FLEXSTEEL INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

FOR THE PERIOD ENDED MARCH 31, 2012

The consolidated financial statements included herein have been prepared by Flexsteel Industries, Inc. and Subsidiaries (the “Company” or “Flexsteel”), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The information furnished in the consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which are, in the opinion of management, necessary for a fair presentation of such consolidated financial statements. Operating results for the three and nine month periods ended March 31, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2012. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. Except to the extent updated or described below, the significant accounting policies set forth in Note 1 to the consolidated financial statements in the Company’s Annual Report on Form 10-K for the year ended June 30, 2011, appropriately represent, in all material respects, the current status of accounting policies and are incorporated by reference.

DESCRIPTION OF BUSINESS – Flexsteel was incorporated in 1929 and is one of the oldest and largest manufacturers, importers and marketers of upholstered and wooden furniture products in the country. Product offerings include a wide variety of upholstered and wood furniture such as sofas, loveseats, chairs, reclining and rocker-reclining chairs, swivel rockers, sofa beds, convertible bedding units, occasional tables, desks, dining tables and chairs and bedroom furniture. The Company’s products are intended for use in home, office, hospitality, health care and motor vehicle applications. Featured as a basic component in most of the upholstered furniture is a unique steel drop-in seat spring from which our name “Flexsteel” is derived. The Company distributes its products throughout the United States through the Company’s sales force and various independent representatives to furniture dealers, department stores, recreational vehicle manufacturers, catalogs, hospitality and healthcare facilities. The Company’s products are also sold to several national and regional chains, some of which sell on a private label basis.

2.

INVENTORIES

The Company values inventory at the lower of cost or market. Raw steel is valued on the last-in, first-out (“LIFO”) method. Other inventories are valued on the first-in, first-out (“FIFO”) method. Inventories valued on the LIFO method would have been approximately \$1.8 million higher at March 31, 2012 and \$1.9 million higher at June 30, 2011, if they had been valued on the FIFO method. At March 31, 2012 and June 30, 2011, the total value of LIFO inventory was \$2.2 million and \$1.5 million, respectively. A comparison of inventories is as follows (in thousands):

March	June 30,
31,	2011

	2012	
Raw materials	\$8,854	\$9,235
Work in process and finished parts	4,555	3,951
Finished goods	62,070	60,494
Total	\$75,479	\$73,680

3. BORROWINGS AND CREDIT ARRANGEMENTS

The Company maintains a credit agreement which provides short-term working capital financing of \$15.0 million with interest of LIBOR plus 1% with availability of \$10.0 million for letters of credit. No amounts were outstanding at March 31, 2012 and June 30, 2011 under the working capital facility. The Company is contingently liable to insurance carriers under its comprehensive general, product, and vehicle liability policies, as well as some workers' compensation, and has provided letters of credit in the amount of \$2.5 million. The credit agreement contains financial covenants. The primary covenant is an interest coverage ratio of 3.0 to 1.0. The ratio is computed as net income plus interest expense and stock-based compensation expense less dividends, divided by interest expense. In addition, the Company must maintain working capital of \$60 million. At March 31, 2012, the Company was in compliance with all of the financial covenants contained in the credit agreement.

An officer of the Company is a director at a bank where the Company maintains an unsecured \$8.0 million line of credit at prime minus 1%, but not less than 2.5%, and where its routine daily banking transactions are processed. No amount was outstanding on the line of credit at March 31, 2012 and June 30, 2011. In addition, the Rabbi Trust assets of \$6.0 million are administered by this bank's trust department. The Company receives no special services or pricing on the services performed by the bank due to the directorship of this officer.

4. STOCK-BASED COMPENSATION

The Company has two stock-based compensation methods available when determining employee compensation.

Long-Term Management Incentive Compensation Plan – The plan provides for shares of common stock and cash to be awarded to officers and key employees based on performance targets set by the Nominating and Compensation Committee of the Board of Directors (the “Committee”). The Company's shareholders approved 500,000 shares to be issued under the plan. As of March 31, 2012, 38,944 shares have been issued. The Committee selected consolidated operating results for organic net sales growth and fully-diluted earnings per share for the three-year performance periods beginning July 1, 2009 and ending on June 30, 2012, beginning July 1, 2010 and ending on June 30, 2013, and beginning July 1, 2011 and ending on June 30, 2014. The Committee has also specified that payouts, if any, for awards earned in these performance periods will be 60% stock and 40% cash. Awards will be paid to participants as soon as practicable following the end of the performance periods subject to Committee approval and verification of results. The compensation cost related to the number of shares to be granted under each performance period is fixed on the grant date, which is the date the performance period begins. The compensation cost related to the cash portion of the award is re-measured based on the equity award's estimated fair value at the end of each reporting period. The accrual is based on the probable outcomes of the performance conditions. The short-term portion of the recorded cash award payable is classified within current liabilities, payroll and related items, and the long-term portion of the recorded cash award payable is classified within other long-term liabilities in the Consolidated Balance Sheets. As of March 31, 2012 and June 30, 2011, the Company has recorded cash awards payable of \$0.9 million and \$0.4 million within current liabilities and \$0.5 million and \$0.7 million within long-term liabilities, respectively. During the quarters ended March 31, 2012 and 2011, the Company recorded expense of \$0.7 million and \$0.2 million, respectively. For the nine month periods ended March 31, 2012 and 2011, the Company recorded expense of \$1.1 million and \$1.0 million, respectively.

If the target performance goals would be achieved, the total amount of compensation cost recognized over the requisite service periods would be \$1.2 million (2010-2012), \$1.1 million (2011-2013) and \$1.0 million (2012-2014) based on the estimated fair values at March 31, 2012.

Stock Option Plans – The stock option plans for key employees and directors provide for the granting of incentive and nonqualified stock options. Under the plans, options are granted at an exercise price equal to the fair market value of the underlying common stock at the date of grant, and may be exercisable for up to 10 years. All options are exercisable when granted.

At March 31, 2012, 343,850 shares were available for future grants. It is the Company's policy to issue new shares upon exercise of stock options. The Company accepts shares of the Company's common stock as payment for the exercise price of options. These shares received as payment are retired upon receipt.

Edgar Filing: FLEXSTEEL INDUSTRIES INC - Form 10-Q

A summary of the status of the Company's stock option plans as of June 30, 2010 and 2011 and March 31, 2012 and the changes during the periods then ended is presented below:

	Shares (in thousands)	Weighted Average Exercise Price	Aggregate Intrinsic Value (in thousands)
Outstanding and exercisable at June 30, 2010	1,052	\$ 12.70	\$ 1,168
Granted	88	17.23	
Exercised	(91)	) 7.41	
Canceled	(3)	) 17.30	
Outstanding and exercisable at June 30, 2011	1,046	13.56	2,271
Granted	83	13.87	
Exercised	(71)	) 8.30	
Canceled	(5)	) 17.12	
Outstanding and exercisable at March 31, 2012	1,053	\$ 13.94	4,535

The following table summarizes information for options outstanding and exercisable at March 31, 2012:

Range of Prices	Options Outstanding (in thousands)	Weighted Average Remaining Life (Years)	Exercise Price
\$6.81 – 8.55	191	7.3	\$ 7.80
12.35 – 13.90	307	6.4	12.88
14.40 – 16.52	346	2.6	15.55
17.23 – 20.27	209	4.6	18.46
\$6.81 – 20.27	1,053	5.0	\$ 13.94

5.

INCOME TAXES

In determining the quarterly provision for income taxes, the Company uses an estimated annual effective tax rate, which is based on the expected annual income, statutory tax rates and tax planning opportunities available to the Company in the various jurisdictions in which it operates. This includes recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns to the extent pervasive evidence exists that they will be realized in future periods. The deferred tax balances are adjusted to reflect tax rates by tax jurisdiction, based on currently enacted tax laws, which are expected to be in effect in the years in which the temporary differences are expected to reverse. In accordance with the Company's income tax policy, significant or unusual items are separately recognized in the quarter in which they occur.

The components of the gross liabilities related to unrecognized tax benefits and the related deferred tax assets are as follows (in thousands):

	March 31, 2012	June 30, 2011
Gross unrecognized tax benefits	\$975	\$970
Accrued interest and penalties	375	340
Gross liabilities related to unrecognized tax benefits	\$1,350	\$1,310
Deferred tax assets	\$340	\$330

The recognition of the above amounts would impact the Company's effective tax rate. The Company does not expect that there will be any positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly increase or decrease within twelve months. The Company records interest and penalties related to income taxes as income tax expense in the Consolidated Statements of Operations.

6.

EARNINGS PER SHARE

Basic earnings per share (“EPS”) of common stock are based on the weighted-average number of common shares outstanding for each period. Diluted EPS of common stock includes the dilutive effect of potential common shares outstanding. The Company’s potential common shares outstanding are stock options and shares associated with the long-term management incentive compensation plan. The Company calculates the dilutive effect of outstanding options using the treasury stock method. The anti-dilutive shares were not included in the computation of diluted EPS as their exercise prices were greater than the average closing market price of the common shares for the three and nine month periods ended March 31, 2012. The Company calculates the dilutive effect of shares related to the long-term management incentive compensation plan based on the number of shares, if any, that would be issuable if the end of the fiscal year were the end of the contingency period.

In computing EPS for the three and nine months ended March 31, 2012 and 2011, net income as reported for each respective period is divided by (in thousands):

	Three Months Ended March 31, 2012		Nine Months Ended March 31, 2011	
Basic shares	6,777	6,710	6,756	6,687
Potential common shares:				
Stock options	165	162	136	142
Long-term incentive plan	75	96	78	81
	240	258	214	223
Diluted shares	7,017	6,968	6,970	6,910
Anti-dilutive shares	420	424	420	424

7.

LITIGATION

The Company has been named as one of several defendants in an Indiana civil lawsuit related to groundwater contamination. The lawsuit alleges that the contamination source is a property once owned by the Company. The Company does not believe that it caused or contributed to the contamination. This lawsuit is in its preliminary stages. Plaintiffs have not identified a dollar amount of their alleged damages and the status of insurance coverage has not been determined. We are unable to estimate a range of reasonably possible outcomes or losses at this time.

Accordingly, no accrual related to this matter has been recorded in the March 31, 2012 financial statements. During the three and nine months ended March 31, 2012, legal and other related expenses of \$0.8 million and \$1.9 million have been incurred responding to this lawsuit and are included in Selling, General and Administrative expense in the

Consolidated Statement of Operations.

Other Proceedings – From time to time, the Company is subject to various other legal proceedings, including lawsuits, which arise out of, and are incidental to, the conduct of the Company's business. The Company does not consider any of such other proceedings that are currently pending, individually or in the aggregate, to be material to its business or likely to result in a material effect on its consolidated operating results, financial condition, or cash flows.

8.

ACCOUNTING DEVELOPMENTS

In September 2011, the FASB issued ASU 2011-09 which pertains to employer's participation in multiemployer benefit plans, amending ASC 715-80. ASU 2011-09 enhances the disclosures about significant multiemployer plans in which an employer participates, the level of the employer's participation, the financial health of the plans and the nature of the employer's commitments to the plans. The new disclosure requirements are required for fiscal years ending after December 15, 2011 and there will be no financial impact on the Company.

9. FACILITY CLOSING COSTS

During the nine months ended March 31, 2011, the Company closed a manufacturing facility and recorded pre-tax charges for facility closing costs of \$1.0 million. The charges represented employee separation costs of \$0.6 million and other closing costs of \$0.4 million with no future benefit to the Company and are classified as "Facility Closing Costs" in the Consolidated Statements of Operations. At March 31, 2011, \$0.1 million remained to be paid and was included in other current liabilities. The \$1.0 million was fully paid as of June 30, 2011.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL:

The following analysis of the results of operations and financial condition of the Company should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this quarterly report on Form 10-Q.

CRITICAL ACCOUNTING POLICIES:

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", included in our 2011 annual report on Form 10-K.

Overview

The following table has been prepared as an aid in understanding the Company's results of operations on a comparative basis for the three and nine months ended March 31, 2012 and 2011. Amounts presented are percentages of the Company's net sales.

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2012	2011	2012	2011
Net sales	100.0%	100.0%	100.0%	100.0%

Edgar Filing: FLEXSTEEL INDUSTRIES INC - Form 10-Q

Cost of goods sold	(75.9)	(78.6)	(76.2)	(77.8)
Gross margin	24.1	21.4	23.8	22.2
Selling, general and administrative	(18.5)	(17.1)	(18.6)	(17.6)
Facility closing costs	—	—	—	(0.4)
Operating income	5.6	4.3	5.2	4.2
Other income	0.1	0.1	0.1	0.1
Income before income taxes	5.7	4.4	5.3	4.3
Income tax expense	(2.1)	(1.5)	(1.9)	(1.6)
Net income	3.6 %	2.9 %	3.4 %	2.7 %

Results of Operations for the Quarter Ended March 31, 2012 vs. 2011

The following table compares net sales in total and by area of application for the quarter ended March 31, 2012 to the prior year quarter.

Area of Application	Net Sales (in thousands)		\$ Change		% Change
	2012	2011	(in thousands)		
Residential	\$71,183	\$64,938	\$ 6,245	9.6	%
Commercial	20,448	20,237	211	1.0	%
Total	\$91,631	\$85,175	\$ 6,456	7.6	%

Gross margin for the quarter ended March 31, 2012 was 24.1% compared to 21.4% in the prior year quarter. This improvement is due to better absorption of fixed costs and the adverse impact of increases in materials costs in the prior year quarter.

Selling, general and administrative expenses for the quarter ended March 31, 2012 were \$17.0 million or 18.5% of net sales compared to \$14.6 million or 17.1% of net sales in the prior year quarter. The current year quarter includes an increase in legal and professional fees of \$0.9 million, or 1% of sales, primarily related to an Indiana civil lawsuit.

Operating income for the current quarter was \$5.1 million compared to operating income of \$3.6 million in the prior year quarter reflecting the aforementioned factors.

The effective income tax expense rate for the current fiscal quarter was 36.5% compared to an income tax expense rate of 35.0% in the prior year fiscal quarter. The effective rates include the federal statutory rate as well as the effect of the various state taxing jurisdictions.

The above factors resulted in current quarter net income of \$3.3 million or \$0.48 per share, compared to net income of \$2.5 million or \$0.35 per share in the prior year quarter.

All earnings per share amounts are on a diluted basis.

Results of Operations for the Nine Months Ended March 31, 2012 vs. 2011

The following table compares net sales in total and by area of application for the nine months ended March 31, 2012 to the prior year nine month period.

Area of Application	Net Sales (in thousands) Nine Months Ended March 31,		\$ Change		% Change	
	2012	2011	(in thousands)			
Residential	\$200,674	\$193,691	\$ 6,983		3.6	%
Commercial	57,479	61,535	(4,056)	)	(6.6	%)
Total	\$258,153	\$255,226	\$ 2,927		1.1	%

Edgar Filing: FLEXSTEEL INDUSTRIES INC - Form 10-Q

Gross margin for the nine months ended March 31, 2012 was 23.8% compared to 22.2% in the prior year nine-month period. Gross margin for the prior year nine-month period was adversely impacted by inventory write-downs of \$0.6 million associated with closing a facility and increases in materials costs.

Selling, general and administrative expenses were \$48.1 million or 18.6% of net sales, including a \$2.0 million increase in legal and professional fees, primarily related to an Indiana civil lawsuit, and a \$1.1 million decrease in bad debt expense compared to the prior year. Selling, general and administrative expenses were \$45.0 million or 17.6% of net sales in the prior year nine-month period ended March 31, 2011.

Operating income for the current nine month period was \$13.4 million compared to operating income of \$10.7 million in the prior year nine-month period reflecting the aforementioned factors. During the prior year nine-month period the Company recorded a pre-tax charge of \$1.0 million to facility closing costs for employee separation and other closing costs.

The effective income tax expense rate for the current nine month period was 37.0% compared to an income tax expense rate of 36.4% in the prior year nine-month period. The effective rates include the federal statutory rate as well as the effect of the various state taxing jurisdictions.

The above factors resulted in net income for the current nine-month period of \$8.7 million or \$1.24 per share, compared to net income of \$6.9 million or \$1.00 per share in the prior year nine-month period.

All earnings per share amounts are on a diluted basis.

Liquidity and Capital Resources

At March 31, 2012, the Company had \$19.3 million in cash and borrowing availability of \$20 million.

Operating Activities:

Working capital (current assets less current liabilities) at March 31, 2012 was \$103.6 million. Net cash provided by operating activities was \$8.6 million during the nine months ended March 31, 2012. Net income of \$8.7 million, increased accrued liabilities of \$2.3 million and depreciation of \$2.1 million were offset by a \$2.4 million increase in accounts receivable and a \$1.8 million increase in inventory. Depreciation expense was \$2.1 million and \$2.0 million in the nine-month periods ended March 31, 2012 and 2011, respectively.

The Company expects that due to the nature of our operations that there will be continuing fluctuations in accounts receivable, inventory, accounts payable, and cash flows from operations due to the following: (i) we purchase inventory from overseas suppliers with long lead times and depending on the timing of the delivery of those orders, inventory levels can be greatly impacted, and (ii) we have various customers that purchase large quantities of inventory periodically and the timing of those purchases can significantly impact inventory levels, accounts receivable, accounts payable and short-term borrowings. As discussed below, the Company believes it has adequate financing arrangements and access to capital to absorb these fluctuations in operating cash flow.

Investing Activities:

Net cash used in investing activities was \$5.6 million during the nine-month period ended March 31, 2012. During the nine months ended March 31, 2012 capital expenditures were \$5.3 million, including \$3.6 million related to the on-going construction of a corporate office building. The Company expects that capital expenditures will be approximately \$7.0 million for the remainder of the 2012 fiscal year including costs related to construction, furnishing and equipping the corporate office building which is expected to be completed by August 2012.

Financing Activities:

Net cash used in financing activities was \$1.7 million during the nine-month period ended March 31, 2012. Dividends of \$1.9 million were paid during the nine-month period partially offset by cash received from the exercise of stock options.

Management believes that the Company has adequate cash and credit arrangements to meet its operating and capital requirements for fiscal year 2012. In the opinion of management, the Company's liquidity and credit resources provide it with the ability to react to opportunities as they arise, to pay quarterly dividends to its shareholders, and to purchase productive capital assets that enhance safety and improve operations. The Company has begun the process of

obtaining a renewal of its working capital line of credit that expires June 30, 2012. The Company believes that it will be able to successfully renew the terms of the current agreement prior to its expiration date.

Outlook

The Company believes that modest overall top line growth will continue through the end of calendar year 2012. Orders for residential upholstered products have improved significantly in relation to prior year levels and we expect that trend to continue through the end of the calendar year. Our commercial office order rate has increased modestly. The Company is expecting flat order trends for vehicle and hospitality seating products for the remainder of the calendar year.

The Company remains committed to its core strategies, which include a wide range of quality product offerings and price points to the residential and commercial markets, combined with a conservative approach to business. We will maintain our focus on a strong balance sheet through emphasis on cash flow and improving profitability. We believe these core strategies are in the best interest of our shareholders.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

General – Market risk represents the risk of changes in the value of a financial instrument, derivative or non-derivative, caused by fluctuations in interest rates, foreign exchange rates and equity prices. As discussed below, management of the Company does not believe that changes in these factors could cause material fluctuations in the Company's results of operations or cash flows. The ability to import furniture products can be adversely affected by political issues in the countries where suppliers are located, disruptions associated with shipping distances and negotiations with port employees. Other risks related to furniture product importation include government imposition of regulations and/or quotas; duties and taxes on imports; and significant fluctuation in the value of the U.S. dollar against foreign currencies. Any of these factors could interrupt supply, increase costs and decrease earnings.

Foreign Currency Risk – During the three and nine months ended March 31, 2012 and 2011, the Company did not have sales, purchases, or other expenses denominated in foreign currencies. As such, the Company is not exposed to material market risk associated with currency exchange rates and prices.

Interest Rate Risk – The Company’s primary market risk exposure with regard to financial instruments is changes in interest rates. The Company does not have any debt outstanding at March 31, 2012.

Inflation – Increased operating costs are reflected in product or services pricing with any limitations on price increases determined by the marketplace. Inflation or other pricing pressures could impact raw material costs, labor costs and interest rates which are important components of costs for the Company and could have an adverse effect on our profitability, especially where increases in these costs exceed price increases on finished products.

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective as of March 31, 2012.

(b) *Changes in internal control over financial reporting.* During the quarter ended March 31, 2012, there were no significant changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended) that has materially affected, or is reasonably likely to materially affect the Company’s internal control over financial reporting.

Cautionary Statement Relevant to Forward-Looking Information for the Purpose of “Safe Harbor” Provisions of the Private Securities Litigation Reform Act of 1995

The Company and its representatives may from time to time make written or oral forward-looking statements with respect to long-term goals or anticipated results of the Company, including statements contained in the Company’s filings with the Securities and Exchange Commission and in its reports to stockholders.

Statements, including those in this Quarterly Report on Form 10-Q, which are not historical or current facts, are “forward-looking statements” made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. There are certain important factors that could cause our results to differ materially from those anticipated

by some of the statements made herein. Investors are cautioned that all forward-looking statements involve risk and uncertainty. Some of the factors that could affect results are the cyclical nature of the furniture industry, supply chain disruptions, litigation, the effectiveness of new product introductions and distribution channels, the product mix of sales, pricing pressures, the cost of raw materials and fuel, retention and recruitment of key employees, actions by governments including laws, regulations, taxes and tariffs, inflation, the amount of sales generated and the profit margins thereon, competition (both U.S. and foreign), credit exposure with customers, participation in multi-employer pension plans and general economic conditions. For further information regarding these risks and uncertainties, see the “Risk Factors” section in Item 1A of our most recent Annual Report on Form 10-K.

The Company specifically declines to undertake any obligation to publicly revise any forward-looking statements that have been made to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

PART II OTHER INFORMATION

Item 1A. Risk Factors

There has been no material change in the risk factors set forth under Part 1, Item 1A “Risk Factors” in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2011.

Item 6. Exhibits

31.1 Certification

31.2 Certification

32 Certification by Chief Executive Officer and Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
