THIRD QUARTER 2003(1):

## Edgar Filing: SANOFI SYNTHELABO SA - Form 6-K

- o Acceleration in sales growth:
  - Consolidated sales: 2,037 million euros, up 16.4% (9.2% on a reported basis).
  - Developed sales: 2,718 million euros, up 22.0%.
- o Very strong growth of Plavix(R) in Europe and the United States.
- o Dynamic momentum for Aprovel(R)/Avapro(R) developed sales in the United States and robust growth rate maintained in Europe.
- o Success of Eloxatin(R) confirmed. Priority review granted in September 2003 by the Food and Drug Administration in the United States for the first line treatment of metastatic colorectal cancer.
- o Growth in prescriptions of Ambien(R) maintained in the United States (13.9%(2) in the third quarter plus a favorable price effect). 6.3% decline in consolidated US sales as a result of extraordinary high sales level on the third quarter of 2002 in anticipation of the November 2002 price rise.

### FIRST NINE MONTHS 2003 (1):

- o Consolidated sales up 15.1% (7.1% on a reported basis) at 5,940 million euros
- o Developed sales up 17.4% at 7,631 million euros

- (1) Unless otherwise indicated, growth rates are on a comparable basis
- (2) Prescriptions IMS third quarter 2003 retail + mail order + long term care

### Consolidated sales

-----

Sanofi-Synthelabo generated consolidated sales of 5,940 million euros in the 9 months to end September 2003, an increase of 15.1% on a comparable basis and 7.1% on a reported basis. Currency fluctuations had an unfavorable impact of 7.5 percentage points to end September. Of this, over half was due to the weakening of the US dollar, and the rest to the weakness of some Latin American and Asian currencies. Changes in Group structure(3) had an unfavorable impact of 0.5 of a percentage point over the 9-month period.

Consolidated sales for the third quarter of 2003 were 2,037 million euros, a rise of 16.4% on a comparable basis and 9.2% on a reported basis. During the quarter, currency fluctuations had an unfavorable impact of 6.9 percentage points and changes in Group structure an unfavorable impact of 0.3 of a percentage point.

- In Europe, consolidated sales to end September were 3,473 million euros, up 9.5% on a comparable basis (8.2% on a reported basis), a higher growth rate than that of the market (+7.4% IMS YTD retail to end August). The third quarter saw an acceleration in comparable-basis sales growth to 13.0% (11.6% on a reported basis), compared with 7.9% in the first half of 2003.
- In the United States, consolidated sales to end September reached 1,413 million euros, a rise of 34.6% on a comparable basis and 14.0% on a reported basis; the difference was entirely due to fluctuations in the dollar/euro exchange rate. This performance was due largely to the continuing success of Eloxatin(R), which posted sales of 334 million euros to end September. Third-quarter consolidated sales in the United States rose by 26.3% on a comparable basis, despite a decline in sales of Ambien(R) (down 6.3% on a comparable basis) due to unfavorable comparatives.
- In the rest of the world, sustained growth in Asia and a recovery in Latin American operations resulted in sales of 1,054 million euros to end September, up 12.0% on a comparable basis but down 4.0% on a reported basis. Third-quarter sales rose by 14.1% on a comparable basis and 1.7% on a reported basis.

### Consolidated sales by product

Consolidated sales of the top 10 products to end September totaled 3,984 million euros, an increase of 28.4% on a comparable basis and 19.5% on a reported basis. The comparable-basis growth rate for the top 10 products during the third quarter was 24.8%.

- 
- (3) Primarily, change from full consolidation to 51% proportionate consolidation of Sanofi-Synthelabo-Fujisawa (Taiwan) in May 2002

The top 10 products accounted for 67.1% of consolidated sales to end September, compared with 60.1% on a comparable basis in the nine months to end September 2002.

During the first nine months of 2003:

- Consolidated sales of Stilnox(R)/Ambien(R)/Myslee(R) were 995 million euros, up 10.3% on a comparable basis but down 6.4% on a reported basis. This difference is related to the impact of movements in the dollar/euro exchange rates, most of the product's sales being generated in the United States (831 million euros to end September, up 10.5% on a comparable basis). Third-quarter sales of Ambien(R) in the United States (315 million euros) were in line with demand, which rose by 13.9% (prescriptions IMS third quarter 2003 retail + mail order + long term care) with a favorable price effect, but fell by 6.3% on a comparable basis as a result of unfavorable comparatives. This was because the third quarter of 2002 saw a build-up of Ambien(R) inventories held by American wholesalers in anticipation of the November 2002 price rise. Inventory levels of Ambien(R) in the United States at end September 2003 were similar to those at end June 2003.  
In Japan, consolidated sales of Myslee(R) were 36 million euros, up 38.5% on a comparable basis.
- Consolidated sales of Plavix(R) came to 964 million euros, up 36.0% on a comparable basis. Excluding sales of active ingredient and finished product to Bristol-Myers Squibb, consolidated sales growth for Plavix(R) was 44.0%.
- Consolidated sales of Eloxatin(R) were 600 million euros, a rise of 174.0% on a comparable basis. This very strong growth reflects the continuing success of Eloxatin(R) in the United States, where sales reached 334 million euros. Outside the United States, sales of the product increased by 40.0% on a comparable basis to 266 million euros.
- Consolidated sales of Aprovel(R) were 506 million euros, up 26.8% on a comparable basis.

Apart from the top 10 products, the rest of the portfolio generated sales of 1,956 million euros to end September 2003, a decline of 5.0% on a comparable basis. Stripping out the fall in sales of Ticlid(R) and the virtual disappearance of sales of Corotrope(R)/Primacor(R) (since the introduction of generics in the United States in May 2002), sales of the other products in the portfolio rose by 1%.

Consolidated sales of Arixtra(R) remained low at 13 million euros. In July 2003, files were submitted in the United States and Europe seeking approval for Arixtra(R) as a curative treatment for thromboembolic events.

### Developed sales(4)

In the nine months to end September, developed sales, which represent the worldwide market presence of Sanofi-Synthelabo products, reached 7,631 million euros, an increase of 17.4% on a comparable basis. Third-quarter developed sales rose by 22.0 % on a comparable basis.

### Developed sales of Plavix(R)/Iscover(R)

Developed sales of Plavix(R) (R)/Iscover(R) (R) to end September 2003 came to 2,233 million euros.

In the United States, third-quarter invoiced sales of Plavix(R) (520 million euros) advanced by 41.3% on a comparable basis. Over the first 9 months of the year, demand for Plavix(R) continued to grow at a strong pace, with prescriptions up 26.5% (Prescriptions IMS YTD September 2003 retail + mail order + long term care), coupled with a favorable price effect.

Outside the United States, third-quarter sales growth was particularly buoyant, reaching 52.8% in Europe and 55.9% in the rest of the world on a comparable basis.

- (4) Developed sales include Sanofi-Synthelabo consolidated sales and sales generated under the agreements with Bristol-Myers Squibb on Plavix(R)/Iscover(R) (clopidogrel) and Aprovel(R)/Avapro(R)/Karvea(R) (irbesartan), with Fujisawa on Stilnox(R)/Myslee(R) (zolpidem), and with Organon on Arixtra(R) (fondaparinux) (see explanatory note).

Developed sales of Aprovel(R) /Avapro(R) /Karvea(R) to end September 2003 were 901 million euros.

In the United States, third-quarter invoiced sales of Avapro(R) came to 95 million euros, an increase of 61.0% on a comparable basis. This growth rate reflects invoiced sales in line with demand over the quarter plus favorable comparatives, Bristol-Myers Squibb having initiated its inventory workdown of Avapro(R) in the United States in the third quarter of 2002. Over the first 9 months of the year, volume growth in demand was 14.1% (Prescriptions IMS YTD

## Edgar Filing: SANOFI SYNTHELABO SA - Form 6-K

September 2003 retail + mail order + long term care); this was coupled with a favorable price effect.

Outside the United States, third-quarter comparable-basis sales growth was 23.3% in Europe and 36.6% in the rest of the world.

### OUTLOOK FOR 2003:

The third-quarter performance allows to confirm the full-year forecasts as upgraded on September 2nd, 2003:

- o Growth in the region of 15% on a comparable basis in 2003 full-year sales.
- o Growth of close to 20% in full-year 2003 EPS(5) expected at an average annual rate of 1.10 dollars to one euro. The sensitivity of this growth rate to fluctuations in the dollar is 1% for a 3-cent movement.

### Explanatory notes:

All figures in this press release are in French GAAP.

In this press release, we refer to our historical sales as "reported" sales. In addition to reported sales, we also present and discuss two other non-GAAP indicators that we believe are useful measurement tools to explain changes in our reported sales:

Comparable sales: When we refer to the change in our sales on a "comparable" basis, we mean that we exclude the impact of exchange rate fluctuations and changes in Group structure (acquisitions and divestitures of entities and rights

## Edgar Filing: SANOFI SYNTHELABO SA - Form 6-K

to products as well as change in the consolidation percentage for consolidated entities).

For any two periods, we exclude the impact of exchange rates by recalculating sales for the earlier period on the basis of exchange rates used in the later period.

We exclude the impact of acquisitions by including sales for a portion of the prior period equal to the portion of the current period during which we owned the entity or product rights based on sales information we receive from the party from whom we make the acquisition. Similarly, we exclude sales in the relevant portion of the prior period when we have sold an entity or rights to a product.

For a change in the consolidation percentage of a consolidated entity, the prior period is recalculated on the basis of the consolidation method used for the current period.

**Developed sales** When we refer to "developed sales" of a product, we mean consolidated sales, excluding sales of products to our alliance partners, but including those that are made through our alliances and which are not included in our consolidated sales (with Bristol-Myers Squibb on Plavix (R) /Iscover (R) (clopidogrel) and Aprovel (R) /Avapro (R) /Karvea (R) (irbesartan), with Fujisawa on Stilnox (R) /Myslee (R) (zolpidem), and with Organon on Arixtra (R) (fondaparinux)). Our alliance partners provide us with information regarding their sales in order to allow us to calculate developed sales.

We believe that developed sales are useful measurement tool because they demonstrate trends in the overall presence of our products in the market.

This release contains statements that constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations or beliefs and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others that are described in our Form 20-F as filed with the US Securities and Exchange Commission on June 25, 2003 and in the Reference Document filed with the French Commission des Operations de Bourse on April 23, 2003, could cause actual results to differ materially from those described in the forward-looking statements: the ability of Sanofi-Synthelabo to expand its presence profitably in the United States; the success of Sanofi-Synthelabo's research and development programs; the ability of Sanofi-Synthelabo to protect its intellectual property rights; and the risks associated with reimbursement of health care costs and pricing reforms, particularly in the United States and France. Sanofi-Synthelabo does not undertake any obligation to provide updates or to revise any forward-looking statements.
