A brief discussion of the firm's business segments follows:

#### CAPITAL MARKETS

##### Fourth Quarter

Capital Markets net revenues for the fourth quarter of 2004 were a record \$1.43 billion, up 22.6% from \$1.17 billion for the fourth quarter ended November 30, 2003.

- o Institutional Equities net revenues were \$295.3 million, up 10.9% from \$266.3 million for the fourth quarter of 2003. Institutional Equities revenues increased on market-share gains in U.S. listed securities and greater risk arbitrage activity. In addition, the consolidation in the first quarter of 2004 of Bear Wagner Specialists, LLC, our majority owned NYSE specialist firm, resulted in net revenues increasing by approximately \$40 million over the comparable 2003 period. Partially offsetting these increases were reduced convertible arbitrage and equity derivatives revenues reflecting lower market volatility levels.
- o Fixed income net revenues were \$675.2 million, up 4.1% from \$648.9 million in the comparable prior year period. Mortgage revenues rose reflecting

## Edgar Filing: BEAR STEARNS COMPANIES INC - Form 8-K

market share gains in the agency CMO sector and significantly increased origination volume of adjustable rate mortgages. Active customer order flow served to increase net revenues from secondary activities. In addition interest rate derivatives increased reflecting continued growth in market share and customer activity.

- o Investment Banking net revenues were \$458.7 million in the fourth quarter of 2004, up 83.3% from the \$250.3 million in the comparable prior year period. Merchant Banking net revenues totaled \$199.9 million in the 2004 fourth quarter including \$160 million in realized and unrealized gains from merchant banking investments including the initial public offering of New York & Company (NYSE:NWY). The fourth quarter of 2003 included a \$33.7 million realized gain from the sale of a merchant banking investment in Aeropostale, Inc. (NYSE:ARO). Excluding these gains on investments, Investment Banking net revenues increased 37.9% over the fourth quarter of 2003 due to significantly higher advisory, merger and acquisition and merchant banking net revenues.

### Full Year

Net revenues in Capital Markets, which include Institutional Equities, Fixed Income and Investment Banking, were a record \$5.35 billion for the fiscal year ended November 30, 2004, an increase of 11.1% over the record \$4.82 billion revenue reported for fiscal 2003.

- o Institutional Equities net revenues for fiscal year 2004 were up 16.2% to \$1.08 billion from \$932.6 million in fiscal 2003. Increased net revenues from domestic and international equity sales and trading, stronger risk arbitrage results and the consolidation of the specialist business offset difficult market conditions in the equity derivatives and convertible arbitrage areas.
- o Fixed Income net revenues were \$3.09 billion, up 5.8% from the \$2.93 billion recorded in 2003. The Fixed Income Division reported record results for the fourth consecutive year, once again highlighting the strength and diversity of that franchise. Solid growth in the mortgage-backed securities, leveraged finance, foreign exchange and interest rate derivative areas drove increased revenues.
- o Investment Banking also reported record net revenues of \$1.18 billion for 2004, up 22.3% from \$961.3 million in the prior fiscal year. The record net revenue performance was driven by higher advisory, merger and acquisition and merchant banking net revenues.

### GLOBAL CLEARING SERVICES

#### Fourth Quarter

Fourth quarter 2004 Global Clearing Services net revenues were \$254.4 million, up 15.6% from \$220.0 million in the fourth quarter of 2003, reflecting increased net interest revenues. Net interest revenue increased due to higher margin debt and customer short balances and improved net interest margins. Average customer margin debt balances for the quarter ended November 30, 2004 were \$52.0 billion, up from \$42.2 billion in the prior year quarter. Customer short balances averaged \$78.2 billion during the fourth quarter of 2004 up from \$70.1 billion in prior year period.

#### Full Year

Net revenues in Global Clearing Services were \$910.1 million, up 16.1% from \$784.1 million in fiscal 2003. Net interest revenues increased due to higher levels of customer margin debt, free credit, stock borrow and customer short balances. Average customer margin debt balances for the year were \$48.0 billion, versus \$40.3 billion for the year ended November 30, 2003. Customer short balances averaged \$76.3 billion during the 2004 year up from \$64.3 billion in fiscal 2003.

- o Asset Management net revenues grew 19.4% to \$47.6 million for the fourth quarter of 2004 from \$39.9 million in the prior year quarter due to increased management and performance fees resulting from the growth in assets under management.

### Full Year

Wealth Management net revenues were \$626.3 million for fiscal 2004, up 22.5% versus \$511.3 million in fiscal 2003.

- o Revenues from the Private Client Service area rose 16.5% to \$441.2 million for the fiscal year from \$378.8 million for fiscal 2003. The improvement reflects an increase in commissions and net interest, and the growing contribution from fee based assets.
- o The Asset Management business reported record net revenues of \$185.1 million for the full fiscal year 2004 up 39.7% from \$132.5 million in the prior year due to the growth in assets under management, higher management and performance fees and a one time gain on the sale of mutual fund assets to The Dreyfus Corporation of approximately \$21.5 million.
- o Assets under management rose to \$34.9 billion as of November 30, 2004 from \$27.1 billion as of November 30, 2003. The significant increase in assets under management is due in part to the acquisition in the fourth quarter of 2004 of the fixed income assets of TimesSquare Capital Management, Inc.

## EXPENSES

### Fourth Quarter

- o Compensation as a percentage of net revenues was 43.8% in the fourth quarter of 2004 compared with 48.9% for the quarter ended November 30, 2003.
- o Non-compensation expenses were \$491.2 million for the quarter ended November 30, 2004, up 42.1% from \$345.6 million in the 2003 quarter. Non-compensation expenses as a percentage of net revenues increased to 26.9% for the 2004 fourth quarter from 22.6% for the fourth quarter of 2003. Professional fees increased 66.6% to \$65.4 million from \$39.2 million due to an increase in employment agency fees, consulting fees and professional legal fees. Other expenses were \$207.7 million for the fourth quarter, an increase of 88.9% from \$109.9 million in the same 2003 quarter, due primarily to an increase in the company's litigation reserves.

During the 2004 fourth quarter, the company increased its litigation reserves to reflect management's current assessment of the appropriate reserve level for previously disclosed matters, including the investigations into mutual fund trading. It is possible that the ultimate outcome of these matters may differ from the company's current assessment. The company and its subsidiaries are continuing to cooperate with all regulatory and law enforcement agencies in connection with these matters.
