Item 2.02 Results of Operations and Financial Condition

On Tuesday, August 1, 2006 the Company disseminated a press release, attached as Exhibit A, announcing the Company's operational results for the period ending June 30, 2006.

As part of the press release there is a bridge of the non-GAAP financial measurement of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) to reported net income. It is shown below the disclosure of the GAAP figures for Operating income, Net income and Diluted earnings per share. This reconciliation of EBITDA to Net income is for the Three Months ended June 30, 2006 and June 30, 2005 and the Six Months ended June 30, 2006 and June 30, 2005.

The Company believes, however, that EBITDA is an important term and concept because of its use by the professional investment community, including the Company's primary lenders. The Company believes the use of this Term is necessary to a proper understanding of the changes in the Company's earnings.

**FOR IMMEDIATE RELEASE
TUESDAY, AUGUST 1, 2006**

**A. M. CASTLE & CO. ANNOUNCES CONTINUED STRONG SALES AND EARNINGS PERFORMANCE
AND DECLARES A QUARTERLY CASH DIVIDEND**

FRANKLIN PARK, ILLINOIS, AUGUST 1ST - A. M. CASTLE & CO. (AMEX: CAS) a leading North American distributor of highly engineered metals and plastics, announced today continued strong demand and record sales and earnings performance for the second quarter and first-half of 2006.

Consolidated net sales for the second quarter ended June 30, 2006 were \$275.6 million, an increase of \$25.6 million or 9.8% from the second quarter of 2005. For the first half of 2006, net sales totaled \$554.8 million, a \$57.6 million or 11.6% increase from the same period of 2005.

“Excluding material price increases, we achieved 5% sales growth in the second quarter and 7% sales growth for the first half of the year,” stated Michael Goldberg, President and CEO of A. M. Castle & Co.

Net income applicable to common stock for the second quarter was \$14.1 million, or \$0.76 per diluted share, compared to \$13.2 million, or \$0.73 per diluted share, in the second quarter of 2005. For the first half of 2006, net income applicable to common stock, was \$29.9 million, or \$1.62 per diluted share, compared to \$24.8 million, or \$1.37 per diluted share for the first half of 2005.

“We continue to experience strong demand in the markets we serve, particularly aerospace, oil and gas, and mining and heavy industrial equipment sectors. Also contributing to our record results was a moderate increase in metals prices during the second quarter,” added Goldberg. “We remain optimistic about customer demand requirements for the second half of 2006. However, we want to remind our shareholders that typical seasonal patterns would suggest that second half sales will generally fall below those of the first half, assuming no further movement in material prices,” Goldberg concluded.

The Company reported 10% sales growth in its Metals business for the second quarter and 12% sales growth on a year-to-date basis. Metals prices for the Company’s current product mix were 5% higher than both the second quarter of 2005 and the comparative six-months.

Plastics sales increased 7% compared to the second quarter of last year and increased 8% year-to-date. Plastics prices were 5% higher than the second quarter of 2005 and 7% higher than the first half of last year.

“We continue to explore various growth opportunities in both our Metals and Plastics segments,” stated Goldberg. “Our excellent balance sheet has us well-positioned for both organic growth and potential strategic acquisitions that complement and enhance our existing product offerings, as well as expand our geographic reach,” added Goldberg. The Company’s debt to capital ratio, at quarter end was 27.3%.

Larry Boik, Vice President and CFO of the Company commented, “Our new Alabama facility shipped its first customer orders in early July.” The Birmingham facility was announced previously as part of the Company’s planned expansion of its Metals business into the Southern U.S. manufacturing region. “Our business systems replacement initiative is also progressing well. We completed the conversion of our financial systems during the second quarter and have started work on our core business applications. The project remains on track to be completed in late 2007 to early 2008 at a total cost of \$4.0 million to \$6.0 million,” added Boik. “Our capital expenditures through June reflect the purchase of the Alabama facility and our investment in new technology as we expand our business market reach and capabilities for the future,” Boik concluded.

On July 27, 2006 the Company’s Board of Directors approved a quarterly cash dividend of 6 cents per share, payable on August 28, 2006 to shareholders of record at the close of business on August 11th.

In closing, Mr. Goldberg invites interested parties to listen to its conference call scheduled for 11:00 a.m. (EST) today, Tuesday, August 1, 2006. A rebroadcast of the call will be available for 14 days following the call on the Company’s web site at www.amcastle.com.

Safe Harbor Statement / Regulation G Disclosure

This release may contain forward-looking statements relating to future financial results. Actual results may differ materially as a result of factors over which the Company has no control.

These risk factors and additional information are included in the Company's reports on file with the Securities Exchange Commission. The financial statements included in this release contain a non-GAAP disclosure, EBITDA, which consists of income before provision for income taxes plus depreciation and amortization, and interest expense (including discount on accounts receivable sold), less interest income. EBITDA is presented as a supplemental disclosure because this measure is widely used by the investment community for evaluation purposes and provides the reader with additional information in analyzing the Company's operating results. EBITDA should not be considered as an alternative to net income or any other item calculated in accordance with U.S. GAAP, or as an indicator of operating performance. Our definition of EBITDA used here may differ from that used by other companies. A reconciliation of EBITDA to net income is provided per U.S. Securities and Exchange Commission requirements.
