Dear Shareholder

I am pleased to report that during the period covered by this report, your Fund continued to seek to meet its primary objective of providing attractive monthly income, while at the same time offering opportunities to reduce overall portfolio volatility. Detailed information on your Fund's performance can be found in the Portfolio Managers' Comments and Performance Overview sections of this report. I urge you to take the time to read them.

I also urge you to consider receiving future Fund reports and other information electronically via the Internet and e-mail rather than in hard copy. Not only will you be able to receive the information faster, but this also may help lower Fund expenses. Sign up is quick and easy - see the inside front cover of this report for detailed instructions.

In addition to providing you with tax-free income, your Nuveen Fund also features several characteristics that can help make it an essential part of your overall investment strategy. These include careful research, constant surveillance and judicious trading by Nuveen's seasoned portfolio management team, with every action designed to supplement income, improve Fund structure, better adapt to current market conditions or increase diversification. In uncertain markets like these, prudent investors understand the importance of diversification, balance, and risk management, all attributes your Nuveen Fund can bring to your portfolio.

For more than 100 years, Nuveen has specialized in offering quality investments such as these Nuveen Funds to those seeking to accumulate and preserve wealth. Our mission continues to be to assist you and your financial advisor by offering the investment services and products that can help you meet your financial objectives. We thank you for continuing to choose Nuveen Investments as a partner as you work toward that goal.

Nuveen New Jersey and Pennsylvania Municipal Closed-End Exchange-Traded Funds
(NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM, NVY)

Portfolio Managers' Comments

Portfolio managers Tom Spalding and Tom O'Shaughnessy review economic and market conditions, key strategies, and recent Fund performance. A 25-year veteran of Nuveen, Tom Spalding assumed portfolio management responsibility for NQJ, NNJ and NXJ in March 2001, and for NUJ upon its inception in 2002. Tom O'Shaughnessy, who has been with Nuveen since 1983, has managed NQP since 1991, NPY since 1995, NXM since its inception in 2001 and NVY since its inception in 2002.

WHAT FACTORS HAD THE GREATEST INFLUENCE ON THE U.S. ECONOMY AND THE MUNICIPAL MARKET DURING THIS REPORTING PERIOD?

The two major forces at work during the twelve months ended June 30, 2002, were the general slowdown in economic growth and the Federal Reserve's aggressive easing of short-term interest rates. In addition, the events of September 11, 2001, and the uncertain geopolitical climate that followed also impacted the economy and the markets.

In the municipal markets, the generally sluggish economic environment of the past twelve months helped many bonds perform well. In addition, the trend toward increased issuance remained strong. Looking at the first six months of 2002, Pennsylvania had an 18.9% growth in new issue supply when compared with the same period in 2001. New Jersey issuance also increased relative to 2001. On the demand side, municipal bonds continued to be highly sought after by individual investors looking for diversification, tax-free income and an alternative to a volatile stock market. Institutional investors, especially traditional purchasers such as property/ casualty insurance companies, also have been active buyers.

HOW WAS THE ECONOMIC AND MARKET ENVIRONMENT IN NEW JERSEY AND PENNSYLVANIA?

During the first half of 2002, New Jersey's economy matched the sluggish national picture. Overall, the state saw its unemployment number rise to 5.6% in June 2002 from 4.2% one year earlier. Many expect the New Jersey economy to begin a recovery in the last half of 2002, but some suggest that collection of income and sales taxes may continue to slow, and the state may experience a budget deficit for an indefinite period. While most observers like the state's longer term prospects, New Jersey's credit quality rating was lowered recently by Standard & Poor's to AA- from AA+.

Pennsylvania also has seen a slowdown in economic activity over the past year.

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-30D

Unemployment had reached 5.3% in June 2002, compared with 4.7% in 2001. Reduced manufacturing activity has had an impact on the retail and service sectors. While Pennsylvania's highly skilled workforce represents a strong base for future growth, aging demographics and a relatively low concentration of high-growth industries could limit Pennsylvania's prospects in the intermediate term.

HOW DID THE NUVEEN FUNDS FOR NEW JERSEY AND PENNSYLVANIA PERFORM OVER THE PAST TWELVE MONTHS?

For the fiscal year ended June 30, 2002, the four older Nuveen Closed-End Exchange-Traded Funds covered in this report produced total annual returns on Common share net asset value (NAV) as shown in the accompanying table. The annual returns for the Lehman Brothers Municipal Bond Index¹ and relevant Lipper Peer Groups² are also presented.

	MARKET YIELD	TOTAL RETURN ON NAV	LEHMAN TOTAL RETURN ¹	LIPPER AVERAGE ²
	6/30/02	TAXABLE- EQUIVALENT ³	1 YEAR ENDED 6/30/02	1 YEAR ENDED 6/30/02
NQJ	6.03%	9.21%	6.56%	6.92%
NNJ	5.65%	8.63%	7.91%	6.92%
NXJ	6.03%	9.21%	6.05%	6.92%
NUJ	6.10%	9.31%	--	--
NQP	6.01%	8.84%	7.34%	6.92%
NPY	6.13%	9.01%	8.88%	6.92%
NXM	5.92%	8.71%	9.67%	6.92%
NVY	6.23%	9.16%	--	--

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

¹ The Funds' performances are compared with that of the Lehman Brothers Municipal Bond Index, a national unleveraged index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.

² The total returns of the New Jersey Funds are compared with the average annualized return of the nine funds in the Lipper New Jersey Municipal Debt Funds category, while the total returns of Pennsylvania Funds are compared with the average annualized return of the ten funds in the Lipper Pennsylvania Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.

³ The taxable-equivalent yield represents the yield that must be earned on a

taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 30% plus the applicable state income tax rate. The combined federal and state tax rates used in this report are as follows: New Jersey 34.5% and Pennsylvania 32%.

2

Over the past twelve months, the Fed's policy to keep short-term interest rates relatively low, combined with generally favorable market conditions, created a positive total return environment for municipal bonds. This is reflected in the total returns on NAV listed in the previous table.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With the Fed keeping short-term interest rates relatively low, the dividend-paying capabilities of these Funds benefited from their use of leverage, a strategy that can potentially enhance the dividends paid to common shareholders. This benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. For example, low short-term rates can enable the Funds to reduce the amount of income they pay preferred shareholders, which can leave more earnings to support common share dividends.

During the fiscal year ended June 30, 2002, relatively low short-term interest rates enabled us to implement three dividend increases in NNJ, and to maintain the attractive monthly dividends in the other New Jersey Funds. Similarly, NPY had four dividend increases during the year, NXM had one, and the other two Pennsylvania Funds maintained their dividends. In coming months, the lower rates currently offered by municipal securities with shorter maturities may continue to benefit these Funds by keeping the amount paid to MuniPreferred shareholders relatively low. However, this could be offset to some degree by the effect of bond calls on higher-yielding securities, especially if refundings increase as the result of lower rates. The level of short-term rates, the number of bond calls, and the interest rates at which we can reinvest the proceeds of any calls will all influence the dividends of these Funds over the next twelve months.

Over the past year, as the markets remained volatile, the share prices of the New Jersey and Pennsylvania Funds all stayed relatively stable (see the charts on the individual Performance Overview pages). As of June 30, 2002, the share prices of four of these Funds were at slight premiums to their Common share net asset values and four were at slight discounts.

NUJ and NPY were both introduced in March 2002. Since then, they have each declared their first regular monthly dividend and each has traded well in the secondary market.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE FISCAL YEAR ENDED JUNE 30, 2002?

During this reporting period, we focused on two principal areas: enhancing the dividend-paying capabilities of the Funds and improving their diversification and call protection. With new issuance abundant, we looked for opportunities and tried to respond quickly when favorable situations developed.

Looking specifically at the New Jersey Funds, we found several attractive opportunities in the housing and healthcare sectors, as well as with certain insured general obligation bonds. Most of the immediate call exposure in these Funds has been eliminated, either by selling callable bonds or redeploying

assets from called bonds in other securities. The initial investing period for NUJ was completed during the reporting period, and we believe that Fund is well positioned to provide attractive dividends for shareholders in the months ahead.

The New Jersey Funds have some exposure to bonds issued by the Port Authority of New York and New Jersey, the owner of the World Trade Center. Many of these holdings were insured and, in general, have not impacted the Funds' performance. The Port Authority's financial strength and the diverse scope of its operations are helping to ease the financial burden precipitated by September 11.

3

In Pennsylvania, we took advantage of increased issuance in the state's municipal market to sell some bonds approaching call dates and reinvested the proceeds in credits that we believe improved the structure and diversification of the Funds. The ample supply of Pennsylvania bonds also ensured that we were able to complete the initial investing process for NVY. Overall, our focus was on the healthcare and housing sectors - two areas that we believed offered good values. There is a good deal of demand from individual investors for Pennsylvania municipal bonds, and in some instances we were able to take advantage of this by selling bonds at very favorable prices and investing the proceeds in other bonds that enhanced yield or improved structure.

We also were keeping a close eye on the duration⁴ of each Fund, to help make sure we retained the ability to move quickly in the event of an anticipated major shift in interest rates. We believe that in this market environment it is beneficial to maintain slightly shorter durations, which we think will help make the portfolios less sensitive to possible interest rate changes while still providing yields and returns that are competitive with longer duration funds.

In the current geopolitical climate, we believe that maintaining strong credit quality is a key requirement for all the Funds. All of the New Jersey and Pennsylvania Funds continue to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 60% to 90% as of June 30, 2002. All of the Funds also had a portion of their assets invested in BBB and/or non-rated bonds, which can serve to enhance the Funds' income streams.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE NUVEEN FUNDS IN PARTICULAR?

In general, our outlook for the fixed-income markets over the next twelve months remains positive. We believe the U.S. economy is headed for recovery, but one that may take longer and see a slower pace of growth than some are now predicting. We believe inflation and interest rates should remain relatively low over the near term, and that new municipal issuance should continue to be strong. We anticipate the demand for tax-exempt municipal bonds will remain firm as investors look for ways to rebalance their portfolios and reduce risk.

We plan to remain focused on strategies that add value for our shareholders, provide support for the Funds' dividends, and fully utilize Nuveen's experience and research expertise. As noted, shareholders may see these Funds' durations shorten modestly in the months ahead.

None of these Funds are facing an excessive amount of call exposure over the

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-30D

next 18-24 months. We expect we will be able to readily reinvest proceeds from calls that do occur in bonds that will help maintain strong credit quality and adequate diversification, as well as enhance overall Fund structure and strengthen future dividend paying capabilities.

Overall, we believe these Funds can continue to play an important role in investors' long-range financial programs, providing balance and diversification, dependable tax-free income, and a measure of stability in uncertain times. We believe the Funds currently are well positioned for the market environment ahead, and we will continue to closely monitor and respond to events as appropriate.

4 Duration is a measure of a fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. Unless otherwise noted, references to duration in this commentary are intended to indicate Fund duration.

BOND SURVEILLANCE -
A HIGH PRIORITY AT NUVEEN

The Enron scandal has raised numerous questions about the real value of American securities. Investors want to know what safeguards are in place to inspire their trust and ensure their holdings are dependable. The Nuveen Investor recently spoke with David Blair, Assistant Vice President and Senior Analyst at Nuveen, about the research and surveillance processes used for Nuveen funds.

HOW DO NUVEEN'S RESEARCH ANALYSTS EVALUATE BONDS PRIOR TO PURCHASE?

We evaluate factors impacting market sectors, issuers and specific bonds and assign credit ratings to bonds we consider for purchase. We seek to purchase bonds with stable and improving credit characteristics, which have attractive prices and yields relative to other bonds in their sectors.

HOW DO YOU CONDUCT YOUR RESEARCH?

We conduct detailed analyses that often involve site visits and discussions with managers of the projects being financed. Since Nuveen is a major investor with large buying power, issuers and project managers are willing to listen to us and respond to our concerns.

IS THE RESEARCH AND ANALYSIS PROCESS ANY DIFFERENT WHEN CONSIDERING HIGH-YIELD BONDS?

Up to 20 percent of some funds can be invested in below investment grade bonds to help the fund attain a higher yield. This underscores the need for research. If one of our 16 analysts believes a high-yield bond should be purchased, a second analyst reviews the issue as well.

HOW DO YOU MONITOR THE VARIOUS BONDS ONCE THEY'VE BEEN PURCHASED?

We have a proprietary database with information and analysis on the bonds Nuveen

holds in its funds. Among other things, we are able to evaluate risk exposure to sectors, issuers and specific bonds on an on-going basis.

HOW DOES THE RESEARCH DEPARTMENT COMMUNICATE THE INFORMATION GATHERED?

We conduct biweekly meetings within the research department and weekly meetings with portfolio managers. We also write-up our findings and distribute them with "buy," "hold" or "sell" recommendations to portfolio managers.

IS IT TIME TO RETHINK YOUR BOND STRATEGY?

Significant stock market losses in recent history have sent many investors toward bonds as a way to potentially cut their losses and balance equity-dominated portfolios. While many consider bonds a set-and-forget investment, there are several circumstances that might prompt you to reassess -- and perhaps revamp -- your bond holdings.

Tax bracket changes

The Economic Growth and Tax Relief Reconciliation Act of 2001 has dropped tax brackets a percentage point this year, but a higher salary, large bonus, sale of assets or retirement may push you into a higher tax bracket for 2002.

If you are in a higher tax bracket and want to generate an income stream without raising your tax burden, tax-free municipal bonds may be a prudent option. Even if you are in a lower tax bracket, municipal bonds could make sense. The question is whether municipal or taxable bonds will deliver a better taxable yield.

Retirement plans change

Whether you are near retirement or are currently enjoying it, you may want to consider rebalancing your retirement accounts with less stock and more bonds, to potentially reduce risk and try to preserve the assets that you have accumulated. If you are just entering retirement you may want to make tax-free municipal bonds a part of your portfolio to emphasize income generation and protection from taxation.

Risk tolerance changes

The recent market volatility and market downturn may have caused many investors to reevaluate their tolerance for risk. On the other hand, your portfolio might have performed well over the last few years and you may not need to take on extra risk to meet your long-term goals. In either situation you could take a look at your bond portfolio and determine whether you need to make changes to correspond with your tolerance for risk.

Portfolio changes

If you make significant changes to one or more of your investments, you'll want to look at your portfolio as a whole, particularly with regard to overall asset allocation. You may need to do some rebalancing to stay on track with your investment strategy.

Your financial advisor can help. Regardless of how your circumstances change, he or she can provide up-to-date information on the bond market and various funds to help you decide how to maximize your returns consistent with your short- and long-term financial goals.

No investment is risk free and some investments carry more risk than others. It is important to know what the risks are, to evaluate them against any potential rewards, and to determine your tolerance for risk when selecting an investment.

MANY INVESTORS CONTINUE
TO FIND SOLUTIONS WITH
PROFESSIONAL ADVICE

For many investors, current financial markets are confusing and frustrating. According to research conducted for the Forum for Investor Advice*, that's the number one reason many turn to a financial advisor. They want someone to suggest ideas and provide consultation, dialogue and professional advice.

Investors say their advisors are helpful in other key ways, including...

- o Saving time. After consultation, investors note that the second most important reason for using an advisor is to have someone else monitor their

portfolio, reducing the amount of time they spend on investing.

- o Help in sorting through information. Investors in the 21st century have more products from which to choose than in the past. For example, there are approximately 8,000 mutual funds today, up from 3,000 in 1990.
- o Assistance in setting financial goals. According to investors who use a financial advisor, they are more likely to have a plan for a specific financial goal than do-it-yourself investors.
- o Staying focused. Advisor-assisted investors are more likely than do-it-yourself investors to have developed a comprehensive investment program.
- o Peace of mind. Investors say their comfort level in all types of markets is higher when using an advisor for a "second opinion" on an investment decision.

*The survey of 324 investors was conducted in December of 2000 by Market Facts and analyzed by New York based Neuwirth Research. Of the 324, 166 said they had an ongoing relationship with a financial advisor, while 157 described themselves as do-it-yourselfers.

(continued from page 13)

HOW ARE PROBLEM BONDS IDENTIFIED AND HANDLED?

We conduct surveillance on our bonds on a regular basis to ensure, among other things, that deteriorating bonds are identified early. We then discuss any emerging problems and potential courses of action with the portfolio manager.

HOW MANY ISSUES DOES THE RESEARCH DEPARTMENT FOLLOW?

We follow 12 sectors and 1,500 uninsured bonds, worth about \$18 billion of Nuveen's \$45 billion in total municipal assets. The remaining \$27 billion in municipal assets are insured or escrowed (backed by Treasury bonds). For the insured bonds, we monitor closely on a regular basis the insurers guaranteeing the bonds.

Will research and surveillance change in light of problems with Enron securities?

Overall, our investment process and surveillance have worked well and been effective. However, we meet as a group on a regular basis and are constantly evaluating ways to improve the process to respond to issues and the market environment.

Notes to Financial Statements

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state Funds (the "Funds") covered in this report and their corresponding stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-30D

Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY). New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQJ) and Pennsylvania Premium Income (NPY) are traded on the New York Stock Exchange while New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the American Stock Exchange. Prior to the commencement of operations of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of The John Nuveen Company, and the recording of the organization expenses (\$15,000, \$11,500, \$15,000 and \$11,500, respectively) and their reimbursement by Nuveen Investments, also a wholly owned subsidiary of The John Nuveen Company.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state. The Funds are registered under the Investment Company Act of 1940 as closed-end management investment companies.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets in a separate account with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At June 30, 2002, New Jersey Investment Quality (NQJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Dividend Advantage (NXM) had outstanding when-issued and/or delayed delivery purchase commitments of \$5,012,535, \$3,872,436, \$3,312,865 and \$5,479,319, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and applicable state and local income taxes, to retain such tax-exempt status when distributed to the shareholders of the Funds. All monthly tax-exempt income dividends paid during the period ended June 30, 2002, have been designated Exempt Interest Dividends.

56

Dividends and Distributions to Shareholders

Tax-exempt net investment income is declared monthly as a dividend. Generally, payment is made or reinvestment is credited to shareholder accounts on the first business day after month-end. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of such distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, temporary over-distributions as a result of these differences may occur and will be classified as either distributions in excess of net investment income, distributions in excess of net realized gains and/or distributions in excess of net ordinary taxable income from investment transactions, where applicable.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set by the auction agent. The number of shares outstanding, by Series and in total, are as follows:

Total	5,280	4,724	1,000	1,140
=====				

Effective May 17, 2002, New Jersey Dividend Advantage 2 (NUJ) and Pennsylvania Dividend Advantage 2 (NVY) issued 1,380 Series W and 1,140 Series M, respectively, \$25,000 stated value Preferred shares.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the period ended June 30, 2002.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments has agreed to pay all offering costs (other than the sales load) that exceed \$.03 per Common share for New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY). New Jersey Dividend Advantage's (NXJ), New Jersey Dividend Advantage 2's (NUJ), Pennsylvania Dividend Advantage's (NXM) and Pennsylvania Dividend Advantage 2's (NVY) share of offering costs (\$196,200, \$135,000, \$98,667 and \$111,450, respectively) were recorded as a reduction of the proceeds from the sale of Common shares.

Costs incurred by New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) in connection with their offering of Preferred shares (\$636,500, \$462,374, \$390,750 and \$398,222, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

Change in Accounting Policy

As required, effective July 1, 2001, the following Funds have adopted the provisions of the new AICPA Audit and Accounting Guide for Investment Companies and began accreting taxable market discount on debt securities. Prior to July 1, 2001, the Funds did not accrete taxable market discount on debt securities until they were sold. The cumulative effect of this accounting change had no impact on the total net assets applicable to Common shares or the Common share net asset values of the Funds, but resulted in an increase in the cost of securities and a corresponding decrease in net unrealized appreciation based on securities held by the following Funds on July 1, 2001, as follows:

NEW JERSEY INVESTMENT QUALITY (NQJ)	NEW JERSEY PREMIUM INCOME (NNJ)	NEW JERSEY DIVIDEND ADVANTAGE (NXJ)	PENNSYLVANIA INVESTMENT QUALITY (NQP)	PENNSYLVANIA PREMIUM INCOME 2 (NPY)	PENNSYLVANIA DIVIDEND ADVANTAGE (NXM)
\$52,665	\$256,719	\$--	\$61,327	\$263,040	\$8,929

The Statement of Changes in Net Assets and Financial Highlights for the prior periods have not been restated to reflect this change in presentation.

The effect of this change for the fiscal year ended June 30, 2002, was to increase investment income with a corresponding decrease in net unrealized appreciation as follows:

NEW JERSEY INVESTMENT QUALITY (NQJ)	NEW JERSEY PREMIUM INCOME (NNJ)	NEW JERSEY DIVIDEND ADVANTAGE (NXJ)	PENNSYLVANIA INVESTMENT QUALITY (NQP)	PENNSYLVANIA PREMIUM INCOME 2 (NPY)	PENNSYLVANIA DIVIDEND ADVANTAGE (NXM)
\$7,508	\$35,192	\$2,628	\$42,575	\$144,424	\$45,427

Classification and Measurement of Redeemable Securities

The Funds have adopted the classification requirement of EITF D-98, Classification and Measurement of Redeemable Securities. EITFD-98 requires that Preferred shares, at liquidation value, be presented separately in the Statement of Assets and Liabilities. Accordingly, certain reclassifications have been made to the financial statements and financial highlights for all prior periods presented. The adoption of EITF D-98 had no impact on the Funds' Common share net asset values.

5. INCOME TAX INFORMATION

The following information is presented on an income tax basis as of June 30, 2002. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

Nuveen Closed-End Exchange-Traded Funds Dividend Reinvestment Plan

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexibility

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.
