Item 2.06 Material Impairments.

On September 27, 2004, the Corporation announced that it intends to take a non-cash sales and pre-tax earnings charge in the third quarter of approximately \$21.0 million, eliminating its investment (principally billed receivables and recoverable costs - not billed) in contracts with MD Helicopters, Inc. ("MDHI"). The non-cash charge is expected to include a negative sales adjustment of approximately \$19.0 million and an addition to the Corporation's bad debt reserve of approximately \$2.0 million. The charge is not expected to result in any future cash expenditures.

The contracts with MDHI provide for the production of helicopter fuselages and rotor blades, however because of payment issues, the Corporation stopped work on the MDHI program in 2003. It has been the Corporation's expectation that MDHI would be successful in executing its strategy to improve current financial and operational

Edgar Filing: KAMAN CORP - Form 8-K

circumstances. MDHI management has indicated that, although it continues to work on this strategy, it has not been able to resolve the situation thus far; therefore, the Corporation has determined that, given current circumstances, a sales and pre-tax charge in the amount of its investment under these contracts must be taken in compliance with accounting principles generally accepted in the United States of America.

The Corporation intends to maintain a business relationship with MDHI should it be successful in improving its financial and operational situation.

Item 7.01 Regulation FD Disclosure.

On September 27, 2004, the Corporation issued a press release regarding its decision to take a non-cash charge in the third quarter as discussed in Item 2.06 of this Report. A copy of the press release is furnished with this Report as Exhibit 99.1.

Item 8.01 Other Events.

The non-cash sales and pre-tax earnings charge discussed in Item 2.06 of this Report would create a default under a financial covenant and possibly an acceleration of indebtedness under the Corporation's revolving credit agreement, if not avoided by waiver of any default under, or by modification of, the agreement. The Corporation has been working with its lenders and expects to resolve this issue in a manner that will avoid any such default or

Page 2

acceleration or any related issues because of cross-default provisions of certain smaller debt obligations of the Corporation and its subsidiaries.

Item 9.01 Financial Statements and Exhibits.

(c) Exhibits.

Exhibit 99.1 Press release dated September 27, 2004.
