Table of Contents**PARTY CITY CORPORATION AND SUBSIDIARY****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. Basis of Presentation**

The condensed consolidated financial statements are unaudited. In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the financial position of the Company as of December 27, 2003 and December 28, 2002 and the results of operations for the quarters and six months ended December 27, 2003 and December 28, 2002 and cash flows for the six months ended December 27, 2003 and December 28, 2002. Because of the seasonality of the party goods industry, operating results of the Company on a quarterly or six month basis may not be indicative of operating results for the full fiscal year.

These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended June 28, 2003, which are included in the Company's Annual Report on Form 10-K with respect to such period filed with the Securities and Exchange Commission on September 26, 2003. All significant intercompany accounts and transactions have been eliminated. The June 28, 2003 condensed consolidated balance sheet amounts are derived from the Company's audited condensed consolidated financial statements.

Our Fiscal Year (Fiscal Year) refers to the 52 or 53 weeks, as applicable, ending the Saturday nearest to June 30. The year ended July 3, 2004 (Fiscal 2004) is a 53 week year as compared to the years ended June 28, 2003 (Fiscal 2003) and June 29, 2002 (Fiscal 2002), which were each 52 week years.

Certain reclassifications have been made to the condensed consolidated financial statements in prior periods to conform to the current period presentation.

2. Stock-Based Compensation

The Company periodically grants stock options to employees. Pursuant to Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, the Company accounts for stock-based employee compensation arrangements using the intrinsic value method. The Company has adopted the disclosure only provisions of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock Based Compensation, as amended by SFAS No. 148, Accounting for Stock Based Compensation - Transition and Disclosure, an Amendment of SFAS No. 123. If compensation cost for the Company's stock option plans had been determined in accordance with the fair value method prescribed by SFAS No. 123 the Company's net income would have been (in thousands, except per share data):

- (a) Options to purchase 577,908 and 703,391 shares of common stock at prices ranging from \$13.80 to \$30.88 per share were outstanding for the quarter and six months ended December 27, 2003 but were not included in the computation of earnings per share because to do so would have been antidilutive.
- (b) Options to purchase 701,069 and 534,358 shares of common stock at prices ranging from \$13.83 to \$32.50 per share were outstanding for the quarter and six months ended December 28, 2002 but were not included in the computation of earnings per share because to do so would have been antidilutive.

4. Financing Agreements

In January 2003, the Company entered into a \$65 million revolving credit facility (Loan Agreement) with Wells Fargo Retail Finance, LLC, as the arranger, collateral agent and administrative agent, and Fleet Retail Finance, Inc., as the documentation agent. Under the terms of the Loan Agreement, the Company may borrow amounts based on a percentage of its eligible inventory and credit card receivables, subject to certain borrowing conditions and customary sub-limits, reserves and other limitations. Interest on advances is charged, at the Company's option, (i) at the adjusted Eurodollar rate plus the applicable margin, which was set initially at 1.50%, and is currently at 1.25%, per annum or (ii) at the prime rate less the applicable margin, which was initially set at and is currently 0.25% per annum, totaling 3.75% at December 27, 2003. The term of the Loan Agreement is through April 30, 2006 and is secured by a lien on substantially all of the Company's assets. The Company had a standby letter of credit of \$3.7 million outstanding at December 27, 2003. At December 27, 2003 and February 2, 2004, the Company had no borrowings outstanding under the Loan Agreement. Based on a percentage of current eligible inventory and credit card receivables, the Company had \$19.2 million available to be borrowed under the Loan Agreement at February 2, 2004.

5. Stockholders' Equity**Shares Outstanding**

The Company's authorized capital stock was increased from 25,000,000 shares to 40,000,000 shares of its common stock, \$0.01 par value per share, at the annual shareholders' meeting on November 12, 2003. At December 27, 2003 and December 28, 2002 there were 17,721,850 shares and 17,113,873 shares, respectively, of the Company's common stock issued and outstanding.

Table of Contents

Stock Repurchase

In September 2001, the Board of Directors authorized the Company to repurchase up to \$15 million of its outstanding common stock. Stock repurchases are made at the discretion of management. There was no stock repurchase activity during the first six months of Fiscal 2004 and during the first six months of Fiscal 2003. As of December 27, 2003, the Company had purchased 747,012 shares for an aggregate amount of \$5.9 million or 39.6% of the total amount to be purchased.

Warrants

There were no warrant exercises in the first six months of Fiscal 2004. In the first six months of Fiscal 2003, 688,000 warrants to purchase the Company's common stock were exercised. This included an exercise of 458,667 warrants for which proceeds of \$490,774 were received and a cashless exercise of the remaining 229,333 warrants for which the warrant holders received 213,792 shares of common stock. The remaining 15,541 shares were surrendered in connection with this exercise. These 15,541 shares of the Company's common stock had a market value of \$245,386 at the time of surrender.

6. Legal Proceedings

A lawsuit was filed on September 25, 2001 against Party City in Los Angeles Superior Court by an assistant manager in one of the Company's California stores for himself and on behalf of other members of an alleged class of Party City store managers (the Class) who claim the Company misclassified the Class members as exempt from California overtime wage and hour laws. The Class members seek the disgorgement of overtime wages allegedly owed by the Company to them but not paid and they also seek punitive damages and statutory penalties. If a class is certified, liability is found, and a judgment is entered, such a judgment may adversely affect the Company.

In addition to the foregoing, from time to time the Company is involved in routine litigation incidental to the conduct of the business, which is not, individually or in the aggregate, material to the Company.

8. Acquisitions and Dispositions of Stores

During Fiscal 2003, the Company acquired two stores from a franchisee. The aggregate consideration paid in connection with this acquisition was \$1,603,000. The consolidated balance sheets include allocations of the purchase price related to this transaction of approximately \$1,002,000 in goodwill, \$195,000 in fixed assets and \$406,000 in inventory.

In Fiscal 2002, the Company completed the acquisition of thirteen stores in the Seattle, Washington market from Paper Warehouse, Inc. The conversion of these locations to the Party City store format was completed and all stores were opened by the first quarter of Fiscal 2003. Additional goodwill of \$155,000 was recorded in Fiscal 2003 related to the completion of the conversion of these locations.

The acquisitions have been accounted for under the purchase method of accounting. The results of operations of the acquired stores are included in the financial statements from the date the stores were opened.

There were no changes in the carrying amount of goodwill of \$18.6 million for the six months ended December 27, 2003.

Table of Contents

Assuming the stores acquired during the six months ended December 28, 2002 were acquired on June 30, 2002, the beginning of Fiscal 2003, the pro forma results would have been as follows (in thousands, except per share amounts):

	Quarter Ended		Six months Ended	
	December 27, 2003	December 28, 2002	December 27, 2003	December 28, 2002

9. Guarantees

In November 2002, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 45, Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. The Interpretation elaborates on the existing disclosure requirements for most guarantees, including loan guarantees such as standby letters of credit. It also clarifies that at the time a company issues a guarantee, the company must recognize an initial liability for the fair value, or market value, of the obligations it assumes under the guarantee and must disclose that information in its interim and annual financial statements. The provisions related to recognizing a liability at inception of the guarantee for the fair value of the guarantor s obligations do not apply to product warranties or to guarantees accounted for as derivatives. The initial recognition and initial measurement provisions apply on a prospective basis to guarantees issued or modified after December 31, 2002.

The Company has unconditionally guaranteed the lease payments of 24 leases associated with franchise stores and locations sublet. The majority of the guarantees were given when the Company sold stores in 1999 as part of its restructuring. The guarantees continue until the expiration date of the leases, which range from 2004 through 2011. The maximum amount of the guarantees may vary, but is limited to the sum of the total amount due under the lease. As of December 27, 2003, the maximum aggregate amount of the guarantees was approximately \$18.5 million.

10. Recent Accounting Standards

In January 2003, the FASB issued FASB Interpretation (FIN) No. 46, Consolidation of Variable Interest Entities. FIN 46 addresses how to identify variable interest entities and provides guidance as to how a company may assess its interests in a variable interest entity for purposes of deciding whether consolidation of that entity is required. FIN 46 is effective for all variable interest entities created after January 31, 2003. The Company is required to adopt the provisions of FIN 46 for any variable interest entity created prior to February 1, 2003 by the end of the current fiscal year. The Company is reviewing the provisions of this interpretation and currently does not expect its implementation to have a material effect on its financial position, results of operations or cash flows.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the appropriate application of certain accounting policies, many of which require estimates and assumptions about future events and their impact on amounts reported in the financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the consolidated financial statements.

We believe our application of accounting policies, and the estimates inherently required by the policies, are reasonable. These accounting policies and estimates are constantly reevaluated and adjustments are made when facts and circumstances dictate a change. Historically, we have found the application of accounting policies to be appropriate and actual results generally do not differ materially from those determined using necessary estimates.

Our accounting policies are more fully described in Note 1 to the consolidated financial statements contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on September 26, 2003. We have identified certain critical accounting policies that are described below.

Merchandise inventory. Inventory is valued using the cost method which values inventory at the lower of the actual cost or market, at the individual item level. Cost is determined using the weighted average method. Inventory levels are reviewed to identify slow-moving and closeout merchandise that will no longer be carried. Market is determined by the estimated net realizable value, based upon the merchandise selling price.

Finite long-lived assets. In the evaluation of the fair value and future benefits of finite long-lived assets, we perform an analysis of the anticipated undiscounted future net cash flows of the related finite long-lived assets. Various factors including future sales growth and profit margins are included in this analysis. To the extent these future projections or strategies change, the conclusion regarding impairment may differ from the current estimates.

Insurance accruals. Our consolidated balance sheets include liabilities with respect to self-insured workers' compensation and general liability claims. We estimate the required liability of such claims utilizing an actuarial method, based upon various assumptions, which include, but are not limited to, our historical loss experience, projected loss development factors, actual payroll and other data. The required liability is also subject to adjustment in the future based upon changes in claims experience, including changes in the number of incidents (frequency) and changes in the ultimate cost per incident (severity).

Goodwill. We evaluate goodwill annually or whenever events and changes in circumstances suggest that the carrying amount may not be recoverable from its estimated future cash flows. In making this assessment, management relies on a number of factors including operating results, business plans, economic projections, anticipated future cash flows and marketplace data. A change in these underlying assumptions may cause a change in the results of the tests and, as such, could cause fair value to be less than the carrying value. In such event, we would then be required to record a charge, which would impact earnings.

Sales Returns. We estimate future sales returns and, when material, record a provision in the period that the related sales are recorded based on historical information. Should actual returns differ from our estimates, we would be required to revise estimated sales returns.

Store Closure Costs. We record estimated store closure costs, such as estimated lease commitment costs net of estimated sublease income and other miscellaneous store closing costs, when the liability is incurred. Such estimates may be subject to change should actual costs differ.

- (a) Our definition of EBITDA is earnings before interest, taxes, depreciation and amortization. We believe EBITDA provides additional information for determining our ability to meet future debt service requirements. EBITDA should not be construed as a substitute for net income or net cash provided by operating activities (all as determined in accordance with generally accepted accounting principles) for the purpose of analyzing our operating performance, financial position and cash flows as EBITDA is not defined by generally accepted accounting principles. We have presented EBITDA, however, because it is commonly used by certain investors and analysts to analyze and compare companies on the basis of operating performance and to determine a company's ability to service and/or incur debt. Our computation of EBITDA may not be comparable to similar titled measures of other companies.

Because we also consider EBITDA useful as an operating measure, a reconciliation of EBITDA to net income follows for the periods indicated:

We use EBITDA to determine our executive compensation which bases incentive compensation payments on our EBITDA performance measured against budget. EBITDA is also widely used by us and others in our industry to evaluate and price potential acquisitions.

EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Edgar Filing: PARTY CITY CORP - Form 10-Q

EBITDA does not reflect our current or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Table of Contents

EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and

Other companies in our industry may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using EBITDA only supplementally. See the Statements of Cash Flows included in our financial statements.

General

Net Sales. Net sales include same store sales and new store sales. Same store sales include sales for those stores that were in operation for a full period in both the current month and the corresponding month for the prior year. New store sales include sales in the current fiscal year from stores opened during the previous fiscal year before they are considered same stores, and new stores opened in the current fiscal year.

Cost of goods sold and occupancy costs. Cost of goods sold and occupancy costs includes the cost of merchandise, freight to the stores and store occupancy costs. Store occupancy costs include rent, common area maintenance, real estate taxes, repairs and maintenance, depreciation, insurance and utilities.

Store operating and selling expenses. Store operating and selling expenses consist of selling and store management payroll, employee benefits, medical insurance, employment taxes, advertising, pre-opening expenses which are expensed when incurred and other store level expenses.

taxes, management information systems, marketing, insurance, legal and other corporate level expenses. Corporate level expenses are primarily attributable to our corporate office in Rockaway, New Jersey, and district and regional offices throughout the country.

Franchising. Franchising revenue is composed of the initial franchise fees, which are recorded as revenue when a franchise store opens, plus ongoing royalty fees, which are generally 4.0% of the store's net sales. Franchise expenses include direct and indirect expenses. The direct expenses include salaries, travel and other direct expenses of the franchise operations department in addition to legal fees, bad debt expense, insurance expense and other miscellaneous charges. The indirect expenses include pro-rata allocations of corporate expenses for salaries, including bonuses, occupancy and depreciation, based on time spent on franchise support.

Interest expense. Interest and debt expense includes interest relating to our senior notes and credit facility. Interest also includes amortization of financing intangibles, bank service charges and interest on capital lease obligations.

Quarter Ended December 27, 2003 Compared to Quarter Ended December 28, 2002

Retail. Net sales from Company-owned stores increased 8.4% to \$175.3 million for the second quarter of Fiscal 2004 from \$161.6 million for the second quarter of the prior fiscal year. Of the 8.4% increase in net sales, 3.7% resulted from a same store sales increase and the remaining 4.7% related to the stores that have not been open for one year. The customer count in company-owned stores, on a same store basis, increased 1.5%, and the average sale increased 2.2%. With nine stores joining the same store sales group during this quarter of Fiscal 2004, same store sales increased 4.9% in the western region, 4.0% in the eastern region and 2.6% in the central region. Same store sales for Company-owned stores increased 1.9% for the second quarter of Fiscal 2003. The Company opened no new stores during the second quarter of Fiscal 2004 and five in the same period last year.

Gross profit, which is net sales minus cost of goods sold and occupancy costs, increased 7.5% to \$70.6 million in the second quarter of Fiscal 2004 from \$65.7 million in the same period last year. The increase was primarily due to increased sales volume. Gross margin as a percent of sales was 40.3% for the second quarter of Fiscal 2004 compared with 40.6% for the same period last year.

Store operating and selling expenses increased 5.8% to \$36.3 million for the second quarter of Fiscal 2004 from \$34.3 million in the same period last year. The increase in store operating expenses is attributable to same store sales increases and the increase in the number of stores. Store operating and selling expenses were 20.7% and 21.2% of sales for the second quarter of Fiscal 2004 and Fiscal 2003, respectively. The decrease as a percent of sales is due mainly to a decrease in store opening expenses.

The pre-opening expenses incurred in the second quarter of Fiscal 2004 for the new stores and stores to be opened later in the fiscal year amounted to \$20,000 compared with \$314,000 incurred during the same period last year.

Company-owned store profit contribution, which is gross profit minus store operating and selling expenses, was \$34.3 million for the second quarter of Fiscal 2004 compared with \$31.4 million for the same period last year. The improvement over the prior year is primarily the result of same store sales increases and the increase in the number of stores. Store profit contribution as a percent of sales was 19.6% for the second quarter of Fiscal 2004 compared with 19.4% in the same period last year. New stores in their first or second Halloween season reported store contribution of \$3.3 million, an increase of \$2.9 million over the comparable period last year. Of this \$2.9 million increase, \$400,000 was attributable to the 12 stores in the Seattle market acquired in 2002.

General and administrative expenses decreased 10.8% to \$7.5 million in the second quarter of Fiscal 2004 from \$8.4 million in the same period last year. General and administrative expenses were 4.3% and 5.2% of sales for the second quarter of Fiscal 2004 and Fiscal 2003, respectively. This decrease is primarily due to unusual expenses associated with the Company's new logistics initiative and professional fees related to the implementation of a new information system incurred in the second quarter of Fiscal 2003 which were not incurred in Fiscal 2004.

Franchising. Franchise fees recognized on one store opening was \$40,000 in the second quarter of Fiscal 2004 and \$40,000 for one store opening in the same period last year. Royalty fees increased 10.9% to \$7.2 million in the second quarter of Fiscal 2004 from \$6.5 million in the same period last year. This was primarily due to an increased franchise store base and a same store sales increase of 7.0% for the franchise stores in the second quarter of Fiscal 2004, as compared with 2.9% for the same period last year.

Expenses attributable to franchise revenue decreased 5.1% to \$1.6 million for the second quarter of Fiscal 2004 from \$1.6 million for the second quarter of the prior fiscal year. As a percentage of franchise revenue, franchise expenses were 21.5% and 25.2% for the second quarter of Fiscal 2004 and Fiscal 2003, respectively.

Franchise profit contribution, which is franchise revenue minus expenses related to franchise revenue, increased 16.3% to \$5.7

Table of Contents

million in second quarter of Fiscal 2004 from \$4.9 million in the same period last year. The increase in franchise profit contribution is due to the increase in royalty fees combined with a decrease in franchise expenses.

Interest Expense. Interest expense decreased to \$112,000 for the second quarter of Fiscal 2004 from \$2.8 million in the same period last year. This decrease in interest expense is due to the repurchase of outstanding senior notes in the second quarter of Fiscal 2003. The repurchase of these notes was completed using working capital and borrowings under the Company's asset-based revolving credit agreement.

Income Taxes. An income tax expense of \$13.1 million or 40.5% of pre-tax income, and \$10.0 million or 39.9% of pre-tax income was recorded in the second quarter of Fiscal 2004 and Fiscal 2003, respectively. The change in tax rate from 39.9% to 40.5% is due to an increase in the overall state tax rate.

Net Income. As a result of the above factors, net income increased to \$19.3 million, or \$0.98 per diluted share, in the second quarter of Fiscal 2004, as compared to net income of \$15.1 million, or \$0.76 per diluted share in Fiscal 2003. Weighted average diluted shares outstanding decreased to 19.6 million in the second quarter of Fiscal 2004 from 19.9 million in the same period last year. This decrease is mainly due to the 463,000 shares of company stock that were purchased by the Company during the third quarter of Fiscal 2003, the warrant and stock option exercises during the twelve months ending December 27, 2003.

Six Months Ended December 27, 2003 Compared with Six Months Ended December 28, 2002

Retail. Net sales from Company-owned stores increased 10.0% to \$277.9 million for the six-months ended December 27, 2003 from \$252.8 million for the same period last year. Of the 10.0% increase in net sales, 3.8% resulted from a same store sales increase and the remaining 6.2% related to the stores that have not been open for one year. The customer count in company-owned stores, on a same store basis, increased 1.4%, and the average sale increased 2.2%. With 31 stores joining the same store sales group during the six months ended December 27, 2003, same store sales increased 4.6% in the western region, 4.3% in the eastern region and 2.8% in the central region. Same store sales for Company-owned stores increased 2.5% for the same period last year. The Company opened six new stores and closed one store during the six-months ended December 27, 2003 and opened 28 stores, acquired two stores from franchises and closed no stores during the same period last year.

Gross profit, which is net sales minus cost of goods sold and occupancy costs, increased 7.1% to \$98.9 million in the six-months ended December 27, 2003 from \$92.4 million in the same period last year. The increase was primarily due to increased sales volume. Gross margin as a percent of sales was 35.6% for the six-months ended December 27, 2003 compared with 36.5% for the same period last year. The decrease in gross margin percent was related primarily to a high level of promotional activity in July and August, the continued emphasis on the clearance of discontinued merchandise as part of the Company's strategic focus.

Store operating and selling expenses increased 7.2% to \$62.2 million for the six-months ended December 27, 2003 from \$58.0 million in the same period last year. The increase in store operating expenses is attributable to increased expenses related to the additional stores opened since the same period last year. Store operating and selling expenses were 22.4% and 22.9% of sales for the six-months ended December 27, 2003 and December 28, 2002, respectively. The decrease as a percent of sales is due mainly to a decrease in store opening expenses.

The pre-opening expenses incurred in the six-months ended December 27, 2003 for the new stores and stores to be opened later in the fiscal year amounted to \$323,000 compared with \$796,000 incurred during the same time period last year.

Company-owned store profit contribution, which is gross profit minus store operating and selling expenses, was \$36.7 million for the six-months ended December 27, 2003 compared with \$34.4 million for the same period last year. The improvement over the prior year is primarily the result of same store sales increases and the increase in the number of stores. Store profit contribution as a percent of sales was 13.2% for the six-months ended December 27, 2003 compared with 13.6% of sales in the same period last year due to the decrease in gross margin as described above. New stores in their first or second Halloween season reported store contribution of \$1.3 million, an increase of \$3.7 million over the comparable period last year. Of this \$3.7 million increase, approximately \$900,000 was attributable to our Seattle stores.

General and administrative expenses decreased 0.3% to \$15.7 million in the six-months ended December 27, 2003 from \$15.7 million in the same period last year. General and administrative expenses were 5.6% and 6.2% of sales for the six-months ended December 27, 2003 and December 28, 2002, respectively. This decrease is primarily due to unusual expenses associated with the Company's new logistics initiative and professional fees related to the implementation of a new information system incurred during the six months ended December 27, 2002 which were not incurred during the same time period this year.

Franchising. Franchising fees recognized on 13 store openings was \$488,000 in the six-months ended December 27, 2003 as compared with \$275,000 recognized for eight store openings in the same period last year. Royalty fees increased 9.6% to \$11.1 million in the six-months ended

Edgar Filing: PARTY CITY CORP - Form 10-Q

December 27, 2003 from \$10.2 million in the same period last year. This was primarily due to an increased franchise store base and a same store

Table of Contents

sales increase of 5.7% for the franchise stores in the six-months ended December 27, 2003, as compared with 4.0% for the same period last year.

Expenses attributable to franchise revenue for the six-months ended December 27, 2003 remained relatively flat with last year at \$3.2 million. As a percentage of franchise revenue, franchise expenses were 27.7% and 30.8% for the six-months ended December 27, 2003 and December 28, 2002, respectively.

Franchise profit contribution, which is franchise revenue minus expenses related to franchise revenue, increased 16.3% to \$8.4 million for the six months ended December 27, 2003 from \$7.2 million in the same period last year. The increase in franchise profit contribution is due to the increase in royalty fees as well as a decrease in franchise expenses.

Interest Expense. Interest expense decreased to \$312,000 for the six-months ended December 27, 2003 from \$3.7 million in the same period last year. This decrease in interest expense is due to the repurchase of outstanding senior notes. The repurchase of these notes was completed using working capital and borrowings under the Company's asset-based revolving credit agreement.

Income Taxes. An income tax expense of \$11.8 million or 40.5% of pre-tax income, and \$8.9 million or 40.0% of pre-tax income, was recorded in the six-months ended December 27, 2003 and December 28, 2002, respectively. The change in tax rate from 40.0% to 40.5% is due to an increase in the overall state tax rate.

Net Income. As a result of the above factors, net income increased to \$17.3 million or \$0.88 per diluted share in the six-months ended December 27, 2003, as compared to net income of \$13.3 million, or \$0.67 per diluted share in the same period last year. Weighted average diluted shares outstanding decreased to 19.6 million in the six-months ended December 27, 2003 from 19.9 million in the same period last year. This decrease is mainly due to the 463,000 shares of company stock that were purchased by the Company during the third quarter of Fiscal 2003, the warrant and stock option exercises during the twelve months ending December 27, 2003 and a slight decrease in average stock price for the six months ending December 27, 2003.

Liquidity and Capital Resources

The Company's cash requirements are primarily for working capital, the opening of new stores, the improvement and expansion of existing facilities and the improvement of information systems. Historically, these cash requirements have been met through cash flow from operations and borrowings under our credit facilities. At December 27, 2003, working capital was \$35.6 million compared to \$14.5 million in the same period last year.

For the six months ended December 27, 2003, cash provided by operating activities was \$30.6 million, compared to \$19.9 million for the same period last year. The increase in cash provided by operating activities was primarily attributable to a decrease in inventory. The decrease in average inventory level per store of 15.7% from the same period last year was attributed to management's efforts to control inventory and enable the Company to focus on product assortment, merchandise presentation and identify and discontinue slower moving SKUs. There was also an increase in net income and a decrease in accounts payable and other current liabilities.

Cash used in investment activities for the six months ended December 27, 2003 was \$3.5 million compared to \$15.2 million in the same period in the last fiscal year. The decrease in cash used in investing activities was primarily attributable to the opening of six Company-owned stores this year as compared with 28 new store openings and the acquisition of two stores from a franchisee during the same period last year.

Cash used in financing activities was \$9.9 million for the six months ended December 27, 2003 compared with \$4.9 million for the same period last year. Cash generated from operations was used to pay down our revolving credit facility.

At December 27, 2003, the Company had no balance outstanding under the Loan Agreement. Under the terms of the Loan Agreement, the Company may from time to time borrow amounts based on a percentage of its eligible inventory, up to a maximum of \$65 million at any time outstanding. Advances bear interest, at the Company's option, (i) at the adjusted Eurodollar rate plus the applicable margin, which was set initially at 1.50% and is currently at 1.25%, per annum or (ii) at the prime rate less the applicable margin, which was initially set at and is currently 0.25% per annum, totaling 3.75% at December 27, 2003. The term of the Loan Agreement is three years, and is secured by a lien on substantially all of the assets of the Company. At December 27, 2003 and February 2, 2004, the

Table of Contents

Company had no borrowings outstanding under the Loan Agreement. Based on a percentage of current eligible inventory and credit card receivables, the Company had \$19.2 million available to be borrowed under the Loan Agreement at February 2, 2004.

Company management currently believes that the cash generated by operations, together with the borrowing availability under the Loan Agreement, will be sufficient to meet the Company's working capital needs for the next twelve months, including planned new store openings. The Company is currently free of debt. This permits the Company to consider a wide variety of corporate initiatives intended to improve shareholder value, although there is no assurance that any specific initiative will be pursued or consummated.

Contractual Obligations and Commercial Commitments

To facilitate an understanding of our contractual obligations and commercial commitments, the following data is provided as of December 27, 2003:

	Payments Due By Period (in thousands)				
	Total	1 Year	2-3 Years	4-5 Years	After 5 years
Contractual Obligations Operating leases	\$244,830	\$46,229	\$86,258	\$81,701	\$30,642
Severance Arrangements	13	13			
Capital lease Obligations	10	10			
Total Contractual Obligations	\$244,853	\$46,252	\$86,258	\$81,701	\$30,642

As of December 27, 2003 and February 2, 2004, we had a contingent liability related to severance payments for 14 employees. The total contingent liability ranges from zero to approximately \$2.0 million. As of December 27, 2003 and February 2, 2004, we had a standby letter of credit of \$3.7 million pursuant to the Loan Agreement.

Off-Balance Sheet Arrangements

We have not created, and are not party to, any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business.

Accounting and Reporting Changes

In January 2003, the FASB issued FASB Interpretation (FIN) No. 46, Consolidation of Variable Interest Entities. FIN 46 addresses how to identify variable interest entities and provides guidance as to how a company may assess its interests in a variable interest entity for purposes of deciding whether consolidation of that entity is required. FIN 46 is effective for all variable interest entities created after January 31, 2003. The Company is required to adopt the provisions of FIN 46 for any variable interest entity created prior to February 1, 2003 by the end of the current fiscal year. The Company is reviewing the provisions of this interpretation and currently does not expect its implementation to have a material effect on its financial position, results of operations or cash flows.

Forward-Looking Statements

This Form 10-Q (including the information incorporated herein by reference) contains forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. The statements are made a number of times throughout the document and may be identified by forward-looking terminology as estimate, project, expect, believe, may, will, intend or similar statements or variations of such terms. Such forward-looking statements are based on many assumptions that are subject to certain risks and uncertainties, and include among others, the following: levels of sales, store traffic, acceptance of product offerings, competitive pressures from other party supplies retailers and other retailers, availability of qualified personnel, availability of suitable future store locations, schedules of store expansion plans and other factors beyond our control. As a result of the foregoing risks and uncertainties, actual results and performance may differ materially from those projected or suggested herein. Additional information concerning certain risks and uncertainties that could cause our actual results to differ materially from those projected or suggested may be identified from time to time in our Securities and Exchange Commission filings and our public announcements.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

We, in the normal course of doing business, are exposed to interest rate change and market risk. As borrowing patterns are cyclical, we borrow only during certain times of the year. Therefore, a sudden increase in interest rates (which under the Loan Agreement is dependent on, at the Company's option, (i) at the adjusted Eurodollar rate plus the applicable margin, which was set

Table of Contents

initially at 1.50% per annum, and is currently at 1.25% per annum, or (ii) at the prime rate less the applicable margin, which was set initially at and is 0.25% per annum) may, during peak borrowing, have a negative impact on short-term results.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the three months covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

A lawsuit was filed on September 25, 2001 against Party City in Los Angeles Superior Court by an assistant manager in one of the Company's California stores for himself and on behalf of other members of an alleged class of Party City store managers (the Class) who claim the Company misclassified the Class members as exempt from California overtime wage and hour laws. The Class members seek the disgorgement of overtime wages allegedly owed by the Company to them but not paid and they also seek punitive damages and statutory penalties. If a class is certified, liability is found and a judgment is entered, such a judgment may adversely affect the Company.

In addition to the foregoing, from time to time the Company is involved in routine litigation incidental to the conduct of the business which is not, individually or in the aggregate, material to the Company.
