**ANNOUNCEMENT**

The Board hereby announces certain selected unaudited key operational statistics of the Group for the first quarter of 2016 (ended 31 March 2016). The comparative statistics for the first quarter of 2015 (ended 31 March 2015) are also disclosed in this announcement.

The board of directors of CNOOC Limited (the “Company”) (the “Board”) hereby announces certain selected unaudited key operational statistics of the Company and its subsidiaries (together the “Group”) for the first quarter of 2016 (ended 31 March 2016). The comparative statistics for the first quarter of 2015 (ended 31 March 2015) are also disclosed in this announcement.

The Company achieved total net production of 124.3 million barrels of oil equivalent (“BOE”) for the first quarter of 2016, representing an increase of 5.1% year over year (“YoY”), mainly attributable to the production contribution from new projects in offshore China that commenced production during 2015.

For the first quarter of 2016, the Company made three new discoveries and drilled four successful appraisal wells offshore China, among which we successfully appraised Caofeidian 12-6 oil and gas structure. The Company also drilled three successful appraisal wells overseas.

To date, for the projects planned to commence production this year, Kenli 10-4 oilfield and Panyu 11-5 oilfield have commenced production, and the other projects progressed smoothly.

The unaudited oil and gas sales revenue of the Company reached approximately RMB 24.64 billion for the first quarter of 2016, representing a decrease of 30.7% YoY, mainly due to the sharp decrease in international oil prices. During the period, the Company's average realized oil price decreased 39.1% YoY to US\$32.54 per barrel, which is in line with the international oil price trend. The Company's average realized gas price was US\$5.69 per thousand cubic feet, down 14.8% YoY.

For the first quarter of 2016, the Company's capital expenditure reached approximately RMB 9.69 billion, representing a decrease of 39.2% YoY, mainly because the Company further decreased capex budget for the whole year to reflect the low oil price environment.

*For Immediate Release*

**CNOOC Limited Announces Key Operational Statistics for Q1 2016**

(Hong Kong, April 28, 2016) - CNOOC Limited (the “Company”, SEHK: 00883, NYSE: CEO, TSX: CNU) today announced its key operational statistics for the first quarter of 2016.

The Company achieved total net production of 124.3 million barrels of oil equivalent (“BOE”) for the first quarter of 2016, representing an increase of 5.1% year over year (“YoY”), mainly attributable to the production contribution from new projects in offshore China that commenced production during 2015.

For the first quarter of 2016, the Company's capital expenditure reached approximately RMB9.69 billion, representing a decrease of 39.2% YoY, mainly because the Company further decreased capex budget for the whole year to reflect low oil price environment.

Mr. Li Fanrong, CEO of the Company commented, “Despite the changing industry environment and the challenges resulting from low oil prices, the Company achieved stable results for production and operation in the first quarter. Going forward, we will continue with our operating strategies under the low oil price environment, intensify reform and innovation, and reinforce the sustainable development of the Company.”

The words “expect”, “anticipate”, “continue”, “estimate”, “objective”, “ongoing”, “may”, “will”, “project”, “believe”, “plans”, “intends” and similar expressions are intended to identify such forward-looking statements. These statements are based on assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors the Company believes are appropriate under the circumstances. However, whether actual results and developments will meet the expectations and predictions of the Company depends on a number of risks and uncertainties which could cause the actual results, performance and financial condition to differ materially from the Company’s expectations, including but not limited to those associated with fluctuations in crude oil and natural gas prices, the exploration or development activities, the capital expenditure requirements, the business strategy, whether the transactions entered into by the Group can complete on schedule pursuant to their terms and timetable or at all, the highly competitive nature of the oil and natural gas industries, the foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the People’s Republic of China. For a description of these and other risks and uncertainties, please see the documents the Company files from time to time with the United States Securities and Exchange Commission, including the Annual Report on Form 20-F filed in April of the latest fiscal year.

Consequently, all of the forward-looking statements made in this press release are qualified by these cautionary statements. The Company cannot assure that the results or developments anticipated will be realised or, even if substantially realised, that they will have the expected effect on the Company, its business or operations.
