Notes to Condensed Consolidated Financial Statements (Unaudited)

June 30, 2018

1. Business and Basis of Presentation

OneMain Holdings, Inc. is referred to in this report as “OMH” or, collectively with its subsidiaries, whether directly or indirectly owned, the “Company,” “we,” “us,” or “our.” OMH is a Delaware corporation. At December 31, 2017, prior to the transactions described below, Springleaf Financial Holdings LLC (“SFH”), owned approximately 44% of OMH’s common stock. SFH was owned primarily by a private equity fund managed by an affiliate of Fortress.

On January 3, 2018, the Apollo-Värde Group entered into a Share Purchase Agreement with SFH and the Company to acquire from SFH 54,937,500 shares of OMH common stock, par value \$0.01 per share, at a purchase price per share of \$26.00, representing the entire holdings of our stock beneficially owned by Fortress. This transaction closed on June 25, 2018 for an aggregate purchase price of approximately \$1.4 billion in cash.

The Share Purchase Agreement was filed as Exhibit 10.1 to our Current Report on Form 8-K filed with the SEC on January 4, 2018. Upon closing of the Apollo-Värde Transaction, we entered into an Amended and Restated Stockholders’ Agreement, the terms of which are described in our Current Report on Form 8-K, filed with the SEC on June 25, 2018. As disclosed in Note 21 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K, certain executives of the Company had previously been granted incentive units that only provide benefits (in the form of distributions) if SFH makes distributions to one or more of its common members that exceed specified amounts. In connection with the Apollo-Värde Transaction, certain executive officers who are holders of SFH incentive units received a distribution of approximately \$106 million in the aggregate from SFH as a result of their ownership interests in SFH. Although the distribution was not made by the Company or its subsidiaries, in accordance with ASC Topic 710, Compensation-General, we recorded non-cash incentive compensation expense of approximately \$106 million, with an equal and offsetting increase to additional paid-in-capital. The impact to the Company was non-cash, equity neutral and not tax deductible.

On February 21, 2018, OMH entered into an underwriting agreement among OMH, SFH and Morgan Stanley & Co. LLC as underwriter in connection with the sale by SFH of 4,179,678 shares of its common stock. These shares were beneficially owned by AIG Capital Corporation (“AIG”), a subsidiary of American International Group, Inc., and represented the entire holdings of our stock beneficially owned by AIG. In connection with this sale of our common stock by SFH, certain executive officers who are holders of SFH incentive units, as described above, received a distribution of approximately \$4 million in the first quarter of 2018. Consistent with the accounting for distribution from the Apollo-Värde Transaction described above, the Company recognized non-cash incentive compensation expense of approximately \$4 million, with an equal and offsetting increase to additional paid-in-capital. Again, the impact to the Company was non-cash, equity neutral and not tax deductible.

At June 30, 2018, the Apollo-Värde Group owned approximately 40.5% of OMH’s common stock.

OMH is a financial services holding company whose principal subsidiary is SFI. SFI’s principal subsidiary is SFC. On June 22, 2018, SFI entered into a contribution agreement with OMH, whereby OMH contributed all of the common interests of Independence to SFI. Immediately thereafter, SFI entered into a separate contribution agreement with SFC, pursuant to which SFI contributed all of the common interests of Independence to SFC. As a result of the contribution from SFI to SFC, Independence became a wholly owned direct subsidiary of SFC on June 22, 2018. Independence, through its wholly owned subsidiary OMFH and OMFH’s subsidiaries, and SFC engage in the consumer finance and insurance businesses.

BASIS OF PRESENTATION

We prepared our condensed consolidated financial statements using GAAP. These statements are unaudited. The year-end condensed balance sheet data was derived from our audited financial statements but does not include all disclosures required by GAAP. The statements include the accounts of OMH, its subsidiaries (all of which are wholly owned), and VIEs in which we hold a controlling financial interest and for which we are considered to be the primary beneficiary as of the financial statement date.

We eliminated all material intercompany accounts and transactions. We made judgments, estimates, and assumptions that affect amounts reported in our condensed consolidated financial statements and disclosures of contingent assets and liabilities. In management's opinion, the condensed consolidated financial statements include the normal, recurring adjustments necessary for a fair statement of results. Ultimate results could differ from our estimates. We evaluated the effects of and the need to disclose events that occurred subsequent to the balance sheet date. To conform to the 2018 presentation, we have reclassified certain items in prior periods of our condensed consolidated financial statements.

The condensed consolidated financial statements in this report should be read in conjunction with the consolidated financial statements and related notes included in our 2017 Annual Report on Form 10-K. We follow the same significant accounting policies for our interim reporting, except for the new accounting pronouncements subsequently adopted and disclosed in Note 2 below.

2. Recent Accounting Pronouncements

ACCOUNTING PRONOUNCEMENTS RECENTLY ADOPTED

Revenue Recognition

In May of 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides a consistent revenue accounting model across industries. Management has reviewed this update and other ASUs that were subsequently issued to further clarify the implementation guidance outlined in ASU 2014-09. The Company's implementation efforts included the identification of revenue streams that are within the scope of the new guidance and the review of related contracts with customers to determine their effect on certain non-interest income items presented in our consolidated statements of operations and the additional presentation disclosures required. We concluded that substantially all of the Company's revenues are generated from activities that are outside the scope of this ASU. We adopted the amendments of this ASU as of January 1, 2018 and concluded they do not have a material impact on our consolidated financial statements.

Financial Instruments

In January of 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities, which simplifies the impairment assessment of equity investments. The update requires equity investments to be measured at fair value with changes recognized in net income. This ASU eliminates the requirement to disclose the methods and assumptions to estimate fair value for financial instruments, requires the use of the exit price for disclosure purposes, requires the change in liability due to a change in credit risk to be presented in other comprehensive income for financial liabilities measured under the fair value option, requires separate presentation of financial assets and liabilities by measurement category and form of asset (securities and loans), and clarifies the need for a valuation allowance on a deferred tax asset related to available-for-sale securities. In February of 2018, the FASB issued ASU 2018-03, Technical Corrections and Improvements to Financial Instruments - Overall, which made technical corrections and improvements to the codification, specifically related to ASU 2016-01. The Company has adopted these ASUs as of January 1, 2018 using a cumulative-effect adjustment to the balance sheet. The amendments related to equity securities without readily determinable fair values (including disclosure requirements) shall be applied prospectively to equity investments that exist as of the date of adoption of this update. We adopted all other amendments of these ASUs as of January 1, 2018 and presented this change on a retrospective basis for all periods presented. We concluded that these ASUs do not have a material impact on our consolidated financial statements.

In March of 2017, the FASB issued ASU 2017-08, Receivables - Nonrefundable Fees and Other Costs, which amends the amortization period for certain purchased callable debt securities held at a premium. This ASU shortens the amortization period for the premium from the adjustment of yield over the contractual life of the instrument to the earliest call date. The amendments in this ASU become effective for the Company for fiscal years beginning January 1, 2019. As the Company's existing accounting policy was in accordance with the amendments of this ASU, we elected to early adopt as of January 1, 2018 and concluded that it does not have a material impact on our consolidated financial statements.

Statement of Cash Flows

In August of 2016, the FASB issued ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments, which clarifies how certain cash receipts and cash payments are presented and classified in the statement of cash flows. We adopted the amendments of this ASU as of January 1, 2018 and concluded that they do not have a material impact on our consolidated financial statements.

Income Taxes

In October of 2016, the FASB issued ASU 2016-16, Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory, which requires entities to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. We adopted the amendments of this ASU as of January 1, 2018 and concluded that they do not have a material impact on our consolidated financial statements.

In February of 2018, the FASB issued ASU 2018-02, Income Statement-Reporting Comprehensive Income: Reclassifications of Certain Tax Effects from Accumulated Other Comprehensive Income, which permits the reclassification of stranded tax effects within accumulated other comprehensive income to retained earnings from the passage of the Tax Act. This update requires additional disclosures describing the nature of the stranded tax effects. The amendments within this ASU become effective for the Company for fiscal years beginning after January 1, 2019, with early adoption permitted. We elected to early adopt as of April 1, 2018 and reclassified \$2 million of stranded tax effects resulting in a decrease to retained earnings and an increase to accumulated other comprehensive income.

Compensation and Benefits

In March of 2017, the FASB issued ASU 2017-07, Compensation-Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, to improve the presentation of the net periodic pension cost and net periodic postretirement benefit costs. It requires that a company present the service cost component separately from other components of net benefit cost on the income statement. We adopted the amendments of this ASU as of January 1, 2018 and concluded that they do not have a material impact on our consolidated financial statements.

In May of 2017, the FASB issued ASU 2017-09, Compensation-Stock Compensation: Scope of Modification Accounting, which provides guidance on which changes to the terms or conditions of a share-based payment award requires an entity to apply modification accounting. We adopted the amendments of this ASU as of January 1, 2018 and concluded that they do not have a material impact on our consolidated financial statements.

Goodwill Impairment

In January of 2017, the FASB issued ASU 2017-04, Intangibles-Goodwill and Other: Simplifying the Test for Goodwill Impairment, which simplifies the test for goodwill impairment by eliminating Step 2 of the impairment testing process. The amendments in this ASU will become effective for the Company for fiscal years beginning January 1, 2020. We elected to early adopt as of January 1, 2018 and concluded that it does not have a material impact on our consolidated financial statements.

ACCOUNTING PRONOUNCEMENTS TO BE ADOPTED

Leases

In February of 2016, the FASB issued ASU 2016-02, Leases, which requires lessees to recognize a right-of-use asset and a liability for the obligation to make payments on leases with terms greater than 12 months and to disclose information related to the amount, timing and uncertainty of cash flows arising from leases, including various qualitative and quantitative requirements. Management has reviewed this update and other ASUs that were subsequently issued to further clarify the implementation guidance outlined in ASU 2016-02.

The amendments in this ASU become effective for the Company for fiscal years beginning January 1, 2019. The Company's cross-functional implementation team continues to make progress in line with the established project plan to ensure we comply with all updates from this ASU at the time of adoption. We are currently in the process of implementing a new leasing system that will allow us to better account for the leases in accordance with the new guidance. We are assessing new system updates to ensure both qualitative and quantitative data requirements will be met at the time of adoption. The Company's leases primarily consist of leased office space, automobiles and information technology equipment. At December 31, 2017, the Company had approximately \$180 million of minimum lease commitments from these operating leases (refer to Note 19 of the Notes to the Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K). The adoption of this ASU will result in an increase in our reported assets and liabilities on the consolidated balance sheets due to the recognition of the right-of-use asset and lease liability, and we are in the process of quantifying the expected impact.

Allowance for Finance Receivables Losses

In June of 2016, the FASB issued ASU 2016-13, Financial Instruments-Credit Losses: Measurement of Credit Losses on Financial Instruments, which significantly changes the way that entities will be required to measure credit losses. The new standard requires that the estimated credit loss be based upon an “expected credit loss” approach rather than the “incurred loss” approach currently required. The new approach will require entities to measure all expected credit losses for financial assets based on historical experience, current conditions, and reasonable forecasts of collectability. It is anticipated that the expected credit loss model will require earlier recognition of credit losses than the incurred loss approach. Therefore, we would expect changes in the allowance for finance receivable losses will be driven primarily by the nature and growth of the Company’s loan portfolio and the economic environment at that time.

The ASU requires that credit losses for purchased financial assets with a more-than-insignificant amount of credit deterioration since origination that are measured at amortized cost basis be determined in a similar manner to other financial assets measured at amortized cost basis; however, the initial allowance for credit losses is added to the purchase price of the financial asset rather than being reported as a credit loss expense. Subsequent changes in the allowance for credit losses are recorded in earnings. Interest income should be recognized based on the effective rate, excluding the discount embedded in the purchase price attributable to expected credit losses at acquisition.

The ASU also requires companies to record allowances for held-to-maturity and available-for-sale debt securities rather than write-downs of such assets.

In addition, the ASU requires qualitative and quantitative disclosures that provide information about the allowance and the significant factors that influenced management’s estimate of the allowance.

The ASU will become effective for the Company for fiscal years beginning January 1, 2020. Early adoption is permitted for fiscal years beginning January 1, 2019. The Company’s cross-functional implementation team continues to make progress in line with the established project plan to ensure we comply with all updates from this ASU at the time of adoption. We continue to refine the development of an acceptable model to estimate the expected credit losses. After the model has been reviewed and validated in accordance with our governance policies, the Company will provide further disclosure regarding the estimated impact on our allowance for finance receivables losses. In addition to the development of the model, we are assessing the additional disclosure requirements from this update and the impact the adoption may have on any available-for-sale securities held by the Company. We believe the adoption of this ASU will have a material effect on our consolidated financial statements through an increase to the allowance for finance receivable losses and a corresponding one-time cumulative effect reduction to retained earnings in the consolidated balance sheet as of the beginning of the year of adoption. We are in the process of quantifying the expected impacts.

We do not believe that any other accounting pronouncements issued during the six months ended June 30, 2018, but not yet effective, would have a material impact on our consolidated financial statements or disclosures, if adopted.

3. Finance Receivables

Our finance receivable types include personal loans and other receivables as defined below:

- Personal loans — are secured by consumer goods, automobiles, or other personal property or are unsecured, typically non-revolving with a fixed-rate and a fixed, original term of three to six years.

-

Other receivables — consist of our loan portfolios in a liquidating status. We ceased originating real estate loans in 2012 and purchasing retail sales contracts and revolving retail accounts in 2013. We continue to service or sub-service the liquidating real estate loans and retail sales contracts and will provide revolving retail sales financing services on our revolving retail accounts.

Beginning in 2018, we combined real estate and retail sales finance loans into “Other Receivables.” Previously, we presented real estate and retail sales finance loans as distinct receivable types. In order to conform to this new alignment, we have revised our prior period finance receivable disclosures.

Components of net finance receivables held for investment by type were as follows:

(dollars in millions)	Personal Loans	Other Receivables	Total
June 30, 2018			
Gross receivables (a)(b)	\$15,216	\$ 123	\$15,339
Unearned points and fees	(176)	—	(176)
Accrued finance charges	219	1	220
Deferred origination costs	125	—	125
Total	\$15,384	\$ 124	\$15,508
December 31, 2017			
Gross receivables (a)(b)	\$14,664	\$ 133	\$14,797
Unearned points and fees	(168)	—	(168)
Accrued finance charges	210	1	211
Deferred origination costs	117	—	117
Total	\$14,823	\$ 134	\$14,957

(a) Gross receivables are defined as follows:

Finance receivables purchased as a performing receivable — gross finance receivables equal the UPB and the remaining unearned discount, net of premium established at the time of purchase to reflect the finance receivable balance at its initial fair value;

Finance receivables originated subsequent to the OneMain Acquisition and the Fortress Acquisition — gross finance receivables equal the UPB;

Purchased credit impaired finance receivables — gross finance receivables equal the remaining estimated cash flows less the current balance of accretable yield on the purchased credit impaired accounts; and

TDR finance receivables — gross finance receivables equal the UPB and, if applicable, the remaining unearned premium, net of discount established at the time of purchase if previously purchased as a performing receivable.

(b) As of January 1, 2018, we have reclassified unearned finance charges to gross receivables. To conform to this presentation, we have reclassified the prior period.

At June 30, 2018 and December 31, 2017, unused lines of credit extended to customers by the Company were immaterial.

CREDIT QUALITY INDICATOR

We consider the value and concentration of secured loans and the delinquency status of our finance receivables as our primary credit quality indicators. At June 30, 2018 and December 31, 2017, 44% and 43% of our personal loans were secured by titled collateral, respectively. We monitor delinquency trends to manage our exposure to credit risk. When finance receivables are 60 days contractually past due, we consider these accounts to be at an increased risk for loss and we transfer collection of these accounts to our centralized operations. At 90 days or more contractually past due, we consider our finance receivables to be nonperforming.

The following is a summary of net finance receivables held for investment by type and by number of days delinquent:

(dollars in millions)	Personal Loans	Other Receivables	Total
June 30, 2018

PURCHASED CREDIT IMPAIRED FINANCE RECEIVABLES

Our purchased credit impaired finance receivables consist of receivables purchased in connection with the OneMain Acquisition and the Fortress Acquisition.

We report the carrying amount (which initially was the fair value) of our purchased credit impaired finance receivables in net finance receivables, less allowance for finance receivable losses or in finance receivables held for sale as discussed below.

At June 30, 2018 and December 31, 2017, finance receivables held for sale totaled \$123 million and \$132 million, respectively, which include purchased credit impaired finance receivables, as well as TDR finance receivables. Therefore, we are presenting the financial information for our purchased credit impaired finance receivables and TDR finance receivables combined for finance receivables held for investment and finance receivables held for sale in the tables below. See Note 5 for further information on our finance receivables held for sale.

Information regarding our purchased credit impaired finance receivables held for investment and held for sale were as follows:

(dollars in millions)	June 30, 2018	December 31, 2017
OM Loans		
Carrying amount, net of allowance	\$ 127	\$ 176
Outstanding balance (a)	180	243
Allowance for purchased credit impaired finance receivable losses	—	6
FA Loans (b)		
Carrying amount, net of allowance	\$ 53	\$ 57
Outstanding balance (a)	90	94
Allowance for purchased credit impaired finance receivable losses	9	9

(a) Outstanding balance is defined as UPB of the loans with a net carrying amount.

(b) Purchased credit impaired FA Loans held for sale included in the table above were as follows:

(dollars in millions)	June 30, 2018	December 31, 2017
Carrying amount	\$ 41	\$ 44
Outstanding balance	68	72

The allowance for purchased credit impaired finance receivable losses reflects the carrying value of the purchased credit impaired loans held for investment being higher than the present value of the expected cash flows.

Changes in accretable yield for purchased credit impaired finance receivables held for investment and held for sale were as follows:

(dollars in millions)	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
OM Loans				
Balance at beginning of period	\$49	\$48	\$47	\$59

Reclassifications from (to) nonaccretable difference *	—	(2)	—	(2)
Balance at end of period	\$51	\$55	\$51	\$55

* Reclassifications from (to) nonaccretable difference represents the increases (decreases) in accretable yield resulting from higher (lower) estimated undiscounted cash flows.

5. Finance Receivables Held for Sale

We reported finance receivables held for sale of \$123 million at June 30, 2018 and \$132 million at December 31, 2017, which are carried at the lower of cost or fair value and consist entirely of real estate loans. At June 30, 2018 and December 31, 2017, the fair value of our finance receivables held for sale exceeded the cost. We used the aggregate basis to determine the lower of cost or fair value of finance receivables held for sale.

We did not have any material transfers to or from finance receivables held for sale during the three and six months ended June 30, 2018 and 2017.

* Unrealized losses on certain available-for-sale securities were less than \$1 million and, therefore, are not quantified in the table above.

On a lot basis, we had 1,872 and 1,229 investment securities in an unrealized loss position at June 30, 2018 and December 31, 2017, respectively. We do not consider the unrealized losses to be credit-related, as these unrealized losses primarily relate to changes in interest rates and market spreads subsequent to purchase. Additionally, at June 30, 2018, we had no plans to sell any investment securities with unrealized losses, and we believe it is more likely than not that we would not be required to sell such investment securities before recovery of their amortized cost.

We continue to monitor unrealized loss positions for potential impairments. During the three months ended June 30, 2018, we did not recognize any other-than-temporary impairment credit losses and during the six months ended June 30, 2018 we recognized less than \$1 million of other-than-temporary impairment credit losses on our available-for-sale securities in investment revenues. During the three and six months ended June 30, 2017, we did not recognize any other-than-temporary impairment credit losses on our available-for-sale securities in investment revenues.

During the three and six months ended June 30, 2018 and 2017, there were no material additions or reductions in the cumulative amount of credit losses (recognized in earnings) on other-than-temporarily impaired available-for-sale

securities.

Actual maturities may differ from contractual maturities since issuers and borrowers may have the right to call or prepay obligations. We may sell investment securities before maturity for general corporate and working capital purposes and to achieve certain investment strategies.

The fair value of securities on deposit with third parties totaled \$500 million and \$537 million at June 30, 2018 and December 31, 2017, respectively.

*The Company employs an income equity strategy targeting investments in stocks with strong current dividend yields. Stocks included have a history of stable or increasing dividend payments.

Net unrealized losses on other securities held at June 30, 2018 and 2017, were less than \$1 million and \$3 million for the three and six months ended June 30, 2018, respectively, and were less than \$1 million for the three and six months ended June 30, 2017. Net realized gains and losses on other securities sold or redeemed during the 2018 and 2017 periods were immaterial for the three and six months ended June 30, 2018 and 2017. We report these gains and losses in investment revenues.

7. Transactions with Affiliates

Upon closing of the Apollo-Värde Transaction, on June 25, 2018, Fortress and its affiliates are no longer considered related-parties or affiliates. See Note 1 for additional information regarding the Apollo-Värde Transaction.

SUBSERVICING AGREEMENT

Nationstar subservices the real estate loans of certain of our indirect subsidiaries. Investment funds managed by affiliates of Fortress indirectly own a majority interest in Nationstar. The subservicing fees paid to Nationstar, prior to the closing of the Apollo-Värde Transaction, were immaterial for the three and six months ended June 30, 2018 and 2017.

SERVICING AGREEMENT

In 2016, we sold our equity interest in the SpringCastle Joint Venture, which owns the SpringCastle Portfolio, to certain subsidiaries of NRZ and Blackstone. NRZ is managed by an affiliate of Fortress.

Unless we are terminated, we will continue as the servicer of the SpringCastle Portfolio for the SpringCastle Funding Trust pursuant to a servicing agreement. Prior to the closing of the Apollo-Värde Transaction, servicing fees revenue totaled \$8 million and \$16 million for the three and six months ended June 30, 2018, respectively, compared to \$10 million and \$20 million for the three and six months ended June 30, 2017, respectively. At June 30, 2018 and December 31, 2017, the servicing fees receivable from the SpringCastle Funding Trust that were incurred prior to the closing of the Apollo-Värde Transaction totaled \$2 million and \$3 million, respectively.

8. Long-term Debt

Principal maturities of long-term debt (excluding projected repayments on securitizations and revolving conduit facilities by period) by type of debt at June 30, 2018 were as follows:

Debt issuance costs (c)	\$(24)	\$(55)	\$ —	\$(79)

The interest rates shown are the range of contractual rates in effect at June 30, 2018. The interest rate on the UPB (a) of the Junior Subordinated Debenture consists of a variable floating rate (determined quarterly) equal to 3-month LIBOR plus 1.75%, or 4.10% as of June 30, 2018.

Securitized assets have a stated maturity date but are not included in the above maturities by period due to their (b) variable monthly repayments, which may result in pay-off prior to the stated maturity date. At June 30, 2018, there were no amounts drawn under our revolving conduit facilities. See Note 9 for further information on our long-term debt associated with securitizations and revolving conduit facilities.

Debt issuance costs are reported as a direct deduction from long-term debt, with the exception of debt issuance (c) costs associated with our revolving conduit facilities, which totaled \$24 million at June 30, 2018 and are reported in other assets.

SFC'S OFFERING OF 7.125% SENIOR NOTES DUE 2026

On May 11, 2018, SFC issued \$900 million aggregate principal amount of 7.125% Senior Notes due 2026 (the "7.125% SFC Notes") under the SFC Senior Notes Indentures, pursuant to which OMH provided a guarantee of the 7.125% SFC Notes on an unsecured basis.

SFC used a portion of the net proceeds from this offering to redeem the remaining \$400 million in aggregate principal amount of the OMFH 7.25% Senior Notes due 2021 and will use the remaining proceeds for other general corporate purposes, which may include other debt repurchases and repayments.

SFC'S OFFERING OF 6.875% SENIOR NOTES DUE 2025

On March 12, 2018, SFC issued \$1.25 billion aggregate principal amount of 6.875% Senior Notes due 2025 (the "6.875% SFC Notes") under the SFC Senior Notes Indentures, pursuant to which OMH provided a guarantee of the 6.875% SFC Notes on an unsecured basis.

SFC used the net proceeds from the sale of the 6.875% SFC Notes for general corporate purposes, which included debt repurchases.

The 6.875% and 7.125% SFC Notes are SFC's senior unsecured obligations and rank equally in right of payment to all of SFC's other existing and future unsubordinated indebtedness from time to time outstanding. The notes are effectively subordinated to all of SFC's secured obligations to the extent of the value of the assets securing such obligations and structurally subordinated to any existing and future obligations of SFC's subsidiaries with respect to claims against the assets of such subsidiaries.

The notes may be redeemed at any time and from time to time, at the option of SFC, in whole or in part at a "make-whole" redemption price specified in the SFC Senior Notes Indentures. The notes will not have the benefit of any sinking fund.

GUARANTY AGREEMENTS

OMH entered into the SFC Base Indenture and the following SFC supplemental indentures, pursuant to which OMH agreed to fully and unconditionally guarantee, on a senior unsecured basis the payments of principal, premium (if any) and interest on the following notes:

Guarantee Agreement	Date Entered	SFC Supplemental Indentures	Interest rate	June 30, 2018	Outstanding balance

				(dollars in millions)
7.125% SFC Notes	5/11/2018	SFC Sixth Supplemental Indenture	7.125%	\$ 900
6.875% SFC Notes	3/12/2018	SFC Fifth Supplemental Indenture	6.875%	1,250
5.625% SFC Notes	12/8/2017	SFC Fourth Supplemental Indenture	5.625%	875
6.125% SFC Notes	5/15/2017	SFC Third Supplemental Indenture	6.125%	1,000
8.25% SFC Notes	4/11/2016	SFC Second Supplemental Indenture	8.25%	1,000
5.25% SFC Notes	12/3/2014	SFC First Supplemental Indenture	5.25%	700

The supplemental indentures listed above contain covenants that, among other things, (i) limit SFC's ability to create liens on assets and (ii) restrict SFC's ability to consolidate, merge or sell its assets. The SFC Senior Notes Indentures also provide for events of default which, if any of them were to occur, would permit or require the principal of and accrued interest on the SFC Notes to become, or to be declared, due and payable. We describe our guarantee agreements in Note 12 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K.

Other SFC Notes

On December 30, 2013, OMH entered into SFC Guaranty Agreements whereby it agreed to fully and unconditionally guarantee the payments of principal, premium (if any) and interest on the Other SFC Notes. The Other SFC Notes consisted of the following:

8.25% Senior Notes due 2023;
7.75% Senior Notes due 2021;
6.00% Senior Notes due 2020; and
the Junior Subordinated Debenture.

The Junior Subordinated Debenture underlies the trust preferred securities sold by a trust sponsored by SFC. On December 30, 2013, OMH entered into the SFC Trust Guaranty Agreement whereby it agreed to fully and unconditionally guarantee the related payment obligations under the trust preferred securities. As of June 30, 2018, \$1.6 billion aggregate principal amount of the Other SFC Notes were outstanding.

The OMH guarantees of SFC's long-term debt discussed above are subject to customary release provisions.

OMFH Notes

On December 11, 2014, OMFH and certain of its subsidiaries entered into the OMFH Indenture, among OMFH, the guarantors listed therein and The Bank of New York Mellon, as trustee, in connection with OMFH's issuance of the OMFH Notes. The OMFH Notes are OMFH's unsecured senior obligations, guaranteed on a senior unsecured basis by each of its wholly owned domestic subsidiaries, other than certain subsidiaries, including its insurance subsidiaries and securitization subsidiaries.

On November 8, 2016, OMH entered into the OMFH Supplemental Indenture, pursuant to which OMH agreed to fully, unconditionally and irrevocably guarantee the outstanding OMFH Notes in accordance with and subject to the terms of the OMFH Indenture. Further, as permitted by the terms of the OMFH Indenture up to the point of redemption of the OMFH Notes described below, OMFH satisfied its reporting obligations under the OMFH Indenture with respect to providing OMFH financial information to the holders of the OMFH Notes by furnishing financial information relating to the Company.

On December 8, 2017, OMFH provided notice to note holders to redeem on January 8, 2018, all \$700 million outstanding principal amount of OMFH Notes due 2019 at a redemption price equal to 103.375%, plus accrued and unpaid interest to the redemption date. The notes were redeemed on January 8, 2018. In connection with the redemption, we recognized \$1 million of net loss on repurchases and repayments of debt for the six months ended June 30, 2018.

On March 19, 2018, OMFH provided notice to note holders to redeem \$400 million in aggregate principal amount of OMFH Notes due 2021 on April 18, 2018, at a redemption price in cash equal to 103.625%, plus accrued and unpaid interest to the redemption date. The notes were redeemed on April 18, 2018. In connection with the redemption, we recognized \$4 million of net loss on repurchases and repayments of debt for the six months ended June 30, 2018.

On May 14, 2018, OMFH provided notice to note holders to redeem the remaining \$400 million in aggregate principal amount of OMFH Notes due 2021 on June 13, 2018, at a redemption price in cash equal to 103.625%, plus accrued and unpaid interest to the redemption date. In connection with the redemption, we recognized \$3 million of net loss on repurchases and repayments of debt for the six months ended June 30, 2018.

On June 13, 2018, OMFH redeemed the remaining principal amount of the OMFH Notes due 2021 and received notice of satisfaction and discharge with respect to the OMFH Notes. As of June 30, 2018, OMFH is no longer subject to the covenants or other terms of the OMFH Indenture.

9. Variable Interest Entities

CONSOLIDATED VIES

As part of our overall funding strategy, we have transferred certain finance receivables to VIEs for asset-backed financing transactions, including securitization and conduit transactions. We have determined that we are the primary beneficiary of these VIEs and, as a result, we include each VIE's assets, including any finance receivables securing the VIE's debt obligations, and related liabilities in our consolidated financial statements and each VIE's asset-backed debt obligations are accounted for as secured borrowings.

See Note 3 and Note 13 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K for more detail regarding VIEs.

We parenthetically disclose on our consolidated balance sheets the VIE's assets that can only be used to settle the VIE's obligations and liabilities if its creditors have no recourse against the primary beneficiary's general credit. The carrying amounts of consolidated VIE assets and liabilities associated with our securitization trusts were as follows:

(dollars in millions)	June 30, December 31,

SECURITIZED BORROWINGS

Each of our securitizations contains a revolving period ranging from one to five years during which no principal payments are required to be made on the related asset-backed notes, except for the ODART 2016-1 securitization which has no revolving period. The indentures governing our securitization borrowings contain early amortization events and events of default, that, if triggered, may result in the acceleration of the obligation to pay principal and interest on the related asset-backed notes.

Our securitized borrowings at June 30, 2018 consisted of the following:

Total	\$ 5,350	\$ —			

(a) The date following the revolving period that the principal balance of the outstanding loans, if any, will be reduced as cash payments are received on the underlying loans and will be due and payable in full.

On June 27, 2018, we amended the loan and security agreement with Rocky River Funding, LLC to, among other things, (i) increase the advance maximum balance from \$250 million to \$400 million and (ii) extend the revolving period ending September 2019 to June 2020 thereby extending the final maturity to July 2021.

On February 2, 2018, we entered into a loan and security agreement with OneMain Financial Funding VIII, LLC concurrently with the voluntary termination of the note purchase agreement with the OneMain Financial B6 Warehouse Trust.

On June 26, 2018, we amended the loan and security agreement with OneMain Financial Auto Funding I, LLC, to, among other things, (i) increase the advance maximum balance from \$750 million to \$850 million and (ii) extend the revolving period ending October 2020 to June 2021 thereby extending the final maturity to July 2028.

On May 31, 2018, we amended the loan and security agreement with OneMain Financial Funding VII, LLC to, among other things, (i) increase the advance maximum balance from \$650 million to \$850 million and (ii) extend the revolving period ending October 2019 to June 2021 thereby extending the final maturity to July 2023.

(f) On June 28, 2018, we entered into a new loan and security agreement with Thayer Brook Funding, LLC.

VIE INTEREST EXPENSE

Other than the retained subordinate and residual interests in our consolidated VIEs, we are under no further obligation than is otherwise noted herein, either contractually or implicitly, to provide financial support to these entities. Consolidated interest expense related to our VIEs for the three and six months ended June 30, 2018 totaled \$87 million and \$173 million, compared to \$78 million and \$158 million for the three and six months ended June 30, 2017.

* We have excluded the following shares in the diluted earnings per share calculation for the three and six months ended June 30, 2018 and 2017 because these shares would be anti-dilutive, which could impact the earnings per share calculation in the future:

	Three Months		Six Months

Service-based shares	159,698	795,321	240,467	775,476

Basic earnings per share is computed by dividing net income by the weighted-average number of shares outstanding during each period. Diluted earnings per share is computed based on the weighted-average number of common shares plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares represent outstanding unvested RSUs and RSAs.

12. Accumulated Other Comprehensive Income (Loss)

Changes, net of tax, in accumulated other comprehensive income (loss) were as follows:

13. Income Taxes

We had a net deferred tax asset of \$142 million and \$143 million at June 30, 2018 and December 31, 2017, respectively.

The effective tax rate for the six months ended June 30, 2018 was 38.0%, compared to 39.0% for the same period in 2017. The effective tax rate for the six months ended June 30, 2018 differed from the federal statutory rate of 21% primarily due to the effect of discrete tax expense for non-deductible compensation and state income taxes. The effective tax rate for the six months ended June 30, 2017 differed from the then-applicable federal statutory rate of 35% primarily due to the effect of state income taxes and discrete expense from share-based compensation.

We are currently under examination of our U.S. federal tax return for the years 2012 and 2013 by the IRS. We are also under examination of various states for the years 2011 to 2016. Management believes it has adequately provided for taxes for such years.

Our gross unrecognized tax benefits, including related interest and penalties, totaled \$16 million at June 30, 2018 and \$15 million at December 31, 2017. We accrue interest related to uncertain tax positions in income tax expense. The amount of any change in the balance of uncertain tax liabilities over the next 12 months is not expected to be material to our consolidated financial statements.

On December 22, 2017, President Trump signed into law the Tax Act, which contains substantial changes to the Internal Revenue Code effective January 1, 2018, including a reduction in the federal corporate tax rate from 35% to 21%.

14. Contingencies

LEGAL CONTINGENCIES

In the normal course of business, we have been named, from time to time, as defendants in various legal actions, including arbitrations, class actions and other litigation arising in connection with our activities. Some of the actual or threatened legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. While we will continue to evaluate legal actions to determine whether a loss is reasonably possible or probable and is reasonably estimable, there can be no assurance that material losses will not be incurred from pending, threatened or future litigation, investigations, examinations, or other claims.

We contest liability and/or the amount of damages, as appropriate, in each pending matter. Where available information indicates that it is probable that a liability had been incurred at the date of the condensed consolidated financial statements and we can reasonably estimate the amount of that loss, we accrue the estimated loss by a charge to income. In many actions, however, it is inherently difficult to determine whether any loss is probable or even reasonably possible or to estimate the amount of any loss. In addition, even where loss is reasonably possible or an exposure to loss exists in excess of the liability already accrued with respect to a previously recognized loss contingency, it is not always possible to reasonably estimate the size of the possible loss or range of loss.

For certain legal actions, we cannot reasonably estimate such losses, particularly for actions that are in their early stages of development or where plaintiffs seek substantial or indeterminate damages. Numerous issues may need to be resolved, including through potentially lengthy discovery and determination of important factual matters, and by addressing novel or unsettled legal questions relevant to the actions in question, before a loss or additional loss or range of loss or additional loss can be reasonably estimated for any given action.

For certain other legal actions, we can estimate reasonably possible losses, additional losses, ranges of loss or ranges of additional loss in excess of amounts accrued, but do not believe, based on current knowledge and after consultation with counsel, that such losses will have a material adverse effect on our condensed consolidated financial statements as a whole.

Federal Securities Class Actions

On February 10, 2017, a putative class action lawsuit, *Galestan v. OneMain Holdings, Inc., et al.*, was filed in the U.S. District Court for the Southern District of New York, naming as defendants the Company and two of its officers. The lawsuit alleges violations of the Exchange Act for allegedly making materially misleading statements and/or omitting material information concerning alleged integration issues after the OneMain Acquisition in November 2015, and was filed on behalf of a putative class of persons who purchased or otherwise acquired the Company's common stock between February 25, 2016 and November 7, 2016. The complaint seeks an award of unspecified compensatory damages, an award of interest, reasonable attorney's fees, expert fees and other costs, and equitable relief as the court may deem just and proper. On March 23, 2017, the court appointed a lead plaintiff for the putative class and approved the lead plaintiff's selection of counsel. The plaintiff filed an amended complaint on June 13, 2017 challenging statements regarding the Company's projections of future financial performance and certain statements regarding integration after the OneMain Acquisition. On September 29, 2017, pursuant to the Court's Individual Rules and Practices, we sought permission to file a motion to dismiss the amended complaint. The Company believes that the allegations specified in the amended complaint are without merit, and intends to vigorously defend against the claims. As the lawsuit is in the preliminary stages, the Company is unable to estimate a reasonably possible range of loss, if any, that may result from the lawsuit.

SALES RECOURSE OBLIGATIONS

At June 30, 2018, our reserve for sales recourse obligations totaled \$8 million, which primarily related to our real estate loan sales in 2014, with a minimal portion of the reserve related to net charge-off sales of our finance receivables. During the three and six months ended June 30, 2018 and 2017, we had no material repurchase activity related to these sales and no material activity related to our sales recourse obligations.

At June 30, 2018, there were no material recourse requests with loss exposure that management believed would not be covered by the reserve. However, we will continue to monitor any repurchase activity in the future and will adjust the reserve accordingly. When recourse losses are reasonably possible or exposure to such losses exists in excess of the liability already accrued, it is not always possible to reasonably estimate the size of the possible recourse losses or range of losses.

15. Benefit Plans

During the three and six months ended June 30, 2018 and 2017, the components of net periodic benefit cost with respect to our defined benefit pension plans were immaterial. We do not currently fund post retirement benefits.

16. Segment Information

Our segments coincide with how our businesses are managed. At June 30, 2018, our two segments were Consumer and Insurance and Acquisitions and Servicing. The remaining components (which we refer to as "Other") consist of our non-originating legacy operations, which include our liquidating real estate loan portfolio and our liquidating retail sales finance portfolio.

Due to the nature of the OneMain Acquisition and the Fortress Acquisition, we applied purchase accounting. However, we report the operating results of Consumer and Insurance, Acquisitions and Servicing, and Other using the Segment Accounting Basis, which (i) reflects our allocation methodologies for certain costs, primarily interest expense, loan loss reserves, and acquisition costs to reflect the manner in which we assess our business results and (ii) excludes the impact of applying purchase accounting (eliminates premiums/discounts on our finance receivables and

long-term debt at acquisition, as well as the amortization/accretion in future periods).

The accounting policies of the segments are the same as those disclosed in Note 3 and Note 22 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K.

17. Fair Value Measurements

The fair value of a financial instrument is the amount that would be expected to be received if an asset were to be sold or the amount that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. The accounting policies of our Fair Value Measurements are the same as those disclosed in Note 3 and Note 23 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K.

The following table presents the carrying amounts and estimated fair values of our financial instruments and indicates the level in the fair value hierarchy of the estimated fair value measurement based on the observability of the inputs used:

(b) Excludes an immaterial interest in a limited partnership that we account for using the equity method and FHLB common stock of \$1 million at December 31, 2017, which is carried at cost.

We had no transfers between Level 1 and Level 2 during the three and six months ended June 30, 2018.

FAIR VALUE MEASUREMENTS — NON-RECURRING BASIS

We measure the fair value of certain assets on a non-recurring basis when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Net impairment charges recorded on assets measured at fair value on a non-recurring basis were immaterial for the three and six months ended June 30, 2018 and 2017.

FAIR VALUE MEASUREMENTS — VALUATION METHODOLOGIES AND ASSUMPTIONS

See Note 23 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K for information regarding our methods and assumptions used to estimate fair value.

Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact but instead represent only management’s current beliefs regarding future events. By their nature, forward-looking statements involve inherent risks, uncertainties and other important factors that may cause actual results, performance or achievements to differ materially from those expressed in or implied by such forward-looking statements. We caution you not to place undue reliance on these forward-looking statements that speak only as of the date they were made. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events or the non-occurrence of anticipated events.

Forward-looking statements include, without limitation, statements concerning future plans, objectives, goals, projections, strategies, events or performance, and underlying assumptions and other statements related thereto. Statements preceded by, followed by or that otherwise include the words “anticipates,” “appears,” “are likely,” “believes,” “estimates,” “expects,” “foresees,” “intends,” “plans,” “projects” and similar expressions or future or conditional verbs such as “would,” “should,” “could,” “may,” or “will,” are intended to identify forward-looking statements. Important factors that could cause actual results, performance or achievements to differ materially from those expressed in or implied by forward-looking statements include, without limitation, the following:

- the inability to obtain, or delays in obtaining, cost savings and synergies from the OneMain Acquisition and risks and other uncertainties associated with the integration of the companies;
- any litigation, fines or penalties that could arise relating to the OneMain Acquisition or Apollo-Värde Transaction;
- effects, if any, of the Apollo-Värde Transaction, including effects on our business or operational strategies, goals or objectives or our relationships with our employees or third parties;
- various risks relating to continued compliance with the Settlement Agreement;
- changes in general economic conditions, including the interest rate environment in which we conduct business and the financial markets through which we can access capital and also invest cash flows from our Consumer and Insurance

segment;

• levels of unemployment and personal bankruptcies;

• natural or accidental events such as earthquakes, hurricanes, tornadoes, fires, or floods affecting our customers, collateral, or branches or other operating facilities;

40

war, acts of terrorism, riots, civil disruption, pandemics, disruptions in the operation of our information systems, or other events disrupting business or commerce;

effects on our business, reputation and our financial position, results of operations and cash flows of any cyberbreach or other cyber-related incident involving our information systems or the loss, theft or unauthorized disclosure of personally identifiable information of our present or former customers, including any costs, fines or penalties incurred in connection therewith not covered by insurance, whether as a result of litigation, governmental investigations, business interruption, remediation efforts or otherwise;

changes in the rate at which we can collect or potentially sell our finance receivables portfolio;

the effectiveness of our credit risk scoring models in assessing the risk of customer unwillingness or lack of capacity to repay;

changes in our ability to attract and retain employees or key executives to support our businesses;

changes in the competitive environment in which we operate, including the demand for our products, customer responsiveness to our distribution channels, our ability to make technological improvements, and the strength and ability of our competitors to operate independently or to enter into business combinations that result in a more attractive range of customer products or provide greater financial resources;

risks related to the acquisition or sale of assets or businesses or the formation, termination or operation of joint ventures or other strategic alliances or arrangements, including loan delinquencies or net charge-offs, integration or migration issues, increased costs of servicing, incomplete records, and retention of customers;

risks associated with our insurance operations, including insurance claims that exceed our expectations or insurance losses that exceed our reserves;

the inability to successfully implement our growth strategy for our consumer lending business as well as various risks associated with successfully acquiring portfolios of consumer loans, pursuing acquisitions, and/or establishing joint ventures;

declines in collateral values or increases in actual or projected delinquencies or net charge-offs;

changes in federal, state or local laws, regulations, or regulatory policies and practices, including the Dodd-Frank Act (which, among other things, established the CFPB, which has broad authority to regulate and examine financial institutions, including us), that affect our ability to conduct business or the manner in which we conduct business, such as licensing requirements, pricing limitations or restrictions on the method of offering products, as well as changes that may result from increased regulatory scrutiny of the sub-prime lending industry, our use of third-party vendors and real estate loan servicing, or changes in corporate or individual income tax laws or regulations, including effects of the enactment of the Tax Act;

potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans, if it is determined that there was a non-curable breach of a representation or warranty made in connection with such transactions;

the costs and effects of any actual or alleged violations of any federal, state or local laws, rules or regulations, including any litigation associated therewith, any impact to our business operations, reputation, financial position,

results of operations or cash flows arising therefrom, any impact to our relationships with lenders, investors or other third parties attributable thereto, and the costs and effects of any breach of any representation, warranty or covenant under any of our contractual arrangements, including indentures or other financing arrangements or contracts, as a result of any such violation;

the costs and effects of any fines, penalties, judgments, decrees, orders, inquiries, investigations, subpoenas, or enforcement or other proceedings of any governmental or quasi-governmental agency or authority and any litigation associated therewith;

our continued ability to access the capital markets or the sufficiency of our current sources of funds to satisfy our cash flow requirements;

our ability to comply with our debt covenants;

our ability to generate sufficient cash to service all of our indebtedness;

any material impairment or write-down of the value of our assets;

the effects of any downgrade of our debt ratings by credit rating agencies, which could have a negative impact on our cost of and/or access to capital;

our substantial indebtedness, which could prevent us from meeting our obligations under our debt instruments and limit our ability to react to changes in the economy or our industry, or our ability to incur additional borrowings;

the impacts of our securitizations and borrowings;

our ability to maintain sufficient capital levels in our regulated and unregulated subsidiaries;

changes in accounting standards or tax policies and practices and the application of such new standards, policies and practices;

changes in accounting principles and policies or changes in accounting estimates;

- any failure or inability to achieve the SpringCastle Portfolio performance requirements set forth in the SpringCastle Interests Sale purchase agreement; and

the effect of future sales of our remaining portfolio of real estate loans and the transfer of servicing of these loans, including the environmental liability and costs for damage caused by hazardous waste if a real estate loan goes into default.

We also direct readers to the other risks and uncertainties discussed in other documents we filed with the SEC.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. You should specifically consider the factors identified in this report that could cause actual results to differ before making an investment decision to purchase our common stock. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us.

Overview

We are a leading provider of responsible personal loan products, primarily to non-prime customers. Our network of over 1,600 branch offices in 44 states as of June 30, 2018 is staffed with expert personnel and is complemented by our online consumer loan origination business and centralized operations, which allows us to reach customers located outside our branch footprint. Our digital platform provides current and prospective customers the option of obtaining a personal loan via our website, www.omf.com. The information on our website is not incorporated by reference into this report. In connection with our personal loan business, our insurance subsidiaries offer our customers credit and non-credit insurance.

In addition, we service loans owned by us and service or subservice loans owned by third-parties; pursue strategic acquisitions and dispositions of assets and businesses, including loan portfolios or other financial assets; and may establish joint ventures or enter into other strategic alliances or arrangements from time to time.

OUR PRODUCTS

Our product offerings include:

Personal Loans — We offer personal loans through our branch network and over the Internet through our centralized operations to customers who generally need timely access to cash. Our personal loans are typically non-revolving with a fixed-rate and a fixed, original term of three to six years and are secured by consumer goods, automobiles, or other personal property or are unsecured. At June 30, 2018, we had nearly 2.4 million personal loans, representing \$15.4 billion of net finance receivables, compared to 2.4 million personal loans totaling \$14.8 billion at December 31, 2017.

Insurance Products — We offer our customers credit insurance (life insurance, disability insurance, and involuntary unemployment insurance) and non-credit insurance through both our branch network and our centralized operations. Credit insurance and non-credit insurance products are provided by our affiliated insurance companies. We also offer home and auto membership plans of an unaffiliated company.

Our non-originating legacy products include:

Other Receivables — We ceased originating real estate loans in 2012 and purchasing retail sales contracts and revolving retail accounts in 2013. We continue to service or sub-service the liquidating real estate loans and retail sales contracts and will provide revolving retail sales financing services on our revolving retail accounts.

OUR SEGMENTS

At June 30, 2018, we had two operating segments:

- Consumer and Insurance; and
- Acquisitions and Servicing.

See Note 16 of the Notes to Condensed Consolidated Financial Statements included in this report for more information about our segments.

Recent Developments and Outlook

RECENT DEVELOPMENTS

Apollo-Värde Transaction

On January 3, 2018, the Apollo-Värde Group entered into a Share Purchase Agreement with SFH and the Company to acquire from SFH 54,937,500 shares of our common stock representing the entire holdings of our stock beneficially owned by Fortress. The Apollo-Värde Transaction closed on June 25, 2018 for an aggregate purchase price of approximately \$1.4 billion in cash.

As disclosed in Note 21 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K, certain executives of the Company had previously been granted incentive units that only provide benefits (in the form of distributions) if SFH makes distributions to one or more of its common members that exceed specified amounts. In connection with the Apollo-Värde Transaction, certain executive officers who are holders of SFH incentive units received a distribution of approximately \$106 million in the aggregate from SFH as a result of their ownership interests in SFH. Although the distribution was not made by the Company or its subsidiaries, in accordance with ASC Topic 710, Compensation-General, we recorded non-cash incentive compensation expense of approximately \$106 million, with an equal and offsetting increase to additional paid-in-capital. The impact to the Company was non-cash, equity neutral and not tax deductible.

AIG Secondary Offering

On February 21, 2018, OMH entered into an underwriting agreement among OMH, SFH and Morgan Stanley & Co. LLC as underwriter in connection with the sale by SFH of 4,179,678 shares of its common stock. These shares were beneficially owned by AIG and represented the entire holdings of our stock beneficially owned by AIG. In connection with this sale of our common stock by SFH, certain executive officers who are holders of SFH incentive units, as described above, received a distribution of approximately \$4 million in the first quarter of 2018. Consistent with the accounting for distribution from the Apollo-Värde Transaction described above, the Company recognized non-cash incentive compensation expense of approximately \$4 million, with an equal and offsetting increase to additional paid-in-capital. The impact to the Company was non-cash, equity neutral and not tax deductible.

Cost Synergies

As of June 30, 2018, we had incurred approximately \$278 million of acquisition-related transaction and integration expenses (\$39 million incurred during 2018) from the OneMain Acquisition.

As part of our continuing integration efforts from the OneMain Acquisition, on May 29, 2018, the Company entered into a Share Purchase Agreement with a third-party to sell all of the issued and outstanding shares of Yosemite. The transaction is expected to close in the third quarter of 2018 and is subject to regulatory approval and other customary closing conditions. The Company classified assets and liabilities of Yosemite that are subject to sale as held-for-sale as of June 30, 2018 and are reflected in other assets and other liabilities, respectively. Additionally, we recorded an impairment loss of \$14 million in acquisition-related transaction and integration expenses for the three and six months ended June 30, 2018.

OUTLOOK

With our experienced management team, long track record of successfully accessing the capital markets, and strong demand for consumer credit, we believe we are well positioned to execute on our strategic priorities to strengthen our capital base through the following key initiatives:

- Continuing the growth in receivables through enhanced marketing strategies and customer product options;
- Growing secured lending originations with a goal of enhancing credit performance;
- Leveraging our scale and cost discipline across the Company to deliver improved operating leverage;
- Increasing tangible equity and reducing leverage; and
- Maintaining a strong liquidity level with diversified funding sources.

We continue to execute our strategy to increase the proportion of our loan originations secured by titled collateral (which typically have lower yields and credit losses relative to unsecured personal loans). Our yields have stabilized in the portfolio; and we expect an improvement in net credit losses over time as the portion of our secured portfolio continues to increase.

Assuming the U.S. economy continues to experience slow to moderate growth, we expect to continue our long history of strong credit performance and believe the strong credit quality of our loan portfolio will continue as the result of our disciplined underwriting practices and ongoing collection efforts. We have continued to see some migration of customer activity away from traditional channels, such as direct mail, to online channels (primarily serviced through our branch network), where we believe we are well suited to capture volume due to our scale, technology, and deployment of advanced analytics.

Comparison of Consolidated Results for the Three Months Ended June 30, 2018 and 2017

Interest income increased \$133 million for the three months ended June 30, 2018 when compared to the prior year quarter due to continued growth in our loan portfolio and higher yield primarily driven by lower amortization of purchase premium on our non-credit impaired finance receivables.

Interest expense increased \$17 million for the three months ended June 30, 2018 when compared to the prior year quarter primarily due to the increase in average outstanding debt related to the issuance of the 6.875% and 7.125% SFC Notes, partially offset by lower interest expense due to a decrease in the weighted average interest rate resulting from the redemption of the OMFH 6.75% and 7.25% Senior Notes due 2019 and 2021.

See Notes 8 and 9 of the Notes to Condensed Consolidated Financial Statements included in this report for further information on our long-term debt, securitization transactions and our conduit facilities.

Provision for finance receivable losses increased \$24 million for the three months ended June 30, 2018 when compared to the prior year quarter primarily driven by the growth in the loan portfolio. The level of allowance for finance receivables losses as a percentage of net finance receivables has decreased from 2017 due to the continued change in portfolio mix to more secured personal loans, improvement in the effectiveness of our collections, and the completion of our integration of the OneMain Acquisition.

Other revenues increased \$19 million for the three months ended June 30, 2018 primarily due to a higher net loss on repurchase of debt in the prior year quarter.

Acquisition-related transaction and integration costs increased \$14 million for the three months ended June 30, 2018 when compared to the prior year quarter primarily due to asset impairment and intangible write-off related to Yosemite.

Other expenses increased \$120 million for the three months ended June 30, 2018 when compared to the same period in 2017 primarily due to the non-cash incentive compensation expense of \$106 million relating to the rights of certain executives to receive a portion of the cash proceeds from the sale of OMH's common stock that were beneficially owned by Fortress.

Income taxes totaled \$36 million for the three months ended June 30, 2018 compared to \$24 million for the same period in 2017. The effective tax rate for the three months ended June 30, 2018 was 83.7% compared to 36.7% for the same period in 2017. The effective tax rate for the three months ended June 30, 2018 differed from the federal statutory rate of 21% primarily due to the effect of discrete expense for non-deductible compensation expense and state income taxes. The effective tax rate for the three months ended June 30, 2017 differed from the then-applicable federal statutory rate of 35% primarily due to the effect of state income taxes.

Comparison of Consolidated Results for the Six Months Ended June 30, 2018 and 2017

Interest income increased \$236 million for the six months ended June 30, 2018 when compared to the same prior year period due to continued growth in our loan portfolio and higher yield primarily driven by lower amortization of purchase premium on our non-credit impaired finance receivables.

Interest expense increased \$15 million for the six months ended June 30, 2018 when compared to the same prior year period primarily due to the increase in average outstanding debt related to the issuance of the 6.875% and 7.125% SFC Notes partially offset by lower interest expense due to a decrease in the weighted average interest rate resulting from the redemption of OMFH 6.75% and 7.25% Senior Notes due 2019 and 2021.

See Notes 8 and 9 of the Notes to Condensed Consolidated Financial Statements included in this report for further information on our long-term debt, securitization transactions and our conduit facilities.

Provision for finance receivable losses increased \$33 million for the six months ended June 30, 2018 when compared to the same prior year period primarily driven by the growth in the loan portfolio. The level of allowance for finance receivables losses as a percentage of net finance receivables has decreased from 2017 due to the continued change in portfolio mix to more secured personal loans, improvement in the effectiveness of our collections, and the completion of our integration of the OneMain Acquisition.

Other revenues increased \$15 million for the six months ended June 30, 2018 primarily due to higher net losses on repurchase of debt in the prior year period.

Other expenses increased \$113 million for the six months ended June 30, 2018 when compared to the same period in 2017 primarily due to the increase in non-cash incentive compensation expense of \$106 million relating to the rights of certain executives to receive a portion of the cash proceeds from the sale of OMH's common stock that were beneficially owned by Fortress.

Income taxes totaled \$80 million for the six months ended June 30, 2018 compared to \$48 million for the same period in 2017. The effective tax rate for the six months ended June 30, 2018 was 38.0% compared to 39.0% for the same period in 2017. The effective tax rate for the six months ended June 30, 2018 differed from the federal statutory rate of 21% primarily due to the effect of discrete tax expense for non-deductible compensation and state income taxes. The effective tax rate for the six months ended June 30, 2017 differed from the then-applicable federal statutory rate of 35% primarily due to the effect of state income taxes and discrete expense from share-based compensation.

NON-GAAP FINANCIAL MEASURES

Adjusted Pretax Income (Loss)

Management uses adjusted pretax income (loss), a non-GAAP financial measure, as a key performance measure of our segments. Management believes adjusted pretax income (loss) is useful in assessing the profitability of our segments and uses adjusted pretax income (loss) in evaluating our operating performance and as a performance goal under the Company's executive compensation programs. We describe our adjusted pretax income (loss) in our "Results of Operations" of the Management's Discussion and Analysis of Financial Condition in Part II - Item 7 included in our 2017 Annual Report on Form 10-K.

Adjusted pretax income (loss) is a non-GAAP financial measure and should be considered supplemental to, but not as a substitute for or superior to, income (loss) before income taxes, net income, or other measures of financial performance prepared in accordance with GAAP.

The reconciliations of income (loss) before income taxes on a Segment Accounting Basis to adjusted pretax income (loss) (non-GAAP) by segment were as follows:

Comparison of Adjusted Pretax Income for the Three Months Ended June 30, 2018 and 2017

Interest income increased \$110 million for the three months ended June 30, 2018 when compared to the prior year quarter due to continued growth in our loan portfolio.

Interest expense increased \$23 million for the three months ended June 30, 2018 when compared to the prior year quarter primarily due to the increase in average outstanding debt related to the issuance of the 6.875% and 7.125% SFC Notes, partially offset by lower interest expense due to a decrease in weighted average interest rate resulting from the redemption of the OMFH 6.75% and 7.25% Senior Notes due 2019 and 2021.

Provision for finance receivable losses increased \$27 million for the three months ended June 30, 2018 when compared to the prior year quarter primarily driven by growth in the loan portfolio. The level of allowance for finance receivables losses as a percentage of net finance receivables has decreased from 2017 due to the continued change in portfolio mix to more secured personal loans, improvement in the effectiveness of our collections, and the completion of our integration of the OneMain Acquisition.

Other expenses increased \$21 million for the three months ended June 30, 2018 when compared to the prior year quarter due largely to increased costs commensurate with the growth in our operations.

Comparison of Adjusted Pretax Income for the Six Months Ended June 30, 2018 and 2017

Interest income increased \$185 million for the six months ended June 30, 2018 when compared to the same period in 2017 due to continued growth in our loan portfolio.

Interest expense increased \$31 million for the six months ended June 30, 2018 when compared to the same prior year period primarily due to the increase in average outstanding debt related to the issuance of 6.875% and 7.125% SFC Notes and, partially offset by lower interest expense due to a decrease in the weighted average interest rate resulting from the redemption of the OMFH 6.75% and 7.25% Senior Notes due 2019 and 2021.

Provision for finance receivable losses increased \$46 million for the six months ended June 30, 2018 when compared to the same period in 2017 primarily driven by the growth in the loan portfolio. The level of allowance for finance receivables losses as a percentage of net finance receivables has decreased from 2017 due to the continued change in portfolio mix to more secured personal loans, improvement in the effectiveness of our collections, and the completion of our integration of the OneMain Acquisition.

Credit Quality

FINANCE RECEIVABLE COMPOSITION

The following table presents the composition of our finance receivables for each of the Company's segments on a Segment Accounting Basis, as well as reconciliations to our total net finance receivables on a GAAP basis:

(dollars in millions)	Consumer and Insurance	Other	Segment to GAAP Adjustment	Consolidated Total
June 30, 2018				
Personal loans	\$ 15,406	\$—	\$ (22)	\$ 15,384
Other receivables	—	131	(7)	124
Total	\$ 15,406	\$ 131	\$ (29)	\$ 15,508
December 31, 2017				
Personal loans	\$ 14,820	\$—	\$ 3	\$ 14,823
Other receivables	—	142	(8)	134
Total	\$ 14,820	\$ 142	\$ (5)	\$ 14,957

The largest component of our finance receivables and primary source of our interest income is our personal loan portfolio. Our personal loans are typically non-revolving with a fixed-rate and a fixed, original term of three to six years and are secured by consumer goods, automobiles, or other personal property or are unsecured. We consider the value and concentration of secured loans and the delinquency status of our finance receivables as the primary indicators of credit quality. At June 30, 2018 and December 31, 2017, 44% and 43% of our personal loans were secured by titled collateral, respectively.

Distribution of Finance Receivables by FICO Score

There are many different categorizations used in the consumer lending industry to describe the creditworthiness of a borrower, including prime, non-prime, and sub-prime. We track and analyze the performance of our finance receivable portfolio using many different parameters, including FICO scores, which is widely recognized in the consumer lending industry.

We group FICO scores into the following credit strength categories:

- Prime: FICO score of 660 or higher
- Non-prime: FICO score of 620-659
- Sub-prime: FICO score of 619 or below

Our customers are described as prime at one end of the credit spectrum and sub-prime at the other. Our customers' demographics are in many respects near the national median but may vary from national norms in terms of credit and repayment histories. Many of our customers have experienced some level of prior financial difficulty or have limited credit experience and require higher levels of servicing and support from our branch network.

Our net finance receivables grouped into the following categories based solely on borrower FICO credit scores at the purchase, origination, renewal, or most recently refreshed date were as follows:

(dollars in millions)	Personal Loans	Other Receivables	Total
June 30, 2018			
FICO scores			
660 or higher	\$4,122	\$ 43	\$4,165
620-659	4,084	21	4,105
619 or below	7,178	60	7,238
Total	\$15,384	\$ 124	\$15,508

December 31, 2017			
FICO scores			
660 or higher	\$3,950	\$ 45	\$3,995
620-659	3,919	22	3,941
619 or below	6,954	67	7,021
Total	\$14,823	\$ 134	\$14,957

DELINQUENCY

We monitor delinquency trends to evaluate the risk of future credit losses and employ advanced analytical tools to manage our exposure and appetite. Our branch team members work with customers through occasional periods of financial difficulty and offer a variety of borrower assistance programs to help customers continue to make payments. Team members also actively engage in collection activities throughout the early stages of delinquency. We closely track and report the percentage of receivables that are contractually 30-89 days past due as a benchmark of portfolio quality, collections effectiveness, and as a strong indicator of losses in coming quarters.

When finance receivables are contractually 60 days past due, we consider these accounts to be at an increased risk for loss and we transfer collection of these accounts to our centralized operations. Use of our centralized operations teams for managing late stage delinquency allows us to apply more advanced collections technologies/ tools and drives operating efficiencies in servicing. At 90 days contractually past due, we consider our finance receivables to be nonperforming.

The following table presents (i) delinquency information of the Company's segments on a Segment Accounting Basis, (ii) reconciliations to our total net finance receivables on a GAAP basis, by number of days delinquent, and (iii) delinquency ratios as a percentage of net finance receivables:

ALLOWANCE FOR FINANCE RECEIVABLE LOSSES

We record an allowance for finance receivable losses to cover incurred losses on our finance receivables. Our allowance for finance receivable losses may fluctuate based upon our continual review of the growth, credit quality, and collateral mix of the finance receivable portfolios and changes in economic conditions.

Changes in the allowance for finance receivable losses for each of the Company's segments on a Segment Accounting Basis, as well as reconciliations to our total allowance for finance receivable losses on a GAAP basis, were as follows:

(dollars in millions)	Consumer and Insurance	Other	Segment to GAAP Adjustment	Consolidated Total

(a)Not applicable.

The current delinquency status of our finance receivable portfolio, inclusive of recent borrower performance, the collateral mix, along with the volume of our TDR activity, and the level and recoverability of collateral securing our finance receivable portfolio are the primary drivers that can cause fluctuations in our allowance for finance receivable losses from period to period. We monitor the allowance ratio to ensure we have a sufficient level of allowance for finance receivable losses to cover estimated incurred losses in our finance receivable portfolio. The level of allowance for finance receivables losses as a percentage of net finance receivables has decreased from 2017 due to the continued change in portfolio mix to more secured personal loans, improvement in the effectiveness of our collections, and the completion of our integration of the OneMain Acquisition.

See Note 4 of the Notes to Condensed Consolidated Financial Statements included in this report for more information about the changes in the allowance for finance receivable losses.

TDR FINANCE RECEIVABLES

We make modifications to our finance receivables to assist borrowers during times of financial difficulties. When we modify a loan's contractual terms for economic or other reasons related to the borrower's financial difficulties and grant a concession that we would not otherwise consider, we classify that loan as a TDR finance receivable.

Information regarding TDR finance receivables held for investment for each of the Company's segments on a Segment Accounting Basis, as well as reconciliations to information regarding our total TDR finance receivables held for investment on a GAAP basis, were as follows:

(dollars in millions)	Consumer and Insurance	Other	Segment to GAAP Adjustment	Consolidated Total
June 30, 2018				
TDR net finance receivables	\$ 508	\$ 73	\$ (152)	\$ 429
Allowance for TDR finance receivable losses	205	23	(58)	170
December 31, 2017				
TDR net finance receivables	\$ 481	\$ 74	\$ (188)	\$ 367
Allowance for TDR finance receivable losses	191	26	(70)	147

The allowance for non-TDR finance receivable losses continues to reflect our historical loss coverage.

Liquidity and Capital Resources

SOURCES OF FUNDS

We finance the majority of our operating liquidity and capital needs through a combination of cash flows from operations, securitization debt, borrowings from conduit facilities, unsecured debt and equity, and may also utilize other corporate debt facilities in the future. As a holding company, all of the funds generated from our operations are earned by our operating subsidiaries.

Redemption of OMFH 2019 Notes

On December 8, 2017, OMFH issued a notice of redemption to redeem all \$700 million outstanding principal amount of OMFH's 6.75% Senior Notes due 2019 at a redemption price equal to 103.375%, plus accrued and unpaid interest to the redemption date. The notes were redeemed on January 8, 2018. In connection with the redemption, we recognized approximately \$1 million of net loss on repurchases and repayments of debt for the six months ended June 30, 2018.

Redemption of OMFH 2021 Notes

On March 19, 2018, OMFH provided notice of redemption to redeem \$400 million in aggregate principal amount of OMFH Notes due 2021 on April 18, 2018 at a redemption price in cash equal to the sum of (i) 103.625% of the principal amount of the notes and (ii) any accrued and unpaid interest to the redemption date on the principal amount. These notes were redeemed on April 18, 2018. In connection with the redemption, we recognized approximately \$4 million of net loss on repurchases and repayments of debt for the six months ended June 30, 2018.

On May 14, 2018, OMFH provided notice of redemption to redeem the remaining \$400 million in aggregate principal amount of the OMFH Notes due 2021 on June 13, 2018, at a redemption price in cash equal to the sum of (i) 103.625% of the principal amount of the notes and (ii) any accrued and unpaid interest to the redemption date on the principal amount. These notes were redeemed on June 13, 2018. In connection with the redemption, we recognized approximately \$3 million of net loss on repurchase and repayments of debt for the six months ended June 30, 2018.

Termination of First Avenue Funding LLC

On June 10, 2018, First Avenue Funding LLC voluntarily terminated its note purchase agreement.

Termination of OneMain Financial B6 Warehouse Trust

On February 2, 2018, OneMain Financial B6 Warehouse Trust voluntarily terminated its note purchase agreement. Concurrently with such termination, we entered into a loan and security agreement with OneMain Financial Funding VIII, LLC with the same third party lenders who were party to the terminated note purchase agreement with the OneMain Financial B6 Warehouse Trust. Under the loan and security agreement with OneMain Financial Funding VIII, LLC, we may borrow up to a maximum principal balance of \$450 million.

SFC's Offering of 6.875% Senior Notes Due 2025

On March 12, 2018, SFC issued \$1.25 billion aggregate principal amount of the 6.875% SFC Notes under the SFC Base Indenture, as supplemented by the SFC Fifth Supplemental Indenture, pursuant to which OMH provided a guarantee of the 6.875% SFC Notes on an unsecured basis. SFC used the net proceeds from the sale of the 6.875% SFC Notes for general corporate purposes, which included debt repurchases. See Note 8 of the Notes to the

Condensed Consolidated Financial Statements included in this report for further information of the issuance.

SFC's Offering of 7.125% Senior Notes Due 2026

On May 11, 2018, SFC issued \$900 million aggregate principal amount of 7.125% SFC Notes under the SFC Base Indenture, as supplemented by the SFC Sixth Supplemental Indenture, pursuant to which OMH provided a guarantee of the 7.125% SFC Notes on an unsecured basis. SFC used the net proceeds from the sale of the 7.125% SFC Notes to redeem the remaining \$400 million in aggregate principal amount of the OMFH 7.25% Senior Notes due 2021 and will use the remaining proceeds for other general corporate purposes, which may include other debt repurchases and repayments. See Note 8 of the Notes to the Condensed Consolidated Financial Statements included in this report for further information of the issuance.

Securizations and Borrowings from Revolving Conduit Facilities

During the six months ended June 30, 2018, we completed two consumer loan securitizations. At June 30, 2018, we had approximately \$9.2 billion in UPB of finance receivables pledged as collateral for our securitization transactions.

During the six months ended June 30, 2018, we (i) terminated two revolving conduit agreements, (ii) entered into two new conduit facilities, (iii) extended the revolving period on three existing conduit facilities, and (iv) amended three existing conduit facilities to increase the maximum principal balance.

See Notes 8 and 9 of the Notes to Condensed Consolidated Financial Statements included in this report for further information on our long-term debt, loan securitization transactions and conduit facilities.

Subsequent to June 30, 2018, we completed the following transactions:

On July 5, 2018, we borrowed \$50 million under the loan and security agreement with Thur River Funding, LLC.

On July 24, 2018, we issued \$947 million in notes backed by direct auto loans (“ODART 2018-1”). The maturity dates of the ODART 2018-1 notes occur in December 2024 with respect to the Class A notes, April 2025 with respect to the Class B notes, October 2025 with respect to the Class C notes and January 2028 with respect to the Class D notes. We initially retained approximately \$47 million distributed among each class of the notes.

On August 1, 2018, we amended the loan and security agreement with OneMain Financial Funding VIII, LLC to, among other things, (i) increase the advance maximum balance from \$450 million to \$650 million and (ii) extend the revolving period ending January 2021 to August 2021 thereby extending the final maturity to September 2023.

USES OF FUNDS

Our operating subsidiaries’ primary cash needs relate to funding our lending activities, our debt service obligations, our operating expenses (including acquisition-related transaction and integration expenses), payment of insurance claims and, to a lesser extent, expenditures relating to upgrading and monitoring our technology platform, risk systems, and branch locations.

At June 30, 2018, we had \$556 million of cash and cash equivalents, which included \$271 million of cash and cash equivalents held at our regulated insurance subsidiaries or for other operating activities that is unavailable for general corporate purposes.

At June 30, 2018, we had \$1.7 billion of investment securities, which are all held as part of our insurance operations and are unavailable for general corporate purposes.

During the six months ended June 30, 2018, we generated net income of \$131 million. Our net cash outflow from operating and investing activities totaled \$296 million for the six months ended June 30, 2018. At June 30, 2018, our remaining scheduled principal and interest payments for 2018 on our existing debt (excluding securitizations) totaled \$234 million. As of June 30, 2018, we had \$6.2 billion UPB of unencumbered personal loans and \$308 million UPB of unencumbered real estate loans (including \$182 million held for sale).

Based on our estimates and taking into account the risks and uncertainties of our plans, we believe that we will have adequate liquidity to finance and operate our businesses and repay our obligations as they become due for at least the next 12 months.

See Notes 8 and 9 of the Notes to Condensed Consolidated Financial Statements included in this report for further information on our long-term debt, loan securitization transactions and conduit facilities.

We have previously purchased portions of our unsecured indebtedness, and we may elect to purchase additional portions of our unsecured indebtedness in the future. Future purchases may be made through the open market, privately negotiated transactions with third parties, or pursuant to one or more tender or exchange offers, all of which are subject to terms, prices, and consideration we may determine.

We have not paid dividends since our initial public offering in 2013. However, we plan to evaluate the potential for capital distributions in 2018 based on the achievement of our liquidity and target leverage objectives, among other factors. Any capital distribution, including any declaration and payment of future dividends to holders of our common stock, will be at the discretion of our board of directors and will depend on many factors, including our financial condition, earnings, cash flows, capital requirements, level of indebtedness, statutory and contractual restrictions applicable to the payment of dividends, and other considerations that our board of directors deems relevant. There can be no assurances that we will make any capital distributions in 2018 or at any time thereafter and, even if we make capital distributions in 2018, there can be no assurances that we will continue to do so in the future.

LIQUIDITY

Operating Activities

Net cash provided by operations of \$944 million for the six months ended June 30, 2018 reflected net income of \$131 million, the impact of non-cash items, and a favorable change in working capital of \$22 million. Net cash provided by operations of \$740 million for the six months ended June 30, 2017 reflected net income of \$75 million, the impact of non-cash items, and an unfavorable change in working capital of \$24 million.

Investing Activities

Net cash used for investing activities of \$1.2 billion for the six months ended June 30, 2018 was primarily due to net principal originations of finance receivables held for investment and held for sale and purchases of available-for-sale securities, partially offset by calls, sales and maturities of available-for-sale securities. Net cash used for investing activities of \$854 million for the six months ended June 30, 2017 was primarily due to net principal originations of finance receivables held for investment and held for sale and purchases of available-for-sale securities, partially offset by calls, sales and maturities of available-for-sale securities.

Financing Activities

Net cash used for financing activities of \$46 million for the six months ended June 30, 2018 was primarily due to net repayments of long-term debt. Net cash provided by financing activities of \$374 million for the six months ended June 30, 2017 was primarily due to net issuances of long-term debt, including SFC's offerings of the 6.125% SFC Notes in May of 2017.

Liquidity Risks and Strategies

SFC's and OMFH's credit ratings are non-investment grade, which have a significant impact on our cost of, and access to, capital. This, in turn, can negatively affect our ability to manage our liquidity and our ability or cost to refinance our indebtedness.

There are numerous risks to our financial results, liquidity, capital raising, and debt refinancing plans, some of which may not be quantified in our current liquidity forecasts. These risks include, but are not limited to, the following:

- our inability to grow or maintain our personal loan portfolio with adequate profitability;
- the effect of federal, state and local laws, regulations, or regulatory policies and practices;
- potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans; and
- the potential for disruptions in the debt and equity markets.

The principal factors that could decrease our liquidity are customer delinquencies and defaults, a decline in customer prepayments, and a prolonged inability to adequately access capital market funding. We intend to support our liquidity position by utilizing some or all the following strategies:

- maintaining disciplined underwriting standards and pricing for loans we originate or purchase and managing purchases of finance receivables;
- pursuing additional debt financings (including new securitizations and new unsecured debt issuances, debt refinancing transactions and revolving conduit facilities), or a combination of the foregoing;

purchasing portions of our outstanding indebtedness through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices, as well as with such consideration, as we may determine; and

- obtaining new and extending existing secured revolving facilities to provide committed liquidity in case of prolonged market fluctuations.

However, it is possible that the actual outcome of one or more of our plans could be materially different than expected or that one or more of our significant judgments or estimates could prove to be materially incorrect.

OUR INSURANCE SUBSIDIARIES

Our insurance subsidiaries are subject to state regulations that limit their ability to pay dividends. State law restricts the amounts that Merit and Yosemite may pay as dividends without prior notice to the Indiana DOI and the amounts that AHL and Triton may pay as dividends without prior notice to the Texas DOI. The maximum amount of dividends, referred to as “ordinary dividends,” for an Indiana or Texas domiciled life insurance company that can be paid without prior approval in a 12 month period (measured retrospectively from the date of payment) is the greater of: (i) 10% of policyholders’ surplus as of the prior year-end or (ii) the statutory net gain from operations as of the prior year-end. Any amount greater must be approved by the Indiana DOI or Texas DOI prior to its payment. The maximum ordinary dividends for an Indiana or Texas domiciled property and casualty insurance company that can be paid without prior approval in a 12 month period (measured retrospectively from the date of payment) is the greater of: (i) 10% of policyholders’ surplus as of the prior year-end or (ii) the statutory net income. Any amount greater must be approved by the Indiana DOI or Texas DOI prior to its payment. These approved dividends are called “extraordinary dividends.” Our insurance subsidiaries did not pay any dividends during the six months ended June 30, 2018 and 2017.

DEBT COVENANTS

SFC Debt Agreements

The debt agreements to which SFC and its subsidiaries are a party include customary terms and conditions, including covenants and representations and warranties. Some or all of these agreements also contain certain restrictions, including (i) restrictions on the ability to create senior liens on property and assets in connection with any new debt financings and (ii) SFC’s ability to sell or convey all or substantially all of its assets, unless the transferee assumes SFC’s obligations under the applicable debt agreement. In addition, the OMH guarantees of SFC’s long-term debt discussed above are subject to customary release provisions.

With the exception of SFC’s junior subordinated debenture, none of our debt agreements require SFC or any of its subsidiaries to meet or maintain any specific financial targets or ratios. However, certain events, including non-payment of principal or interest, bankruptcy or insolvency, or a breach of a covenant or a representation or warranty, may constitute an event of default and trigger an acceleration of payments. In some cases, an event of default or acceleration of payments under one debt agreement may constitute a cross-default under other debt agreements resulting in an acceleration of payments under the other agreements.

As of June 30, 2018, SFC was in compliance with all of the covenants under its debt agreements.

Junior Subordinated Debenture

In January of 2007, SFC issued the Junior Subordinated Debenture, consisting of \$350 million aggregate principal amount of 60-year junior subordinated debt. The Junior Subordinated Debenture underlies the trust preferred

securities sold by a trust sponsored by SFC. SFC can redeem the Junior Subordinated Debenture at par beginning in January of 2017. The interest rate on the UPB of the Junior Subordinated Debenture consists of a variable floating rate (determined quarterly) equal to 3-month LIBOR plus 1.75%, or 4.10% as of June 30, 2018.

Pursuant to the terms of the Junior Subordinated Debenture, upon the occurrence of a mandatory trigger event, SFC is required to defer interest payments to the holders of the Junior Subordinated Debenture (and not make dividend payments to SFI) unless SFC obtains non-debt capital funding in an amount equal to all accrued and unpaid interest on the Junior Subordinated Debenture otherwise payable on the next interest payment date and pays such amount to the holders of the Junior Subordinated Debenture. A mandatory trigger event occurs if SFC's (i) tangible equity to tangible managed assets is less than 5.5% or (ii) average fixed charge ratio is not more than 1.10x for the trailing four quarters.

Based upon SFC's financial results for the three months ended June 30, 2018, a mandatory trigger event did not occur with respect to the interest payment due in July of 2018, as SFC was in compliance with both required ratios discussed above.

OMFH Debt Agreements

On June 13, 2018, OMFH redeemed the remaining principal amount of the OMFH Notes due 2021 and received notice of satisfaction and discharge with respect to the OMFH Notes. As of June 30, 2018, OMFH is no longer subject to the covenants or other terms of the OMFH Indenture.

Structured Financings

We execute private securitizations under Rule 144A of the Securities Act of 1933. See Note 9 of the Notes to Condensed Consolidated Financial Statements included in this report for further information on our structured financings.

In addition to the structured financings, we had access to 10 conduit facilities with a total borrowing capacity of \$5.4 billion as of June 30, 2018, as discussed in Note 9 of the Notes to Condensed Consolidated Financial Statements included in this report. At June 30, 2018, no amounts were drawn under these facilities.

See "Liquidity and Capital Resources - Sources of Funds - Securitizations and Borrowings from Revolving Conduit Facilities" above for information on the securitization and conduit transactions completed subsequent to June 30, 2018.

Our overall funding costs are positively impacted by our increased usage of securitizations, as we typically execute these transactions at interest rates below those of our unsecured debt.

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements as defined by SEC rules. We had no off-balance sheet exposure to losses associated with unconsolidated VIEs at June 30, 2018 or December 31, 2017, other than certain representations and warranties associated with the sales of the mortgage-backed retained certificates during 2014. As of June 30, 2018, we had no repurchase activity related to these sales.

Critical Accounting Policies and Estimates

We describe our significant accounting policies used in the preparation of our consolidated financial statements in Note 3 of the Notes to Consolidated Financial Statements in Part II - Item 8 included in our 2017 Annual Report on Form 10-K. We consider the following policies to be our most critical accounting policies because they involve critical accounting estimates and a significant degree of management judgment:

- allowance for finance receivable losses;
- purchased credit impaired finance receivables;
- TDR finance receivables;
- fair value measurements; and
- goodwill and other intangible assets.

There have been no material changes to our critical accounting policies or to our methodologies for deriving critical accounting estimates during the six months ended June 30, 2018.

Recent Accounting Pronouncements

See Note 2 of the Notes to Condensed Consolidated Financial Statements included in this report for discussion of recently issued accounting pronouncements.

Seasonality

Our personal loan volume is generally highest during the second and fourth quarters of the year, primarily due to marketing efforts, seasonality of demand, and increased traffic in branches after the winter months. Demand for our personal loans is usually lower in January and February after the holiday season and as a result of tax refunds. Delinquencies on our personal loans are generally lowest in the first quarter and tend to rise throughout the remainder of the year. These seasonal trends contribute to fluctuations in our operating results and cash needs throughout the year.

62

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to our market risk previously disclosed in Part II - Item 7A included in our 2017 Annual Report on Form 10-K.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of June 30, 2018, we carried out an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. This evaluation was conducted under the supervision of, and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer. Based on our evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2018 to provide the reasonable assurance described above.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

See Note 14 of the Notes to Condensed Consolidated Financial Statements included in this report.

Item 1A. Risk Factors.

There have been no material changes to our risk factors included in Part I, Item 1A of our 2017 Annual Report on Form 10-K, other than as set forth below.

The risk factors under the heading “Risks Related to the Apollo-Värde Transaction” are hereby amended and restated with the following:

Uncertainties regarding the effects of the Apollo-Värde Transaction could adversely affect our business and financial results.

The Apollo-Värde Transaction closed on June 25, 2018. Uncertainty about the effects of the Apollo-Värde Transaction on counterparties to contracts, employees and other parties may have an adverse effect on us. These uncertainties could cause contract counterparties and others who deal with us to seek to change existing business relationships with us, and may impair our ability to attract, retain and motivate key personnel for a period of time following the completion of the Apollo-Värde Transaction. In addition, the transition and integration process following the completion of the Apollo-Värde Transaction may place a significant burden on management and internal resources. Any significant diversion of management attention away from our ongoing business and any difficulties encountered during the transition and integration process could adversely affect our financial results following the completion of the Apollo-Värde Transaction.

The first, fourth and fifth risk factors under the heading “Risks Related to Our Organization and Structure” are hereby amended and restated with the following:

The Apollo-Värde Group is our largest stockholder, and the Apollo-Värde Group may exercise significant influence over us, including through its ability to designate a majority of the members of our board of directors, and its interests may conflict with the interests of our other stockholders.

On June 25, 2018, the Apollo-Värde Group completed its purchase of 54,937,500 shares beneficially owned by SFH, representing approximately 40.5% of our outstanding common stock as of such date. As a result, the Apollo-Värde Group is our largest stockholder and has significant influence on all matters requiring a stockholder vote, including the election of our directors; mergers, consolidations and acquisitions; the sale of all or substantially all of our assets and other decisions affecting our capital structure; the amendment of our restated certificate of incorporation and our amended and restated bylaws; and our winding up and dissolution. This concentration of ownership may delay, deter or prevent acts that would be favored by our other stockholders, including delaying, deterring or preventing a change in control of us or a merger, takeover or other business combination that may be otherwise favorable to us or our other stockholders. In addition, this concentration of share ownership may adversely affect the trading price of our common stock because investors may perceive disadvantages in owning shares in a company with significant stockholders.

In connection with the closing of the Apollo-Värde Transaction, we entered into an amended and restated stockholders agreement (the “stockholders agreement”) with the Apollo-Värde Group, which provides the Apollo-Värde Group with the right to designate a majority of the members of our board of directors, plus one director, for so long as the

Apollo-Värde Group and certain of its affiliates and permitted transferees continue to beneficially own, directly or indirectly, at least 33% of our issued and outstanding common stock. With such representation on our board of directors, the Apollo-Värde Group will be able to exercise significant influence over decisions affecting us, including our direction and policies, the appointment of management and any action requiring the vote of our board of directors, including significant corporate action such as mergers and sales of substantially all of our assets and decisions affecting our capital structure. The interests of the Apollo-Värde Group may not always coincide with our interests or the interests of our other stockholders. Apollo-Värde Group may seek to cause us to take courses of action that, in its judgment, could enhance its investment in us, but which might involve risks to our other stockholders or adversely affect us or our other stockholders.

In addition, the Apollo-Värde Group and its affiliates may conduct business with any business that is competitive or in the same line of business as us, do business with any of our clients, customers or vendors, make investments in the kind of property in which we may make investments or acquire the same or similar types of assets that we may seek to acquire. Affiliates of the Apollo-Värde Group are in the business of making or advising on investments in companies and may hold, and from time to time in the future may acquire, interests in or provide advice to businesses that directly or indirectly compete with certain portions of our business or are vendors or customers of ours. The Apollo-Värde Group may also pursue acquisitions that may be complementary to our business, and, as a result, those acquisition opportunities may not be available to us.

Certain provisions of a stockholders agreement with the Apollo-Värde Group, our restated certificate of incorporation and our amended and restated bylaws could hinder, delay or prevent a change in control of us, which could adversely affect the price of our common stock.

In connection with the closing of the Apollo-Värde Transaction, we entered into the stockholders agreement with the Apollo-Värde Group. Certain provisions of the stockholders agreement, our restated certificate of incorporation and our amended and restated bylaws could hinder, delay or prevent a change in control of us, which could adversely affect the price of our common stock. These provisions, among others, provide for:

- a classified board of directors with staggered three-year terms;

- removal of directors only for cause and only with the affirmative vote of at least 80% of the voting interest of stockholders entitled to vote (provided, however, that for so long as the Apollo-Värde Group and certain of its affiliates and permitted transferees beneficially own, directly or indirectly, at least 30% of our issued and outstanding common stock, directors may be removed with or without cause with the affirmative vote of a majority of the then issued and outstanding voting interest of stockholders entitled to vote);

- provisions in our restated certificate of incorporation and amended and restated bylaws prevent stockholders from calling special meetings of our stockholders (provided, however, that for so long as the Apollo-Värde Group and certain of its affiliates and permitted transferees beneficially own, directly or indirectly, at least 20% of our issued and outstanding common stock, any stockholders that collectively beneficially own at least 20% of our issued and outstanding common stock may call special meetings of our stockholders);

- advance notice requirements by stockholders with respect to director nominations and actions to be taken at annual meetings;

- under the stockholders agreement, certain rights to the Apollo-Värde Group and certain of its affiliates and permitted transferees with respect to the designation of directors for nomination and election to our board of directors, including the ability to appoint a majority of the members of our board of directors, plus one director, for so long as the Apollo-Värde Group and certain of its affiliates and permitted transferees continue to beneficially own, directly or indirectly at least 33% of our issued and outstanding common stock;

- no provision in our restated certificate of incorporation or amended and restated bylaws permits cumulative voting in the election of directors, which means that the holders of a majority of the outstanding shares of our common stock can elect all the directors standing for election;

- our restated certificate of incorporation and our amended and restated bylaws only permit action by our stockholders outside a meeting by unanimous written consent, provided, however, that for so long as the Apollo-Värde Group and certain of its affiliates and permitted transferees beneficially own, directly or indirectly, at least 20% of our issued and

outstanding common stock (including the Apollo-Värde Group's proportionate interest in shares of our common stock held by the SFH), our stockholders may act without a meeting by written consent of a majority of our stockholders; and

under our restated certificate of incorporation, our board of directors has authority to cause the issuance of preferred stock from time to time in one or more series and to establish the terms, preferences and rights of any such series of preferred stock, all without approval of our stockholders.

In addition, these provisions may make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt that is opposed by the Apollo-Värde Group, our management or our board of directors. Public stockholders who might desire to participate in these types of transactions may not have an opportunity to do so, even if the transaction is favorable to stockholders. These anti-takeover provisions could substantially impede the ability of public stockholders to benefit from a change in control or change our management and board of directors and, as a result, may adversely affect the market price of our common stock and the ability of public stockholders to realize any potential change of control premium.

Certain of our stockholders have the right to engage or invest in the same or similar businesses as us.

The Apollo-Värde Group and its affiliates engage in other investments and business activities in addition to their ownership of us. Under our restated certificate of incorporation, the Apollo-Värde Group and its affiliates have the right, and have no duty to abstain from exercising such right, to engage or invest in the same or similar businesses as us, do business with any of our clients, customers or vendors or employ or otherwise engage any of our officers, directors or employees. If the Apollo-Värde Group and its affiliates, or any of their respective officers, directors or employees, acquire knowledge of a potential transaction that could be a corporate opportunity, they have no duty, to the fullest extent permitted by law, to offer such corporate opportunity to us, our stockholders or our affiliates.

In the event that any of our directors and officers who is also a director, officer or employee of any of the Apollo-Värde Group or its affiliates acquires knowledge of a corporate opportunity or is offered a corporate opportunity, provided that this knowledge was not acquired solely in such person's capacity as our director or officer and such person acts in good faith, then even if the Apollo-Värde Group or its affiliates pursues or acquires the corporate opportunity or if the Apollo-Värde Group or its affiliates do not present the corporate opportunity to us, such person is deemed to have fully satisfied such person's fiduciary duties owed to us and is not liable to us.

The third risk factor under the heading "Risks Related to Our Common Stock" is hereby amended and restated with the following:

The market price of our common stock could be negatively affected by sales of substantial amounts of our common stock in the public markets.

As of June 30, 2018, approximately 40.5% of our outstanding common stock was held by the Apollo-Värde Group and, subject to certain restrictions set forth in the stockholders agreement, can be resold into the public markets in the future in accordance with the requirements of the Securities Act of 1933, as amended. A decline in the price of our common stock, whether as a result of sale of stock by the Apollo-Värde Group or otherwise, might impede our ability to raise capital through the issuance of additional common stock or other equity securities.
