INFORMATION ABOUT THE ANNUAL SHAREHOLDERS MEETING

Introduction

This proxy statement is furnished in connection with the solicitation of proxies by the board of directors of The Laclede Group for use at the annual meeting of its shareholders to be held on January 24, 2002 and at any adjournment or postponement thereof. The meeting will be held at the Marriott Pavilion Hotel, One Broadway, St. Louis, Missouri at 10:00 a.m. The Laclede Group Annual Report for 2001 is being mailed to shareholders with this proxy statement beginning on or about December 26, 2001.

Effective October 1, 2001, The Laclede Group became the parent company of Laclede Gas Company. Accordingly, to the extent information in this proxy statement relates to the fiscal year ended September 30, 2001, that information is reported for Laclede Gas Company, and not The Laclede Group.

Annual meeting admission

If you are a shareholder of record, you may attend the annual meeting by checking in with The Laclede Group representatives at the desk outside the meeting room. If your shares are held in the name of a bank, broker or other holder of record and you plan to attend the meeting, you must show proof of ownership of The Laclede Group common stock at the desk.

Edgar Filing: LACLEDE GROUP INC - Form DEF 14A

As of that date there were 18,877,987 shares of The Laclede Group common stock outstanding. You are entitled to one vote for each share owned of record on that date.

How you can vote

Your vote is very important. There are three convenient voting methods:

Voting by Telephone. You can vote your shares by telephone by calling the toll free telephone number on your proxy card. Telephone voting is available 24 hours a day. If you vote by telephone, you should not return your proxy card.

1

If you hold your shares through a broker, bank or other holder of record, please follow their directions for providing voting instructions.

How you may revoke or change your vote

You can revoke your proxy at any time before it is voted at the meeting by:

sending written notice of revocation to the corporate secretary.

submitting another timely proxy by telephone, Internet or paper ballot.

attending the annual meeting and voting in person. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy executed in your favor from the holder of record to be able to vote at the meeting.

Other voting matters

All shares that have been properly voted and not revoked will be voted at the annual meeting in accordance with your instructions. If you sign your proxy card but do not give voting instructions, the shares represented by that proxy will be voted by those named in the proxy card as recommended by the board of directors.

If any other matters are properly presented at the annual meeting for consideration, the persons named in the enclosed proxy card will have the discretion to vote on those matters for you. As of the date this proxy statement was printed, we do not know of any other matter to be raised at the annual meeting.

How votes are counted

Each share of common stock represents one vote. As provided in The Laclede Group bylaws, a majority of the shares entitled to vote at the annual meeting, present in person or represented by proxy, will constitute a quorum for the meeting.

The three director nominees receiving the greatest number of votes will be elected;

The proposal to ratify the appointment of independent public accountants must receive the affirmative vote of a majority of the shares of The Laclede Group common stock voted on the proposal;

Abstentions and broker non-votes will be counted in determining a quorum for the meeting;

Shares withheld and broker non-votes will have no effect on the election of directors;

Abstentions as to the ratification of the appointment of independent public accountants will have the same effect as votes against these matters; and

Broker non-votes will have no effect on the ratification of the appointment of independent public accountants.

Adjournments

We currently expect to take votes and close the polls on all proposals on the scheduled date of the annual meeting. However, we may:

Keep the polls open to facilitate additional proxy solicitation with regard to any or all proposals; or

Allow the inspectors of the election to count and report on the votes that have been cast after the polls have closed.

If any of the above occurs, we could propose one or more adjournments of the annual meeting. For any adjournment to be approved, the votes cast in favor of it must represent a majority of the total number of votes cast by the holders of stock present at the meeting in person or represented by proxy.

Proxies that we have solicited will be voted in favor of any adjournment that we propose but will not be considered a direction to vote for any adjournment proposed by anyone else. If any adjournment is properly proposed at the meeting on behalf of anyone else, the persons named as proxies, acting in that capacity, will have the discretion to vote on the adjournment in accordance with their best judgment.

Section 16(a) beneficial ownership reporting compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers to file reports of holdings and transactions in The Laclede Group shares with the SEC and the New York Stock Exchange. As previously noted, The Laclede Group first became the holding company for Laclede Gas Company on October 1, 2001. Based on the records and information of Laclede Gas, we believe that in all respects during fiscal year 2001 our directors and executive officers met all applicable SEC reporting requirements.

Incentive Compensation Plan

The following table discloses certain information about the incentive compensation plan, which is considered a type of long-term incentive plan under the proxy disclosure rules of the SEC.

Long Term Incentive Plans -- Awards in Last Fiscal Year

Name	Number of Units	Period Until Maturation (1)
Douglas H. Yaeger	7,465	5 years
Kenneth J. Neises	5,000	4 years
Gerald T. McNeive, Jr.	4,000	4 years

- (1) Prior to January 26, 1995, dividend equivalents (equal to the cash dividend paid on each share of common stock) were paid on each of the share units to the participant until his or her death, and thereafter to a surviving spouse, if any, for life. Effective for awards of share units made on and after January 26, 1995, no post-retirement dividend equivalents and no post-retirement deferred compensation amounts shall be paid to a participant who retires before attaining the age of 65 (other than by reason of death or disability or following a hostile change of control) unless the participant remains employed for at least the following respective periods (based on the participant's age at the date of the award of the share units) subsequent to the date upon which the share units are awarded:

Age At Date of Award	Number of Years of Service Required Following the Date of Such Award
-----------------------------	---

Edgar Filing: LACLEDE GROUP INC - Form DEF 14A

<u>Age At Date of Award</u>	<u>Number of Years of Service Required Following the Date of Such Award</u>
61 and older	2
55-60	4
54 and under	5

The amount of dividend equivalents paid to any named executive during the last fiscal year is disclosed in the LTIP Payouts column in the Summary Compensation Table.

Each year, a credit or debit is made of an amount (deferred compensation amount) to each share unit outstanding at the end of a fiscal year equal, subject to certain adjustments, to the per common share net increase or decrease in consolidated retained earnings for that fiscal year. The aggregate of annual deferred compensation amounts are payable in ten equal annual installments to the participant or, if no longer living, his or her designated beneficiaries or estate beginning on the fifth month following the month in which the earlier of the following occurs: retirement, death, disability or the participant's election to terminate employment following a hostile change in control (as defined in the plan). No deferred compensation amounts accrue on share units held by a participant after the fiscal year in which his or her employment has terminated due to retirement, disability, death or the participant's election to terminate following a hostile change in control. Furthermore, if a participant's employment ceases other than by reason of retirement, disability, death or termination of employment following a hostile change in control, then all share units are forfeited and all future rights to deferred compensation amounts and dividend equivalents on account of such share units lapse. Similarly, if a participant retires before age 65 (other than by reason of death or disability or following a hostile change in control) without providing the required additional years of service as discussed in footnote 1 to the table above, then no post-retirement benefits will be payable to such participant for such share units.

During the fiscal year ended September 30, 2001, \$.27 was credited as a deferred compensation amount on account of each share unit. Interest accrues on the deferred compensation amounts on share units (for which the required additional years of service have been provided) only after the date of retirement, disability, death or election of recipient to terminate employment following a hostile change in control.

- (1) Average final compensation is the higher of: (a) the annual average of the highest 36 consecutive calendar months compensation for the participant's last 120 months of service; and (b) the annual average of the highest three consecutive calendar years' compensation for the participant's last ten calendar Years of Service. Compensation used for pension formula purposes is the type of compensation included as Salary in the Summary Compensation Table.

Benefits shown in the table (the calculation of which, in some cases, takes into account the portion of average final compensation in excess of Social Security covered compensation, and, in other cases, is calculated after the deduction of Social Security offset amounts) assume retirement at age 65, the years of service shown, continued existence of the current plans without substantial change and payment in the form of a single life annuity. Years of service as of September 30, 2001 for the persons named in the Summary Compensation Table are as follows: D. H. Yaeger, 10 years; R. E. Shively, 0 years; K. J. Neises, 17 years; G. T. McNeive, Jr., 15 years; and P. J. Palumbo, 10 years.

Other Plans

EXECUTIVE SALARY PROTECTION PLAN

This program provides that if a participating executive officer dies while an active employee, his or her beneficiaries will receive his or her annual salary for one year, and one-half of his or her annual salary for the next nine years or until the executive officer would have been 65 years old, whichever period is longer. When an executive officer dies after retiring, his or her beneficiaries will receive an amount equal to twice his or her annual salary if he or she dies prior to age 70, or one times his or her annual salary if he or she dies after age 70.

MANAGEMENT CONTINUITY PROTECTION PLAN

Under this plan, all officers enter into management continuity protection agreements with the Company, except Mr. Yaeger, whose management continuity protection agreement has been superseded by a severance benefits agreement described elsewhere herein. The agreements provide that if the officer's employment terminates for any reason (other than death, disability or for actions involving moral turpitude) within 42 months after a change in control, the officer will receive a non-discounted lump sum payment. The lump sum payment will be in an amount equal to the officer's average annual compensation for the five-year period preceding termination multiplied by 2.00. If the officer remains employed for more than six months after a change in control, the above benefit shall be reduced by one-thirty-sixth for each month beyond such six-month period. In no event, however, will the benefit be greater than the product of the officer's average monthly compensation for the five-year period preceding termination and the number of months remaining from such termination until the date the officer will reach the age of 65. The agreements expire upon the earlier of (a) the effective date of the officer's termination if prior to a change in control; or (b) 42 months after a change in control. Under the agreements, a change in control occurs when any person becomes a beneficial owner, directly or indirectly, of securities representing (a) more than 50 percent of the voting power of The Laclede Group outstanding securities or (b) at least 30 percent but not more than 50 percent of such securities and a majority of the outside members of the board of directors decides that a change in control has occurred.

DEFERRED INCOME PLAN AND DEFERRED INCOME PLAN II

Previously, Laclede Gas established the deferred income plan for: (i) non-employee directors and (ii) employee directors, officers and certain other employees who are deemed by the compensation committee of the board of directors to be key executives who contribute materially to the prosperity of Laclede Gas. The plan permitted deferral through April 30, 1990 for each of four consecutive years of up to 100% of fees and retainers for non-employee directors and up to 15% of salary (excluding incentive compensation) for other participants. Such deferrals, along with applicable income growth factors (at rates not to exceed the greater of (i) twelve percent per annum, and (ii) the annual corporate bond rates specified in Moody's Investors Service plus four percent per annum), form the basis for certain benefits payable to the participant upon retirement, death or permanent and total disability before retirement, or termination of a participant's status as a director or employee before age 55. The amount of such benefit depends on the type of triggering event, the amount deferred by a participant, the ages at which deferrals are made and the participant's age at the time of the triggering event. In the event a participant, following a change in control of The Laclede Group, terminates his or her status as a director or employee for good reason, or is terminated without cause, such participant is entitled to receive a lump sum benefit in the amount equal to the greater of: (i) the present value of the account balance under the deferred income plan to which the participant would be entitled if he or she had continued to make deferrals during the remainder of the annual deferral period and if he or she had terminated his or her status as a director or employee after reaching normal retirement age (for this purpose, age 70 for all directors, and age 65 for all other participants); or (ii) the amount of the participant's account balance.

Effective September 23, 1993, the board approved a separate deferred income plan II. Deferred income plan II provides that the board of directors may from time to time determine to open up the deferred income plan II to allow deferrals during one or more succeeding annual periods and to allow new participants in that deferred income plan. Participants were allowed to make deferrals during the 2001 calendar year and will also be allowed to make deferrals during the 2002 calendar year. During each deferral period, a non-employee director participant may defer up to 100% of fees and retainers and an employee participant may defer up to 15% of his or her annual salary (excluding incentive compensation). In addition, under deferred income plan II the minimum applicable income growth factor for deferrals on and after October 1, 1993 shall not exceed the greater of: (i) nine percent per annum; and (ii) the annual corporate bond rates specified in Moody's Investors Service plus three percent per annum.

The remainder of the terms of the deferred income plan II are similar to those of the original deferred income plan discussed above. Both of these plans were modified prior to the merger to prevent an inadvertent trigger of benefits through the holding company reorganization as well as to create a separate deferred income plan for the non-employee directors.

SEVERANCE BENEFITS AGREEMENT

In recognition of recent industry trends, Mr. Yaeger's age, years of service and his role in successfully leading the Company, the board of directors in July 2000 authorized the execution of a severance benefits agreement with Mr. Yaeger. Under this agreement, certain benefits are payable to Mr. Yaeger in the event (a) prior to a change in control he is terminated without cause or he resigns with good reason, (b) after a change in control the Company terminates him without cause or he terminates his employment for any reason or (c) of his death prior to his termination of employment. The agreement continues until March 31, 2004, unless extended by the parties. If a change in control occurs during the term of the agreement, the agreement remains in effect for the longer of (1) 54 months beyond the month in which the change in control occurred or (2) until all of the Company's obligations under the agreement have been fulfilled and all benefits paid to Mr. Yaeger. This agreement supersedes the management continuity protection plan and any other provision of any plan that is inconsistent with the agreement. In the event payments under the agreement would subject him to excise tax on excess parachute payments under the Internal Revenue Code, the Company will reimburse him for such excise tax (and the income tax and excise tax on such reimbursement).

The agreement restricts under certain circumstances Mr. Yaeger's ability to compete with the Company and to use confidential information concerning the Company. In the event of a dispute over his rights or benefits under the agreement, the Company will pay Mr. Yaeger's reasonable legal fees with respect to the dispute to the extent he prevails in such dispute.

Prior to a change in control, if the Company terminates Mr. Yaeger without cause or if he terminates his employment with the Company with good reason, he is entitled to receive certain benefits. These include: (1) a non-discounted lump sum payment equal to 18 times his then monthly base salary; (2) if he so elects within 90 days after his date of termination of

employment, a lump sum payment equal to the actuarially equivalent present value of the pension benefits under the employees retirement plan of Laclede Gas for management employees and the supplemental retirement benefit plan computed as if he had early or normal retirement benefits available under the plans, based on (a) early retirement age being deemed to be his actual age at the date of termination and (b) reduction by a discount factor of 1.4% per annum for each year (and pro rated for a partial year) his age is below 60, or if he does not so elect, he shall be paid on a periodic basis under the terms of the plans; (3) if he so elects within 90 days after the date of termination of employment, a lump sum payment of the actuarially equivalent present value of vested post-retirement benefits, using the dividend rate on the date of termination, under the incentive compensation plan treating all benefits vested prior to termination as remaining fully vested and treating all benefits not fully vested prior to termination but granted three or more years prior to termination as being fully vested, or if he does not so elect, he shall be paid on a periodic basis all benefits vested and deemed to be vested under the agreement and the plan; and (4) full retiree coverage under the health insurance plan and other welfare benefit plans as if he had retired as of the date of termination, which shall become secondary in the event he obtains a position at another entity with such coverage.

After a change in control, if the Company terminates Mr. Yaeger without cause or he terminates his employment for any reason, he will be entitled to receive certain benefits. These include: (1) a non-discounted lump sum payment equal to 36 times his then monthly base salary, reduced by 1/48th for each month, if any, beyond six full calendar months after the change in control that he remains employed by the Company or any successor thereof, or an affiliate of either such entity; (2) benefits similar to those described in clauses (2) and (4) in the immediately preceding paragraph, and (3) a benefit similar to that described in clause (3) in the immediately preceding paragraph except that all benefits under the plan will be treated as fully vested as of the date of termination.

At any time prior to a change in control Mr. Yaeger may terminate his employment without good reason, but he will not be entitled to any payments or benefits under this agreement but will only receive those severance payments or benefits to which he would normally be entitled. The Company may terminate him for cause before or after a change in control, and he will not be entitled to any benefits under this agreement but will only receive those severance payments or benefits to which he would normally be entitled. If Mr. Yaeger dies, the agreement terminates except as to any amounts which may have become payable as a result of termination before death and except as to the various benefit plans that by their terms continue after his death. In computing his death benefits under the plans, early retirement age shall be treated as his age upon death with a discount factor on benefits of 1.4% per annum (prorated for a partial year) for each year his actual age is below 60.

Notwithstanding anything to the contrary set forth in any of the Company's or Laclede Gas filings under the Securities Act of 1933, as amended, or the securities exchange act of 1934, as amended, that might incorporate this proxy statement, in whole or in part, the following Compensation Report Regarding Executive Compensation, the Performance Graph and the Audit Committee Report on pages 12-15 shall not be incorporated by reference into any such filings.

Compensation Committee Report Regarding Executive Compensation

The compensation committee of the board of directors (Committee) administers and determines Laclede Gas executive compensation program. After review and approval by the Committee, all material issues relating to executive compensation are submitted to the board for consideration and approval.

The philosophy of the Committee as it relates to executive compensation is that the chief executive officer (CEO) and other executive officers should be compensated at levels designed to attract, motivate, and retain talented executives who are capable of leading the Company in achieving its business objectives in an industry facing increasing complexity, competition, and change; to encourage and reward excellent performance; and to encourage individual growth as a part of the Company's management development program. Annual compensation for senior management consists of salary, and for certain key executives, a long-term incentive compensation plan.

Salary levels of Laclede Gas executives are reviewed and may be adjusted annually. Salaries are also increased to recognize promotions and assignment of increased responsibilities to Laclede Gas. In determining appropriate salaries, the Committee considers: (1) the CEO's recommendations as to compensation for all other executive officers; (2) the scope of responsibility,

Edgar Filing: LACLEDE GROUP INC - Form DEF 14A

experience, time in position, and individual performance for all officers including the CEO; (3) internal fairness and equity among positions held by each executive officer; (4) special factors such as each individual's willingness and ability to accept special assignments and responsibilities; (5) general cognizance of pay practices of major companies within the St. Louis region as well as within the utility industry generally relating to executives of comparable responsibility; and (6) corporate performance. Evaluation of corporate performance takes into account the significant effects which weather variations as well as other unusual events may have on Laclede Gas' earnings per share and other financial and operating results as compared to corporate budgeted levels. The Committee's analysis is a subjective process that utilizes no specific weighting or formula of the aforementioned factors in determining executives' base salaries.

Awards under Laclede Gas' long-term incentive compensation plan may be granted by Committee recommendation and board approval to the CEO and/or certain other key executives who have, in the judgment of the Committee, demonstrated their ability and who the Company seeks to retain in positions which can affect the long-term success of the Company, including both the establishment and execution of the Company's business strategies. Under this plan, upon the recommendation of the Committee, the board of directors, exclusive of any employee director who is eligible to participate in the plan, may award share units to these key executives. The executives are paid quarterly dividend equivalents on these share units at the same rate that dividends are paid to shareholders. Share units also have a deferred compensation component based on changes in Laclede Gas' retained earnings over the course of a year. Such deferred compensation is payable upon the executive's retirement. Current compensation under this plan is limited to 25% of the executive's current annual salary. Awards granted under this plan are intended to encourage the continued employment of these talented executives. Toward that end, this plan requires that an executive provide a certain number of additional years of service after the date of an award of share units in order for post-retirement dividend equivalents and deferred compensation amounts associated with that award to be paid. This plan provides compensation that is directly linked with earnings per share achievement, a critical factor in creating increased shareholder value. Determination of the number of new share units to award to a key executive is a subjective process that considers an individual's current salary level, the number of share units previously awarded, as well as expectations for the executive's performance relative to maintaining the long-term financial and operational integrity of Laclede Gas.

12

The compensation of executive officers was adjusted effective February 1, 2001.

Also, the board of directors, in recognition of the prior performance and the high level of responsibility of several of Laclede Gas' senior officers, awarded new share units to them, as set forth in greater detail elsewhere in this proxy statement. Such share unit awards are intended, among other things, to relate a portion of executive compensation more directly with the long-term interest of shareholders.

In determining the total compensation package of the CEO for 2001, the Committee considered all of the matters discussed above. The Committee also considered the attainment of corporate-wide budgeted goals, giving recognition to factors such as weather, interest rates and regulatory policies which can significantly impact operating results of gas utilities but are generally outside the control of management. Further, the Committee considered subjective factors related to individual performance and responsibility for the long-term strategic direction of Laclede Gas. Noted under Mr. Yaeger's leadership were: (1) the continued successful performance of Laclede Gas' gas supply incentive plan; (2) the timely negotiation of a new four year collective bargaining agreement; (3) obtaining the approval from the Missouri Public Service Commission for the issuance of up to \$350 million in debt and equity securities and the successful sale of \$30,000,000 principal amount of first mortgage bonds; (4) the execution of an agreement between Laclede Energy Resources, Inc., a subsidiary, and Utilicorp for the natural gas supply for one of Utilicorp's generating plants; and (5) the development of a long-term strategy and business planning process for the Company, including the process to form a holding company corporate structure. In January 2001, the board of directors, after considering the various factors and accomplishments described above, granted Mr. Yaeger an increase in base salary and also awarded him 7,465 additional share units under the incentive compensation plan.

Audit Committee Report

The primary function of the audit committee is oversight. Management of The Laclede Group, Inc. and Laclede Gas Company (collectively referred to as "Laclede") is responsible for the preparation, presentation and integrity of Laclede's financial statements. Management is also responsible for maintaining appropriate accounting and financial reporting practices and policies as well as internal controls and procedures designed to provide reasonable assurance that Laclede is in compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for planning and performing an independent audit of Laclede's financial statements in accordance with generally accepted accounting standards and to issue a report thereon. The audit committee is responsible for overseeing the conduct of these activities by Laclede's management and the independent auditors.

In this context, the audit committee has reviewed and discussed the audited financial statements for fiscal year 2001 with management and the independent auditors, Deloitte & Touche LLP. The committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees).

Deloitte & Touche LLP has provided the committee with the written disclosures and letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the committee discussed with the independent auditors that firm's independence.

Based on the reviews and discussions referred to above, the committee recommended to the board of directors that the audited financial statements referred to above be included in Laclede's Annual Report on Form 10-K for the year ended September 30, 2001.

Compensation of Directors

Retainer and Fees

Directors who are not employees of The Laclede Group receive a monthly retainer fee of \$1,500. Also, all directors receive a fee of \$1,000 for each board meeting attended personally, and \$500 for each board meeting attended via telephone conference call. Directors receive fees of \$500 for each committee meeting attended personally, and \$250 for each committee meeting attended via telephone conference call. Each chairman of a committee of the board received an additional \$1,000 annual fee. Similar fees and retainers applied to them in their roles as directors of Laclede Gas Company during fiscal year 2001, except that if both Boards met on the same date, they only received payment of one set of fees and monthly retainers.

Non-Employee Director Plans

A retirement plan exists for non-employee directors who are not entitled to benefits under the Laclede Gas qualified pension plan and who serve at least five years as a director or who die while serving as a director. Pursuant to this plan, the eligible director (the participant), or the participant's designated beneficiary, would, following the discontinuance of the participant's service as a director (or following the participant's attaining 65 years of age, if the participant is not at least 65 years old at the time of such discontinuance of service), receive an annual retirement payment amount equal to a percentage (the applicable percentage) of the annual board retainer fee at the time of such participant's discontinuance of service. The applicable percentage shall be 10% for each of the first ten years of service of such participant as a director. The annual payments to the retired participant shall continue until such participant's death, but if such participant shall die before receiving at least ten annual payments, then such participant's designated beneficiary shall, during such beneficiary's lifetime, receive the remainder of the first ten annual payments which the deceased participant would have received.

In 1990, Laclede Gas established the restricted stock plan for non-employee directors, the term of which has been extended. Under this Plan, a grant of 800 restricted shares will be made on the date a person first begins serving as a non-employee director. Each non-employee director will receive an additional grant of 200 non-vested and/or vested shares on the date of each subsequent annual meeting of shareholders for services rendered by such non-employee director during the preceding year. Although a non-employee director is entitled to vote and may receive the dividends on the restricted shares, the restricted shares are forfeitable until vested pursuant to a schedule based upon the non-employee director's years of participation in, and in some cases, age at time of entering, the plan. Under a trust agreement between Laclede Gas and UMB Bank, n.a., as trustee, shares granted pursuant to the plan are purchased on the open market by the trustee, and held in trust until vested in the non-employee director. In January 2001, Messrs. Holman, Maritz, and Nasser and Mrs. Van Lokeren each received a grant of 200 non-vested shares; and Dr. Givens received a grant of 100 vested and 100 non-vested shares; and Messrs. Craig and Stupp received a grant of 200 vested shares.

Compensation Committee Interlocks and Insider Participation

Mr. Jaudes serves as one of the five members of the compensation committee. As previously disclosed, he is the retired Chairman of the Board and Chief Executive Officer of Laclede Gas.
