Each Unit consists of (i) one share of common stock of the Company, par value \$0.001 per share (“Common Stock”) and (ii) one warrant (a “Warrant”) to initially purchase one share of Common Stock.

If our plans fail to materialize, your investment will be in jeopardy.

- We cannot assure you that our assumptions or our business plans and objectives will prove to be accurate or be able to be attained.
- We cannot assure you that the exploratory drilling to be conducted on the exploration blocks in which we hold an interest will result in a discovery of reserves of hydrocarbons or that any hydrocarbons discovered will be in commercially recoverable quantities. In addition, the realization of any revenues from commercially recoverable hydrocarbons is dependent upon the ability to deliver, store and market any hydrocarbons discovered.
- Our ability to realize material revenues cannot be assured. Our ability to successfully drill, test and complete significant numbers of producing wells cannot be assured.
  - We cannot assure you that we will have available the capital required to meet our plans and objectives at the times and in the amounts required or we will have available to us the amounts we are required to fund under the terms of the licenses or production sharing and other contracts we are a party to. - We cannot assure you that we will obtain all required consents, waivers and extensions from a governmental or regulatory body in India, Israel or Colombia as and when required to maintain compliance with the licenses or production sharing or other contracts we have entered into, that we may not be adversely affected by any delays we may experience in receiving those consents, waivers and extensions, and that we may not incur liabilities under the production sharing or other contracts for our failure to maintain compliance with the requirements of and timely complete the related work programs.

Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

At present, our activities are being undertaken in four geological basins located offshore and onshore in India, one geological basin located offshore Israel and one geological basin located onshore in Colombia where reserves of oil or natural gas are believed by our management to exist.

RISK FACTORS

An investment in our securities involves a high degree of risk. We operate in a highly competitive environment in which there are numerous factors which can influence our business, financial position or results of operations and which can also cause the market value of our securities to decline. Many of these factors are beyond our control and therefore, are difficult to predict. Prior to making a decision about investing in our securities, you should carefully consider the risk factors contained in the section entitled “Risk Factors” in our most recent Annual Report on Form 10-K, in our most recent Quarterly Reports on Form 10-Q and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, together with all of the other information contained in this prospectus supplement and the accompanying prospectus. Such sections discuss what we believe to be the principal risks that could affect us, the oil and gas exploration and production industry and our participation in that industry, and which could result in a material adverse impact on our financial condition and operating results or cause the market price of our securities to fluctuate or decline. However, there may be additional risks and uncertainties not currently known to us or that we presently deem immaterial that could also affect our business operations and the market value of our securities.

There can be no assurance that the exploratory drilling to be conducted on the exploration blocks in which we hold an interest will result in any discovery of material reserves of hydrocarbons or that any hydrocarbons that are discovered will be in commercially recoverable quantities. In addition, the realization of any revenues from commercially recoverable hydrocarbons is dependent upon the ability to deliver, store and market any hydrocarbons that are discovered. There can be no assurance that we will realize material revenues from the sale of oil and gas.

USE OF PROCEEDS

We intend to use the net proceeds we receive from this offering for general corporate purposes and working capital requirements, which may include, among other things, capital expenditures, licensing or acquiring oil and gas properties, equipment or technologies, and funding for security bonds or performance guarantees.

The purchase price per Unit is equal to US\$0.067, the closing bid of the Common Stock as reported on Bloomberg for the last trading day immediately preceding the execution of the Securities Purchase Agreement. Investors in the Company are not third party beneficiaries under the Securities Purchase Agreement.

The purchase and sales under the Securities Purchase Agreement, (and of the Warrant Shares upon exercise or exchange of the Warrants) is registered pursuant to the Company’s shelf registration statement on Form S-3 File Number 333-168031 (the “Registration Statement”) and as to which this prospectus supplement (the “Prospectus Supplement”) relates.

## Table of Contents

The Securities Purchase Agreement contains prohibitions on (i) additional issuances of equity or equity-linked securities for 90 days, and (ii) variable rate transactions until none of the Warrants are outstanding. The Securities Purchase Agreement also provides Crede with a right of first refusal for any subsequent offerings of equity or equity-linked securities on the same terms and conditions as are offered to a third-party buyer for period of six months following the closing of the Securities Purchase Agreement.

Consummation of the transaction contemplated by the Securities Purchase Agreement (the “Transaction”) is subject to the approval by the NYSE MKT LLC (the “Exchange”, and such approval, the “NYSE MKT Approval”). In the event that the Company does not close the Transaction for any reason other than a material breach by Crede or failure to receive approval from the Exchange, the Company is obligated to indemnify and hold harmless Crede for its costs, expenses, damages and losses.

The foregoing description of the Securities Purchase Agreement is only a summary, does not purport to be complete and is qualified in its entirety by reference to the Securities Purchase Agreement, a copy of which is attached as Exhibit 10.1 to our Current Report on Form 8-K, filed with the SEC on December 21, 2012 and is incorporated herein by reference.

### Investment Fee and Other Fees

Under the terms of the Securities Purchase Agreement, the Company is obligated to pay Crede \$101,631.30, as an investment fee (the “Investment Fee”). The Investment Fee will be paid at the closing of the Securities Purchase Agreement by Crede withholding the Investment Fee from the Purchase Price paid to the Company. Prior to the signing of the Securities Purchase Agreement, the Company signed a term sheet for the Transaction on December 10, 2012, pursuant to which it has paid Crede a non-refundable document preparation fee of \$30,000 (the “Document Preparation Fee”).

The transfer agent and registrar for our Common Stock is Computershare Trust Co. N.A. The transfer agent’s address is 350 Indiana Street, Suite 750, Golden, CO 80401. We will act as transfer agent for the Warrants being offered hereby.

The Common Stock is traded on the NYSE MKT under the symbol “GGR”. The Warrants issued to the investors in this offering are not expected to be eligible for trading on any market.

The purchase price per Unit and the exercise price for the Warrants were determined based on negotiations with Crede based on current market factors.

## DESCRIPTION OF SECURITIES TO BE REGISTERED

### Common Stock

For a description of the Common Stock being offered hereby, please see “Description of Capital Stock” in the accompanying prospectus.

### Warrant

Pursuant to the Securities Purchase Agreement, Crede will receive the Warrants. The Warrants are exercisable for a period of five years following the date of issuance and have an initial exercise price per share of US\$0.0804 (the “Exercise Price”), 120% of the closing bid price of the Common Stock on December 19, 2012 as reported on

Bloomberg. The Exercise Price of the Warrants and the number of Warrant Shares are subject to adjustment from time to time as set forth below. The Warrants are fully transferable and may be offered for sale, sold, transferred or assigned without the consent of the Company.

S-8

---

## Table of Contents

In the event that the Company (i) pays a stock dividend, (ii) subdivides its Common Stock, or (iii) combines its Common Stock, then the Exercise Price would be multiplied by a fraction of which the numerator shall be the number of shares of Common Stock outstanding immediately before such event and of which the denominator shall be the number of shares of Common Stock outstanding immediately after such event. If the Company issues or sells Common Stock at a price per share lower than the Exercise Price, then the Exercise Price is decreased to a price determined by a formula in the Warrant. When the Exercise Price is adjusted, the number of Warrant Shares that may be purchased is proportionately adjusted, so that the aggregate Exercise Price payable under the Warrant remains the same regardless of the adjustment. The number of Warrant Shares is also adjusted from time to time to ensure that there shall be sufficient Warrant Shares to satisfy any exchange of the Warrants.

Any holder of the Warrants (a “Holder”) is entitled to participate in any distributions declared or purchase rights granted by the Company as if the Holder had exercised its Warrants.

The Warrants contain a so-called “blocker” provision so that a Holder may not exercise or exchange its Warrants to the extent (but only to the extent) that such particular exercise or exchange would result in such Holder’s (together with its affiliates’) “beneficial ownership” (under Section 13(d) of the 1934 Act) of the Common Stock exceeding 9.9% (the “Maximum Percentage”). Neither is the Company permitted to force a Holder to exercise its Warrants (as described below) or to issue shares of Common Stock upon exchange of such Warrant if such forced exercise or shares of Common Stock issued in exchange for such Warrant would result in such Holder’s (together with its affiliates’) beneficial ownership exceeding the Maximum Percentage. In addition Warrant Shares may not be issued, subject to certain conditions, if the issuance of such Warrant Shares, together with shares of Common Stock issued under the Securities Purchase Agreement, would exceed [27,654,775] shares of Common Stock (the “Exchange Cap”).

A Holder may exercise its Warrants on a cashless basis, but only if certain equity conditions (the “Equity Conditions”) are not satisfied, including, but not limited to, (i) if the Company is delisted, (ii) if the Registration Statement or the Prospectus Supplement are no longer available for use with respect to the issuance of Common Stock, Warrants or Warrant Shares, (iii) if the Warrant Shares are not freely tradeable and (iv) if the Company is no longer fully reporting. Upon such cashless exercise, Holder will receive a number of shares of Common Stock determined according to a formula specified in the Warrant.

A Holder may, at any time, exchange all or any portion of the Warrant (an “Exchange”) for cash or, at the Company’s election subject to various conditions set forth in the Warrants, shares of Common Stock. Such an Exchange will be made according to a formula based upon the Black-Scholes exchange value (as set forth in the Warrant) of the portion of the Warrant being exchanged. The Company may not issue shares upon such Exchange if the Exchange Cap would be exceeded as a result thereof or if the Equity Conditions are not satisfied. In addition, if the Company may not issue shares upon such Exchange, it must satisfy such Exchange in cash. Provided that the Exchange Cap does not apply and the Equity Conditions are satisfied (so that the Company is permitted to issue shares of Common Stock upon such an Exchange), a Holder may not effect an Exchange at such time and to such extent that, if the Company elected to satisfy such Exchange in shares of Common Stock, such Holder’s (together with its affiliates’) beneficial ownership would exceed the Maximum Percentage.

If the closing bid price of the Common Stock is greater than or equal to 25% above the then applicable Exercise Price for twenty consecutive trading days and the average daily dollar volume during the twenty-day period is equal to or exceeds \$150,000, then the Company has the right to require that a Holder exercise its Warrants for cash, subject to certain conditions, including that the Equity Conditions are satisfied and that the Exchange Cap and Maximum Percentage limitations would not be exceeded as a result thereof.

The Warrant will not be listed on any national securities exchange.

The description of the terms of the Warrant set forth herein is only a summary does not purport to be complete and is qualified in its entirety by the provisions of the Warrant, the form of which is attached as Exhibit 4.1 to our Current Report on Form 8-K, filed with the SEC on December 21, 2012 and is incorporated herein by reference.

#### LEGAL MATTERS

The validity of the issuance of the securities offered by this prospectus will be passed upon for us by Paul, Weiss, Rifkind, Wharton & Garrison LLP, New York, New York.

EXPERTS

The financial statements of the Company incorporated in this prospectus by reference from the Company's Annual Report on Form 10-K for the year ended December 31, 2011, have been audited by KPMG, LLP, as stated in their report incorporated by reference, and given upon the authority of said firm as experts in auditing and accounting.

DISCLOSURE OF COMMISSION POSITION ON  
INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Certificate of Incorporation provides that we will indemnify our officers and directors against any and all liability, expenses or other matters to the fullest extent permitted under the General Corporation Law of the State of Delaware. Our By-Laws provide that we shall indemnify any director, officer, employee or agent against liabilities incurred in a proceeding (including any civil, criminal, administrative or investigative proceeding) to which the person was a party by reason of such status, to the fullest extent permitted under the General Corporation Law of the State of Delaware.

In addition to our Certificate of Incorporation and By-Laws, the Company entered into indemnity agreements with our officers and directors. The agreement is a contractual supplement to the corporate indemnity provisions of the Company's Certificate of Incorporation and By-Laws. The material terms and conditions of the agreement are: (a) the Company shall indemnify and advance expenses to the indemnitee against claims if the indemnitee acted in good faith with a view to the best interests of the Company, and, with respect to any criminal proceeding, had no reasonable cause to believe the indemnitee's conduct was unlawful; (b) a description of how the Company will determine if indemnification is appropriate including the procedure for obtaining indemnification; (c) the procedure to authorize advancing expenses; (d) the indemnitee's rights under the indemnity agreement will survive any merger or other consolidation; and (e) the indemnitee will be entitled to attorney's fees and disbursements incurred in any suit against the Company for breach of the agreement, unless as a part of such suit, the court of competent jurisdiction determines that each of the material assertions made by the indemnitee were not made in good faith or were frivolous.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or controlling persons of the Company pursuant to the foregoing provisions, the Company has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

Operations

We are engaged, through our subsidiaries, in the exploration for and development of oil and natural gas reserves. At December 31, 2009, we have not yet achieved our planned principal operations and are considered to be a development stage enterprise. We initiated these activities in 2003. The recoverability of the costs we have incurred to date is uncertain and dependent upon achieving commercial production and sale of hydrocarbons, our ability to obtain sufficient financing to fulfill our obligations under the Production Sharing Contracts we are a party to with respect to oil and natural gas exploration and development activities in India and upon future profitable operations.

At present, our activities are being undertaken in four geological basins located offshore and onshore in India where reserves of oil or natural gas are believed by our management to exist.

## Table of Contents

We started our first production from one field in the Tarapur block in May 2009. We produced 10,856 barrels of oil in 2009 and 3,264 barrels of oil during the three months ended March 31, 2010. Based on a reserve report dated January 1, 2010 prepared by Chapman Petroleum Engineering Ltd., Calgary, Alberta, Canada, we claim proved developed reserves in this field of 117.6 MBbls of oil and 88.5 MMcf of natural gas and probable developed reserves of 444.5 MBbls of oil and 695.6 MMcf of natural gas and probable undeveloped reserves of 68.6 MBbls of oil.

The exploration rights pursuant to PSCs we have entered into with the Government of India are located in the following areas:

- The Krishna Godavari Basin offshore and onshore in the State of Andhra Pradesh in south eastern India;
  - The Cambay Basin onshore in the State of Gujarat in western India;

As of July 7, 2010, we have entered into PSCs with respect to ten exploration blocks in India as follows:

- KG-OSN-2001/3 (KG Offshore Block) - This was our first agreement entered into in February 2003 under NELP-III, which grants exploration rights in an area offshore in south eastern India in the Krishna Godavari Basin in the State of Andhra Pradesh. As a consequence of Oil and Natural Gas Corporation Limited of India exercising their right to participate in the development of any commercial discovery on the Tarapur Block, our participating interest in the Tarapur 1 discovery area is 14%. GSPC is the operator of this block.
- CB-ONN-2003/2 (Ankleshwar Block) - We entered into this agreement in September 2005 under NELP-V, which grants exploration rights in an area onshore in the Cambay Basin in the State of Gujarat south-east of our three existing Cambay blocks. We are the operator of this block and have a 100% participating interest under this agreement.

## Table of Contents

All of the exploration activities in which we are a participant should be considered highly speculative.

The map of India below shows the relative general locations of the exploration blocks that are the subject of our ten PSCs with the Government of India and does not indicate specific size of blocks or basins.

## RISK FACTORS

An investment in our securities involves a high degree of risk. We operate in a highly competitive environment in which there are numerous factors which can influence our business, financial position or results of operations and which can also cause the market value of our common stock to decline. Many of these factors are beyond our control and therefore, are difficult to predict. Prior to making a decision about investing in our securities, you should carefully consider the risk factors contained in the section entitled “Risk Factors” in our most recent Annual Report on Form 10-K, in our most recent Quarterly Report on Form 10-Q and in any applicable prospectus supplement and our other filings with the SEC and incorporated by reference in this prospectus, together with all of the other information contained in this prospectus, or any applicable prospectus supplement. Such sections discuss what we believe to be the principal risks that could affect us, the oil and gas exploration and production industry and our participation in that industry, and which could result in a material adverse impact on our financial condition and operating results or cause the market price of our common stock to fluctuate or decline. However, there may be additional risks and uncertainties not currently known to us or that we presently deem immaterial that could also affect our business operations and the market value of our common stock.

An investment in shares of our common stock involves a high degree of risk. You should consider the Risk Factors referred to above, in addition to the other information contained in this prospectus and in any applicable prospectus supplements and our other filings with the SEC and incorporated by reference in this prospectus in evaluating our business and current and proposed activities before you purchase any shares of our securities. You should also see the “Forward-Looking Statements” regarding risks and uncertainties relating to us and to forward-looking statements in this prospectus and in any applicable prospectus supplements and our other filings with the SEC.

There can be no assurance that the exploratory drilling to be conducted on the exploration blocks in which we hold an interest will result in any discovery of material reserves of hydrocarbons or that any hydrocarbons that are discovered will be in commercially recoverable quantities. In addition, the realization of any revenues from commercially recoverable hydrocarbons is dependent upon the ability to deliver, store and market any hydrocarbons that are discovered. There can be no assurance that we will realize material revenues from the sale of oil and gas.

FORWARD-LOOKING STATEMENTS

This prospectus includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases like “anticipate,” “estimate,” “plans,” “projects,” “continuing,” “ongoing,” “target,” “management believes,” “we believe,” “we intend,” “we may,” “we will,” “we should,” “we seek,” “we plan,” the negative terms, and similar words or phrases. We base these forward-looking statements on our expectations, assumptions, estimates and projections about our business and the industry in which we operate as of the date of this prospectus. These forward-looking statements are subject to a number of risks and uncertainties that cannot be predicted, quantified or controlled and that could cause actual results to differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Statements in this prospectus, and in documents incorporated into this prospectus, including those set forth in “Risk Factors,” describe factors, among others, that could contribute to or cause these differences.

Because the factors discussed in this prospectus or incorporated by reference could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Our inability to meet our goals and objectives or the consequences to us from adverse developments in general economic or capital market conditions, events having international consequences, or military or terrorist activities could have a material adverse effect on us. We caution you that various risk factors accompany those forward-looking statements and are described, among other places, under the caption “Risk Factors” herein. They are also described in our Annual Reports on Form 10-K, our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K. These risk factors could cause our operating results, financial condition and ability to fulfill our plans to differ materially from those expressed in any forward-looking statements made in this prospectus and in any applicable prospectus supplements and our other filings with the SEC and incorporated by reference in this prospectus and could adversely affect our financial condition and our ability to pursue our business strategy and plans.

USE OF PROCEEDS

Unless specified otherwise in the applicable prospectus supplement, we expect to use the net proceeds we receive from the sale of the securities offered by this prospectus and the accompanying prospectus supplement for general corporate purposes and working capital requirements, which may include, among other things, capital expenditures, licensing or acquiring oil and gas properties, equipment or technologies and funding for security bonds or performance guarantees.

The precise amount and timing of the application of such proceeds will depend upon our funding requirements and the availability and cost of other capital. Additional information on the use of net proceeds from the sale of securities covered by this prospectus may be set forth in the prospectus supplement relating to the specific offering.

The Certificate of Incorporation does not provide for cumulative voting in the election of directors. Subject to any preferential rights of any outstanding series of preferred stock, the holders of common stock are entitled to such distributions as may be declared from time to time by the Board of Directors from funds available therefore, and upon liquidation are entitled to receive pro rata all our assets available for distribution to such holders. All shares of our common stock outstanding are fully paid and non-assessable and the holders thereof have no preemptive rights.

Our common stock is listed on the NYSE/Amex under the symbol "GGR."

All of the issued and outstanding shares of our common stock are duly authorized, validly issued, fully paid and non-assessable. To the extent that additional shares of our common stock are issued, the relative interests of existing stockholders will be diluted.

Transfer Agent

Our independent stock transfer agent for our common stock is Computershare Investor Services located at 350 Indiana St., Suite 750, Golden, CO 80401. Their phone number is +1 (303) 262-0714 and facsimile number is +1 (303) 262-0632.

The issuance of preferred stock, while providing flexibility in connection with possible financings, acquisitions and other corporate purposes, could, among other things, adversely affect the voting power of the holders of our common stock and, under certain circumstances, be used as a means of discouraging, delaying or preventing a change in control of our company. As of July 7, 2010, we had no shares of preferred stock outstanding.

A copy of the form of Certificate of Designation, setting forth the rights and preferences of the preferred stock to be issued, and any form of preferred stock certificates representing the shares of preferred stock will be filed as exhibits to a Form 8-K to be incorporated into this registration statement of which this prospectus constitutes a part prior to the issuance of any shares of preferred stock.

## DESCRIPTION OF UNITS

We may issue units comprised of one or more of the other securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. A unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and
- any additional terms of the governing unit agreement.

The applicable prospectus supplement will describe the terms of any units. The preceding description and any description of units in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the unit agreement and, if applicable, collateral arrangements and depositary arrangements relating to such units.

Table of Contents

PLAN OF DISTRIBUTION

We may sell the securities through underwriters or dealers, through agents, or directly to one or more purchasers. The accompanying prospectus supplement will describe the terms of the offering of the securities, including:

- the names of any underwriters;
- the purchase price of the securities being offered and the proceeds we will receive from the sale;
- any over-allotment options pursuant to which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation
- any public offering price;
- any discounts or concessions allowed or re-allowed or paid to dealers; and
- any securities exchange or market on which the securities may be listed.

If underwriters are used in the sale, they will acquire the securities for their own account and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of the sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all the securities offered by the prospectus supplement. We may change from time to time the public offering price and any discounts or concessions allowed or re-allowed or paid to dealers. We may use underwriters with whom we have a material relationship. We will describe such relationships in the prospectus supplement naming the underwriter and the nature of any such relationship.

We may engage in "at the market" offerings of our common stock, which are offerings into an existing trading market, at other than a fixed price, on or through the facilities of a national securities exchange or to or through a market maker otherwise than on an exchange.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of the securities, and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best efforts basis for the period of its appointment.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of common shares, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of common shares. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement or a post-effective amendment to this registration statement.

All securities we offer other than common stock will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and may discontinue any market making at any time without notice. We cannot guarantee the liquidity of the trading markets for any securities.

We may provide agents and underwriters with indemnification against civil liabilities related to this offering, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

## Table of Contents

Rules of the Securities and Exchange Commission may limit the ability of any underwriters to bid for or purchase securities before the distribution of the securities is completed. However, underwriters may engage in the following activities in accordance with the rules:

- Stabilizing transactions — Underwriters may make bids or purchases for the purpose of pegging, fixing or maintaining the price of the shares, so long as stabilizing bids do not exceed a specified maximum.
- Over-allotments and syndicate covering transactions — Underwriters may sell more shares of our common stock than the number of shares that they have committed to purchase in any underwritten offering. This over-allotment creates a short position for the underwriters. This short position may involve either “covered” short sales or “naked” short sales. Covered short sales are short sales made in an amount not greater than the underwriters’ over-allotment option to purchase additional shares in any underwritten offering. The underwriters may close out any covered short position either by exercising their over-allotment option or by purchasing shares in the open market. To determine how they will close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market, as compared to the price at which they may purchase shares through the over-allotment option. Naked short sales are short sales in excess of the over-allotment option. The underwriters must close out any naked position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that, in the open market after pricing, there may be downward pressure on the price of the shares that could adversely affect investors who purchase shares in the offering.
- Penalty bids — If underwriters purchase shares in the open market in a stabilizing transaction or syndicate covering transaction, they may reclaim a selling concession from other underwriters and selling group members who sold those shares as part of the offering.

Similar to other purchase transactions, an underwriter’s purchases to cover the syndicate short sales or to stabilize the market price of our securities may have the effect of raising or maintaining the market price of our securities or preventing or mitigating a decline in the market price of our securities. As a result, the price of the securities may be higher than the price that might otherwise exist in the open market. The imposition of a penalty bid might also have an effect on the price of shares if it discourages re-sales of the securities.

If commenced, the underwriters may discontinue any of the activities at any time.

In compliance with guidelines of the Financial Industry Regulatory Authority, or FINRA, the maximum consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement.
