EXPLANATORY NOTE

Note 1 to our Consolidated Financial Statements for the year ended December 31, 2002 (our 2002 Financial Statements) contains a subsection entitled *Employee Stock-Based Compensation* wherein we disclose what our pro forma net income (Pro Forma Net Income) and pro forma net income per common share (Pro Forma Net Income Per Common Share) would have been for the years 2002, 2001 and 2000 had compensation expense been determined for stock option grants using the fair value method provided for in SFAS No. 123, Accounting for Stock-Based Compensation. After filing our Annual Report on Form 10-K for the year ended December 31, 2002, we discovered a computational error in the calculation of Pro Forma Net Income and Pro Forma Net Income Per Common Share for each of 2002, 2001 and 2000. This error caused the amounts of Pro Forma Net Income and Pro Forma Net Income Per Common Share to be understated in 2002 and 2001, and overstated in 2000. We are filing this 10-K/A for the purpose of correcting this error.

Accordingly, we have amended Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2002 as follows:

We have included Deloitte & Touche LLP's Independent Auditor's Report, which replaces the report originally filed as part of our 2002 Annual Report on Form 10-K.

We have restated in its entirety the subsection entitled *Employee Stock-Based Compensation* contained in Note 1 to our 2002 Financial Statements, and

We have added Note 26 to our 2002 Financial Statements entitled *Restatement of Note 1* and amended the table of contents to our 2002 Financial Statements accordingly.

No other changes have been made to our Annual Report on Form 10-K for the year ended December 31, 2002.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Dean Foods Company
Dallas, Texas

We have audited the accompanying consolidated balance sheets of Dean Foods Company and subsidiaries (the Company) as of December 31, 2002 and 2001, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Dean Foods Company and subsidiaries as of December 31, 2002 and 2001, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, the Company changed its method of accounting for goodwill and other intangible assets to conform to Statement of Financial Accounting Standards No. 142.

As discussed in Note 26, the pro forma net income and pro forma net income per common share included in the *Employee Stock-Based Compensation* portion of Note 1 have been restated.

DELOITTE & TOUCHE LLP

Dallas, Texas
March 24, 2003, (May 27, 2003 as to Note 26 and June 9, 2003 as to the effects of the stock split described in Note 24)

F-5

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Years Ended December 31, 2002, 2001 and 2000****1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation Our Consolidated Financial Statements include the accounts of our wholly-owned and majority-owned subsidiaries. All significant intercompany balances and transactions are eliminated in consolidation.

Use of Estimates The preparation of our Consolidated Financial Statements in conformity with generally accepted accounting principles requires us to use our judgment to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates under different assumptions or conditions.

Cash Equivalents We consider temporary cash investments with a remaining maturity of three months or less to be cash equivalents.

Inventories Inventories are stated at the lower of cost or market. Dairy and certain specialty products are valued on the first-in, first-out (FIFO) method while our pickle inventories are valued using the last-in, first-out (LIFO) method. The costs of finished goods inventories include raw materials, direct labor and indirect production and overhead costs.

Property, Plant and Equipment Property, plant and equipment are stated at acquisition cost, plus capitalized interest on borrowings during the actual construction period of major capital projects. Also included in property, plant and equipment are certain direct costs related to the implementation of computer software for internal use. Depreciation and amortization are calculated using the straight-line method over the estimated useful lives of the assets, as follows:

Asset	Useful Life
Buildings and improvements	Seven to 40 years
Machinery and equipment	Three to 20 years

Impairment tests are performed when circumstances indicate that the carrying value may not be recoverable. Capitalized leases are amortized over the shorter of their lease term or their estimated useful lives. Expenditures for repairs and maintenance which do not improve or extend the life of the assets are expensed as incurred.

Intangible and Other Assets Prior to January 1, 2002, intangibles were amortized over their related estimated useful lives as follows:

Asset	Useful Life
Goodwill	Straight-line method over 25 to 40 years
Identifiable intangible assets:	
Customer lists	Straight-line method over seven to ten years
Customer supply contracts	Straight-line method over the terms of the agreements
Trademarks/trade names	Straight-line method over ten to 40 years
Noncompetition agreements	Straight-line method over the terms of the agreements
Patents	Straight-line method over fifteen years
Deferred financing costs	Interest method over the terms of the related debt

Effective January 1, 2002, in accordance with Statement of Financial Accounting Standards (SFAS) No. 142, goodwill and other intangible assets determined to have indefinite useful lives are no longer amortized. Instead, we will now conduct annual impairment tests on our goodwill, trademarks and other intangible assets with indefinite lives. To determine whether an impairment exists, we use a present value technique. Upon

adoption of SFAS No. 142, we conducted transitional impairment tests and recorded certain

F-6

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

impairments. Impairment tests are performed when circumstances indicate that the carrying value may not be recoverable. See Note 7.

Foreign Currency Translation The financial statements of our foreign subsidiaries are translated to U.S. dollars in accordance with the provisions of SFAS No. 52, Foreign Currency Translation. The functional currency of our foreign subsidiaries is generally the local currency of the country. Accordingly, assets and liabilities of the foreign subsidiaries are translated to U.S. dollars at year-end exchange rates. Income and expense items are translated at the average rates prevailing during the year. Changes in exchange rates, which affect cash flows and the related receivables or payables are recognized as transaction gains and losses in the determination of net income. The cumulative translation adjustment in stockholders' equity reflects the unrealized adjustments resulting from translating the financial statements of our foreign subsidiaries.

Minority Interest in Subsidiaries Minority interest in results of operations of consolidated subsidiaries represents the minority shareholders share of the income or loss of various consolidated subsidiaries. The minority interest in the consolidated balance sheet reflects the original investment by these minority shareholders in these consolidated subsidiaries, along with their proportional share of the earnings or losses of these subsidiaries less any cash distributions made. At December 31, 2002, there were no outstanding minority interests.

Employee Stock-Based Compensation We measure compensation expense for our stock-based employee compensation plans using the intrinsic value method and provide the required pro forma disclosures of the effect on net income and earnings per share as if the fair value-based method had been applied in measuring compensation expense.

We have elected to follow Accounting Principles Board Opinion No. 25 and related interpretations in accounting for our stock options. All options granted to date have been to employees, officers or directors. Accordingly, no compensation expense has been recognized since stock options granted were at exercise prices which approximated or exceeded market value at the grant date. Had compensation expense been determined for stock option grants using fair value methods provided for in SFAS No. 123, Accounting for Stock-Based Compensation, our pro forma net income and net income per common share would have been the amounts indicated below:

	Year Ended December 31		
	2002	2001	2000
	(In thousands, except share data)		
Net income, as reported	\$ 175,416	\$ 109,830	\$ 118,719
Less: Stock based employee compensation, net of income tax expense	31,249	16,926	17,375
Pro forma net income	\$ 144,167	\$ 92,904	\$ 101,344
Net income per share:			
Basic as reported	\$ 1.30	\$ 1.30	\$ 1.40
pro forma	1.07	1.10	1.20
Diluted as reported	1.21	1.19	1.27
pro forma	\$ 1.01	\$ 1.03	\$ 1.12
Stock option share data:			
Stock option granted during period	7,710,438	3,732,450	4,100,700
Weighted average option fair value	\$ 9.99(1)	\$ 7.43(2)	\$ 6.86(3)

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- (1) Calculated in accordance with the Black-Scholes option pricing model, using the following assumptions: expected volatility of 38%, expected dividend yield of 0%, expected option term of seven years and risk-free rates of return as of the date of grant ranging from 4.09% to 4.87% based on the yield of seven-year U.S. Treasury securities.
- (2) Calculated in accordance with the Black-Scholes option pricing model, using the following assumptions: expected volatility of 40%, expected dividend yield of 0%, expected option term of seven years and risk-free rates of return as of the date of grant ranging from 4.51% to 5.19% based on the yield of seven-year U.S. Treasury securities.
- (3) Calculated in accordance with the Black-Scholes option pricing model, using the following assumptions: expected volatility of 40%; expected dividend yield of 0%; expected option term of four to ten years and risk-free rates of return as of the date of grant ranging from 6.03% to 6.74% based on the yield of seven-year U.S. Treasury securities.

Revenue Recognition and Accounts Receivable Revenue is recognized when persuasive evidence of an arrangement exists, the price is fixed or determinable, the product has been shipped to the customer and there is a reasonable assurance of collection of the sales proceeds. Revenue is reduced by sales incentives that are recorded by estimating expense based on our historical experience. We provide credit terms to customers generally ranging up to 30 days, perform ongoing credit evaluation of our customers and maintain allowances for potential credit losses based on historical experience.

Income Taxes All of our wholly-owned U.S. operating subsidiaries are included in our consolidated tax return. In addition, our proportional share of the operations of our former majority-owned subsidiaries and certain of our equity method affiliates, which are organized as limited liability companies or limited partnerships, are also included in our consolidated tax return. Our foreign subsidiaries are required to file separate income tax returns in their local jurisdictions. Certain distributions from these subsidiaries are subject to U.S. income taxes; however, available tax credits of these subsidiaries may reduce or eliminate these U.S. income tax liabilities.

Deferred income taxes are provided for temporary differences between amounts recorded in the Consolidated Financial Statements and tax bases of assets and liabilities using currently enacted current tax rates. Deferred tax assets, including the benefit of net operating loss carry-forwards, are evaluated based on the guidelines for realization and may be reduced by a valuation allowance if deemed necessary.

Advertising Expense Advertising expense is comprised of media, agency and production expenses. Advertising expenses are charged to income during the period incurred, except for expenses related to the development of a major commercial or media campaign which are charged to income during the period in which the advertisement or campaign is first presented by the media. Advertising expenses charged to income totaled \$91.1 million in 2002, \$41.1 million in 2001 and \$62.2 million in 2000. Additionally, prepaid advertising costs were \$4.9 million and \$2.1 million at December 31, 2002 and 2001, respectively.

Insurance Accruals We retain selected levels of property and casualty risks, primarily related to employee health care, workers compensation claims and other casualty losses. Many of these potential losses are covered under conventional insurance programs with third party carriers with high deductible limits. In other areas, we are self-insured with stop-loss coverages. Accrued liabilities for incurred but not reported losses related to these retained risks are calculated based upon loss development factors provided by external insurance brokers and actuaries.

Comprehensive Income We consider all changes in equity from transactions and other events and circumstances, except those resulting from investments by owners and distributions to owners, to be comprehensive income.

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Stock Split On February 21, 2002, our Board of Directors declared a two-for-one split of our common stock, which entitled shareholders of record on April 8, 2002 to receive one additional share of common stock for each share held on that date. The new shares were issued after the market closed on April 23, 2002. All of the share numbers in our Consolidated Financial Statements have been adjusted for all periods to reflect the stock split.

Recent Adoptions of New Accounting Pronouncements The Emerging Issues Task Force's (EITF) Issue No. 00-14, *Accounting for Certain Sales Incentives*, became effective for us in the first quarter of 2002. This Issue addresses the recognition, measurement and income statement classification of sales incentives that have the effect of reducing the price of a product or service to a customer at the point of sale. Our historical practice for recording sales incentives within the scope of this Issue, which has been to record estimated coupon expense based on historical coupon redemption experience, is consistent with the requirements of this Issue. Therefore, our adoption of this Issue had no impact on our Consolidated Financial Statements.

We adopted EITF Issue No. 01-09, *Accounting for Consideration Given By a Vendor to a Customer* in the first quarter of 2002. Under this Issue, certain consideration paid to our customers (such as slotting fees) is required to be classified as a reduction of revenue, rather than recorded as an expense. Adoption of this Issue required us to reduce reported revenue and selling and distribution expense for the years ended December 31, 2001 and 2000 by \$33.7 million and \$29.9 million, respectively. There was no change, however, in reported net income.

In June 2001, FASB issued Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*, and SFAS No. 142, *Goodwill and Other Intangible Assets*. SFAS No. 141 addresses financial accounting and reporting for business combinations. Under the new standard, all business combinations entered into after June 30, 2001 are required to be accounted for by the purchase method. We have applied, and will continue to apply, the provisions of SFAS No. 141 to all business combinations completed after June 30, 2001. SFAS No. 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets. We adopted SFAS No. 142 in the first quarter of 2002. See Note 7. SFAS No. 142 also requires that recognized intangible assets with finite lives be amortized over their respective estimated useful lives. As part of the adoption, we re-assessed the useful lives and residual values of all recognized intangible assets.

FASB issued SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* in August 2001 and it became effective for us in the first quarter of 2002. SFAS No. 144, which supercedes SFAS No. 121, provides a single, comprehensive accounting model for impairment and disposal of long-lived assets and discontinued operations. Our adoption of this standard did not have a material impact on our Consolidated Financial Statements.

Recently Issued Accounting Pronouncements In June 2001, FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. This statement requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which the associated legal obligation for the liability is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and amortized over the useful life of the asset. SFAS No. 143 became effective for us in 2003. We do not expect the adoption of this pronouncement to have a material impact on our Consolidated Financial Statements.

SFAS No. 145, *Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections*, was issued in April 2002 and is applicable to fiscal years beginning after May 15, 2002. One of the provisions of this technical statement is the rescission of SFAS No. 4, *Reporting Gains and Losses from Extinguishment of Debt*, whereby any gain or loss on the early extinguishment of debt that was classified as an extraordinary item in prior periods in accordance with SFAS No. 4, which does not

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

meet the criteria of an extraordinary item as defined by APB Opinion 30, must be reclassified. Adoption of this standard will require us to reclassify extraordinary losses previously reported from the early extinguishment of debt as a component of other expense. For the year ended December 31, 2001, we recorded an extraordinary loss of \$4.3 million, net of an income tax benefit of \$3.0 million in connection with the early extinguishment of debt.

In June 2002, FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. This statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies EITF Issue No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring). The statement requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred, and is effective for exit or disposal activities that are initiated after December 31, 2002. Our adoption of this standard will change the timing of the recognition of certain charges associated with exit and disposal activities.

On December 31, 2002 FASB issued SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, which amends SFAS No. 123, Accounting for Stock-Based Compensation. SFAS No. 148 which is effective for fiscal years ending after December 15, 2002 provides alternative methods of transition for a voluntary change to the fair value based method and requires more prominent and more frequent disclosures in the financial statements about the effects of stock-based compensation. At this time, we have elected not to adopt the voluntary expense recognition provisions of SFAS No. 123.

In November 2002, FASB issued FASB Interpretation (FIN) No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. FIN No. 45 clarifies the requirements of SFAS No. 5 Accounting for Contingencies, relating to the guarantor's accounting for and disclosures of certain guarantees issued. FIN No. 45 requires disclosure of guarantees. It also requires liability recognition for the fair value of guarantees made after December 31, 2002. We will adopt the liability recognition requirements of FIN No. 45 effective January 1, 2003, and we do not expect the adoption to have a material effect on our Consolidated Financial Statements.

In January 2003, FASB issued FIN No. 46, Consolidation of Variable Interest Entities. FIN No. 46 clarifies the application of Accounting Research Bulletin No. 51, Consolidated Financial Statements, to certain entities in which equity investors do not have the characteristics of a controlling financial interest or in which equity investors do not bear the residual economic risks. The interpretation applies to variable interest entities (VIEs) created after January 31, 2003 and to VIEs in which an enterprise obtains an interest after that date. It applies in the fiscal or interim period beginning after June 15, 2003, to VIEs in which an enterprise holds a variable interest that was acquired before February 1, 2003. We currently utilize special purpose limited liability entities to facilitate our receivable-backed loan and our trust-issued preferred securities. Since their formations, these entities have been consolidated in our financial statements for financial reporting purposes. Therefore, FIN No. 46 will have no impact on our Consolidated Financial Statements.

Reclassifications Certain reclassifications have been made to conform the prior years Consolidated Financial Statements to the current year classifications

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. ACQUISITIONS, DIVESTITURES AND DISCONTINUED OPERATIONS**

General In total, we completed the acquisitions of 12 businesses during 2002, 2001 and 2000, which included the following acquisitions that were significant at the time of completion:

Date	Company	Purchase Price
		(In thousands)
December 2001	Dean Foods Company	\$ 1,740,589
January 2000	Southern Foods Group	435,606

These acquisitions and the other businesses acquired were funded with cash flows from operations, borrowings under our credit facility, and the issuance in 2001 of 46,378,584 shares of our common stock with a fair market value of \$739.4 million.

All acquisitions were accounted for using the purchase method of accounting as of their respective acquisition dates, and accordingly, only the results of operations of the acquired companies subsequent to their respective acquisition dates are included in our Consolidated Financial Statements. At the acquisition date, the purchase price was allocated to assets acquired, including identifiable intangibles, and liabilities assumed based on their fair market values. The excess of the total purchase prices over the fair values of the net assets acquired represented goodwill. In connection with the acquisitions, assets were acquired and liabilities were assumed as follows:

	Year Ended December 31		
	2002	2001	2000
	(In thousands)		
Purchase prices:			
Cash paid, net of cash acquired	\$ 206,307(1)	\$ 1,146,077	\$ 331,543
Cash acquired in acquisitions	17,870	15,060	6,327
Common stock issued		739,366	
Existing equity investment	67,292		
Subsidiary preferred and common securities issued and minority partnership interests			340,336
Operations of 11 plants		287,989	
Total purchase prices	\$ 291,469	2,188,492	678,206
Fair values of net assets acquired:			
Assets acquired	214,942	2,283,882	473,648
Liabilities assumed	(29,172)	(1,511,436)	(187,907)
Total fair value of net assets acquired	185,770	772,446	285,741
Goodwill	\$ 105,699	\$ 1,416,046	\$ 392,465

(1) An additional \$15.8 million was paid in 2002 as part of the Old Dean acquisition.

Acquisition of White Wave On May 9, 2002, we acquired the 64% equity interest in White Wave, Inc. that we did not already own. White Wave, based in Boulder, Colorado, is the maker of *Silk*® soymilk and other soy-based products, and had sales of approximately \$125 million during the 12 months ended March 31, 2002. Prior to May 9, we owned approximately 36% of White Wave, as a result of certain investments

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

made by Old Dean beginning in 1999. We purchased the remaining 64% equity interest for a total price of approximately \$192.8 million. Existing management of White Wave has remained in place after the acquisition. We have agreed to pay White Wave's management team an incentive bonus based on achieving certain sales growth

F-11

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

targets by March 2004. The bonus amount will vary depending on the level of two-year cumulative sales White Wave achieves by the end of March 2004, and is anticipated to range between \$35 million and \$40 million. Amounts expected to be payable under the bonus plan are expensed each quarter based on White Wave's performance during the quarter. See Note 20. For financial reporting purposes, White Wave's financial results are aggregated with Morningstar Foods' financial results.

Acquisition of Marie's On May 17, 2002, we bought the assets of Marie's Quality Foods, Marie's Dressings, Inc. and Marie's Associates, makers of Marie's® brand dips and dressings in the western United States, for an aggregate purchase price of approximately \$23.5 million. Prior to the acquisition, we licensed the Marie's brand to Marie's Quality Foods and Marie's Dressings, Inc. for use in connection with the manufacture and sale of dips and dressings in the western United States. As a result of this acquisition, our Morningstar/ White Wave segment is now the sole owner, manufacturer and marketer of Marie's brand products nationwide.

Acquisition of Dean Foods Company On December 21, 2001, we completed our acquisition of Dean Foods Company (Old Dean). Old Dean is now our wholly-owned subsidiary. Immediately upon completion of the transaction, Old Dean changed its name to Dean Holding Company and we changed our name to Dean Foods Company. As a result of the transaction, each share of common stock of Old Dean was converted into 1.287 shares of our common stock and the right to receive \$21.00 in cash. The aggregate purchase price recorded was \$1.7 billion, including \$756.8 million of cash paid to Old Dean stockholders and common stock valued at \$739.4 million. The value of the approximately 46 million common shares issued was determined based on the average market price of our common stock during the period from April 2 through April 10, 2001 (the merger was announced on April 5, 2001). In addition, each of the options to purchase Old Dean's common stock outstanding on December 21, 2001 was converted into an option to purchase 2.256 shares of our stock. As discussed below, the holders of these options had the right, during the ninety day period following the acquisition, to surrender their stock options to us, in lieu of exercise, in exchange for a cash payment.

We decided to acquire Old Dean for the above-described consideration after considering a number of factors, including:

The acquisition would result in us becoming the first truly national dairy and specialty foods company with the geographic reach, management depth and product mix necessary to meet the needs of large customers, who can especially benefit from the added services, convenience and value that a national dairy company can provide;

Combining our businesses would enable us to reduce our costs by pursuing economies of scale in purchasing, product development and manufacturing, and by eliminating duplicative costs; and

Increasing our scale would provide us with greater resources to invest in marketing and innovation.

Also on December 21, 2001, in connection with our acquisition of Old Dean, we purchased Dairy Farmers of America's (DFA) 33.8% stake in our Dairy Group for consideration consisting of: (1) approximately \$145.4 million in cash, and (2) the operations of eleven plants (including seven of our plants and four of Old Dean's plants) located in nine states where we and Old Dean had overlapping operations. Also in connection with the transaction, we delivered a contingent promissory note in the original principal amount of \$40 million to secure our obligation to renew certain of our milk supply agreements with DFA until 2021, and we agreed to a liquidated damages provision which provides that if we do not, within a specified period following the completion of our acquisition of Old Dean, offer DFA the right to supply raw milk to certain of the Old Dean dairy plants, we could be required to pay liquidated damages. See Note 20 for further discussion of these obligations. As a result of this transaction, we now own 100% of our Dairy Group.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In connection with the merger, we entered into a new credit facility and expanded our receivables-backed loan facility. We used the proceeds from the credit facility and receivables-backed loan facility to fund the cash portion of the merger consideration and the acquisition of DFA's minority interest, to refinance certain indebtedness and to pay certain transaction costs. See Note 10.

Old Dean's operations and the acquisition of DFA's minority interest are reflected in our Consolidated Financial Statements after December 21, 2001.

The following table summarizes the fair values of the assets acquired and liabilities assumed at the date of acquisition of Old Dean, and includes the effects of divesting four Old Dean plants.

	At December 21, 2001
	(In thousands)
Current assets	\$ 694,453
Property, plant, and equipment	725,258
Intangible assets	236,978
Goodwill	1,515,267
Other assets	79,945
	<hr/>
Total assets acquired	3,251,901
Current liabilities	540,458
Other liabilities	285,209
Long-term debt	685,645
	<hr/>
Total liabilities assumed	1,511,312
	<hr/>
Net assets acquired	\$ 1,740,589
	<hr/>

Of the approximately \$237 million of acquired intangible assets, approximately \$206.5 million was assigned to trademarks and trade names that are not subject to amortization and approximately \$30.5 million was assigned to customer contracts that have a weighted-average useful life of approximately 17 years.

The approximately \$1.52 billion of goodwill was assigned to Old Dean's Dairy Group, NRP and Specialty segments in the amounts of \$1.01 billion, \$215 million and \$290 million, respectively. None of the goodwill is expected to be deductible for tax purposes.

The final allocation of the purchase price to the fair values of assets and liabilities of Old Dean and the related business integration plans was completed in the fourth quarter of 2002. This final allocation process increased goodwill by approximately \$55.4 million, primarily as a result of the final determination of the fair values of depreciable tangible assets and business integration plans.

The purchase price allocation of Old Dean included a liability for payment obligations to Old Dean employees related to Old Dean stock options as a result of the change in control of Old Dean. Under Old Dean's stock option agreements, upon a change in control, employees had the right to surrender their stock options to us, in lieu of exercise, in exchange for a cash payment during the ninety day period following the change in control. The required cash payment varied depending on the type of stock option and the grant date with certain stock options requiring a cash payment equal to the difference between the exercise price and the highest closing price of our stock during the sixty day period beginning thirty days before and ending 30 days after the completion of the change in control transaction, and certain of the stock option agreements required a tax gross-up payment upon surrender. Cash payments of approximately \$44.2 million were made. At the conclusion of the surrender period, the remaining liability of approximately \$30.5 million was transferred to stockholders' equity as the underlying stock options remained outstanding.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

We also incurred a change in control obligation of approximately \$4.9 million for payments to 18 officers under Old Dean's long-term incentive plan and transition bonuses to 5 officers of Old Dean, both of which became earned and payable upon consummation of the merger; and severance obligations of approximately \$17.5 million related to the termination of certain employees and officers of Old Dean as a result of the decision to eliminate certain Old Dean administrative functions.

The unaudited results of operations on a pro forma basis for the year ended December 31, 2001 and 2000 as if the acquisition of Old Dean, and the purchase of DFA's minority interest (including the divestiture of the 11 plants transferred in partial consideration of that interest) had occurred as of the beginning of 2000 are as follows:

	Year Ended December 31	
	2001	2000
	(In thousands, except per share data)	
Net sales	\$ 10,058,288	\$ 9,239,049
Income from continuing operations before taxes	289,058	296,079
Net income from continuing operations	178,411	182,702
Earnings per share from continuing operations:		
Basic	\$ 1.38	\$ 1.40
Diluted	\$ 1.28	\$ 1.31

Acquisition of Minority Interest in Spanish Operations In August of 2001, we purchased the 25% minority interest in Leche Celta, our Spanish dairy processor, for approximately \$12.6 million. We funded this purchase with cash flow from operations.

Other Acquisitions In January 2002, we bought a milk plant in Fort Worth, Texas, and in December 2002, we completed the purchase of an ice cream plant in Denver, Colorado.

Divestitures In order to more closely align both our assets and our management resources with our strategic direction, part of our strategy in 2002 has been to divest certain assets. During 2002, we completed the sale of three non-core businesses acquired as part of Old Dean's Specialty Foods division. On January 4, 2002, we completed the sale of the stock of DFC Transportation Company, a contract hauler. On February 7, 2002, we completed the sale of the assets related to a boiled peanut business, and on October 11, 2002, we completed the sale of EBI Foods Limited, a U.K.-based manufacturer of powdered food coatings. Net proceeds from the sale of these three businesses totaled approximately \$28.9 million.

Discontinued Operations On December 30, 2002 we sold our operations in Puerto Rico for a net price of approximately \$119.4 million. In accordance with generally accepted accounting principles, our financial statements have been restated to reflect our former Puerto Rico business as a discontinued operation.

Revenues and income before taxes generated by our Puerto Rico operations were as follows:

	Year Ended December 31		
	2002	2001	2000
	(In thousands)		
Net sales	\$ 221,908	\$ 220,451	\$ 226,661
Income before tax(1)	1,762	4,213	4,229

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

- (1) Corporate interest expense of \$5.5 million, \$5.1 million and \$5.9 million in 2002, 2001 and 2000, respectively, was allocated to our Puerto Rico operations based on the ratio of our investment in them to total debt and equity.

F-14

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Major classes of assets and liabilities of our Puerto Rico operations included in Assets and Liabilities of Discontinued Operations at December 31, 2001 (in thousands) were as follows:

Current assets	\$ 43,718
Non-current assets	124,079
Current liabilities	9,082
Non-current liabilities	8,455

All intercompany revenues and expenses have been appropriately eliminated in the tables above.

In the first quarter of 2002 we recognized an impairment charge of \$37.7 million related to the goodwill of our Puerto Rico operations in accordance with our implementation of SFAS No. 142 Goodwill and Other Intangible Assets. This loss is reflected as a cumulative change in accounting principle in our Consolidated Financial Statements.

3. EXTRAORDINARY GAINS AND LOSSES

On December 21, 2001, simultaneously with our acquisition of Old Dean, we replaced our former credit facilities with a new credit facility. As a result, we recognized a \$4.3 million extraordinary loss, net of an income tax benefit of \$3 million, for the write-off of deferred financing costs related to the early retirement of our former credit facilities.

During the first quarter of 2000, we recognized a \$5 million extraordinary gain, net of income tax expense of \$2.8 million, which included the following items related to the early extinguishment of our previous senior credit facility:

A \$6.5 million gain, net of income tax expense of \$3.6 million, for interest rate derivatives which became unhedged and were marked to fair market value, and

A \$1.5 million loss, net of an income tax benefit of \$0.8 million, for the write-off of deferred financing costs.

4. INVESTMENTS IN UNCONSOLIDATED AFFILIATES

Investment in Consolidated Container Company We own a minority interest in Consolidated Container Company (CCC), one of the nation's largest manufacturers of rigid plastic containers and our largest supplier of plastic bottles and bottle components. We have owned our minority interest since July 1999 when we sold our U.S. plastic packaging operations to CCC.

Since July 2, 1999, our investment in CCC has been accounted for under the equity method of accounting. During 2001, due to a variety of operational difficulties, CCC consistently reported operating results that were significantly weaker than expected, which resulted in significant losses in the third and fourth quarters. As a result, by late 2001, CCC had become unable to comply with the financial covenants contained in its credit facility. We concluded that our investment was impaired and that the impairment was not temporary, and wrote off our remaining investment during the fourth quarter of 2001. Accordingly, our investment in CCC was recorded at \$0 at December 31, 2001.

In February 2002, CCC's lenders agreed to restructure CCC's credit agreement to modify the financial covenants, subject to the agreement of CCC's primary shareholders to guarantee certain of CCC's indebtedness. Because CCC is an important and valued supplier of ours, and in order to protect our interest in CCC, we agreed to provide a limited guarantee of up to \$10 million of CCC's revolving credit indebtedness. By late 2002, CCC was again unable to comply with the terms of its credit agreement. CCC's lenders agreed to again restructure CCC's credit agreement, subject to the agreement of CCC's primary shareholders to provide a total of \$35 million of additional debt financing to CCC. In the fourth quarter of 2002, we agreed to

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

loan CCC \$10 million of the \$35 million in additional financing, in exchange for cancellation of our pre-existing \$10 million guaranty and the receipt of additional equity. Vestar Capital Partners, majority owner of CCC, loaned CCC the remaining \$25 million. Our loan to CCC is due on December 31, 2007 (or upon the earlier payment in full of CCC's senior debt) and is secured by a subordinate lien on certain of CCC's assets. The loan is not scheduled to be repaid until after CCC's senior debt has been paid. Therefore, our right to enforce payment of the loan is limited prior to payment in full of CCC's senior debt. The loan bears interest at the prime rate plus 2.25%, or the eurodollar rate plus 3.25%, at CCC's option. Upon maturity of the loan, we will be entitled to receive a \$400,000 fee, plus an additional fee in respect of the unpaid principal amount of the loan from January 10, 2003 to the maturity date of the loan, computed at an annual rate of 11.3%. Because our participation in this transaction was not in proportion to our ownership interest in CCC, our ownership interest was diluted from approximately 43% to approximately 40%. On a fully-diluted basis, our interest is approximately 36%.

Because we made the \$10 million loan to CCC, generally accepted accounting principles required us to recognize a portion of CCC's 2002 losses, up to the amount of the loan. The loan was written off in its entirety in the fourth quarter of 2002. Accordingly, our investment in CCC was recorded at \$0 at December 31, 2002. Our equity in earnings (loss) included in our consolidated statement of income for 2002, 2001 and 2000 was \$(10.0) million, \$(23.7) million and \$11.3 million, respectively.

Approximately 5% of CCC is owned indirectly by Alan Bernon, a member of our Board of Directors, and his brother Peter Bernon. Pursuant to our agreements with Vestar, we control two of the seven seats on CCC's Management Committee. We have long-term supply agreements with CCC to purchase certain of our requirements for plastic bottles and bottle components from CCC. In 2002, we spent approximately \$128.7 million on products purchased from CCC.

Investment in Horizon Organic As of December 31, 2002 and 2001 we had an approximately 13% interest in Horizon Organic Holding Company, one of America's largest organic food companies. We account for this investment under the equity method of accounting. We believe that we have the ability to influence the operating policies of Horizon given the size of our investment and the fact that we control one seat on their Board. Horizon's common stock is traded on the Nasdaq under the symbol HCOW. The quoted stock price ranged from \$12.29 to \$18.70 during 2002. The closing stock price on December 31, 2002 was \$16.19 per share, resulting in a market value of our investment of \$21.7 million. Our investment in Horizon at December 31, 2002, 2001 and 2000 was \$16.4 million, \$16.5 million and \$16.4 million, respectively, and our equity in earnings included in our consolidated statement of income for 2002, 2001 and 2000 was a loss of \$0.1 million, income of \$0.1 million, and income of \$0.2 million, respectively.

Investment in White Wave From December 21, 2001 to May 9, 2002, we owned a 36% interest in White Wave, Inc., maker of *Silk*® and *White Wave*®. This investment was made by Old Dean prior to our acquisition of Old Dean. On May 9, 2002, we acquired the remaining equity interest in White Wave and began consolidating White Wave's results with our financial results.

Investment in Momentx As of December 31, 2002 and 2001 we had an approximately 16% interest in Momentx, Inc. Our investment in Momentx at both December 31, 2002 and 2001 was \$1.2 million. Momentx is the owner and operator of *dairy.com*, an online vertical exchange dedicated to the dairy industry. We account for this investment under the cost method of accounting. During 2001, we recorded an impairment charge on this investment of \$3.6 million in Other (income) expense, net to reflect the current value of our equity stake based on their latest financing.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. INVENTORIES**

	December 31	
	2002	2001
	(In thousands)	
Raw materials and supplies	\$ 151,179	\$ 148,940
Finished goods	249,168	276,973
Total	\$400,347	\$425,913

Approximately \$97.3 million and \$131.7 million of our inventory was accounted for under the last-in, first-out (LIFO) method of accounting at December 31, 2002 and 2001, respectively. There was no material excess of current cost over the stated value of last-in, first-out inventories at either date.

6. PROPERTY, PLANT AND EQUIPMENT

	December 31	
	2002	2001
	(In thousands)	
Land	\$ 145,978	\$ 140,612

Less accumulated depreciation	(477,669)	(327,856)
Total	\$1,628,424	\$1,611,358

For 2002 and 2001, we capitalized \$1.5 million and \$3.2 million in interest, respectively, related to borrowings during the actual construction period of major capital projects, which is included as part of the cost of the related asset.

7. INTANGIBLE ASSETS

On January 1, 2002 we adopted SFAS No. 142, which requires, among other things, that goodwill and other intangible assets with indefinite lives no longer be amortized, and that recognized intangible assets with finite lives be amortized over their respective useful lives. As required by SFAS No. 142, our results for the years ended December 31, 2001 and 2000 have not been restated. The following sets forth a reconciliation of

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

net income and earnings per share information for the years ended December 31, 2002, 2001 and 2000 eliminating amortization of goodwill and intangible assets with indefinite lives.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In accordance with SFAS No. 142, we completed a goodwill impairment assessment on our goodwill balances during 2002. The results of this test indicated that the goodwill related to our Puerto Rico reporting unit was impaired at January 1, 2002. In the fourth quarter of 2002, we determined that the impairment that existed as of January 1, 2002 was \$37.7 million. As required by SFAS No. 142, we recorded the impairment in our income statement as the cumulative effect of accounting change retroactive to the first quarter of 2002. See Note 2 for information related to the sale of our Puerto Rico operating unit. Other than our Puerto Rico operations, our annual impairment test, which was completed in the fourth quarter of 2002, indicated no goodwill impairment.

The gross carrying amount and accumulated amortization of our intangible assets other than goodwill as of December 31, 2002 and 2001 are as follows:

	December 31					
	2002			2001		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
	(In thousands)			(In thousands)		
Intangible assets with indefinite lives:						
Trademarks	\$478,691	\$(14,274)	\$464,417	\$391,662	\$(14,274)	\$377,388
Intangible assets with finite lives:						
Customer-related	56,864	(13,270)	43,594	56,707	(6,075)	50,632
Total other intangibles	\$535,555	\$(27,544)	\$508,011	\$448,369	\$(20,349)	\$428,020

In accordance with SFAS No. 142, we completed an impairment assessment of our intangibles with an indefinite useful life, other than goodwill, at January 1, 2002 during the first quarter of 2002. We determined that an impairment of \$47.3 million, net of income tax benefit of \$29 million existed at January 1, 2002. The impairment related to certain trademarks in our Dairy Group and Morningstar/ White Wave segments, and was recorded in the first quarter as the cumulative effect of accounting change. The fair value of these trademarks was determined using a present value technique. Our annual impairment test was completed in the fourth quarter of 2002, and no additional impairment was identified.

Amortization expense on intangible assets for the years ended December 31, 2002, 2001 and 2000 was \$7.8 million, \$7.8 million and \$7.1 million, respectively. Estimated aggregate intangible asset amortization expense for the next five years is as follows:

2003	\$ 4.9 million
2004	\$ 4.0 million
2005	\$ 3.2 million
2006	\$ 2.5 million
2007	\$ 1.8 million

The tax effects of temporary differences giving rise to deferred income tax assets and liabilities were:

	December 31	
	2002	2001
	(In thousands)	
Deferred income tax assets:		
Net operating loss carryforwards	\$ 11,990	\$ 17,675
Asset valuation reserves	10,859	317
Non-deductible accruals	130,753	129,449
State and foreign tax credits	7,632	12,490
Derivative instruments	27,433	14,624
Other	8,860	8,133
Valuation allowances	(6,064)	(1,537)
	<u>191,463</u>	<u>181,151</u>
Deferred income tax liabilities:		
Depreciation and amortization	(312,165)	(300,092)
Tax credit basis differences		(7,854)
Basis differences in unconsolidated affiliates	(8,777)	(7,515)
	<u>(320,942)</u>	<u>(315,461)</u>
Net deferred income tax liability	<u>\$ (129,479)</u>	<u>\$ (134,310)</u>

These net deferred income tax assets (liabilities) are classified in our consolidated balance sheets as follows:

	December 31	
	2002	2001
	(In thousands)	
Current assets	\$ 158,337	\$ 127,215
Noncurrent assets	6,440	19,704
Noncurrent liabilities	(294,256)	(281,229)
Total	<u>\$ (129,479)</u>	<u>\$ (134,310)</u>

At December 31, 2002, we had approximately \$13.1 million of net operating losses and approximately \$3.9 million of tax credits available for carry-over to future years. The losses are subject to certain limitations and will expire beginning in 2007.

A valuation allowance of \$6.1 million has been established because we believe it is more likely than not that all of the deferred tax assets relating to state net operating loss and credit carryovers, foreign tax credit carryovers and capital loss carryovers will not be realized prior to the date they are scheduled to expire.

Senior Credit Facility Simultaneously with the completion of our acquisition of Old Dean, we entered into a new \$2.7 billion credit agreement with a syndicate of lenders, in replacement of our then existing credit facilities. Our new senior credit facility provides an \$800 million revolving line of credit, a Tranche A \$900 million term loan and a Tranche B \$1 billion term loan. Upon completion of the Old Dean acquisition, we borrowed \$1.9 billion under this facility's term loans. At December 31, 2002 there were outstanding term loan borrowings of \$1.83 billion under this facility. The revolving line of credit was undrawn, except for \$71.8 million of issued but undrawn letters of credit. As of December 31, 2002, approximately \$728.2 million was available for future borrowings under the revolving credit facility, subject to satisfaction of certain conditions contained in the loan agreement. We are currently in compliance with all covenants contained in our credit agreement.

Credit Facility Terms Amounts outstanding under the revolving line of credit and the Tranche A term loan bear interest at a rate per annum equal to one of the following rates, at our option:

a base rate equal to the higher of the Federal Funds rate plus 50 basis points or the prime rate, plus a margin that varies from 25 to 150 basis points, depending on our leverage ratio (which is the ratio of defined indebtedness to defined EBITDA), or

the London Interbank Offering Rate (LIBOR) computed as LIBOR divided by the product of one minus the Eurodollar Reserve Percentage, plus a margin that varies from 150 to 275 basis points, depending on our leverage ratio.

On April 30, 2002, we entered into an amendment to our credit facility pursuant to which the interest rate for amounts outstanding under the Tranche B term loan was lowered by 50 basis points, to the following, at our option:

a base rate equal to the higher of the Federal Funds rate plus 50 basis points or the prime rate, plus a margin that varies from 75 to 150 basis points, depending on our leverage ratio, or

LIBOR divided by the product of one minus the Eurodollar Reserve Percentage, plus a margin that varies from 200 to 275 basis points, depending on our leverage ratio.

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The blended interest rate in effect on borrowings under the senior credit facility, including the applicable interest rate margin, was 3.65% at December 31, 2002. However, we had interest rate swap agreements in place that hedged \$1.08 billion of our borrowings under this facility at December 31, 2002 at an average rate of 5.4%, plus the applicable interest rate margin. Interest is payable quarterly or at the end of the applicable interest period.

The agreement requires principal payments on the Tranche A term loan as follows:

\$16.87 million quarterly from March 31, 2002 through December 31, 2002;

\$33.75 million quarterly from March 31, 2003 through December 31, 2004;

\$39.38 million quarterly from March 31, 2005 through December 31, 2005;

\$45.0 million quarterly from March 31, 2006 through December 31, 2006;

\$56.25 million quarterly from March 31, 2007 through June 30, 2007; and

A final payment of \$112.5 million on July 15, 2007.

The agreement requires principal payments on the Tranche B term loan as follows:

\$1.25 million quarterly from March 31, 2002 through December 31, 2002;

\$2.5 million quarterly from March 31, 2003 through December 31, 2007;

A payment of \$472.5 million on March 31, 2008; and

A final payment of \$472.5 million on July 15, 2008.

No principal payments are due on the revolving line of credit until maturity on July 15, 2007.

The credit agreement also requires mandatory principal prepayments in certain circumstances including without limitation: (1) upon the occurrence of certain asset dispositions not in the ordinary course of business, (2) upon the occurrence of certain debt and equity issuances when our leverage ratio is greater than 3.75 to 1.0, and (3) beginning in 2003, annually when our leverage ratio is greater than 3.0 to 1.0. The credit agreement requires that we prepay 50% of defined excess cash flow for any fiscal year (beginning in 2003) in which our leverage ratio at year end is greater than 3.75 to 1.0. As of December 31, 2002, our leverage ratio was 3.3 to 1.0.

In consideration for the revolving commitments, we pay a commitment fee on unused amounts of the \$800 million revolving credit facility that ranges from 37.5 to 50 basis points, depending on our leverage ratio.

The senior credit facility contains various financial and other restrictive covenants and requires that we maintain certain financial ratios, including a leverage ratio (computed as the ratio of the aggregate outstanding principal amount of defined indebtedness to defined EBITDA) and an interest coverage ratio (computed as the ratio of defined EBITDA to interest expense). In addition, this facility requires that we maintain a minimum level of net worth (as defined by the agreement).

Our leverage ratio must be less than or equal to:

Period	Ratio
--------	-------

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

12-21-01 through 12-31-02	4.25 to 1.00
01-01-03 through 12-31-03	4.00 to 1.00
01-01-04 through 12-31-04	3.75 to 1.00
01-01-05 and thereafter	3.25 to 1.00

F-23

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Our interest coverage ratio must be greater than or equal to 3.00 to 1.00.

Our consolidated net worth must be greater than or equal to \$1.2 billion, as increased each quarter (beginning with the quarter ended March 31, 2002) by an amount equal to 50% of our consolidated net income for the quarter, plus 75% of the amount by which stockholders equity is increased by certain equity issuances. As of December 31, 2002, the minimum net worth requirement was \$1.28 billion.

Our credit agreement permits us to complete acquisitions that meet the following conditions without obtaining prior approval: (1) the acquired company is involved in the manufacture, processing and distribution of food or packaging products or any other line of business in which we are currently engaged, (2) the total cash consideration is not greater than \$300 million, (3) we acquire at least 51% of the acquired entity, and (4) the transaction is approved by the Board of Directors or shareholders, as appropriate, of the target. All other acquisitions must be approved in advance by the required lenders.

Our credit agreement also permits us to repurchase stock under our open market share repurchase program, provided that, if our leverage ratio is greater than 3.75 to 1.0, total Restricted Payments (as defined in the agreement, which definition includes stock repurchases) cannot exceed \$50 million per year, plus the amount of payments required to be made on our outstanding convertible preferred securities during that year.

The facility also contains limitations on liens, investments and the incurrence of additional indebtedness, and prohibits certain dispositions of property and restricts certain payments, including dividends. The credit facility is secured by liens on substantially all of our domestic assets (including the assets of our subsidiaries, but excluding the capital stock of Old Dean's subsidiaries and certain real property owned by Old Dean and its subsidiaries).

The agreement contains standard default triggers including without limitation: failure to maintain compliance with the financial and other covenants contained in the agreement, default on certain of our other debt, a change in control and certain other material adverse changes in our business. The agreement does not contain any default triggers based on our debt rating.

In December 2002, we executed an amendment to our credit facility to relax certain restrictions. We paid an aggregate of \$2.1 million to the lenders who approved the amendment.

Senior Notes Old Dean had certain senior notes outstanding at the time of the acquisition which remain outstanding. The notes carry the following interest rates and maturities:

\$96.8 million (\$100 million face value), at 6.75% interest, maturing in 2005;

\$250.5 million (\$250 million face value), at 8.15% interest, maturing in 2007;

\$184.3 million (\$200 million face value), at 6.625% interest, maturing in 2009; and

\$125.3 million (\$150 million face value), at 6.9% interest, maturing in 2017.

The related indentures do not contain financial covenants but they do contain certain restrictions including a prohibition against Old Dean and its subsidiaries granting liens on certain of their real property interests and a prohibition against Old Dean granting liens on the stock of its subsidiaries. The indentures also place certain restrictions on Old Dean's ability to divest assets not in the ordinary course of business.

Receivables-Backed Loan We have entered into a \$400 million receivables securitization facility pursuant to which certain of our subsidiaries sell their accounts receivable to three wholly-owned special purpose entities intended to be bankruptcy-remote. The special purpose entities then transfer the receivables to third party asset-backed commercial paper conduits sponsored by major financial institutions. The assets and liabilities of these three special purpose entities are fully reflected on our balance sheet, and the securitization is treated as a borrowing for accounting purposes. During 2002, we made net payments of \$255 million on this facility leaving an outstanding balance of \$145 million at December 31, 2002. The

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

receivables-backed loan bears interest at a variable rate based on the commercial paper yield as defined in the agreement. Our ability to re-borrow under this facility is subject to a standard borrowing base formula. At December 31, 2002, we could have re-borrowed an additional \$180 million under this facility.

Foreign Subsidiary Term Loan In connection with our acquisition of Leche Celta in February 2000, our Spanish subsidiary obtained a 42.1 million euro (as of December 31, 2002, approximately \$44.1 million) non-recourse term loan from a syndicate of lenders, all of which was borrowed at closing and used to finance a portion of the purchase price. The loan, which is secured by the stock of Leche Celta, will expire on February 21, 2007, bears interest at a variable rate based on the ratio of Leche Celta's debt to EBITDA (as defined in the corresponding loan agreement), and requires semi-annual principal payments. At December 31, 2002, a total of \$35.7 million was outstanding under this facility.

Other Lines of Credit Leche Celta, our Spanish subsidiary, is our only subsidiary with its own lines of credit separate from the credit facilities described above. Leche Celta's primary line of credit, which is in the principal amount of 15 million euros (as of December 31, 2002 approximately \$15.7 million), was obtained on July 12, 2000, bears interest at a variable interest rate based on the ratio of Leche Celta's debt to EBITDA (as defined in the corresponding loan agreement), is secured by our stock in Leche Celta and will expire in June 2007. Leche Celta also utilizes other local commercial lines of credit and receivables factoring facilities. At December 31, 2002, a total of \$11.9 million was outstanding on these facilities.

Industrial Development Revenue Bonds Certain of our subsidiaries have revenue bonds outstanding, some of which require nominal annual sinking fund redemptions. Typically, these bonds are secured by irrevocable letters of credit issued by financial institutions, along with first mortgages on the related real property and equipment. Interest on these bonds is due semiannually at interest rates that vary based on market conditions.

Other Subsidiary Debt Other subsidiary debt includes various promissory notes for the purchase of property, plant, and equipment and capital lease obligations. The various promissory notes payable provide for interest at varying rates and are payable in monthly installments of principal and interest until maturity, when the remaining principal balances are due. Capital lease obligations represent machinery and equipment financing obligations which are payable in monthly installments of principal and interest and are collateralized by the related assets financed.

Letters of Credit At December 31, 2002 there were \$71.8 million of issued but undrawn letters of credit secured by our senior credit facility. In addition to the letters of credit secured by our credit facility, an additional \$49 million of letters of credit were outstanding at December 31, 2002. The majority of these letters of credit were required by various utilities and government entities for performance and insurance guarantees.

Interest Rate Agreements We have interest rate swap agreements in place that have been designated as cash flow hedges against variable interest rate exposure on a portion of our debt, with the objective of minimizing our interest rate risk and stabilizing cash flows. These swap agreements provide hedges for loans under our senior credit facility by limiting or fixing the LIBOR interest rates specified in the senior credit facility at the interest rates noted below until the indicated expiration dates of these interest rate swap agreements.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes our various interest rate agreements in effect as of December 31, 2002:

Fixed Interest Rates	Expiration Date	Notional Amounts
(in millions)		
6.23%	June 2003	\$ 50
4.29% to 4.69%	December 2003	275
4.01% to 6.69%	December 2004	275
5.20% to 6.74%	December 2005	400
6.78%	December 2006	75

The following table summarizes our various interest rate agreements in effect as of December 31, 2001:

Fixed Interest Rates	Expiration Date	Notional Amounts
(in millions)		
4.90% to 4.93%	December 2002	\$ 275
6.07% to 6.24%	December 2002	325
6.23%	June 2003	50
6.69%	December 2004	100
6.69% to 6.74%	December 2005	100
6.78%	December 2006	75

In January 2003, we entered into forward starting swaps that begin in March 2003 with a notional amount of \$400 million. These swaps all expire in December 2003 and the fixed interest rates range between 1.47% to 1.48%. These swaps have been designated as hedges against interest rate exposure on loans under our senior credit facility.

We have also entered into interest rate swap agreements that provide hedges for loans under Leche Celta's term loan. The following table summarizes these agreements:

Fixed Interest Rates	Expiration Date	Notional Amounts
5.54%	November 2003	9 million euros (approximately \$9.4 million as of December 31, 2002 and \$8 million as of December 31, 2001)
5.60%	November 2004	12 million euros (approximately \$12.6 million as of December 31, 2002 and \$10.7 million as of December 31, 2001)

These swaps are required to be recorded as an asset or liability on our consolidated balance sheet at fair value, with an offset to other comprehensive income to the extent the hedge is effective. Derivative gains and losses included in other comprehensive income are reclassified into earnings as the underlying transaction occurs. Any ineffectiveness in our hedges is recorded as an adjustment to interest expense.

As of December 31, 2002 and 2001, our derivative liability totaled \$80.4 million and \$44.1 million on our consolidated balance sheet respectively. This balance includes approximately \$42.8 million and \$27.8 million recorded as a component of accounts payable and accrued expenses at December 31, 2002 and 2001, respectively and \$37.6 million and \$16.3 million recorded as a component of other long-term liabilities at December 31, 2002 and 2001, respectively. There was no hedge ineffectiveness, as determined in accordance with SFAS No. 133, for the years ended December 31, 2002 and 2001, respectively. Approximately \$24 million and \$6.9 million of losses (net of taxes) were reclassified to interest expense from other comprehensive income during the years ended December 31, 2002 and 2001, respectively. We estimate that approximately \$27 million of net derivative losses (net of income taxes) included in other comprehensive

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

income will be reclassified into earnings within the next 12 months. These losses will partially offset the lower interest payments recorded on our variable rate debt.

We are exposed to market risk under these arrangements due to the possibility of interest rates on the credit facilities falling below the rates on our interest rate swap agreements. Credit risk under these arrangements is remote since the counterparties to our interest rate swap agreements are major financial institutions.

11. MANDATORILY REDEEMABLE TRUST ISSUED PREFERRED SECURITIES

On March 24, 1998, we issued \$600 million of company-obligated 5.5% mandatorily redeemable convertible preferred securities of a Delaware business trust subsidiary in a private placement to qualified institutional buyers under Rule 144A under the Securities Act of 1933, as amended. The 5.5% preferred securities, which are recorded net of related fees and expenses, mature 30 years from the date of issue. Holders of these securities are entitled to receive preferential cumulative cash distributions at an annual rate of 5.5% of their liquidation preference of \$50 each. These distributions are payable quarterly in arrears on January 1, April 1, July 1 and October 1 of each year. These trust issued preferred securities are convertible at the option of the holders into an aggregate of approximately 23 million shares of our common stock, subject to adjustment in certain circumstances, at a conversion price of \$26.09. These preferred securities are also redeemable, at our option, at any time at specified premiums and are mandatorily redeemable at their liquidation preference amount of \$50 per share at maturity or upon occurrence of certain specified events. See Note 24.

12. STOCKHOLDERS EQUITY

Our authorized shares of capital stock include 1,000,000 shares of preferred stock and 500,000,000 shares of common stock with a par value of \$.01 per share.

Stock Award Plans We currently have two stock award plans with shares remaining available for issuance. These plans, including our 1997 Stock Option and Restricted Stock Plan and the 1989 Old Dean Stock Awards Plan (which we adopted upon completion of our acquisition of Old Dean), provide for grants of stock options, restricted stock and other stock-based awards to employees, officers, directors and, in some cases, consultants, up to a maximum of 37.5 million and approximately 5.7 million shares, respectively. Approximately 9.9 million and 1.2 million shares remained available for issuance under the 1997 and 1989 plans, respectively, as of March 25, 2003. Options and other stock-based awards vest in accordance with provisions set forth in the applicable award agreements.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes the status of our stock-based compensation programs:

	Options	Weighted Average Exercise Price
Outstanding at December 31, 1999	13,791,753	\$ 11.56
Granted	4,100,700	12.76
Canceled	(620,103)	14.07
Exercised	(3,693,537)	6.93
Outstanding at December 31, 2000	13,578,813	\$ 12.99
Granted	3,732,450	14.56
Options issued to Old Dean option holders(1)	8,055,336	15.39

Exercisable at December 31, 2001	14,553,276	14.38
Exercisable at December 31, 2002	8,997,099	14.42

- (1) In connection with our acquisition of Old Dean, all options to purchase Old Dean stock outstanding at the time of the acquisition were automatically converted into options to purchase our stock. Upon conversion, those options represented options to purchase a total of approximately 8.1 million shares of our common stock. Also, the acquisition triggered certain change in control rights contained in the option agreements, which consisted of the right to surrender the options to us, in lieu of exercise, in exchange for cash, provided the options were surrendered prior to March 21, 2002. Options to purchase approximately 2.4 million shares were surrendered. See Note 2 to our Consolidated Financial Statements.
- (2) The acquisition of Old Dean triggered certain change in control rights contained in the Old Dean option agreements, which consisted of the right to surrender the options to us, in lieu of exercise, in exchange for cash, provided the options were surrendered prior to March 21, 2002. Options to purchase approximately 2.3 million shares were surrendered.

The following table summarizes information about options outstanding and exercisable at December 31, 2002:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Number Outstanding	Weighted-Average Remaining Contractual Life	Weighted-Average Exercise Price	Number Exercisable	Weighted-Average Exercise Price
\$ 0 to \$6.75	292,326	3.00	\$ 4.27	292,326	\$ 4.27
9.02 to 10.14	1,398,426	4.18	\$ 9.73	1,398,426	\$ 9.73

F-28

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

During 2002, we issued the following shares of restricted stock, all of which were granted to independent members of our Board of Directors as compensation for services rendered as directors during the immediately preceding quarter. Directors' shares of restricted stock vest one-third on grant, one-third on the first anniversary of grant and one-third on the second anniversary of grant.

Period	Number of Shares	Grant Date Fair Value Per Share
First quarter	2,814	\$23.13
Second quarter	4,452	25.31
Third quarter	4,005	24.77
Fourth quarter	3,134	25.55

Rights Plan On February 27, 1998, our Board of Directors declared a dividend of the right to purchase one half of one common share for each outstanding share of common stock to the stockholders of record on March 18, 1998. The rights are not exercisable until ten days subsequent to the announcement of the acquisition of or intent to acquire a beneficial ownership of 15% or more in Dean Foods Company. At such time, each right entitles the registered holder to purchase from us that number of shares of common stock at an exercise price of \$70.00, with a market value of up to two times the exercise price. At any time prior to such date, a required majority may redeem the rights in whole, but not in part, at a price of \$0.01 per right. The rights will expire on March 18, 2008, unless our Board of Directors extends the term of, or redeems, the rights.

Earnings Per Share Basic earnings per share is based on the weighted average number of common shares outstanding during each period. Diluted earnings per share is based on the weighted average number of common shares outstanding and the effect of all dilutive common stock equivalents during each period. The

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

following table reconciles the numerators and denominators used in the computations of both basic and diluted EPS:

	Year Ended December 31		
	2002	2001	2000

Average common shares diluted	163,163,904	110,676,222	110,013,792
Diluted EPS from continuing operations	\$ 1.77	\$ 1.21	\$ 1.19

(1) Stock option conversion excludes anti-dilutive shares of 263,655; 1,809,819; and 3,270,303 at December 31, 2002, 2001 and 2000, respectively.

Securities Repurchases On September 15, 1998, our Board of Directors authorized a stock repurchase program of up to \$100 million. On September 28, 1999, the Board increased the program by \$100 million to \$200 million and on November 17, 1999 authorized a further increase to \$300 million. We depleted the \$300 million authorization during the second quarter of 2000, and on May 19, 2000, the Board increased the program by \$100 million to \$400 million. On November 2, 2000 the Board authorized a further increase to \$500 million. On each of January 8, 2003 and February 12, 2003, the Board authorized additional increases of

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

\$150 million each. See Note 24. Set forth in the chart below is a summary of the stock we repurchased pursuant to this program through December 31, 2002.

Period	No. of Shares of Common Stock Repurchased	Purchase Price
Third Quarter 1998	3,000,000	\$ 30.4 million
Fourth Quarter 1998	1,531,200	15.6 million
Second Quarter 1999	239,100	3.0 million
Third Quarter 1999	5,551,545	66.7 million
Fourth Quarter 1999	10,459,524	128.4 million
First Quarter 2000	2,066,400	27.2 million
Second Quarter 2000	2,898,195	42.2 million
Third Quarter 2000	4,761,000	77.0 million
Fourth Quarter 2000	120,000	2.1 million
First Quarter 2001	370,002	6.1 million
Fourth Quarter 2002	4,126,200	101.2 million
Total	35,123,166	\$499.9 million

As of March 25, 2003, \$171.6 million remains available for spending under this program.

Repurchased shares are treated as effectively retired in the Consolidated Financial Statements.

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****13. OTHER COMPREHENSIVE INCOME**

Comprehensive income comprises net income plus all other changes in equity from non-owner sources. The amount of income tax (expense) benefit allocated to each component of other comprehensive income during the year ended December 31, 2002 and 2001 are included below.

	Pre-Tax Income (Loss)	Tax Benefit (Expense) and Minority Interest	Net Amount
(In thousands)			
Accumulated other comprehensive income, December 31, 2000	\$ (2,394)	\$ 1,283	\$ (1,111)
Cumulative translation adjustment	(3,676)	1,444	(2,232)
Cumulative effect of accounting change	(16,278)	9,875	(6,403)
Net change in fair value of derivative instruments	(44,844)	28,474	(16,370)
Amounts reclassified to income statement related to derivatives	17,230	(10,298)	6,932
Reclassification of minority interest portion on derivative fair values		(10,033)	(10,033)

Accumulated other comprehensive income, December 31, 2001	\$ (51,021)	\$ 21,178	\$ (29,843)
Cumulative translation adjustment	13,392	(4,984)	8,408
Net change in fair value of derivative instruments	(74,332)	27,529	(46,803)
Amounts reclassified to income statement related to derivatives	38,945	(14,931)	24,014
Minimum pension liability adjustment	(18,668)	7,187	(11,481)
Accumulated other comprehensive income, December 31, 2002	\$ (91,684)	\$ 35,979	\$ (55,705)

14. EMPLOYEE RETIREMENT AND PROFIT SHARING PLANS

We sponsor various defined benefit and defined contribution retirement plans, including various employee savings and profit sharing plans, and contribute to various multi-employer pension plans on behalf of our employees. Substantially all full-time union and non-union employees who have completed one or more years of service and have met other requirements pursuant to the plans are eligible to participate in these plans. During 2002, 2001 and 2000, our retirement and profit sharing plan expenses were as follows:

	Year Ended December 31		
	2002	2001	2000
(In thousands)			
Defined benefit plans	\$ 11,597	\$ 989	\$ 2,425
Defined contribution plans	14,836	15,821	\$ 6,504
Multi-employer pension plans	4,326	5,671	5,599

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

\$30,759	\$22,481	\$14,528
----------	----------	----------

Defined Benefit Plans The benefits under our defined benefit plans are based on years of service and employee compensation. Our funding policy is to contribute annually the minimum amount required under ERISA regulations. Plan assets consist principally of investments made with insurance companies under a group annuity contract.

F-32

Effect of Settlement	3,031		
Net periodic benefit cost	\$ 9,052	\$ 1,343	\$(3,591)

The projected benefit obligation, accumulated benefit obligation, and fair value of plan assets for the pension plan with accumulated benefit obligations in excess of plan assets were \$240.9 million, \$223.4 million and \$120.4 million, respectively, as of December 31, 2002 and \$82.8 million, \$81.3 million, and \$67.8 million, respectively, as of December 31, 2001.

Defined Contribution Plans Certain of our non-union personnel may elect to participate in savings and profit sharing plans sponsored by us. These plans generally provide for salary reduction contributions to the plans on behalf of the participants of between 1% and 17% of a participant's annual compensation and provide for employer matching and profit sharing contributions as determined by our Board of Directors. In addition, certain union hourly employees are participants in company-sponsored defined contribution plans which provide for employer contributions in various amounts ranging from \$21 to \$39 per pay period per participant.

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

Multi-Employer Pension Plans Certain of our subsidiaries contribute to various multi-employer union pension plans, which are administered jointly by management and union representatives and cover substantially all full-time and certain part-time union employees who are not covered by our other plans. The Multi-Employer Pension Plan Amendments Act of 1980 amended ERISA to establish funding requirements and obligations for employers participating in multi-employer plans, principally related to employer withdrawal

F-34

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

from or termination of such plans. We could, under certain circumstances, be liable for unfunded vested benefits or other expenses of jointly administered union/ management plans. At this time, we have not established any liabilities because withdrawal from these plans is not probable or reasonably possible.

15. POST-RETIREMENT BENEFITS OTHER THAN PENSIONS

Certain of our subsidiaries provide health care benefits to certain retirees who are covered under specific group contracts. As defined by the specific group contract, qualified covered associates may be eligible to receive major medical insurance with deductible and co-insurance provisions subject to certain lifetime maximums.

The following table sets forth the funded status of these plans and the amounts recognized in our consolidated balance sheets:

	December 31	
	2002	2001
	(In thousands)	
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 20,605	\$ 6,892
Service cost	1,039	140
Interest cost	1,139	504
Plan participants contributions	195	157

Amortizations:			
Prior service cost	(210)	(43)	(51)
Unrecognized net (gain)/loss	133	(43)	
Recognized net actuarial loss from curtailment		217	65
Net periodic benefit cost	\$2,101	\$775	\$493

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one percent change in assumed health care cost trend rates would have the following effects:

	1-Percentage- Point Increase	1-Percentage- Point Decrease
	(In thousands)	
Effect on total of service and interest cost components	\$ 179	\$(157)
Effect on post-retirement obligation	1,123	(990)

16. PLANT CLOSING COSTS

Plant Closing Costs As part of an overall integration and cost reduction strategy, we recorded plant closing and other non-recurring costs during 2002, 2001 and 2000 in the amount of \$19.1 million, \$9.6 million and \$2.7 million, respectively. In addition, our share of Consolidated Container Company's restructuring charges were expenses of \$1.7 million and income of \$0.8 million during 2001 and 2000, respectively. These amounts were reported as an adjustment to equity in earnings of unconsolidated affiliates.

The charges recorded during 2002 are related to the closing of Dairy Group plants in Bennington, Vermont and Toledo, Ohio, a Dairy Group distribution facility in Winchester, Virginia, and one Morningstar plant in Tempe, Arizona. The charges also reflect additional costs related to severance on the closing of our dairy plant in Port Huron, Michigan in 2001, the shutdown of an ice cream production line at our Englewood, Colorado plant and the closing of a plant's administrative offices in Grand Rapids, Michigan in our Dairy Group.

During 2001, we recorded charges related to the closing of three Dairy Group plants with consolidation of production into other plants. The plants closed during 2001 were our processing facilities in Canton, Mississippi, Corpus Christi, Texas and Port Huron, Michigan.

The charges recorded for our integration and cost reduction programs in 2000 reflect several approved efficiency and integration efforts including restructuring of our corporate office departments and closing of our Hartford, Connecticut plant.

The principal components of these plans include the following:

Workforce reductions as a result of plant closings, plant rationalizations and consolidation of administrative functions. The plans included an overall reduction of 451 people in 2002, 198 people in 2001 and 114 people in 2000, who were primarily plant employees associated with the plant closings and rationalization. The costs were charged to our earnings in the period that the plan was established in detail and employee severance and benefits had been appropriately communicated. All except 66 employees had been terminated as of December 31,

2002;

Shutdown costs, including those costs that are necessary to prepare the plant facilities for closure;

F-36

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Costs incurred after shutdown such as lease obligations or termination costs, utilities and property taxes; and

Write-downs of property, plant and equipment and other assets, primarily for asset impairments as a result of facilities that are no longer used in operations. The impairments relate primarily to owned buildings, land and equipment at the facilities which are being sold and were written down to their estimated fair value. The effect of suspending depreciation on the buildings and equipment related to the closed facilities was not significant. The carrying value of closed facilities at December 31, 2002 was approximately \$3.5 million. We are marketing these properties for sale. Divestitures of the closed facilities has not resulted in significant modification to the estimate of fair value.

Activity with respect to plant closing and other non-recurring costs for 2002 is summarized below:

	Balance at December 31, 2001	Charges	Payments	Balance at December 31, 2002
(In thousands)				
Cash charges:				
Workforce reduction costs	\$ 668	\$ 4,576	\$(1,362)	\$3,882
Shutdown costs	460	1,468	(271)	1,657
Lease obligations after shutdown	119	563	(14)	668
Other	253	1,190	(657)	786
Subtotal	\$1,500	7,797	\$(2,304)	\$6,993
Noncash charges:				
Write-down of property, plant and equipment		11,253		
Total charges		\$19,050		

Activity with respect to plant closing and other non-recurring costs for 2001 is summarized below:

	Balance at December 31, 2000	Charges	Payments	Balance at December 31, 2001
(In thousands)				
Cash charges:				
Workforce reduction costs	\$1,179	\$1,088	\$(1,599)	\$ 668

Lease obligations after shutdown	118	183	(182)	119
Other		843	(590)	253
Subtotal	\$1,660	2,738	\$(2,898)	\$1,500
Noncash charges:				
Write-down of property, plant and equipment		6,812		
Total charges		\$9,550		

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

There have not been significant adjustments to the plans and the majority of future cash requirements to reduce the liability at December 31, 2002 are expected to be completed within a year.

Acquired Facility Closing Costs As part of our purchase price allocations, we accrued costs in 2002 and 2001 pursuant to plans to exit certain activities and operations of acquired businesses in order to rationalize

F-37

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

production and reduce costs and inefficiencies. Several plants were closed in connection with our acquisition of Old Dean. Plants in Atkins, Arkansas and Cairo, Georgia in the Specialty Foods segment and a plant in Escondido, California in the Dairy Group were closed. We have also eliminated Old Dean's administrative offices, closed Dairy Group distribution depots in Parker Ford, Pennsylvania and Camp Hill, Pennsylvania, relocated production between plants and are shutting down two pickle tank yards as part of our overall integration and efficiency efforts related to our acquisition of Old Dean.

The principal components of the plans include the following:

Workforce reductions as a result of plant closings, plant rationalizations and consolidation of administrative functions and offices, resulting in an overall reduction of 839 plant and administrative personnel. The costs incurred were charged against our acquisition liabilities for these costs. As of December 31, 2002, 116 employees had not yet been terminated;

Shutdown costs, including those costs that are necessary to clean and prepare the plant facilities for closure; and

Costs incurred after shutdown such as lease obligations or termination costs, utilities and property taxes after shutdown of the plant or administrative office.

Activity with respect to these acquisition liabilities for 2002 is summarized below:

	Accrued Charges at December 31, 2001	Accruals	Payments	Accrued Charges at December 31, 2002
(In thousands)				
Workforce reduction costs	\$20,029	\$11,205	\$(22,232)	\$ 9,002
Shutdown costs	12,621	7,880	(8,864)	11,637
Total	\$32,650	\$19,085	\$(31,096)	\$20,639

Activity with respect to these acquisition liabilities for 2001 is summarized below:

	Accrued Charges at December 31, 2000	Accruals	Payments	Accrued Charges At December 31, 2001
(In thousands)				
Workforce reduction costs	\$ 997	\$19,357	\$ (325)	\$20,029
Shutdown costs	7,271	8,647	(3,297)	12,621
Total	\$8,268	\$28,004	\$(3,622)	\$32,650

17. SHIPPING AND HANDLING FEES

Our shipping and handling costs are included in both cost of sales and selling and distribution expense, depending on the nature of such costs. Shipping and handling costs included in cost of sales reflect the cost of shipping products to customers through third party carriers, inventory warehouse costs and product loading and handling costs. Shipping and handling costs included in selling and distribution expense

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

consist primarily of route delivery costs for both company-owned delivery routes and independent distributor routes, to the extent that such independent distributors are paid a delivery fee. Shipping and handling costs that were recorded as a component of selling and distribution expense were approximately \$951.9 million, \$639.2 million and \$591.1 million during 2002, 2001 and 2000, respectively.

F-38

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****18. OTHER OPERATING (INCOME) EXPENSE**

During the fourth quarter of 2001, we recognized a net of \$17.3 million of other operating income which includes the following:

A gain of \$47.5 million on the divestiture of the plants transferred to National Dairy Holdings (as assignee of Dairy Farmers of America) in connection with the acquisition of Old Dean. The gain represented the difference between fair value and the carrying value of the plants;

An expense of \$28.5 million resulting from a payment to Dairy Farmers of America as consideration for certain modifications to our existing milk supply arrangements; and

An expense of \$1.7 million resulting from the impairment in value of a water plant.

19. SUPPLEMENTAL CASH FLOW INFORMATION

	Year Ended December 31		
	2002	2001	2000
	(In thousands)		
Cash paid for interest and financing charges, net of capitalized interest	\$ 224,561	\$ 139,984	\$ 142,205
Cash paid for taxes	44,738	24,983	31,883
Noncash transactions:			
Issuance of common stock in connection with business acquisitions		739,366	
Issuance of subsidiary preferred and common securities in connection with two acquisitions			340,336
Operations of 11 plants in connection with acquisition of minority interest		287,989	

20. COMMITMENTS AND CONTINGENCIES

Leases We lease certain property, plant and equipment used in our operations under both capital and operating lease agreements. Such leases, which are primarily for machinery, equipment and vehicles, have lease terms ranging from 1 to 20 years. Certain of the operating lease agreements require the payment of additional rentals for maintenance, along with additional rentals based on miles driven or units produced. Rent expense, including additional rent, was \$124.5 million, \$86.9 million and \$66.4 million for the years ended December 31, 2002, 2001 and 2000, respectively.

The composition of capital leases which are reflected as property, plant and equipment in our consolidated balance sheets are as follows:

	December 31	
	2002	2001
	(In thousands)	
Buildings and improvements	\$ 588	\$ 11,251
Machinery and equipment	9,200	4,666
Less accumulated amortization	(5,347)	(1,973)
	\$ 4,441	\$ 13,944

		<hr/>
Less amount representing interest	(154)	
	<hr/>	
Present value of capital lease obligations	\$ 1,384	
	<hr/>	

Contingent Obligations Related to Milk Supply Arrangements On December 21, 2001, in connection with our acquisition of Old Dean, we purchased Dairy Farmers of America's (DFA) 33.8% stake in our Dairy Group. In connection with that transaction, we issued a contingent, subordinated promissory note to DFA in the original principal amount of \$40 million. DFA is our primary supplier of raw milk, and the promissory note is designed to ensure that DFA has the opportunity to continue to supply raw milk to certain of our plants until 2021, or be paid for the loss of that business. The promissory note has a 20-year term and bears interest based on the consumer price index. Interest will not be paid in cash, but will be added to the principal amount of the note annually, up to a maximum principal amount of \$96 million. We may prepay the note in whole or in part at any time, without penalty. The note will only become payable if we ever materially breach or terminate one of our milk supply agreements with DFA without renewal or replacement. Otherwise, the note will expire at the end of 20 years, without any obligation to pay any portion of the principal or interest. Because this note was delivered in connection with our acquisition of DFA's minority interest in our Dairy Group, we originally recorded the note as part of the purchase consideration and it was reflected on our balance sheet in other long-term liabilities. However, we now believe that payments we make under this note, if any, should be expensed as incurred. Accordingly, the purchase consideration and the note obligation have been removed from our 2001 balance sheet.

Also as part of the same transaction, we amended a milk supply agreement with DFA to provide that:

If we have not offered DFA the right to supply all of our raw milk requirements for certain of Old Dean's plants by either (i) June 2003, or (ii) with respect to certain other plants, the end of the 6th full calendar month following the expiration of milk supply agreements in existence at those plants on December 21, 2001, or

If DFA is prohibited from supplying those plants because of an injunction, restraining order or otherwise as a result of or arising from a milk supply contract to which we are party, we must pay DFA liquidated damages determined and paid on a plant-by-plant basis, based generally on the amount of raw milk used by that plant, up to an aggregate maximum of \$47 million. Liquidated damages would be payable in arrears in equal, quarterly installments over a 5-year period, without interest. If we are required to pay any such liquidated damages, the principal amount of the \$40 million subordinated promissory note described above will be reduced by an amount equal to 25% of the liquidated damages paid. We cannot currently estimate the amount of damages that we may have to pay, if any.

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Contingent Obligations Related to White Wave Acquisition On May 9, 2002, we completed the acquisition of White Wave, Inc. In connection with the acquisition, we established a Performance Bonus Plan pursuant to which we have agreed to pay performance bonuses to certain employees of White Wave if certain performance targets are achieved. Specifically, we agreed that if the cumulative net sales (as defined in the plan) of White Wave equal or exceed \$382.5 million during the period beginning April 1, 2002 and ending March 31, 2004 (the Incentive Period) and White Wave does not exceed the budgetary restrictions set forth in the plan by more than \$1 million during the Incentive Period, we will pay employee bonuses as follows:

If cumulative net sales during the Incentive Period are between \$382.5 million and \$450 million, the bonus paid will scale ratably (meaning \$129,630 for each \$1 million of net sales) between \$26.025 million and \$35.0 million; and

If cumulative net sales exceed \$450 million during the Incentive Period, additional amounts will be paid as follows:

First \$50 million above \$450 million net sales: 10% of amount in excess of \$450 million, plus

Second \$50 million above \$450 million net sales: 15% of amount in excess of \$500 million, plus

In excess of \$550 million net sales: 20% of amount in excess of \$550 million.

We currently expect the aggregate amount of bonuses payable under White Wave's Performance Bonus Plan to be in the range of \$35 million to \$40 million, and we have recorded quarterly accruals based on the aggregate amount that we expect to pay. Key employees of White Wave are also entitled to receive certain payments if they are terminated without cause (or as a result of death or incapacity) during the Incentive Period.

Contingent Obligations Related to Divested Operations We have sold several businesses in recent years. In each case, we have retained certain known contingent liabilities related to those businesses and/or assumed an obligation to indemnify the purchasers of the businesses for certain unknown contingent liabilities. In the case of the sale of our Puerto Rico operations, we were required to post collateral, including one surety bond and one letter of credit, to secure our obligation to satisfy the retained liabilities and to fulfill our indemnification obligation. We believe we have established adequate reserves for any potential liability related to our divested businesses. Moreover, we do not expect any liability that we may have for these retained liabilities, or any indemnification liability, to be material.

Enron In 1999, we entered into an Energy Program Agreement with Enron Energy Services pursuant to which we contracted to purchase electricity for certain of our plants at a discounted rate for a ten-year period. Under the agreement, Enron (i) supplied (or arranged for the supply of) utilities to our facilities and paid the costs of such utilities directly to the utility suppliers, and (ii) made certain capital improvements at certain of our facilities in an effort to reduce our utility consumption, all in exchange for one monthly payment from us. In November 2001, Enron stopped performing under the agreement and in December 2001, Enron filed for bankruptcy protection. Shortly thereafter, Enron rejected our contract. In order to compensate us for our lost savings, the Energy Program Agreement provided for formula-based liquidated damages. We have filed a claim in Enron's bankruptcy for our damages. We have received correspondence from Enron demanding payment of certain amounts that Enron alleges we owe under the agreement. We have disputed the validity of Enron's claim and are in the process of attempting to negotiate an agreement with Enron for the settlement of our claims against each other. We cannot estimate the outcome of any settlement with Enron. However, we do not expect the settlement to have a material adverse impact on our financial position, results of operations or cash flows.

Litigation, Investigations and Audits We are party, in the ordinary course of business, to certain other claims, litigation, audits and investigations. We believe we have adequate reserves for any liability we may

Table of Contents**DEAN FOODS COMPANY****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

incur in connection with any such currently pending or threatened matter. In our opinion, the settlement of any such currently pending or threatened matter is not expected to have a material adverse impact on our financial position, results of operations or cash flows.

21. FAIR VALUE OF FINANCIAL INSTRUMENTS

Pursuant to SFAS No. 107, Disclosure About Fair Value of Financial Instruments, we are required to disclose an estimate of the fair value of our financial instruments as of December 31, 2002 and 2001. SFAS No. 107 defines the fair value of financial instruments as the amount at which the instrument could be exchanged in a current transaction between willing parties.

Due to their near-term maturities, the carrying amounts of accounts receivable and accounts payable are considered equivalent to fair value. In addition, because the interest rates on our senior credit facility and most other debt are variable, their fair values approximate their carrying values.

We have senior notes with an aggregate face value of \$700 million with fixed interest rates ranging from 6.625% to 8.15% at December 31, 2002. These notes were issued by Old Dean prior to our acquisition of Old Dean, and had a fair market value of \$702.8 million at December 31, 2002.

We have entered into various interest rate agreements to reduce our sensitivity to changes in interest rates on our variable rate debt. The fair values of these instruments and our senior notes were determined based on current values for similar instruments with similar terms. The following table presents the carrying value and fair value of our senior notes and interest rate agreements at December 31:

	2002		2001	
	Carrying Value of Liability	Fair Value of Liability	Carrying Value of Liability	Fair Value of Liability
	(In thousands)			
Senior notes	\$(656,951)	\$(702,830)	\$(658,211)	\$(658,211)
Interest rate agreements	(80,431)	(80,431)	(44,140)	(44,140)

22. SEGMENT AND GEOGRAPHIC INFORMATION AND MAJOR CUSTOMERS

Segment Information We currently have three reportable segments: Dairy Group, Morningstar/ White Wave and Specialty Foods. Our Dairy Group segment manufactures and distributes fluid milk, ice cream and novelties, half-and-half and whipping cream, sour cream, cottage cheese, yogurt and dips, as well as fruit juices and other flavored drinks and bottled water. Morningstar/ White Wave manufactures dairy and non-dairy coffee creamers, whipping cream and pre-whipped toppings, dips and dressings, specialty products such as lactose-reduced milk and extended shelf-life milks, as well as certain other refrigerated and extended shelf-life products. Specialty Foods processes and markets pickles, powdered products such as non-dairy coffee creamers, aseptic sauces and puddings and nutritional beverages. We obtained Specialty Foods as part of our acquisition of Old Dean on December 21, 2001. Our Spanish operation does not meet the definition of a segment and is reported in Corporate/ Other. Prior periods have been restated to remove the results of our Puerto Rico operations, which has been reclassified as a discontinued operation.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. We evaluate performance based on operating profit not including non-recurring gains and losses and foreign exchange gains and losses.

We do not allocate income taxes, management fees or unusual items to segments. In addition, there are no significant non-cash items reported in segment profit or loss other than depreciation and amortization and the \$47.5 million gain on the divestiture of the 11 plants transferred to National Dairy Holdings (as assignee of Dairy Farmers of America) in connection with the acquisition of Old Dean which is reported in our Dairy

- (1) The results for the first, second, third and fourth quarters include plant closing and other nonrecurring charges, net of taxes, of \$0.8 million, \$3.2 million, \$3.1 million and \$4.7 million, respectively. Results in the fourth quarter also include a \$6.3 million loss related to our investment in Consolidated Container Company.
- (2) The results of the first quarter include \$85 million net loss for the impairment of goodwill and other intangible assets in accordance with our adoption of SFAS No. 142 in the first quarter of 2002. The results for the first, second, third and fourth quarters include income from discontinued operations of \$0.7 million, \$(0.8) million, \$0.7 million and \$0.3 million, respectively.

Edgar Filing: DEAN FOODS CO/ - Form 10-K/A

- (3) Earnings per common share calculations for each of the quarters were based on the basic and diluted weighted average number of shares outstanding for each quarter, and the sum of the quarters may not necessarily be equal to the full year earnings per common share amount.
- (4) Net results have been restated to reflect the adoption of EITF Issue No. 01-09, Accounting for Consideration Given By a Vendor to a Customer. The net effect was to decrease net sales by

\$8.9 million, \$9.2 million, \$7.6 million and \$8 million for the first, second, third and fourth quarters, respectively.

- (5) The results for the first, third and fourth quarters include plant closing and other non-recurring charges, net of minority interest when applicable, of \$0.3 million, \$1 million and \$4.5 million, respectively. Results in the fourth quarter also include a gain of \$29.5 million related to the divestiture of 11 plants as part of the acquisition of Dean Foods, an expense of \$17.4 million resulting from certain changes to our milk supply agreements, an impairment charge of \$0.7 million, net of minority interest, on a water plant, a charge of \$12.9 million related to the impairment of our investment in Consolidated Container Company, and a charge of \$2.7 million resulting from the impairment of two small investments. All amounts are net of income taxes.
- (6) Results for the first quarter of 2001 include a cumulative effect of accounting change expense of \$1.4 million related to our adoption of FAS 133, Accounting for Derivative Instruments and Hedging Activities.
- (7) Included in the results for the fourth quarter of 2001 is an extraordinary loss of \$4.3 million for the write-off of deferred financing costs related to the early retirement of our former credit facilities.

24. SUBSEQUENT EVENTS

Aircraft Leases On August 1, 2000, we entered into a five-year aircraft lease agreement with Neptune Colorado LLC, a limited liability company owned by Gregg Engles (our Chief Executive Officer and Chairman of our Board of Directors) and Pete Schenkel (President of our Dairy Group and also a member of our Board of Directors). Pursuant to the lease agreement, we agreed to lease an airplane from Neptune Colorado at a rate of \$1,000 per hour for each hour of flight with a minimum of 40 hours of flight per month. We also agreed to pay a non-refundable equipment reserve charge equal to \$83.10 per engine hour used during the term of the agreement, with reserve funds being used by the lessor for engine overhauls, removal or replacement during the term of the agreement. Under the lease, we are responsible for paying certain taxes related to and insurance for the airplane, as well as operating costs, landing and customs fees, storage charges and any fines or penalties arising from the operation or use of the airplane. We paid an aggregate of \$0.5 million in 2002, \$0.6 million in 2001 and \$0.2 million in 2000 to Neptune Colorado, LLC under the lease.

In June 2001, we entered into a six-year aircraft lease agreement with Curan, LLC, a limited liability company also owned by Gregg Engles and Pete Schenkel. Pursuant to the lease agreement, we agreed to lease an airplane from Curan at a rate of \$122,000 per month. We were required to set up a non-refundable equipment reserve account, the amount of which was determined periodically by a third party. Reserve funds were used by the lessor for engine overhauls, removal or replacement during the term of the agreement. We are responsible for paying certain taxes related to and insurance for the airplane, as well as operating costs, landing and customs fees, storage charges and any fines or penalties arising from our operation or use of the airplane. We paid an aggregate of \$1.6 million and \$0.9 million to Curan, LLC during 2002 and 2001, respectively.

On March 24, 2003, the independent members of our Board of Directors voted to purchase Neptune Colorado LLC and Curan, LLC from Messrs. Engles and Schenkel, after determining that it would be in our best interests to own the aircraft rather than to lease the aircraft pursuant to the terms of the existing leases. As consideration for the purchase of the lessor companies from Messrs. Engles and Schenkel, we will assume the indebtedness that the lessor entities incurred to finance the purchase of the aircraft. No other consideration will be paid to Mr. Engles or Mr. Schenkel, directly or indirectly. The aggregate principal balance of the indebtedness that we will assume is approximately \$9.6 million, which approximates the current fair market value of the aircraft. The indebtedness is secured by the aircraft. The lessor entities have no assets or liabilities other than the aircraft, certain cash and the related purchase money indebtedness. As part of the transaction, we will receive cash in the amount of approximately \$100,000, which is the balance of the

Table of Contents

DEAN FOODS COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

equipment reserves that were established under the leases. Because the market value of the assets we will acquire in the transaction is equal to the value of the liabilities that we will assume, there will be no income statement impact related to the transaction. We expect to complete the transaction in March 2003.

Securities Repurchases On each of January 8, 2003 and February 12, 2003, our Board of Directors approved \$150 million increases to the authorized amount of our stock repurchase program. Between January 1, 2003 and March 24, 2003, we spent approximately \$129 million to repurchase approximately 4.86 million shares of our common stock for an average price of \$26.48 per share. At March 25, 2003, approximately \$171.6 million remains available under our current authorization.

On March 17, 2003, we announced a partial redemption of our trust-issued preferred securities (TIPES). TIPES with an aggregate liquidation value of \$100 million will be redeemed on April 17, 2003 at a redemption price of \$51.0315 per security. Holders of TIPES that have been called for redemption have the option to convert their TIPES into shares of our common stock instead of receiving the cash redemption price. Approximately \$500 million of TIPES will remain outstanding following completion of this partial redemption.

Hedging Transactions In January 2003, we entered into forward starting swaps that began in March 2003 with a notional amount of \$400 million. These swaps all expire in December 2003 and the fixed interest rates range between 1.47% to 1.48%. These swaps have been designated as hedges against interest rate exposure on loans under our senior credit facility.

Stock Split On May 7, 2003, our Board of Directors declared a three-for-two split of our common stock, which entitled shareholders of record on May 23, 2003 to receive three shares of common stock for every two shares held on that date. The new shares were issued after the market closed on June 9, 2003. All of the share numbers in our Consolidated Financial Statements have been adjusted for all periods to reflect the stock split.

25. RELATED PARTY TRANSACTIONS

Real Property Lease We lease the land for our Franklin, Massachusetts plant from a partnership in which Alan Bernon, Chief Operating Officer of the Northeast region of our Dairy Group and a member of our Board of Directors, owns a 13.45% minority interest. (The remaining interests are owned by members of Mr. Bernon's family.) The lease payments totaled \$0.7 million in 2002 and \$0.6 million in each of 2001 and 2000.

Minority Interest in Consolidated Container Holding Company We hold our minority interest in Consolidated Container Company through our subsidiary Franklin Plastics, Inc., in which we own an 89.5% interest. Alan Bernon, Chief Operating Officer of the Northeast region of our Dairy Group and a member of our Board of Directors, and his brother, Peter Bernon, collectively own the remaining 10.5% of Franklin Plastics, Inc.

Aircraft Leases See Note 24.

26. RESTATEMENT OF NOTE 1

Note 1 to our Consolidated Financial Statements for the year ended December 31, 2002 (our 2002 Financial Statements) contains a subsection entitled *Employee Stock-Based Compensation* wherein we disclose what our pro forma net income (Pro Forma Net Income) and pro forma net income per common share (Pro Forma Net Income Per Common Share) would have been for the years 2002, 2001 and 2000 had compensation expense been determined for stock option grants using the fair value method provided for in SFAS No. 123, Accounting for Stock-Based Compensation. After filing our Annual Report on Form 10-K for the year ended December 31, 2002, we discovered a computational error in the calculation of Pro Forma Net Income and Pro Forma Net Income Per Common Share for each of 2002, 2001 and 2000, which error caused the amounts of Pro Forma Net Income and Pro Forma Net Income Per Common Share to be understated in 2002 and 2001 and overstated in 2000.

Accordingly, we have restated the *Employee Stock-Based Compensation* subsection of Note 1 to our 2002 Financial Statements in order to reflect the proper amounts of Pro Forma Net Income and Pro Forma Net Income Per Common Share for 2002, 2001 and 2000. The table below indicates the amounts of Pro Forma Net Income and Pro Forma Net Income Per Common Share as originally reported and as restated.

CERTIFICATION

I, Gregg L. Engles, certify that:

1. I have reviewed this amended annual report on Form 10-K/A of Dean Foods Company;
 - (a) Designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this amended annual report is being prepared;
 - (b) Evaluated the effectiveness of this registrant's disclosure controls and procedures as of a date within 90 days prior to the filing of this amended annual report (the Evaluation Date); and
 - (c) Presented in this amended annual report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this amended annual report whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

INDEPENDENT AUDITOR S REPORT

To the Board of Directors
Dean Foods Company
Dallas, Texas

We have audited the consolidated financial statements of Dean Foods Company and subsidiaries (the Company) (formerly known as Suiza Foods Corporation) as of December 31, 2002 and 2001 and for each of the three years in the period ended December 31, 2002, and have issued our report thereon dated March 24, 2003 and July 3, 2003 as to Note 26 (which report expresses an unqualified opinion and includes an explanatory paragraph relating to the change in method of accounting for goodwill and other intangible assets to conform to Statement of Financial Accounting Standard No. 142 and an explanatory paragraph relating to the restatement described in Note 26); such report is included elsewhere in this Form 10-K/A. Our audits also included the consolidated financial statement schedule of Dean Foods Company and subsidiaries, listed in Item 16. This consolidated financial statement schedule is the responsibility of the Company s management. Our responsibility is to express an opinion based on our audits. In our opinion, such consolidated financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.
