& CFO

Date: April 18, 2006

Exhibit 99.1**AMERISERV FINANCIAL REPORTS FINANCIAL RESULTS FOR THE FIRST QUARTER OF 2006**

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) reported net income of \$540,000 or \$0.02 per diluted share for the first quarter of 2006. This compares to net income of \$833,000 or \$0.04 per diluted share for the first quarter of 2005. Note that for comparative purposes the first quarter 2005 results included a one-time income tax benefit of \$475,000. There was no such tax benefit in the first quarter of 2006. The following table highlights the Company's financial performance for the quarters ended March 31, 2006 and 2005:

	First Quarter 2006	First Quarter 2005
Income before taxes	\$676,000	\$401,000
Net income	\$540,000	\$833,000
Diluted earnings per share	0.02	0.04

Allan R. Dennison, President and Chief Executive Officer, commented on the first quarter 2006 results, "AmeriServ's first quarter 2006 financial performance is beginning to show the benefits of our focus on traditional community banking and the balance sheet restructuring completed in 2005. Average loans and deposits in the first quarter of 2006 both grew approximately 5.7% when compared to the first quarter of 2005. This growth combined with significant reductions in both investment securities and borrowings caused our net interest margin to increase by 45 basis points to 3.20% in the first quarter of 2006. Other first quarter 2006 performance highlights include stable asset quality, reduced non-interest expenses, and strong growth in trust revenues."

Overall, the Company generated a comparable level of net interest income from a smaller, but stronger balance sheet in the first quarter of 2006. The Company's net interest income in the first quarter of 2006 was essentially flat with the prior year first quarter as the benefits from an increased net interest margin offset a reduced level of earning assets. Specifically, the net interest margin increased by 45 basis points to 3.20% while the level of average earning assets declined by \$132 million or 14.4%. Both of these items reflect the deleverage of high cost debt from the Company's balance sheet which has resulted in lower levels of both borrowed funds and investment securities. The Company's net interest margin also benefited from increased loans in the earning asset mix as total loans outstanding averaged \$549

million in the first quarter of 2006, a \$30 million or 5.7% increase from the prior year first quarter. This loan growth occurred in the commercial loan portfolio as a result of successful new business development efforts. Total deposits averaged \$719 million in the first quarter of 2006, a \$39 million or 5.7% increase from 2005 due largely to increased deposits from the trust company's operations. This deposit growth also allowed the Company to further reduce FHLB borrowings as these wholesale borrowings averaged only 5.7% of total assets in the first quarter of 2006 compared to 20.9% of total assets in the first quarter of 2005.

The Company did not record a provision for loan losses in either the first quarter of 2006 or the first quarter of 2005 due to the Company's continuing sound asset quality. Non-performing assets have remained relatively stable in a range of \$3.3 to \$4.3 million for the past five quarters and ended the first quarter of 2006 at \$4.2 million or 0.76% of total loans. Net charge-offs in the first quarter of 2006 amounted to \$117,000 or 0.09% of total loans which was up from the net charge-offs of \$60,000 or 0.05% of total loans in the prior year first quarter. The allowance for loan losses provided 215% coverage of non-performing assets at March 31, 2006 compared to 212% coverage at December 31, 2005, and 258% coverage at March 31, 2005. The allowance for loan losses as a percentage of total loans amounted to 1.65% at March 31, 2006.

The Company's non-interest income in the first quarter of 2006 increased by \$94,000 or 3.0% from the prior year first quarter due to strong growth in trust revenue and increased deposit service charges. Trust fees increased by \$169,000 or 11.5% due to continued successful new business development efforts in both the union and traditional trust product lines. Trust assets under management totaled \$1.67 billion at March 31, 2006. Deposit service charges grew by \$43,000 or 7.4% due to increased checking service charges and overdraft penalty fees. These positive items were partially offset by fewer gains on asset sales in the first quarter of 2006. Specifically, the Company realized no gains on investment security sales in the first quarter of 2006 compared to \$78,000 of investment security gains realized in the first quarter of 2005. There was also a \$49,000 decrease in gains realized on loan sales into the secondary market due to weaker residential mortgage loan production in the first quarter of 2006.

The Company's total non-interest expense in the first quarter of 2006 decreased by \$85,000 when compared to the first quarter of 2005 reflecting the Company's continued focus on reducing and containing non-interest expenses. Expense reductions were experienced in numerous categories including occupancy expense, professional fees, and other expenses. Also, the loss from discontinued operations declined from \$65,000 in the first quarter of 2005 to \$0 in the first quarter of 2006 as the Company completed the exit from its mortgage servicing operation in 2005.

The Company recorded a more typical income tax expense of \$136,000 in the first quarter of 2006. The Company's first quarter 2005 net income performance was favorably impacted by an income tax benefit. Specifically in the first quarter of 2005, the Company lowered its income tax expense by \$475,000 due to a reduction in reserves for prior year tax contingencies as a result of the successful conclusion of an IRS examination on several open tax years.

At March 31, 2006, ASRV had total assets of \$876 million and shareholders' equity of \$84 million or \$3.81 per share. The Company's asset leverage ratio improved to 10.36% at March 31, 2006 compared to 9.77% at March 31, 2005.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission. Actual results may differ materially.
