NATIONAL GRID TRANSCO PLC Form 35-CERT June 29, 2005

File No. 70-10236

CERTIFICATE OF NOTIFICATION

(RULE 24)

SECURITIES AND EXCHANGE COMMISSION

BY

NATIONAL GRID TRANSCO PLC

In accordance with the order of the Securities and Exchange Commission ("Commission") dated September 30, 2004, Holding Company Act Release No. 27898 (the "September 2004 Order"), National Grid Transco plc ("National Grid Transco"), hereby submits its report for the period October 1, 2004 to March 31, 2005 (the "reporting period"). Following is a listing of the applicable reporting requirements contained in the Order (each, a "Reporting Requirement"), together with the response thereto. Unless otherwise defined herein, all capitalized terms in this Certificate of Notification shall have the meaning set forth in the September 2004 Order, for example:

"Authorization Period" shall mean October 1, 2004 through September 30, 2007

"Intermediate Companies" shall mean all holding companies in the chain of ownership of National Grid USA that are direct or indirect subsidiaries of National Grid Transco including National Grid (US) Holdings Limited, National Grid (US) Investments 4, National Grid (US) Partner 1 Limited, National Grid (US) Partner 2 Limited, National Grid General Partnership, National Grid Holdings Inc. and any new companies in the chain of ownership as the structure may be revised from time to time.

"Utility Subsidiary" shall mean all National Grid USA public utility subsidiary companies (*i.e*, Niagara Mohawk Power Corporation, Massachusetts Electric Company, The Narragansett Electric Company, Granite State Electric Company, Nantucket Electric Company, New England Power Company, New England Electric Transmission Corporation, New England Hydro-Transmission Corporation, and New England Hydro-Transmission Electric Co. Inc.).

"National Grid USA Group" shall mean National Grid USA and its direct and indirect subsidiaries

Pursuant to the September 2004 Order, the value of securities issued in currencies other than the dollar were translated into dollars at the exchange rate prevailing on September 30, 2004 which was 1 GBP to 1.80 USD. Other items in the report reflect exchange rate translations as of the end of the reporting period at the then prevailing exchange rate of 1 GBP to 1.89 USD, or in the case of income statement items at an average rate for the period of 1 GBP to 1.87 USD. The exchange rate conversion is provided solely for convenience and should not be taken to mean that the pound sterling amounts have been, could have been, or could be converted to US Dollars at the rates indicated or at any other rates.

Reporting Requirement No. 1: The sales of common stock, preferred securities or equity-linked securities by National Grid Transco and the purchase price per share and the market price per share at the date of the agreement of sale which shall also separately show the amount issued during the Authorization Period for each type of issued securities (common stock, preferred securities or equity-linked securities).

Response:

There were no sales of common stock, preferred securities or equity-linked securities by National Grid Transco during the reporting period except for common stock under stock based plans as reported in Reporting Requirement No. 2, below.

Reporting Requirement No. 2: The total number of shares of National Grid Transco common stock issued or issuable under options granted during the reporting period under employee benefit plans and dividend reinvestment plans including any employee benefit plans or dividend reinvestment plans hereafter adopted, together with the number of shares issued or issuable during the Authorization Period.

Response:

Shares of common stock issued by National Grid Transco during the reporting period:

Date	No. of National Grid Transco Ordinary Shares Issued	Details of Issue	Market Price / and Sale Price per share (if different)	Proceeds GBP	Proceeds USD
10/04/04	10,773	Shares issued on exercise of options under Employee Sharesave Scheme	Sale price- 350p or 344p or 314.5p per share. Closing mid-market price- 470.75p per share.	34,328	64,894
10/18/04	7,684	Shares issued on exercise of options under Employee Sharesave Scheme	Sale price- 350p or 344p or 314.5p per share. Closing mid-market price- 468.75p per share.	26,101	49,342
11/01/04	9,287			29,590	55,936

¹ The reporting requirements contained in the September 2004 Order replaced the reporting requirements imposed in the Commission's Order dated January 16, 2002, Holding Company Act Release No. 27490 (the "January 2002 Order") and in the Commission's Order dated October 16, 2002, Holding Company Act Release No. 27577 (the "October 2002 Order").

Shares of common stock issuable by National Grid Transco during the reporting period:

During the reporting period options were granted over 2,915,057 National Grid Transco Shares at 383p first exercisable April 01, 2008, and 1,850,394 National Grid Transco shares at 383p first exercisable April 01, 2010.

Shares of common stock issued by National Grid Transco during the Authorization Period:

This is the same as for the reporting period; please see above.

Shares of common stock issuable by National Grid Transco during the Authorization Period:

This is the same as for the reporting period; please see above.

Reporting Requirement No. 3: If National Grid Transco common stock has been transferred to a seller of securities of a company being acquired, the number of shares so issued, the value per share and whether the shares are restricted in the hands of the acquirer.

Response:

During the reporting period no National Grid Transco common stock has been transferred to a seller of securities of a company being acquired.

Reporting Requirement No. 4: The amount of guarantees issued during the reporting period by National Grid Transco, the name of the beneficiary of the guarantee and the terms and purpose of the guarantee.

Response:

National Grid Transco issued a guarantee dated March 15, 2005 in respect of the National Grid Company plc's creditors as at March 24, 2005 (being the effective date of a reduction of NGC's share capital). This guarantee is up to the total amount of the reduction of capital of GBP 788,698,074 (USD 1,490,954,839). The reduction of capital was implemented to allow National Grid Transco to refinance intra-group liabilities.

Reporting Requirement No. 5: The amount and terms of any National Grid Transco indebtedness issued during the reporting period which shall also separately show the amount of indebtedness issued during the Authorization Period.

Response:

National Grid Transco indebtedness issued during the reporting period:

National Grid Transco indebtedness issued during the Authorization Period:

This is the same as for the reporting period; please see above.

==============

Reporting Requirement No. 6: National Grid Transco's "aggregate investment"¹, as defined under Rule 53, in FUCOs as of the end of the reporting period in dollars and as a percentage of National Grid Transco's consolidated retained earnings, a calculation of the amount remaining under the FUCO investment authorization, and a description of FUCO investments during the reporting period.

Response:

National Grid Transco has no investments in EWGs and its aggregate investment, as defined under Rule 53, in FUCOs as of the end of the reporting period is as follows:

- A. As of March 31, 2005, National Grid Transco's consolidated retained earnings calculated in accordance with US GAAP were GBP 3,377 million (USD 6,383 million) excluding Other Comprehensive loss (OCL) of GBP (1,218) million (USD (2,302 million). Retained earnings, combined with OCL were GBP 2,159 million (USD 4,081 million).
- B. National Grid Transco's aggregate investment, as defined in Rule 53, in FUCOs as of March 31, 2005 was GBP 12,149 million (USD 22,962 million).
- C. National Grid Transco's aggregate investment in FUCOs as a percentage of its consolidated retained earnings was 360% as of March 31, 2005. Under the Order of the Commission dated March 9, 2005 (Release No. 35-27950), National Grid Transco was authorized to invest up to USD 36.143 billion in FUCOs. National Grid Transco had USD 13.181 billion of unused FUCO investment authority based on the aggregate investment as of the end of the reporting period.
- D. The change in National Grid Transco's aggregate investment in FUCOs reflects movements in guarantees and intercompany loans. Otherwise, no major FUCO investments were made during the reporting period. National Grid Holdings One plc owns both National Grid Holdings Limited and Lattice Group plc, each a FUCO. As of the end of the prior reporting period, using a conversion ratio at that time of 1 GBP to 1.80 USD, National Grid Transco's aggregate investment, as defined in Rule 53, in FUCOs was GBP 10,635 million (USD 19,143 million).

¹In conformance with Rule 53, the aggregate investment calculation does not include loans that are solely between companies in the FUCO group for which there is no direct or indirect recourse to National Grid Transco plc. Previous filings of this report did include such loans from National Grid Holdings One plc in the calculation of the aggregate investment for Lattice Group plc and National Grid Holdings Limited.

Reporting Requirement No. 7: A list showing the current "aggregate investment" under Rule 53, for each FUCO owned.

Response:

National Grid Transco holds all of its FUCO investments under one holding company, National Grid Holdings One plc ("NGH One"), which is a FUCO. NGH One owns Lattice Group plc and National Grid Holdings Limited, each a FUCO.

The current "aggregate investment" under Rule 53 for National Grid Holdings One plc as of March 31, 2005 was GBP 12,149 million (USD 22,962 million).

The current "aggregate investment" under Rule 53 for Lattice Group plc as of March 31, 2005 was GBP 9,577 million (USD 18,100 million).

The current "aggregate investment" under Rule 53 for National Grid Holdings Limited as of March 31, 2005 was GBP 3,456 million (USD 6,533 million).

¹In conformance with Rule 53, the aggregate investment calculation does not include loans that are solely between companies in the FUCO group for which there is no direct or indirect recourse to National Grid

Transco plc. Previous filings of this report did include such loans from National Grid Holdings One plc in the calculation of the aggregate investment for Lattice Group plc and National Grid Holdings Limited.

Reporting Requirement No. 8: The ratio of investment in FUCOs to National Grid Transco's total consolidated capitalization, the market to book ratio of National Grid Transco's common stock, and an analysis of the growth in consolidated retained earnings, segregating total earnings growth attributable to FUCO investments from that attributable to other businesses of National Grid Transco.

Response (in millions):

- A. The ratio of investment in FUCOs to National Grid Transco's total consolidated capitalization as of March 31, 2005 was 48%.
- B. The market to book ratio of National Grid Transco's common stock as of March 31, 2005 was 1.4.
- C. National Grid Transco's consolidated earnings under US GAAP for the reporting period was GBP 1,304 million (USD 2,438 million). This excludes other comprehensive income under US GAAP for the reporting period of GBP 64 million (USD 120 million). Consolidated retained earnings under US GAAP were reduced during the reporting period by dividends of GBP 628 million (USD 1,174 million).

National Grid Holdings One plc consolidated earnings under US GAAP as of March 31, 2005 was GBP 1,013 million (USD 1,894 million). There was no other comprehensive income under US GAAP for the reporting period. Consolidated retained earnings were reduced by dividends of GBP 650 million (USD 1,216 million) paid by National Grid Holdings One plc to National Grid Transco during the reporting period.

As described in more detail in the full year results of National Grid Transco filed on Form on 20-F on June 15, 2005, National Grid Transco's consolidated earnings, under UK GAAP, for the year ended March 21, 2005 before exceptional items and goodwill amortisation were £1,106m (\$2,068m) on revenue of £8,521m (\$15,934m).

Underlying operating profit on a UK GAAP basis from UK electricity and gas transmission was up 7% at £809m (\$1,513m) compared with £759m (\$1,419m) last year. This reflected the beneficial timing impacts from the connections charging reform ("Plugs") of £54m (\$101m) and the collection of the under-recovery of electricity transmission owner revenue of £26m (\$49m). These increases were partially offset by pension deficit charges, higher by £11m (\$21m), and incentive profits, lower by £16m (\$30m), against the backdrop of tougher regulatory targets in both the electricity and gas system operator incentive schemes. Transmission operator controllable costs, which exclude increases in ongoing pension costs, were reduced by 1% in real terms during the year.

Underlying operating profit on a UK GAAP basis from UK gas distribution was down £146m (\$273m) at £570m (\$1,066m) compared with £716m (\$1,339m) last year. Formula income declined £53m (\$99m), primarily from reduced transportation prices, due to the timing of allowed revenue recoveries, exacerbated by a very mild winter. Revenues would have been some £70m (\$131m)

higher if seasonal normal temperatures had occurred. The planned increase of replacement expenditure (repex), which is fully expensed, was £86m (\$161m). The remainder of the year-on-year variance was due to a £17m (\$32m) increase in charges relating to gas commodity prices and a reduction in pension costs of £9m (\$17m) primarily due to deficit charges.

The UK electricity and gas transmission business and the UK gas distribution business are both owned indirectly by National Grid Holdings One plc, which is a FUCO.

In the US, underlying operating profit on a UK GAAP basis from US electricity transmission was up $\mathfrak{L}4m$ (\$7m) to $\mathfrak{L}123m$ (\$230m) on a constant currency basis. This was primarily due to reduced costs.

The performance of US electricity and gas distribution was particularly strong. Underlying operating profit on a UK GAAP basis was up 15% at £374m (\$699m) on a constant currency basis compared with £325m (\$608m) last year.

Electricity delivery volumes increased 0.5% compared to the prior year. On a weather adjusted basis, total electricity delivery volumes increased by 1.4% and by 1.7% in the important domestic sales category, adding £17m (\$32m) to underlying operating profit on a UK GAAP basis. The year-on-year weather effect reduced underlying operating profit on a UK GAAP basis by some £9m (\$17m), primarily due to a cooler than normal summer.

US controllable costs, on a US GAAP basis, have been reduced by 20% in real terms since 2001/02, including a £35m (\$65m) reduction since last year, due primarily to staffing reductions and the improved management of bad debts.

Underlying operating profit on a UK GAAP basis for the Group's Wireless Infrastructure business was up £40m (\$75m) at £46m (\$86m) due to the acquisition of the UK operations of Crown Castle International Corp. on August 31, 2004. The business is performing in line with the Group's expectations and the integration with the Group's existing business, Gridcom UK, is on schedule.

Underlying operating profit on a UK GAAP basis from the Group's Other activities (including joint ventures), was up £66m (\$123m) at £169m (\$316m) compared with £103m (\$193m) last year. This reflects increased property stock sales by SecondSite, the elimination of losses at Fulcrum Connections and items relating to insurance. These were only partially offset by the expected impact of lower prices charged by the Group's Metering business under new contracts signed with its gas supply customers.

Under US GAAP, National Grid Transco revenues in the year ended March 31, 2005 were £8,534m (\$15,959m) and net income was £1,304m (\$2,438m). Operating profit for UK electricity and gas transmission and UK gas distribution was £711m (\$1,330m) and £712m (\$1,331m).

Reporting Requirement No. 9: A statement of revenues and net income for each FUCO for the twelve months ending as of the end of the reporting period.

Response:

A. The consolidated revenue under US GAAP for National Grid Holdings One plc for the year ended March 31, 2005 was GBP 4,752 million (USD 8,886 million).

The consolidated revenue under US GAAP for National Grid Holdings Limited for the year ended March 31, 2005 was GBP 1,423 million (USD 2,690 million).

The consolidated revenue under US GAAP for Lattice Group plc for the year ended March 31, 2005 was GBP 3,183 million (USD 6,016 million).

B. The consolidated net income under US GAAP for National Grid Holdings One plc for the year ended March 31, 2005 was GBP 1,013 million (USD 1,894 million).

The consolidated net income under US GAAP for National Grid Holdings Limited for the year ended March 31, 2005 was GBP 502 million (USD 939 million).

The consolidated net income under US GAAP for Lattice Group plc for the year ended March 31, 2005 was GBP 486 million (USD 909 million).

Reporting Requirement No. 10: A list of the securities issued by the Intermediate Companies during the reporting period, including principal amount, interest rate, term, number of shares and aggregate proceeds, as applicable, with the acquiring company identified and a brief explanation of the procedure followed to determine the market rate of interest charged, as applicable.

Response:

4 Ltd	Group Plc	169,250,860	.5%	Demand	2,770,455,258	5,237,268,620

Note: The rates of Libor \pm 0.5% are directly comparable to National Grid Transco's own cost of external bank facilities of Libor \pm 0.425%. This rate has been adjusted slightly to reflect that the loans are to Intermediate Companies whose credit strength is less than the parent National Grid Transco.

Reporting Requirement No. 11: The amount and terms of any short-term debt issued by any Utility Subsidiary, and a list of the deposit or withdrawal balance by company participating in the money pool as of the end of the reporting period.

Response:

The table below lists short term debt issued by Utility Subsidiaries during the reporting period, with the exception of money pool borrowings which are reported on a net balance basis in the immediately following table.

Issuing Company	Acquiring Company	Initial Principal	Interest Rate	Installment Date	Term of Loan	GBP Balance at 03/31/05	USD Balance at 03/31/05
Niagara Mohawk Power Corp.	Niagara Mohawk Holdings Inc.	USD 13,000,000	1.93%	November 1, 2004	Demand	0	0

National Grid USA Service Company, Inc.	13,950,000	
Total	733,600,000	733,600,000

¹The following companies are also authorized to participate in the Money Pool, but did not participate during the reporting period: AEMC, L.L.C., Metrowest Realty LLC, NEES Communications, Inc., NEES Energy, Inc., NEES Telecommunications Corp., New England Energy Incorporated, New England Hydro Finance Company, Inc., Wayfinder Group, Inc., GridAmerica Holdings Inc., and GridAmerica LLC.

Reporting Requirement No. 12: A retained earnings analysis of each company in the National Grid USA Group, detailing Gross Earnings (as that term is defined in the Commission's Order dated March 15, 2000, Holding Co. Act Release No. 27154) or income available for dividends, dividends paid out of each capital account, and the resulting capital account balances at the end of the reporting period.

Response:

Please see Exhibit A-1 attached hereto.	Please see	Fyhihit	∆-1 attached	hereto
---	------------	---------	--------------	--------

Reporting Requirement No. 13: A table showing, as of the end of the reporting period, the dollar and percentage components of the capital structures of National Grid Transco, National Grid Holdings One plc ("NGH One"), each Intermediate Company, and each Utility Subsidiary.

Response:

For National Grid Transco, NGH One, and each Intermediate Company, please see Exhibit A-2 attached hereto.

For the Utility Subsidiaries, please see Exhibit A-3 attached hereto.

Reporting Requirement No. 14: A list of borrowings by National Grid USA Group companies from associated FUCOs, indicating at least three other sources of funds (with rates and terms) and

demonstrating how the Best Rate Method was applied to such borrowings.

Response:

There were no borrowings by National Grid USA Group companies from associated FUCOs during the reporting period.

Reporting Requirement No. 15: If any subsidiaries are Variable Interest Entities ("VIEs") as that term is used in FASB Interpretation 46R, Consolidation of Variable Interest Entities, National Grid Transco will provide a description of any financing transactions conducted during the reporting period that were used to fund such VIEs.

Response:

No subsidiaries of National Grid Transco are considered VIE's as the term is used in FASB interpretation 46R.

Reporting Requirement No. 16: If any financing proceeds are used for VIEs, a description of the accounting for such transaction under FASB Interpretation 46R.

Response:

No subsidiaries of National Grid Transco are considered VIE's as the term is used in FASB interpretation 46R.

Reporting Requirement No. 17: A list of U-6B-2 forms filed with the Commission during the reporting period, including the name of the filing entity and the date of filing.

Response:

The following U-6B-2s were filed with the Commission during the reporting period:

Massachusetts Electric Company filing on Form U-6B-2 dated December 17, 2004 in connection with issuance of \$40,000,000 of long-term tax exempt debt through the Massachusetts Development Finance Agency.

Nantucket Electric Company and Massachusetts Electric Company filing on Form U-6B-2 dated December 20, 2004 in connection with issuance of \$12,775,000 of long-term tax exempt debt through the Massachusetts Development Finance Agency.

SIGNATURE

Pursuant to the requirements of the Public Utility Holding Company Act of 1935, the undersigned company has duly caused this certificate of notification (Commission's File No 70-10236) to be signed on its behalf by the undersigned thereunto duly authorized.

¹Certain of National Grid USA's direct and indirect subsidiaries are either inactive, in the process of being dissolved, or had minor activity in the reporting period; this Exhibit does not list such National Grid USA direct or indirect subsidiaries which represent, in aggregate, less than 0.5% of the total equity or less than .02% of the total net income of National Grid USA Consolidated.

² New England Power Company owns minority equity investments in the following entities not listed above: Connecticut Yankee Atomic Power Co., Maine Yankee Atomic Power Co., and Yankee Atomic Electric Co.

³On June 20, 2005, management of New England Power Company concluded that New England Power Company had understated net income for the fiscal years ended March 31, 2002, 2003 and 2004 and overstated net income for the fiscal quarter ended December 31, 2004 (see New England Power Company's Current Report on Form 8-K filed June 24, 2005). The financial statements from these periods, including quarterly financial data from fiscal 2005, will be restated in New England Power Company's Form 10-K for Fiscal year ended March 31, 2005. The amounts reported here are unaudited; audited amounts will be provided in New England Power Company's Form 10-K for fiscal year ended March 31, 2005.

⁴ As reflected in the Commission's Order Dated May 6, 2005 (Release No. 35-27966), National Grid Transco plc is seeking to complete divestiture or dissolution of NM Properties, Inc., its subsidiaries, and their investments and their businesses, by December 31, 2008.
