IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer s account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer s account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser s privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance s Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC s website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC s public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds and Portfolios Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC s website at www.sec.gov.

Eaton Vance Floating-Rate Income Trust as of November 30, 2008

INVESTMENT UPDATE

Economic and Market Conditions

Scott H. Page, CFA Co-Portfolio Manager

Ralph H. Hinckley, Jr., CFA Co-Portfolio Manager During the six months ended November 30, 2008, credit markets experienced unprecedented volatility, and the bank loan market and high-yield bond market were no exception. The subprime crisis of 2007 expanded in 2008 to include nearly all credit instruments, which in turn, caused the world economy to slip into recession. The period was a roller-coaster for the credit markets and for the Trust. The total return for the S&P/LSTA Leveraged Loan Index (the Index) through the first three months of the period was -0.64%, disappointing, but, given the environment, not especially bad compared to other markets. However, September 2008 brought a series of events that rattled the markets more deeply: the bailouts of Fannie Mae and Freddie Mac, the bankruptcy of Lehman Brothers, the rescue of American International Group, Inc. and a litany of unprecedented steps by the U.S. Treasury and the Federal Reserve to stabilize the credit markets. In the Trust s second fiscal quarter, the Index declined -25.52%, by far its worst quarterly showing ever. The average loan price in the Trust was 65.2% of par at November 30, 2008. Although statistics vary with respect to the recovery rates of loans in default, the historical rate has been approximately 70% of par. As such, bank loan prices at year-end were approaching levels that implied near universal default. At year-end, 1.2% of the loan investments of the Trust were in default versus 2.0% for the Index.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. The Trust's performance at share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust's shares, or changes in Trust distributions. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Trust's current performance may be lower or higher than the quoted return. Absent an expense waiver by the investment adviser, returns would be lower. For performance as of the most recent month end, please refer to www.eatonvance.com.

Trust shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

While there is little doubt that a recession would bring higher default rates, it is difficult to reconcile recent trading levels with market fundamentals. A range of credit statistics and criteria used to monitor creditworthiness suggested that overall credit quality appeared to be in line with historical patterns. Despite this, bank loans traded below historical recovery levels, thus implying a near 100% default rate. The most compelling, albeit obvious, explanation for the market s depressed trading level was that there were more sellers of bank loans than buyers, especially during the Trust s second quarter. Some selling was forced, especially by hedge funds and structured investment vehicles unable to meet margin requirements. Some selling was voluntary, as redemptions from mutual funds were significant throughout the year. In addition, many hard-pressed banks and investment banks that typically make markets in bank loans were hesitant to own loans and bonds, making trading more volatile. Later in the period, there were signs that many institutional investors were attracted to the asset class by record low loan prices. However, selling clearly outweighed buying, pushing prices lower.

Management Discussion

The Trust is a closed-end fund and trades on the New York Stock Exchange under the symbol EFT . The Trust s investment objective is to provide a high level of current income. As a secondary objective, it may also seek preservation of capital to the extent

Eaton Vance Floating-Rate Income Trust Total Return Performance 5/31/08 11/30/08

	At Share Price	14.51%

Please refer to page 3 for additional performance information.

- Performance results reflect the effects of leverage.
- It is not possible to invest directly in an Index. The Index s total return reflects changes in value of the loans constituting the Index and accrual of interest and does not reflect the commissions or expenses that would have been incurred if an investor individually purchased or sold the loans represented in the Index. Unlike the Trust, the Index s return does not reflect

the effect of leverage.

3

1

The Distribution Rate is based on the Trust s most recent monthly distribution per share (annualized) divided by the Trust s NAV or share price at

the end of the period. The

Trust s monthly

distributions

may be

comprised of

ordinary

income, net

realized capital

gains and return

of capital.

Eaton Vance Floating-Rate Income Trust as of November 30, 2008

INVESTMENT UPDATE

consistent with its primary goal of high current income. Under normal market conditions, the Trust invests at least 80% of its total assets in senior, secured floating-rate loans (senior loans). In managing the Trust, the investment adviser seeks to invest in a portfolio of senior loans that it believes will be less volatile over time than the general loan market. The Trust may also invest in second lien loans and high yield bonds, and, as discussed below, may employ leverage, which may increase risk.

The Trust s performance for the six months ended November 30, 2008 was negatively affected by the issues that influenced the broader market. The effect of leverage was the primary factor contributing to the Trust s underperformance relative to the Index. In addition, the Trust had approximately 9% of its assets invested in European loans, and loan prices in Europe have underperformed relative to their U.S. counterparts.

At November 30, 2008, the Trust s investments included senior loans to 411 borrowers spanning 38 industries, with an average loan size of 0.24% of total investments, and no industry constituting more than 10% of total investments. Healthcare, business equipment and services, publishing, leisure goods/activities/ movies and cable and satellite television were the top industry weightings.

The Trust continues to have less than 1% exposure to home builders. The Trust did not have any exposure to subprime or prime mortgage lenders during the six months ended November 30, 2008.

As of November 30, 2008, the Trust had outstanding leverage of approximately 48.9% of its total net assets. The Trust s leverage consists of auction preferred shares issued by the Trust (APS) and borrowings under a revolving credit and security agreement with conduit lenders and a bank. Pursuant to applicable law and provisions of the Trust s governing documents relating to the use of leverage, the Trust may not declare dividends or other distributions on common shares if it does not maintain asset coverage in certain prescribed amounts. As a result of the sharp declines in the value of the Trust s investments in recent months, the Trust sold investments to reduce outstanding leverage and maintain the required asset coverage. During the six months ended November 30, 2008, the Trust s outstanding borrowings were reduced by \$121.5 million for this reason. If credit markets remain volatile, additional actions may be required to maintain the Trust s asset coverage, including additional sales of investments and possibly a reduction in dividend payment rates. In the event of an improvement in asset coverage, the Trust has the ability to increase borrowings under the revolving credit and security agreement.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Trust s current or future investments and may change due to active management.

In the event of a rise in long-term interest rates or a decline in bank loan prices due to market conditions, the value of the

Trust s
investment
portfolio could
decline, which
would reduce
the asset
coverage for its
Auction
Preferred
Shares and

borrowings.

DIP - Debtor in Possession

PIK - Payment In Kind.

REIT - Real Estate Investment Trust

EUR - Euro

GBP - British Pound Sterling

- * In U.S. dollars unless otherwise indicated.
- (1) Senior floating-rate interests (Senior Loans) often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, Senior Loans will have an expected average life of approximately two to four years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate (LIBOR), and secondarily the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.
- (2) Unfunded or partially unfunded loan commitments. See Note 1G for description.
- (3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (4) Defaulted security. Currently the issuer is in default with respect to interest payments.
- (5) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At November 30, 2008, the aggregate value of the securities is \$10,044,956 or 3.1% of the Trust s net assets.
- (6) Variable rate security. The stated interest rate represents the rate in effect at November 30, 2008.
- (7) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of November 30, 2008.
- (8) This Senior Loan will settle after November 30, 2008, at which time the interest rate will be determined.
