**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the six months ended June 30, 2009

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

Commission File No. 1-12173

Navigant Consulting, Inc.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

36-4094854
(I.R.S. Employer
Identification No.)

30 South Wacker Drive, Suite 3550, Chicago, Illinois 60606
(Address of principal executive offices, including zip code)

(312) 573-5600

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

Edgar Filing: NAVIGANT CONSULTING INC - Form 10-Q

As of July 27, 2009, 50.0 million shares of the Registrant's common stock, par value \$.001 per share, were outstanding.

NAVIGANT CONSULTING, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Basis of Presentation

We are an independent specialty consulting firm combining deep industry expertise and integrated solutions to assist companies and their legal counsel in addressing the challenges of uncertainty and risk, and leveraging opportunities for overall business model improvement. Professional services include dispute, investigative, financial, operational and business advisory, risk management and regulatory advisory, strategy, economic analysis and transaction advisory solutions. We provide our services to government agencies, legal counsel and large companies facing the challenges of uncertainty, risk, distress and significant change. We focus on industries undergoing substantial regulatory or structural change and on the issues driving these transformations.

The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules of the Securities and Exchange Commission for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America. The information furnished herein includes all adjustments, consisting of normal recurring adjustments except where indicated, which are, in the opinion of management, necessary for a fair presentation of the results of operations for these interim periods.

The results of operations for the six months ended June 30, 2009 are not necessarily indicative of the results to be expected for the entire year ending December 31, 2009.

These financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto as of and for the year ended December 31, 2008 included in the Annual Report on Form 10-K, as filed by us with the Securities and Exchange Commission on February 25, 2009.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and the related notes. Actual results could differ from those estimates and may affect future results of operations and cash flows.

Note 2. Acquisitions

On February 23, 2009, we acquired assets of Morse PLC's Investment Management Consulting Business from Morse PLC located in the UK for \$1.9 million in cash paid at closing. As part of the purchase price allocation, we recorded \$0.4 million in identifiable intangible assets and \$1.6 million in goodwill, which includes a deferred tax adjustment of \$0.1 million. This acquisition consisted of 26 consulting professionals and has been included in the International Consulting Operations segment.

On May 1, 2008, we acquired the assets of Chicago Partners, LLC (Chicago Partners) for \$73.0 million, which consisted of \$50.0 million in cash paid at closing and \$23.0 million in our common stock (which was recorded at fair value for \$21.0 million at closing). The common stock will be paid in four equal installments of \$5.8 million, the first and second of which have been paid and the remaining two of which will be paid on each of the second and third year anniversaries of the closing. We acquired assets of \$16.7 million, including \$15.8 million in accounts receivable, net of an allowance for doubtful accounts, and assumed liabilities of \$7.0 million. We paid \$0.5 million in acquisition-related costs. We recorded \$2.8 million of liabilities for obligations related to lease exit costs for office space assumed in the acquisition. The obligation recorded for real estate lease exit costs is based on foregone rent payments for the remainder of the lease term less assumed sublease income. As of June 30, 2009, we have not secured subtenants to occupy the office space assumed in the acquisition. As part of the original purchase price allocation, we recorded \$4.3 million in identifiable intangible assets and \$61.6 million in goodwill. The purchase agreement provided for an adjustment of the purchase price for the difference in net assets acquired compared to the target net assets. The purchase price paid in cash at closing was funded under our credit facility.

Subsequent to the original acquisition date, we may pay up to \$27.0 million of additional purchase consideration based on the Chicago Partners' business achieving certain post-closing performance targets during the periods from closing to December 31, 2008 and in calendar years 2009, 2010 and 2011. If earned, the additional purchase consideration would be payable 75 percent in cash and 25 percent in our common stock. The additional purchase price payments, if any, will be payable in March of the year following the year such performance targets are attained. Any

additional purchase price consideration payments will be recorded as goodwill when the contingencies regarding attainment of performance targets are resolved. As of December 31, 2008, we recorded a liability for additional purchase price payments of approximately \$3.0 million associated with additional purchase consideration earned during

2008. During the three months ended March 31, 2009, we made an additional purchase price payment of \$2.3 million based on 2008 performance and accordingly adjusted the \$3.0 million accrual for earnout payments recorded at December 31, 2008 to \$2.3 million at March 31, 2009, which also impacted goodwill.

We acquired Chicago Partners to expand our product offerings to our clients. Chicago Partners provides economic and financial analyses of legal and business issues principally for law firms, corporations and government agencies. Chicago Partners had approximately 90 consultants at the time of acquisition. Chicago Partners is managed and resources are allocated based on its results and as such, in accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, operates under a fourth operating segment referred to as Economic Consulting Services.

Pro Forma Information

The following table summarizes certain supplemental unaudited pro forma financial information which was prepared as if the first quarter 2009 acquisition noted above and the acquisitions completed during 2008 had occurred at the beginning of the periods presented. The unaudited pro forma financial information was prepared for comparative purposes only and does not purport to be indicative of what would have occurred had the acquisitions been made at that time or of results which may occur in the future.

	For the three months ended		For the six months ended

Diluted net income per share	\$ 0.07	\$ 0.22	\$ 0.18	\$ 0.48

Note 3. Segment Information

We manage our business in four segments North American Dispute and Investigative Services, North American Business Consulting Services, International Consulting Operations, and Economic Consulting Services. These segments are generally defined by the nature of their services and geography. The business is managed and resources are allocated on the basis of the four operating segments.

The North American Dispute and Investigative Services segment provides a wide range of services to clients facing the challenges of disputes, litigation, forensic investigation, discovery, and regulatory compliance. The clients of this segment are principally law firms, corporate general counsels, and corporate boards.

The North American Business Consulting Services segment provides strategic, operational, financial, regulatory and technical management consulting services to clients. Services are sold principally through vertical industry practices such as energy, healthcare, financial and insurance. The clients are principally C suite and corporate management, government entities, and law firms.

The International Consulting Operations segment provides a mix of dispute and business consulting services to clients predominately outside North America with headquarters in London, England.

The Economic Consulting Services segment provides economic and financial analyses of complex legal and business issues principally for law firms, corporations and government agencies. Expertise includes areas such as antitrust, corporate finance and governance, bankruptcy, intellectual property, investment banking, labor market discrimination and compensation, corporate valuation, and securities litigation.

In accordance with the disclosure requirements of Statement of Financial Accounting Standards No. 131, Disclosures about Segments of and Enterprise and Related Information, we identified the above four operating segments as reportable segments.

Edgar Filing: NAVIGANT CONSULTING INC - Form 10-Q

Information on the segment operations have been summarized as follows (shown in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2009	2008	2009	2008
Total revenues:				
North American Dispute and Investigative Services	\$ 72,225	\$ 88,602	\$ 144,855	\$ 179,604
North American Business Consulting Services	69,356	92,045	148,995	188,386
International Consulting Operations	17,820	23,098	33,866	42,894
Economic Consulting Services	14,155	7,663	28,202	7,663
Total revenues	\$ 173,556	\$ 211,408	\$ 355,918	\$ 418,547
Segment operating profit:				
North American Dispute and Investigative Services	\$ 25,681	\$ 33,753	\$ 51,131	\$ 68,776
North American Business Consulting Services	23,356	33,993	49,747	67,323
International Consulting Operations	4,070	8,179	8,091	13,562
Economic Consulting Services	4,888	2,948	9,532	2,948
Total combined segment operating profit	57,995	78,873	118,501	152,609
Segment operating profit reconciliation to income before income tax expense:				
Unallocated:				
General and administrative expenses	33,513	41,071	68,406	79,084
Depreciation expense	4,320	4,381	8,960	8,546
Amortization expense	3,392	4,597	7,012	8,824
Long term compensation expense related to consulting personnel (including share based compensation expense)	2,630	3,340	6,191	5,855
Other operating costs	4,612	2,575	5,520	4,093
Other expense, net	3,553	5,325	6,904	9,660
Total unallocated expenses, net	52,020	61,289	102,993	116,062
Income before income tax expense	\$ 5,975	\$ 17,584	\$ 15,508	\$ 36,547

Long term compensation expense related to consulting personnel includes share based compensation expense and compensation expense attributed to forgivable loans (see note 8 of the unaudited consolidated financial statements).

During the three and six months ended June 30, 2009, we recorded \$4.6 million and \$5.5 million, respectively, in other operating costs compared to \$2.6 million and \$4.1 million for the corresponding periods in 2008. These costs were not allocated to segment operating costs. See note 12-Other Operating Costs.

The information presented does not necessarily reflect the results of segment operations that would have occurred had the segments been stand-alone businesses. Certain unallocated expense amounts related to specific reporting segments have been excluded from the segment operating profit to be consistent with the information used by management to evaluate segment performance. We record accounts receivable, goodwill and intangible assets on a segment basis. Other balance sheet amounts are not maintained on a segment basis.

Total assets by segment were as follows (shown in thousands):

June 30,

	2009	December 31, 2008
North American Dispute and Investigative Services	\$ 303,752	\$ 287,225
North American Business Consulting Services	230,756	236,419
International Consulting Operations	85,858	73,897
Economic Consulting Services	76,568	74,089
Unallocated assets	102,753	120,763
Total assets	\$ 799,687	\$ 792,393

Note 4. Goodwill and Intangible Assets

Goodwill and other intangible assets consisted of (shown in thousands):

	June 30, 2009	December 31, 2008
Goodwill	\$ 481,202	\$ 468,483
Less accumulated amortization	(5,425)	(5,425)
Goodwill, net	475,777	463,058
Intangible assets:		
Client lists and relationships	62,471	58,834
Non-compete agreements	19,362	18,878
Other	18,225	17,470
Intangible assets, at cost	100,058	95,182
Less accumulated amortization	(66,102)	(57,074)
Intangible assets, net	33,956	38,108
Goodwill and intangible assets, net	\$ 509,733	\$ 501,166

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, we are required to perform an annual goodwill impairment test and more frequently if events or circumstances indicate that goodwill may be impaired. Our annual test is completed in the second quarter of each year. During the second quarter of 2009, we completed an annual impairment test of our goodwill balances as of May 31, 2009. There was no indication of impairment based on our analysis.

During our annual test of goodwill, we considered that each of the four reporting units has significant goodwill and intangible assets and that the excess of estimated fair value over the net asset carrying value for all reporting units decreased relative to the prior year test. As of date of our analysis, the excess of estimated fair value over net asset carrying value of the North American Business Consulting Services reporting unit and the North American Dispute and Investigative Services reporting unit was approximately 40% and 25% of the estimated fair value, respectively. The excess of estimated fair value over the net asset carrying value of the International Consulting Operations and Economic Consulting Services reporting units were both approximately 20% of the estimated fair value and given the smaller size of these reporting units the relative dollars of the excess is substantially smaller than the other two reporting units. Further, the estimated fair value of the International Consulting Operations and Economic Consulting Services reporting units may be more volatile due to the reporting units' smaller size and higher expected earnings growth rates. Also, given the International Consulting Operations reporting unit's geographic market, its excess may be more volatile. Additionally, the Economic Consulting Services reporting unit was recently acquired as one acquisition and thus its excess is dependent on the success of such acquisition.

In accordance with SFAS No. 142, we will be required to consider whether or not the fair value of each of the reporting units could have fallen below its carrying value. We will consider the elements outlined in SFAS No. 142 and other factors including, but not limited to, changes in the business climate in which we operate, recent disruptions in the financial markets, our market capitalization in excess of our book value, our recent operating performance, and our financial projections. As a result of this review we will be required to determine whether such an event or condition existed that would require us to perform an interim goodwill impairment test prior to our next annual test date. We will continue to monitor these factors and we may perform additional impairment tests as appropriate in future periods.

As prescribed by SFAS No. 144, Accounting for the Impairment of Long-Lived Assets, we review our intangible asset values on a periodic basis. We review long-lived assets, including identifiable intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable or upon the occurrence of any triggering event as defined in SFAS No. 144. As of June 30, 2009, there was no indication of impairment related to our intangible assets. As summarized in the table above, we had \$34.0 million in intangible assets, net of accumulated amortization, as of June 30, 2009. Of the \$34.0 million balance, \$26.0 million related to customer lists and relationships, \$4.4 million related to non-compete agreements and \$3.6 million related to other intangible assets. As of June 30, 2009, the weighted average remaining life for customer lists and relationships, non-compete agreements and other intangible assets was 4.6 years, 2.5 years and 4.3 years, respectively. We have reviewed the estimated period of consumption for our intangible assets and the remaining useful lives appear reasonable. At June 30, 2009, the weighted average remaining life for our intangible assets in total was 4.3 years. Our intangible assets have estimated useful lives which range up to nine years. We will amortize the remaining net book values of intangible assets over their remaining useful lives.

On January 1, 2009, we adopted FSP FAS 157-2, Effective Date of FASB Statement No. 157 as it relates to nonrecurring fair value measurement requirements for non-financial assets and liabilities. Our adoption of SFAS No. 157 did not have a material impact on our financial statements for the six months ended June 30, 2009. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and defines fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 discusses valuation techniques,

such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost).

We use various methods to determine fair value, including market, income, and cost approaches. With these approaches, we adopt certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk or the risks inherent in the inputs to the valuation. Inputs to valuation can be readily observable, market-corroborated, or unobservable. We use valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value measurements used for our goodwill impairment testing uses significant unobservable Level 3 inputs which reflect our own assumptions about the assumptions that market participants would use in measuring fair value including assumptions about risk.

The changes in carrying values of goodwill and intangible assets were as follows (shown in thousands):

	For the six months ended June 30,	
	2009	2008
Beginning of period Goodwill, net	\$ 463,058	\$ 430,768
Goodwill acquired during the period	1,842	60,581
Adjustments to goodwill		(6,905)
Foreign currency translation goodwill	10,877	(1,101)
End of period Goodwill, net	\$ 475,777	\$ 483,343
Beginning of period Intangible assets, net	\$ 38,108	\$ 57,755
Intangible assets acquired during the period	261	4,312
Adjustments to intangible assets	(270)	
Foreign currency translation intangible assets, net	2,869	(340)
Less amortization expense	(7,012)	(8,824)
End of period Intangible assets, net	\$ 33,956	\$ 52,903

During the quarter ended March 31, 2008, we recorded a reduction to goodwill and a related reduction to paid-in-capital of \$6.8 million to reflect a discount for lack of marketability on common stock with transfer restrictions issued in connection with acquisition purchase agreements. The fair value of the discount for lack of marketability was determined using a protective put approach that considered entity-specific assumptions, including the duration of the transfer restriction periods for the share issuances and applicable volatility of our common stock for those periods. In addition, we recorded a reduction to goodwill and a related reduction to deferred income taxes of \$0.5 million to reflect the tax impact of such adjustments. Also, we recorded \$0.4 million of goodwill related to purchase price adjustments related to certain 2007 acquisitions.

During the six months ended June 30, 2009, we recorded \$1.6 million in goodwill and \$0.4 million in intangible assets as part of the purchase price allocation of a business that we acquired during the first quarter 2009.

As of June 30, 2009, goodwill and intangible assets, net of amortization, was \$218.9 million for North American Dispute and Investigative Services, \$168.9 million for North American Business Consulting Services, \$63.1 million for International Consulting Operations and \$58.8 million for Economic Consulting Services.

Below is the estimated annual aggregate amortization expense of intangible assets for each of the five succeeding years and thereafter from December 31, 2008, based on intangible assets recorded at June 30, 2009 (shown in thousands):

Year ending December 31,	Amount
---------------------------------	---------------

Edgar Filing: NAVIGANT CONSULTING INC - Form 10-Q

2009	\$ 13,043
2010	10,120
2011	8,018
2012	4,598
2013	3,437
Thereafter	1,752
Total	\$ 40,968

Note 5. Net Income per Share (EPS)

Basic net income per share (EPS) is computed by dividing net income by the number of basic shares. Basic shares are the total of the common stock outstanding and the equivalent shares from obligations presumed payable in common stock, both weighted for the average days outstanding for the period. Basic shares exclude the dilutive effect of common stock that could potentially be issued due to the exercise of stock options, vesting of restricted shares, or satisfaction of necessary conditions for contingently issuable shares. Diluted EPS is computed by dividing net income by the number of diluted shares, which are the total of the basic shares outstanding and all potentially issuable shares, based on the weighted average days outstanding for the period.

For the three and six months ended June 30, 2009 and 2008, the components of basic and diluted shares (shown in thousands) (based on the weighted average days outstanding for the periods) are as follows:

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Common stock outstanding	48,202	46,413	47,806	46,201
Business combination obligations payable in a fixed number of shares	11	98	22	104
Basic shares	48,213	46,511	47,828	46,305
Employee stock options	349	500	350	471
Restricted shares and stock units	100	417	180	319
Business combination obligations payable in a fixed dollar amount of shares	1,056	824	1,201	450
Contingently issuable shares	38	5	45	3
Diluted shares	49,756	48,257	49,604	47,548

For the three months ended June 30, 2009 and 2008, we had outstanding stock options for approximately 350,000 and 318,000 shares, respectively, which were excluded from the computation of diluted shares. For the six months ended June 30, 2009 and 2008, we had outstanding stock options for approximately 356,000 and 400,000 shares, respectively, which were excluded from the computation of diluted shares. The shares were excluded from the diluted share computation because these shares had exercise prices greater than the average market price and the impact of including these options in the diluted share calculation would have been antidilutive.

In connection with certain business acquisitions, we are obligated to issue a certain number of shares of our common stock. Obligations to issue a fixed number of shares are included in the basic earnings per share calculation. Obligations to issue a fixed dollar amount of shares where the number of shares is based on the trading price of our shares at the time of issuance are included in the diluted earnings per share calculation. As part of the Chicago Partners acquisition, we are obligated to issue shares of our common stock based on a fixed dollar amount of \$5.8 million on May 1, 2010 and 2011. For the three and six months ended June 30, 2009, the diluted share computation included 0.9 million shares related to the Chicago Partners deferred purchase price obligations.

In accordance with SFAS No. 128, Earnings per Share, we use the treasury stock method to calculate the dilutive effect of our common stock equivalents should they vest. The exercise of stock options or vesting of restricted shares and restricted stock unit shares triggers excess tax benefits or tax deficiencies that reduce or increase the dilutive effect of such shares being issued. The excess tax benefits or deficiencies are based on the difference between the market price of our common stock on the date the equity award is exercised or vested and the cumulative compensation cost of the stock options, restricted shares and restricted stock units. These excess tax benefits are recorded as a component of additional paid-in capital in the accompanying consolidated balance sheets and as a component of financing cash flows in the accompanying consolidated statements of cash flows.

Note 6. Stockholders Equity

The following summarizes the activity of stockholders equity during the six months ended June 30, 2009 (shown in thousands):

	Dollars	Shares
Stockholders equity at January 1, 2009	\$ 365,758	47,319
Comprehensive income	23,097	
Stock issued in acquisition-related transactions	6,992	596
Cash proceeds from employee stock option exercises and employee stock purchases	2,317	242
Net settlement of employee taxes on taxable compensation related to the vesting of restricted stock	(991)	(79)
Tax deficiencies on stock options exercised and restricted stock vested, net of tax benefits	(1,195)	
Vesting of restricted stock		382
Share-based compensation expense	4,465	
Stockholders equity at June 30, 2009	\$ 400,443	48,460

During the three months ended June 30, 2009, we issued approximately 441,000 shares of our common stock in connection with the \$5.75 million deferred purchase price obligation relating to the Chicago Partners acquisition. In addition, during the three months ended June 30, 2009, we issued 102,000 shares of our common stock as part of deferred purchase price payments related to an acquisition from a prior year. The \$7.0 million contribution to stockholders equity related to stock issued in acquisition-related transactions had been recorded in current liabilities prior to the issuance of the shares.

Note 7. Share-based Compensation Expense*Share-based Compensation Expense*

Total share-based compensation expense consisted of the following (shown in thousands):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Amortization of restricted stock awards	\$ 1,699	\$ 2,573	\$ 3,873	\$ 5,746
Amortization of stock option awards	211	174	323	360
Fair value adjustment for variable accounting awards	(5)	13	(45)	120
Discount given on employee stock purchase transactions through our Employee Stock Purchase Plan	54	284	314	593
Other share-based compensation expense				(242)
Total share-based compensation expense	\$ 1,959	\$ 3,044	\$ 4,465	\$ 6,577

Share-based compensation expense attributable to consultants was included in cost of services before reimbursable expenses. Share-based compensation expense attributable to corporate management and support personnel was included in general and administrative expenses. The following table shows the amounts attributable to each category:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Cost of services	\$ 1,333	\$ 2,399	\$ 3,259	\$ 4,914
General and administrative expenses	626	645	1,206	1,663

Total share-based compensation expense	\$ 1,959	\$ 3,044	\$ 4,465	\$ 6,577
--	----------	----------	----------	----------

Restricted Stock Outstanding

As of June 30, 2009, we had 1.6 million restricted stock awards and equivalent units outstanding at a weighted average measurement price of \$17.50 per share. The measurement price is the market price of our common stock at the date of grant of the restricted stock awards and equivalent units. The restricted stock and equivalent units were granted out of our long-term incentive plan.

The following table summarizes restricted stock activity for the six months ended June 30, 2009 and 2008:

	2009		2008	
	Number of shares (000s)	Weighted average measurement date price	Number of shares (000s)	Weighted average measurement date price
Restricted stock and equivalents outstanding at beginning of the period	1,678	\$ 19.00	2,264	\$ 19.45
Granted	308	12.63	66	19.32
Vested	(382)	20.72	(321)	20.45
Forfeited	(39)	19.81	(157)	20.04
Restricted stock and equivalents outstanding at end of the period	1,565	\$ 17.50	1,852	\$ 19.45

As of June 30, 2009, we had \$19.0 million of total compensation costs related to the outstanding or unvested restricted stock that have not been recognized as share-based compensation expense. The compensation costs will be recognized as expense over the remaining vesting periods. The weighted-average remaining vesting period is approximately four years.

On March 13, 2007 and April 30, 2007, we issued a total of 1.2 million shares of restricted stock, with an aggregate market value of \$22.6 million based on the market value of our common stock price at the grant date, to key senior consultants and senior management as part of an incentive program. The restricted stock awards will vest seven years from the grant date, with the opportunity for accelerated vesting over five years based upon the achievement of certain targets related to our consolidated operating performance. The compensation associated with these awards is being recognized over the probable period in which the restricted stock awards will vest. We review the likelihood of required performance achievements on a periodic basis and adjust compensation expense on a prospective basis to reflect any changes in estimates to properly reflect compensation expense over the remaining balance of the service or performance period. During the fourth quarter of 2008, based on operating performance, we changed our estimate and lengthened the amount of time expected for performance achievement of 20 percent of the awards outstanding. During the fourth quarter 2008, the compensation committee of our board of directors approved a 20 percent accelerated vest to occur in March 2009. As such, compensation expense was adjusted prospectively to reflect these changes. For the 2009 performance period, which began January 2009, we have recognized share based compensation expense for another 20 percent of the outstanding award over the remaining five year period of the seven year service period. Compensation expense for the remaining 40 percent restricted stock awards outstanding will commence once the explicit performance period begins or the intrinsic service period starts. As of June 30, 2009, approximately 0.7 million of these restricted stock awards remain outstanding and 0.2 million shares have vested.

During the three months ended March 31, 2009, our compensation committee of the board of directors approved a new long-term incentive performance program. The program provides for grants of restricted stock awards and/or cash, based on individual employee elections, to key senior practitioners and senior management, excluding named executive officers, for achievement of certain targets related to our consolidated operating performance. These awards, if any, will be based on the annual operating performance year of 2009 and will be granted in March of the following year. Any awards made pursuant to this program will have a three year cliff vesting schedule from the grant date. The

program contemplates that the company would offer this opportunity on an annual basis and that future awards, if any, would be based on the annual operating performance of each subsequent annual performance year and be subject to the same eligibility criteria, employee election relative to the vehicle and vesting terms. Compensation expense related to this program for the six months ended June 30, 2009, is not material.

Note 8. Supplemental Consolidated Balance Sheet Information*Accounts Receivable:*

The components of accounts receivable were as follows (shown in thousands):

	June 30, 2009	December 31, 2008
Billed amounts	\$ 156,576	\$ 142,503
Engagements in process	55,678	49,319
Allowance for doubtful accounts	(25,053)	(21,358)
Accounts receivable, net	\$ 187,201	\$ 170,464

Receivables attributable to engagements in process represent balances for services that have been performed and earned but have not been billed to the client. Billings are generally done on a monthly basis for the prior month's services. We provide services to and have receivables due from many financial and insurance clients in all four of our segments. Our allowance for doubtful accounts receivable includes balances related to the impact of recent disruptions in the financial markets, including bankruptcies. Our allowance for doubtful accounts receivable is based on historical experience and management judgment and may change based on market conditions or specific client circumstances.

Prepaid expenses and other current assets

The components of prepaid expenses and other current assets were as follows (shown in thousands):

	June 30, 2009	December 31, 2008
Notes receivable - current	\$ 4,718	\$ 4,595
Other prepaid expenses and other current assets	10,899	8,860
Prepaid expenses and other current assets	\$ 15,617	\$ 13,455

Other assets

The components of other assets were as follows (shown in thousands):

	June 30, 2009	December 31, 2008
Notes receivable - non-current	\$ 12,553	\$ 13,905
Prepaid expenses and other non-current assets	3,039	3,624
Other assets	\$ 15,592	\$ 17,529

Notes receivable represent unsecured forgivable loans with terms of four to five years issued to certain senior consultants for an aggregate of \$22.8 million. The loans were issued to retain and motivate highly-skilled professionals. The principal amount and accrued interest is expected to be forgiven by us over the term of the loans, so long as the professionals continue employment and comply with certain contractual requirements. Certain events such as death or disability, termination by us for cause or voluntarily by the employee will result in earlier repayment of any unforgiven loan amounts. The expense associated with the forgiveness of the principal amount of the loan is recorded as compensation expense over the service period, which is consistent with the term of the loans. The accrued interest is calculated based on the loan's effective interest rate (approximately 5.25 percent per year) and is recorded as

interest income. The forgiveness of such accrued interest is recorded as compensation expense, which aggregated \$0.3 million and \$0.6 million for the three months and six months ended June 30, 2009, respectively. During the three months ended June 30, 2009, \$3.2 million, in aggregate, of the principal amount of the loans were forgiven as the service and contractual requirements had been performed up to the due dates of the principal amounts payable.

Property and Equipment:

Property and equipment were comprised of the following (shown in thousands):

	June 30, 2009	December 31, 2008
Furniture, fixtures and equipment	\$ 51,070	\$ 49,668
Software	25,363	24,056
Leasehold improvements	41,329	40,159
	117,762	113,883
Less: accumulated depreciation and amortization	(70,717)	(68,732)
Property and equipment, net	\$ 47,045	\$ 45,151

Other Current Liabilities:

The components of other current liabilities were as follows (shown in thousands):

	June 30, 2009	December 31, 2008
Deferred business acquisition obligations	\$ 6,465	\$ 10,899
Deferred revenue	12,331	13,685
Deferred rent	1,769	2,470
Commitments on abandoned real estate	3,993	1,112
Interest rate swap liability (see note 10)	7,256	
Other liabilities	5,292	3,301
Total other current liabilities	\$ 37,106	\$ 31,467

The deferred business acquisition obligations of \$6.5 million at June 30, 2009 consisted of cash obligations and obligations to issue a fixed dollar amount of shares of our common stock. The liability for deferred business acquisition obligations has been discounted to net present value. The number of shares to be issued will be based on the trading price of our common stock for a period of time prior to the issuance dates.

Other Non-Current Liabilities:

The components of other non-current liabilities were as follows (shown in thousands):

	June 30, 2009	December 31, 2008
Deferred business acquisition obligations	\$ 6,123	\$ 11,277
Deferred rent long term	10,403	9,995
Commitments on abandoned real estate	4,192	2,884
Interest rate swap liability (see note 10)		9,585
Other non-current liabilities	4,304	3,595
Total other non-current liabilities	\$ 25,022	\$ 37,336

The deferred business acquisition obligations of \$6.1 million at June 30, 2009 consisted of cash obligations and obligations to issue a fixed dollar amount of shares of our common stock. The liability amounts for deferred business acquisition obligations have been discounted to net present value. The number of shares to be issued will be based on the trading price of our common stock for a period of time prior to the issuance dates. The long-term portion of deferred rent is primarily rent allowances and incentives related to leasehold improvements on lease arrangements for our office facilities that expire at various dates through 2017.

Current Notes Payable:

As of June 30, 2009, as part of a purchase price agreement for an acquired business, we recorded \$4.2 million in current notes payable. As of June 30, 2009, there was no accrued interest on the notes payable.

Current notes payable were as follows (shown in thousands):

	June 30, 2009	December 31, 2008
Note related to the Abros acquisition	\$	\$ 362
Note related to the Troika acquisition	4,170	3,811
Total current notes payable	\$ 4,170	\$ 4,173

Note 9. Supplemental Consolidated Cash Flow Information*Non Cash Transactions:*

During the six months ended June 30, 2009 we issued \$7.0 million of common stock related to acquisition-related transactions which were recorded in current liabilities.

Other Information:

Total interest paid during the six months ended June 30, 2009 and 2008 was \$7.3 million and \$10.2 million, respectively. Total income taxes paid were \$4.3 million and \$17.2 million during the six months ended June 30, 2009 and 2008, respectively.

Note 10. Comprehensive Income

Comprehensive income, which consists of net income, foreign currency translation adjustments and unrealized gain or loss on our interest rate swap agreement, was as follows (shown in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2009	2008	2009	2008
Net income	\$ 3,385	\$ 9,986	\$ 8,818	\$ 20,892
Foreign currency translation adjustment	15,296	406	13,173	(1,521)
Unrealized gain on interest rate derivative, net of income tax expense	623	2,709	1,106	113
Comprehensive income	\$ 19,304	\$ 13,101	\$ 23,097	\$ 19,484

On July 2, 2007, we entered into an interest rate swap agreement with a bank for a notional value of \$165.0 million through June 30, 2010. This agreement effectively fixed our LIBOR base rate for \$165.0 million of our indebtedness at a rate of 5.30% during this period. We designated the swap as a cash flow hedge to manage market risk from changes in interest rates on a portion of our variable rate term loans. We recognize cash flow hedges as assets or liabilities at fair value, with the related gain or loss reflected within stockholders' equity as a component of accumulated other comprehensive income to the extent of effectiveness. Any ineffectiveness on the swap would be recognized in the consolidated statements of income. The differentials to be received or paid under the instrument are recognized in income over the life of the contract as adjustments to interest expense. The use of an interest rate swap exposes us to counterparty credit risk in the event of non performance by counterparties. As of June 30, 2009, we were not exposed to significant counterparty risk. During the three and six months ended June 30, 2009 there was no gain or loss due to ineffectiveness and we recorded \$1.7 million and \$3.3 million in interest expense, respectively, associated with differentials paid under the instrument. As of June 30, 2009, we had a \$7.3 million liability recorded in other current liabilities related to this interest rate derivative. We recorded \$0.6 million and \$1.1 million in

unrealized gain, net of taxes of \$0.4 million and \$1.2 million, respectively, to accumulated other comprehensive income for the three and six months ended June 30, 2009, respectively.

As of June 30, 2009, accumulated other comprehensive income is comprised of foreign currency translation loss of \$10.6 million and unrealized net loss on interest rate swap of \$4.3 million.

In September 2006, the FASB issued Statement No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. We adopted SFAS 157 during the first quarter of 2008 and the implementation did not have a material impact on our financial condition, results of operations, or cash flows. We deferred the adoption of SFAS 157 with respect to non-financial assets and liabilities in accordance with the provisions of FSP FAS 157-2, Effective Date of FASB Statement

No. 157. Items in this classification include goodwill, and intangible assets with indefinite lives. Our adoption on January 1, 2009 of FSP FAS 157-2 did not have a material effect on our financial condition, results of operations, or cash flows.

SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). SFAS 157 classifies the inputs used to measure fair value into the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability

Level 3 Unobservable inputs for the asset or liability

We endeavor to utilize the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our interest rate swap liability was valued using counterparty quotations in over-the-counter markets. In addition, we incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk. The credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by ourselves and our counterparties. However, as of June 30, 2009, we have assessed the significance of the impact on the overall valuation and believe that these adjustments are not significant. As such, our derivative instrument is classified within level 2.

Additionally, the value of our bank borrowing credit agreement (see note 11) was estimated to be 4% below its carrying value based on unobservable Level 3 inputs such as estimates of current credit spreads to evaluate the likelihood of default by ourselves and our counterparties. We consider the recorded value of our other financial assets and liabilities, which consist primarily of cash and cash equivalents, accounts receivable, and accounts payable, to approximate the fair value of the respective assets and liabilities at June 30, 2009 and December 31, 2008 based upon the short-term nature of the assets and liabilities.

Note 11. Bank Borrowings

As of June 30, 2009, we maintained a bank borrowing credit agreement consisting of a \$275 million revolving line of credit with the option to increase to \$375.0 million and a \$225.0 million unsecured term loan facility. Borrowings under the revolving credit facility are payable in May 2012. Our credit agreement provides for borrowings in multiple currencies including US Dollars, Canadian Dollars, UK Pound Sterling and Euro. As of June 30, 2009, we had aggregate borrowings of \$239.7 million compared to \$232.5 million as of December 31, 2008. Based on our financial covenant restrictions under our line of credit agreement as of and at June 30, 2009, a maximum of approximately \$100 million would be available in additional borrowings on our line of credit.

At our option borrowings under the revolving credit facility and the term loan facility bear interest, in general, based on a variable rate equal to an applicable base rate or LIBOR, in each case plus an applicable margin. For LIBOR loans, the applicable margin will vary depending upon our consolidated leverage ratio (the ratio of total funded debt to adjusted EBITDA) and whether the loan is made under the term loan facility or revolving credit facility. As of June 30, 2009, the applicable margins on LIBOR loans under the term loan facility and revolving credit facility were 1.25% and 1.0%, respectively. As of June 30, 2009, the applicable margins for base rate loans under the term loan facility and revolving credit facility were 0.25% and zero, respectively. For LIBOR loans, the applicable margin will vary between 0.50% to 1.75% depending upon our performance and financial condition. Our average borrowing rate under our credit agreement (including the impact of our interest rate swap agreement—see note 10) was 5.3% and 5.5% for the three and six months ended June 30, 2009 compared to 6.9% and 6.6% for the corresponding periods in 2008.

Our credit agreement also includes certain financial covenants, including covenants that require that we maintain a consolidated leverage ratio of not greater than 3.25:1, and a consolidated fixed charge coverage ratio (the ratio of the

sum of adjusted EBITDA and rental expense to the sum of cash interest expense and rental expense) of not less than 2.0:1. At June 30, 2009, under the definitions in the credit agreement, our consolidated leverage ratio was 2.3 and our consolidated fixed charge coverage ratio was 3.5. In addition to the financial covenants, our credit agreement contains customary affirmative and negative covenants and is subject to customary exceptions. These covenants limit our ability to incur liens or other encumbrances or make investments, incur indebtedness, enter into mergers, consolidations and asset sales, pay dividends or other distributions, change the nature of our business and engage in transactions with affiliates. We were in compliance with the terms of our credit agreement as of June 30, 2009 and December 31, 2008; however there can be no assurances that we will remain in compliance in the future.

Note 12. Other Operating Costs

Other operating costs consisted of the following (shown in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2009	2008	2009	2008
Adjustments to office closures obligations, discounted and net of expected sublease income	4,225	1,955	4,525	2,105
Write down of leasehold improvements				500
Accelerated depreciation on leasehold improvements and furniture due to expected office closures	387	620	995	1,488
Total other operating costs	\$ 4,612	\$ 2,575	\$ 5,520	\$ 4,093

During the three and six months ended June 30, 2009, we recorded \$4.6 million and \$5.5 million, respectively of office closure related costs which consisted of adjustments to office closure obligations and accelerated depreciation on leasehold improvements and furniture in offices to be abandoned. During the three months ended June 30, 2009, we recorded \$4.2 million for office closure related costs. During the three months ended June 30, 2009, we vacated and relocated one of our New York offices, which resulted in a \$3.6 million charge, and we reduced office space in other locations.

We continue to monitor our estimates for office closure obligations and related expected sublease income which is estimated to begin for certain properties as early as January 2010. Such estimates are subject to market conditions and may be adjusted in the future periods as necessary. The office closure obligations have been discounted to net present value. In the next twelve months we expect our cash expenditures to be \$3.8 million relating to these obligations.

The current and non-current liability activity related to office closure obligations are as follows:

	Office Consolidation
Balance at December 31, 2008	\$ 3,996
Charges to operations during the three months ended March 31, 2009	300
Utilized during the three months ended March 31, 2009	(506)
Balance at March 31, 2009	3,790
Charges to operations during the three months ended June 30, 2009	4,225
Utilized during the three months ended June 30, 2009	170
Balance at June 30, 2009	\$ 8,185

The amounts utilized during the three months ended June 30, 2009 included \$0.7 million of rent payments, net of sublease income, offset by \$0.9 million of deferred rent credits attributable to the New York exit. Office space reduction costs are not allocated to our business segments.

Item 2.

**NAVIGANT CONSULTING, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Statements included in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report, which are not historical in nature, are intended to be, and are hereby identified as forward-looking statements for purposes of the Private Securities Litigation Reform Act of 1995. Such statements appear in a number of places in this report, including, without limitation, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations. When used in this report, the words anticipate, believe, intend, estimate, expect, and similar expressions are intended to identify such forward-looking statements. We caution readers that there may be events in the future that we are not able to accurately predict or control and the information contained in the forward-looking statements is inherently uncertain and subject to a number of risks that could cause actual results to differ materially from those indicated in the forward-looking statements including, without limitation: the success of the our strategy implementation following its strategic business assessment; the success of our cost reduction actions; the success of our organizational changes; risks inherent in international operations, including foreign currency fluctuations; ability to make acquisitions; pace, timing and integration of acquisitions; impairment charges; management of professional staff, including dependence on key personnel, recruiting, attrition and the ability to successfully integrate new consultants into our practices; utilization rates; conflicts of interest; potential loss of clients; our clients' financial condition and their ability to make payments to us; risks inherent with litigation; higher risk client assignments; professional liability; potential legislative and regulatory changes; continued access to capital; and general economic conditions. Further information on these and other potential factors that could affect our financial results is included in our Annual Report on Form 10-K and other filings with the SEC under the Risk Factors sections and elsewhere in those filings. We cannot guarantee any future results, levels of activity, performance or achievement and we undertake no obligation to update any of our forward-looking statements.

Overview

We are an independent specialty consulting firm combining deep industry expertise and integrated solutions to assist companies and their legal counsel in addressing the challenges of uncertainty and risk, and leveraging opportunities for overall business model improvement. Professional services include dispute, investigative, financial, operational and business advisory, risk management and regulatory advisory, strategy, economic analysis and transaction advisory solutions. We provide our services to government agencies, legal counsel and large companies facing the challenges of uncertainty, risk, distress and significant change. We focus on industries undergoing substantial regulatory or structural change and on the issues driving these transformations.

Our revenues, margins and profits have been and will likely continue to be impacted by a significant decline in the United States and world economy. Examples of other impacting events that may affect us both favorably and unfavorably are natural disasters, legislative and regulatory changes, capital market disruptions, reductions in discretionary consulting spending, crises in the energy, healthcare, financial services, insurance and other industries, and significant client specific events.

We derive our revenues from fees and reimbursable expenses for professional services. A majority of our revenues are generated under hourly or daily rates billed on a time and expense basis. Clients are typically invoiced on a monthly basis, with revenue recognized as the services are provided. There are also client engagements where we are paid a fixed amount for our services, often referred to as fixed fee billings. This may be one single amount covering the whole engagement or several amounts for various phases or functions. From time to time, we earn incremental revenues, in addition to hourly or fixed fee billings, which are contingent on the attainment of certain contractual milestones or objectives. Such incremental revenues may cause variations in quarterly revenues and operating results if all other revenues and expenses during the quarters remain the same.

Our most significant expense is cost of services before reimbursable expenses, which generally relates to costs associated with generating revenues, and includes consultant compensation and benefits, sales and marketing expenses, and the direct costs of recruiting and training the consulting staff. Consultant compensation consists of salaries, incentive compensation, stock compensation and benefits. Our most significant overhead expenses are

administrative compensation and benefits and office related expenses. Administrative compensation includes payroll costs, incentive compensation, stock compensation and benefits for corporate management and administrative personnel, which are used to indirectly support client projects. Office related expenses primarily consist of rent for our offices.

Critical Accounting Policies

The preparation of the financial statements requires management to make estimates and assumptions that affect amounts reported therein. We base our estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

Revenue Recognition

We recognize revenues as the related professional services are provided. In connection with recording revenues, estimates and assumptions are required in determining the expected conversion of the revenues to cash. We may provide multiple services under the terms of an arrangement and are required to assess whether one or more units of accounting are present. There are also client engagements where we are paid a fixed amount for our services. The recording of these fixed revenue amounts requires us to make an estimate of the total amount of work to be performed and revenues are then recognized as efforts are expended based on (i) objectively determinable output measures, (ii) input measures if output measures are not reliable, or (iii) the straight-line method over the term of the arrangement. From time to time, we also earn incremental revenues. These incremental revenue amounts are generally contingent on a specific event and the incremental revenues are recognized when the contingencies are resolved. Any taxes assessed on revenues relating to services provided to our clients are recorded on a net basis.

Accounts Receivable Realization

We maintain allowances for doubtful accounts for estimated losses resulting from our review and assessment of our clients' ability to make required payments, and the estimated realization, in cash, by us of amounts due from our clients. If our clients' financial condition was to deteriorate, resulting in an impairment of their ability to make payments, additional allowances might be required.

Goodwill and Intangible Assets

Goodwill represents the difference between the purchase price of acquired companies and the related fair value of the net assets acquired, which is accounted for by the purchase method of accounting. Intangible assets consist of identifiable intangibles other than goodwill. Identifiable intangible assets other than goodwill include customer lists and relationships, employee non-compete agreements, employee training methodology and materials, backlog revenue and trade names. Intangible assets, other than goodwill, are amortized based on the period of consumption, ranging up to nine years. Our long term assets are subject to changes in events or circumstances that could impact their carrying value.

We test goodwill annually for impairment. We also review long-lived assets, including identifiable intangible assets and goodwill, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Our impairment testing and reviews may be impacted by, among other things, our expected operating performance, market valuation of comparable companies, ability to retain key personnel, changes in operating segments and competitive environment. A decline in the estimated fair value of our reporting units or other long term assets could result in impairment charges. We did not recognize any impairment charges for goodwill, indefinite-lived intangible assets or identifiable intangible assets subject to amortization during the periods presented.

In accordance with Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (SFAS 142) goodwill is not amortized. Goodwill is subject to an impairment test annually and more frequently if events and circumstances indicate that goodwill may be impaired. The impairment test is performed using a two step, fair-value based test. The first step compares the fair value of a reporting unit to its carrying value. The fair value is determined using a discounted cash flow analysis and a comparable company analysis. The second step is performed only if the carrying value exceeds the fair value determined in step one. The impairment test is considered for each reporting unit as defined in SFAS No. 142 which equates to our reporting segments.

Our test for goodwill impairment is based on the estimated fair value of our reporting units. The estimated fair value of our reporting units is subject to, among other things, changes in our estimated business future growth rate, profit margin, long term outlook and weighted average cost of capital. Our International Consulting Operations and Economic Consulting Services reporting units are most sensitive to those changes as the excess of their fair values

over their asset carrying values is generally lower. Considerable management judgment is required to estimate future cash flows. Assumptions used in our impairment evaluations, such

as forecasted growth rates and cost of capital, are consistent with internal projections and operating plans. The achievement of such internal projections and operating plans will be impacted by the overall economic environment, among other factors.

We perform our annual test in the second quarter of each year. As discussed, in accordance with SFAS 142, we determined the fair value of each reporting unit. This test required us to estimate future cash flows and termination value. The fair value estimate also depended on, among other things, our weighted average cost of capital and working capital requirements. Estimates can also be impacted by, among other things, expected performance, market valuation of comparable companies, ability to retain key personnel, changes in operating segments and competitive environment. There was no indication of impairment based on our analysis.

During our annual test of goodwill, we considered that each of the four reporting units has significant goodwill and intangible assets and that the excess of estimated fair value over the net asset carrying value for each of our reporting units decreased relative to the prior year test. As of the date of our analysis, the excess of estimated fair value over net asset carrying value of the North American Business Consulting Services reporting unit and the North American Dispute and Investigative Services reporting unit was approximately 40% and 25% of the estimated fair value, respectively. The excess of estimated fair value over the net asset carrying value of the International Consulting Operations and Economic Consulting Services reporting units were both approximately 20% of the estimated fair value and given the smaller size of these reporting units the relative dollars of the excess is substantially smaller than the other two reporting units. Further, the estimated fair value of the International Consulting Operations and Economic Consulting Services reporting units may be more volatile due to the reporting units' smaller size and higher expected earnings growth rates. Also, given the International Consulting Operations reporting unit's geographic market, its excess may be more volatile. Additionally, the Economic Consulting Services reporting unit was recently acquired as one acquisition and thus its excess is dependent on the success of such acquisition.

In accordance with SFAS No. 142, we will be required to consider whether or not the fair value of each of the reporting units could have fallen below its carrying value. We will consider the elements outlined in SFAS No. 142 and other factors including, but not limited to, changes in the business climate in which we operate, recent disruptions in the financial markets, our market capitalization in excess of our book value, our recent operating performance, and our financial projections. As a result of this review we will be required to determine that no such event or condition existed that would cause us to perform an interim goodwill impairment test prior to our next annual test date. We will continue to monitor these factors and we may perform additional impairment tests as appropriate in future interim periods.

As prescribed by SFAS No. 144, *Accounting for the Impairment of Long-Lived Assets*, we review our intangible asset values on a periodic basis. We review long-lived assets, including identifiable intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable or upon the occurrence of any triggering event as defined in SFAS No. 144. Our intangible assets are subject to changes in estimated fair market values which are determined in part based on our operating performance and expectations for the future. As of June 30, 2009, there was no indication of impairment related to our intangible assets.

Share-Based Payments

We recognize the cost resulting from all share-based compensation arrangements, such as our stock option and restricted stock plans, in the financial statements based on their fair value. Management judgment is required in order to (i) estimate the fair value of certain share based payments, (ii) determine expected attribution period and (iii) assess expected future forfeitures. We treat our employee stock purchase plan as compensatory and record the purchase discount from market price of stock purchases by employees as share-based compensation expense.

Income Taxes

We account for deferred income taxes utilizing an asset and liability method, whereby deferred tax assets and liabilities are recognized based on the tax effects of temporary differences between the financial statements and the tax bases of assets and liabilities, as measured by current enacted tax rates. When appropriate, we evaluate the need for a valuation allowance to reduce deferred tax assets. The evaluation of the need for a valuation allowance requires management judgment and could impact our effective tax rate.

We account for uncertainty in income taxes utilizing the Financial Accounting Standards Board's Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FAS Statement No. 109 (FIN 48). This interpretation clarifies

the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with SFAS 109. It prescribes a recognition threshold and measurement attribute for financial statement disclosure of tax positions taken or expected to be taken. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosures. The application of FIN 48 requires management judgment related to the uncertainty in income taxes and could impact our effective tax rate.

Other Operating Costs

We recorded expense and related liabilities associated with office closings and excess space reductions related to a plan to reduce office space as other operating costs. The expense consisted of rent obligations for the offices, net of expected sublease income, and the write down and accelerated depreciation of leasehold improvements reflecting the changes in the estimated useful lives of our abandoned offices. The expected sublease income is subject to market conditions and may be adjusted in future periods as necessary. The office closure obligations have been discounted to net present value. The determination of the expense and related liabilities requires management judgment and could impact our future financial results.

Recent Accounting Pronouncements

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. We adopted SFAS 157 during the first quarter of 2008 and the implementation did not have a material impact on our financial condition, results of operations, or cash flows. We deferred the adoption of SFAS 157 with respect to non-financial assets and liabilities in accordance with the provisions of FSP FAS 157-2, *Effective Date of FASB Statement No. 157*. Such non-financial assets and liabilities include goodwill and intangible assets with indefinite lives. Fair value is measured on these assets on a non-recurring basis. Our adoption on January 1, 2009 of FSP FAS 157-2 did not have a material effect on our financial condition, results of operations, or cash flows.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 allows entities the option to measure eligible financial instruments at fair value as of specified dates. Such election, which may be applied on an instrument by instrument basis, is typically irrevocable once elected. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We adopted SFAS 159 during the first quarter of 2008 and did not apply such election to any of our assets or liabilities.

In December 2007, the FASB issued Statement No. 141(R), *Business Combinations* (SFAS 141(R)). SFAS 141(R) establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree and recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase. SFAS 141(R) also sets forth the disclosures required to be made in the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Our adoption of SFAS 141(R) on January 1, 2009 will impact all our acquisitions on or after that date.

In March 2008, the FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161) which amends and expands the disclosure requirements of SFAS 133 to provide an enhanced understanding of an entity's use of derivative instruments, how they are accounted for and their effect on the entity's financial position, financial performance and cash flows. We adopted the provisions of SFAS 161 as of January 1, 2009. Management is adhering to the enhanced disclosure requirements.

In April 2009, the FASB issued FSP No. FAS 141(4)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* (FSP 141(R)-1). FSP 141(R)-1 requires that assets acquired and liabilities assumed in a business combination that arise from contingencies be recognized at fair value if fair value can be reasonably estimated. FSP FAS 141(R)-1 is effective for business combinations with an acquisition date on or after June 1, 2009. Our adoption of FSP 141(R)-1 will impact our acquisitions after this date and did not have any impact on our financial condition, results of operations, or cash flows.

In April 2009, the FASB issued FSP No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That are Not Orderly*

(FSP 157-4). FSP 157-4 provides guidance on how to determine the fair value of assets and liabilities under SFAS No. 157 in the current economic environment and reemphasized that the objective of a fair value measurement remains an exit price. If we were to conclude that there

has been a significant decrease in the volume and level of activity of the asset or liability in relation to normal market activities, quoted market values may not be representative of fair value and we may conclude that a change in valuation technique or the use of the multiple valuation techniques may be appropriate. FSP 157-4 is effective for interim and annual periods ending after June 15, 2009. Our adoption of FSP 157-4 did not have a material impact on our financial condition, results of operations, or cash flows.

In April 2009, the FASB issued FSP No. 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP 107-1). FSP 107-1 amends SFAS No. 107, Disclosures about Fair Value of Financial Instruments, to require disclosures about fair value of financial instruments in interim as well as in annual financial statements. FSP No. 107-1 also amends APB Opinion 28, Interim Financial Reporting, to require those disclosures in all interim financial statements. FSB 107-1 is effective for all reporting periods ending after June 15, 2009. Adoption of FSP 107-1 provides additional disclosure included in Note 10.

In May 2009, the FASB issued SFAS No. 165, Subsequent Events (SFAS 165). SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued. SFAS 165 is effective for interim or annual financial periods ending after June 15, 2009. As of this date we have adopted SFAS 165 and have evaluated subsequent events through the date of this filing. We do not believe there are any material subsequent events which would require further disclosure.

In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles- a replacement of FASB Statement No. 162 (SFAS 168). On the effective date of this Statement, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification will become non-authoritative. SFAS 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. We do not expect this pronouncement to have a material impact on our financial condition, results of operations, or cash flows.

Results of Operations**2009 compared to 2008 For the three and six month periods ended June 30**

We manage our business in four operating segments North American Dispute and Investigative Services, North American Business Consulting Services, International Consulting Operations, and Economic Consulting Services. The Economic Consulting Services segment was added in 2008 in connection with our acquisition of Chicago Partners on May 1, 2008. These segments are generally defined by the nature of their services and geography. The business is managed and resources allocated on the basis of the four operating segments.

The following table summarizes for comparative purposes certain financial and statistical data for our four segments (Dollar amounts are thousands, except bill rate):

	For the three months ended			For the six months ended		
	June 30, 2009	June 30, 2008	% Increase (Decrease)	June 30, 2009	June 30, 2008	% Increase (Decrease)

Economic Consulting Services	36.9%	40.1%	36.5%	40.1%
Total segment operating profit	36.9%	41.6%	36.5%	40.8%

Earnings Summary. For the three and six months ended June 30, 2009, net income decreased 66 percent and 58 percent, respectively, compared to the corresponding periods in 2008, primarily as a result of lower revenue. Revenue was negatively impacted by several factors including the weakened economy, longer lead times for client spending decisions, and uncertainties surrounding the regulatory environment and potential stimulus spending. The decrease in revenue was partially offset by lower compensation expenses and lower general and administrative spending in 2009 compared to the corresponding periods in 2008. However, several factors resulted in higher expenses including higher than normal severance-related expense of \$4.3 million related to approximately 230 employee reductions that occurred in the first and second quarters of 2009 as we continued to align our staffing needs to the reduced demand for our services, higher office consolidation costs primarily due to the planned relocation of our New York office, and unfavorable changes in the foreign exchange rates relative to the US dollar, which negatively impacted our results, including a \$13.1 million negative impact on revenues before reimbursements for the six month period ended June 30, 2009.

Outlook. We expect our revenue to continue to be challenged by the weakened economy as clients continue to exercise caution in advancing large engagements and assess their own discretionary spending. However, we continue to undertake expense management efforts and cost saving initiatives begun during the first quarter of 2009. These initiatives include staffing reductions, holding base salaries constant, closely managing employee benefits and tighter control over discretionary spending. We also recently completed a strategic assessment of our overall portfolio of businesses and services which will prioritize our capital and resources on large and global opportunities and talent development particularly in the Dispute and Forensic Services, Healthcare and Energy markets.

Total Revenues before Reimbursements. Most revenues before reimbursements are earned from consultants' fee revenues that are primarily a function of billable hours, bill rates and consultant headcount. For the three and six months ended June 30, 2009, revenues before reimbursements decreased 16.9 percent and 13.1 percent, respectively, compared to the corresponding periods in 2008. The decrease in headcount reflects, in part, the decreased demand for our services and our corresponding staffing reductions in recent quarters.

North American Dispute and Investigative Services. Total revenues for this segment decreased 18.5 percent and 19.3 percent for the three and six months ended June 30, 2009, respectively, compared to the corresponding periods in 2008. The decrease was mainly a result of 6.0 percent and 4.7 percent decreased bill rates and 7.8 percent and 12.3 percent decreases in utilization for the three and six months ended June 30, 2009, respectively, over the corresponding periods in 2008. Uncertainty in the legal, economic and regulatory environments continues to impact demand, slow the assignment award process, and delay the beginning of sold engagements negatively impacting utilization and the resulting revenue. Additionally, the economic and demand environment have put pressure on bill rates which has had a corresponding impact on revenues.

North American Business Consulting Services. Total revenues for this segment decreased by 24.6 percent and 20.9 percent for the three and six months ended June 30, 2009, respectively, compared to the corresponding periods in 2008. The decrease was a result of decreased utilization of 6.3 percent and 7.3 percent and decreased bill rates of 6.6 percent and 1.8 percent during the three and six months ended June 30, 2009, respectively, compared to the

corresponding periods in 2008. Headcount also decreased 12.8 and 10.2 percent during the three and six months ended June 30, 2009, respectively, over the corresponding period in 2008 in response to the lower market demand. Additionally, lower use of independent contractors contributed to a 3 and 4 percent decrease in total revenues in the three and six months ended June 30, 2009, respectively, compared to the corresponding periods in 2008. This segment had a significant decrease in demand during 2009 in certain markets including the financial services market due to the recent market disruptions and the healthcare market due to cost pressure on providers resulting from the economic crisis. The segment continues to see a decrease in demand as clients lower their discretionary spending and are deferring decisions related to strategic initiatives.

International Consulting Operations. Total revenues for this segment decreased 22.9 percent and 21.0 percent for the three and six months ended June 30, 2009, respectively, compared to the corresponding periods in 2008. The results were negatively impacted in part by unfavorable currency fluctuations due to the weakening UK pound against the US dollar in the three and six months ended

June 30, 2009 compared to the corresponding periods in 2008, by \$4.9 million and \$11.1 million, respectively. Excluding the foreign exchange impact, total revenue was slightly down for the quarter and increased 5 percent for the six months ended June 30, 2009 when compared to the same periods in 2008. The year to date increase is primarily due the first quarter acquisition of assets of Morse PLC's Investment Management Consulting Business.

Economic Consulting Services. This segment commenced operations with our acquisition of Chicago Partners on May 1, 2008. The segment continues to see demand particularly related to antitrust, valuation and structured finance matters.

Cost of Services before Reimbursable Expenses. Cost of services before reimbursable expenses were \$102.0 million and \$212.2 million for the three and six months ended June 30, 2009, respectively, compared to \$113.9 million and \$226.9 million for the corresponding periods in 2008, which represented decreases in costs of services before reimbursable expenses of 10.4 percent and 6.5 percent, respectively. Cost of services before reimbursable expenses includes consultant incentive compensation. Incentive compensation is structured to reward consultants based on the achieved business performance under a compensation methodology approved by our management and the compensation committee of our board of directors. Consultant compensation expense was lower in the first and second quarters of 2009 compared to the first and second quarters of 2008, mainly due to lower incentive compensation expense as a result of lower operating performance and profits and wage savings as a result of recent reductions in headcount. This decrease was partially offset by expense amortization relating to long-term incentive and retention agreements entered into during the second and third quarters of 2008, our acquisition of Chicago Partners in May 2008, and severance charges incurred primarily during the first quarter of 2009 as we aligned our resources to the decreased demand. Excluding the impact of acquisitions on average full time equivalent headcount, the decrease in headcount for the three and six months ended June 30, 2009 compared to the corresponding periods in 2008 was 9 and 7 percent, respectively. Cost of services included severance expense of \$1.3 million and \$3.9 million for the three months and six months ended June 30, 2009, respectively, compared to \$1.2 million and \$1.4 million for the corresponding periods of 2008.

As a percentage of revenues before reimbursements, costs of services before reimbursable expenses was 65 percent for each of the three and six months ended June 30, 2009, compared to 60 percent and 61 percent for the three and six months ended June 30, 2008, respectively. The increase in such costs as a percentage of revenue before reimbursements reflects the reduced consultant utilization and severance expense associated with the recent headcount reduction actions. The severance costs resulted in a 1% increase in cost of services as a percentage of revenues before reimbursements for each of the three and six months ended June 30, 2009.

Segment Operating Profit Margin. For the three and six months ended June 30, 2009 compared to the corresponding periods in 2008, segment operating profit margin decreased approximately 4 percentage points for North American Dispute and Investigative Services. The decrease was primarily due to the decreased revenue and consultant utilization during 2009 compared to strong utilization periods in 2008. Operating profit margin for the North American Business Consulting Services segment decreased approximately 4.5 percentage points during each of the three and six months ended June 30, 2009 compared to the corresponding periods in 2008. The decrease was primarily due to the decreased revenue and consultant utilization. Both the North American Dispute and Investigative Services and North American Business Consulting Services segment operating profit margin were impacted by higher severance costs during the six months ended June 30, 2009 compared to the same period in 2008. The decrease in Economic Consulting Services segment operating margin during the three months ended June 30, 2009 was primarily associated with lower consultant utilization in 2009 compared to a very strong partial quarter in the prior year. International Consulting Operations segment operating profit decreased approximately 12 and 8 percentage points for the three and six months ended June 30, 2009, respectively, when compared to the corresponding periods in 2008. These decreases were the result of decreased revenue and consultant utilization and higher severance expense and costs associated with the integration of its first quarter acquisition of Morse PLC's Investment Management Consulting Business.

General and Administrative Expenses. General and administrative expenses include facility-related costs, salaries and benefits of corporate management and support personnel, allowances for doubtful accounts receivable, professional and administrative services costs and all other support costs.

Edgar Filing: NAVIGANT CONSULTING INC - Form 10-Q

General and administrative expenses decreased \$7.6 million and \$10.7 million, or 18.4 percent and 13.5 percent, for the three and six months ended June 30, 2009, respectively, when compared to the corresponding periods in 2008. The decrease in general and administrative expenses was the result of lower professional fees for legal matters and information technology costs, lower bad debt charges and lower administrative personnel costs due to cost saving initiatives and headcount reductions enacted during 2009. General and administrative expenses were 21 percent of revenues before reimbursements for each of the three and six months ended June 30, 2009, respectively, compared to 22 and 21 percent for each of the corresponding periods in 2008 as the expense reductions were relatively consistent with the decreased revenue levels experienced in 2009. While bad debt expense for the three and six months

ended June 30, 2009 was lower than the comparable periods during 2008, we continue to experience higher bad debt expense as a percentage of revenue before reimbursement compared to our recent historical levels.

Other Operating Costs. During the three and six months ended June 30, 2009, we recorded \$4.6 million and \$5.5 million, respectively, of office closure related costs, which consisted of adjustments to office closure obligations, the write down of leasehold improvements and accelerated depreciation on leasehold improvements in offices to be abandoned. During the second quarter of 2009, we vacated and relocated one of our New York offices, which resulted in a \$3.6 million charge, and we reduced office space in other locations.

We continue to monitor our estimates for office closure obligations and related expected sublease income which is estimated to begin for certain properties as early as January 2010. Such estimates are subject to market conditions and may be adjusted in the future periods as necessary. The office closure obligations have been discounted to net present value. In the next twelve months we expect our cash expenditures to be \$3.8 million relating to these obligations.

Amortization Expense. Amortization expense includes primarily the amortization of intangible assets such as customer lists and relationships, and non-compete agreements related to certain business acquisitions.

For the three and six months ended June 30, 2009, amortization expense was \$3.4 million and \$7.0 million, respectively, compared to \$4.6 million and \$8.8 million for the corresponding periods in 2008. The decrease in amortization of intangible assets was primarily due to the lapse of amortization for certain intangible assets as such assets useful lives came to term.

Interest Expense. Interest expense includes interest on borrowed amounts under our credit agreement, amortization of debt refinancing costs, and accretion of interest related to deferred purchase price obligations.

For the three and six months ended June 30, 2009, interest expense was \$4.0 million and \$7.9 million, respectively, compared to \$5.6 million and \$10.2 million for the corresponding periods in 2008. The decrease in interest expense for the periods in 2009 compared to 2008 was related to lower borrowing balances under our Credit Agreement combined with lower average borrowing rates in 2009. We had higher borrowings in 2008 to finance an acquisition in May 2008. Our average borrowing rate under our credit agreement (including the impact of our interest rate swap agreement see note 10 to the Unaudited Consolidated Financial Statements) was 5.3 percent and 5.5 percent for the three and six months ended June 30, 2009 compared to 6.9 percent and 6.6 percent for the corresponding periods in 2008.

Income tax expense. The effective income tax rate for the three and six months ended June 30, 2009 and 2008 was 43 percent. Our effective income tax rate is attributable to the mix of income earned in various tax jurisdictions, including state and foreign jurisdictions, which have different income tax rates.

Human Capital Resources

Our human capital resources include consulting professionals and administrative and management personnel. As a result of both recruiting activities and business acquisitions, we have a diverse pool of consultants and administrative support staff with various skills and experience. The following table shows the employee data for the periods presented:

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Number of FTE consultants as of June 30	1,778	1,928	1,778	1,928
Average number of FTE consultants	1,832	1,916	1,886	1,915
Average utilization of consultants, based on industry standard of 1,850 hours	73%	79%	74%	81%
Number of FTE administrative and management personnel as of June 30	535	571	535	571

The average number of FTE consultants is adjusted for part-time status and takes into consideration hiring and attrition which occur during the period. The decrease in FTE consultants for the three and six months ended June 30, 2009 compared to the corresponding periods in 2008 reflects headcount reductions.

In addition to our consultants and administrative personnel, we hire project employees on a short-term basis or seasonal basis. We believe the practice of hiring these employees provides greater flexibility in adjusting consulting

and administrative personnel levels in response to changes in demand for our professional services. The short-term or seasonal hires supplement services on certain engagements or provide additional administrative support to our consultants.

In connection with certain recruiting activities and business acquisitions, our policy is to obtain non-solicitation covenants from senior and mid-level consultants. Most of these covenants have restrictions that extend 12 months beyond termination. We utilize these contractual agreements and other agreements to reduce the risk of attrition and to safeguard our existing clients, staff and projects.

Liquidity and Capital Resources

Summary

We had \$5.1 million in cash and cash equivalents at June 30, 2009, compared to \$23.1 million at December 31, 2008. Our cash equivalents were primarily limited to money market accounts or A rated securities, with maturity dates of 90 days or less. As of June 30, 2009, we had total bank debt outstanding of \$239.7 million under our credit agreement, compared to \$232.5 million as of December 31, 2008.

We calculate accounts receivable days sales outstanding (DSO) by dividing the accounts receivable, net balance, net of deferred revenue credits, at the end of the quarter, by daily net revenues. Daily net revenues are calculated by taking quarterly net revenues divided by 90 days, approximately equal to the number of days in a quarter. Calculated as such, we had DSO of 91 days at June 30, 2009, compared to 73 days at December 31, 2008 and 85 days at June 30, 2008. The increase in DSO is attributable to slower client payments most likely associated with overall economic conditions.

Operating Activities

Net cash used in operating activities was \$7.2 million for the six months ended June 30, 2009, compared to net cash used in operating activities of \$0.6 million for the six months ended June 30, 2008. The increase in net cash used in operating activities resulted primarily from the lower net income and increased investments in working capital, primarily associated with an increased investment in accounts receivables as a result of the higher DSO.

Investing Activities

Net cash used in investing activities for the six months ended June 30, 2009 was \$17.2 million, compared to \$57.5 million for the six months ended June 30, 2008. During the six months ended June 30, 2008 we paid \$50.0 million for the cash portion of the purchase price for Chicago Partners payable at closing. During the same period in 2009, we spent \$1.9 million for the acquisition of a business. During the six months ended June 30, 2009, we spent \$12.4 million in capital infrastructure, primarily related to leasehold improvements of a new office located in New York and software license agreements. Purchases of property and equipment are expected to be \$16 to \$19 million for 2009.

Financing Activities

Net cash provided by financing activities for the six months ended June 30, 2009 was \$6.1 million, compared to \$56.7 million for the six months ended June 30, 2008. During the six months ended June 30, 2008, we had net borrowings of \$52.5 million primarily to finance the cash consideration for our acquisition of Chicago Partners.

Debt, Commitments and Capital

As of June 30, 2009, we maintained a bank borrowing credit agreement consisting of a \$275.0 million revolving line of credit with the option to increase to \$375.0 million and a \$225.0 million unsecured term loan facility. Borrowings under the revolving credit facility are payable in May 2012. Our credit agreement provides for borrowings in multiple currencies including US Dollars, Canadian Dollars, UK Pound Sterling and Euro. As of June 30, 2009, we had aggregate borrowings of \$239.7 million, compared to \$232.5 million as of December 31, 2008. Based on our financial covenant restrictions under our line of credit agreement as of and at June 30, 2009, a maximum of approximately \$100 million would be available in additional borrowings on our line of credit.

At our option borrowings under the revolving credit facility and the term loan facility bear interest, in general, based on a variable rate equal to an applicable base rate or LIBOR, in each case plus an applicable margin. For LIBOR loans, the applicable margin will vary depending upon our consolidated leverage ratio (the ratio of total funded debt to adjusted EBITDA) and whether the loan is made under the term loan facility or revolving credit facility. As of June 30, 2008, the applicable margins on LIBOR loans under the term loan facility and revolving credit facility were 1.25% and 1.0%, respectively. As of June 30, 2009, the applicable margins for base rate loans under the term loan facility and revolving credit facility were 0.25% and zero, respectively. For LIBOR loans, the applicable margin will vary between 0.50% to 1.75% depending upon our performance and financial condition. Our average

borrowing rate under our credit agreement (including the impact of our interest rate swap agreement see note 10 to the Unaudited Consolidated Financial Statements was 5.3% and 5.5% for the three and six months ended June 30, 2009 compared to 6.9% and 6.6% for the corresponding periods in 2008.

Our credit agreement also includes certain financial covenants, including covenants that require that we maintain a consolidated leverage ratio of not greater than 3.25:1 and a consolidated fixed charge coverage ratio (the ratio of the sum of adjusted EBITDA and rental expense to the sum of cash interest expense and rental expense) of not less than 2.0:1. At June 30, 2009, under the definitions in the credit agreement, our consolidated leverage ratio was 2.3 and our consolidated fixed charge coverage ratio was 3.5. In addition to the financial covenants, the credit agreement contains customary affirmative and negative covenants and is subject to customary exceptions. These covenants limit our ability to incur liens or other encumbrances or make investments, incur indebtedness, enter into mergers, consolidations and asset sales, pay dividends or other distributions, change the nature of our business and engage in transactions with affiliates. We were in compliance with the terms of our credit agreement as of June 30, 2009 and December 31, 2008; however there can be no assurances that we will remain in compliance in the future.

As of June 30, 2009, we had total commitments of \$375.9 million, which included \$12.6 million in deferred business acquisition obligations, payable in cash and common stock, software license agreements of \$2.0 million, notes payable of \$4.2 million, and \$117.5 million in lease commitments. As of June 30, 2009, we had no significant commitments for capital expenditures.

The following table shows the components of significant commitments as of June 30, 2009 and the scheduled years of payments (shown in thousands):

Contractual Obligations	Total	From July 1, 2009 to December 31,				Thereafter
		2009	2010 to 2011	2012 to 2013		
Deferred purchase price obligations	\$ 12,588	\$ 978	\$ 11,610	\$	\$	
Software license agreements	1,968	480	1,488			
Notes payable	4,170	4,170				
Line of credit	19,217			19,217		
Term loan	220,500	1,125	34,875	184,500		
Lease commitments	117,476	14,306	48,037	29,400	25,733	
Total	\$ 375,919	\$ 21,059	\$ 96,010	\$ 233,117	\$ 25,733	

Subsequent to the original acquisition date, we may pay up to \$27.0 million of additional purchase consideration based on the Chicago Partners' business achieving certain post-closing performance targets during the periods from closing to December 31, 2008 and calendar years 2009, 2010 and 2011. If earned, the additional purchase consideration would be payable 75 percent in cash and 25 percent in our common stock. The additional purchase price payments, if any, will be payable in April of the year following the year such performance targets are attained. During the three months ended March 31, 2009, we made an additional purchase price payment of \$2.3 million based on 2008 performance.

Of the \$117.5 million of lease commitments as of June 30, 2009, \$25.1 million of such lease commitments related to offices we have abandoned or reduced excess space within, which are available for sublease. Such sublease income, if any, would offset the cash outlays.

We do not expect to significantly increase or reduce our reserve for uncertain tax positions during the next twelve months.

We believe that our current cash and cash equivalents, the future cash flows from operations and borrowings under our credit agreement will provide adequate cash to fund anticipated short-term and long-term cash needs from normal operations. In the event we make significant cash expenditures in the future for major acquisitions or other non-operating activities, we might need additional debt or equity financing, as appropriate. Additionally, our credit

agreement is with a syndicate of several banks. These banks could be negatively impacted by the recent disruptions in the financial markets.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have a material current or future impact on our financial condition or results of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our primary exposure to market risks relates to changes in interest rates and foreign currencies. The interest rate risk is associated with our borrowings under the line of credit, and our investment portfolio, classified as cash equivalents. Our general investment policy is to limit the risk of principal loss by limiting market and credit risks. The foreign currency risk is associated with our operations in foreign countries.

As of June 30, 2009, our investments were primarily limited to A rated securities, with maturity dates of 90 days or less. These financial instruments are subject to interest rate risk and will decline in value if interest rates rise. Because of the short periods to

maturity of these instruments, an increase in interest rates would not have a material effect on our financial position or results of operations.

On July 2, 2007, we entered into an interest rate swap agreement with a bank for a notional value of \$165.0 million through June 30, 2010. This agreement effectively fixed our LIBOR base rate for \$165.0 million of our indebtedness at a rate of 5.30% during this period. We designated the swap as a cash flow hedge to manage market risk from changes in interest rates on a portion of our variable rate term loans. We recognize cash flow hedges as assets or liabilities at fair value, with the related gain or loss reflected within stockholders' equity as a component of accumulated other comprehensive income to the extent of effectiveness. Any ineffectiveness on the swap would be recognized in the consolidated statements of income. The differentials to be received or paid under the instrument are recognized in income over the life of the contract as adjustments to interest expense. The use of an interest rate swap exposes us to counterparty credit risk in the event of non performance by counterparties. As of June 30, 2009, we were not exposed to significant counterparty risk. During the three and six months ended June 30, 2009 there was no gain or loss due to ineffectiveness and we recorded a \$1.7 million and \$3.3 million in interest expense respectively associated with differentials paid under the instrument. As of June 30, 2009, we had a \$7.3 million liability recorded in other current liabilities related to this interest rate derivative and we recorded a \$1.1 million unrealized gain, net of taxes of \$1.2 million, to accumulated other comprehensive income for the six months ended June 30, 2009.

Other than our previously disclosed contractual obligations of \$375.9 million and the \$165.0 million interest rate swap agreement, we did not have, at June 30, 2009, any other short-term debt, long-term debt, interest rate derivatives, forward exchange agreements, firmly committed foreign currency sales transactions, or derivative commodity instruments.

Our market risk associated with the credit agreement relates to changes in interest rates. As of June 30, 2009, borrowings under the credit agreement bear interest, in general, based on a variable rate equal to an applicable base rate (equal to the higher of a reference prime rate or one half of one percent above the federal funds rate) or LIBOR, in each case plus an applicable margin. Based on borrowings under the credit agreement at June 30, 2009, each quarter point change in market interest rates would result in approximately a \$0.6 million change in annual interest expense, after considering the impact of our interest rate swap agreement.

We operate in foreign countries, which expose us to market risk associated with foreign currency exchange rate fluctuations. At June 30, 2009, we had net assets of approximately \$128.3 million with a functional currency of the UK Pounds Sterling and \$36.0 million with a functional currency of the Canadian Dollar related to our operations in the United Kingdom and Canada, respectively. At June 30, 2009, we had net assets denominated in the non functional currency of approximately \$0.9 million. As such, a ten percent change in the value of the local currency would result in a \$0.1 million currency transaction gain or loss in our results of operations.

Item 4. Controls and Procedures

Under the supervision of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design of our disclosure controls and procedures as of June 30, 2009. Based on that evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

We maintain disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)) that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time frames specified in SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Any system of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

During the six months ended June 30, 2009, there have not been any changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting as defined in Exchange Act Rule 13a-15(f).

PART II OTHER INFORMATION**Item 1. Legal Proceedings**

From time to time we are party to various other lawsuits and claims in the ordinary course of business. While the outcome of those lawsuits or claims cannot be predicted with certainty, we do not believe that any of those lawsuits or claims will have a material adverse effect on us.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended June 30, 2009, we issued the following unregistered securities:

Date	Type of Securities	Number of Shares in Consideration (a)	Exemption Claimed (b)	Purchaser or Recipient	Assets Purchased (c)
April 28, 2009	Common Stock	440,849	Section 4(2)	Chicago Partners, LLC	(c)
May 15, 2009	Common Stock	101,539	Section 4(2)	Casas, Benjamin & White, LLC	(c)

(a) Does not take into account additional cash or other consideration paid or payable as a part of the transactions.

(b) The shares of common stock were issued to accredited investors without registration in private placements in reliance on the exemption from registration under Section 4(2) of the Securities Act.

(c) Shares represent deferred payment consideration of the purchase agreement to

purchase
substantially all
of the assets of
the recipient.

Item 4. Submission of Matters to a Vote of Security Holders

Our 2009 Annual Meeting of Shareholders was held on May 6, 2009.

Two nominees, Mr. Thomas A. Gildehaus and Mr. Peter B. Pond were elected as Directors to the board of directors for a term expiring at the Annual Meeting of Stockholders in 2012. The vote for Mr. Gildehaus was 40,031,631 shares for and 4,613,204 shares to withhold authority. The vote for Mr. Pond was 39,115,065 shares for and 5,529,770 shares to withhold authority. Messrs. Goodyear, Thompson, James, and Skinner's terms as Director continued.

KPMG LLP was ratified as our independent accountants for the year 2009. The vote for such ratification was 43,308,565 shares for, 1,298,293 shares to withhold authority and 37,977 shares abstained.

Item 6. Exhibits

The following exhibits are filed with the Form 10-Q:

- | | |
|--------------|---|
| Exhibit 31.1 | Rule 13a-14(a) Certification of the Chairman and Chief Executive Officer. |
| Exhibit 31.2 | Rule 13a-14(a) Certification of the Executive Vice President and Chief Financial Officer. |
| Exhibit 32.1 | Section 1350 Certification |

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
