FINANCIAL STATEMENTS

1. DESCRIPTION OF TRANSACTION AND BASIS OF PRESENTATION

On April 16, 2003, Pfizer acquired Pharmacia Corporation for an estimated purchase price of approximately \$56 billion, which includes Pfizer common stock valued at \$54.2 billion, options on Pfizer common stock valued at \$1.1 billion, Pfizer convertible perpetual preferred stock valued at \$.5 billion, and vested share awards valued at \$.1 billion, as well as transaction costs of \$90 million.

Under the terms of the Merger Agreement, each outstanding share of Pharmacia common stock was exchanged for 1.4 shares of Pfizer common stock in a tax-free transaction. Each share of Pharmacia Series C convertible perpetual preferred stock was exchanged for a newly created class of Pfizer Series A convertible perpetual preferred stock with rights substantially similar to the rights of the Pharmacia Series C convertible perpetual preferred stock.

The acquisition has been accounted for as a purchase business combination by Pfizer under accounting principles generally accepted in the United States of America. Under the purchase method of accounting, the assets acquired and liabilities assumed of Pharmacia have been recorded as of April 16, 2003, at their respective fair values. Financial statements and reported results of operations of Pfizer issued after April 16, 2003 reflect these values, but will not be restated retroactively to reflect the historical financial position or results of operations of Pharmacia.

2. ACCOUNTING POLICIES AND FINANCIAL STATEMENT CLASSIFICATIONS

Pfizer is currently reviewing accounting policies and financial statement classifications used by Pharmacia. As a result of this review, it may become necessary to make certain reclassifications to the combined company's financial statements to conform to those accounting policies and classifications of Pfizer.

3. INTERCOMPANY TRANSACTIONS

Transactions between Pfizer and Pharmacia before the acquisition were primarily limited to the Celebrex and Bextra marketing agreements. Upon completion of the acquisition, transactions that occur in connection with these arrangements would be considered intercompany transactions. All significant transactions related to these arrangements have been eliminated from the Unaudited Pro Forma Condensed Combined Statement of Income.

4. PRO FORMA ADJUSTMENTS

Adjustments included in the column under the heading "Pro Forma Adjustments" primarily relate to the following:

- a. To eliminate transactions between Pfizer and Pharmacia occurring prior to April 16, 2003. The majority of these transactions occurred under the Celebrex and Bextra marketing agreements.

Research and development expenses	9
Other (income)/deductions-net	2

The entries include:

- o the elimination of certain sales, alliance revenue and certain co-promotion expenses; and the elimination of the impact of milestone payments made by Pfizer to Pharmacia.

4

- b. To eliminate amortization expense recorded by Pharmacia related to definite-lived intangible assets of approximately \$15 million in 2003 included in "Other (income)/deductions-net".
- c. To record the incremental impact of certain purchase accounting adjustments relating to the period January 1, 2003 through April 15, 2003:
 - o to decrease interest expense by \$11 million (\$27 million in total in the first nine months of 2003) related to the estimated fair value step-up of long-term debt - amount included in "Other (income)/deductions-net";
 - o additional amortization expense related to the estimated value of identifiable intangible assets from the purchase price allocation which are being amortized over their estimated useful lives over a range of 2 to 40 years of approximately \$843 million (\$2,069 million in total in the first nine months of 2003) - amount is included in "Other (income)/deductions-net"; and
 - o additional depreciation expense related to the estimated fair value step-up of the property, plant and equipment from the purchase price allocation, which is being depreciated over its estimated useful life, of approximately \$21 million (\$97 million in total in the first nine months of 2003) in 2003 - amount is included in "Cost of sales"- \$9 million; "Selling, informational and administrative expenses"- \$9 million and "Research and development expenses" - \$3 million.
- d. To adjust income taxes for pro forma adjustments.
- e. To eliminate certain non-recurring charges resulting from purchase accounting adjustments related to purchased IPR&D charges of \$5,043 million and charges of \$1,712 million reported in "Cost of Sales" for the workdown of purchased inventory that was written up to fair value.
- f. The pro forma combined basic and diluted earnings per share for the period presented are based on the combined basic and diluted weighted average shares of Pfizer and Pharmacia. The historical basic and diluted weighted average shares of Pharmacia were converted at the exchange ratio of 1.4 shares of Pfizer common stock for each Pharmacia common stock equivalent.

The pro forma condensed combined financial statements do not present a combined dividend per share amount. Pfizer's quarterly common stock dividend in 2003 was \$.15 per share (\$.45 per share for the nine months ended September 28, 2003). Pharmacia did not declare a dividend in 2003. The future dividend policy of the combined company will be determined by Pfizer's board of directors and is subject to future approval and declaration by Pfizer's board of directors.

Certain restructuring and integration charges will be recorded subsequent to April 16, 2003 that, under purchase accounting, will not be treated as part of the Pharmacia purchase price. These costs, estimated to range between \$2.5 and

Edgar Filing: PFIZER INC - Form 8-K

\$3.0 billion (on a pre-tax basis), have not been reflected in the unaudited pro forma condensed combined income statement because they are not expected to have a continuing impact on the combined results.

The unaudited pro forma condensed combined financial statements do not reflect the expected realization of annual cost savings of about \$4.0 billion by 2005 as compared to the aggregate expenses of Pfizer and Pharmacia on a stand-alone basis. These savings are expected to result from, among other things, the reduction of overhead expenses, changes in corporate infrastructure, the elimination of duplicative facilities and the leveraging of the combined annual external purchases. Although management expects that cost savings will result from the merger, there can be no assurance that all or any material part of these cost savings will be achieved.

As a result of the acquisition, regulatory authorities required us to divest several products and a product candidate. These unaudited pro forma condensed combined financial statements do not reflect the impact of these divestitures. Such divestitures did not have a material impact on our operations.
