(Unaudited) November 30, 2016

DEAR SHAREHOLDER

We thank you for your investment in the Guggenheim Strategic Opportunities Fund (the “Fund”). This report covers the Fund’s performance for the six-month period ended November 30, 2016.

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities or spreads between securities that deviate from their perceived fair value and/or historical norms. There is no guarantee that the perceived fair value will be achieved. The Fund’s sub-adviser seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies.

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2016, the Fund provided a total return based on market price of 15.76% and a total return based on NAV of 13.58%. NAV return includes the deduction of management fees, operating expenses, and all other Fund expenses.

As of November 30, 2016, the Fund’s market price of \$19.22 represented a premium of 2.56% to its NAV of \$18.74. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2016 through November 2016, the Fund paid a monthly distribution of \$0.1821. The latest distribution represents an annualized distribution rate of 11.37% based on the Fund’s closing market price of \$19.22 on November 30, 2016. The Fund’s distribution rate is not constant and the amount of distributions, when declared by the Fund’s Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(i) on page 50 for more information on distributions for the period.

Guggenheim Funds Investment Advisors, LLC (the “Adviser”) serves as the investment adviser to the Fund. Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) serves as the Fund’s investment sub-adviser and is responsible for the management of the Fund’s portfolio of investments. Each of the Adviser and the Sub-Adviser is an affiliate of Guggenheim Partners, LLC (“Guggenheim”), a global diversified financial services firm. We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 71 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund’s common shares is at a premium above NAV, the DRIP reinvests participants’ dividends in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time. Since the Fund endeavors to maintain a stable monthly distribution, the DRIP effectively provides an income averaging technique

(Unaudited) continued November 30, 2016

which causes shareholders to accumulate a larger number of Fund shares when the market price is depressed than when the price is higher.

To learn more about the Fund's performance and investment strategy, we encourage you to read the Questions & Answers section of this report, which begins on page 5. You'll find information on GPIM's investment philosophy, views on the economy and market environment, and detailed information about the factors that impacted the Fund's performance.

We appreciate your investment and look forward to serving your investment needs in the future. For the most up-to-date information on your investment, please visit the Fund's website at [guggenheiminvestments.com/gof](http://guggenheiminvestments.com/gof).

Sincerely,

Donald C. Cacciapaglia  
President and Chief Executive Officer  
Guggenheim Strategic Opportunities Fund  
December 31, 2016

4 | GOF | GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT

---

QUESTIONS & ANSWERS (Unaudited) November 30, 2016

Guggenheim Strategic Opportunities Fund (“Fund”) is managed by a team of seasoned professionals at Guggenheim Partners Investment Management, LLC (“GPIM”). This team includes B. Scott Miner, Chairman of Guggenheim Investments and Global Chief Investment Officer; Anne B. Walsh, CFA, JD, Senior Managing Director and Assistant Chief Investment Officer; James W. Michal, Senior Managing Director and Portfolio Manager; and Steven H. Brown, CFA, Managing Director and Portfolio Manager. In the following interview, the investment team discusses the market environment and the Fund’s performance for the six-month period ended November 30, 2016.

What is the Fund’s investment objective and how is it pursued?

The Fund seeks to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis to seek to identify securities or spreads between securities that deviate from their perceived fair value and/or historical norms. There is no guarantee that the perceived fair value of the Fund’s portfolio investments will be achieved.

GPIM seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies. The Fund seeks to achieve its investment objective by investing in a wide range of fixed-income and other debt and senior-equity securities (“Income Securities”) selected from a variety of credit qualities and sectors, including, but not limited to, corporate bonds, loans and loan participations, structured finance investments, U.S. government and agency securities, mezzanine and preferred securities and convertible securities, and in common stocks, limited liability company interests, trust certificates, and other equity investments (“Common Equity Securities,” exposure to which is obtained primarily by investing in exchange-traded funds, or ETFs) that GPIM believes offer attractive yield and/or capital appreciation potential, including employing a strategy of writing (selling) covered call and put options on such equities. GPIM believes the volatility of the Fund can be reduced by diversifying across a large number of sectors and securities, many of which historically have not been highly correlated to one another.

Under normal market conditions:

The Fund may invest without limitation in fixed-income securities rated below investment grade (commonly referred to as “junk bonds”); the Fund may invest in below-investment grade income securities of any rating;

The Fund may invest up to 20% of its total assets in non-U.S. dollar denominated fixed-income securities of corporate and governmental issuers located outside the U.S., including up to 10% of total assets in fixed-income securities of issuers located in emerging markets;

The Fund may invest up to 50% of its total assets in common equity securities, and the Fund may invest in exchange-traded funds (“ETFs”) or other investment funds that track equity market indices and/or through derivative instruments that replicate the economic characteristics of exposure to Common Equity Securities; and

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2016

The Fund may invest up to 30% of its total assets in investment funds that primarily hold (directly or indirectly) investments in which the Fund may invest directly, of which amount up to 30% of the Fund's total assets may be invested in investment funds that are registered as investment companies under the Investment Company Act of 1940 (the "1940 Act") to the extent permitted by applicable law and related interpretations of the staff of the U.S. Securities and Exchange Commission.

GPIM's process for determining whether to buy a security is a collaborative effort between various groups including: (i) economic research, which focus on key economic themes and trends, regional and country-specific analysis, and assessments of event-risk and policy impacts on asset prices, (ii) the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, (iii) its Sector Specialists, who are responsible for identifying investment opportunities in particular securities within these sectors, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities, and (iv) portfolio managers, who determine which securities best fit the Fund based on the Fund's investment objective and top-down sector allocations. In managing the Fund, GPIM uses a process for selecting securities for purchase and sale that is based on intensive credit research and involves extensive due diligence on each issuer, region and sector. GPIM also considers macroeconomic outlook and geopolitical issues.

The Fund uses financial leverage (borrowing and reverse repo) to finance the purchase of additional securities. Although financial leverage may create an opportunity for increased return for shareholders, it also results in additional risks and can magnify the effect of any losses. There is no assurance that the strategy will be successful. If income and gains earned on securities purchased with the financial leverage proceeds are greater than the cost of the financial leverage, common shareholders' return will be greater than if financial leverage had not been used. Conversely, if the income or gains from the securities purchased with the proceeds of financial leverage are less than the cost of the financial leverage, common shareholders' return will be less than if financial leverage had not been used.

What were the significant events affecting the economy and market environment over the past six months?

Behind the performance numbers for the past six months are a multitude of events that unfolded throughout 2016, including an increase in U.S. corporate default volume, several quarters of negative earnings growth, the British vote to exit the European Union, and stubbornly low inflation across the globe. That was on top of one of the worst selloffs for U.S. corporate bonds since the financial crisis in the first six weeks of the year, or that the S&P 500 was down almost 11%. We continue to believe that the turnaround in market performance was a result of global central bank easing.

The surprise end to the fractious U.S. election season leaves many questions unanswered about the new administration, but as it relates to the economy we are particularly alert to the possible market impact of resurgent fiscal policy. We will learn more as we move through the transition of power, but in the meantime several market positives should support asset performance in 2017. The domestic economy just turned in the highest growth rate in two years, early indications point to a strong Christmas selling season, corporate earnings have rebounded, and the energy sector is stabilizing with the oil market recovery.

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2016

U.S. real gross domestic product (GDP) grew by 3.2% in the third quarter, according to the second reading, up from 1.4% in the second quarter. We expect output to rise by around 2% on average in coming quarters, a bit faster than the trend rate over the past year, as drags from past dollar strength and an inventory adjustment cycle fade. The policy outlook has become more uncertain with the election, though early indications that fiscal easing will be prioritized in the new administration suggest that the risks to real GDP growth in 2017 and 2018 are now skewed to the upside. The labor market continues to strengthen and the unemployment rate declined by just 0.4 percentage point to 4.6%, but labor force participation has not grown as much as hoped, and started to trend downwards in November. In the year through November, the labor force participation rate increased by just 0.1 percentage point. Job openings data, another measure of labor market health, has been looking better.

In November of 2015 it was about 5.2 million job openings for the month. By November 2016, it had risen to a little more than 5.5 million job openings for the month. A higher level of job openings tends to indicate a more robust labor market.

GPIM expects the U.S. Federal Reserve (the “Fed”) policymakers to follow their recent rate increases (including a quarter-point increase in the key rate on December 15, after the period ended) with three, and possibly four, more hikes in 2017. While this would be faster than markets are now pricing in, it would still leave rates below levels prescribed by standard policy rules. Fed Chair Janet Yellen commented recently about temporarily running a “high-pressure economy” in the hope that enabling robust business activity and a tight labor market may result in an increase in the productive capacity of the economy. If this scenario materializes, it could entail unemployment dropping further, and inflation overshooting the Fed’s 2% goal. This perspective, as well as the president-elect’s proposed changes to fiscal policy and the likely impact to future real rates, accounts for much of the backup in long-term interest rates, although ongoing asset purchase programs by the European Central Bank (ECB) and Bank of Japan (BoJ) will likely continue to support bond prices. The monetary policy divergence will continue to support the U.S. dollar.

How did the Fund perform for the six months ended November 30, 2016?

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2016, the Fund provided a total return based on market price of 15.76% and a total return based on NAV of 13.58%. NAV return includes the deduction of management fees, operating expenses, and all other Fund expenses.

As of November 30, 2016, the Fund’s market price of \$19.22 represented a premium of 2.56% to its NAV of \$18.74. As of May 31, 2016, the Fund’s market price of \$17.61 represented a premium of 0.63% to its NAV of \$17.50. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

From June 2016 through November 2016, the Fund paid a monthly distribution of \$0.1821. The latest distribution represents an annualized distribution rate of 11.37% based on the Fund’s closing market price of \$19.22 on November 30, 2016. The Fund’s distribution rate is not constant and the amount of

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2016

distributions, when declared by the Fund's Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(i) on page 50 for more information on distributions for the period.

Discuss performance over the period.

During the period, the Fund saw positive performance primarily attributable to the continued tightening of credit spreads across fixed income sectors, as well as the Portfolio's high carry. The credit rally continued through the period despite one of the worst selloffs in government bond markets since the 2013 taper tantrum. Return from spread tightening during the period was chiefly driven by the Portfolio's investments in collateralized loan obligations ("CLO"), bank loans, and high yield corporate bonds.

The CLO market rebounded during the period. Volatility during early 2016 kept many CLO issuers on the sidelines. As a result, traditional CLO debt investors entered the third quarter well behind internal CLO spending targets. Adding to demand, investors continued to increase allocations to floating-rate CLO debt in response to rising USD LIBOR and negative yields in Japan and Europe. Not surprisingly, CLO spreads tightened significantly during the period. Already hoping to issue or refinance CLOs ahead of the December 2016 risk retention deadline, CLO issuers were only too happy to meet strong CLO demand. September represented the highest monthly CLO issuance since June 2015.

Bank loans and high-yield bonds delivered strong returns during the period. Generally, the biggest gains came from lower quality assets. Bank loan discount margins have tightened and prices have been buoyed by strong collateralized loan obligations ("CLO") demand and loan mutual fund inflows. In fact, S&P Leveraged Commentary & Data shows that visible demand for loans has outpaced net supply for the longest such stretch since 2009.

The high-yield corporate bond market followed a fairly predictable path. The continuation of a depressed commodity-price environment ultimately pressured earnings in oil, gas and metals, causing a wave of defaults to materialize. Based on the 1998 default cycle, we predicted that defaults would peak in 2016. Since peaking at 5.7 percent in August, 12-month trailing default rate for all U.S. speculative-grade borrowers rated by Moody's has fallen to 5.5 percent. It is expected to decline further in 2017.

Given the upward trend in the 10-year U.S. Treasury note and the anticipation of three to four additional rate hikes in 2017, over half of the Portfolio has been floating rate with limited interest rate duration risk.

Discuss the Fund's approach to duration.

Although the Fund has no set policy regarding portfolio duration or maturity, the Fund currently maintains a low-duration target, but adds opportunistically to attractive long duration assets when it can take advantage of short-term fluctuations in interest rates.

What is the Fund's leverage strategy?

Since leverage adds to performance when the cost of leverage is less than the total return generated by investments, the use of leverage detracted from the Fund's total return during this period. The purpose

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2016

of leverage (borrowing and reverse repo) is to fund the purchase of additional securities that provide increased income and potentially greater appreciation to common shareholders than could be achieved from an unlevered portfolio. Leverage results in greater NAV volatility and entails more downside risk than an unlevered portfolio.

As of November 30, 2016, the amount of leverage was approximately 31% of total managed assets. GPIM employs leverage through two vehicles: reverse repurchase agreements, under which the Fund temporarily transfers possession of portfolio securities and receives cash which can be used for additional investments, and a committed financing facility through a leading financial institution. There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

**Index Definitions**

Indices are unmanaged and reflect no expenses. It is not possible to invest directly in an index.

The Standard & Poor's 500 Index is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including U.S. Treasuries, government-related and corporate securities, mortgage-backed securities or "MBS" (agency fixed-rate and hybrid adjustable-rate mortgage, or "ARM", pass-throughs), asset-backed securities ("ABS"), and commercial mortgage-backed securities ("CMBS") (agency and non-agency).

The Bloomberg Barclays U.S. Corporate High Yield Index measures the U.S. dollar-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB +/BB + or below.

The Bloomberg Barclays 1-3 Month U.S. Treasury Bill Index tracks the performance of U.S. Treasury Bills with a remaining maturity of one to three months. U.S. Treasury Bills, which are short-term loans to the U.S. government, are full-faith-and-credit obligations of the U.S. Treasury and are generally regarded as being free of any risk of default.

**Risks and Other Considerations**

Investing involves risk, including the possible loss of principal and fluctuation of value.

The views expressed in this report reflect those of the portfolio managers only through the report period as stated on the cover. These views are expressed for informational purposes only and are subject to change at any time, based on market and other conditions, and may not come to pass. These views may differ from views of other investment professionals at Guggenheim and should not be construed as research, investment advice or a recommendation of any kind regarding the fund or any issuer or security, do not constitute a solicitation to buy or sell any security and should not be considered specific

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2016

legal, investment or tax advice. The information provided does not take into account the specific objectives, financial situation or particular needs of any specific investor.

The views expressed in this report may also include forward looking statements that involve risk and uncertainty, and there is no guarantee that any predictions will come to pass. Actual results or events may differ materially from those projected, estimated, assumed or anticipated in any such forward-looking statements. Important factors that could result in such differences, in addition to the other factors noted with such forward-looking statements, include general economic conditions such as inflation, recession and interest rates.

There can be no assurance that the Fund will achieve its investment objectives or that any investment strategies or techniques discussed herein will be effective. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

Performance data quoted represents past performance, which is no guarantee of future results and current performance may be lower or higher than the figures shown.

Please see [guggenheiminvestments.com/gof](http://guggenheiminvestments.com/gof) for a detailed discussion of the Fund's risks and considerations.

## FUND SUMMARY (Unaudited) November 30, 2016

## Fund Statistics

Share Price	\$19.22
Net Asset Value	\$18.74
Premium to NAV	2.56%
Net Assets (\$000)	\$346,867

AVERAGE ANNUAL  
TOTAL RETURNS FOR  
THE  
PERIOD ENDED  
NOVEMBER 30, 2016

	Six Month (non-annualized)	One Year	Three Year	Five Year	Since Inception (07/26/07)
Guggenheim Strategic Opportunities Fund	NAV 13.58%	17.15%	9.12%	11.72%	11.28%
Market	15.76%	22.90%	8.06%	10.15%	11.19%

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. All NAV returns include the deduction of management fees, operating expenses, and all other Fund expenses. The deduction of taxes that a shareholder would pay on Fund distributions or the sale of Fund shares is not reflected in the total returns. For the most recent month-end performance figures, please visit [guggenheiminvestments.com/gof](http://guggenheiminvestments.com/gof). The investment return and principal value of an investment will fluctuate with changes in market conditions and other factors so that an investor's shares, when sold, may be worth more or less than their original cost.

Source: BlackRock Solutions. Credit quality ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest). All securities except for “NR”, or not rated, have been rated by Moody’s, Standard & Poor’s (“S&P”), or Fitch, which are all a Nationally Recognized Statistical Rating Organization (“NRSRO”). For purposes of this presentation, when ratings are available from more than one agency, the highest rating is used. Guggenheim Investments has converted Moody’s and Fitch ratings to the equivalent S&P rating. Security ratings are determined at the time of purchase and may change thereafter.

\*\* NR securities do not necessarily indicate low credit quality.

††† Value determined based on Level 3 inputs — See Note 4.

1 Security was fair valued by the Valuation Committee at November 30, 2016. The total market value of fair valued securities amounts to \$24,769,863, (cost \$32,168,190) or 7.1% of total net assets.

2 All or a portion of these securities have been physically segregated in connection with borrowings, reverse repurchase agreements and unfunded loan commitments. As of November 30, 2016, the total value of securities segregated was \$244,540,462.

See notes to financial statements.

SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2016

- 3 Zero coupon rate security.
- 4 Rate indicated is the 7-day yield as of November 30, 2016.
- 5 Variable rate security. Rate indicated is rate effective at November 30, 2016.
- 6 Security is a 144A or Section 4(a)(2) security. These securities have been determined to be liquid under guidelines established by the Board of Trustees. The total market value of 144A or Section 4(a)(2) liquid securities is \$224,527,146 (cost \$233,325,291), or 64.7% of total net assets.
- 7 Security has no stated coupon. However, it is expected to receive residual cash flow payments on defined deal dates.
- 8 Security is a 144A or Section 4(a)(2) security. These securities are considered illiquid and restricted under guidelines established by the Board of Trustees. The total market value of 144A or Section 4(a)(2) illiquid and restricted securities is \$18,353,438 (cost \$25,067,068), or 5.3% of total net assets - see Note 12.
- 9 Security is a step up/step down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity. Rate indicated is rate effective at November 30, 2016.
- 10 Perpetual maturity.
- 11 Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.
- 12 Security is a pay-in-kind bond.
- 13 Security is in default.
- 14 All or a portion of this security is pledged as futures collateral.

Unfunded Commitments	-	717,517	-	717,517
Forward Foreign Currency Exchange Contracts*	-	61,969	-	61,969
<b>Total Liabilities</b>	<b>\$768,535</b>	<b>\$779,486</b>	<b>\$-</b>	<b>\$1,548,021</b>

\*These amounts are reported as unrealized gain/(loss) as of November 30, 2016.

If not referenced in the table, please refer to the detailed Schedule of Investments for a breakdown of investment type by industry category.

See notes to financial statements.

## SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2016

The following is a summary of significant unobservable inputs used in the fair valuation of assets and liabilities categorized within Level 3 of the fair value hierarchy:

Category	Ending Balance at 11/30/2016	Valuation Technique	Unobservable Inputs	Input Range
Corporate Bonds	\$ 7,531,486	Option adjusted spread off the month end broker quote over the 3 month LIBOR	Indicative Quote	–
Corporate Bonds	2,231,750	Model Price	Market Comparable Yields	8.8% – 14.1%
Corporate Bonds	256,021	Model Price	Liquidation Value	–
Asset Backed Securities	4,061,002	Option adjusted spread off the month end broker quote over the 3 month LIBOR	Indicative Quote	–
Asset Backed Securities	1,500,000	Option adjusted spread	Indicative Quote for Comparable Security	–
Senior Floating Rate Interests	1,987,700	Option adjusted spread off the month end broker quote over the 3 month LIBOR	Indicative Quote	–
Senior Floating Rate Interests	685,100	Enterprise Value	Valuation Multiple	5.5x – 7.1x
Senior Floating Rate Interests	7,795,698	Model Price	Market Comparable Yields	4.8% – 5.9%
Senior Floating Rate Interests	11,443,035	Model Price	Purchase Price	–
Common Stocks	387	Model Price	Liquidation Value	–
Common Stocks	56,404	Model Price	Purchase Price	–
Common Stocks	767,681	Enterprise Value	Valuation Multiple	5.5x – 7.7x

Significant changes in an indicative quote, liquidation value, market comparable yield or valuation multiple would generally result in significant changes in the fair value of the security.

Any remaining Level 3 securities held by the Fund and excluded from the tables above, were not considered material to the Fund.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

As of November 30, 2016, the Fund had securities with a total value of \$1,520,914 transferred from Level 2 to Level 3 due to lack of multiple vendor prices. As of November 30, 2016, the Fund had securities with a total value of \$5,138,400 transferred from Level 3 to Level 2 due to availability of market price information at the period end.

See notes to financial statements.

## SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2016

## Summary of Fair Value Level 3 Activity

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the period ended November 30, 2016:

	Asset Backed Securities	Senior Floating Rate Interests	Collateralized Corporate <b>Bonds</b>	Mortgage Obligations	Common Stocks	Total
Assets:						
Beginning Balance	\$8,036,285	\$19,029,841	\$8,485,549	\$3,380,625	\$1,079,055	\$40,011,355
Paydowns Received	(321,057)	(3,485,092)	(83,627)	(18,702)	–	(3,908,478)
Payment-in-kind Distributions Received	–	29,098	17,507	–	–	46,605
Realized Gain/Loss	–	3,100	–	338,151	–	341,251
Change in Unrealized Gain/Loss	155,126	(340,211)	(55,134)	(184,146)	(683,102)	(1,107,467)
Accrued discounts/ (premiums)	3,108	43,296	23,477	1,112	–	70,993
Purchases	989,000	3,432,565	2,000,000	–	60,004	6,481,569
Sales	–	(373,628)	–	(1,680,097)	–	(2,053,725)
Corporate actions	–	2,051,650	(368,515)	–	368,515	2,051,650
Transfers into Level 3	–	1,520,914	–	–	–	1,520,914
Transfers out of Level 3	(3,301,457)	–	–	(1,836,943)	–	(5,138,400)
Ending Balance	\$5,561,005	\$21,911,533	\$10,019,257	\$–	\$ 824,472	\$38,316,267
Net change in unrealized appreciation (depreciation) for investments in securities still held at November 30, 2016	\$ 87,932	\$ (348,520)	\$ (55,133)	\$ –	\$ (683,102)	\$ (998,823)

See notes to financial statements.

## STATEMENT OF ASSETS AND LIABILITIES (Unaudited) November 30, 2016

## ASSETS:

Investments, at value (cost \$503,253,597)	\$493,885,745
Cash	8,595,041
Restricted cash	1,513,469
Foreign currency, at value (Cost \$37,308)	37,308
Unrealized appreciation on forward foreign currency exchange contracts	13,745
Receivables:	
Investments sold	8,292,922
Interest	4,778,820
Dividends	6,875
Tax reclaims	4,276
Other assets	7,094
Total assets	517,135,295

## LIABILITIES:

Reverse repurchase agreements	139,786,130
Borrowings	14,704,955
Written options, at value (premiums received \$701,927)	768,535
Unfunded loan commitments, at value (Note 10) (Commitment fees received \$965,124)	717,517
Interest payable on borrowings	321,770
Due to broker	240,000
Variation margin on futures	135,120
Unrealized depreciation on forward foreign currency exchange contracts	61,969
Payable for:	
Investments purchased	12,662,987
Investment advisory fees	398,184
Offering costs	309,173
Trustees' fees and expenses*	26,628
Accrued expenses and other liabilities	135,016
Total liabilities	170,267,984
NET ASSETS	\$346,867,311

## NET ASSETS CONSIST OF:

Common Stock, \$0.01 par value per share; unlimited number of shares authorized, 18,507,502 shares issued and outstanding	\$185,075
Additional paid-in capital	358,301,149
Distributions in excess of net investment income	(13,053,682 )
Accumulated net realized gain on investments	8,576,055
Net unrealized depreciation on investments	(7,141,286 )
NET ASSETS	\$346,867,311
Net asset value	\$18.74

\* Relates to Trustees not deemed "interested persons" within the meaning of Section 2(a)(19) of the 1940 Act.

See notes to financial statements.

## STATEMENT OF OPERATIONS

November 30, 2016

For the Six Months Ended November 30, 2016 (Unaudited)

## INVESTMENT INCOME:

Interest	\$18,475,153
Dividends	121,974
Total investment income	18,597,127

## EXPENSES:

Investment advisory fees	2,334,552
Interest expense	1,196,217
Professional fees	103,742
Fund accounting fees	58,077
Trustees' fees and expenses*	57,279
Administration fees	54,212
Printing fees	43,860
Custodian fees	29,730
Registration and filings	13,908
Transfer agent fees	10,223
Insurance	6,288
Miscellaneous	1,332
Total expenses	3,909,420
Net investment income	14,687,707

## NET REALIZED AND UNREALIZED GAIN (LOSS):

## Net realized gain on:

Investments	4,932,845
Foreign currency transactions	974,550
Written options	645,568
Futures contracts	3,528,442
Net realized gain	10,081,405

## Net change in unrealized appreciation (depreciation) on:

Investments	17,143,727
Foreign currency translations	(62,434 )
Written options	584,525
Futures contracts	(177,670 )
Net change in unrealized appreciation (depreciation)	17,488,148
Net realized and unrealized gain	27,569,553
Net increase in net assets resulting from operations	\$42,257,260

\* Relates to Trustees not deemed "interested persons" within the meaning of Section 2(a)(19) of the 1940 Act.

See notes to financial statements.

## STATEMENTS OF CHANGES IN NET ASSETS

November  
30, 2016

November 30, 2016	Period Ended	
	(Unaudited)	Year Ended May 31, 2016
<b>INCREASE (DECREASE) IN NET ASSETS FROM OPERATIONS:</b>		
Net investment income	\$ 14,687,707	\$24,660,280
Net realized gain on investments	10,081,405	6,158,770
Net change in unrealized appreciation (depreciation) on investments	17,488,148	(29,493,024 )
Net increase in net assets resulting from operations	42,257,260	1,326,026

FINANCIAL  
HIGHLIGHTS November  
30, 2016  
continued

	Period Ended					
	November 30, 2016 (Unaudited)	Year Ended May 31, 2016	Year Ended May 31, 2015	Year Ended May 31, 2014	Year Ended May 31, 2013	Year Ended May 31, 2012
Senior Indebtedness						
Total Borrowings outstanding (in thousands)	\$ 154,491	\$ 139,925	\$ 160,247	\$ 136,430	\$ 115,573	\$ 83,842
Asset Coverage per \$1,000 of indebtedness <sup>(f)</sup>	\$ 3,245	\$ 3,217	\$ 3,140	\$ 3,331	\$ 3,479	\$ 3,473

- (a) Based on average shares outstanding.
- (b) Total return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value (“NAV”) or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns or the prices obtained under the Fund’s Dividend Reinvestment Plan for market value returns. Total return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized.
- (c) The ratios of total expenses to average net assets applicable to common shares do not reflect fees and expenses incurred indirectly by the Fund as a result of its investment in shares of other investment companies. If these fees were included in the expense ratios, the expense ratios would increase by 0.02%, 0.03%, 0.03%, 0.05% and 0.04% for the years ended May 31, 2016, 2015, 2014, 2013 and 2012, respectively.
- (d) Excluding interest expense, the operating expense ratios for the six months ended November 30, 2016 and the years ended May 31 would be:

November 30, 2016	2016	2015	2014	2013	2012
1.62%	1.74%	1.72%	1.78%	1.81%	1.78%

- (e) Annualized.  
Calculated by  
subtracting the  
Fund’s total liabilities  
(not including the  
(f) borrowings) from the  
Fund’s total assets  
and dividing by the  
total borrowings.

See notes to financial statements.

Note 1 – Organization:

Guggenheim Strategic Opportunities Fund (the “Fund”) was organized as a Delaware statutory trust on November 13, 2006. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”).

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation.

Note 2 – Accounting Policies:

The Fund operates as an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles (“GAAP”) and are consistently followed by the Fund. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. All time references are based on Eastern Time.

The following is a summary of significant accounting policies consistently followed by the Fund.

(a) Valuation of Investments

The Board of Trustees of the Fund (the “Board”) has adopted policies and procedures for the valuation of the Fund’s investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, fund administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund’s securities or other assets.

Valuations of the Fund’s securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed and will review the valuation of all assets which have been fair valued for reasonableness. The Fund’s officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used by, and valuations provided by, the pricing services.

If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Equity securities listed on an exchange (New York Stock Exchange (“NYSE”) or American Stock Exchange) are valued at the last quoted sales price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on such day, the security is valued at the closing bid price on such day.

Open-end investment companies (“Mutual Funds”) are valued at their NAV as of the close of business on the valuation date. Exchange Traded Funds (“ETFs”) and closed-end investment companies are valued at the last quoted sale price. Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker/dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition and repurchase agreements are valued at amortized cost, provided such amount approximates market value.

Typically loans are valued using information provided by an independent third party pricing service which uses broker quotes in a non-active market.

Listed options are valued at the Official Settlement Price listed in by the exchange, usually as of 4:00 p.m. Long options are valued using the bid price and short options are valued using the ask price. In the event that a settlement price is not available, fair valuation is enacted. Over-the-counter options are valued using the average bid price (for long options), or average ask price (for short options) obtained from one or more security dealers.

The value of futures contracts is accounted for using the unrealized gain or loss on the contracts that is determined by marking the contracts to their current settlement prices. Financial futures contracts are valued at 4:00 p.m. on the valuation date. In the event that the exchange for a specific futures contract closes earlier than 4:00 p.m., the futures contract is valued at the Official Settlement Price of the exchange. However, the underlying securities from which the futures contract value is derived are monitored until 4:00 p.m. to determine if fair valuation would provide a more accurate valuation.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currency are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and Guggenheim Funds Investment Advisors, LLC (“GFIA” or the “Adviser”) are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

Investments for which market quotations are not readily available are fair valued as determined in good faith by the Adviser, subject to review by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security's (or asset's) "fair value." Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: market prices; sale prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics, or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information analysis.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Paydown gains and losses on mortgage and asset-backed securities are treated as an adjustment to interest income. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

(c) Restricted Cash

A portion of cash on hand relates to collateral received by the Fund for repurchase agreements and futures contracts. This amount is presented on the Statement of Assets and Liabilities as Restricted Cash.

(d) Swaps

A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Fund enters into swap agreements to manage its exposure to interest rates and/or credit risk or to generate income. Swaps are valued daily at current market value and any unrealized gain or loss is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Fund's basis in the swap and the proceeds of the closing transaction, including any fees. Upon termination of a swap agreement, a payable to or receivable from swap counterparty is established on the Statement of Assets and Liabilities to reflect the net gain/loss, including interest income/expense, on terminated swap positions. The line item is removed upon settlement according to the terms of the swap agreement.

Realized gain (loss) upon termination of swap contracts is recorded on the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation (depreciation) of swap contracts. Net periodic payments received by the Fund are included as part of realized gain (loss) and, in the case of accruals for periodic payments, are included as part of unrealized appreciation (depreciation) on the Statement of Operations.

As of November 30, 2016, the Fund had no swap contracts outstanding.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

(e) Covered Call Options and Put Options

When an option is written, the premium received is recorded as an asset with an equal liability and is subsequently marked to market to reflect the current market value of the option written. These liabilities are reflected as options written on the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If an option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss.

When a call option is purchased, the Fund obtains the right (but not the obligation) to buy the underlying instrument at the strike price at anytime during the option period. When a put option is purchased, the Fund obtains the right (but not the obligation) to sell the option's underlying instrument at the strike price at anytime during the option period. When the Fund purchases an option, an amount equal to the premium paid by the Fund is reflected as an asset and subsequently marked-to-market to reflect the current market value of the option purchased. Purchased options are included with Investments on the Statement of Assets and Liabilities. Realized and unrealized gains and losses on purchased options are included with Investments on the Statement of Operations.

(f) Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the bid and ask price of respective exchange rates on the last day of the period. Purchases and sales of investments denominated in foreign currencies are translated at the exchange rate on the bid and ask price of respective exchange rates on the date of the transaction.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Foreign exchange realized gain or loss resulting from holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Fund's accounting records on the date of receipt is shown as net realized gains or losses on foreign currency transactions on the Fund's Statement of Operations.

Foreign exchange unrealized gain or loss on assets and liabilities, other than investments, is shown as unrealized appreciation (depreciation) on foreign currency translation on the Fund's Statement of Operations.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

(g) Forward Foreign Currency Exchange Contracts

Forward foreign currency exchange contracts are agreements between two parties to buy and sell currencies at a set price on a future date. Fluctuations in the value of open forward foreign currency exchange contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund until the contracts are closed. When the contracts are closed, realized gains and losses are recorded, and included on the Statement of Operations in foreign currency transactions.

(h) Futures Contracts

Upon entering into a futures contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract.

Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

(i) Distributions to Shareholders

The Fund declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. Any net realized long-term capital gains are distributed annually to common shareholders. To the extent distributions exceed taxable income, the excess will be deemed a return of capital.

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

(j) Indemnifications

Under the Fund's organizational documents, its Trustees and Officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, throughout the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

Note 3 – Investment Advisory Agreement, Sub-Advisory Agreement and Other Agreements:

Pursuant to an Investment Advisory Agreement between the Fund and the Adviser, the Adviser furnishes offices, necessary facilities and equipment, provides administrative services, oversees the activities of Guggenheim Partners Investment Management, LLC (“GPIM” or “Sub-Adviser”), provides personnel including certain officers required for the Fund’s administrative management and compensates the officers and trustees of the Fund who are affiliates of the Adviser. As compensation for these services, the Fund pays the Adviser a fee, payable monthly, in an amount equal to 1.00% of the Fund’s average daily managed assets (net assets applicable to common shareholders plus any assets attributable to financial leverage).

Pursuant to a Sub-Advisory Agreement among the Fund, the Adviser and GPIM, GPIM, under the supervision of the Fund’s Board of Trustees and the Adviser, provides a continuous investment program for the Fund’s portfolio; provides investment research; makes and executes recommendations for the purchase and sale of securities; and provides certain facilities and personnel, including certain officers required for its administrative management and pays the compensation of all officers and trustees of the Fund who are GPIM’s affiliates. As compensation for its services, the Adviser pays GPIM a fee, payable monthly, in an annual amount equal to 0.50% of the Fund’s average daily managed assets.

For purposes of calculating the fees payable under the foregoing agreements, average daily managed assets means the average daily value of the Fund’s total assets minus the sum of its accrued liabilities. Total assets means all of the Fund’s assets and is not limited to its investment securities. Accrued liabilities means all of the Fund’s liabilities other than borrowings for investment purposes.

Certain officers and trustees of the Fund may also be officers, directors and/or employees of the Adviser or GPIM. The Fund does not compensate its officers or trustees who are officers, directors and/or employees of the aforementioned firms.

On October 4, 2016, Rydex Fund Services, LLC (“RFS”) was purchased by MUFG Investor Services and as of that date RFS ceased to be an affiliate of the Adviser. In connection with its acquisition, RFS changed its name to MUFG Investor Services (US), LLC (“MUIS”). This change has no impact on the financial statements of the Fund.

MUIS acts as the Fund’s administrator and accounting agent. As administrator and accounting agent, MUIS is responsible for maintaining the books and records of the Fund’s securities and cash. The Bank of New York (“BNY”) acts as the Fund’s custodian. As custodian, BNY is responsible for the custody of the Fund’s assets. For providing the aforementioned services, MUIS and BNY are entitled to receive a monthly fee equal to an annual percentage of the Fund’s average daily managed assets subject to certain minimum monthly fees and out of pocket expenses.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

Note 4 – Fair Value Measurement:

In accordance with GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

Independent pricing services are used to value a majority of the Fund's investments. When values are not available from a pricing service, they will be determined under the valuation policies that have been reviewed and approved by the Board. In any event, values are determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis. A significant portion of the Funds' assets and liabilities are categorized as Level 2 or Level 3, as indicated in this report.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Fund's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Fund may not have the transparency to view the underlying inputs which support the market quotations.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates. The Fund's fair valuation guidelines categorize these securities as Level 3.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

Note 5 – Federal Income Taxes:

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, (the “Internal Revenue Code”), applicable to regulated investment companies.

The Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund’s annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year.

As of November 30, 2016, the cost of investments and accumulated unrealized appreciation/ (depreciation) of investments for federal income tax purposes, were as follows:

	Gross Tax	Gross Tax	Net Tax Unrealized
Cost of Investments for Tax Purposes	Unrealized Appreciation	Unrealized Depreciation	Depreciation on Investments
	\$511,637,705	\$22,789,162	\$(40,541,122) \$(17,751,960)

The differences between book basis and tax basis unrealized appreciation (depreciation) is primarily attributable to the tax deferral of losses on wash sales, equity to debt income accruals, collateralized loan obligations, and the marking to market of forward foreign currency contracts, futures contracts and options contracts.

As of May 31, 2016 (the most recent fiscal year end for federal income tax purposes), the tax components of accumulated earnings/losses (excluding paid-in capital) on a tax basis were as follows:

	Undistributed Long-Term Capital	Net Unrealized
Undistributed Ordinary Income	Gains/(Accumulated Capital and Other Losses)	Depreciation
	\$ 520,395	\$ 129,983 \$(34,669,268)

For the year ended May 31, 2016 (the most recent fiscal year end for federal income tax purposes), the tax character of distributions paid to shareholders as reflected in the Statements of Changes in Net Assets was as follows:

Distributions paid from	
Ordinary income	\$32,113,499
Long –term capital gain	6,431,359
	\$38,544,858

For all open tax years and all major jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Uncertain tax positions are tax positions taken or expected to be taken in the course of preparing the Fund’s tax returns that would not meet a more-likely-than not threshold of being sustained by the applicable tax authority and would be recorded as a tax expense in the current year. Open tax years

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued Note 5 – Federal Income Taxes November 30, 2016

are those that are open for examination by taxing authorities (i.e. generally the last four tax year ends and the interim tax period since then).

Note 6 – Investments in Securities:

During the six months ended November 30, 2016, the cost of purchases and proceeds from sales of investments, excluding written options, futures contracts and short-term investments, were \$150,794,911 and \$83,376,295, respectively.

The Fund is permitted to purchase or sell securities from or to certain affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by the Fund from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under these procedures, each transaction is effected at the current market price to save costs, where permissible. For the six months ended November 30, 2016, the Fund engaged in purchases and sales of securities, pursuant to Rule 17a-7 of the 1940 Act, as follows:

Purchases	Sales	Realized Gain
\$2,056,813	\$1,052,500	\$52,500

Note 7 – Derivatives:

Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to increase investment flexibility (including to maintain cash reserves while maintaining exposure to certain other assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. Derivative instruments may also be used to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. GAAP requires disclosures to enable investors to better understand how and why a Fund uses derivative instruments, how these derivative instruments are accounted for and their effects on the Fund's financial position and results of operations.

The Fund may utilize derivatives for the following purposes:

Hedge – an investment made in order to seek to reduce the risk of adverse price movements in a security, by taking an offsetting position to protect against broad market moves.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

(a) Covered Call Options and Put Options

The Fund pursues its investment objective by employing an option strategy of writing (selling) covered call options and, from time to time, buys or sells put options on equity securities and indices. The Fund seeks to generate current gains from option premiums as a means to enhance distributions payable to the Fund's common shareholders.

An option on a security is a contract that gives the holder of the option, in return for a premium, the right to buy from (in the case of a call) or sell to (in the case of a put) the writer of the option the security underlying the option at a specified exercise or "strike" price. The writer of an option on a security has the obligation upon exercise of the option to deliver the underlying security upon payment of the exercise price (in the case of a call) or to pay the exercise price upon delivery of the underlying security (in the case of a put).

There are several risks associated with transactions in options on securities. As the writer of a covered call option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline. A writer of a put option is exposed to the risk of loss if the fair value of the underlying security declines, but profits only to the extent of the premium received if the underlying security increases in value. The writer of an option has no control over the time when it may be required to fulfill its obligation as writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

To the extent that the Fund purchases options, the Fund will be subject to the following additional risks. If a put or call option purchased by the Fund is not sold when it has remaining value, and if the market price of the underlying security remains equal to or greater than the exercise price (in the case of a put), or remains less than or equal to the exercise price (in the case of a call), the Fund will lose its entire investment in the option. Also, where a put or call option on a particular security is purchased to hedge against price movements in a related security, the price of the put or call option may move more or less than the price of the related security. If restrictions on exercise were imposed, the Fund might be unable to exercise an option it had purchased. If the Fund were unable to close out an option that it had purchased on a security, it would have to exercise the option in order to realize any profit or the option may expire worthless. The maximum exposure the Fund has at risk when purchasing an option is the premium paid.

The Fund entered into written option contracts during the six months ended November 30, 2016.

NOTES  
TO  
FINANCIAL  
STATEMENTS  
November 30, 2016  
(Unaudited)  
continued

Details of the transactions were as follows:

	Number of Contracts	Premiums Received
Options outstanding, beginning of the period	279	\$706,202
Options written during the period	1,660	4,306,734
Options expired during the period	–	–
Options closed during the period	(1,658 )	(4,311,009)
Options assigned during the period	–	–
Options outstanding, end of period	281	\$701,927

(b) Swaps

Swap agreements are contracts between parties in which one party agrees to make periodic payments to the other party (the “Counterparty”) based on the change in market value or level of a specified rate, index or asset. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified rate, index or asset. Swap agreements will usually be done on a net basis, the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of each Fund’s obligations over its entitlements with respect to each swap is accrued on a daily basis and an amount of cash or liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Fund’s custodian bank. During the period that the swap agreement is open, the Fund may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities.

Credit default swap transactions involve the Fund’s agreement to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed upon amount, which approximates the notional amount of the swap, to the buyer in the event of an adverse credit event of the issuer.

The Fund may utilize index swap transactions to manage its exposure to various securities markets, changes in interest rates, or currency values. Index swap transactions allow the Fund to receive the appreciation/depreciation of the specified index over a specified time period in exchange for an agreed upon fee paid to the counterparty.

The Fund did not have any swap agreements outstanding as of November 30, 2016.

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

## (c) Forward Foreign Currency Exchange Contracts

The Fund enters into forward foreign currency exchange contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchases and sales commitments denominated in foreign currencies and for investment purposes.

A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. Forward foreign currency exchange contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Risk may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

As of November 30, 2016, the following forward foreign currency exchange contracts were outstanding:

Contracts to Sell	Counterparty	Settlement Date	Settlement Value	Value as of 11/30/16	Net Unrealized Appreciation (Depreciation)
EUR 323,000					
for USD 356,288	Bank of America Merrill Lynch	12/12/2016	\$356,288	\$342,543	\$ 13,745
GBP 5,117,000					
for USD 6,341,385	Bank of America Merrill Lynch	12/12/2016	6,341,385	6,403,354	(61,969 )
					\$ (48,224 )

## (d) Futures Contracts

A futures contract is an agreement to purchase (long) or sell (short) an agreed amount of securities or other instruments at a set price for delivery at a future date. There are significant risks associated with a Fund's use of futures contracts, including (i) there may be an imperfect or no correlation between the changes in market value of the underlying asset and the prices of futures contracts; (ii) there may not be a liquid secondary market for a futures contract; (iii) trading restrictions or limitations may be imposed by an exchange; and (iv) government regulations may restrict trading in futures contracts. When investing in futures, there is minimal counterparty credit risk to the Fund because futures are exchange-traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees against default. Cash deposits are shown as segregated cash with broker on the Statement of Assets and Liabilities; securities held as collateral are noted on the Schedule of Investments.

## (e) Summary of Derivatives Information

The Fund is required by GAAP to disclose: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge fund items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows.

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

The following table presents the types of derivatives in the Fund by location as presented on the Statement of Assets and Liabilities as of November 30, 2016.

## Statement of Asset and Liabilities

## Presentation of Fair Values of Derivative

## Instruments (value in \$000s):

Asset Derivatives	Liability Derivatives				
Primary Risk Exposure	Statement of Assets and Liabilities Location	Fair Value	Statement of Assets and Liabilities Location	Fair Value	
Equity risk		\$ –	Options Written	\$769	
Equity risk	Unrealized appreciation on futures contracts*	2,107	Unrealized depreciation on futures contracts*	–	
Foreign exchange risk	Unrealized appreciation on forward foreign currency exchange contracts	14	Unrealized depreciation on forward foreign currency exchange contracts	62	
Total		\$2,121		\$831	

\* Includes cumulative appreciation (depreciation) of futures contracts as reported on the Schedule of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

The following table presents the effect of derivative instruments on the Statement of Operations for the six months ended November 30, 2016.

## Effect of Derivative Instruments on the Statement of Operations

## Amount of Realized Gain (Loss) on Derivatives (value in \$000s):

Primary Risk Exposure	Written Options	Foreign Currency Transactions	Futures Contracts	Total

## Derivative Volume

## Forward Foreign Currency Exchange Contracts:

The Fund had the following activity in forward foreign currency exchange contracts during the six months ended November 30, 2016:

Quarterly Average Settlement Value Purchased	\$-
Quarterly Average Settlement Value Sold	7,324,746

## Futures Contracts:

The Fund had the following activity in futures contracts during the six months ended November 30, 2016:

Quarterly Average Notional Value	\$61,750,725
----------------------------------	--------------

## Note 8 – Offsetting:

In the normal course of business, the Fund enters into transactions subject to enforceable master netting arrangements or other similar arrangements. Generally, the right to offset in those agreements allows the Fund to counteract the exposure to a specific counterparty with collateral received or delivered to that counterparty based on the terms of the arrangements. These arrangements provide for the right to liquidate upon the occurrence of an event of default, credit event upon merger or additional termination event.

In order to better define their contractual rights and to secure rights that will help the Fund mitigate their counterparty risk, the Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement with their derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs OTC derivatives, including foreign exchange contracts, and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Fund and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Fund and cash collateral received from the counterparty, if any, is reported separately on the Statement of Assets and Liabilities as segregated cash with broker/ receivable for variation margin, or payable for swap settlement/variation margin. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold (e.g., \$300,000) before a transfer is required to be made. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty nonperformance. The Fund attempts to mitigate counterparty risk by only

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

entering into agreements with counterparties that it believes to be of good standing and by monitoring the financial stability of those counterparties.

For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities.

The following tables present derivative financial instruments and secured financing transactions that are subject to enforceable netting arrangements and offset in the Statements of Assets and Liabilities in conformity with GAAP.

Description	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts		Net Amount
			of Assets Presented in the Statement of Assets and Liabilities	Gross Amounts Not Offset in the Statement of Assets and Liabilities Financial Instruments	
Forward Foreign Currency Exchange Contracts	\$ 13,745	\$ –	\$ 13,745	\$ 13,745	\$ –

Description	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts		Net Amount
			of Liabilities Presented in the Statement of Assets and Liabilities	Gross Amounts Not Offset in the Statement of Assets and Liabilities Financial Instruments	
Reverse Repurchase Agreements	\$ 139,786,130	\$ –	\$ 139,786,130	\$ 139,786,130	\$ –
Forward Foreign Currency Exchange Contracts	61,969	–	61,969	13,745	48,224

## Note 9 – Leverage:

## Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements as part of its financial leverage strategy. Under a reverse repurchase agreement, the Fund temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker-dealer, in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Fund may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Fund enters into a reverse repurchase agreement, any fluctuations in the market value of either the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets. For the six months ended November 30, 2016, the average daily balance of reverse

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

repurchase agreements outstanding amounted to \$121,707,652. The weighted average interest rate was 1.81%. As of November 30, 2016, there was \$139,786,130 in reverse repurchase agreements outstanding.

As of November 30, 2016, the Fund had outstanding reverse repurchase agreements with various counterparties.

Details of the reverse repurchase agreements by counterparty are as follows:

Counterparty	Interest Rates	Maturity Dates	Face Value
Bank of America	1.57% - 1.96%	12/05/16 – 01/12/17	\$ 8,753,198
Barclays Capital, Inc.	0.00% - 2.28%	12/01/16 – 01/05/17	17,785,244
Barclays Capital, Inc.	0.00% - 1.00%*	Open maturity	1,795,403

Wells Fargo Bank, Ltd.	1.79%	12/07/16	919,000
			\$139,786,130

\* Variable rate security. Rate indicated is rate effective as of November 30, 2016.

The following is a summary of the remaining contractual maturities of the reverse repurchase agreements outstanding as of November 30, 2016, aggregated by asset class of the related collateral pledged by the Fund:

	Overnight and Continuous	Up to 30 days	31 - 90 days	Greater than 90 days	Total
Asset Backed Securities	\$–	\$28,611,350	\$7,393,000	\$4,574,750	\$40,579,100
Collateralized Mortgage Obligations	–	1,950,000	–	–	1,950,000
Corporate Bonds	7,105,810	19,784,420	44,819,953	20,091,866	91,802,049
Foreign Government Bonds	1,726,312	1,326,750	2,401,919	–	5,454,981
Total Borrowings	\$8,832,122	\$51,672,520	\$54,614,872	\$24,666,616	\$139,786,130
Gross amount of recognized liabilities for reverse repurchase agreements	\$8,832,122	\$51,672,520	\$54,614,872	\$24,666,616	\$139,786,130

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

Borrowings

The Fund has entered into a \$80,000,000 credit facility agreement with an approved lender whereby the lender has agreed to provide secured financing to the Fund and the Fund will provide pledged collateral to the lender. Interest on the amount borrowed is based on the 3-month LIBOR plus 0.85%. As of November 30, 2016, there was \$14,704,955 outstanding in connection with the Fund's credit facility. The average daily amount of borrowings on the credit facility during the six months ended November 30, 2016, was \$10,793,206 with a related average interest rate of 1.69%. The maximum amount outstanding during the six months ended November 30, 2016 was \$14,704,955. As of November 30, 2016, the total value of securities segregated and pledged as collateral in connection with borrowings was \$28,141,181.

The credit facility agreement governing the loan facility includes usual and customary covenants. These covenants impose on the Fund asset coverage requirements, collateral requirements, investment strategy requirements, and certain financial obligations. These covenants place limits or restrictions on the Fund's ability to (i) enter into additional indebtedness with a party other than the counterparty, (ii) change its fundamental investment policy, or (iii) pledge to any other party, other than to the counterparty, securities owned or held by the Fund over which the counterparty has a lien. In addition, the Fund is required to deliver financial information to the counterparty within established deadlines, maintain an asset coverage ratio (as defined in Section 18(g) of the 1940 Act) greater than 300%, comply with the rules of the stock exchange on which its shares are listed, and maintain its classification as a "closed-end management investment company" as defined in the 1940 Act.

There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

Note 10 – Loan Commitments

Pursuant to the terms of certain Term Loan agreements, the Fund held unfunded loan commitments as of November 30, 2016. The Fund is obligated to fund these loan commitments at the borrower's discretion. The Fund reserves against such contingent obligations by designating cash, liquid securities, and liquid term loans as a reserve. As of November 30, 2016, the total amount segregated in connection with reverse repurchase agreements and unfunded commitments was \$216,399,281.

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

As of November 30, 2016, the Fund had the following unfunded loan commitments which could be extended at the option of the borrower:

Borrower	Maturity Date	Face	
		Amount	Value
Acosta, Inc.	09/26/2019	\$1,100,000	\$82,562

## Note 11 – Capital:

## Common Shares

The Fund has an unlimited amount of common shares, \$0.01 par value, authorized and 18,507,502 issued and outstanding.

Transactions in common shares were as follows:

	Six months ended November 30, 2016	Year ended May 31, 2016
Beginning Shares	17,729,262	17,493,253
Common shares issued through at-the-market offering	701,647	166,779
Shares issued through dividend reinvestment	76,593	69,230
Ending Shares	18,507,502	17,729,262

On October 23, 2013, the Fund's shelf registration allowing for delayed or continuous offering of additional shares became effective and post-effective amendments thereto became effective on October 3, 2014 and September 30, 2015. The shelf registration statement allowed for the issuance of

## NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

up to \$150,000,000 of common shares. The Fund entered into an agreement with Cantor Fitzgerald & Co. for the sale of up to an additional 3,977,022 shares.

On November 14, 2016, the Fund's replacement shelf registration allowing for delayed or continuous offering of additional shares became effective. The shelf registration statement allows for the issuance of up to \$125,000,000 of common shares. The Fund entered into an agreement with Cantor Fitzgerald & Co. for the sale of up to an additional 3,900,000 shares.

The Adviser has paid the costs associated with the at-the-market offering of shares and will be reimbursed by the Fund up to 0.60% of the offering price of common shares sold pursuant to the shelf registration statement, not to exceed the amount of actual offering costs incurred. For the six months ended November 30, 2016, the Fund incurred \$79,306 of expenses associated with the at-the market offerings.

## Note 12 – Restricted Securities:

The securities below are considered illiquid and restricted under guidelines established by the Board:

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2016

Note 13 – Subsequent Event:

The Fund evaluated subsequent events through the date the financial statements were available for issue and determined there were no additional material events that would require adjustment to or disclosure in the Fund's financial statements.

SUPPLEMENTAL  
 INFORMATION, 2016  
 (Unaudited)

Federal Income Tax Information

In January 2017, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2016.

Sector Classification

Information in the “Schedule of Investments” is categorized by sectors using sector-level Classifications defined by the Bloomberg Industry Classification System, a widely recognized industry classification system provider. Each Fund’s registration statement has investment policies relating to concentration in specific sectors/industries. For purposes of these investment policies, the Funds usually classify sectors/industries based on industry-level Classifications used by widely recognized industry classification system providers such as Bloomberg Industry Classification System, Global Industry Classification Standards and Barclays Global Classification Scheme.

DIVIDEND REINVESTMENT PLAN (Unaudited) November 30, 2016

Unless the registered owner of common shares elects to receive cash by contacting the Computershare Trust Company, N.A. (the "Plan Administrator"), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator, Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend

DIVIDEND REINVESTMENT PLAN (Unaudited) continued November 30, 2016

amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date. The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170; Attention: Shareholder Services Department, Phone Number: (866) 488-3559 or online at [www.computershare.com/investor](http://www.computershare.com/investor).

FUND INFORMATION continued November 30, 2016

#### Privacy Principles of the Fund

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how the Fund protects that information and why, in certain cases, the Fund may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Fund restricts access to non-public personal information about its shareholders to employees of the Fund's investment advisor and its affiliates with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

Questions concerning your shares of Guggenheim Strategic Opportunities Fund?

- If your shares are held in a Brokerage Account, contact your Broker.
- If you have physical possession of your shares in certificate form, contact the Fund's Transfer Agent: Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170; (866) 488-3559 or online at [www.computershare.com/investor](http://www.computershare.com/investor).

This report is sent to shareholders of Guggenheim Strategic Opportunities Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (800)345-7999.

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (800)345-7999, by visiting the Fund's website at [guggenheiminvestments.com/gof](http://guggenheiminvestments.com/gof) or by accessing the Fund's Form N-PX on the U.S. Securities and Exchange Commission's (SEC) website at [www.sec.gov](http://www.sec.gov).

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at [www.sec.gov](http://www.sec.gov) or by visiting the Fund's website at [guggenheiminvestments.com/gof](http://guggenheiminvestments.com/gof). The Fund's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330 or at [www.sec.gov](http://www.sec.gov).

#### Notice to Shareholders

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund from time to time may purchase shares of its common stock in the open market.

ABOUT THE FUND MANAGERS

---

Guggenheim Partners Investment Management, LLC

Guggenheim Partners Investment Management, LLC (“GPIM”) is an indirect subsidiary of Guggenheim Partners, LLC, a diversified financial services firm. The firm provides capital markets services, portfolio and risk management expertise, wealth management, and investment advisory services. Clients of Guggenheim Partners, LLC subsidiaries are an elite mix of individuals, family offices, endowments, foundations, insurance companies and other institutions.

Investment Philosophy

GPIM’s investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes.

Investment Process

GPIM’s investment process is a collaborative effort between various groups including the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities.

(b) As of January 30, 2017, Steven Brown has been added as Portfolio Manager of the registrant. Please see the information below as required by paragraphs (a)(1) - (a)(4) of this Item 8 as of November 30, 2016 for Steven Brown.

(a)(1) Guggenheim Partners Investment Management, LLC (“Guggenheim”) serves as the investment sub-adviser for the registrant and is responsible for the day-to-day management of the registrant’s portfolio. Guggenheim uses a team approach to manage client portfolios. Day to day management of a client portfolio is conducted under the auspices of Guggenheim’s Portfolio Construction Group (“PCG”). PCG’s members include the Chief Investment Officer (“CIO”) and other key investment personnel. The PCG, in consultation with the CIO, provides direction for overall investment strategy. The PCG performs several duties as it relates to client portfolios including: determining both tactical and strategic asset allocations; and monitoring portfolio adherence to asset allocation targets; providing sector specialists with direction for overall investment strategy, which may include portfolio design and the rebalancing of portfolios; performing risk management oversight; assisting sector managers and research staff in determining the relative valuation of market sectors; and providing a forum for the regular discussion of the economy and the financial markets to enhance the robustness of Guggenheim’s strategic and tactical policy directives.

Steven Brown shares primary responsibility for the day-to-day management of the registrant’s portfolio and his information is provided as of November 30, 2016:

Name	Since Professional Experience During the Last Five Years
Steven Brown	Guggenheim Partners Investment Management, LLC, Managing Director and Portfolio Manager – 2016 – 2017 Present; Guggenheim Partners Investment Management, LLC, Director – 2014 – 2016; Guggenheim Partners Investment Management, LLC, Vice President 2013-2014; Guggenheim Partners Investment Management, LLC, Senior Associate 2012-2013.

4

\$615,551,831

(a)(2)(iv) Potential Conflicts of Interest

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one fund or other account. More specifically, portfolio managers who manage multiple funds and/or other accounts may be presented with one or more of the following potential conflicts.

The management of multiple funds and/or other accounts may result in a portfolio manager devoting unequal time and attention to the management of each fund and/or other account. Guggenheim seeks to manage such competing interests for the time and attention of a portfolio manager by having the portfolio manager focus on a particular investment discipline. Specifically, the ultimate decision maker for security selection for each client portfolio is the Sector Specialist Portfolio Manager. They are responsible for analyzing and selecting specific securities that they believe best reflect the risk and return level as provided in each client's investment guidelines.

Guggenheim may have clients with similar investment strategies. As a result, if an investment opportunity would be appropriate for more than one client, Guggenheim may be required to choose among those clients in allocating such opportunity, or to allocate less of such opportunity to a client than it would ideally allocate if it did not have to allocate to multiple clients. In addition, Guggenheim may determine that an investment opportunity is appropriate for a particular account, but not for another.

Allocation decisions are made in accordance with the investment objectives, guidelines, and restrictions governing the respective clients and in a manner that will not unfairly favor one client over another. Guggenheim's allocation policy provides that investment decisions must never be based upon account performance or fee structure. Accordingly, Guggenheim's allocation procedures are designed to ensure that investment opportunities are allocated equitably among different client accounts over time. The procedures also seek to ensure reasonable efficiency in client transactions and to provide portfolio managers with flexibility to use allocation methodologies appropriate to Guggenheim's investment disciplines and the specific goals and objectives of each client account.

In order to minimize execution costs and obtain best execution for clients, trades in the same security transacted on behalf of more than one client may be aggregated. In the event trades are aggregated, Guggenheim's policy and procedures provide as follows: (i) treat all participating client accounts fairly; (ii) continue to seek best execution; (iii) ensure that clients who participate in an aggregated order will participate at the average share price with all transaction costs shared on a pro-rata basis based on each client's participation in the transaction; (iv) disclose its aggregation policy to clients.

Guggenheim, as a fiduciary to its clients, considers numerous factors in arranging for the purchase and sale of clients' portfolio securities in order to achieve best execution for its clients. When selecting a broker, individuals making trades on behalf of Guggenheim clients consider the full range and quality of a broker's services, including execution capability, commission rate, price, financial stability and reliability. Guggenheim is not obliged to merely get the lowest price or commission but also must determine whether the transaction represents the best qualitative execution for the account.

In the event that multiple broker/dealers make a market in a particular security, Guggenheim's Portfolio Managers are responsible for selecting the broker-dealer to use with respect to executing the transaction. The broker-dealer will be selected on the basis of how the transaction can be executed to achieve the most favorable execution for the client under the circumstances. In many instances, there may only be one counter-party active in a particular security at a given time. In such situations the Employee executing the trade will use his/her best effort to obtain the best execution from the counter-party.

Guggenheim and the registrant have adopted certain compliance procedures which are designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

(a)(3) Portfolio Manager Compensation

Guggenheim compensates portfolio management staff for their management of the registrant's portfolio. Compensation is evaluated based on their contribution to investment performance relative to pertinent benchmarks and qualitatively based on factors such as teamwork and client service efforts. Guggenheim's staff incentives may include: a competitive base salary, bonus determined by individual and firm wide performance, equity participation, and participation opportunities in various Guggenheim investments. All Guggenheim employees are also eligible to participate in a 401(k) plan to which Guggenheim may make a discretionary match after the completion of each plan year.

(a)(4) Portfolio Securities Ownership

The following table discloses the dollar range of equity securities of the registrant beneficially owned by Steven Brown as of November 30, 2016:

Name of Portfolio Manager	Dollar Amount of Equity Securities in Registrant
Steven Brown	\$-0-

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers. None.

Item 10. Submission of Matters to a Vote of Security Holders.

The registrant has not made any material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Trustees.

Item 11. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act) as of a date within 90 days of this filing and have concluded based on such evaluation, as required by Rule 30a-3(b) under the Investment Company Act, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-CSR was recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act) that occurred during the registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

---

Item 12. Exhibits.

(a)(1) Not applicable.

(a)(2) Certifications of principal executive officer and principal financial officer pursuant to Rule 30a-2(a) of the Investment Company Act.

(a)(3) Not applicable.

(b) Certifications of principal executive officer and principal financial officer pursuant to Rule 30a-2(b) under the Investment Company Act and Section 906 of the Sarbanes-Oxley Act of 2002.

---
