actual results may differ materially from those projected. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. The risks and uncertainties to which forward-looking statements are subject include, but are not limited to: our ability to adapt our services to changes in technology or the marketplace; the impact of adverse changes in the level of real estate activity (including among others, loan originations and foreclosures) on demand for certain of our services; our ability to maintain and grow our relationships with our customers; the effects of our substantial leverage on our ability to make acquisitions and invest in our business; the level of scrutiny being placed on participants in the foreclosure process; risks associated with federal and state inquiries and examinations currently underway or that may be commenced in the future with respect to our default management operations, and with civil litigation related to these matters; changes to the laws, rules and regulations that regulate our businesses as a result of the current economic and financial environment; changes in general economic, business and political conditions, including changes in the financial markets; the impact of any potential defects, development delays, installation difficulties or system failures on our business and reputation; risks associated with protecting information security and privacy; and other risks and uncertainties detailed in the “Statement Regarding Forward-Looking Information,” “Risk Factors” and other sections of the Company's Form 10-K, the Company's subsequent reports on Form 10-Q and other filings with the Securities and Exchange Commission.

Overview

We are a provider of integrated technology and services to the mortgage lending industry, with market leading positions in mortgage processing and default management services in the U.S. We conduct our operations through two reporting segments, Technology, Data and Analytics and Loan Transaction Services, which produced approximately 36% and 64%, respectively, of our revenues for the three and nine months ended September 30, 2011. A large number of financial institutions use our solutions. Our technology solutions include our mortgage processing system, which automates all areas of loan servicing, from loan setup and ongoing processing to customer service, accounting and reporting. Our technology solutions also include our Desktop system, which is a middleware enterprise workflow management application designed to streamline and automate business processes. Our loan transaction services include our default management services, which are used by mortgage lenders, servicers and other real estate professionals to reduce the expense of managing defaulted loans, and our loan facilitation services, which support most aspects of the closing of mortgage loan transactions by national lenders and loan servicers.

Our Technology, Data and Analytics segment principally includes:

-

our mortgage processing services, which we conduct using our mortgage servicing platform and our team of experienced support personnel;

our Desktop application, a workflow system that assists our customers in managing business processes, which is primarily used in connection with mortgage loan default management;

our other software and related service offerings, including our mortgage origination software, our real estate closing and title insurance production software and our collaborative electronic vendor network, which provides connectivity among mortgage industry participants; and

our data and analytics businesses, the most significant of which are our alternative property valuations business, which provides a range of valuations other than traditional appraisals, and our aggregated property and loan data services.

Our Loan Transaction Services segment offers a range of services used mainly in the production of a mortgage loan, which we refer to as our loan facilitation services, and in the management of mortgage loans that go into default, which we refer to as default

Table of Contents

management services.

Our loan facilitation services include:

• settlement and title agency services, in which we act as an agent for title insurers or as an underwriter, and closing services, in which we assist in the closing of real estate transactions;

• appraisal services, which consist of traditional appraisals provided through our appraisal management company; and

• other origination services, which consist of flood zone information, which assists lenders in determining whether a property is in a federally designated flood zone, and real estate tax services that provide lenders with information about the tax status of a property.

Our default management services include, among others:

• foreclosure management services, including administrative services provided to independent attorneys and trustees, mandatory title searches, posting and publishing, and other services;

• property inspection and preservation services, designed to preserve the value of properties securing defaulted loans; and

• asset management services, providing disposition services for our customers' real estate owned properties through independent real estate brokers, attorneys and other vendors to facilitate the transaction.

Corporate overhead costs, including stock compensation expense, and other operations that are not included in our operating segments are included in Corporate and Other.

Recent Trends and Developments

Revenues in our loan facilitation businesses and certain of our data businesses are closely related to the level of residential real estate activity in the U.S., which includes sales, mortgage financing and mortgage refinancing. The level of real estate activity is primarily affected by: real estate prices; the availability of funds for mortgage loans; mortgage interest rates; and the overall state of the U.S. economy. The federal government has taken several steps over the last few years to attempt to address the downturn in the housing market, including steps to reduce interest rates and legislation such as the Homeowner Affordability and Stability Plan (the "HASAP") under which homeowners who would otherwise be unable to get a refinancing loan because of a loss in home value have been able to refinance.

The Mortgage Bankers Association ("MBA") estimates that the level of U.S. mortgage originations, by dollar volume, was \$1.6 trillion and \$2.0 trillion in 2010 and 2009, respectively, with refinancing transactions comprising approximately 70% and 65%, respectively, of the total markets. The MBA's Mortgage Finance Forecast estimates that the mortgage origination market for the first half of 2011 was \$0.6 trillion and will be approximately \$0.6 trillion for the remainder of 2011. The decrease in the MBA's projections for 2011 is due to, among other things, current real estate prices, high unemployment, a decrease in refinancings, rising interest rates and tightened loan requirements such as higher credit scores and down payment requirements and additional fees. The MBA estimates that loan origination volumes in the third quarter of 2011 were approximately 23% lower than the third quarter of 2010. The revenues for our loan facilitation businesses are linked to the volume of origination transactions, and refinancing transactions in particular, and a decrease in the level of origination activity could adversely affect the results of operations of those businesses.

Our various businesses are impacted differently by the level of mortgage originations and refinancing transactions. For instance, while our loan facilitation and some of our data businesses are directly affected by the volume of real estate transactions and mortgage originations, our mortgage processing business is generally less affected because it earns revenues based on the total number of mortgage loans it processes, which tends to stay more constant. However, in the event that the difficult economy or other factors lead to a decline in levels of home ownership and a reduction in the number of mortgage loans outstanding, our mortgage processing revenues could be adversely affected.

In contrast, we believe that a weaker economy tends to increase the volume of consumer mortgage defaults, which can favorably affect our default management operations in which we service residential mortgage loans in default. These factors can also increase revenues from our Desktop application, which is primarily used in connection with default management. However, various factors, such as governmental programs, increased regulatory scrutiny and monitoring, judicial actions and voluntary delays by servicers, have significantly delayed the foreclosure process in recent quarters.

Table of Contents

One factor reducing or delaying the number of foreclosure proceedings is the Home Affordable Modification Program ("HAMP"), a loan modification program targeted at borrowers who are at risk of foreclosure because their incomes are not sufficient to make their mortgage payments. Through August 2011, the U.S. Treasury department estimates that banks had worked through most of the approximately 2.6 million loans currently eligible for HAMP, and offered 1.9 million trial modifications. Of those, approximately 1.7 million trial modifications were actually implemented and approximately 0.8 million became permanent. Although we believe that HAMP, which expires on December 31, 2012, has had an adverse effect on the processing of delinquent loans (and may continue to have a negative effect in the future as additional mortgages become eligible under the program's current criteria or if those criteria are broadened), the pace of modifications has slowed from 2010 indicating a lessened impact going forward.

Notwithstanding the effects of existing government programs, we believe that the inventory of delinquent mortgage loans and loans in foreclosure continues to grow. We believe this growth is due in part to current delinquency rates and lenders focusing their resources on trying to make modifications under the HAMP program and delaying the processing of foreclosures in order to confirm the compliance of their foreclosure procedures with applicable laws. In April 2011, a number of large banks and their service providers, including us, entered into consent orders with various federal banking agencies following reviews by the banking agencies of each bank's default and foreclosure processes and the related services provided by their third party providers such as us. The consent orders further slowed the pace of foreclosure starts and processing during the second and third quarters of 2011 as the banks and their service providers began to work through complying with the requirements of their respective consent orders and we believe this trend will continue for some time. We continue to believe the size of the default services market should be significant in future years due to the continuing growth in the inventory of delinquent loans and loans in foreclosure, which should have a positive effect on our default revenues and the revenues from our Desktop solution. However, it is difficult to predict when or the speed at which these loans will make their way through the foreclosure process. It is also difficult to predict whether any additional legislative or regulatory changes will be implemented as a result of the recent issues reported by banks and servicers in connection with foreclosure actions, or whether the government will take any other actions to address the current housing market and economic uncertainty. These types of government actions could cause a continuation of or further slow the current level of foreclosure volumes and adversely affect our future results.

The ongoing economic uncertainty and troubled housing market have resulted in increased scrutiny of all parties involved in the mortgage industry by governmental authorities, judges and the news media, among others, with the most recent focus being on those involved in the foreclosure process following foreclosure-related issues reported by banks and servicers. This scrutiny has included federal and state governmental review of all aspects of the mortgage lending business, including an increased legislative and regulatory focus on consumer protection practices. An example of such legislation is the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Wall Street Reform Act"), which was signed into law in July 2010 and contains broad changes for many sectors of the financial services and lending industries. Among other things, the Wall Street Reform Act includes new requirements for appraisals and appraisal management companies, including a requirement that appraisal fees be "customary and reasonable." As a result we have experienced compression in our margins on our appraisal services because our customer contracts are at fixed prices, but the amount our appraisal management company must pay to the independent appraisers it contracts with has increased. It is difficult to predict the final form that regulations or other rule-makings to implement other requirements of the Wall Street Reform Act may take, what additional legislative or regulatory changes may be approved in the future, or whether those changes may require us to change our business practices, incur increased costs of compliance or adversely affect our results of operations.

On October 24, 2011, the Federal Housing Finance Agency announced a series of changes to the Home Affordable Refinance Program ("HARP") which would make it easier for certain borrowers who owe more than their home is worth and who are current on their mortgage payments to refinance their mortgages at the current lower interest rates and

obtain other refinancing benefits. We are uncertain as to what degree the modified HARP program may affect our results of operations in the future.

Critical Accounting Policies

There have been no significant changes to our critical accounting policies since our Annual Report on Form 10-K was filed on March 1, 2011.

Recent Accounting Pronouncements

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income. The guidance requires a company to present items of net income and other comprehensive income either in one continuous statement or in two separate, but consecutive statements. The statement also requires a company to show reclassification adjustments from other comprehensive income to net income on the face of the statement under both the single or two-statement formats. The new standard is effective for fiscal years,

Table of Contents

and interim periods within those years, beginning after December 15, 2011. The new guidance will only require enhanced disclosures on the Company's statements of operations and comprehensive earnings, as we currently present two separate consecutive statements.

In December 2010, the FASB issued ASU No. 210-29, Disclosure of Supplementary Pro Forma Information for Business Combinations. The guidance requires a publicly traded entity that has entered into a business combination to disclose certain pro forma information about the revenues and earnings of the combined entity within the notes to the financial statements. This guidance requires that the pro forma information be presented as if the business combination occurred at the beginning of the prior annual reporting period for purposes of calculating both the current reporting period and the prior reporting period pro forma financial information. The guidance also requires that this disclosure be accompanied by a narrative description of the amount and nature of material nonrecurring pro forma adjustments. We adopted the new guidance on January 1, 2011. As the new guidance only requires enhanced disclosures, it had no impact on the Company's statements of financial position or operations.

In October 2009, the FASB issued 2009-13, Multiple-Deliverable Software Arrangements. The guidance eliminates the requirement that all undelivered elements have Vendor Specific Objective Evidence (VSOE) or Third-Party Evidence (TPE) of standalone selling price before an entity can recognize the portion of an overall arrangement fee that is attributable to items that have been delivered. In the absence of VSOE or TPE of the standalone selling price for one or more delivered or undelivered elements in a multiple-element arrangement, entities are required to estimate the selling prices of those elements. The overall arrangement fee is allocated to each element (both delivered and undelivered items) based on their relative selling prices, regardless of whether those selling prices are evidenced by VSOE or TPE or are based on the entity's estimated selling price. Application of the "residual method" of allocating an overall arrangement fee between delivered and undelivered elements is no longer permitted upon adoption of this new guidance. Additional disclosure is required about multiple-element revenue arrangements, as well as qualitative and quantitative disclosure about the effect of the change, if material. We adopted the amendment prospectively for revenue arrangements entered into or materially modified beginning January 1, 2011. Adoption of this pronouncement did not have a material impact on our consolidated statements of financial position or operations.

Related Party Transactions

We have certain business arrangements with Ceridian Corporation, and we have historically conducted business with FIS and its subsidiaries and other related parties. See note 3 to our condensed consolidated financial statements included in Part I for a detailed description of all related party transactions.

Table of Contents

Results of Operations for the three and nine months ended September 30, 2011 and 2010

The following tables reflect certain amounts included in operating income in our condensed consolidated statements of earnings, the relative percentage of those amounts to total revenues, and the change in those amounts from the comparable prior year period.

Condensed Consolidated Results of Operations - Unaudited

(in millions)	Three Months Ended September 30,					Nine Months Ended September 30,				
	2011	2010	\$	% ²		2011	2010	\$	% ²

Net earnings per share - diluted	\$0.48	\$0.85				\$1.37	\$2.45			

(1) Columns may not total due to rounding.

(2) Certain percentages are not meaningful, indicated by "nm."

Revenues

Revenues decreased \$84.9 million, or 13.8%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and decreased \$193.3 million, or 10.8%, during the first nine months of 2011 when compared to the first nine months of 2010. The decreases were driven by a slowdown in our Loan Transaction Services segment partially offset by revenue growth in our Technology, Data and Analytics segment. The increase in revenue in our Technology, Data and Analytics segment during the periods is primarily due to the growth in our other data and analytics operations supporting both origination and default related activities and the conversion of two large servicers onto our Desktop platform in late 2010, offset by a change in estimate resulting in deferral of revenue of \$6.0 million during the quarter ended September 30, 2011 related to our Desktop division. The increases in revenue in the Technology, Data and Analytics segment were offset by a period-over-period decline in revenue in loan facilitation services due to a decline in the volume of loan originations, primarily due to changes in underlying interest rates, as well as a decrease in our default management services primarily due to lower foreclosure volumes resulting from continued delays in the foreclosure process due to increased regulatory scrutiny and monitoring, including consent orders entered into by a number of large servicers, judicial actions and voluntary delays by servicers.

Although revenues from our default management services declined 25.0% and 22.1% in the three and nine months ended September 30, 2011, respectively, these results compared favorably to the decline in Notices of Default, a key indicator of the default market, as compiled and published by RealtyTrac, of 27.4% and 33.2%, respectively, during the same periods.

Cost of Revenues

Cost of revenues decreased \$38.7 million, or 9.5%, during the the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and decreased \$79.6 million, or 6.8% during the first nine months of 2011 when

Table of Contents

compared to the first nine months of 2010. As described above, the overall decrease in cost of revenues was driven by a slowdown in our Loan Transaction Services segment as well as a \$6.0 million reversal of a previously recognized contingent earn-out liability related to revised cash flow projections on an acquired business in our Loan Transaction Services segment. These decreases were partially offset by growth in our Technology, Data and Analytics segment and from charges related to severance benefits totaling \$7.5 million resulting from various cost reduction programs and from a \$7.9 million impairment charge relating to the write-down of net assets in certain underperforming operations that management decided to dispose of or wind down.

Gross Margin

Gross margins decreased to 30.4% during the three months ended September 30, 2011 from 33.7% during the three months ended September 30, 2010 and to 31.2% during the first nine months of 2011 from 34.2% during the first nine months of 2010. The decreases in period-over-period gross profit margins were primarily driven by certain negative changes in product mix, an increase in appraiser fees due to the impact of the Dodd-Frank Act, which required appraisal management companies to pay "customary and reasonable" fees to appraisers, and a change in estimate resulting in deferral of revenue of \$6.0 million during the quarter ended September 30, 2011 related to our Desktop division. Also contributing to the decrease in gross profit margin for the first nine months of 2011 as compared to the first nine months of 2010 was a \$7.5 million severance charge resulting from our various cost reduction programs and a \$7.9 million impairment charge relating to the write-down of net assets in certain underperforming operations that management decided to dispose of or wind down. These increases were partially offset by a \$6.0 million reversal of a previously recognized contingent earn-out liability related to revised cash flow projections on an acquired business in our Loan Transaction Services segment.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$9.1 million, or 14.5%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$46.2 million, or 25.7%, during the first nine months of 2011 when compared to the first nine months of 2010. The period-over-period increases are primarily due to higher corporate expenses including professional and legal fees relating to our compliance with the consent order and other litigation. The increase in corporate expenses for the first nine months of 2011 as compared to the first nine months of 2010 was also a result of severance benefits and stock compensation acceleration charges totaling \$13.9 million associated with our cost reduction programs.

Operating Income

Operating income decreased \$55.3 million, or 38.1%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$159.9 million, or 37.1%, during the first nine months of 2011 when compared to the first nine months of 2010. Operating margin decreased to 16.9% during the three months ended September 30, 2011 from 23.5% during the three months ended September 30, 2010 and to 17.0% during the first nine months of 2011 from 24.1% during the first nine months of 2010 as a result of the factors described above.

Other Income (Expense)

Other income (expense) increased \$5.8 million, or 34.3%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and decreased \$3.3 million, or 6.2%, during the first nine months of 2011 when compared to the first nine months of 2010. During the three months ended September 30, 2011 our interest expense increased due to an \$8.0 million write off of debt issuance costs related to the refinancing of our credit facilities, which was completed in August 2011, partially offset by lower interest expense due to lower average principal balances. During the first nine months of 2011 as compared to the first nine months of 2010, the increase in

interest expense from the write off of debt issuance costs was more than offset by a decrease in interest expense due to lower average interest rates and principal balances.

Income Taxes

Income taxes on continuing operations were \$25.2 million and \$49.0 million during the three months ended September 30, 2011 and 2010, and \$83.0 million and \$144.6 million for the first nine months of 2011 and 2010. The effective tax rate was 37.50% and 38.25% during the three and nine month periods ended September 30, 2011 and 2010, respectively.

Discontinued Operations, net

For the three and nine months periods ended September 30, 2011, management has committed to dispose of or sell the Fraud Services, Capital Markets, and Real Estate business units. Accordingly, the historical operations for these business units have been reclassified as discontinued operations in the accompanying condensed consolidated statements of earnings. See note 7 to

Table of Contents

our condensed consolidated financial statements included in Part I for a detailed description of our operations discontinued in the three and nine months ended September 30, 2011.

Net Earnings and Net Earnings Per Share- Diluted

Net earnings decreased \$38.3 million, or 48.7%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$113.9 million, or 49.2%, during the first nine months of 2011 when compared to the first nine months of 2010. Net earnings per diluted share totaled \$0.48 and \$0.85 during the first three months of 2011 and 2010, respectively, and \$1.37 and \$2.45 during the first nine months of 2011 and 2010, respectively. The decreases were a result of the factors described above, partially offset by a decrease in the weighted average shares outstanding - diluted as a result of the Company's share repurchases made in connection with our authorized share repurchase programs.

(1) Columns may not total due to rounding.

Revenues

Revenues increased \$5.8 million, or 3.1%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$45.1 million, or 8.5%, during the first nine months of 2011 when compared to the first nine months of 2010. The increases are primarily due to growth in our other data and analytics operations supporting both origination and default related activities and from the conversion of two large servicers onto our Desktop platform in late 2010. During the three and nine months ended September 30, 2011, the increase in revenues was partially offset by a change in estimate resulting in deferral of revenue of \$6.0 million during the quarter ended September 30, 2011 related to our Desktop division.

Cost of Revenues

Cost of revenues increased \$11.6 million, or 11.6%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$57.7 million, or 20.0%, during the first nine months of 2011 when compared to the first nine months of 2010. The increases are primarily due to growth in our other data and analytics operations supporting both origination and default related activities and from the conversion of two large servicers onto our Desktop platform in late 2010. For the nine months ended September 30, 2011, cost of revenues also increased due to charges related to severance benefits totaling \$6.1 million resulting from various cost reduction

programs, and a \$1.4 million impairment charge relating to the write-down of net assets in certain underperforming operations that management decided to dispose of or wind down.

Gross Margin

Gross margin decreased to 42.3% during the three months ended September 30, 2011 from 46.7% during the three months ended September 30, 2010 and to 40.1% during the first nine months of 2011 from 45.9% during the first nine months of 2010. The decreases in gross margin were primarily driven by higher demand for lower margin services during the periods and a change in estimate resulting in deferral of revenue of \$6.0 million during the quarter ended September 30, 2011 related to our Desktop division. Additionally, for the nine months ended September 30, 2011, gross margin decreased due to charges related to severance

Table of Contents

benefits of \$6.1 million resulting from various cost reduction programs, and from a \$1.4 million impairment charge relating to the write-down of net assets in certain underperforming operations that management decided to dispose of or wind down.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$0.1 million, or 0.5%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010, and increased \$3.8 million, or 6.8%, during the first nine months of 2011 when compared to the first nine months of 2010. Selling, general and administrative expenses as a percentage of revenues have remained constant at approximately 10.0% during the three and nine months ended September 30, 2011 as compared to the three and nine months ended September 30, 2010.

Operating Income

Operating margin decreased to 32.3% from 36.3% during the three months ended September 30, 2011 as compared to the three months ended September 30, 2010 and decreased to 29.9% from 35.5% during the nine months ended September 30, 2011 when compared to the nine months ended September 30, 2010 as a result of the factors described above.

Segment Results of Operations - Loan Transaction Services - Unaudited

(in millions)	Three Months Ended September 30				Nine Months Ended September 30			
	2011 (1)	2010 (1)	\$	%	2011 (1)	2010 (1)	\$	%
Revenues	\$340.2	\$431.1	\$(90.9)	(21.1)%	\$1,022.3	\$1,261.9	\$(239.6)	(19.0)%

(1)Columns may not total due to rounding.

Revenues

Revenues decreased \$90.9 million, or 21.1%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$239.6 million, or 19.0%, for the first nine months of 2011 when compared to the first nine months of 2010. The decreases are primarily due to a slowdown in our loan facilitation services due to a decline in the volume of loan originations, primarily due to changes in underlying interest rates, as well as a decrease in our default management services primarily due to lower foreclosure volumes resulting from continued delays in the foreclosure process due to increased regulatory scrutiny and monitoring, including consent orders entered into by a number of large servicers, judicial actions and voluntary delays by servicers. Although revenues from our default management services declined 25.0% and 22.1% in the three and nine months ended September 30, 2011, respectively, these results compared favorably to the decline in Notices of Default, a key indicator of the default market, as compiled and published by RealtyTrac, of 27.4% and 33.2%, respectively, during the same periods.

Cost of Revenues

Cost of revenues decreased \$50.5 million, or 16.2%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$138.6 million, or 15.5%, during the first nine months of 2011 when compared to the first nine months of 2010. The decreases are primarily due to a slowdown in our loan facilitation services due to a decline in the volume of loan originations for the reasons noted above. The decrease during the first nine months of 2011 as compared to the first nine months of 2010 was impacted by an adjustment made during the second quarter of 2010 to reduce loss reserves in our title operations by \$8.2 million based on favorable changes in our expected title losses, offset by a \$1.4 million charge related to severance benefits from our cost reduction program and a \$0.5 million impairment of net assets in certain underperforming operations that management decided to dispose of or wind down during the nine months ended September 30, 2011.

Table of Contents

Gross Margin

Gross margin decreased to 23.5% during the three months ended September 30, 2011 from 27.9% during the three months ended September 30, 2010 and 26.0% during the first nine months of 2011 from 29.0% during the first nine months of 2010. The gross margin decreases were primarily driven by certain negative changes in product mix, an increase in appraiser fees due to the impact of the Dodd-Frank Act, which required appraisal management companies to pay "customary and reasonable" fees to appraisers, and an adjustment made during the second quarter of 2010 to reduce loss reserves in our title operations by \$8.2 million based on favorable changes in our expected title losses. Also contributing to the gross margin decrease during the first nine months of 2011 as compared to the first nine months of 2010 was a \$1.4 million severance charge resulting from our various cost reduction programs and a \$0.5 million impairment of long-lived assets in certain underperforming operations that management decided to dispose of or wind down.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$5.0 million, or 21.2%, during the three months ended September 30, 2011 when compared to the three months ended September 30, 2010 and \$7.8 million, or 11.3% during the first nine months of 2011 when compared to the first nine months of 2010. Selling, general and administrative expenses as a percentage of revenues remain constant at 5.4% during the three months ended September 30, 2011 as compared to the three months ended September 30, 2010. Selling, general and administrative expenses as a percentage of revenues have increased to 6.1% during the first nine months of 2011 as compared to 5.5% during the first nine months of 2010 due to a \$2.7 million charge recognized during the first nine months of 2011 related to severance benefits resulting from our various cost reduction programs.

Operating Income

Operating margin decreased to 18.0% during the three months ended September 30, 2011 from 22.4% during the three months ended September 30, 2010 and 20.0% during the first nine months of 2011 from 23.6% during the first nine months of 2010 due to the factors described above.

Segment Results of Operations - Corporate and Other - Unaudited

The Corporate and Other segment consists of corporate overhead costs that are not included in the other segments as well as certain smaller operations. Net expenses for this segment increased to \$34.0 million for the three months ended September 30, 2011 from \$19.8 million for the three months ended September 30, 2010 mainly due to increased professional and legal fees relating to our compliance with the consent order and other litigation. Net expenses for this segment increased to \$105.2 million for the first nine months of 2011 from \$54.9 million for the first nine months of 2010 due to increased professional and legal fees relating to our compliance with the consent order and other litigation, and \$10.4 million in severance benefits and stock compensation acceleration charges associated with our various cost reduction programs.

Liquidity and Capital Resources

Cash Requirements

Our cash requirements include cost of revenues, selling, general and administrative expenses, income taxes, debt service payments, capital expenditures, systems development expenditures, stockholder dividends, share repurchases and business acquisitions. Our principal sources of funds are cash generated by operations and liquidity available under our revolving credit facility.

At September 30, 2011, we had cash and cash equivalents of \$84.0 million and availability under our revolving credit facility of \$283.2 million. We expect that cash flows from operations over the next twelve months will be sufficient to fund our operating cash requirements, fund capital expenditures, and pay principal and interest on our outstanding debt absent any unusual circumstances such as adverse changes in the business environment.

We currently pay a dividend of \$0.10 per common share on a quarterly basis and expect to continue to do so in the future. The declaration and payment of future dividends is at the discretion of the Board of Directors, and depends on, among other things, our investment policy and opportunities, results of operations, financial condition, cash requirements, future prospects, and other factors, including legal and contractual restrictions, that may be considered relevant by our Board of Directors. Additionally, the

Table of Contents

payment of cash dividends may be limited by covenants in certain debt agreements. A regular quarterly dividend of \$0.10 per common share is payable December 15, 2011 to shareholders of record as of the close of business on December 1, 2011. We continually assess our capital allocation strategy, including decisions relating to the amount of our dividend, reduction of debt, repurchases of our stock and making select acquisitions.

On October 28, 2010, our Board of Directors approved an authorization for us to repurchase up to \$250.0 million of our common stock and/or our senior notes, effective through December 31, 2011. Subsequently, on June 16, 2011 our Board of Directors approved an authorization for us to repurchase up to \$100.0 million of our common stock and/or our senior notes, effective through December 31, 2012. This authorization replaced the previous authorization and subsumed all amounts remaining available there-under. Our ability to repurchase shares of common stock or senior notes is subject to restrictions contained in our senior secured credit agreement and in the indenture governing our senior unsecured notes. During the nine months ended September 30, 2011, we repurchased 4.6 million shares of our stock for \$136.9 million, at an average price of \$29.98 per share, and \$5.0 million face value of our senior notes for \$4.9 million. During the three months ended September 30, 2011, we did not repurchase any shares of our stock or senior notes. As of September 30, 2011, we had \$95.1 million remaining available under our \$100.0 million repurchase authorization.

Operating Activities

Cash provided by operating activities reflects net income adjusted for certain non-cash items and changes in certain assets and liabilities. Cash provided by operating activities was approximately \$329.6 million and \$291.7 million during the nine months ended September 30, 2011 and 2010, respectively. The increase in cash provided by operating activities during the first nine months of 2011 when compared to the first nine months of 2010 was primarily related to working capital improvements from higher accounts receivable collections.

Investing Activities

Investing cash flows consist primarily of capital expenditures and acquisitions and dispositions. Cash used in investing activities was approximately \$121.9 million and \$97.1 million during the nine months ended September 30, 2011 and 2010, respectively. The increase in cash used in investing activities during the first nine months of 2011 when compared to the first nine months of 2010 was primarily related to the acquisition of PCLender.com, Inc. in March 2011 for \$9.8 million net of cash acquired, an increase in purchases of investments, and an increase in investments in title plants and property records data, partially offset by lower capital expenditures.

Our principal capital expenditures are for computer software (purchased and internally developed) and additions to property and equipment. We spent approximately \$81.5 million and \$84.1 million on capital expenditures during the nine months ended September 30, 2011 and 2010, respectively.

Financing Activities

Cash used in financing activities was approximately \$176.1 million and \$192.7 million during the nine months ended September 30, 2011 and 2010, respectively. The decrease in cash used in financing activities during the first nine months of 2011 when compared to the first nine months of 2010 was primarily related to a decrease in the level of treasury stock repurchases from \$168.0 million in the first nine months of 2010 to \$136.9 million in the first nine months of 2011, offset by bond repurchases of \$4.9 million and the decrease in cash inflows related to the exercises of stock options of \$13.2 million. As a result of refinancing our senior credit facilities during August 2011, we increased our net borrowings outstanding by approximately \$17.0 million which was primarily used to repay debt issuance costs totaling \$22.1 million related to the transaction. The 2011 Credit Agreement provides the Company with lower principal payment requirements, increased capacity under our revolver, an attractive long-term cost of capital, and an

extended maturity date, which further enhances the Company's future financial flexibility and liquidity.

Financing

On August 18, 2011, the Company entered into an Amendment, Restatement and Joinder Agreement (the "Amendment Agreement") in respect of the Credit Agreement dated as of July 2, 2008 (the "2008 Credit Agreement") with JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer, and various other lenders who are parties to the 2008 Credit Agreement. In connection with entering into the Amendment Agreement, on August 18, 2011, the Company also entered into an Amended and Restated Credit Agreement (the "2011 Credit Agreement") with JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer, and various other lenders who are parties to the 2011 Credit Agreement which amends and restates the 2008 Credit Agreement.

Table of Contents

The 2011 Credit Agreement consists of: (i) a 5-year revolving credit facility in an aggregate principal amount outstanding at any time not to exceed \$400 million (with a \$25 million sub-facility for Letters of Credit); (ii) a 5-year Term A Loan in an initial aggregate principal amount of \$535 million; and (iii) a Term B Loan with a maturity date of August 14, 2018 in an aggregate principal amount of \$250 million.

The loans under the 2011 Credit Agreement bear interest at a floating rate, which is an applicable margin plus, at the Company's option, either (a) the Eurodollar (LIBOR) rate or (b) the highest of (i) the prime rate, (ii) the federal funds rate plus 0.50% and (iii) the one Month LIBOR rate plus 1.00% (the highest of clauses (i), (ii) and (iii), the "Base rate"). The annual margin on the Term A Loan and the revolving credit facility until the first business day following delivery of the compliance certificate with respect to the first fiscal quarter ending following the closing and funding of the amended and restated facility is 2.25% in the case of LIBOR loans and 1.25% in the case of the Base rate loans, and after that time will be a percentage to be determined in accordance with a leverage ratio-based pricing grid. The annual margin on the Term B Loan is 4.50% in the case of LIBOR loans (with LIBOR subject to a floor of 1%) and 3.50% in the case of the Base rate loans.

The 2011 Credit Agreement provides that, beginning on December 31, 2011, the Company shall repay the outstanding principal amount of Term A Loans in quarterly installments of \$6.7 million. These quarterly installment payments increase to \$13.4 million beginning on December 31, 2013 and then to \$20.1 million beginning on December 31, 2014 through March 31, 2016. The Term B Loans are subject to quarterly installment payments of \$0.6 million beginning on September 30, 2011 until March 31, 2018. All remaining outstanding principal amounts of Term Loan A and B loans shall be repaid at the respective maturity dates.

In addition to scheduled principal payments, the Term Loans are (with certain exceptions) subject to mandatory prepayment upon issuances of debt, casualty and condemnation events, and sales of assets, as well as from up to 50% of excess cash flow (as defined in the Credit Agreement) in excess of an agreed threshold commencing with the cash flow for the year ended December 31, 2012. Voluntary prepayments of the loans are generally permitted at any time without fee upon proper notice and subject to a minimum dollar requirement, except that, under certain conditions, voluntary prepayments of the Term B Loan made on or prior to August 18, 2012 are subject to a 1% prepayment premium. Commitment reductions of the revolving credit facility are also permitted at any time without fee upon proper notice. The revolving credit facility has no scheduled principal payments, but it will be due and payable in full on August 18, 2016.

The Company is allowed to raise additional term loans and/or increase commitments under the Revolving Credit Facility in an aggregate principal amount of up to \$250.0 million (the "Incremental Facilities"). The Incremental Facilities are subject to restrictions on pricing and tenor of any new term loan, pro-forma compliance with financial covenants, pro-forma leverage ratio not to exceed 2.00:1.00, and other usual and customary conditions. The obligations under the 2011 Credit Agreement are fully and unconditionally guaranteed, jointly and severally, by certain of our domestic subsidiaries. Additionally, the Company and such subsidiary guarantors pledged substantially all of our respective assets as collateral security for the obligations under the Credit Agreement and our respective guarantees.

The 2011 Credit Agreement contains customary affirmative, negative and financial covenants including, among other things, limits on the creation of liens, limits on the incurrence of indebtedness, restrictions on investments, dispositions and sale and leaseback transactions, limits on the payment of dividends and other restricted payments, a minimum interest coverage ratio and a maximum leverage ratio. Upon an event of default, the administrative agent can accelerate the maturity of the loan. Events of default include events customary for such an agreement, including failure to pay principal and interest in a timely manner, breach of covenants and a change of control of the Company. These events of default include a cross-default provision that permits the lenders to declare the 2011 Credit Agreement in default if (i) the Company fails to make any payment after the applicable grace period under any

indebtedness with a principal amount in excess of \$70 million or (ii) the Company fails to perform any other term under any such indebtedness, as a result of which the holders thereof may cause it to become due and payable prior to its maturity.

We accrued for or paid fees and other costs of \$22.3 million associated with the refinancing transactions, including fees paid to lenders, arrangers, and outside professionals such as attorneys and rating agencies. In accordance with FASB ASC 470 — Debt, we performed an analysis to determine whether the old debt had been extinguished or modified. This analysis determines the treatment of fees paid in connection with the transaction and any existing unamortized fees associated with the old debt. As a result of that analysis, we recorded a writeoff of unamortized debt issuance costs associated with the old debt of \$5.7 million, and capitalized the remaining existing unamortized fees related to the old debt of \$2.5 million, which will be amortized as an increase to interest expense over the term of the new debt using the effective interest method. Of the \$22.3 million of fees associated with the refinancing, \$20.0 million was capitalized and will be amortized as an increase to interest expense over the term of the new

Table of Contents

debt using the effective interest method and the remaining \$2.3 million was expensed.

Old Credit Facilities

On July 2, 2008, we entered into a Credit Agreement (the "2008 Credit Agreement") among JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer and various other lenders who are parties to the 2008 Credit Agreement. The 2008 Credit Agreement consisted of: (i) a 5-year revolving credit facility in an aggregate principal amount outstanding at any time not to exceed \$140.0 million (with a \$25.0 million sub-facility for Letters of Credit) (ii) a Term A Loan in an initial aggregate principal amount of \$700.0 million; and (iii) a Term B Loan in an initial aggregate principal amount of \$510.0 million. Proceeds from disbursements under the 5-year revolving credit facility were used for general corporate purposes.

The loans under the 2008 Credit Agreement accrued interest at a floating rate, which is an applicable margin plus, at our option, either (a) the Eurodollar (LIBOR) rate or (b) the higher of (i) the prime rate or (ii) the federal funds rate plus 0.5% (the higher of clauses (i) and (ii), the "ABR rate"). The annual margin on the Term A Loan and the revolving credit facility was a percentage per annum to be determined in accordance with a leverage ratio-based pricing grid and on the Term B Loan was 2.4% in the case of LIBOR loans and 1.5% in the case of ABR rate loans.

Senior Notes

On July 2, 2008, we issued senior notes (the "Notes") in an initial aggregate principal amount of \$375.0 million under which \$362.0 million was outstanding at September 30, 2011. The Notes were issued pursuant to an Indenture dated July 2, 2008 (the "Indenture") among the Company, the guarantor parties thereto and U.S. Bank Corporate Trust Services, as Trustee.

The Notes bear interest at a rate of 8.125% per annum. Interest payments are due semi-annually each January 1 and July 1. The maturity date of the Notes is July 1, 2016. From time to time we may be in the market to repurchase portions of the Notes, subject to limitations set forth in the Credit Agreement.

The Indenture contains covenants that, among other things, limit LPS' ability and the ability of certain of LPS' subsidiaries (a) to incur or guarantee additional indebtedness or issue preferred stock, (b) to make certain restricted payments, including dividends or distributions on equity interests held by persons other than LPS or certain subsidiaries, in excess of an amount generally equal to 50% of consolidated net income generated since July 1, 2008, (c) to create or incur certain liens, (d) to engage in sale and leaseback transactions, (e) to create restrictions that would prevent or limit the ability of certain subsidiaries to (i) pay dividends or other distributions to LPS or certain other subsidiaries, (ii) repay any debt or make any loans or advances to LPS or certain other subsidiaries or (iii) transfer any property or assets to LPS or certain other subsidiaries, (f) to sell or dispose of assets of LPS or any restricted subsidiary or enter into merger or consolidation transactions and (g) to engage in certain transactions with affiliates. These covenants are subject to a number of exceptions, limitations and qualifications in the Indenture.

The Notes are our general unsecured obligations. Accordingly, they rank equally in right of payment with all of our existing and future unsecured senior debt; senior in right of payment to all of our future subordinated debt; effectively subordinated to our existing and future secured debt to the extent of the assets securing such debt, including all borrowings under our credit facilities; and effectively subordinated to all of the liabilities of our non-guarantor subsidiaries, including trade payables and preferred stock.

The Notes are guaranteed by each existing and future domestic subsidiary that is a guarantor under our credit facilities. The guarantees are general unsecured obligations of the guarantors. Accordingly, they rank equally in right of payment with all existing and future unsecured senior debt of our guarantors; senior in right of payment with all

existing and future subordinated debt of such guarantors; and effectively subordinated to such guarantors' existing and future secured debt to the extent of the assets securing such debt, including the guarantees by the guarantors of obligations under our credit facilities.

LPS has no independent assets or operations and our subsidiaries' guarantees are full and unconditional and joint and several. There are no significant restrictions on the ability of LPS or any of the subsidiary guarantors to obtain funds from any of our subsidiaries other than National Title Insurance of New York Inc. ("NTNY"), our title insurance underwriter subsidiary, by dividend or loan. NTNY is statutorily required to maintain investment assets backing its reserves for settling losses on the policies it issues, and its ability to pay dividends or make loans is limited by regulatory requirements.

We may redeem some or all of the Notes on or after July 1, 2011, at the redemption prices described in the Indenture, plus accrued and unpaid interest. Upon the occurrence of a change of control, unless we have exercised our right to redeem all of the Notes as described above, each holder may require us to repurchase such holder's Notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the purchase date.

Table of Contents

The Indenture contains customary events of default, including failure of the Company (i) to pay principal and interest when due and payable and breach of certain other covenants and (ii) to make an offer to purchase and pay for Notes tendered as required by the Indenture. Events of default also include cross defaults, with respect to any other debt of the Company or debt of certain subsidiaries having an outstanding principal amount of \$80.0 million or more in the aggregate for all such debt, arising from (i) failure to make a principal payment when due and such defaulted payment is not made, waived or extended within the applicable grace period or (ii) the occurrence of an event which results in such debt being due and payable prior to its scheduled maturity. Upon the occurrence of an event of default (other than a bankruptcy default with respect to the Company or certain subsidiaries), the trustee or holders of at least 25% of the Notes then outstanding may accelerate the Notes by giving us appropriate notice. If, however, a bankruptcy default occurs with respect to the Company or certain subsidiaries, then the principal of and accrued interest on the Notes then outstanding will accelerate immediately without any declaration or other act on the part of the trustee or any holder.

The fair value of the Company's long-term debt at September 30, 2011 is estimated to be approximately 96% of the carrying value. We have estimated the fair value of our debt using Level 2 Inputs, based on values of recent quoted market prices on our term loans and values of recent trades on our senior notes.

Interest Rate Swaps

See note 10 to the notes of the condensed consolidated financial statements for a detailed description of our interest rate swaps.

Contractual Obligations

As described in note 10 to the notes of the condensed consolidated financial statements, there have been significant changes to our scheduled principal maturities since our Annual Report on Form 10-K was filed on March 1, 2011.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements other than operating leases and the escrow arrangements described below.

Escrow Arrangements

In conducting our title agency, closing and tax services, we routinely hold customers' assets in escrow accounts, pending completion of real estate related transactions. Certain of these amounts are maintained in segregated accounts, and these amounts have not been included in the accompanying condensed consolidated balance sheets. As an incentive for holding deposits at certain banks, we periodically have programs for realizing economic benefits through favorable arrangements with these banks. As of September 30, 2011, the aggregate value of all amounts held in escrow in our title agency, closing and tax services operations totaled \$303.2 million.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

In the normal course of business, we are routinely subject to a variety of risks, including those described in the "Statement Regarding Forward-Looking Information," "Risk Factors" and other sections of our Annual Report on Form 10-K that was filed on March 1, 2011 and our other filings with the Securities and Exchange Commission. For example, we are exposed to the risk that decreased lending and real estate activity, which depend in part on the level of interest rates, may reduce demand for certain of our services and adversely affect our results of operations. The risks related to our business also include certain market risks that may affect our debt and other financial instruments. In particular, we face the market risks associated with our cash equivalents and interest rate movements on our

outstanding debt. We regularly assess market risks and have established policies and business practices to protect against the adverse effects of these exposures.

Our cash equivalents are predominantly invested with high credit quality financial institutions, and consist of short-term investments such as money market demand accounts, money market funds and demand deposit accounts.

We are a highly leveraged company, with approximately \$1,261.5 million in long-term debt outstanding as of September 30, 2011. We have entered into interest rate swap transactions which converted a portion of the interest rate exposure on our floating rate debt from variable to fixed. We performed a sensitivity analysis based on the principal amount of our floating rate debt as of September 30, 2011, less the principal amount of such debt that was then subject to an interest rate swap. This sensitivity analysis takes into account scheduled principal installments that will take place in the next 12 months as well as the related notional amount of interest rate swaps then outstanding. Further, in this sensitivity analysis, the change in interest rates is assumed to be applicable

Table of Contents

for the entire year. Of the remaining variable rate debt not covered by the swap arrangements, we estimate that a 100 basis point increase in the LIBOR rate would increase our annual interest expense by approximately \$2.8 million.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of its principal executive officer and principal financial officer, of the effectiveness of the design and operation of its disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Act"). Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Act is: (a) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms; and (b) accumulated and communicated to management, including the Company's principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II: OTHER INFORMATION

Item 1. Legal Proceedings

See Litigation and Regulatory Matters in Note 12 - Commitments and Contingencies to the Condensed Consolidated Financial Statements, which is incorporated by reference in this Item 1, for litigation and regulatory disclosures which update the disclosures in the legal proceedings section of the Company's 2010 Annual Report on Form 10-K, as previously updated by the disclosures in the legal proceedings section of the Company's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2011, and as further updated by the disclosures in the legal proceedings section of Company's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On October 28, 2010, our Board of Directors approved an authorization for us to repurchase up to \$250.0 million of our common stock and/or our senior notes, effective through December 31, 2011. Subsequently, on June 16, 2011 our Board of Directors approved an authorization for us to repurchase up to \$100.0 million of our common stock and/or our senior notes, effective through December 31, 2012. This authorization replaced the previous authorization and subsumed all amounts remaining available thereunder. Our ability to repurchase shares of common stock or senior notes is subject to restrictions contained in our senior secured credit agreement and in the indenture governing our senior unsecured notes. During the nine months ended September 30, 2011, we repurchased 4.6 million shares of our stock for \$136.9 million, at an average price of \$29.98 per share, and \$5.0 million face value of our senior notes for \$4.9 million. During the three months ended September 30, 2011, we did not repurchase any shares of our stock or senior notes. As of September 30, 2011, we had \$95.1 million remaining available under our \$100.0 million repurchase authorization.
