Forward-Looking Statements

This Quarterly Report on Form 10-Q (including the information incorporated herein by reference) contains forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. The statements may be identified by forward-looking terminology such as estimate, project, expect, believe, may, intend or similar statements or variations of such terms. Forward-

Table of Contents

looking statements involve known and unknown risks and uncertainties, which may cause our actual results in future periods to differ materially from forecasted results. Those risks and uncertainties include, among other things, the effect of price and product competition in the party goods industry in general and in our specific market areas, our ability to anticipate customer demand for products and to design and develop products that will appeal to our customers, our ability to open new stores successfully, our ability to continue to successfully implement our distribution system and to implement our merchandise replenishment and other software systems, the availability and terms of capital to fund capital improvements, acquisitions and ongoing operations, our ability to manage successfully our franchise program, our ability to improve our fundamental business processes, including, but not limited to inventory sourcing, to reduce costs throughout our organization, our ability to attract and retain qualified personnel, changes in costs of goods and services and economic conditions in general and/or to identify, execute and integrate acquisitions and to realize synergies. See Part I, Item 1. Business-Risk Factors in our 2004 10-K for further information on such risks and uncertainties. Furthermore, additional information concerning certain risks and uncertainties that could cause our actual results to differ materially from those projected or suggested may be identified from time to time in our SEC filings and our public announcements. You are cautioned not to place undue reliance on such forward-looking statements, which are made as of the date of this release, and we have no obligation or intention to update or revise such forward-looking statements.

Table of Contents

**PARTY CITY CORPORATION AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

1. Basis of Presentation

Party City Corporation (together with its wholly-owned subsidiary, the Company) is incorporated in the State of Delaware and operates retail party supply stores within the United States and sells franchises on an individual store and area basis throughout the United States and Puerto Rico. The condensed consolidated unaudited financial statements have been prepared in accordance with the rules and regulations established by the Securities and Exchange Commission (the SEC). In the opinion of management, the accompanying condensed consolidated unaudited financial statements fairly present, in all material respects, the financial position of the Company as of April 2, 2005 and March 27, 2004 and the results of operations for the quarters and nine months ended April 2, 2005 and March 27, 2004 and cash flows for the nine months ended April 2, 2005 and March 27, 2004. All significant intercompany accounts and transactions have been eliminated. Because of the seasonality of the party goods industry, operating results of the Company on a quarterly basis may not be indicative of operating results for the full fiscal year.

These condensed consolidated unaudited financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended July 3, 2004, which are included in the Company's Annual Report on Form 10-K filed with the SEC on September 14, 2004 (the 2004 10-K). The July 3, 2004 condensed consolidated unaudited balance sheet amounts included herein are derived from the Company's audited consolidated financial statements.

The Company's fiscal year ends the Saturday nearest to June 30. As used herein, the term Fiscal Year or Fiscal refers to the 52- or 53-week period, as applicable, ending the Saturday nearest to June 30. Fiscal 2005 is a 52-week period ending July 2, 2005, while Fiscal 2004 is a 53-week period that ended July 3, 2004. However, the financial results for the fiscal quarter ended and nine months ended April 2, 2005 and March 27, 2004 are each based on a 13-week period and 39-week period, respectively.

We have made certain reclassifications to prior period information to conform to the current period presentation. Auction rate securities, which were previously recorded in cash and cash equivalents in our interim fiscal 2004 consolidated financial statements, have been included in short-term investments in the accompanying consolidated financial statements due to their liquidity and pricing reset feature. Prior period quarterly information will be reclassified to conform to the current year presentation. There will be no impact on net income, stockholders' equity, debt covenants or cash flow from operations as a result of this reclassification.

2. Accounting Policies

The Company's significant accounting policies are described in Note 1 to the consolidated financial statements included in the 2004 10-K.

During the first quarter of Fiscal 2005, the Company launched its logistics initiative, which includes modifying its business operations to vertically integrate certain logistics and distribution activities, and therefore adopted a new specific accounting policy for the treatment of the costs associated with the distribution network. The Company has outsourced the operations of its distribution network to a third party. Distribution costs include the third party fees and expenses of operating the distribution centers and the freight expense relating to transporting merchandise to the Company-owned stores. These distribution costs are initially capitalized into merchandise inventory and expensed when the merchandise is sold.

During the third quarter of Fiscal 2005, the Company began providing product and logistics services through its distribution network to all of its franchise operators. Revenues and expenses associated with servicing the franchisees through the distribution network include product sales and fixed and variable distribution center expenses, transportation and other selling expenses, respectively. As defined in the Emerging Issues Task Force (EITF) EITF 99-19 Reporting Revenue Gross as a Principal Versus Net as an Agent, the Company records revenues and expenses related to servicing its franchisees on a gross basis

Table of Contents

PARTY CITY CORPORATION AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

because the Company acts as a principal in the transaction, takes title to the products, and holds inventory ownership risk.

Short-Term Investments. Although the Company did not have a balance of short-term investments as of April 2, 2005, the Company purchased and subsequently sold short-term investments during this fiscal year, which consisted of auction rate debt and preferred stock securities. Auction rate securities are term securities earning income at a rate that is periodically reset, typically within 35 days, to reflect current market conditions through an auction process. These securities are classified as available-for-sale securities under the provisions of SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. Accordingly, these short-term investments are recorded at fair-value, with any related unrealized gains and losses included as a separate component of stockholders' equity, net of tax. Realized gains and losses and investment income are included in earnings. Although the Company had no short-term investments at April 2, 2005, as mentioned above, the year to date investment activity on a cumulative basis is presented in the Cash Flows from Investing Activities.

3. Stock-Based Compensation

The Company periodically grants stock options to employees. In December 2004, the Financial Accounting Standards Board (the FASB) published Statement of Financial Accounting Standards (SFAS) No. 123R, *Share-Based Payment (SFAS No. 123R)*, an amendment of FASB Statements No. 123 and No. 95. Under SFAS No. 123R, all forms of share-based payment to employees, including employee stock options, would be treated as compensation and recognized in the income statement. SFAS No. 123R is effective beginning the first quarter of Fiscal 2006. The Company is continuing to evaluate the full impact of SFAS No. 123R for its adoption in the first quarter of fiscal 2006. We currently account for stock options under Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees (APB No. 25)*.

Pursuant to APB No. 25, the Company accounts for stock-based employee compensation arrangements using the intrinsic value method. If the options are granted to employees below fair market value, compensation expense is recognized.

The Company has adopted the disclosure only provisions of SFAS No. 123, *Accounting for Stock Based Compensation (SFAS No. 123)*, as amended by SFAS No. 148, *Accounting for Stock Based Compensation Transition and Disclosure, an Amendment of SFAS No. 123 (SFAS No. 148)*. If

Table of Contents**PARTY CITY CORPORATION AND SUBSIDIARY****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

compensation cost for the Company's stock option plans had been determined in accordance with the fair value method prescribed by SFAS No. 148, the Company's net (loss) income would have been:

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
	(In thousands, except per share amounts)			
Net (loss) income as reported	\$ (7,233)	\$ (5,561)	\$ 4,386	\$ 11,779
Add: Stock-based employee compensation expense determined under APB 25, net of tax	33	161	43	249
Deduct: Total stock-based employee compensation expense determined under fair value based method of SFAS No. 148, net of tax(1)	(766)	(533)	(1,796)	(1,526)
Pro forma net (loss) income	\$ (7,966)	\$ (5,933)	\$ 2,633	\$ 10,502
Basic and diluted (loss) earnings per share:				
Basic (loss) earnings per share as reported	\$ (0.42)	\$ (0.33)	\$ 0.26	\$ 0.70
Basic (loss) earnings per share pro forma	\$ (0.46)	\$ (0.35)	\$ 0.15	\$ 0.62
Diluted (loss) earnings per share as reported	\$ (0.42)	\$ (0.33)	\$ 0.22	\$ 0.60
Diluted (loss) earnings per share pro forma	\$ (0.46)	\$ (0.35)	\$ 0.13	\$ 0.53

- (1) In accordance with SFAS No. 148, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model using the following assumptions for grants in the respective periods:

	Fiscal Quarter and Nine Months Ended	
	April 2, 2005	March 27, 2004
Expected volatility	55%	55%
Expected lives	4.0 years	4.0 years
Risk-free interest rate	3.3%	2.5%
Expected dividend yield	0.0%	0.0%

The weighted average fair value of options granted during the third quarter of Fiscal 2005 and 2004 were \$5.54 and \$5.56, respectively.

The weighted average fair value of options granted during the first nine months of Fiscal 2005 and 2004 were \$5.64 and \$5.63, respectively.

Table of Contents

PARTY CITY CORPORATION AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. Earnings Per Share

The following table sets forth the computations of basic and diluted earnings per share:

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
(In thousands, except per share amounts)				
Net (loss) income	\$ (7,233)	\$ (5,561)	\$ 4,386	\$ 11,779
(Loss) earnings per share basic	\$ (0.42)	\$ (0.33)	\$ 0.26	\$ 0.70
(Loss) earnings per share diluted	\$ (0.42)	\$ (0.33)	\$ 0.22	\$ 0.60
Weighted average common shares outstanding	17,231	16,992	17,171	16,871
Dilutive effect of stock options	(a)(b)	(a)(b)	349	454
Dilutive effect of warrants	(a)(c)	(a)(c)	2,294	2,286
Dilutive effect of restricted stock units	(a)(d)	(a)(d)	13	19
Weighted average common and potentially dilutive common shares outstanding	17,231	16,992	19,827	19,630

- (a) Stock options and warrants with exercise prices below the applicable market price of the Company's common stock and all restricted stock units are included in potentially dilutive common shares outstanding if the Company reports net income for a reporting period. Therefore, if the Company reports net income, its earnings per share would be lower on a diluted basis. Options to purchase 1,648,134 common shares with exercise prices ranging from \$1.71 to \$12.82 per share at April 2, 2005, and options to purchase 2,292,331 common shares with exercise prices ranging from \$1.71 to \$13.77 per share at March 27, 2004, would have been included in the weighted-average common and potentially dilutive common shares outstanding, respectively, if the Company was in a net income position.

However, when the Company incurs a net loss for a reporting period, the inclusion of any such shares would result in a decrease in loss per share, and therefore all stock options, warrants and restricted stock units are ignored when calculating diluted earnings per share. Therefore, the Company's loss per share for the quarter ended April 2, 2005 and March 27, 2004 are the same amounts on a basic and diluted basis, respectively.

- (b) Options to purchase 2,971,534 common shares with exercise prices ranging from \$1.71 to \$30.88 per share were outstanding at April 2, 2005, and options to purchase 2,958,213 common shares with exercise prices ranging from \$1.71 to \$30.88 per share were outstanding at March 27, 2004, were not included in the computation of diluted loss per share for the fiscal quarter ended April 2, 2005 and March 27, 2004, respectively, because to do so would have been anti-dilutive.
- (c) Warrants to purchase 2,496,000 common shares with an exercise price of \$1.07 per share were outstanding at April 2, 2005 and March 27, 2004 but were not included in the computation of diluted loss per share for the fiscal

quarter ended April 2, 2005 and March 27, 2004, respectively, because to do so would have been anti-dilutive.

- (d) Restricted stock units of 13,567 and 16,012 shares of common stock were outstanding at April 2, 2005 and March 27, 2004, respectively, related to the Management Stock Purchase Plan and were not included in the computation of diluted loss per share for the fiscal quarter ended April 2, 2005 and March 27, 2004, respectively, because to do so would have been anti-dilutive.

5. Financing Agreement

In January 2003, the Company entered into a \$65 million revolving credit facility (the Loan Agreement) with Wells Fargo Retail Finance, LLC, as the arranger, collateral agent and administrative

Table of Contents**PARTY CITY CORPORATION AND SUBSIDIARY****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

agent, and Fleet Retail Finance, Inc., as the documentation agent. Under the terms of the Loan Agreement, the Company may borrow amounts based on a percentage of its eligible inventory and credit card receivables, subject to certain borrowing conditions and customary sub-limits, reserves and other limitations. The Company has the option, based on its liquidity needs, to borrow at (i) the adjusted Eurodollar rate per annum plus the applicable margin, which is currently at 1.25% (which in the aggregate under the Loan Agreement was 2.87% for a 1 month term at April 2, 2005), or (ii) the prime rate per annum less the applicable margin, which is currently 0.25% (which in the aggregate under the Loan Agreement was 5.5% at April 2, 2005). The Loan Agreement matures on April 30, 2006 and is secured by a lien on substantially all of the Company's assets. Pursuant to the terms of the Loan Agreement, the Company had a standby letter of credit of \$5.7 million and \$3.7 million outstanding at April 29, 2005 and April 2, 2005, respectively, relating to general liability and workers compensation insurance, the increase is due to the addition of a new policy year for general liability and workers compensation insurance. At April 29, 2005 and April 2, 2005, the Company had no borrowings outstanding under the Loan Agreement. Based on a percentage of current eligible inventory and credit card receivables, the Company had \$29.4 million and \$27.2 million available to be borrowed under the Loan Agreement at April 29, 2005 and April 2, 2005, respectively.

6. Stockholders Equity***Shares Outstanding***

The Company's authorized capital stock consists solely of shares of its common stock, \$0.01 par value per share. At April 2, 2005 and March 27, 2004, there were 17,986,354 shares and 17,760,444 shares, respectively, of the Company's common stock issued. At April 2, 2005 and March 27, 2004, there were 747,012 shares of the Company's common stock held as treasury stock. At April 2, 2005 and March 27, 2004, there were 17,239,342 shares and 17,013,432 shares, respectively, of the Company's common stock outstanding.

Stock Repurchase

In September 2001, the Board of Directors authorized the Company to repurchase up to \$15 million of its outstanding common stock at a price not to exceed \$7.00 per share, which was amended on February 7, 2003 to a price not to exceed \$10.00 per share. Stock repurchases are made at the discretion of management. There were no stock repurchases during Fiscal 2004 or during the first nine months of Fiscal 2005. As of April 2, 2005, the Company had purchased 747,012 shares for an aggregate amount of \$5.9 million or 39.6% of the total amount to be purchased.

Warrants

There were no warrant exercises in Fiscal 2004 or during the first nine months of Fiscal 2005. As of April 2, 2005, the Company had 2,496,000 warrants outstanding with an exercise price of \$1.07 per share.

Stock Options

On October 19, 1999, the Company's Board of Directors adopted the Company's 1999 Stock Incentive Plan (1999 Plan). This adoption was approved by the Company's stockholders on November 15, 1999. A total of 500,000 shares of the Company's common stock were reserved for issuance under the 1999 Plan.

On October 5, 2000, the Board approved an amendment and restatement of the 1999 Plan, increasing the number of shares of common stock reserved for issuance thereunder from 500,000 to 2,000,000. This adoption was approved by the Company's stockholders on November 15, 2000. On October 17, 2003, the Board approved an amendment and restatement of the 1999 Plan, increasing the number of shares of common stock reserved for issuance under the Plan from 2,000,000 to 7,500,000, and increasing the limit on the number of shares of the Company's common stock which may be subject to options or stock appreciation rights granted

Table of Contents

PARTY CITY CORPORATION AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

to a single participant in any given year from 400,000 to 750,000. This adoption was approved by the shareholders on November 12, 2003. A total of 7,500,000 are currently reserved for issuance under the 1999 Plan.

The purpose of the 1999 Plan is to promote the long-term financial success of the Company by enhancing the ability of the Company to attract, retain and reward individuals who can and do contribute to such success and to further align the interest of the Company's key personnel with its stockholders. Key employees, directors and consultants of the Company are eligible to receive options under the 1999 Plan.

The 1999 Plan provides for the grants of options and restricted stock and other stock-based awards as the compensation committee of the Board of Directors may from time to time deem appropriate. Such awards may include stock appreciation rights, phantom stock awards, bargain purchase of stock and stock bonuses. Vesting and other terms of stock options awarded are set out in the agreements between the Company and the individuals receiving such awards. The exercise price of the options is determined by the compensation committee at the time of grant and may not be less than the fair market value of the Company's common stock on the date of grant. Options granted under the 1999 Plan vest over four to seven years from the date of grant and expire in ten years.

The Company also maintains the Amended and Restated 1994 Stock Option Plan (1994 Plan) pursuant to which options were granted to employees, directors and consultants for the purchase of common stock of the Company. No additional grants of options under the 1994 Plan are permitted. The 1994 Plan, as amended, permitted the Company to grant incentive and non-qualified stock options to purchase a total of up to 1,800,000 shares of the Company's common stock at an exercise price not less than fair value at date of grant. The original terms of the agreements between the Company and the individuals receiving the grants under the 1994 Plan with respect to vesting, expiration and exercise price remain unchanged.

Management Stock Purchase Plan

In June 2001, the Company established a Management Stock Purchase Plan (MSPP). The MSPP provides certain management employees of the Company the opportunity to defer a portion of their incentive compensation to acquire and maintain ownership of the Company's common stock, with the intent to strengthen their commitment to the welfare of the Company and to promote an identity of interest among Company stockholders and these employees. The amount deferred by the individual is held in restricted stock units. The restricted stock units are converted into the Company's common stock on a one-to-one basis upon vesting. These restricted stock units are purchased at a discount of 20% or 25%, depending on the amount of the individual deferral, from the average price of Company's common stock on the determination date. Such discounts vest at the end of three years or seven years, selected by the participant, after the determination date. To date, all participants have selected three-year vesting periods for all deferrals. The amortization of the discount is charged to compensation expense over the deferral period. The compensation expense attributable to the MSPP for the third quarter of Fiscal 2005 and Fiscal 2004 was approximately \$4,000 and \$3,000, respectively, and during the nine months of Fiscal 2005 and Fiscal 2004 was approximately \$10,000 and \$19,000, respectively. Based on management participation in the MSPP from June 2002 until the end of the third quarter of Fiscal 2005, the Company was obligated to issue 13,567 shares of common stock, which represents \$151,000 of deferred compensation as of the end of the third quarter of Fiscal 2005, upon vesting and conversion. Based on management participation in the MSPP from June 2001 until the end of the third quarter of Fiscal 2004, the Company was obligated to issue 16,012 shares of common stock, which represents \$134,000 of deferred compensation as of the end of the third quarter of Fiscal 2004, upon vesting and conversion.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Employee Stock Purchase Plan

In June 2001, the Company established an Employee Stock Purchase Plan (ESPP). The ESPP provides employees of the Company with an opportunity to purchase shares of the Company s common stock at a discount of 15% through accumulated payroll deductions. This plan qualifies as an Employee Stock Purchase Plan under Section 423 of the Internal Revenue Code.

7. Legal Proceedings

A lawsuit was filed on September 25, 2001 against Party City Corporation in Los Angeles Superior Court by an assistant manager in one of the Company s California stores for himself and on behalf of other members of an alleged class of Party City store managers (the Class) who claimed the Company misclassified the Class members as exempt from California overtime wage and hour laws. The Class members sought the disgorgement of overtime wages allegedly owed by the Company to them but not paid and they also sought punitive damages and statutory penalties.

On March 30, 2004, the parties reached an agreement-in-principle to settle this lawsuit for \$5.5 million on a claims made basis, which means that a payout to class members will only occur when claims are actually made by Class members. Previously, the Company recorded a pre-tax charge of \$1.4 million related to this lawsuit. In connection with the agreement-in-principle, the Company recorded an additional pre-tax charge of \$4.1 million during the third quarter of Fiscal 2004 to fully cover the settlement payments, attorneys fees and the estimated expenses of administering the settlement.

On September 27, 2004, the Company entered into a final settlement agreement which contained no material changes from the aforementioned agreement-in-principle. As of April 29, 2005, no payments have been made for the settlement payments, attorneys fees or the expenses of administering the settlement.

In addition to the foregoing, from time to time the Company is involved in routine litigation incidental to the conduct of the business. The Company is aware of no other material existing or threatened litigation to which the Company is or may be a party.

8. Segment Information

The Company reports two business segments retail and franchising. The retail segment generates revenue primarily through the sale of third-party branded party goods through Company-owned stores. The franchising segment generates revenue through the imposition of an initial one-time franchise fee that is paid upon the grant of a new franchise, ongoing royalty payments by franchisees based on retail sales and sales of product and services through the distribution network.

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information , establishes standards for reporting information about operating segments. This standard requires segmentation based on the Company s internal organization and reporting of revenue and operating income based upon internal accounting methods. The Company s segments are designed to allocate resources internally and provide a framework to determine management responsibility. Additionally, the Company s financial reporting systems present various data by segment for management to run the business, including internal profit and loss statements prepared on a basis consistent with accounting principles generally accepted in the United States of America.

The Company's accounting policies are described in Note 2 of the Company's condensed consolidated financial statements included herein. The Company has no inter-segment sales. No single customer accounts for 10% or more of total revenues. All assets of the Company are located in the United States and Puerto Rico.

9. Contractual Obligations and Commercial Commitments

As of April 2, 2005, the Company's contractual obligations and commercial commitments are as follows (in thousands):

	Total	Operating Leases(1)	Merchandise Orders	Logistics Initiative Obligations	Auto Leases	Capital Leases	Severance(2)
Fiscal year ending:							
2005	\$ 31,897	\$ 11,890	\$ 19,003	\$ 675	\$ 69	\$ 43	\$ 217
2006	49,881	46,329		2,700	181	181	490
2007	46,037	42,680		2,700	129	528	
2008	34,262	34,255			7		
2009	22,176	22,176					
Thereafter	55,932	55,932					
Total minimum payments	\$ 240,185	\$ 213,262	\$ 19,003	\$ 6,075	\$ 386	\$ 752	\$ 707

- (1) The Company is also obligated for guarantees, subleases or assigned lease obligations for 23 of the franchise stores through 2011. The majority of the guarantees, subleases and assigned lease obligations were given when the Company sold stores in 1999 as part of its restructuring. The guarantees, subleases and assigned lease obligations continue until the applicable leases expire. The maximum amount of the guarantees, subleases and assigned lease obligations may vary, but is limited to the sum of the total amount due under the leases. As of April 2, 2005, the maximum amount of the guarantees, subleases and assigned lease obligations was approximately \$12.9 million, which is not included in this table.

The operating leases included in the above table do not include contingent rent based upon sales volume, which represented less than 1% of minimum lease obligations in Fiscal 2004, or other variable costs such as maintenance, insurance and taxes, which represents approximately 5.9% of minimum lease obligations in Fiscal 2004.

Table of Contents

**PARTY CITY CORPORATION AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(2) The severance obligations specified in the table above are for the Company's former Chief Executive Officer. In addition, as of April 29, 2005 and April 2, 2005, the Company had an aggregate contingent liability of up to \$1.9 million related to potential severance payments for 17 employees pursuant to their respective employment agreements. The Company is not currently aware of any event that would trigger such \$1.9 million contingent liability.

The Company closed one store during the third quarter of Fiscal 2005 and three stores for the nine months ended April 2, 2005, as compared to no store closings during the third quarter of Fiscal 2004 and one store closing for the nine months ended March 27, 2004. A reserve of \$871,000 has been recorded for future rent, property tax and utility payments for one store closed in Fiscal 2005 and two stores closed in prior fiscal years. The Company does not expect to incur significant additional exit costs relating to these closures.

On September 16, 2004, the Company entered into a new corporate office lease for 106,000 square feet of office space. The initial term is for 12 years, with two five-year renewal options. The lease contains escalation clauses and obligations for reimbursement of common area maintenance and real estate taxes. The lease for the Company's current corporate headquarters expired in December 2004, but the Company negotiated an extension of such lease to expire in August 2005. As part of the lease extension, the Company will incur increased rent after August 2005 if it continues to occupy the existing corporate headquarters. The Company intends to relocate to the new corporate headquarters by the end of the first quarter of Fiscal 2006 and intends to vacate its current corporate headquarters thereafter.

The Company enters into arrangements to purchase merchandise up to eight months in advance of expected delivery. Historically, these purchase commitments did not contain any significant termination payments or other penalties if cancelled. Certain of these purchase commitments may obligate the Company to specified quantities, even if desired quantities change at a later date. As of April 2, 2005, the Company had approximately \$19.0 million of proprietary product for which the Company has made purchase arrangements.

Logistics initiative obligations include a commitment for the purchase of selected equipment and services associated with the operation of the distribution centers.

At April 2, 2005, the Company operated a fleet of 36 leased motor vehicles, primarily for the district managers and regional management. The terms of these leases generally run for 36 months and expire at various times through December 2007.

The Company has entered into a capital lease arrangement with a third party provider that involves dedicated assets needed for the Company's logistics initiative. As of April 2, 2005, the contractual obligation of this capital lease is equal to \$795,000, which includes \$43,000 of imputed interest. The remaining current and long-term portion of this capital lease liability, excluding imputed interest, is \$177,000 and \$575,000, respectively.

Pursuant to the terms of the Loan Agreement, the Company had a standby letter of credit of \$5.7 million and \$3.7 million outstanding at April 29, 2005 and April 2, 2005, respectively, relating to general liability and workers compensation insurance, which is not reflected in the above table. The increase is due to the addition of a new policy year for general liability and workers compensation insurance.

10. Goodwill

The Company prepared a fair value analysis for one reporting unit and as a result recorded a goodwill impairment charge of \$115,000 during the third quarter of Fiscal 2005.

Table of Contents**PARTY CITY CORPORATION AND SUBSIDIARY****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

All of the Company's recorded goodwill is associated with its retail segment. The changes in the carrying amount of goodwill during Fiscal 2005 are as follows (in thousands):

Balance as of July 3, 2004	\$ 18,614
Goodwill impairment during the third quarter 2005	(115)
Balance as of April 2, 2005	\$ 18,499

11. Non-Compete Agreement and Trademark License Agreements

The Company has two non-compete agreements, one with a franchise owner and the other with Paper Warehouse, Inc. The Company also has trademark license agreements. All of these agreements are included in other assets and are being amortized using the straight-line method over the life of the agreement. Amortization expense for these non-compete agreements and trademark license agreements was approximately \$59,000 and \$105,000 for the nine months ended April 2, 2005 and March 27, 2004, respectively. The following chart shows the amortization expense of these intangibles by year until they are fully amortized (in thousands):

Fiscal Year Ending:	Amortization Expense
2005 (fourth quarter)	\$ 21
2006	82
2007	82
2008	82
2009	20
Thereafter	14
Total amortization expense	\$ 301

12. Recent Accounting Pronouncements

In December 2004, the FASB published SFAS No. 123R, pursuant to which all forms of share-based payments to employees, including employee stock options, would be treated as compensation and recognized in the income statement. SFAS No. 123R is effective beginning the first quarter of Fiscal 2006. The Company currently accounts for stock options under APB No. 25. The Company is continuing to evaluate the full impact of SFAS No. 123R for its adoptions in the first quarter of Fiscal 2006.

In December 2004, the FASB published Statement of Financial Accounting Standards No. 151, Inventory Costs (SFAS No. 151), an amendment of Accounting Research Bulletin (ARB) No. 43, Chapter 4, which clarifies that abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) should be recognized as current-period charges. In addition, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The Company has determined that SFAS No. 151 will not have a material impact on its condensed consolidated results of operations, financial position or cash flows.

In March 2005, the FASB issued Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations, an interpretation of FASB Statement No. 143 (Interpretation No. 47). Interpretation No. 47 clarifies that the term conditional asset retirement obligation, as used in FASB Statement No. 143, Accounting for Asset Retirement Obligations, refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of

settlement are conditional on a future event that may or may not be within the control of the entity. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Accordingly, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. The Company has determined that FASB Interpretation No. 47 will not have a material impact on its condensed consolidated results of operations, financial position or cash flows.

Table of Contents

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*
Overview

We operate retail party supply stores within the continental United States and we sell franchises on an individual store and area franchise basis throughout the United States and Puerto Rico. As of April 2, 2005, our network consisted of 506 stores, with 247 Company-owned stores and 259 stores owned by franchisees. We report two segments—retail and franchising. The retail segment generates revenue primarily through the sale of third-party branded party goods through Company-owned stores. The franchising segment generates revenue through the imposition of an initial one-time franchise fee, ongoing royalty payments based on retail sales, and sales of product and services through our distribution network.

Beginning the third quarter of Fiscal 2004, we have undertaken a series of related initiatives to make fundamental improvements in our business, profitability and cash flow. These initiatives have primarily focused on: improving the breadth of assortment and quality of our products and related product pricing; reconfiguring our in-store product layout to better align product categories and facilitate an easier shopping experience for our customers; improving logistics, including financial, distribution and inventory systems; and building our talent base.

While we consider these initiatives essential to improve customer satisfaction and strengthen our financial performance, we have experienced reduced net sales and earnings during this transitional period. For the nine months ended April 2, 2005, we experienced a decline in total and same store net sales of 5.1% and 5.9%, respectively as compared to the same period last fiscal year. Also, in connection with the implementation of the above initiatives, we have incurred significant initial expenses that are disproportionate to our sales performance.

During the third quarter of Fiscal 2005, we announced that our Board of Directors had formed a Special Committee consisting of certain of our independent directors to explore strategic alternatives, and that the Company had received inquiries from more than one entity interested in engaging in a strategic combination with Party City. Subsequently, we announced the engagement of Credit Suisse First Boston as our financial advisor to assist the Company in its exploration of strategic alternatives. The Board of Directors has not agreed to accept any proposal or to take any other action with respect to any possible strategic transaction, and investors are cautioned that there can be no assurance that the consideration of strategic alternatives by the Special Committee will lead to any action by Party City, including a definitive proposal or agreement with respect to a strategic combination on terms that the Board of Directors believes will be in the best interests of the shareholders of Party City.

In addition, we announced the appointment of a new Executive Committee chaired by Michael E. Tennenbaum, Vice-Chairman of the Board of Directors, and including Richard H. Griner, Chief Operating Officer, Lisa G. Laube, Chief Merchandising Officer, Gregg A. Melnick, Chief Financial Officer, and Steven Skiba, Chief Information Officer. This Executive Committee is charged with oversight of the operations of Party City and has implemented changes in certain elements of our business strategies, as described below. Mr. Tennenbaum is serving as Chairman of the Executive Committee at the direction of the Board of Directors and will receive \$250 per hour of work in such capacity in accordance with the Board of Directors' existing policy on non-employee director compensation. Mr. Tennenbaum has agreed to cap his compensation relating to such work at \$2,000 per week.

We further announced that Nancy Pedot has stepped down as the Company's Chief Executive Officer and as a member of the Board of Directors, effective March 30, 2005. Ms. Pedot's responsibilities as Chief Executive Officer have been assumed by the Executive Committee.

Several of the initiatives that we believe will be important to the Company's future financial performance were completed in the third quarter of Fiscal 2005. Furthermore, beginning in the fourth quarter of Fiscal 2005, our new Executive Committee took steps to change certain of our marketing and promotional strategies in an effort to increase store traffic and average transaction size and, ultimately, net sales and profitability. The

Table of Contents

current status of these key initiatives, as well as the changes in marketing and promotional strategies, are described below:

Product. Building on our introduction of significant amounts of new seasonal products in the first half of Fiscal 2005, we introduced significant amounts of new non-seasonal product into our stores during the end of the third quarter of Fiscal 2005 and continuing to date. As non-seasonal merchandise historically represented approximately two thirds of a typical store's selling space and annual net sales volume (and represented 80% of net sales volume in the third quarter of Fiscal 2005), the successful introduction of new non-seasonal products is important to our strategic plan. While our efforts in terms of these new non-seasonal products are just now becoming fully evident in the stores, the initial customer reaction since the introduction of the new products has been positive, as indicated by the higher net sales and profits of certain new lines as compared with the products they replaced.

Store Configuration. We recently completed the reconfiguration of our in-store product layout. In connection with the reconfiguration, we incurred non-recurring store labor expenses of approximately \$1.0 million, which was below our expectations due to store labor efficiencies and a lower level of sales volume.

Although it has only been a few weeks since much of the new product was delivered and the stores were re-set, our early indications are that customers are responding very favorably. We have seen improving trends in several categories that had been experiencing sales declines, as well as sales growth in a number of other areas. Categories where we have seen improvements include: Solids, Baby, Catering, Birthday Accessories, and Decorations.

Logistics. In the third quarter of Fiscal 2005, the volume of merchandise processed through our new distribution centers increased by more than 70% as compared with the Fiscal 2005 second quarter. Since July 2004, we have been receiving and distributing certain of our products for our Company-owned stores from two distribution centers—one in California and one in Pennsylvania. Earlier in Fiscal 2005, nearly all of our franchisees agreed to participate in our logistics program, and the addition of such franchisees to the program was implemented as of January 2005 (discussed further below). We have outsourced the operations of this distribution network to a third party. Additionally, a Preferred Carrier Program that was implemented in Fiscal 2004 has resulted in lower negotiated transportation rates, better visibility on deliveries to stores and improved service levels. Currently, our capabilities include handling single cartons of individual items from multiple vendors, as well as cross-dock merchandise from other vendors (i.e. flow product through the distribution centers to optimize outbound transportation costs to stores), as well as transporting such goods to the stores. This program supports weekly scheduling of store deliveries, further reducing store labor requirements and improving inventory accuracy. To date, however, product volume throughput has not reached critical mass for our initial phase. We anticipate continued throughput increases, thereby generating savings to more than offset operating costs of the distribution centers which will provide the basis for improved financial performance. In light of the evaluation of strategic alternatives by the Board of Directors, as noted above, we are currently reviewing the timing of our plans for the next phase of the logistics initiative.

The franchise participation in our distribution network provides a low-cost distribution alternative for all stores and ensures consistency of merchandise between franchise and corporate locations. The program is not considered a profit center, but rather a business necessity to maintain brand consistency nationwide. In the second quarter of Fiscal 2005 we began making certain system and inventory investments relating to the transitioning of our franchisees into our logistics program. Through the end of the third quarter, we procured approximately \$3.4 million of additional inventory to service the franchisees. Additionally, we have incurred approximately \$4.1 million in working capital through the third quarter related to receivables due from franchisees on product shipped to their stores.

As a result of these initiatives and other factors described below, the inventory level increased approximately \$26 million, or 42%, in the third quarter of Fiscal 2005 compared to the same quarter in Fiscal 2004. Of this increase in inventory, approximately \$11 million relates to our product and remerchandising initiatives, including the effort to improve in-stock positions, approximately \$4 million reflects the inclusion of the franchisees in our distribution network, approximately \$3 million is related to the timing of certain

Table of Contents

seasonal merchandise sets, and approximately \$5 million reflects prior season merchandise that we intend to sell in subsequent seasons.

We currently have an active effort under way to reduce clearance inventory through the use of markdowns, as well as to reduce the weeks of supply on new merchandise as we gain a better understanding of our current selling patterns. However, we expect to maintain higher inventory levels, compared with prior years, to continue to support the franchisee distribution system, allow for stronger in-stock positions, and sell-down on seasonal merchandise during the upcoming quarters.

Promotion and Marketing. As noted earlier, the Executive Committee has revised some of our promotional and marketing strategies to address elements of our pricing and marketing initiatives that we believe have not been effective and to improve store traffic and net sales. Toward that end, early in the fourth quarter of Fiscal 2005, we adopted a more aggressive promotional stance in certain product categories in the form of deeper discounts and introduced a buy-one-get-one free offer. While it is too early to gauge the impact of such programs, we are generally satisfied with initial customer response.

Information Systems. We have also focused on enhancing our information systems, completing significant store and corporate system installations. The investment in our store and corporate information systems has improved certain store processes, such as customer check-out, product replenishment, and inventory management, and was a key contributor to the decline in store labor costs during Fiscal 2005. In addition, these investments have provided, and will continue to provide, the systemic foundation for our logistics initiative.

We plan to implement new merchandise replenishment software in the late summer of 2005 to complement our distribution, planning and allocation initiatives. We will begin implementation gradually, with a select number of items during the September-October 2005 period, which will increase as the program is proven. The system is intended to enhance the store replenishment function by improving in-stocks, leveraging our logistics infrastructure and allowing us to become more effective in our use of store labor.

Employee Base. Another important initiative is the continuation of key investments in our employee base. During the third quarter of Fiscal 2005, we continued to add employees in key departments to support our initiatives in merchandising, planning and allocation and logistics.

We believe that our recently completed product and store reconfiguration initiatives, the increased promotional and advertising activities adopted by the Executive Committee, and the cost efficiencies to be gained from our self-distribution program, should provide the basis for improved financial performance.

Table of Contents**Key Performance Indicators and Statistics**

We use a number of key indicators of financial condition and operating results to evaluate the performance of our business, including the following:

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
Net sales (in thousands)	\$ 90,980	\$ 97,662	\$ 356,361	\$ 375,586
Total Company-owned store count	247	249	247	249
Average same store net sales for Company owned stores (in thousands)	\$ 369	\$ 398	\$ 1,441	\$ 1,544
Same store average net sale per retail transaction(a)	\$ 17.41	\$ 17.62	\$ 19.16	\$ 19.08
(Decrease) increase in Company-owned same store net sales	(7.1)%	(0.9)%	(5.9)%	2.5%
Gross profit as a percent of net sales	23.0%	26.9%	31.9%	33.3%
Store (loss) profit contribution as a percent of net sales	(3.8)%	1.5%	8.0%	10.2%
Diluted (loss) earnings per share	\$ (0.42)	\$ (0.33)	\$ 0.22	\$ 0.60
EBITDA(b) (in thousands)	\$ (8,131)	\$ (4,654)	\$ 20,316	\$ 32,493
(Decrease) increase in franchise same store net sales	(7.4)%	1.3%	(4.0)%	4.5%

(a) Same store net sales divided by same store retail transactions. Retail transactions represent each time a customer makes a purchase or return at the register.

(b) See EBITDA discussion on page 32.

The following table shows the growth in our network of Company-owned and franchise stores for the quarter and nine months ended April 2, 2005 and March 27, 2004.

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004

Table of Contents**Critical Accounting Policies and Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the appropriate application of certain accounting policies, many of which require estimates and assumptions about future events and their impact on amounts reported in the financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the condensed consolidated financial statements included herein.

We believe our application of accounting policies, and the estimates inherently required by the policies, are reasonable. These accounting policies and estimates are constantly reevaluated and adjustments are made when facts and circumstances dictate a change. Historically, we have found the application of accounting policies to be reasonable, and actual results generally do not differ materially from those determined using necessary estimates.

Our accounting policies are more fully described in Note 1 of our 2004 10-K.

Merchandise inventory. Inventory is valued using the cost method which values inventory at the individual item level at the lower of the actual cost or market. Cost is determined using the weighted average method. Market is determined by the estimated net realizable value, based upon the merchandise selling price. Inventory levels are reviewed to identify slow-moving and closeout merchandise that will no longer be carried. We also estimate amounts of current inventories that will ultimately become obsolete due to changes in fashion and style, based on the following factors: (i) supply on hand, (ii) historical experience and (iii) our expectations as to future sales.

During the first quarter of Fiscal 2005, we launched our logistics initiative, which includes modifying our business operations to vertically integrate certain logistics and distribution activities, and we therefore adopted new specific accounting policies for the treatment of the costs associated with our distribution network. We have outsourced the operations of our distribution network to a third party. Distribution costs include the third-party fees and expenses of operating the distribution centers and the freight expense related to transporting merchandise to our stores. These distribution costs are initially capitalized into merchandise inventory and expensed when the merchandise is sold in our stores.

Finite long-lived assets. In the evaluation of the fair value and future benefits of finite long-lived assets, we perform an analysis by store of the anticipated undiscounted future net cash flows of the related finite long-lived assets. If the carrying value of the related asset exceeds the undiscounted cash flows, the carrying value is reduced to its fair value. Various factors including future sales growth and profit margins are included in this analysis. To the extent these future projections or strategies change, the conclusion regarding impairment may differ from the current estimates.

Insurance accruals. Our condensed consolidated balance sheets include significant liabilities with respect to self-insured workers' compensation and general liability claims. We estimated the required liability of such claims as of April 2, 2005, utilizing an actuarial method based upon various assumptions, which include, but are not limited to, our historical loss experience, projected loss development factors, actual payroll and other data. The required liability is also subject to adjustment in the future based upon the changes in claims experience, including changes in the number of incidents (frequency) and changes in the ultimate cost per incident (severity).

Goodwill. All of our goodwill is associated with our retail segment. We evaluate goodwill annually or whenever events and changes in circumstances suggest that the carrying amount may not be recoverable from its estimated future cash flows. In making this evaluation, management relies on a number of factors including operating results, business plans, economic projections, anticipated future cash flows and marketplace data. A change in these underlying assumptions may cause a change in the results of the tests and, as such, could cause fair value to be less than the carrying value. In such event, we would then be required to record a charge, which would impact net income.

Sales Returns. We estimate future sales returns and, when material, record a provision in the period that the related sales are recorded based on historical information. Should actual returns differ from our estimates, we would be required to revise estimated sales returns.

Table of Contents

Store Closure Costs. We record estimated store closure costs, estimated lease commitment costs net of estimated sublease income and other miscellaneous store closing costs when the liability is incurred. Such estimates, including sublease income, may be subject to change.

Income Taxes. Temporary differences arising from differing treatment of income and expense items for tax and financial reporting purposes result in deferred tax assets and liabilities that are recorded on the balance sheet. These balances, as well as income tax expense, are determined through management's estimations, interpretation of tax law for multiple jurisdictions and tax planning. If our actual results differ from estimated results due to changes in tax laws, new store locations or tax planning, our effective tax rate and tax balances could be affected.

General Definitions for Operating Results

Net sales include Company-owned same store net sales and Company-owned new store net sales. Stores are included in the same store net sales calculation when in operation for a full month in a current fiscal period and the corresponding full month in the prior fiscal year. All other stores are included in new store net sales.

Cost of goods sold and occupancy costs include merchandise, distribution and store occupancy costs. Distribution costs include the costs of operating the out-sourced distribution centers and freight expense related to transporting merchandise to our stores. These distribution costs are initially capitalized into merchandise inventory and expensed when the merchandise is sold in our stores. Store occupancy costs include rent, common area maintenance, real estate taxes, repairs and maintenance, depreciation, insurance and utilities.

Gross profit is net sales minus cost of goods sold and occupancy costs.

Store operating and selling expenses consist of selling and store management payroll, employee benefits, medical insurance, employment taxes, advertising, other store level expenses and pre-opening expenses which are expensed when incurred.

Company-owned store profit contribution is gross profit minus store operating and selling expenses.

General and administrative expense includes payroll and employee benefits, employment taxes, management information systems, marketing, insurance, legal and other corporate level expenses, less the allocation of corporate expenses to the franchising segment discussed below. Corporate level expenses are primarily attributable to our corporate office in Rockaway, New Jersey, and district and regional offices throughout the country.

Franchising. Franchising revenue is composed of the initial franchise fees, which are recorded as revenue when a franchise store opens, ongoing royalty fees, generally 4.0% of the store's net sales, and revenues from the sale of product through the distribution network. Such distribution network revenues include the sale of product, including inbound freight reimbursement; pass-through of variable distribution center expenses (handling costs); subscription fees relating to fixed costs in the distribution centers, and other management fees associated with customer service centers. Franchise expenses include cost of goods relating to product sales, including inbound freight costs, fixed and variable distribution center expenses, order management expenses, transportation costs from distribution centers to stores, and direct and indirect expenses. The direct expenses include salaries, travel and other direct expenses of the franchise operations department in addition to legal fees, bad debt expense, insurance expense and other miscellaneous charges. The indirect expenses include allocations of corporate general and administrative expenses for salaries, including bonuses, occupancy and depreciation, based on time spent on franchise support.

Franchise profit contribution is franchise revenue minus franchise expenses.

Interest (income) expense, net includes interest relating to our credit facility, amortization of financing costs and bank service charges. Interest (income) expense, net also includes interest income from other highly liquid investments purchased, with an original maturity of three months or less, as part of our daily cash management activities.

Table of Contents**Results of Operations**

The following table sets forth the results of operations for the periods indicated:

PARTY CITY CORPORATION

Table of Contents***Fiscal Quarter Ended April 2, 2005 Compared To Fiscal Quarter Ended March 27, 2004***

Retail. Net sales from Company-owned stores decreased 6.8% to \$91.0 million for the third quarter of Fiscal 2005 from \$97.7 million in the same period last year. The 6.8% decrease in net sales resulted from a same store net sales decrease of 7.1% which was partially offset by net sales from new stores opened during the fiscal year. Same store sales for non-seasonal merchandise decreased 5.4% due to the ongoing transition to new product assortments, and same store sales for seasonal merchandise decreased 13.4%, largely due to the timing of certain holiday selling periods (New Years sales mainly occurred in the second quarter of Fiscal 2005 compared with the third quarter of Fiscal 2004, while Easter sales occurred in the third quarter of Fiscal 2005 compared to the fourth quarter of Fiscal 2004) as well as a decline in sales of Valentine's Day merchandise compared to last year. The customer count in Company-owned stores, on a same store basis, decreased 6.0% during the quarter ended April 2, 2005, and the same store average net sale per retail transaction decreased 1.2% primarily due to the timing of New Years sales. One store joined the same store sales group during the third quarter of Fiscal 2005. We did not open any new stores and closed one store during the third quarter of Fiscal 2005, and we opened two stores and did not close any stores during the same period last year.

Gross profit as a percent of net sales was 23.0% for the third quarter of Fiscal 2005 compared with 26.9% for the same period last year. The decrease includes incremental distribution costs of \$0.7 million, which represents approximately 80 basis points of merchandise margin. As shown in the table below, gross profit decreased \$5.3 million to \$20.9 million in the third quarter of Fiscal 2005 from \$26.2 million in the same period last year.

Component	Portion of Total Change Increase/(Decrease)	Reason for Increase/(Decrease):
	(In millions)	
Net sales impact on merchandise margins	\$ (1.9)	Due to lower total sales: same store and new store sales.
Merchandise margins (including distribution costs)	(2.4)	Due to clearance markdowns on products displaced by the store resets and increased distribution costs because product volume throughput has not reached critical mass, partially offset by improved margin due to less promotional activity.
Occupancy and other costs	(1.0)	Due to higher fixed expenses associated with new stores opened within the last 12 months and higher other occupancy costs.
Total	\$ (5.3)	

Table of Contents

Store operating and selling expenses were 26.8% and 25.3% of net sales for the third quarter of Fiscal 2005 and Fiscal 2004, respectively. As shown in the table below, store operating and selling expenses decreased \$0.3 million, or 1.4%, to \$24.4 million for the quarter ended April 2, 2005 from \$24.8 million in the same period last year. Our spending during the third fiscal quarter reflected increased store labor hours necessary to support our store reset initiative more than offset by continued savings during non -peak holiday selling weeks, reduced labor due to lower sales volumes and timing of certain other costs.

Component	Portion of Total Change		Reason for Increase/(Decrease):
	Increase/(Decrease)		
	(In millions)		
Variable store operating cost	\$	(0.4)	Due to lower total sales: same and new store sales.
Payroll and fringe benefit		1.0	Due primarily to store labor hours required for the store resets as well as higher costs of fringe benefits, partially offset by reduced estimates of year end employee compensation.
Payroll labor efficiencies		(0.6)	Due primarily to labor efficiencies from systems and supply chain initiatives.
Other operating costs		(0.3)	Due primarily to the timing of physical inventory fees compared to last year, partially offset by increased charge card fees.
Total	\$	(0.3)	

Company-owned store (loss) profit contribution as a percent of net sales was (3.8%) for the third quarter of Fiscal 2005 compared with 1.5% in the same period last year. Company-owned store profit contribution decreased \$5.0 million during the third quarter of Fiscal 2005 to a loss contribution of \$3.5 million compared to profit contribution of \$1.5 million during the same period last year.

General and administrative expenses were 11.3% and 8.7% of net sales for the third quarter of Fiscal 2005 and Fiscal 2004, respectively. As shown in the table below, general and administrative expenses increased \$1.8 million to \$10.3 million for the third quarter of Fiscal 2005 from \$8.5 million in the same period last year.

Component	Portion of Total Change		Reason for Increase/(Decrease):
	Increase/(Decrease)		
	(In millions)		
Payroll and fringe benefits	\$	1.2	Due to increased corporate staffing and related staffing costs to support the transitioning of our product assortment and logistics and information systems initiatives, as well as increased fringe benefits and severance related to our departed CEO, partially offset by

			reduced estimates of year-end employee compensation.
Occupancy		0.2	Due to additional corporate office space.
Other		0.4	Due to the discontinuation of management fee income related to the ad-fund as well as increased sales and use tax expenses relating to state audits.
Total	\$	1.8	

During the third quarter of Fiscal 2004, we recorded a pre-tax charge of \$4.1 million related to the settlement payments, attorneys fees and estimated expenses of administering the settlement of the lawsuit

Table of Contents

regarding California overtime wage and hour laws. See Note 7 in the condensed consolidated financial statements included herein.

Franchising. Product sales through the distribution network for the third quarter of Fiscal 2005 were \$6.7 million, including \$5.5 million relating to product and inbound freight and \$1.2 million of service and reimbursable charges. Cost of goods expenses during the third quarter of Fiscal 2005 were \$5.6 million, including \$4.8 million related to product and inbound freight and \$0.8 million of distribution center expenses.

Franchise transportation and other selling expenses for the third quarter of Fiscal 2005 were \$931,000 for the quarter.

There were no franchise fees recognized in the third quarter of Fiscal 2005, compared with \$80,000 recognized on two store opening in the same period last year. Royalty fees decreased 1.1% to \$3.76 million in the third quarter of Fiscal 2005 from \$3.81 million in the same period last year. This decrease was primarily due to the same store sales decrease of 7.4% for franchise stores for the third quarter of Fiscal 2005 which is partially offset by the increase of five franchise stores since the end of the same period last year as well as 12 franchise stores (acquired from the Company in 1999 as part of its restructuring), that were required to pay royalties in the third quarter of Fiscal 2005 due to the end of a five- year royalty free period for such stores.

Other franchise expenses increased 15.4% to \$2.3 million for the third quarter of Fiscal 2005 from \$2.0 million for the third quarter of Fiscal 2004. This increase is primarily due to a larger corporate expense allocation that was allocated to the franchise segment during the fiscal quarter ended April 2, 2005.

Franchise profit contribution was \$1.6 million in third quarter of Fiscal 2005, a decrease of approximately \$0.3 million from the same period last year. The decrease in franchise profit contribution is due to an increase in corporate expenses allocated to the franchise segment during the quarter.

Interest (Income) Expense. We recorded net interest income of \$44,000 for the third quarter of Fiscal 2005 as compared with net interest expense of \$79,000 during the same period last year. We recorded net interest income mainly due to our higher average cash balance this quarter partially offset by interest expense. We had no advances under our Loan Agreement at any point during the third quarter of Fiscal 2005 and Fiscal 2004.

Income Taxes. An income tax benefit of \$4.9 million, or 40.5% of pre-tax loss, and \$3.8 million, or 40.5% of pre-tax loss, was recorded in the third quarter of Fiscal 2005 and Fiscal 2004, respectively.

Net (Loss) Income. As a result of the above factors, we recorded a net loss of \$7.2 million, or \$0.42 per diluted share, in the third quarter of Fiscal 2005, as compared with a net loss of \$5.6 million, or \$0.33 per diluted share, in the third quarter of Fiscal 2004. Weighted average diluted shares outstanding increased to 17.2 million in the third quarter of Fiscal 2005 from 17.0 million in the same period last year due to stock option exercises and participation in the employee and management stock purchase plans since March 27, 2004.

Fiscal Nine Months Ended April 2, 2005 Compared To Fiscal Quarter Ended March 27, 2004

Retail. Net sales from Company-owned stores decreased 5.1% to \$356.4 million for the nine months ended April 2, 2005 from \$375.6 million in the same period last year. The 5.1% decrease in net sales resulted from a same store net sales decrease of 5.9% which was partially offset by net sales from new stores. Same store sales for non-seasonal merchandise decreased 6.7% due to the ongoing transition of this merchandise category, and same store sales for seasonal merchandise decreased by 4.7%, largely attributed to a decrease in Halloween and Christmas sales. Although the customer count in Company-owned stores, on a same store basis, decreased 6.3% during the nine months ended April 2, 2005, the same store average net sale per retail transaction increased 0.4% reflecting a lower level of discounting and promotional markdown activity compared with the same time last year. Seven stores joined the same store sales group during the nine months ended April 2, 2005. We opened one new store and closed three stores during the nine-months ended April 2, 2005, and opened eight new stores and closed one store during the same period last year.

Table of Contents

Gross profit as a percent of net sales was 31.9% for the nine months ended April 2, 2005 compared with 33.3% for the same period last year. As shown in the table below, gross profit decreased \$11.6 million to \$113.6 million during the nine months ended April 2, 2005 from \$125.1 million in the same period last year.

Component	Portion of Total Change		Reason for Increase/(Decrease):
	Increase/(Decrease)		
	(In millions)		
Net sales impact on merchandise margins	\$	(6.4)	Due to lower total sales: same store and new store sales.
Merchandise margins (including distribution costs)		(1.3)	Due to clearance markdowns on products displaced by store resets and increased distribution costs because product volume throughput has not reached critical mass during our initial phase, partially offset by a reduction in promotional markdown activity reflecting a shift to less promotional pricing.
Occupancy and other costs		(3.9)	Due to higher fixed expenses associated with new stores and accelerated depreciable life of certain stores internal sign and graphics, partially offset by improved insurance claims experience.
Total	\$	(11.6)	

Store operating and selling expenses were 23.8% and 23.1% of net sales for the nine months ended April 2, 2005 and March 27, 2004, respectively. As shown in the table below, store operating and selling expenses decreased \$2.0 million, or 2.3%, to \$84.9 million for the nine months ended April 2, 2005 from \$86.9 million in the same period last year. We incurred pre-opening expenses of \$28,000 during the nine months ended April 2, 2005 for one new store opened during such period, while we incurred \$474,000 during the same period last year for eight new stores opened during such period and one store that were opened later in Fiscal 2004. Pre-opening expenses include payroll and fringe benefits, as well as other operating costs.

Component	Portion of Total Change		Reason for Increase/(Decrease):
	Increase/(Decrease)		
	(In millions)		
Variable store operating costs	\$	(1.0)	Due to lower total sales; and new store sales.
Payroll and fringe benefit		1.0	Due primarily to store labor hours required for the store reset initiative as well as higher costs of fringe benefits partially offset by reduced estimates of year-end employee compensation.

Edgar Filing: PARTY CITY CORP - Form 10-Q

Payroll	labor efficiencies	(1.9)	Due primarily to reduced labor costs from efficiency improvements in customer checkout, product replenishment, store receiving and logistics, and inventory management.
Other operating costs		(0.1)	Due primarily to increased advertising and increased charge card fees, more than offset by a gain realized on one store closing in the first quarter and a reduction in other store expenses.
Total	\$	(2.0)	

Table of Contents

Company-owned store profit contribution as a percent of net sales was 8.0% for the nine months ended April 2, 2005 compared with 10.2% in the same period last year. Company-owned store profit contribution decreased \$9.6 million during the nine months ended April 2, 2005 to \$28.6 million from \$38.2 million during the same period last year.

General and administrative expenses were 8.6% and 6.4% of net sales during the nine months ended April 2, 2005 and March 27, 2004, respectively. As shown in the table below, general and administrative expenses increased \$6.5 million to \$30.7 million for the nine months ended April 2, 2005 from \$24.2 million in the same period last year.

Component	Portion of Total Change		Reason for Increase/(Decrease):
	Increase/(Decrease)		
	(In millions)		
Payroll and fringe benefits	\$	3.6	Due to increased corporate staffing and related staffing costs to support the transition of our product assortment and logistics and information systems initiatives as well as increased fringe benefits and severance for the departed CEO, partially offset by reduced estimates of year-end employee compensation.
Occupancy		1.7	Due to additional corporate office space.
Professional fees		0.3	Due to increased one-time expenditures related to our store re-set initiative as well as increased miscellaneous professional fees.
Other		0.9	Due to the discontinuation of management fee income related to the ad-fund as well as increased sales and use tax expenses relating to state audits.
Total	\$	6.5	

During the third quarter of Fiscal 2004, we recorded a pre-tax charge of \$4.1 million related to the settlement payments, attorneys' fees and estimated expenses of administering the settlement of the lawsuit regarding California overtime wage and hour laws. See Note 7 in the condensed consolidated financial statements included herein.

Franchising. The product and logistics servicing of franchisees began in the third quarter of Fiscal 2005, and therefore revenues and expenses relating to these services are the same as reported above for the third quarter of Fiscal 2005.

Franchise fees recognized on three store openings were \$120,000 during the nine months ended April 2, 2005, compared with \$568,000 recognized on 15 store openings in the same period last year. Royalty fees increased 1.2% to \$15.1 million for the nine months ended April 2, 2005 from \$14.9 million in the same period last year. This increase was primarily due to eight franchise store openings since the end of the same period last year and 12 franchise stores (acquired from us in 1999 as part of our restructuring) that were required to pay royalties in the third quarter of Fiscal 2005 due to the end of a five-year royalty free period partially offset by the same store sales decrease of 4.0% for the franchise stores during the nine months ended April 2, 2005.

Edgar Filing: PARTY CITY CORP - Form 10-Q

Other franchise expenses increased 13.5% to \$6.0 million for the nine months ended April 2, 2005 from \$5.2 million for the same period last year. This increase is primarily due to a larger corporate expense allocation.

Franchise profit contribution decreased 8.3% to \$9.4 million during the nine months ended April 2, 2005 from \$10.3 million in the same period last year. The decrease in franchise profit contribution is primarily due

Table of Contents

to an increase in corporate expense allocations that were allocated to the franchise segment during the nine months ended April 2, 2005, partially offset by an increase in royalty fees.

Interest (Income) Expense. We recorded net interest income of \$12,000 for the nine months ended April 2, 2005 as compared with net interest expense of \$391,000 during the same period last year. This is mainly due to increased interest income from a higher average cash balance as well as overall lower interest expense. We had no advances under our Loan Agreement at any point during the nine months ended April 2, 2005 compared with minimal average borrowings during the same period last year.

Income Taxes. Income tax expense of \$3.0 million, or 40.5% of pre-tax income, and \$8.0 million, or 40.5% of pre-tax income, was recorded for the nine months ended April 2, 2005 and March 27, 2004, respectively.

Net Income. As a result of the above factors, we recorded net income of \$4.4 million, or \$0.22 per diluted share, for the nine months ended April 2, 2005, as compared with \$11.8 million, or \$0.60 per diluted share, for the same period last year. Weighted average diluted shares outstanding increased to 19.8 million for the nine months ended April 2, 2005 from 19.6 million in the same period last year due to the stock option exercises and participation in the employee and management stock purchase plans since March 27, 2004.

Liquidity and Capital Resources

Our cash requirements have historically been for working capital, the opening of new stores, the improvement and expansion of existing facilities and the improvement of information systems. These cash requirements have been met through cash flow from operations and borrowings under our credit facilities. At April 2, 2005, working capital was \$42.6 million compared with \$29.9 million in the same period last year. Our ending cash and cash equivalents balance at April 2, 2005 was \$14.3 million as compared with \$15.8 million at March 27, 2004.

Our current priorities for the use of cash are primarily for investments in working capital and value-added capital projects including, in particular, investments in technology to improve merchandising and distribution, cost reduction initiatives, improve efficiencies and assist each store to better serve its customers. In addition, we anticipate funding the settlement of the \$5.5 million California overtime wage class action during the fourth quarter of Fiscal 2005. Key initiatives include:

- our logistics initiative, pursuant to which we have outsourced the management of our centralized warehousing and distribution facilities and are implementing a new distribution network;

- servicing our franchise owners participating in the distribution network;

- revitalizing our brand and retail environment through re-merchandising our stores;

- implementing new merchandising systems;

- transitioning to our new corporate headquarters;

- evaluating our current and future store locations; and

- improving customer service at the stores.

We believe that the cash generated by operations and cash and cash equivalents, together with the borrowing availability under the Loan Agreement, will be sufficient to meet our working capital needs for the next twelve months, including investments made and expenses incurred in connection with systems development, the logistics initiative and store improvements. We expect to invest between \$12 million and \$15 million in capital projects during Fiscal 2005, in aggregate of which \$8.9 million has been invested through the third fiscal quarter of Fiscal 2005.

We currently have no borrowings under our Loan Agreement and have minimal debt, which permits us to consider a wide variety of corporate initiatives intended to improve shareholder value, although there is no assurance that any specific initiative will be pursued or consummated.

Table of Contents**Key Indicators of Liquidity and Capital Resources**

The following table sets forth key indicators of our liquidity and capital resources (in thousands):

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
(In thousands)				
Balance Sheet Data:				
Cash and cash equivalents	\$ 14,253	\$ 15,773	\$ 14,253	\$ 15,773
Working capital	42,596	29,946	42,596	29,946
Total assets	198,440	169,420	198,440	169,420
Advance under Loan Agreement				
Stockholders equity	102,610	93,101	102,610	93,101
Other Information:				
Depreciation and amortization	\$ 4,075	\$ 4,614	\$ 12,963	\$ 12,306
Cash Flows (Used In) Provided By:				
Operating activities	\$ (31,848)	\$ 83	\$ (5,789)	\$ 34,807
Investing activities	(3,374)	(5,109)	(8,605)	(8,638)
Financing activities	293	249	802	(13,768)
Total cash (used in) provided by the Company				
	\$ (34,929)	\$ (4,777)	\$ (13,592)	\$ 12,401

Operating Activities. For the nine months ended April 2, 2005, cash used in operating activities was \$5.8 million compared to cash provided by operating activities of \$34.8 million for the same period last year. The cash used in operating activities was primarily due to investments in inventory as we introduced new product, enhanced inventory levels in stores and began servicing franchisees with products (resulting in franchisee receivables). These investments were partially offset by increases in accounts payable relating to new product and by lower net income.

Investing Activities. Cash used in investing activities for the nine months ended April 2, 2005 and March 27, 2004 was \$8.6 million for each period. Cash used in investing activities for the nine months ended April 2, 2005 was primarily attributable to leasehold improvements and furniture and fixtures of \$4.6 million for the corporate headquarters and new and existing stores, development costs for our management information systems of \$2.1 million and implementation costs of our logistics and franchise distribution initiatives of \$2.2 million, partially offset by \$250,000 of proceeds from the closure of one store. Cash used in investing activities for the nine months ended March 27, 2004 was primarily attributable to leasehold improvements and furniture and fixtures of \$4.4 million for the corporate headquarters and new and existing stores and development costs for our management information systems of \$4.2 million. During the nine months ended April 2, 2005, we had cash payments for purchase of investments in auction rate securities in the aggregate of \$123.1 million, while we also had corresponding cash receipts for the sales of these auction rate securities in the aggregate of \$123.1 million. At the end of the third quarter of Fiscal 2005, we had no investments in auction rate securities.

Financing Activities. Cash provided by financing activities was \$800,000 for the nine months ended April 2, 2005 compared with cash used in financing activities of \$13.8 million for the same period last year. We had no advances under our Loan Agreement at the end of the third quarter of Fiscal 2005. The cash used in financing activities during the nine months ended March 27, 2004 was primarily from a net payment of \$11.2 million under the Loan Agreement and cash overdrafts of \$4.0 million.

Loan Agreement. At April 2, 2005 and April 29, 2005, we had no balance outstanding under the Loan Agreement. Under the terms of the Loan Agreement, we may from time to time borrow amounts based on a percentage of our eligible inventory and credit card receivables, up to a maximum of \$65 million at any time outstanding, subject to certain borrowing conditions and customary sub-limits, reserves and other limitations. We have the option, based on our liquidity needs, to borrow at (i) the adjusted Eurodollar rate per annum plus the applicable margin, which is currently at 1.25% (which in the aggregate under the Loan Agreement was 2.87% for a 1 month term at April 2, 2005), or (ii) the prime rate per annum less the applicable margin, which

Table of Contents

is currently 0.25% (which in the aggregate under the Loan Agreement was 5.5% at April 2, 2005). The Loan Agreement matures on April 30, 2006, and borrowings are secured by a lien on substantially all of our assets. Based on a percentage of current eligible inventory and credit card receivables, we had \$29.4 million and \$27.2 million available to be borrowed under the Loan Agreement at April 29, 2005 and April 2, 2005, respectively.

Warrants. There were no warrants exercised in Fiscal 2004 or during the first nine months of Fiscal 2005. As of April 2, 2005, we had 2,496,000 warrants outstanding at an exercise price of \$1.07 per share.

EBITDA (Earnings before interest, taxes, depreciation and amortization)

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
	(In thousands) (Unaudited)			
EBITDA(a)	\$ (8,131)	\$ (4,654)	\$ 20,316	\$ 32,493
Most directly comparable GAAP measures:				
Net (loss) income	\$ (7,233)	\$ (5,561)	\$ 4,386	\$ 11,779
Cash flows (used in) provided by operating activities	(31,848)	83	(5,789)	34,807

- (a) Our definition of EBITDA is earnings before interest, taxes, depreciation and amortization. We use EBITDA to determine a portion of our executive compensation, as our incentive compensation payments are partially based on our EBITDA performance measured against budget, and we believe EBITDA provides additional information for determining our ability to meet future debt service requirements. EBITDA is also widely used by us and others in our industry to evaluate and price potential acquisitions. Furthermore, EBITDA is commonly used by certain investors and analysts to analyze and compare companies on the basis of operating performance and to determine a company's ability to service and/or incur debt. EBITDA should not be construed as a substitute for net (loss) income or net cash (used in) provided by operating activities (all as determined in accordance with generally accepted accounting principles) for the purpose of analyzing our operating performance, financial position and cash flows as EBITDA is not defined by generally accepted accounting principles. Our computation of EBITDA may not be comparable to similar titled measures of other companies.

Because we consider EBITDA useful as an operating measure, a reconciliation of EBITDA to net (loss) income follows for the periods indicated:

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
	(In thousands) (Unaudited)			
EBITDA(a)	\$ (8,131)	\$ (4,654)	\$ 20,316	\$ 32,493
Depreciation and amortization	(4,075)	(4,614)	(12,963)	(12,306)
Interest income (expense), net	44	(79)	12	(391)
Benefit (provision) for income taxes	4,929	3,786	(2,979)	(8,017)

Net (loss) income	\$ (7,233)	\$ (5,561)	\$ 4,386	\$ 11,779
-------------------	------------	------------	----------	-----------

Table of Contents

Because we also consider EBITDA useful as a liquidity measure, we present the following reconciliation of EBITDA to our net cash (used in) provided by operating activities:

	Fiscal Quarter Ended		Nine Months Ended	
	April 2, 2005	March 27, 2004	April 2, 2005	March 27, 2004
	(In thousands) (Unaudited)			
EBITDA(a)	\$ (8,131)	\$ (4,654)	\$ 20,316	\$ 32,493
Interest income (expense), net	44	(79)	12	(391)
Benefit (provision) for income taxes	4,929	3,786	(2,979)	(8,017)
Impairment of assets	161		161	
Amortization of financing costs	40	40	120	120
Deferred rent	84	(86)	(328)	(326)
Deferred taxes	(1,208)		(2,074)	
Stock-based compensation	32	270	43	418
Provision for doubtful accounts	280	58	231	(82)
Other	5	3	(90)	13
Changes in assets and liabilities:				
Merchandise inventory	(17,381)	(823)	(29,609)	4,804
Accounts payable	(2,056)	1,388	18,837	(2,163)
Accrued expenses and other current liabilities	(6,987)	(5,464)	(2,985)	5,601
Other long-term liabilities	(51)		7	(119)
Other current assets and other assets	(1,609)	5,644	(7,451)	2,456
Net cash (used in) provided by operating activities	\$ (31,848)	\$ 83	\$ (5,789)	\$ 34,807

EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

EBITDA does not reflect our current or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and

Other companies in our industry may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using EBITDA only supplementally. See our condensed consolidated financial statements included herein.

Table of Contents**Contractual Obligations and Commercial Commitments**

As of April 2, 2005, our contractual obligations and commercial commitments are as follows (in thousands):

	Total	Operating Leases(1)	Merchandise Orders	Logistics Initiative Obligations	Auto Leases	Capital Leases Severance(2)	
Fiscal year ending:							
2005	\$ 31,897	\$ 11,890	\$ 19,003	\$ 675	\$ 69	\$ 43	\$ 217
2006	49,881	46,329		2,700	181	181	490
2007	46,037	42,680		2,700	129	528	
2008	34,262	34,255			7		
2009	22,176	22,176					
Thereafter	55,932	55,932					
Total minimum payments	\$ 240,185	\$ 213,262	\$ 19,003	\$ 6,075	\$ 386	\$ 752	\$ 707

- (1) We are also obligated for guarantees, subleases or assigned lease obligations for 23 of the franchise stores through 2011. The majority of the guarantees, subleases and assigned lease obligations were given when we sold stores in 1999 as part of its restructuring. The guarantees, subleases and assigned lease obligations continue until the leases expire. The maximum amount of the guarantees, subleases and assigned lease obligations may vary, but is limited to the sum of the total amount due under the lease. As of April 2, 2005, the maximum amount of the guarantees, subleases and assigned lease obligations was approximately \$12.9 million, which is not included in the table above.

The operating leases included in the above table do not include contingent rent based upon sales volume, which represented less than 1% of minimum lease obligation in Fiscal 2004, or other variable costs such as maintenance, insurance and taxes, which represented approximately 5.9% of minimum lease obligations in Fiscal 2004.

- (2) The severance obligations specified in the table above is for our former Chief Executive Officer. In addition, as of April 29, 2005 and April 2, 2005, we had an aggregate contingent liability of up to \$1.9 million related to potential severance payments for 17 employees pursuant to their respective employment agreements. We are not currently aware of any event that would trigger such \$1.9 million contingent liability.

We closed one store during the third quarter of Fiscal 2005 and three stores for the nine months ended April 2, 2005, as compared to no store closings during the third quarter of Fiscal 2004 and one store closing for the nine months ended March 27, 2004. A reserve of \$871,000 has been recorded for future rent, property tax and utility payments for one store closed in Fiscal 2005 and two stores closed in prior fiscal years. We do not expect to incur significant additional exit costs relating to these closures.

On September 16, 2004, we entered into a new corporate office lease for 106,000 square feet of office space. The initial term is for 12 years, with two five-year renewal options. The lease contains escalation clauses and obligations for reimbursement of common area maintenance and real estate taxes. The lease for our current corporate headquarters expired in December 2004, but we negotiated an extension of such lease to expire in August 2005. As part of the lease extension, we will incur increased rent after August 2005 if we continue to occupy the existing corporate

headquarters. We intend to relocate to our new corporate headquarters by the end of the first quarter of Fiscal 2006, and intend to vacate our current corporate headquarters thereafter.

We enter into arrangements to purchase merchandise up to eight months in advance of expected delivery. Historically, these purchase commitments did not contain any significant termination payments or other penalties if cancelled. Certain of these purchase commitments may obligate us to specified quantities, even if desired quantities change at a later date. As of April 2, 2005, we had approximately \$19.0 million of propriety product for which we have made purchase arrangements.

Table of Contents

Logistics initiative obligations include a commitment for the purchase of selected equipment and services associated with the operation of the distribution centers.

At April 2, 2005, we operated a fleet of 36 leased motor vehicles, primarily for the district managers and regional management. The terms of these leases generally run for 36 months and expire at various times through December 2007.

We have entered into a capital lease arrangement with a third party provider that involves dedicated assets needed for our logistics initiative. As of April 2, 2005, the contractual obligation of this capital lease is equal to \$795,000, which includes \$43,000 of imputed interest. The remaining current and long-term portion of this capital lease liability, excluding imputed interest, is \$177,000 and \$575,000, respectively.

Pursuant to the terms of the Loan Agreement, we had a standby letter of credit of \$5.7 million and \$3.7 million outstanding at April 29, 2005 and April 2, 2005, respectively, relating to general liability and workers compensation insurance which is not reflected in the above table. The increase is due to the addition of a new policy year for general liability and workers compensation insurance.

Off-Balance Sheet Arrangements

We have not created, and are not party to, any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business. We do not have any off-balance sheet arrangements or relationships with entities that are not consolidated into our financial statements that have or are reasonably likely have a material current or future effect on our financial condition, changes in financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

Seasonality

Our business is subject to substantial seasonal variations. Historically, we have realized a significant portion of our net sales, cash flow and net income in the second quarter of each fiscal year principally due to the sales in October for the Halloween season and, to a lesser extent, due to holiday sales at the end of the calendar year. We expect that this general pattern will continue.

Our results of operations and cash flows may also fluctuate significantly as a result of a variety of other factors, including the timing of new store openings and store closings and the timing of the acquisition and disposition of stores.

Recent Accounting Pronouncements

In December 2004, the FASB published SFAS No. 123R, Share-Based Payment (SFAS No. 123R), an amendment of FASB Statements No. 123 and No. 95. Under SFAS No. 123R, all forms of share-based payment to employees, including employee stock options, would be treated as compensation and recognized in the income statement. SFAS No. 123R is effective beginning in Fiscal 2006. We currently account for stock options under APB No. 25. The pro forma impact of expensing options is disclosed in Note 3 to our condensed consolidated financial statements included herein.

In December 2004, the FASB published SFAS No. 151, Inventory Costs (SFAS No. 151), an amendment of Accounting Research Bulletin (ARB) No. 43, Chapter 4, which clarifies that abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) should be recognized as current-period charges. In addition, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. We have determined that SFAS No. 151 will not have a material impact on our condensed consolidated results of operations, financial position or cash flows.

In March 2005, the FASB issued Interpretation No. 47 (Interpretation No. 47) Accounting for Conditional Asset Retirement Obligations, an interpretation of FASB Statement No. 143 . Interpretation No. 47 clarifies that the term conditional asset retirement obligation as used in FASB Statement No. 143, Accounting for Asset Retirement Obligations , refers to a legal obligation to perform an asset retirement

Table of Contents

activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Accordingly, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. We have determined that Interpretation No. 47 will not have a material impact on our condensed consolidated results of operation, financial position or cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of doing business, we are exposed to interest rate change and market risk. Our business is seasonal and our borrowing patterns follow such seasonality. Debt balances generally go up in the spring and down in the fall. All of our available borrowings under the Loan Agreement are at variable rates. We have the option, based on our liquidity needs, to borrow at (i) the adjusted Eurodollar rate per annum plus the applicable margin, which is currently at 1.25% (which in the aggregate under the Loan Agreement was 2.87% for a 1 month term at April 2, 2005), or (ii) the prime rate per annum less the applicable margin, which is currently 0.25% (which in the aggregate under the Loan Agreement was 5.5% at April 2, 2005) and, therefore, any sudden material increase in the Eurodollar rate or prime rate in a peak borrowing period may negatively impact our short term results. However, because we pay our outstanding debt down quickly, such an increase would not affect us unless it was very large. A hypothetical 1.0% increase or decrease in interest rates in the associated debt's variable rate would not materially affect our results of operations or cash flows.

Item 4. Controls and Procedures

Evaluation of disclosure and procedures. We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's (the SEC) rules and forms and that such information is accumulated and communicated to our management, including our Chairman of the Executive Committee and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) under the Exchange Act, we conducted an evaluation, under the supervision and with the participation of our management, including our Chairman of the Executive Committee and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our management, including our Chairman of the Executive Committee and Chief Financial Officer, concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of the end of the period covered by this report.

Internal Control over financial reporting. There has been no change in our internal control over financial reporting during the fiscal quarter ended April 2, 2005 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. In addition, since the most recent evaluation date, there have been no significant changes in our internal control structure, policies and procedures or in other areas that could significantly affect our internal control over financial reporting.

Beginning in Fiscal 2005, Section 404 of the Sarbanes-Oxley Act of 2002 (Section 404) requires that our management conduct annual assessments of the effectiveness of our internal control over financial reporting as of the end of each fiscal year and to include a report of their assessment in our Annual Report on Form 10-K. In addition, our independent registered public accounting firm is required to express an opinion as to management's assessment as well as the effectiveness of the Company's internal control over financial reporting based on its audit. The Company has devoted and continues to devote substantial time and resources in order to comply with these requirements for the first time. Although the Company has not completed the

Table of Contents

very extensive review and testing of its internal controls over financial reporting as mandated by the Sarbanes-Oxley Act of 2002, no issues have been identified to date which the Company believes, either individually or in the aggregate, would constitute a material weakness in its internal controls over financial reporting. However, there can be no assurance that management or our independent registered public accounting firm will be able to complete this process on a timely basis or ultimately conclude that internal controls are effective as defined by Section 404.

**PART II.
OTHER INFORMATION**

Item 1. *Legal Proceedings*

The information set forth in Note 7 in the condensed consolidated financial statements included herein is hereby incorporated by reference.

Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds*

In September 2001, the Board of Directors authorized us to repurchase up to \$15 million of our outstanding common stock at a price not to exceed \$7.00 per share, which was amended on February 7, 2003 to a price not to exceed \$10.00 per share. Stock repurchases are made at the discretion of management. There were no stock repurchases during the nine months ended April 2, 2005. As of April 2, 2005, we had purchased 747,012 shares for an aggregate amount of \$5.9 million or 39.6% of the total amount to be purchased.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Party City Corporation
Rockaway, New Jersey

We have reviewed the accompanying condensed consolidated balance sheets of Party City Corporation and subsidiary as of April 2, 2005 and March 27, 2004, and the related condensed consolidated statements of operations for the quarter and nine months ended April 2, 2005 and March 27, 2004 and condensed consolidated statements of cash flows for the nine months ended April 2, 2005 and March 27, 2004. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Party City Corporation and subsidiary as of July 3, 2004, and the related consolidated statements of operations, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated September 7, 2004, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of July 3, 2004 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.
