CORPORATE GOVERNANCE

Set forth below in question and answer format is a discussion about our corporate governance policies and practices, some of which have been modified since last year's annual meeting, and other matters relating to our Board and its committees.

General

Have you adopted corporate governance guidelines?

Yes, our Board has formally adopted corporate governance guidelines that address such matters as director qualification standards, director responsibilities, board committees, director access to management and independent advisors, director compensation, director orientation and continuing education, evaluation of our chief executive officer, management succession and performance evaluations of our Board.

Have you adopted a code of ethics and conduct?

Yes, our Board has formally adopted a corporate code of business conduct and ethics applicable to our directors, officers and employees. Our corporate code includes a financial code of ethics applicable to our chief executive officer, chief financial officer and controller or chief accounting officer.

How can I view or obtain copies of your corporate governance materials?

The guidelines and codes mentioned above as well as the charters for each significant standing committee of our Board are available on our website for viewing and printing. Go to <http://www.newfield.com> and then to the Corporate Governance Overview tab. We also will provide stockholders with a free copy of these materials upon request. Board of Directors

How many independent directors do you have? How do you determine whether a director is independent?

Our Board has affirmatively determined that 11 of the 12 nominees for director are independent as that term is defined by NYSE rules. In making this determination, our Board considered transactions and relationships between each director nominee or his or her immediate family and our company and its subsidiaries, including those reported below under Compensation Committee Interlocks and Insider Participation and Interests of Management and Others in Certain Transactions. The purpose of this review was to determine whether any such

Table of Contents

relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. As a result of this review, our Board affirmatively determined, based on its understanding of such transactions and relationships, that all of the directors nominated for election at the annual meeting are independent of our company under the standards set forth by the NYSE, with the exception of David A. Trice, who is a management employee of our company. There is no family relationship between any of the nominees for director or between any nominee and any executive officer of our company.

How many times did your Board meet last year?

Our Board met in person or by conference telephone seven times during 2007.

Did any of your directors attend fewer than 75% of the meetings of your Board and his or her assigned committees during 2007?

No.

Do you have a policy regarding director attendance at annual meetings of stockholders?

Our directors are strongly encouraged to attend annual meetings, but we do not have a formal policy regarding attendance. All of our directors attended the 2007 annual meeting.

Do your non-management directors and independent directors meet in executive session?

Yes, our non-management directors and independent directors meet separately on a regular basis usually at each regularly scheduled meeting of our Board. All of our non-management directors are independent. Our corporate governance guidelines provide that our independent directors will meet in executive session at least annually and more frequently as needed at the call of one or more of our independent directors. Our corporate governance guidelines also provide that executive sessions will be presided over by our Lead Director. C. E. (Chuck) Shultz has served as our Lead Director since July 2005.

How can interested parties communicate directly with your non-management directors?

We have established a toll-free Ethics Line so that investors, employees and other interested parties can anonymously report through a third party any practices thought to be in violation of our corporate governance policies. The Ethics Line also can be used to make concerns known to our non-management directors on a direct and confidential basis. The telephone number for the Ethics Line is 1-866-843-8694. Additional information is available on our website at <http://www.newfield.com> under the tab Corporate Governance Overview.

How are your directors compensated?

See Executive Compensation Non-Employee Director Compensation beginning on page 25 for information about our director compensation.

Committees

Does your Board have any standing committees?

Yes, our Board presently has the following significant standing committees:

Audit Committee;

Compensation & Management Development Committee; and

Nominating & Corporate Governance Committee.

Each of these committees is composed entirely of independent directors.

Table of Contents

Has your Board adopted charters for each of these committees? If so, how can I view or obtain copies of them?

Yes, our Board has adopted a charter for each of these committees. The charters are available on our website for viewing and printing. Go to <http://www.newfield.com> and then to the Corporate Governance Overview tab. We also will provide stockholders with a free copy of the charters upon request. See *How can I view or obtain copies of your corporate governance materials?* on page 6 for information about requesting copies from us.

Audit Committee

What does the Audit Committee do?

The primary purposes of the committee are:

appointing, retaining and terminating our independent accountants;

monitoring the integrity of our financial statements and reporting processes and systems of internal control;

evaluating the qualifications and independence of our independent accountants;

evaluating the performance of our internal audit function and independent accountants; and

monitoring our compliance with legal and regulatory requirements.

The Audit Committee also prepares a report each year in conformity with SEC rules for inclusion in the proxy statement for our annual meeting.

Who are the members of the committee?

The committee currently consists of Pamela J. Gardner, John Randolph Kemp III, Thomas G. Ricks, Juanita F. Romans and J. Terry Strange, with Mr. Ricks serving as chairman. We do not anticipate any significant change in the composition of the committee prior to our 2009 annual meeting of stockholders. Mr. Strange also serves on the audit committees of BearingPoint, Inc., Group 1 Automotive, Inc. and New Jersey Resources Corporation. Our Board has determined that such simultaneous service on these other audit committees and on our Audit Committee will not impair the ability of Mr. Strange to serve effectively on our Audit Committee.

Does the committee have an audit committee financial expert?

Yes, our Board has determined that each of Messrs. Ricks and Strange meets the qualifications of an audit committee financial expert as defined by SEC rules. Our Board has determined that each of Messrs. Ricks and Strange are independent of our company under NYSE standards.

How many times did the committee meet last year?

The committee held six meetings in person or by telephone conference during 2007.

Compensation & Management Development Committee

What does the Compensation & Management Development Committee do?

The primary purposes of the committee are:

reviewing, evaluating and approving the compensation of our executive officers and other key employees;

producing a report on executive compensation each year for inclusion in the proxy statement for our annual meeting;

overseeing the evaluation and development of the management of our company; and

Table of Contents

overseeing succession planning for our chief executive and other senior executive officers. The committee has the sole authority to oversee the administration of compensation programs applicable to all of our employees, including executive officers. The committee may delegate some or all of its authority to subcommittees when it deems appropriate.

Who are the members of the committee?

The committee currently consists of Philip J. Burguières, Dennis R. Hendrix, John Randolph Kemp III, J. Michael Lacey, Joseph H. Netherland and C. E. (Chuck) Shultz, with Mr. Shultz serving as chairman. We do not anticipate any significant change in the composition of the committee prior to our 2009 annual meeting of stockholders.

How many times did the committee meet last year?

The committee held four meetings in person or by telephone conference during 2007.

What are the committee's processes and procedures for consideration and determination of executive compensation?

Executive compensation is reviewed at least annually by the committee. With limited exceptions, the committee makes all decisions regarding the compensation of our executive officers in February of each year. These decisions include adjustments to base salary, grants of current and long-term cash awards under our incentive compensation plan and grants of long-term equity awards. The committee may delegate some or all of its authority to subcommittees when it deems appropriate. See Executive Compensation Compensation Discussion and Analysis Compensation Process beginning on page 12 for more information.

Nominating & Corporate Governance Committee

What does the Nominating & Corporate Governance Committee do?

The primary purposes of the committee are:

advising our Board about the appropriate composition of the Board and its committees;

evaluating potential or suggested director nominees and identifying individuals qualified to be directors;

nominating directors for election at our annual meetings of stockholders or for appointment to fill vacancies;

recommending to our Board the directors to serve as members of each committee of our Board;

recommending to committees the individual members to serve as chairpersons of the committees;

approving the compensation structure for all non-employee directors;

advising our Board about corporate governance practices, developing and recommending appropriate corporate governance practices and policies and assisting in implementing those practices and policies;

overseeing the evaluation of our Board and its committees through an annual performance review; and

overseeing the new director orientation program and the continuing education program for all directors.

Who are the members of the committee?

The committee currently consists of Philip J. Burguières, Pamela J. Gardner, Juanita F. Romans, Dennis R. Hendrix, Joseph H. Netherland, Howard H. Newman, Thomas G. Ricks and J. Terry Strange, with Mr. Hendrix

Table of Contents

serving as chairman. We do not anticipate any significant change in the composition of the committee prior to our 2009 annual meeting of stockholders.

How many times did the committee meet last year?

The committee held two meetings in person or by telephone conference during 2007.

What guidelines does the committee follow when considering a director nominee for a position on your Board?

The committee is responsible for identifying individuals qualified to become directors and for evaluating potential or suggested director nominees. Although the committee has not established written criteria or a set of specific minimum qualifications, our corporate governance guidelines provide that any assessment of a potential director nominee will include the individual's qualification as independent, as well as consideration of his or her background, ability, judgment, skills and experience in the context of the needs of our Board. The committee is likely to consider whether a prospective nominee has relevant business or financial experience or a specialized expertise.

Does the committee consider candidates for your Board submitted by stockholders and, if so, what are the procedures for submitting such recommendations?

Yes, the committee considers suggestions from many sources, including stockholders, regarding possible candidates for director. Any such suggestions, together with appropriate biographical information, should be submitted to the Chairman of the Nominating & Corporate Governance Committee, c/o Terry W. Rathert, Secretary, Newfield Exploration Company, 363 N. Sam Houston Pkwy. E., Suite 2020, Houston, Texas 77060.

What are the committee's processes and procedures for consideration and determination of director compensation?

The committee has the sole authority to approve the compensation structure for all of our non-employee directors. The committee may delegate some or all of its authority to subcommittees when it deems appropriate.

Director compensation is reviewed at least annually by the committee. The committee seeks to set director compensation at an adequate level to compensate directors for their time and effort expended in satisfying their obligations to us without jeopardizing their independence.

The increase in director compensation following our 2007 annual meeting of stockholders was intended to place our director compensation at or near the 50th percentile of a selected group of peer companies. To assist it in its evaluation, the committee obtained industry data from Hewitt Associates LLC, a consulting firm. The selected group included Apache Corporation, Cabot Oil & Gas Corporation, Forest Oil Corporation, Murphy Oil Corporation, Nexen Inc., Noble Energy, Inc., Pioneer Natural Resources Company and Pogo Producing Company.

In February 2008, the committee determined that no changes to director compensation were necessary at that time.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our Compensation & Management Development Committee oversees the administration of compensation programs applicable to all of our employees. With limited exceptions, the committee makes all decisions regarding the compensation of our executive officers in February of each year. These decisions include adjustments to base salary, grants of current and long-term cash awards under our incentive compensation plan (which is described on page 13) and grants of long-term equity awards. Exceptions include promotions and compensation adjustments made for competitive purposes. Because this analysis addresses 2007 compensation, it discusses some of the compensation determinations made in February 2007 (increases in base salary and grants of shares of restricted stock and restricted stock units) and some of the determinations made in February 2008 (grants of awards under our incentive compensation plan relating to 2007).

Compensation Objectives. Our compensation program is designed to attract and retain key employees and encourage growth in long-term stockholder value. The oil and gas industry has experienced robust conditions for the past several years, resulting in fierce competition for talented geoscientists and petroleum engineers. We believe that it is imperative that we maintain highly competitive compensation programs to attract and retain quality personnel.

The cornerstone of our compensation program at all levels is pay for performance. We measure performance at individual and corporate levels. To achieve our objectives, we have structured our compensation program for executive officers to include a base salary, current and long-term cash awards under our performance-based incentive compensation plan and grants of long-term equity awards. Historically, we have set base salaries for our executive officers below the median for comparable positions at a selected group of peer companies in our industry. This places a large percentage of our executive officers' compensation at risk.

Our incentive compensation plan rewards profitability. We do not grant significant awards under our incentive compensation plan to our executive officers during years of lower profitability. Our incentive compensation plan is also designed to reward individual performance. Individual awards are granted based upon an executive's impact during the year and his or her overall value to our company. In determining overall value, we take into account long-term performance, leadership, mentoring skills and other intangible qualities that contribute to corporate and individual success.

Awards under our incentive compensation plan generally exceed industry average bonuses. We use current awards under the plan to keep current cash compensation for our executive officers competitive with industry peers and to balance the total cash portion of our compensation package when justified by performance. We use long-term cash awards under the plan and grants of long-term equity awards as retention incentives for employees and as an attempt to remain competitive with awards granted to persons in comparable positions for comparable performance in our industry. Usually, a significant portion of the awards granted to our executive officers under our incentive compensation plan are long-term cash awards that are paid out in four equal annual installments. With a few exceptions, executives are entitled to long-term awards only if they remain employed by us through the date of payment of the awards. We use these long-term awards along with grants of long-term equity awards as incentives to retain our executives and to align their interests with the interests of our stockholders.

We take into account the following items of corporate performance in making compensation decisions for our executive officers:

our financial and operational performance for the year measured against our budget, after taking into account industry conditions, and against our peers;

total return to our stockholders as compared to our peers;

capital efficient growth of oil and natural gas reserves and production as measured against annual goals and objectives;

Table of Contents

projected future growth through the development of existing projects, the creation and capture of new oil and gas plays and the potential for new transactions;

leadership and representation of our company; and

contribution to the overall success of our company.

Compensation Process. The committee has the sole authority to oversee the administration of compensation programs applicable to all of our employees, including executive officers. The managers of our operating and service units (most of whom are executive officers) are primarily responsible for evaluating and making recommendations regarding annual incentive compensation and equity awards with respect to those employees assigned to his or her unit. These recommendations are reviewed by an executive team consisting of our chief executive officer and several other senior executive officers. After preparing his own evaluation of each unit manager and the other executive officers, our chief executive officer makes recommendations to the committee. The committee has retained Hewitt Associates LLC, a consulting firm, to assist it in compensation matters.

Role of Consultant. Hewitt assists the committee and our chief executive officer in developing a competitive total compensation program that is consistent with our philosophy of pay for performance and that will allow us to attract and retain top executives. Hewitt's services include providing an annual comprehensive evaluation of the compensation of our top executive officers and their counterparts at a group of peer companies. The evaluation consists of a comparison of each element of compensation and a comparison of total compensation.

Chief Executive Officer. Our chief executive officer provides the committee with an evaluation of his performance that is based upon the items listed above and his achievement of goals provided to the committee early each year. The committee evaluates our chief executive officer on these and other criteria. The total compensation package for our chief executive officer is determined based on this evaluation and input from Hewitt. This package reflects his performance, the performance of our company and competitive industry practices.

Other Executive Officers. Our chief executive officer makes recommendations to the committee on all compensation actions (other than his own compensation) affecting our executive officers. In developing his recommendation for an executive officer, our chief executive officer considers the self-evaluation prepared by the executive officer, the recommendations of our executive team to the extent applicable, input from Hewitt and his own evaluation. Our chief executive officer's evaluation includes an assessment of the impact that the executive officer has had on our company during the award year and the executive officer's overall value to the company as a senior leader. The assessment covers leadership and management capability, potential for future advancement and contributions to the long-term success of our company.

The committee is provided with a summary of the self-evaluations of the executive officers and a summary of our chief executive officer's evaluation along with the summaries for the past two or three years, which are used to assess long-term performance. Hewitt reviews and provides comments to the committee on our chief executive officer's recommendations. The committee considers the information and recommendations provided by our chief executive officer and Hewitt when it establishes base salaries, current and long-term cash awards under our incentive compensation plan and grants of long-term equity awards.

For purposes of the February 2007 compensation review process at which base salaries and grants of long term equity awards were considered, the peer companies included in Hewitt's evaluation were Apache Corporation, Cabot Oil & Gas Corporation, Chesapeake Energy Corporation, EOG Resources, Inc., Forest Oil Corporation, Murphy Oil Corporation, Nexen Inc., Noble Energy, Inc., Pioneer Natural Resources Company, Plains Exploration & Production Company and Pogo Producing Company.

In November 2007, Hewitt provided its evaluation to the committee for use in the February 2008 compensation review process at which current and long-term cash awards under our incentive compensation plan for the 2007 plan year would be determined. The peer group for this evaluation was identical except that Pogo was dropped from the group because it was acquired by Plains Exploration & Production in November 2007. During the February 2008 review process, in light of consolidation in the industry and to provide an expanded perspective on the labor market for executive talent in our industry, the committee also considered supplemental market data based on a second group of peer companies, which included all 10 in the November 2007 evaluation, our company and an additional

16 companies. Those 16 companies are Anadarko Petroleum Corporation, BHP Billiton Ltd., BP plc, Chevron Corp., ConocoPhillips, Devon Energy Corporation, Dominion Resources Inc., El Paso Corp., EnCana Corp., Hess Corporation, Hunt Petroleum Corp., Marathon Oil Corp., Occidental Petroleum Corp., Samson Oil & Gas Limited, Southwestern Energy Company, Total SA, Williams Companies Inc. and XTO Energy Inc. The committee's review of market data confirmed that prevailing total compensation among the named executive officers, other than Mr. Trice, generally fell between the 50th and 75th percentiles among peers and Mr. Trice's prevailing total compensation approximated the 25th percentile among peers.

Elements of Compensation. Our compensation program for executive officers includes a base salary, current and long-term cash awards under our incentive compensation plan and grants of long-term equity awards. We also encourage our executive officers to save for retirement by matching (subject to the limits described below) each executive's contribution to our 401(k) plan and deferred compensation plan for highly compensated employees. We do not, however, offer defined pension benefits or significant perquisites to our executive officers.

Base Salary. Base salaries for executive officers are generally set below the median for comparable positions within our industry. As a result, a large portion of each executive officer's compensation is dependent upon corporate and individual performance.

Current and Long-Term Cash Awards Under Our Incentive Compensation Plan. Our incentive compensation plan provides for the creation each calendar year of an award pool that is generally equal to 5% of our adjusted net income (as defined in the plan) plus the revenues attributable to designated overriding royalty or similar interests bearing on the interests of certain third party participants plus forfeitures of prior period awards. In general, 85% of the annual award pool must be awarded to participants each year and any amount remaining in the pool is carried forward to the next year. All awards are paid in cash. Historically, the vast majority of awards have consisted of both a current and a long-term portion. Long-term cash awards are paid in four annual installments, each installment consisting of 25% of the long-term award plus interest. Usually, a significant portion of the grants under the plan are in the form of long-term awards (36% in the aggregate and 47% for executive officers for the 2007 plan year and 38% in the aggregate and 48% for executive officers for the 2006 plan year). Generally, employees are entitled to an installment of a long-term award only if they remain employed by us through the date of payment of the installment. Employees that have been continuously employed by us since December 31, 1992, which includes Messrs. Rathert and Schneider, are entitled to regular installments of their long-term awards regardless of their employment status with us unless they are terminated for cause (as defined in the plan).

In addition to rewarding executive officers for our company's profitability, we grant awards under our incentive compensation plan to reward individual performance that contributed to the performance of our company. Annual current awards are set to bring total cash compensation to a competitive level for comparable positions within our industry if justified by performance. Long-term cash awards are long-term incentives designed to smooth out compensation in high and low net income years and as a retention incentive.

Long-Term Equity Awards Under Our Omnibus Stock Plans. We provide equity-based compensation and incentives to our executive officers through the award of restricted shares with performance-based vesting. We also may provide equity-based compensation and incentives to our executive officers through the award of time vested shares of restricted stock, restricted stock units or stock options. Long-term equity awards are granted to executive officers as a reward for performance and to align their interests with the long-term growth and profitability of our company. The amount of each award is based upon individual performance and industry trends. Amounts realizable from prior equity-based awards also are considered in setting the amount of each award.

Savings/Deferred Compensation Plans. Our 401(k) plan and deferred compensation plan for highly compensated employees allow an eligible executive to defer up to 90% of his or her salary and all of his or her bonus on an annual basis. We make a matching contribution for up to 8% of the executive's base salary.

Perquisites. We do not provide any significant perquisites to our executive officers.

Stock Ownership. We do not have stock ownership requirements or guidelines for our executive officers. However, all of our executive officers receive a significant amount of their total compensation in the form of grants of long-term equity awards. Our employees and directors generally are prohibited from trading in any derivatives related to our stock.

Table of Contents

Financial Restatements. Our Board has not adopted a formal policy regarding the effects of a financial restatement on prior awards. Our incentive compensation plan, however, provides for adjustments to future award pools for financial restatements.

Tax Deductibility Considerations. Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to a public company for compensation paid to its chief executive officer or any of its four other most highly compensated executive officers to the extent that the compensation of any of these officers exceeds \$1 million in any calendar year. Qualifying performance-based compensation is not subject to the deduction limit.

The committee's primary goal is to design compensation strategies that further the best interests of our company and our stockholders. To the extent not inconsistent with that goal, we attempt where practical to use compensation policies and programs that preserve the deductibility of compensation expense. The performance-based restricted stock awards granted in 2006 and 2007 under our omnibus stock plans are designed to qualify as performance-based compensation for purposes of Section 162(m). However, the shares of restricted stock awarded in 2003, the time vested shares of restricted stock and restricted stock units awarded in 2007 and all awards under our incentive compensation plan do not qualify as performance-based compensation for purposes of Section 162(m).

2007 Executive Compensation. Hewitt's evaluations and the supplemental market data described above provided valuable data points in the committee's consideration of the level of total compensation for our executive officers and for allocations between current and long-term awards under our incentive compensation plan. Specific actions taken by the committee regarding 2007 compensation for our chief executive officer, our chief financial officer and each of our three other most highly compensated executive officers (these five executive officers are referred to as the named executive officers) are summarized below.

Base Salary. In February 2007, the annual base salaries for our named executive officers were increased by about 5%. The adjustments were based on peer group information, general levels of market salary increases, cost of living adjustments, individual performance and our overall financial and operating results, without any specific relative weight assigned to any of these factors. In connection with Mr. Boothby's promotion to Senior Vice President Acquisition and Business Development and his relocation from our Tulsa, Oklahoma office to our corporate headquarters in Houston, Texas, his annual base salary was increased from \$225,000 to \$300,000 effective October 1, 2007. Consistent with our pay for performance philosophy, base salaries for our named executive officers represented between 10% and 12% of their total compensation for 2007.

Incentive Compensation Awards. The 2006 available award pool was \$45.8 million and \$42.3 million of awards were granted under the plan. For 2007, the potential award pool was \$58.3 million and \$43.7 million of awards were granted under the plan. Because of the extraordinary nature of the \$341 million gain we recognized on the sale of our U.K. North Sea business, upon the recommendation of our chief executive officer, the committee elected to carry \$10.4 million of the 2007 pool over to 2008 and \$4.2 million over to 2009. The allocation of awards among employees was based upon an employee's impact on our 2007 results (weighted approximately 50%) and overall value to our company (including consideration of future expectations) (weighted approximately 50%). The committee established awards for each of our named executive officers (other than our chief executive officer) after considering the recommendations of our chief executive officer and Hewitt. Based on these recommendations, about 50% of the grants to these executive officers were in the form of long-term cash awards. The committee established the award for our chief executive officer after reviewing his self-evaluation and after considering Hewitt's recommendations.

Awards granted under our incentive compensation plan to the named executive officers in February 2008 and February 2007 for the 2007 performance period and the 2006 performance period, respectively, are presented under Bonus in the Summary Compensation on page 16. Incentive compensation awards for our named executive officers represented between 50% and 58% of their total compensation for 2007. These percentages also are consistent with our pay for performance philosophy. The percentage change in the incentive compensation awards granted to our named executive officers for the 2007 performance period as compared to the 2006 performance period ranged from a decrease of 8% to an increase of 76% (increases of 17% for Mr. Trice, 4% for Mr. Rathert, 76% for Mr. Packer and 60% for Mr. Schneider and a decrease of 8% for Mr. Boothby).

Mr. Trice's increase recognizes his efforts to achieve the goals he presented to the committee in February 2007 and the resumption of the duties of president in October 2007. Mr. Rathert's award recognizes the increase in his

Table of Contents

leadership responsibilities, his major role in several significant transactions and his mentoring of future leaders. Mr. Packer's large increase reflects his exceptional performance in 2007, including his role in our acquisition of Stone Energy's Rocky Mountain assets for \$578 million in June 2007, and the critical leadership role he is expected to play in the future. Mr. Schneider's increase reflects his instrumental role in building our U.K. North Sea business unit and in the very successful sale of the unit in August 2007 and his significant effort to grow our international operations. Mr. Boothby's 2007 award was in recognition of the growth in production and reserves in the Mid-Continent and the critical leadership role he has undertaken and is expected to play in the future. Mr. Boothby's 2006 award was 72% higher than his award in 2005 in recognition of his leadership and vision in developing our two major plays in the Mid-Continent—the Woodford Shale and the Mountain Front Wash. Mr. Boothby's award for 2007 was less than 2006 on a relative basis primarily because of the large award he received for 2006. The committee also considered the compensation adjustments and shares of restricted stock he received in October 2007 in connection with his promotion and relocation to Houston.

Stock Plans. In February 2007, Mr. Trice was awarded 66,668 shares of performance-based restricted stock and 16,666 time vested restricted stock units, Mr. Rathert was awarded 30,000 shares of performance-based restricted stock and 7,500 time vested restricted stock units, Mr. Boothby was awarded 33,334 shares of performance-based restricted stock and 8,333 time vested restricted stock units and Messrs. Packer and Schneider were each awarded 20,000 shares of performance-based restricted stock and 5,000 time vested restricted stock units. These awards were granted to provide our named executive officers with further incentive with respect to our future performance and to further align their interests with those of our stockholders. The time-vested units, in particular, are intended to provide a stronger retention element and make our long term equity program more competitive with other companies in our industry. In connection with Mr. Boothby's promotion and relocation to Houston described above, he was granted 12,000 shares of restricted stock on October 1, 2007.

All of the shares of restricted stock and restricted stock units were awarded under our 2004 omnibus stock plan. The fair value of the awards on their grant date is reflected in the table under "Grants of Plan-Based Equity Awards in 2007" beginning on page 17.

Subject to continuous employment, the 12,000 time vested shares of restricted stock granted to Mr. Boothby in October 2007 vest on October 1, 2010. The time vested restricted stock units granted to our named executive officers in February 2007 vest, subject to continuous employment, in three equal installments on the second, third and fourth anniversary of the date of grant. The restricted stock units will not be forfeited if the executive's employment with us is terminated by reason of a qualified retirement (as defined in the award agreement). In addition, upon a change of control (as defined in our 2004 omnibus stock plan), all of the restricted stock units and shares of restricted stock will vest.

The performance-based shares of restricted stock awarded to our named executive officers in February 2007 were divided equally between Base Restricted Shares and Bonus Restricted Shares. To the extent declared and paid, dividends will be paid on restricted shares. Generally, the restricted shares will be forfeited if an executive officer does not remain continuously employed through March 1, 2010. The restricted shares will not be forfeited if the executive's employment with us is terminated by reason of a qualified retirement (as defined in the award agreement). In addition, upon a change of control (as defined in our 2004 omnibus stock plan), the Base Restricted Shares will vest and become nonforfeitable and the forfeiture restrictions with respect to the Bonus Restricted Shares will lapse in accordance with the schedule set forth below assuming the Measurement Period had ended on the day immediately prior to the day on which the change of control occurs. If not previously forfeited, the forfeiture restrictions will lapse on March 1, 2010 in accordance with the schedule set forth below. All shares subject to forfeiture restrictions immediately following that date will be forfeited.

TSR Rank means our rank from one to one plus the total number of companies and indices comprising the Qualified Peer Group, with us, each such other company and each such index together ranked from best to worst based on our, each such other company's and each such index's Total Stockholder Return.

Total Stockholder Return means the rate of return (expressed as a percentage) achieved with respect to our common stock, the primary common equity security of each company in the Qualified Peer Group and each index included in the Qualified Peer Group if (i) \$100 was invested in each such security or index on the first day of the Measurement Period based on the average closing price of each such security or index for the 20 trading days immediately preceding such day, (ii) if the record date for any dividend to be paid with respect to a particular security occurs during the Measurement Period, such dividend was reinvested in such security as of the record date for such dividend (using the closing price of such security on such record date) and (iii) the valuation of such security or index at the end of the Measurement Period is based on the average closing price of each such security or index for the 20 trading days immediately preceding March 1, 2010.

Qualified Peer Group means (i) the Dow Jones Industrial Average Index, (ii) the S&P 500 Index and (iii) each company included in the Initial Peer Group that has had its primary common equity security listed or traded on a national securities exchange or the Nasdaq National Market (or any successor thereto) throughout the Measurement Period. Incentive Compensation Plan. Our incentive compensation plan provides for the creation each calendar year of an award pool that generally is equal to 5% of our adjusted net income (as defined in the plan) plus the revenues attributable to designated overriding royalty or similar interest bearing on the interest of certain third party participants. All awards are paid in cash. Awards may consist of both a current and a long-term portion. Long-term

Table of Contents

cash awards are paid in four annual installments, each installment consisting of 25% of the award plus interest. Long-term cash awards accrue interest at a rate of 6% per year, which may be adjusted by our Board from time to time. Generally, employees are entitled to an installment of a long-term award only if they remain employed by us through the date of payment of the installment. If an employee is terminated by us without cause (as defined in the plan), however, such employee will be entitled to receive regular installments of their outstanding long-term cash awards. Messrs. Rathert and Schneider are entitled to regular installments of their long-term cash awards regardless of their employment status with us unless they are terminated for cause (as defined in the plan).

Deferred Compensation Plan For Highly Compensated Employees. Our deferred compensation plan for highly compensated employees allows an eligible employee to defer up to 90% of his or her salary and all of his or her bonus on an annual basis. We make a matching contribution for up to 8% of the employee's salary. Our contribution with respect to any particular employee under the deferred compensation plan for highly compensated employees is reduced to the extent that we make contributions to our 401(k) plan on behalf of that employee. Effective January 1, 2007, we established an irrevocable rabbi trust to hold employee account balances under our deferred compensation plan for highly compensated employees. Employee account balances are invested, at the direction of each employee, in substantially the same investment alternatives as are available under our 401(k) plan.

Potential Payments Upon Termination or Change of Control

Change of Control Severance Agreements. We have entered into change of control severance agreements with our named executive officers. The agreements have an initial term of either two or three years, with automatic daily extensions unless our Board takes action to cease the automatic extensions.

The agreements, as amended, generally provide for a severance protection period that begins on the date of a change of control of our company and ends on either the second or the third anniversary of that date (certain circumstances may cause an extension of the period). During the protected period, if the executive's employment is terminated by us without cause or by the executive for good reason, the agreement provides for the following severance benefits: (1) a lump sum cash payment equal to either two or three times the sum of (a) the greater of the executive's base salary prior to the change of control or at any time thereafter and (b) one-half of the greater of the executive's bonus compensation for the two years ending prior to the change of control or for the two years ending prior to the executive's termination of employment, (2) full vesting of restricted stock awards (other than the Bonus Restricted Shares granted in February 2006 and in February 2007) and stock options (vesting of restricted stock awards and stock options is also covered under our omnibus stock plans), (3) health coverage at active executive rates for either two or three years (health benefits are to be offset by any health benefits the executive receives from subsequent employment and a cash payment may be made by us in lieu of providing coverage if the executive is not eligible for the coverage or if the health benefits provided would be taxable to the executive) and (4) outplacement services. If the executive is terminated by us for failure to perform the executive's duties for at least 180 days due to physical or mental illness, such severance benefits do not apply.

A change of control means: (1) we are not the survivor in any merger, consolidation or other reorganization (or survive only as a subsidiary); (2) the consummation of a merger or consolidation with another entity pursuant to which less than 50% of the outstanding voting securities of the survivor will be issued in respect of our capital stock; (3) we sell, lease or exchange all or substantially all of our assets; (4) we are to be dissolved and liquidated; (5) any person acquires ownership or control (including the power to vote) of more than 50% of the shares of our voting stock (based upon voting power); or (6) as a result of or in connection with a contested election of directors, the persons who were our directors before the election cease to constitute a majority of our Board. However, a change of control does not include any merger, consolidation, reorganization, sale, lease, exchange, or similar transaction solely between us and one or more entities that were wholly owned by us immediately prior to the event.

Good reason means: (1) a material reduction in the executive's authority, duties, titles, status or responsibilities or the assignment to the executive of duties or responsibilities inconsistent in any material respect from those previously in effect; (2) any reduction in the executive's base salary; (3) any failure to provide the executive with a combined total of base salary and bonus compensation at a level at least equal to the combined total of (a) the executive's base salary immediately prior to the change of control and (b) one-half of the total of all cash bonuses (current and long-term) awarded to the executive for the two most recent years ending prior to the change of control; (4) we fail to obtain a

written agreement from any successor to assume and perform the agreements; or (5)

Table of Contents

relocation of our principal executive offices by more than 50 miles or the executive is based at any office other than our principal executive offices.

Cause means: (1) willful and continued failure to substantially perform duties; (2) conviction of or plea of nolo contendere to a felony or a misdemeanor involving moral turpitude; (3) willful engagement in gross misconduct materially and demonstrably injurious to us; (4) material violation of any of our material policies; or (5) the executive is subject of SEC obtained or issued order for any securities violation involving fraud.

If the payment of benefits under the agreement or otherwise results in the executive being subject to parachute payment excise taxes, we must make an additional payment to the executive in an amount such that after the payment of all income and excise taxes, the executive will be in the same net after-tax position as if no parachute payment excise taxes had been imposed. Receipt of benefits under the agreement (other than the vesting of stock awards) is subject to the executive's execution of a comprehensive release, which contains a confidentiality agreement. If a dispute arises, the agreement provides for binding arbitration at our expense (unless the arbitrator provides otherwise with respect to the executive's expenses).

The agreements with Messrs. Trice, Rathert and Boothby provide for a three year initial term, a three year severance protection period, a three times multiplier for determining cash severance payment and three years of health coverage, while the agreements with Messrs. Packer and Schneider provides for a two year initial term, a two year severance protection period, a two times multiplier for determining the cash severance payment and two years of health coverage. All five agreements provide for automatic daily extensions unless our Board takes action to cease the automatic extensions.

Omnibus Stock Plans. Under our 2000, 2004 and 2007 omnibus stock plans, stock options will fully vest and shares of restricted stock and restricted stock units (other than the Bonus Restricted Shares granted in February 2006 and in February 2007) will fully vest and become nonforfeitable upon a change of control (as defined in the plans).

The Bonus Restricted Shares awarded in February 2006 and in February 2007 will be forfeited upon a change of control (as defined in our 2004 omnibus stock plan) occurring prior to March 1, 2008 and March 1, 2009, respectively. If a change of control occurs on or after March 1, 2008 or March 1, 2009, as applicable, forfeiture restrictions with respect to Bonus Restricted Shares will lapse in accordance with the schedule set forth in footnote 4 to the table appearing under Outstanding Equity Awards at December 31, 2007 beginning on page 19 for the February 2006 awards and in accordance with the schedule appearing under Grants of Plan-Based Equity Awards in 2007 beginning on page 17, each assuming the Measurement Period had ended on the day immediately prior to the day on which the change of control occurs.

Incentive Compensation Plan. Under our incentive compensation plan, unpaid installments of long-term cash awards for Messrs. Trice, Boothby and Packer will fully vest upon a change of control (as defined in the plan). In addition, all of our named executive officers are entitled to full payment of their aggregate balance in our incentive compensation plan upon such a change of control. See Nonqualified Deferred Compensation beginning on page 22.

Deferred Compensation Plan. Upon termination of their employment with us, our named executive officers are entitled to full payment of their balance in our deferred compensation plan for highly compensated employees. See Nonqualified Deferred Compensation beginning on page 22.

Table of Contents

Only non-employee directors are compensated for serving as directors. For purposes of annual fees, an annual period begins on the date of our annual meeting of stockholders and ends on the date of our next annual meeting. For the annual period beginning in May 2006, our directors were paid an annual fee of \$40,000. The chairpersons of the Audit Committee and Compensation & Management Development Committee were paid an additional annual fee of \$15,000 and the chairperson of the Nominating & Corporate Governance Committee was paid an additional annual fee of \$6,000 during that period. Effective as of the annual period beginning in May 2007, the annual fee to directors increased to \$50,000 and our Lead Director became entitled to an additional annual fee of \$15,000. In addition to annual fees, directors receive a fee of \$1,500 for each board meeting and committee meeting not held on the same day as a board meeting and a fee of \$750 for each telephonic board or committee meeting. In addition, directors are paid a fee of \$1,000 for each committee meeting held on the same day as a board meeting if the committee meeting lasts for a substantial period of time. Our non-employee directors earned \$1,716,205 in the aggregate in 2007 as compensation for serving as directors. Non-employee directors also are reimbursed for out-of-pocket expenses incurred to attend board and committee meetings.

Director stock awards are granted pursuant to our non-employee director restricted stock plan. Each of our non-employee directors who was in office immediately after our 2007 annual meeting of stockholders was granted restricted shares with a market value of \$100,000 based on the closing sales price of our common stock on the date of the annual meeting. In addition, each non-employee director who is appointed to our Board (not in connection with an annual meeting of stockholders) is granted restricted shares with a market value of \$100,000 based on the closing sales price of our common stock on the date of appointment. With respect to all such grants, the restrictions lapse on the day before the first annual meeting of stockholders following the date of grant. An aggregate of 200,000 restricted shares were initially available for issuance pursuant to our non-employee director restricted stock plan. As of February 29, 2008, there were 85,592 restricted shares available for grant and 24,321 restricted shares outstanding under our non-employee director restricted stock plan.

Each of Messrs. Burguières, Hendrix, Kemp, Lacey, Netherland, Newman, Ricks, Shultz and Strange, Ms. Gardner and Ms. Romans were granted 2,211 restricted shares on May 3, 2007, the date of our 2007 annual meeting of stockholders.

David A. Trice, our Chairman, President and Chief Executive Officer, and Susan G. Riggs, our Treasurer, are minority owners of Huffco International L.L.C. In May 1997, prior to Mr. Trice and Ms. Riggs joining us, we acquired from Huffco an entity now known as Newfield China, LDC, the owner of a 12% interest in a three field unit located on Blocks 04/36 and 05/36 in Bohai Bay, offshore China. Huffco retained preferred shares of Newfield China that provide for an aggregate dividend equal to 10% of the excess of proceeds received by Newfield China from the sale of oil and gas over all costs incurred with respect to exploration and production in Block 05/36, plus the cash purchase price we paid Huffco for Newfield China (\$6 million). At December 31, 2007, Newfield China had approximately \$31 million of unrecovered exploration and production costs. We anticipate that Newfield China will begin paying preferred dividends in the second quarter of 2009. Based on our estimate of the net present value of the proved reserves associated with the unit, the indirect interests (through Huffco) in Newfield China's preferred shares held by Mr. Trice and Ms. Riggs had a net present value of approximately \$256,000 and \$99,000, respectively, at December 31, 2007.

Interests of Management and Others in Certain Transactions

David A. Trice, our Chairman, President and Chief Executive Officer, and Susan G. Riggs, our Treasurer, own an indirect interest in preferred shares of Newfield China, one of our subsidiaries. See Compensation Committee Interlocks and Insider Participation immediately above.

Mr. Trice and Dennis R. Hendrix, one of our directors, serve as directors of Grant Prideco Inc. During 2007, we paid Grant Prideco approximately \$2.9 million for services rendered to us in the ordinary course of business. Grant Prideco provides pipe inspection, testing, threading and coating services to the oil and gas exploration and production industry.

Mr. Trice serves on the board of directors of Hornbeck Offshore Services, Inc. In 2007, we paid Hornbeck approximately \$8.2 million for marine transportation services rendered to us in the ordinary course of business. Hornbeck provides marine vessel services to the offshore oil and gas exploration and production industry.

Philip J. Burguières, one of our directors, also is a director of JPMorgan Chase Texas (JPM Texas). Affiliates of JPM Texas are the agent and a lender under our revolving credit facility. We also are parties to commodity and interest rate hedge agreements with affiliates of JPM Texas.

C. E. Shultz, one of our directors, also is a director of Enbridge Inc. During 2007, we paid Enbridge approximately \$0.2 million for oil and gas transportation services rendered to us in the ordinary course of business. Enbridge provides oil and gas transportation services to the oil and gas exploration and production industry.

Joseph H. Netherland, one of our directors, is the Chairman of the Board of FMC Technologies, Inc. Philip J. Burguières, one of our directors, also is a director of FMC. During 2007, we paid FMC approximately \$7.2 million for services rendered to us in the ordinary course of business. FMC provides well completion services, crane operations, emergency response service, welding services, valve reconditioning and repair services and other energy services to the oil and gas exploration and production industry.

In connection with our request that Lee K. Boothby, one of our executive officers, relocate from our Tulsa, Oklahoma office to our corporate headquarters in Houston, Texas, we engaged a relocation service to purchase Mr. Boothby's home in Tulsa, Oklahoma. On December 19, 2007, Mr. Boothby and the relocation service entered into an agreement to purchase Mr. Boothby's home for \$950,000. The purchase price was based on an appraisal prepared by an independent appraisal service. The sale of the home closed on January 15, 2008. At the time of the sale, the relocation service and Mr. Boothby entered into a lease agreement providing for Mr. Boothby to lease the home from the relocation service until June 1, 2008 for monthly rent of \$3,600. When the relocation service sells the home to a third party after June 1, 2008, we will be responsible for all costs associated with the sale customarily paid by the seller and we will be entitled to any gain, and will be responsible for any loss, on the sale of the home. Fees payable to the relocation service in connection with the purchase and sale of the home will be less than \$5,000.

We have not formally adopted any policies or procedures for approval of related party transactions. However, related party transactions are strongly discouraged. All proposed related party transactions are disclosed to our Board and are addressed on a case-by-case basis.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors and persons who own more than 10% of our common stock to file reports of ownership and changes in ownership with the SEC. These persons are required by SEC rules to furnish us with copies of these reports. Based solely on our review of the copies of these reports received by us and representations from certain reporting persons that they have complied with the relevant filing requirements, we believe that all such filing requirements were complied with during the year ended December 31, 2007.

Audit Committee Report

The Audit Committee of the Newfield Board of Directors currently consists of the five directors whose names appear below. Each member of the Committee is independent as defined in Section 303A.00 of the NYSE's listing standards. The primary purposes of the Committee are:

appointing, retaining and terminating Newfield's independent public accountants;

monitoring the integrity of Newfield's financial statements and reporting processes and systems of internal control;

evaluating the qualifications and independence of Newfield's independent public accountants;

evaluating the performance of Newfield's internal audit function and independent public accountants; and

monitoring Newfield's compliance with legal and regulatory requirements.

The Committee performs the specific functions set forth in its charter, which is available on our website. Go to <http://www.newfield.com> and then to the Corporate Governance Overview tab.

The Committee held six meetings in person or by telephone conference during 2007. The meetings were designed to facilitate and encourage communication between the Audit Committee and Newfield's internal auditors and independent public accountants.

The Committee has reviewed and discussed with Newfield's management and PricewaterhouseCoopers LLP, Newfield's independent accountants, the audited financial statements of Newfield included in its annual report on Form 10-K for the year ended December 31, 2007.

The Committee also has discussed with Newfield's independent public accountants the matters required to be discussed pursuant to SAS 61, 89 and 90, Codification of Statements on Auditing Standards, Communication with Audit Committees. The Committee has received and reviewed written disclosures and the letter from PricewaterhouseCoopers LLP as required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with PricewaterhouseCoopers LLP such independent accountants' independence. The Committee also has considered whether the provision of non-audit services to Newfield by PricewaterhouseCoopers LLP is compatible with maintaining their independence.

Based on the review and discussion referred to above, the Committee recommended to Newfield's Board of Directors that the audited financial statements be included in Newfield's annual report on Form 10-K for the year ended December 31, 2007 filed with the SEC.

This report is submitted on behalf of the Audit Committee.

Table of Contents**Principal Accountant Fees and Services**

Aggregate fees for professional services rendered to us by PricewaterhouseCoopers LLP for the years ended December 31, 2007 and 2006 were:

All other fees

The audit fees for both years were for professional services rendered in connection with the audit of our 2006 and 2007 consolidated financial statements and reviews of our quarterly consolidated financial statements within such years. These fees also include the statutory audit fees in the U.K. and Malaysia and issuance of comfort letters, consents and assistance with review of various documents filed with the SEC.

Audit related fees for 2007 were for a U.S. GAAP/SEC update presentation and for licensing fees for access to a technical literature database. Audit related fees for 2006 were for consultation regarding our implementation of new accounting pronouncements during the year and licensing fees for access to a technical literature database.

Tax fees for 2007 were for services related to tax compliance. Tax fees for 2006 were for services related to tax compliance, including the preparation of international tax returns and tax planning advice.

PricewaterhouseCoopers did not provide us any financial information systems design or implementation services during 2007 or 2006.

The Audit Committee reviews and pre-approves audit and non-audit services performed by our independent accountants as well as the fees charged for these services. The Audit Committee may delegate pre-approval authority for these services to one or more members, whose decisions are then presented to the full Audit Committee at its next scheduled meeting. In its review of all non-audit service fees, the Audit Committee considers, among other things, the possible effect of these services on the independence of our public accountants.
