Nicholas-Applegate Convertible & Income Funds Letter to Shareholders

April 15, 2010

Dear Shareholder:

Please find enclosed the annual reports for the Nicholas-Applegate Convertible & Income Fund and Nicholas-Applegate Convertible & Income Fund II (collectively, the Funds) for the fiscal year ended February 28, 2010.

Global stocks and convertible bonds advanced during the period, which began only weeks ahead of the market's rebound from a 16-month bear market. During the fiscal period, investors displayed confidence in improving liquidity and economic conditions, increasing their portfolios exposures to riskier assets and reducing exposure to lower-yielding government bonds. In this environment, the Merrill Lynch All Convertibles All Qualities Index, an unmanaged index generally representative of the convertible securities market, returned 54.42% its best 12-month return in more than a decade. The S&P 500 Index, an unmanaged index that is generally representative of the U.S. stock market, advanced 53.62%, its best 12-month return since July 1982. In contrast, the Barclays Capital U.S. Treasury Bond Index returned 1.83% for the twelve months ended February 28, 2010.

For specific information on the Funds and their performance, please review the following pages. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or call the Funds' shareholder servicing agent at (800) 254-5197. Fund Insights

February 28, 2010 (unaudited)

For the fiscal year ended February 28, 2010, Nicholas-Applegate Convertible & Income Fund returned 111.98% on net asset value (NAV) and 166.37% on market price.

For the fiscal year ended February 28, 2010, Nicholas-Applegate Convertible & Income Fund II returned 115.57% NAV and 174.62% on market price.

In 2008, convertible and high yield investors endured the worst-performing year in history. For the 12-month period ended February 28, 2010 both the Convertible and High Yield markets experienced one of their best performing periods in history. The Merrill Lynch All Convertibles All Qualities Index returned 54.42% while the Merrill Lynch High Yield Master II Index returned 57.56% during this period.

Risks associated with the financial industry and corporate viability in late 2008 and early 2009 failed to materialize. The economy, as measured by many government statistics, turned positive during the fiscal year.

In addition to broad economic statistics and technical factors such as access to capital, corporate profits took center stage during the period and quarterly-earnings reports were generally better than expected for the last two quarters of 2009.

Leading performing industries during the fiscal year included airlines, materials and automotives, technology and industrials. In general, bonds of all quality ratings within these industries experienced a rally. CCC-rated issuers were the highest-performing rating subgroup in high yield.

New issuance of convertibles picked up during the last quarter of 2009, but was still below expectations. In 2009, \$37.2 billion was raised in the convertible new issuance market. For high yield, the trend was more, more and more. For 2009, 408 issues priced, raising more than \$180 billion.

Both Funds performance benefited from overweight positions in industrials, materials, and financials during the reporting period. Copper-related companies and regional banks also performed particularly well.

Despite positive performance in technology and energy, the Funds underweighted positions in these industries adversely impacted performance.

(1) **Past performance is no guarantee of future results.** Total return is calculated by determining the percentage change in net asset value (NAV) or market price (as applicable) in the specified period. The calculation assumes that all income dividends and capital gain distributions, if any, have been reinvested. Total return does not reflect broker commissions or sales charges. Total return for a period of more than one year represents the average annual total return.

Performance at market price will differ from its results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Fund, market conditions, supply/demand for the Fund's shares, or changes in Fund dividends.

An investment in the Fund involves risk, including the loss of principal. Total return, market price, market yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is a onetime public offering and once issued, shares of closed-end funds are traded in the open market on a stock exchange. NAV is equal to total assets attributable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

(2) Market Price Yield is determined by dividing the annualized current monthly per share dividend (comprised of net investment income) payable to common shareholders by the market price per common share at February 28, 2010.

Nicholas-Applegate Convertible & Income Funds Notes to Financial Statements

February 28, 2010

1. Organization and Significant Accounting Policies

Nicholas-Applegate Convertible & Income Fund (Convertible & Income) and Nicholas-Applegate Convertible & Income Fund II (Convertible & Income II), collectively referred to as the Funds , were organized as Massachusetts business trusts on January 17, 2003 and April 22, 2003, respectively. In December 2005, Convertible & Income II changed its fiscal year end from June 30 to February 28. Prior to commencing operations on March 31, 2003, and July 31, 2003, respectively, the Funds had no operations other than matters relating to their organization and registration as diversified, closed-end management investment companies under the Investment Company Act of 1940 and the rules and regulations there under, as amended. Allianz Global Investors Fund Management LLC (the Investment Manager) serves as the Funds Investment Manager and is an indirect, wholly-owned subsidiary of Allianz Global Investors of America L.P. (Allianz Global). Allianz Global is an indirect, wholly-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has an unlimited amount of \$0.00001 par value per share of common stock authorized.

Each Funds investment objective is to provide total return through a combination of capital appreciation and high current income. The Funds attempt to achieve this objective by investing in a portfolio of convertible securities and non-convertible income-producing securities. There can be no assurance that the Funds will achieve their stated objectives.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

In the normal course of business, the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred.

The following is a summary of significant accounting policies consistently followed by the Funds:

(a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services.

Portfolio securities and other financial instruments for which market quotations are not readily available or for which a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Trustees, or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Funds investments are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the mean between the last quoted bid and ask price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Synthetic convertible securities are valued based on quotations obtained from unaffiliated brokers who are the principal market-makers in such securities. Such valuations are derived by the brokers from proprietary models which are generally based on readily available market information including valuations of the common stock underlying the synthetic security. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days less or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and these differences could be material to each Fund s financial statements. Each Fund s net asset value is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open for business.

1. Organization and Significant Accounting Policies (continued)**(b) Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the exit price) in an orderly transaction between market participants. The three levels of the fair value hierarchy under are described below:

Level 1 quoted prices in active markets for identical investments that the Funds have the ability to access

Level 2 valuations based on other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.) or quotes from inactive exchanges

Level 3 valuations based on significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in the aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation technique used.

The valuation techniques used by the Funds to measure fair value during the fiscal year ended February 28, 2010 maximized the use of observable inputs and minimized the use of unobservable inputs. When fair-valuing securities, the Funds utilized multi-dimensional relational pricing models.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A summary of the inputs used at February 28, 2010 in valuing each Fund's assets and liabilities are listed below:

There was no change in net unrealized appreciation/depreciation of investments which the Funds held at February 28, 2010. Change in unrealized appreciation/depreciation is recorded on the Statements of Operations.

In January 2010, the Financial Accounting Standards Board released ASU 2010-06, Improving Disclosures About Fair Value Measurements. ASU 2010-06 is effective for annual and interim reporting periods beginning after December 15, 2009. The Funds' management is in the process of reviewing ASU 2010-06 to determine future applicability.

(c) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded on ex-dividend date. Interest income, adjusted for the accretion of discount, is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Conversion premium is not amortized. Payments received from certain investments may be comprised of dividends, realized gains and return of capital. These payments may initially be recorded as dividend income and may be subsequently be reclassified as realized gains/or return of capital upon receipt of information from the issuer. Payments received on synthetic convertible securities are generally included in dividend income.

(d) Federal Income Taxes

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. The Funds may be subject to excise tax based on the extent of distributions to shareholders.

Accounting for uncertainty in income taxes establishes for all entities, including pass-through entities such as the Funds, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Funds' management has determined that its evaluation has resulted in no material impact to the Funds' financial statements at February 28, 2010. The Funds' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

(e) Dividends and Distributions Common Stock

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. The Funds record dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which

Edgar Filing: NICHOLAS APPLGATE CONVERTIBLE & INCOME FUND - Form N-CSR

may differ from generally accepted accounting principles. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in capital in excess of par.

1. Organization and Significant Accounting Policies (continued)

(f) Convertible Securities

It is the Funds' policy to invest a portion of their assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, certain of the Funds' investments in convertible securities include features which render them more sensitive to price changes in their underlying securities. The value of structured/synthetic convertible securities can be affected by interest rate changes and credit risks of the issuer. Such securities may be structured in ways that limit their potential for capital appreciation and the entire value of the security may be at a risk of loss depending on the performance of the underlying equity security. Consequently, the Funds are exposed to greater downside risk than traditional convertible securities, but still less than that of the underlying common stock.

2. Principal Risks

In the normal course of business the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to, among other things, changes in the market (market risk) or failure of the other party to a transaction to perform (credit/counterparty risk). The Funds are exposed to various risks such as, but not limited to, interest rate, market price and credit/counterparty risks.

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds is likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income security's market price to interest rate (i.e. yield) movements.

The market values of equity securities, such as common and preferred stock and securities convertible into equity securities, may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment. They may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities generally have greater market price volatility than fixed income securities.

The Funds are exposed to credit risk on parties with whom they trade and will also bear the risk of settlement default. The Funds seek to minimize concentrations of credit risk by undertaking transactions with a large number of customers and counterparties on reorganized and reputable exchanges. The Funds could lose money if the issuer or guarantor of a fixed income security is unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Similar to credit risk, the Funds are exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. The potential loss to the Funds could exceed the value of the financial assets recorded in the Funds' financial statements. Financial assets, which potentially expose the Funds to counterparty risk, consist principally of cash due from counterparties and investments. The Funds' sub-adviser, Nicholas-Applegate Capital Management LLC (the Sub-Adviser), an affiliate of the Investment Manager, seeks to minimize Funds' counterparty risks by performing reviews of each counterparty. Delivery of securities sold is only made once the Funds have received payment. Payment is made on the purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

During the fiscal year ended February 28, 2010, the Funds held synthetic convertible securities with Lehman Brothers Holdings, Inc. as the counterparty. On September 15, 2008, Lehman Brothers Holdings, Inc. filed for protection under Chapter 11 of the United States Bankruptcy Code. The value of the relevant securities has been written down to their estimated recoverable values.

3. Investment Manager/Sub-Adviser

Each Fund has an Investment Management Agreement (each an Agreement) with the Investment Manager. Subject to the supervision of the Funds' Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the Funds' investment activities, business affairs and administrative matters. Pursuant to each Agreement, the Funds pay the Investment Manager an annual fee, payable on a monthly basis, at the annual rate of 0.70% of the Funds' average daily total managed assets. Total managed assets refer to the total assets of each Fund (including assets attributable to any preferred shares or other forms of leverage of the Fund that may be outstanding) minus accrued liabilities (other than liabilities representing leverage).

3. Investment Manager/Sub-Adviser (continued)

The Investment Manager has retained the Sub-Adviser to manage the Funds' investments. Subject to the supervision of the Investment Manager, the Sub-Adviser is responsible for making all of the Funds' investment decisions. The Investment Manager, and not the Funds, pays a portion of the fees it receives as Investment Manager to the Sub-Adviser in return for its services.

4. Investment in Securities

For the year ended February 28, 2010, purchases and sales of investments, other than short-term securities were:

	U.S. Government Obligation		All Other	
	Purchases	Sales	Purchases	Sales
Convertible & Income		\$ 25,786,094	\$ 504,056,045	\$ 487,483,943

5. Income Tax InformationConvertible & Income:

For the fiscal years ended February 28, 2010 and February 28, 2009, the tax character of dividends paid of \$79,507,476 and \$110,164,852, respectively, were comprised entirely of ordinary income.

At February 28, 2010, the tax character of distributable earnings of \$3,366,103 was comprised entirely of ordinary income.

For the year ended February 28, 2010, permanent differences are primarily attributable to the differing treatment of premium amortization, convertible preferred securities, consent payments and excise taxes. These adjustments were to increase undistributed net investment income by \$6,177,842, increase accumulated net realized loss by \$6,167,218 and decrease paid-in-capital in excess of par by \$10,624.

At February 28, 2010, Convertible & Income had a capital loss carryforward of \$401,934,705 (\$1,830,527 of which will expire in 2015, \$10,961,628 of which will expire in 2016, \$131,342,119 of which will expire in 2017 and \$257,800,431 of which will expire in 2018) available as a reduction, to the extent provided in the regulations, of any future net realized capital gains. To the extent that these losses are used to offset future realized capital gains, such gains will not be distributed.

The cost basis of portfolio securities for federal income tax purposes is \$975,190,391. Aggregate gross unrealized appreciation for securities in which there is an excess value over tax cost is \$89,965,922; aggregate gross unrealized depreciation for securities in which there is an excess of tax cost over value is \$82,803,912; net unrealized appreciation for federal income tax purposes is \$7,162,010. The difference between book and tax basis unrealized is attributable to wash sales and the differing treatment of bond premium amortization and convertible preferred securities.

Convertible & Income II:

For the years ended February 28, 2010 and February 28, 2009, the tax character of dividends paid of \$69,200,358 and \$88,564,571, respectively, were comprised entirely of ordinary income.

At February 28, 2010, the tax character of distributable earnings of \$2,640,409 was comprised entirely of ordinary income.

For the year ended February 28, 2010, permanent differences are primarily attributable to the differing treatment of premium amortization, convertible preferred securities, consent payments and excise taxes. These adjustments were to increase undistributed net investment income by \$4,664,560, increase accumulated net realized loss by \$4,655,128 and decrease paid-in-capital in excess of par by \$9,432.

At February 28, 2010, Convertible & Income II had a capital loss carryforward of \$371,556,558 (\$1,751,653 of which will expire in 2015, \$11,338,190 of which will expire in 2016, \$130,798,418 of which will expire in 2017 and \$227,668,267 of which will expire in 2018) available as a reduction, to the extent provided in the regulations, of any future net realized capital gains. To the extent that these losses are used to offset future realized capital gains, such gains will not be distributed.

5. Income Tax Information (continued)

The cost basis of portfolio securities for federal income tax purposes is \$743,326,398. Aggregate gross unrealized appreciation for securities in which there is an excess value over tax cost is \$70,313,117; aggregate gross unrealized depreciation for securities in which there is an excess of tax cost over value is \$67,943,146; net unrealized appreciation for federal income tax purposes is \$2,369,971. The difference between book and tax basis unrealized is attributable to wash sales and the differing treatment of bond premium amortization and convertible preferred securities.

6. Auction-Rate Preferred Shares

Convertible & Income has 2,856 shares of Preferred Shares Series A, 2,856 shares of Preferred Shares Series B, 2,856 shares of Preferred Shares Series C, 2,856 shares of Preferred Shares Series D, and 2,856 shares of Preferred Shares Series E outstanding, each with a liquidation preference value of \$25,000 per share plus any accumulated, unpaid dividends.

Convertible & Income II has 2,192 shares of Preferred Shares Series A, 2,192 shares of Preferred Shares Series B, 2,192 shares of Preferred Shares Series C, 2,192 shares of Preferred Shares Series D, and 2,192 shares of Preferred Shares Series E outstanding, each with a liquidation preference value of \$25,000 per share plus any accumulated, unpaid dividends.

Dividends are accumulated daily at an annual rate (typically re-set every seven days) through auction procedures. Distributions of net realized long-term gains, if any, are paid annually.

For the fiscal year ended February 28, 2010, the annualized dividend rate ranged from:

	High	Low	At February 28, 2010
<u>Convertible & Income:</u>			
Series A	0.677%	0.105%	0.165%
Series B	0.527%	0.105%	0.150%
Series C	0.452%	0.090%	0.135%
Series D	0.677%	0.060%	0.210%
Series E	0.677%	0.075%	0.240%
<u>Convertible & Income II:</u>			
Series A	0.677%	0.105%	0.165%
Series B	0.527%	0.105%	0.150%
Series C	0.452%	0.090%	0.135%
Series D	0.677%	0.060%	0.210%
Series E	0.677%	0.075%	0.240%

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation preference plus any accumulated, unpaid dividends.

Preferred shareholders, who are entitled to one vote per share, generally vote with the common shareholders but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

Since mid-February 2008, holders of auction-rate preferred shares (ARPS) issued by the Funds have been directly impacted by an unprecedented lack of liquidity, which has similarly affected ARPS holders in many of the nation's closed-end funds. Since then, regularly scheduled auctions for ARPS issued by the Funds have consistently failed because of insufficient demand (bids to buy shares) to meet the supply (shares offered for sale) at each auction. In a failed auction, ARPS holders cannot sell all, and may not be able to sell any, of their shares tendered for sale. While repeated auction failures have affected the liquidity for ARPS, they do not constitute a default or automatically alter the credit quality of the ARPS, and ARPS holders have continued to receive dividends at the defined maximum rate the 7-day AA Composite Commercial Paper Rate multiplied by 150% (which is a function of short-term interest rates and typically higher than the rate that would have otherwise been set through a successful auction). If the Funds' ARPS auctions continue to fail and the maximum rate payable on the ARPS rises as a result of changes in short-term interest rates, returns for the Funds' common shareholders could be adversely affected.

7. Legal Proceedings

In June and September 2004, the Investment Manager and certain of its affiliates (including PEA Capital LLC (PEA), Allianz Global Investors Distributors LLC and Allianz Global Investors of America, L.P.), agreed to settle, without admitting or denying the allegations, claims brought by the Securities and Exchange Commission (SEC) and the New Jersey Attorney General alleging violations of federal and state securities laws with respect to certain open-end funds for which the Investment Manager serves as investment adviser. The settlements related to an alleged market timing arrangement in certain open-end funds formerly sub-advised by PEA. The Investment Manager and its affiliates agreed to pay a total of \$68 million to settle the claims. In addition to monetary payments, the settling parties agreed to undertake certain corporate governance, compliance and disclosure reforms related to market timing, and consented to cease and desist orders and censures. Subsequent to these events, PEA deregistered as an investment adviser and dissolved. None of the settlements alleged that any inappropriate activity took place with respect to the Funds.

Since February 2004, the Investment Manager and certain of its affiliates and their employees have been named as defendants in a number of pending lawsuits concerning market timing, which allege the same or similar conduct underlying the regulatory settlements discussed above. The market timing lawsuits have been consolidated in a multi-district litigation proceeding in the U.S. District Court for the District of Maryland. Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against the Investment Manager or its affiliates or related injunctions.

The Investment Manager and the Sub-Adviser believe that these matters are not likely to have a material adverse effect on the Funds or on their ability to perform their respective investment advisory activities relating to the Funds.

8. Subsequent Events

On March 1, 2010 the following monthly dividends were declared to common shareholders, payable March 30, 2010 to shareholders of record on March 11, 2010:

Convertible & Income	\$0.09 per share
Convertible & Income II	\$0.085 per share

On April 1, 2010 the following monthly dividends were declared to common shareholders, payable May 3, 2010 to shareholders of record on April 12, 2010:

Convertible & Income	\$0.09 per share
Convertible & Income II	\$0.085 per share

Effective March 1, 2010, Convertible & Income Fund II adopted amended and restated by-laws (By-laws) that incorporate substantially revised and updated ratings criteria (the New Fitch Criteria) issued by Fitch, Inc. (Fitch) applicable to that Fund s outstanding auction rate preferred shares (Preferred Shares). The New Fitch Criteria include two separate Preferred Shares asset coverage tests which differ from the single test previously applicable to Fitch s ratings. Other key components of the New Fitch Criteria as cited by Fitch include, among others, updated asset discount factors, changes to issuer and industry concentration thresholds and guidelines, and inclusion of certain leverage and derivatives when calculating the Fitch asset coverage tests. The New Fitch Criteria are available on the Fitch website (www.fitchratings.com) and are incorporated by reference into Convertible & Income Fund II s By-laws. Furthermore, as announced in a press release dated March 12, 2010, Fitch has reaffirmed the AAA rating it assigned to Convertible & Income Fund II s Preferred Shares.

Nicholas-Applegate Convertible & Income Funds Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of:

**Nicholas-Applegate Convertible & Income Fund
Nicholas-Applegate Convertible & Income Fund II**

In our opinion, the accompanying statements of assets and liabilities, including the schedules of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the Nicholas-Applegate Convertible & Income Fund and Nicholas-Applegate Convertible & Income Fund II (the Funds) at February 28, 2010, the results of each of their operations, changes in net assets and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Funds management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at February 28, 2010, by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

Nicholas-Applegate Convertible & Income Funds **Dividend Reinvestment Plan**
(unaudited)

Dividend Reinvestment Plan:

Pursuant to the Funds' Dividend Reinvestment Plan (the "Plan"), all Common Shareholders whose shares are registered in their own names will have all dividends, including any capital gain dividends, reinvested automatically in additional Common Shares by PNC Global Investment Servicing, as agent for the Common Shareholders (the "Plan Agent"), unless the shareholder elects to receive cash. An election to receive cash may be revoked or reinstated at the option of the shareholder. In the case of record shareholders such as banks, brokers or other nominees that hold Common Shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan. Shareholders whose shares are held in the name of a bank, broker or nominee should contact the bank, broker or nominee for details. All distributions to investors who elect not to participate in the Plan (or whose broker or nominee elects not to participate on the investor's behalf), will be paid cash by check mailed, in the case of direct shareholder, to the record holder by PNC Global Investment Servicing, as the Funds' dividend disbursement agent.

Unless you elect (or your broker or nominee elects) not to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If on the payment date the net asset value of the Common Shares is equal to or less than the market price per Common Share plus estimated brokerage commissions that would be incurred upon the purchase of Common Shares on the open market, the Fund will issue new shares at the greater of (i) the net asset value per Common Share on the payment date or (ii) 95% of the market price per Common Share on the payment date; or
- (2) If on the payment date the net asset value of the Common Shares is greater than the market price per Common Share plus estimated brokerage commissions that would be incurred upon the purchase of Common Shares on the open market, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price on the payment date, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Funds. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market on or shortly after the payment date, but in no event later than the ex-dividend date for the next distribution. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving notice to the Plan Agent. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. The Plan Agent will also furnish each person who buys Common Shares with written instructions detailing the procedures for electing not to participate in the Plan and to instead receive distributions in cash. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvested dividends and distributions are taxed in the same manner as cash dividends and distributions.

The Funds and the Plan Agent reserve the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Funds reserve the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained from the Funds' shareholder servicing agent, PNC Global Investment Servicing, P.O. Box 43027, Providence, RI 02940-3027, telephone number (800) 254-5197.

Edgar Filing: NICHOLAS APPLGATE CONVERTIBLE & INCOME FUND - Form N-CSR

Nicholas-Applegate Convertible & Income Fund (The Fund)

AUDIT OVERSIGHT COMMITTEE POLICY FOR PRE-APPROVAL OF SERVICES PROVIDED BY THE INDEPENDENT ACCOUNTANTS

The Fund's Audit Oversight Committee (Committee) is charged with the oversight of the Fund's financial reporting policies and practices and their internal controls. As part of this responsibility, the Committee must pre-approve any independent accounting firm's engagement to render audit and/or permissible non-audit services, as required by law. In evaluating a proposed engagement by the independent accountants, the Committee will assess the effect that the engagement might reasonably be expected to have on the accountant's independence. The Committee's evaluation will be based on:

a review of the nature of the professional services expected to be provided,

the fees to be charged in connection with the services expected to be provided, a

review of the safeguards put into place by the accounting firm to safeguard independence, and

periodic meetings with the accounting firm.

POLICY FOR AUDIT AND NON-AUDIT SERVICES TO BE PROVIDED TO THE FUNDS

On an annual basis, the Fund's Committee will review and pre-approve the scope of the audits of the Funds and proposed audit fees and permitted non-audit (including audit-related) services that may be performed by the Fund's independent accountants. At least annually, the Committee will receive a report of all audit and non-audit services that were rendered in the previous calendar year pursuant to this Policy. In addition to the Committee's pre-approval of services pursuant to this Policy, the engagement of the independent accounting firm for any permitted non-audit service provided to the Fund will also require the separate written pre-approval of the President of the Fund, who will confirm, independently, that the accounting firm's engagement will not adversely affect the firm's independence. All non-audit services performed by the independent accounting firm will be disclosed, as required, in filings with the Securities and Exchange Commission.

AUDIT SERVICES

The categories of audit services and related fees to be reviewed and pre-approved annually by the Committee are:

Annual Fund financial statement audits

Seed audits (related to new product filings, as required)

SEC and regulatory filings and consents

AUDIT-RELATED SERVICES

The following categories of audit-related services are considered to be consistent with the role of the Fund's independent accountants and services falling under one of these categories will be pre-approved by the Committee on an annual basis if the Committee deems those services to be consistent with the accounting firm's independence:

Accounting consultations

Fund merger support services

Agreed upon procedure reports (inclusive of the annual review of Basic Maintenance testing associated with issuance of Preferred Shares)

Other attestation reports

Comfort letters

Other internal control reports

Individual audit-related services that fall within one of these categories and are not presented to the Committee as part of the annual pre-approval process described above, may be pre-approved, if deemed consistent with the accounting firm's independence, by the Committee Chair (or any other Committee member who is a disinterested trustee under the Investment Company Act to whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$250,000. Any such pre-approval shall be reported to the full Committee at its next regularly scheduled meeting.

TAX SERVICES

Nicholas-Applegate Capital Management LLC (NACM)

Description of Proxy Voting Policy and Procedures

NACM votes proxies on behalf of its clients pursuant to its written Proxy Policy Guidelines and Procedures (the Proxy Guidelines), unless a client requests otherwise. The Proxy Guidelines are designed to honor NACM's fiduciary duties to its clients and protect and enhance its clients economic welfare and rights.

The Proxy Guidelines are established by a Proxy Committee consisting of executive, investment, sales, marketing, compliance and operations personnel. The Proxy Guidelines reflect NACM's normal voting positions on specific corporate actions, including but not limited to those relating to social and corporate responsibility issues, stock option plans and other management compensation issues, changes to a portfolio company's capital structure and corporate governance. For example, NACM generally votes for proposals to declassify boards and generally supports proposals that remove restrictions on shareholders' ability to call special meetings independently of management. Some issues will require a case-by-case analysis.

The Proxy Guidelines largely follow the recommendations of Glass, Lewis & Co. LLC (Glass Lewis), an investment research and proxy advisory firm. The Proxy Guidelines may not apply to every situation and NACM may vote differently than specified by the Proxy Guidelines and/or contrary to Glass Lewis' recommendation if NACM reasonably determines that to do so is in its clients' best interest. Any variance from the Proxy Guidelines is documented.

In the case of a potential conflict of interest, NACM's Proxy Committee will be responsible for reviewing the potential conflict and will have the final decision as to how the relevant proxy should be voted.

Under certain circumstances, NACM may in its reasonable discretion refrain from voting clients' proxies due to cost or other factors.

Like other investment professionals with multiple clients, a Portfolio Manager for a Fund may face certain potential conflicts of interest in connection with managing both the Fund and other accounts at the same time. The paragraphs below describe some conflicts faced by investment professionals at most major financial firms.

The Investment Adviser has adopted compliance policies and procedures that address certain of these potential conflicts. The management of accounts with different advisory fee rates and/or fee structures, including accounts that pay advisory fees based on account performance may raise potential conflicts of interest by creating an incentive to favor higher-fee accounts. These potential conflicts may include, among others:

- The most attractive investments could be allocated to higher-fee accounts or performance fee accounts.
- The trading of higher-fee accounts could be favored as to timing and/or execution price. For example, higher-fee accounts could be permitted to sell securities earlier than other accounts when a prompt sale is desirable or to buy securities at an earlier and more opportune time.
- The investment management team could focus their time and efforts primarily on higher-fee accounts due to a personal stake in compensation.

Edgar Filing: NICHOLAS APPLGATE CONVERTIBLE & INCOME FUND - Form N-CSR

When the Investment Adviser considers the purchase or sale of a security to be in the best interests of a Fund as well as other accounts, the Investment Adviser's trading desk may, to the extent permitted by applicable laws and regulations, aggregate the securities to be sold or purchased. Aggregation of trades may create the potential for unfairness to a Fund or another account if one account is favored over another in allocating the securities purchased or sold—for example, by allocating a disproportionate amount of a security that is likely to increase in value to a favored account. The Investment Adviser considers many factors when allocating securities among accounts, including the account's investment style, applicable investment restrictions, availability of securities, available cash and other current holdings. The Investment Adviser attempts to allocate investment opportunities among accounts in a fair and equitable manner. However, accounts are not assured of participating equally or at all in particular investment allocations due to such factors as noted above.

Cross trades, in which one Investment Adviser account sells a particular security to another account (potentially saving transaction costs for both accounts), may also pose a potential conflict of interest if, for example, one account is permitted to sell a security to another account at a higher price than an independent third party would pay. The Investment Adviser has adopted compliance procedures that provide that all cross trades are to be made at an independent current market price, as required by law.

Another potential conflict of interest may arise from the different investment objectives and strategies of a Fund and other accounts. For example, another account may have a shorter-term investment horizon or different investment objectives, policies or restrictions than a Fund. Depending on another account's objectives or other factors, a Portfolio Manager may give advice and make decisions that may differ from advice given, or the timing or nature of decisions made, with respect to a Fund. In addition, investment decisions are subject to suitability for the particular account involved. Thus, a particular security may not be bought or sold for certain accounts even though it was bought or sold for other accounts at the same time. More rarely, a particular security may be bought for one or more accounts managed by a Portfolio Manager when one or more other accounts are selling the security (including short sales). There may be circumstances when purchases or sales of portfolio securities for one or more accounts may have an adverse effect on other accounts. The Investment Adviser maintains trading policies designed to provide portfolio managers an opportunity to minimize the effect that short sales in one portfolio may have on holdings in other portfolios.

A Portfolio Manager who is responsible for managing multiple accounts may devote unequal time and attention to the management of those accounts. As a result, the Portfolio Manager may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those accounts as might be the case if he or she were to devote substantially more attention to the management of a single fund. The effects of this potential conflict may be more pronounced where funds and/or accounts overseen by a particular Portfolio Manager have different investment strategies.

A Fund's Portfolio Manager(s) may be able to select or influence the selection of the broker/dealers that are used to execute securities transactions for the Fund. In addition to executing trades, some brokers and dealers provide the Investment Adviser with brokerage and research services (as those terms are

Edgar Filing: NICHOLAS APPLGATE CONVERTIBLE & INCOME FUND - Form N-CSR

defined in Section 28(e) of the Securities Exchange Act of 1934), which may result in the payment of higher brokerage fees than might have otherwise be available. These services may be more beneficial to certain funds or accounts than to others. In order to be assured of continuing to receive services considered of value to its clients, the Investment Adviser has adopted a brokerage allocation policy embodying the concepts of Section 28(e) of the Securities Exchange Act of 1934. The Investment Adviser allocates the payment of brokerage commissions is subject to the requirement that the Portfolio Manager determine in good faith that the commissions are reasonable in relation to the value of the brokerage and research services provided to the Fund.

A Fund's Portfolio Manager(s) may also face other potential conflicts of interest in managing a Fund, and the description above is not a complete description of every conflict that could be deemed to exist in managing both the Funds and other accounts. In addition, a Fund's Portfolio Manager may also manage other accounts (including their personal assets or the assets of family members) in their personal capacity. The Investment Adviser's investment personnel, including each Fund's Portfolio Manager, are subject to restrictions on engaging in personal securities transactions pursuant to the Investment Adviser's Code of Ethics, which contain provisions and requirements designed to identify and address conflicts of interest between personal investment activities and the interests of the Funds.

(a) (3)

As of February 28, 2010 the following explains the compensation structure of each individual who shares primary responsibility for day-to-day portfolio management of the Fund:

Nicholas-Applegate believes that competitive compensation is essential to retaining top industry talent. With that in mind, the firm continually reevaluates its compensation policies against industry benchmarks. Its goal is to offer portfolio managers and analysts compensation and benefits in the top quartile for comparable experience, as measured by industry benchmarks surveyed by McLagan and ECS (Watson Wyatt Data Services).

Nicholas-Applegate's compensation policy features both short-term and long-term components. The firm offers competitive base salaries and bonuses, profit-sharing and generous retirement plans. Investment professionals' annual compensation is directly affected by the performance of their portfolios, their performance as individuals and the success of the firm. Typically, an investment professional's compensation is comprised of a base salary and a bonus.

Investment professionals are awarded bonuses based primarily on product performance. A 360-degree qualitative review is also considered. As part of the 360-degree review, analysts and portfolio managers are reviewed by the portfolio manager who is responsible for the team's final investment decisions and other portfolio managers to whose portfolios they contribute. Portfolio managers responsible for final investment decisions are reviewed by the Chief Investment Officer, who evaluates performance both quantitatively versus benchmarks and peer universes, as well as qualitatively.

Edgar Filing: NICHOLAS APPLGATE CONVERTIBLE & INCOME FUND - Form N-CSR

Compensation and Account Performance

Compensation pools for investment teams are directly related to the size of the business and the performance of the products. Approximately half of the pool is based on one, three and five year performance relative to benchmarks and peers. The team pools are then subjectively allocated to team members based on individual contributions to client accounts. We believe our compensation system clearly aligns the interests of clients with our people and keeps our compensation competitive with industry norms.

Long-Term Incentive Plan

A Long-Term Incentive Plan provides rewards to certain key staff and executives of Nicholas-Applegate and the other Allianz Global Investors companies to promote long-term growth and profitability. The Plan provides awards that are based on Nicholas-Applegate's operating earnings growth. The plan provides a link between longer term company performance and participant pay, further motivating participants to make a long-term commitment to the company's success.

Equity Ownership

In September 2006, Allianz SE approved an equity ownership plan for key employees of Nicholas-Applegate. The plan was implemented as of January 31, 2007. Nicholas-Applegate believes this plan is important in retaining and recruiting key investment professionals, as well as providing ongoing incentives for Nicholas-Applegate employees.
