Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240-13e-4(c))

Item 7.01. Regulation FD Disclosure.

On November 14, 2016, Energy Focus, Inc. (the “Company”) announced its financial results for the quarter ended September 30, 2016. At 11am ET on November 14, 2016 James Tu, Chief Executive Officer and President, and Michael Port, Interim Chief Financial Officer, held a conference call and webcast with analysts and interested investors. The Company is furnishing a copy of the prepared remarks from the call with this Report as Exhibit 99.1. Additionally, the Company will make the prepared remarks available under the Investors tab of its website until February 12, 2017.

The information under this Item in this Report, as well as Exhibit 99.1, is being furnished and shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities of that Section. The information under this Item in this Report, and the Exhibit, shall not be incorporated by reference into any registration statement or other document filed pursuant to the Securities Act of 1933.

This Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements in this release are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Generally, these statements can be identified by the use of words such as “believes,” “estimates,” “anticipates,” “expects,” “seeks,” “projects,” “intends,” “plans,” “may,” “will,” “should,” “could,” “would” and similar expressions intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts and include statements regarding our current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies, capital expenditures, our product development capabilities, new product release timing, energy savings and other benefits of LED lighting technology, and the industry in which we operate. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this Report. We believe that important factors that could cause our actual results to differ materially from forward-looking statements include, but are not limited to: our dependence on a limited number of customers for a significant portion of our revenue, in particular, our sales for the U.S. Navy, and on the levels of funding available to such customers and our ability to maintain or grow such sales levels; our history of operating losses and our ability to generate sufficient cash from operations or receive sufficient financing, on acceptable terms, to continue our operations or fund our growth; general economic conditions in the United States and in other markets in which we operate; our ability to compete effectively against

companies with greater resources; our ability to increase demand in our targeted markets and manage sales cycles that are difficult to predict and span several quarters; the timing of large orders and significant expenses as we invest in growth opportunities; market acceptance of LED lighting technology; our compliance with government contracting laws and regulations, through both direct and indirect sales channels; our ability to respond to new lighting technologies and market trends with safe, reliable, energy-efficient, and effective products and to bring such products to market in a timely manner and at an appropriate price point; any delays we may encounter in making new products available or fulfilling customer specifications; satisfactory and timely testing and completion of product certification requirements; our ability to protect our intellectual property rights and the impact of any type of legal claim or dispute; our ability to obtain critical components and finished products from a limited number of third-party suppliers on acceptable terms and the impact of our fluctuating demand on the stability of such suppliers; our ability to attract and retain qualified personnel; and our ability to maintain effective internal controls and otherwise comply with our obligations as a public company. In light of the foregoing, we caution you not to place undue reliance on our forward-looking statements. Any forward-looking statement that we make in this Report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statement or to publicly announce the results of any revision to any of those statements to reflect future events or developments.

Item 9.01 Financial Statements and Exhibits.
