Supplementing the Preliminary Prospectus
Supplement dated February 1, 2011
(To Prospectus dated February 23, 2009)

TERM SHEET

\$1,600,000,000

Johnson Controls, Inc.

\$350,000,000 Floating Rate Notes due 2014

\$450,000,000 1.75% Senior Notes due 2014

\$500,000,000 4.25% Senior Notes due 2021

\$300,000,000 5.70% Senior Notes due 2041

Floating Rate Notes due 2014

Issuer: Johnson Controls, Inc.

Title: Floating Rate Notes due 2014

Aggregate Principal Amount Offered: \$350,000,000 aggregate principal amount

Maturity: February 4, 2014

Yield to Maturity: Three-Month LIBOR + 41bps

Reference Benchmark: Three-Month LIBOR

Spread to Benchmark: 41bps

Interest Payment Dates: Quarterly on February 4, May 4, August 4 and November 4, beginning on May 4, 2011, and at maturity, provided that if any interest payment date would otherwise be a day that is not a business day, the interest payment date will be postponed to the immediately succeeding day that is a business day, except that if that business day is in the immediately succeeding calendar month, the interest payment date shall be the immediately preceding business day

Price to Public: 100.000%

Interest Reset Dates: Quarterly February 4, May 4, August 4 and November 4, beginning on May 4, 2011; provided that if any interest reset date would otherwise be a day that is not a business day, the interest reset date will be postponed to the immediately succeeding day that is a business day, except that if that business day is in the immediately succeeding calendar month, the interest reset date shall be the immediately preceding business day

Initial Interest Rate:

Three-month LIBOR, determined as of two London business days prior to the settlement date, plus 0.41% per annum

Interest Reset Periods: The initial interest reset period will be the period from and including the settlement date to but excluding the first interest reset date. Thereafter, each interest reset period will be the period from and including an interest reset date to but excluding the immediately succeeding interest reset date; *provided* that the final interest reset period for the notes will be the period from and including the interest reset date immediately preceding the maturity date of such notes to but excluding the maturity date

Interest Determination Date: The interest rate applicable to each interest reset period commencing on the related interest reset date, or the settlement date in the case of the initial interest period, will be the rate determined as of the applicable interest determination date. The interest determination date will be the second London business day immediately preceding the settlement date, in the case of the initial interest reset period, or thereafter the applicable interest reset date.

Three-month LIBOR will be determined by the calculation agent as of the applicable interest determination date in accordance with the following provisions:

(i) LIBOR is the rate for deposits in U.S. dollars for the 3-month period which appears on Bloomberg Page BBAM1 (as defined below) at approximately 11:00 a.m., London time, on the applicable interest determination date. Bloomberg Page BBAM1 means the display designated on page BBAM1 on the Bloomberg Service (or such other page as may replace the BBAM1 page on that service, any successor service or such other service or services as may be nominated by the British Bankers Association for the purpose of displaying London interbank offered rates for U.S. dollar deposits). If no rate appears on Bloomberg Page BBAM1, LIBOR for such interest determination date will be determined in accordance with the provisions of paragraph (ii) below.

(ii) With respect to an interest determination date on which no rate appears on Bloomberg Page BBAM1 as of approximately 11:00 a.m., London time, on such interest determination date, the calculation agent shall request the principal London offices of each of four major reference banks (which may include affiliates of the underwriters) in the London interbank market selected by the calculation agent (after consultation with the company) to provide the calculation agent with a quotation of the rate at which deposits of U.S. dollars having a three-month maturity, commencing on the second London business day immediately following such interest determination date, are offered by it to prime banks in the London interbank market as of approximately 11:00 a.m., London time, on such interest determination date in a principal amount equal to an amount of not less than U.S. \$1,000,000 that is representative for a single transaction in such market at such time. If at least two such quotations are provided, LIBOR for such interest determination date will be the arithmetic mean of such quotations as calculated by the calculation agent. If fewer than two quotations are provided, LIBOR for such interest determination date will be the arithmetic mean of the rates quoted as of approximately 11:00 a.m., New York City time, on such interest determination date by three major banks (which may include affiliates of the underwriters) selected by the calculation agent (after consultation with the

company)

for loans in U.S. dollars to leading European banks having a three-month maturity commencing on the second London business day immediately following such interest determination date and in a principal amount equal to an amount of not less than U.S. \$1,000,000 that is representative for a single transaction in such market at such time; *provided, however*, that if the banks selected as aforesaid by the calculation agent are not quoting such rates as mentioned in this sentence, LIBOR for such interest determination date will be LIBOR determined with respect to the immediately preceding interest determination date

Business Day: With respect to the notes, a business day means (i) any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in The City of New York and (ii) and that is also a London business day, which is a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market

Calculation Agent: U.S. Bank National Association

Day Count Convention: Actual/360
