**Arden Realty, Inc.
Notes to Consolidated Condensed Financial Statements
September 30, 2003
(unaudited)**

1. Description of Business

The terms Arden Realty, us, we and our as used in this report refer to Arden Realty, Inc. Through our controlling interest in Arden Realty Limited Partnership, or the Operating Partnership, and our other subsidiaries, we own, manage, lease, develop, renovate and acquire commercial office properties located in Southern California. As of September 30, 2003, our portfolio was comprised of 131 primarily suburban office properties, consisting of 217 buildings with approximately 18.9 million net rentable square feet including one development project with approximately 283,000 net rentable square feet currently under lease-up. As of September 30, 2003, excluding the development project which was 9% occupied, our portfolio was 89.9% occupied.

The minority interests at September 30, 2003 consist of limited partnership interests in the Operating Partnership of approximately 2.6%, exclusive of ownership interests of the Operating Partnership's preferred unit holders.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements include the accounts of Arden Realty, Inc., the Operating Partnership, and our subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

We consolidate all entities for which we have controlling financial interest as measured by a majority of the voting interest. For entities in which the controlling financial interest is not clearly indicated by ownership of a majority of the voting interest, we would consolidate those entities that we control by agreement. We also consolidate all variable interest entities for which we are the primary beneficiary.

Except for minority interests in the Operating Partnership, Arden Realty and the Operating Partnership currently own 100% of all of our consolidated subsidiaries and do not have any unconsolidated investments other than an investment in the securities of a non-publicly traded company. This investment represents approximately 5.5% of the total equity outstanding for this particular company. Because we do not control this company contractually nor exert significant influence over its operating and financial policies, we account for this investment under the cost method of accounting.

Interim Financial Data

The accompanying consolidated condensed financial statements should be read in conjunction with our 2002 Annual Report on Form 10-K as filed with the Securities and Exchange Commission. The accompanying financial information reflects all adjustments, which are, in our opinion, of a normal recurring nature and necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods. Interim results of operations are not necessarily indicative of the results to be expected for the full year.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

3. New Accounting Standards

In January 2003, FASB issued FASB Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46). FIN 46 clarifies the application of Accounting Research Bulletin No. 51, Consolidated Financial Statements and provides guidance on the identification of entities for which control is achieved through means other than through voting rights and how to determine when and which business enterprise should consolidate such an entity. This new model for consolidation applies to an entity for which either the equity investors do not have a controlling financial interest or an entity for which the equity investment at risk is insufficient to finance that entity's activities without receiving additional subordinated financial support from other parties. Our adoption of this statement in 2003 did not have an impact on our consolidated financial statements.

Edgar Filing: ARDEN REALTY INC - Form 10-Q

In May 2003, the FASB issued FASB Statement No. 150 (SFAS 150), Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. SFAS 150 affects an issuer's accounting for certain types of freestanding financial instruments. In addition to its requirements for the classification and measurement of financial instruments in its scope, SFAS 150 also requires disclosures about alternative ways of settling the instruments and capital structure of entities, all of whose shares are mandatorily redeemable. We adopted SFAS 150 in the third quarter of 2003 other than as SFAS 150 applies to noncontrolling interests that are classified as equity under SFAS 150 in the financial statements of the subsidiary which has been deferred indefinitely and its adoption did not have an impact on our consolidated financial statements.

4. Property Dispositions

On March 11, 2003, we sold an approximate 140,000 square foot office property located in West Hollywood, California for a gross sales price of approximately \$32.5 million.

On April 11, 2003, we sold four properties totaling approximately 343,000 square feet located in Riverside and San Bernardino counties for a gross sales price of approximately \$43.4 million.

Edgar Filing: ARDEN REALTY INC - Form 10-Q

Table of Contents

On May 22, 2003, we sold an approximate 33,000 square foot office property located in Orange County for a gross sales price of approximately \$5.0 million.

On October 28, 2003, we sold an approximate 21,000 square foot office property located in Simi Valley, California for a gross sale price of approximately \$3.6 million.

The net proceeds from these dispositions were used to reduce the outstanding balance on our Wells Fargo unsecured line of credit.

5. Outstanding Indebtedness

A summary of our outstanding indebtedness as of September 30, 2003 and December 31, 2002 is as follows:

Type of Debt	September 30, 2003	December 30, 2002	Stated Annual Interest Rate at September 30, 2003	Rate Fixed/Floating	Number of Properties Securing Loan	Maturity

(1) Requires monthly payments of interest only, with outstanding principal balance due upon maturity.

(2) Requires monthly payments of principal and interest.(3) Both mortgage loans are secured by the Conejo Business Center property.(4) This line of credit also has an annual 20 basis points facility fee on the entire \$310 million commitment amount.(5) In 2002, we entered into interest rate swap agreements that fixed the interest rate on \$50 million of the outstanding balance on this line of credit at 4.06% through April 2006.(6) In 2002, we entered into interest rate swap agreements that fixed the interest rate on the entire balance of this loan at 3.64% in 2003, 4.18% in 2004, 4.75% in 2005 and 4.90% in 2006.(7) Requires semi-annual interest payments only, with principal

balance due
upon
maturity.

7

Table of Contents

6. Interest Rate Swap Agreements

We have entered into interest rate swap agreements to effectively convert floating rate debt into fixed rate debt, to convert fixed rate debt to floating rate debt and to lock the current Treasury rate in anticipation of future debt issuances. Net amounts received or paid under these agreements are recognized as an adjustment to interest expense when such amounts are incurred or earned. Our objective in using interest rate swap agreements is to manage our exposure to interest rate movements.

During 2002, such agreements were used to fix the floating interest rate associated with \$50 million of the Wells Fargo unsecured line of credit and the entire \$125 million balance of the unsecured term loan. Since June of 2003, we have also entered into \$150 million of forward-starting swaps that effectively fixed the 10-year Treasury rate at an average rate of approximately 4.1% for borrowings that are anticipated to occur in 2004 to refinance some of our scheduled debt maturities. The forward-starting interest rate swaps were entered into at current market rates and, therefore, had no initial cost.

In October and November of 2003, we also entered into reverse interest rate swap agreements to float \$100 million of the fixed interest rate associated with the 7.00% senior unsecured notes due in November of 2007. Under these reverse swaps, we will receive interest at a fixed rate of 7.00% and pay interest at a variable rate averaging six-month LIBOR in arrears plus 3.10%. The interest rate swaps mature at the same time the notes are due. These swaps qualify as fair value hedges for accounting purposes. Net semi-annual interest payments will be recognized as increases or decreases in interest expense. The fair value of the interest rate swaps will be recognized on our balance sheet and the carrying value of the senior unsecured notes will be increased or decreased by an offsetting amount.

Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133), as amended and interpreted, establishes accounting and reporting standards for derivative instruments and for hedging activities. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

For derivatives designated as fair value hedges, changes in the fair value of the derivative and the hedged item related to the hedged risk are recognized in earnings. For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (loss), outside of earnings and subsequently recognized to earnings when the hedged transaction affects earnings.

Under SFAS 133, our \$175 million in floating-to-fixed swaps and our \$150 million in forward-starting swaps outstanding as of September 30, 2003 are classified as cash flow hedges with their fair value of approximately \$3.8 million reported in accumulated other comprehensive loss on our balance sheet. The estimated fair value of these interest rate swap agreements are dependent on changes in market interest rates and other market factors that affect the value of such agreements. Consequently, the estimated current fair value may significantly change during the term of the agreements. Any estimated gain or loss from these agreements will be amortized into earnings as we recognize the interest expense for the underlying floating-rate loans at the fixed interest rate provided under our agreements in the case of the fixed-to-floating swaps or as part of interest expense for future borrowings in the case of the forward starting swaps. If the underlying debt related to these swaps were to be repaid prior to maturity, we would recognize into interest expense any unamortized gain or loss at the time of such early repayment.

7. Stockholders' Equity and Minority Interests

A common Operating Partnership unit, or common OP Unit, and a share of our common stock have essentially the same economic characteristics as they share equally in the total net income or loss and distributions of the Operating Partnership. A common OP Unit may be redeemed for cash or, at the election of the Operating Partnership, for shares of our common stock on a one-for-one basis.

Our minority interest balance includes \$50 million of 8 5/8% Series B Cumulative Redeemable Preferred Operating Partnership Units, or Preferred OP Units. These Preferred OP Units were issued in September of 1999, are callable by us after five years and are exchangeable after ten years by the holder into our 8 5/8% Series B Cumulative Redeemable Preferred Stock, on a one-for-one basis. The Preferred OP Units and Series B Cumulative Redeemable Preferred Stock have no stated maturity or mandatory redemption and are subordinate to all debt.

On September 16, 2003, we declared a quarterly dividend of \$0.505 per share to stockholders of record on September 30, 2003.

Table of Contents

8. Revenue from Rental Operations and Property Expenses

Revenue from rental operations and property expenses for properties held for use are summarized as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002

	<u>\$ 69,603</u>	<u>\$ 66,072</u>	<u>\$ 209,116</u>	<u>\$ 202,503</u>

9. Stock Option Plan

Beginning on January 1, 2003, we adopted the provisions of SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure under which we began expensing the costs of new stock options granted to employees in 2003 in accordance with SFAS No. 123, Accounting for Stock-Based Compensation. We used the Black-Scholes option valuation model to estimate the fair value of the stock options granted in 2003. During the three and nine months ended September 30 2003, we expensed approximately \$8,000 and \$24,000, respectively, of stock option based employee compensation costs.

The following table reflects pro forma net income and earnings per share had we elected to expense all options granted prior to 2003 assuming the fair value method and using the Black-Scholes option valuation model (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,

Table of Contents

11. Commitments and Contingencies

We are presently subject to various lawsuits, claims and proceedings arising in the ordinary course of business none of which if determined unfavorably to us is expected to have a material adverse effect on our cash flows, financial condition or results of operations. There were no material changes in our legal proceedings during the three and nine months ended September 30, 2003.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion relates to our unaudited consolidated financial statements included herein, which should be read in conjunction with the financial statements and related notes thereto included elsewhere in this Form 10-Q and in our 2002 Annual Report on Form 10-K.

We are a self-administered and self-managed real estate investment trust that owns, manages, leases, develops, renovates and acquires commercial properties located in Southern California. We are managed by 7 senior executive officers who have experience in the real estate industry ranging from 12 to 34 years and who collectively have an average of 18 years experience. We perform all property and development management, accounting, finance and acquisition/disposition activities and a majority of our leasing transactions with our staff of approximately 300 employees.

As of September 30, 2003, we were Southern California's largest publicly traded office landlord as measured by total net rentable square feet owned. As of that date, our portfolio was comprised of 131 primarily suburban office properties, consisting of 217 buildings with approximately 18.9 million net rentable square feet, including one development project with approximately 283,000 net rentable square feet currently under lease-up. As of September 30, 2003, excluding the development project which was 9% occupied, our portfolio was 89.9% occupied.

Business Strategy

Our primary business strategy is to actively manage our portfolio to seek to achieve gains in rental rates and occupancy, control operating expenses and to maximize income from ancillary operations and services. When market conditions permit, we may also selectively develop, renovate or acquire new properties that add value and fit strategically into our portfolio. We may also sell existing properties and redeploy the proceeds into investments we believe will generate higher long-term value.

We continue to seek to build a tenant base of smaller, diverse companies that limits our exposure to any single tenant or industry. Smaller tenants typically translate into shorter-term leases. Shorter-term leases provide greater opportunity for renewing a substantial portion of our portfolio at higher rental rates each year during strong markets, but create challenges to maintain occupancy and rates when markets weaken. The average term of our leases is 4 to 5 years, resulting in approximately 15% to 20% of our leases expiring annually.

We closely monitor our operating expenses and capital expenditures to sustain or improve operating margins and dividend coverage. We may defer discretionary capital expenditures until market conditions improve.

Current Economic Climate

Our short and long-term liquidity, ability to refinance existing indebtedness, ability to issue long-term debt and equity securities at favorable rates and our dividend policy are significantly impacted by the operating results of our properties, all of which are located in Southern California. Our ability to lease available space and increase rates when leases expire is largely dependent on the demand for office space in the markets where our properties are located. We believe current uncertainty over the national and Southern California economic environment is exerting downward pressures on the demand for Southern California commercial office space. We are experiencing continued downward pressures on occupancy and rental rates and upward pressure on leasing costs due to several factors including the following:

Job growth in Southern California, which we believe to be a leading indicator of office demand in the region, was negative in 2002 as well as in the first nine months of 2003 and is largely dependent on improved economic activity;

Occupancy and rental rates have decreased in recent months and are expected to decrease further in the coming months due to the state of the local economy and competition from other office landlords;

Tenant concessions for new and renewal leases have increased in some submarkets in recent months;

Some tenants are under-utilizing their existing space and can therefore expand internally before they need new space;

Sublease space is impacting vacancy and rental rates in some submarkets; and

Over-building has increased vacancy rates in some submarkets.

Edgar Filing: ARDEN REALTY INC - Form 10-Q

These factors have contributed to a decrease in the occupancy of our portfolio from 90.1% as of December 31, 2002 to 89.9% as of September 30, 2003.

According to published reports, overall market rental rates in Southern California declined 0.4 to 0.5% during the three months ended September 30, 2003. Given the current trends, including the expected continued occupancy pressures and more aggressive pricing from competing office landlords and sublease space, we expect market rates will decline by an additional 2 to 3% through the first six months of 2004. Concessions also rose during the three months ended September 30, 2003. As occupancy pressures continue, we expect concessions in either free or reduced initial rents or higher tenant improvement allowances to rise.

The timing and extent of future changes in the national and local economy and their effects on our properties and results of operations are difficult to accurately predict. It is possible, however, that these national and regional issues may more directly affect us and our operating results in the future, making it more difficult for us to lease and renew available space, to increase or maintain rental rates as leases expire and to collect amounts due from our tenants. For additional information, see Risk Factors Further declines in the

Table of Contents

economic activity of Southern California will adversely affect our operating results, The financial condition and solvency of our tenants may reduce our cash flow, and Rising energy costs and power outages in California may have an adverse effect on our operations and revenue, in our 2002 Annual Report on Form 10-K.

Critical Accounting Policies

Refer to our 2002 Annual Report on form 10-K for a discussion of our critical accounting policies which include, among other things, revenue recognition, allowance for doubtful accounts and depreciation. There have been no material changes to these policies in 2003.

Table of Contents

RESULTS OF OPERATIONS

Our financial position and operating results primarily relate to our portfolio of commercial properties and income derived from those properties. Therefore, the comparability of financial data from period to period will be affected by the timing of property developments, acquisitions and dispositions.

- (1) Property Operating Results is commonly used by investors to evaluate the performance of REITs, to determine trends in earnings and to compute the fair value of properties as it is not affected by (1) the cost of funds of the property owner or (2) the impact of depreciation and amortization expenses as well as gains or losses from the sale of operating real estate assets that are included in net income computed in accordance with Generally Accepted Accounting Principles, or GAAP. The first factor is commonly eliminated from net income because it is specific to the particular financing capabilities and constraints of the owner. The second factor is commonly eliminated because it may not accurately represent the actual change in value in real estate properties that results from use or changes in market conditions. We believe that eliminating these costs from net income gives investors an additional measure of operating performance that, when used as an adjunct to net income computed in accordance with GAAP, can be a useful measure of our operating results.

(2) Consists of non-development properties classified as part of continuing operations and owned for the entirety of the periods presented.

VARIANCES FOR RESULTS OF OPERATIONS

Our results of operations for the three months ended September 30, 2003 compared to the same period in 2002 were primarily affected by our acquisitions, dispositions and development activities since July 1, 2002.

As a result of these changes within our portfolio of properties since July 1, 2002, we do not believe the Property Operating Results presented above are comparable from period to period. Therefore, in the table above, we have also presented the Property Operating Results for our same store portfolio.

Revenue from Rental Operations

The increase in revenue from rental operations for the total portfolio was primarily due to the 803,000 square feet in acquisitions we made in August of 2002, consisting of four properties in San Diego County and one property in Los Angeles County, the placement in service of the 6080 Center Drive development project at the Howard Hughes Center in the fourth quarter of 2002 and a change in our method of estimating tenant reimbursements in 2003 to adjust for quarterly seasonality variations associated with recoverable operating expenses.

The increase in revenue from rental operations for the same store portfolio was primarily due to an approximate \$1.7 million increase in cash rents, a \$600,000 increase in tenant reimbursements and a \$300,000 increase in parking income, all of which were partially offset by a \$600,000

Edgar Filing: ARDEN REALTY INC - Form 10-Q

decrease in other rental operations and a \$400,000 decrease in straight-line rents. The increase in cash rents was primarily related to scheduled rent increases in existing leases that were partially offset by the 0.2% decrease in average occupancy for these properties. The increase in tenant reimbursements was primarily due to increases in operating expenses, as discussed below. The increase in parking income is primarily due to an increase in demand for monthly parking spaces in 2003 in some of our buildings. Other rental operations decreased primarily due to lower lease termination fees in 2003 while straight-line rents decreased primarily due to the scheduled reversal of straight-line rents for certain older leases in the same store portfolio.

Property Expenses

The increase in property expenses for the total portfolio was primarily due to the five properties acquired and the one development property placed in service subsequent to July 1, 2002 described above.

The increase in property expenses for the same store portfolio was primarily due to an approximate \$1.0 million increase in repairs and maintenance, a \$500,000 increase in property administrative expense and a \$300,000 increase in utilities expense, all of which were partially offset by an approximate \$400,000 decrease in real estate taxes. Repairs and maintenance increased primarily due to higher contractual costs for janitorial and other contract services as well as the timing of certain projects. Property administrative expense increased primarily due to higher personnel costs from annual merit increases and higher property legal costs while utilities expense increased due to higher usage in 2003. Real estate taxes decreased due to the timing of final reassessments of some properties in 2002.

General and Administrative

General and administrative expenses as a percentage of total revenues were approximately 4.4% for the three months ended September 30, 2003 as compared to approximately 3.2% for the same period in 2002. The \$1.4 million increase in general and administrative expenses was primarily related to higher personnel costs as a result of employee separation costs incurred in the current period and non-cash compensation expense associated with annual restricted stock grants issued in 2003 as well as higher corporate governance costs in 2003.

Interest Expense

Interest expense increased approximately \$1.6 million, or 7%, during the three months ended September 30, 2003 as compared to the same period in 2002. This increase was primarily due to increases in borrowings in 2002 for property acquisitions and lower capitalized interest in 2003. Capitalized interest was lower in 2003 as we stopped capitalizing interest on our 6100 Center Drive development property in May 2003. The increases in interest expense were partially offset by lower effective interest rates in 2003.

Table of Contents

Depreciation and Amortization

Depreciation and amortization expense increased by approximately \$4.2 million, or 16%, during the three months ended September 30, 2003 as compared to the same period in 2002, primarily due to depreciation related to five properties acquired in August 2002, the placement in service of our 6080 Center Drive development property in the fourth quarter of 2002 and depreciation related to capital expenditures, tenant improvements and leasing commissions placed in service subsequent to the second quarter of 2002.

Interest and Other Income

Interest and other income decreased by approximately \$400,000 for the three months ended September 30, 2003 as compared to the same period in 2002, primarily due to the repayment by the borrower of a \$13.7 million mortgage note receivable in the fourth quarter of 2002.

(2) Consists of non-development properties classified as part of continuing operations and owned for the entirety of the periods presented.

VARIANCES FOR RESULTS OF OPERATIONS

Our results of operations for the nine months ended September 30, 2003 compared to the same period in 2002 were primarily affected by our acquisitions, dispositions and development activities since January 1, 2002. In addition, our Property Operating Results from period to period were affected by our implementation of SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144), which resulted in the classification of the operating results of some of the properties sold since January 1, 2002 into discontinued operations.

As a result of these changes within our portfolio of properties since the beginning of 2002, we do not believe the Property Operating Results presented above are comparable from period to period. Therefore, in the table above, we have also presented the Property Operating Results for our same store portfolio.

Revenue from Rental Operations

The increase in revenue from rental operations for the total portfolio was primarily due to the 803,000 square feet in acquisitions we made in August of 2002, consisting of four properties in San Diego County and one property in Los Angeles County and the placement in service of the 6080 Center Drive development project at the Howard Hughes Center in the fourth quarter of 2002, partially offset by a change in our method of estimating tenant reimbursements in 2003 to adjust for quarterly seasonality variations associated with recoverable operating expenses and the sale of a 64,000 square foot property in March 2002, a 61,000 square foot property in April 2002 and an 80,000 square foot property in May 2002, all of which were located in Los Angeles County and which, during the transition into SFAS 144, were not classified as discontinued operations.

The increase in revenue from rental operations for the same store portfolio was primarily due to an approximate \$4.0 million increase in cash rents, a \$2.6 million increase in tenant reimbursements and a \$700,000 increase in parking income, all of which were partially offset by an approximate \$2.9 million decrease in straight-line rents. The increase in cash rents was primarily related to scheduled rent increases in existing leases that were partially offset by the 1.0% decrease in average occupancy for these properties. The increase in tenant reimbursements was primarily due to increases in operating expenses, as discussed below. The increase in parking income was primarily due to an increase in demand for monthly parking in 2003 in some of our buildings. Straight-line rents decreased primarily due to the decline in occupancy and the scheduled reversal of straight-line rents for certain older leases in the same store portfolio.

Property Expenses

The increase in property expenses for the total portfolio was primarily due to the five properties acquired and the one development property placed in service subsequent to January 1, 2002 described above that were partially offset by the three properties sold that were not classified as

discontinued operations in 2002.

The increase in property expenses for the same store portfolio was primarily due to an approximate \$2.8 million increase in repairs and maintenance, a \$1.8 million increase in property administrative expense, a \$500,000 increase in utilities expense and a \$400,000 increase in insurance costs, all of which were partially offset by a \$800,000 decrease in real estate taxes. Repairs and maintenance increased primarily due to higher contractual costs for janitorial and other contract services as well as the timing of certain projects. Property administrative expense increased primarily due to higher personnel costs from annual merit increases, higher property legal expenses and costs associated with training programs implemented in 2003. Utilities expense increased due to higher usage in 2003. Insurance costs increased due to increases in industry-wide rates and premiums related to a terrorism insurance policy entered into in the second quarter of 2002. Real estate taxes decreased due to the timing of final reassessments of some properties in 2002.

General and Administrative

General and administrative expenses as a percentage of total revenues were approximately 3.9% for the nine months ended September 30, 2003 as compared to approximately 3.0% for the same period in 2002. The approximate \$3.3 million increase in general and administrative expenses was primarily related to higher personnel costs as a result of employee separation costs incurred in the current period, non-cash compensation expense associated with annual restricted stock grants issued in 2003 and annual merit increases as well as higher corporate governance costs in 2003.

Table of Contents

Interest Expense

Interest expense increased approximately \$4.9 million, or 7%, during the nine months ended September 30, 2003 as compared to the same period in 2002. This increase was primarily due to increases in borrowings in 2002 for property acquisitions and lower capitalized interest in 2003. Capitalized interest was lower in 2003 as we stopped capitalizing interest on our 6080 Center Drive development property in May 2002 and our 6100 Center Drive development property in May 2003. The increases in interest expense were partially offset by lower effective interest rates in 2003.

Depreciation and Amortization

Depreciation and amortization expense increased by approximately \$9.5 million, or 12%, during the nine months ended September 30, 2003 as compared to the same period in 2002, primarily due to depreciation related to five properties acquired in August 2002, the placement in service of our 6080 Center Drive development property in the fourth quarter of 2002 and depreciation related to capital expenditures, tenant improvements and leasing commissions placed in service subsequent to January 1, 2002.

Interest and Other Income

Interest and other income decreased by approximately \$945,000 for the nine months ended September 30, 2003 as compared to the same period in 2002, primarily due to the repayment by the borrower of a \$13.7 million mortgage note receivable in the fourth quarter of 2002 and lower effective interest rates in 2003.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

Cash provided by operating activities decreased by approximately \$12.2 million to \$141.4 million for the nine months ended September 30, 2003 as compared to \$153.6 million for the same period in 2002. This decrease was primarily due to a \$6.7 million reduction in our outstanding trade receivable balance during the first nine months of 2002 as a result of collection efforts instituted in 2002 and increases in trade payables in 2002 as a result of timing of payments.

Cash provided by investing activities increased by approximately \$215.3 million to an inflow of \$16.9 million for the nine months ended September 30, 2003 as compared to an outflow of \$198.4 million for the same period in 2002. This increase was primarily due to the acquisition of five properties in the third quarter of 2002, the proceeds of one property sold in the first quarter of 2003, five properties sold in the second quarter of 2003 and from lower development costs in 2003.

Cash used in financing activities increased by approximately \$158.1 million to an outflow of \$144.1 million for the nine months ended September 30, 2003 as compared to an inflow \$14.0 million for the same period in 2002. This increase was primarily due to the proceeds from our term loan in the third quarter of 2002 and higher net repayments in 2003 on our unsecured lines of credit from proceeds generated from our capital recycling program.

Available Borrowings, Cash Balance and Capital Resources

Our Operating Partnership has an unsecured line of credit with a total commitment of \$10 million from City National Bank. This line of credit accrues interest at the City National Bank Prime Rate less 0.875% and is scheduled to mature on August 1, 2004. Proceeds from this line of credit are used, among other things, to provide funds for tenant improvements and capital expenditures and provide for working capital and other corporate purposes. As of September 30, 2003, there was no outstanding balance on this line of credit and \$10 million was available for additional borrowings.

Our Operating Partnership also has an unsecured line of credit with a group of banks led by Wells Fargo. This line of credit provides for borrowings up to \$310 million with an option to increase the amount to \$350 million and bears interest at a rate ranging between LIBOR + 0.80% and LIBOR + 1.25% (including an annual facility fee ranging from 0.15% to 0.40% based on the aggregate amount of the line of credit) depending on the Operating Partnership's unsecured debt rating. This line of credit matures in April 2006. In addition, as long as the Operating Partnership maintains an unsecured debt rating of BBB-/Baa3 or better, the agreement contains a competitive bid option, whereby the lenders may bid on the interest rate to be charged for up to \$150 million of the unsecured line of credit. The Operating Partnership also has the option to convert the interest rate on this line of credit to the higher of Wells Fargo's prime rate or the Federal Funds rate plus 0.5%. As of September 30, 2003, \$150.0 million was outstanding on this line of credit and \$160.0 million was available for additional borrowings.

Edgar Filing: ARDEN REALTY INC - Form 10-Q

As of September 30, 2003, we had approximately \$41.9 million in cash and cash equivalents, including \$23.6 million in restricted cash. Restricted cash consisted of \$13.7 million in interest bearing cash deposits required by five of our mortgage loans payable and \$9.9 million in cash impound accounts for real estate taxes and insurance as required by several of our mortgage loans payable.

We have entered into \$150 million of forward-starting swaps during 2003 to effectively fix the 10-year Treasury rate at an average rate of approximately 4.1% for borrowings that are anticipated to occur in 2004 to refinance some of our scheduled debt maturities. The forward-starting interest rate swaps were entered into at current market rates and, therefore, had no initial cost.

In October and November of 2003, we also entered into reverse interest rate swap agreements to float \$100 million of the fixed interest rate associated with the 7.00% senior unsecured notes due in November of 2007. Under these reverse swaps, we will receive interest at a fixed rate of 7.00% and pay interest at a variable rate averaging six-month LIBOR in arrears plus 3.10%. These interest rate swaps mature at the same time the notes are due. Including these swaps, our current floating-rate debt ratio is approximately 16%.

Table of Contents

We expect to continue meeting our short-term liquidity and capital requirements generally through net cash provided by operating activities and proceeds from our unsecured lines of credit. We believe the foregoing sources of liquidity will be sufficient to fund our short-term liquidity needs over the next twelve months, including recurring non-revenue enhancing capital expenditures, tenant improvements and leasing commissions.

We expect to meet our long-term liquidity and capital requirements such as scheduled principal repayments, development costs, property acquisitions, if any, and other non-recurring capital expenditures through net cash provided by operations, refinancing of existing indebtedness and the issuance of long-term debt and equity securities.

Table of Contents

Capital Recycling Program

On March 11, 2003, we sold an approximate 140,000 square foot office property located in West Hollywood, California for a gross sales price of approximately \$32.5 million.

On April 11, 2003, we sold four properties totaling approximately 343,000 square feet located in Riverside and San Bernardino counties for a gross sales price of approximately \$43.4 million.

On May 22, 2003, we sold an approximate 33,000 square foot office property located in Orange County for a gross sales price of approximately \$5.0 million.

The net proceeds from these dispositions were used to reduce the outstanding balance on our Wells Fargo unsecured line of credit.

Debt Summary

Following is a summary of scheduled principal payments for our total debt outstanding as of September 30, 2003 (in thousands):

Year	Amount
2003	\$ 2,005
2004	182,062
2005	207,678
2006	290,063 ⁽¹⁾
2007	158,681
2008	230,305
2009	111,980
2010	150,565
2011	710
2012	768
Thereafter	5,445
Total	\$ 1,340,262

(1) Includes \$150 million outstanding on our Wells Fargo unsecured line of credit.

Following is certain other information related to our outstanding indebtedness as of September 30, 2003:

Unsecured and Secured Debt:

	Balance	Percent	Weighted Average Interest Rate(1)	Weighted Average Maturity (in years)
	(000's)			
Unsecured Debt	\$ 773,350	58%	6.86%	3.4
Secured Debt	566,912	42	7.36	3.8
Total Debt	\$ 1,340,262	100%	7.07%	3.6

Floating and Fixed Rate Debt:

Edgar Filing: ARDEN REALTY INC - Form 10-Q

	Balance	Percent	Weighted Average Interest Rate(1)	Weighted Average Maturity (in years)
	(000's)			
Floating Rate Debt	\$ 100,000	8%	3.49%	2.5
Fixed Debt ⁽²⁾	1,240,262	92	7.36	3.9
Total Debt	\$ 1,340,262	100%	7.07%	3.6

(1) Includes amortization of prepaid financing costs.

(2) Includes \$175 million of floating rate debt that has been fixed through interest rate swap agreements.

Total interest incurred and the amount capitalized was as follows (unaudited and in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
Total interest incurred	\$ 24,129	\$ 23,651	\$ 72,568	\$ 69,749
Amount capitalized	(176)	(1,248)	(2,326)	(4,365)
Amount expensed	\$ 23,953	\$ 22,403	\$ 70,242	\$ 65,384

Table of Contents**Senior Unsecured Notes Covenant Compliance Ratios**

The following table summarizes our senior unsecured notes covenant compliance ratios as of September 30, 2003 (in thousands, except percentage and covenant ratio data):

Net investment in real estate	\$2,638,358
Cash and cash equivalents	18,292
Restricted Cash	23,550

	<hr/>
Debt Service ⁽²⁾	\$ 100,907
	<hr/>

Covenant Ratios	Test	Actual
Total Outstanding Debt/Total Assets	Less than 60%	43%
Secured Debt/Total Assets	Less than 40%	18%
EBITDA to Debt Service	Greater than 1.5	2.7
Unencumbered Assets/Unsecured Debt	Greater than 150%	230%

- (1) Earnings before interest, taxes, depreciation and amortization, or EBITDA, is a non-GAAP measurement. EBITDA is presented because we use this data and we believe this data is also used by investors as an indication of our ability to meet our debt service requirements. We consider that EBITDA, when combined with other measures, can be a useful measure to determine our ability to service debt and fund future capital expenditure requirements. However, due to the significance of the net income components excluded from EBITDA, it should not be considered an alternative to net income, cash flow from operations, or any other operating or liquidity performance measure prescribed by GAAP.

Because
interest
expense,
taxes, gains
or losses on
sales of
property,
losses on
valuations of
derivatives,
asset

impairment losses, cumulative effect of a change in accounting principle, extraordinary items as defined by GAAP and depreciation and amortization costs, which are not reflected in EBITDA, have been, will be or may be incurred by us, investors are cautioned to reflect our ability to finance our investments at competitive borrowing costs, successfully maintain our REIT status, acquire and dispose of real estate properties at favorable prices to us and also reflect changes in value in our properties that result from use or changes in market conditions and the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties. We present the

ratio of
EBITDA to
interest
expense and
the ratio of
EBITDA to
fixed charges
because these
ratios are
used in
several
financial
covenants
contained in
our principal
loan
agreements.
We are
required to
satisfy these
financial
covenants
each fiscal
quarter. We
believe this
information is
useful to
investors
because
investors can
use this data
to (1) confirm
that we are in
compliance
with the ratio
covenants of
our principal
loan
agreements,
(2) evaluate
our ability to
service our
debt,
(3) evaluate
our ability to
fund future
capital
expenditures,
and
(4) compare
our ratios to
other real
estate
companies
that present
similar ratios,
including
other REITs.
These ratios
should not be
considered as
alternatives to

the ratio of earnings to fixed charges. The reader is cautioned that EBITDA, as calculated by us, may not be comparable to EBITDA as reported by other companies that do not define EBITDA exactly the same as we do.

We calculate EBITDA as follows:

	Three Months Ended				
	9/30/03	6/30/03	3/31/03	12/31/02	9/30/02
Income from continuing operations before gain on sale of properties and minority interest	\$ 10,496	\$ 12,978	\$ 14,884	\$ 15,110	\$ 14,502
Add:					
Interest expense	23,953	23,254	23,035	23,132	22,403
Depreciation and amortization	30,578	29,537	28,458	27,126	26,368
Discontinued operations, net of minority interest	1,364	1,295	2,636	1,979	2,035
Minority interest from discontinued operations	36	198	55	54	54
Depreciation from discontinued operations	527	511	1,164	1,436	1,282
EBITDA	\$ 66,954	\$ 67,773	\$ 70,232	\$ 68,837	\$ 66,644

(2) Represent amounts for the most recent four consecutive quarters.

Table of Contents**Funds from Operations**

The following table reflects the calculation of our funds from operations for the three and nine months ended September 30, 2003 and 2002 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
Funds From Operations:⁽¹⁾				
Net income	\$ 10,541	\$ 15,113	\$ 44,882	\$ 53,873
Depreciation and minority interest from discontinued operations	563	1,336	2,491	3,982
Gain on sale of discontinued properties			(5,382)	
Depreciation and amortization	30,578	26,368	88,573	79,056
Minority interest	1,319	1,424	4,153	4,518
Gain on sale of operating properties				(1,273)
Distribution on Preferred Operating Partnership Units	(1,078)	(1,078)	(3,234)	(3,234)
Funds From Operations⁽²⁾	\$41,923	\$43,163	\$ 131,483	\$ 136,922
Weighted average common shares and Operating Partnership units outstanding Diluted	65,740	66,513	65,216	66,452

- (1) We believe that funds from operations, or FFO, is a useful supplemental measure of our operating performance. We compute FFO in accordance with standards established by the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT, in April 2002. The White Paper defines FFO as net income or loss computed in accordance with generally accepted accounting principles, or GAAP, excluding extraordinary items, as defined by GAAP, and gains and losses from sales of depreciable operating property plus real estate-related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

We believe that FFO, by excluding depreciation costs, the gains or losses from the sale of operating real estate properties and the extraordinary items as defined by GAAP, provides an additional perspective on our operating results. However, because these excluded items have a real economic

effect, FFO is a limited measure of performance. FFO captures trends in occupancy rates, rental rates and operating costs. FFO excludes depreciation and amortization costs and it does not capture the changes in value in our properties that result from use or changes in market conditions or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, all of which are significant economic costs. Therefore, its ability to measure performance is limited. Because FFO excludes significant economic components of net income determined in accordance with GAAP, FFO should be used as an adjunct to net income and not as an alternative to net income. FFO should also not be used as an indicator of our financial

performance,
or as a
substitute for
cash flow from
operating
activities
determined in
accordance
with GAAP or
as a measure
of our
liquidity. FFO
is not by itself
indicative of
funds available
to fund our
cash needs,
including our
ability to pay
dividends or
service our
debt. FFO is
used by
investors to
compare our
performance
with other
REITs. Other
REITs may
use different
methods for
calculating
FFO and,
accordingly,
our FFO may
not be
comparable to
other
REITs.(2) Includes
\$572,000 and
\$315,000 in
non-cash
compensation
expense for the
three months
ended
September 30,
2003 and
2002,
respectively
and
\$1.4 million
and \$875,000
in non-cash
compensation
expense for the
nine months
ended
September 30,
2003 and
2002,
respectively.

Table of Contents**Portfolio and Lease Information**

The following tables set forth certain information regarding our properties as of September 30, 2003.

PORTFOLIO SUMMARY

As of September 30, 2003

Location	Number of Properties		Number of Buildings		Approximate Net Rentable (Sq. Ft.)		Property Operating Results ⁽¹⁾

Table of Contents**DEVELOPMENT SUMMARY**

As of September 30, 2003

Property	Square Feet	Costs Incurred To Date (in thousands)	Estimated Total Cost ⁽¹⁾ (in thousands)	Percent Leased at 10/28/03	Shell Completion Date	Estimated Stabilization Date	Estimated Year 1 Stabilized Cash Property Operating Results (in thousands)	Estimated Year 1 Annual Cash Yield	Estimated Year 1 Annual GAAP Yield ⁽²⁾
Howard Hughes Center:									
6100 Center Drive	283,000	\$ 71,659	\$ 81,500	61%	2nd Qtr 2002	4th Qtr 2003	\$ 6,450	7.9%	8.9%

(1) Estimated total cost includes purchase and closing costs, capital expenditures, tenant improvements, leasing commissions and carrying costs during development, as well as an allocation of land and master plan costs. We have entitlements to construct an additional approximately 425,000 net rentable square feet of office space and have two parcels entitled for hotel developments for up to 600 hotel rooms at the Howard Hughes Center.

(2) Estimated Year 1 Annual GAAP Yield includes an adjustment for straight-line rents.

In addition to the property above, we have preliminary architectural designs completed for additional build-to-suit projects at the Howard Hughes Center totaling approximately 425,000 net rentable square feet of office space. We also have construction entitlements at the Howard Hughes Center for up to 600 hotel rooms. Build-to-suit projects consist of properties constructed to the tenant's specifications in return for the tenant's long-term commitment to the property. We do not intend to commence construction on any additional build-to-suit projects at the Howard Hughes Center until development plans and budgets are finalized and build-to-suit tenant leases are signed with terms allowing us to achieve yields commensurate with the project's development risk. In addition to our development at the Howard Hughes Center, we have completed preliminary designs and are marketing an approximate 170,000 square foot build-to-suit office building at our Long Beach Airport Business Park. Also, as part of our Gateway Towers acquisition in August 2002, we acquired a 5-acre developable land parcel in Torrance, California that we intend to market for a build-to-suit office building. We currently do not intend to commence construction on these projects until build-to-suit tenant leases are signed with terms allowing us to achieve yields commensurate with the project's development risk.

We expect to finance our development activities over the next 24 months through net cash provided by operating activities, proceeds from asset sales and proceeds from our unsecured lines of credit.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

Market risk is the exposure or loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. The primary market risk to which we are exposed is interest rate risk, which is sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond our control.

Interest Rate Risk

Edgar Filing: ARDEN REALTY INC - Form 10-Q

In order to modify and manage the interest characteristics of our outstanding debt and limit the effects of interest rates on our operations, we may use a variety of financial instruments, including interest rate swaps, caps, floors and other interest rate exchange contracts. The use of these types of instruments to hedge our exposure to changes in interest rates carries additional risks such as counter-party credit risk. We do not enter into any transactions for speculative or trading purposes. During 2002, we entered into interest rate swap agreements fixing the interest rates on variable debt with notional amounts totaling \$175.0 million. During 2003, we entered into \$150 million of forward-starting swap agreements fixing the 10-year Treasury rate for borrowings that are anticipated to occur in 2004 to refinance some of our scheduled debt maturities. In October and November of 2003, we also entered into reverse interest rate swap agreements to float \$100 million of the fixed interest rate associated with the 7.00% senior unsecured notes due in November 2007.

Some of our future earnings, cash flows and fair values relating to financial instruments are dependent upon prevailing market rates of interest, such as LIBOR. Based on interest rates and outstanding balances as of September 30, 2003, a 1% increase in interest rates on our \$100.0 million of floating rate debt would decrease annual future earnings and cash flows by approximately \$1.0 million and would not have an impact on the fair value of the floating rate debt. Conversely, a 1% decrease in interest rates on our \$100.0 million of floating rate debt would increase annual future earnings and cash flows by approximately \$1.0 million and would not have an impact on the fair value of the floating rate debt. The weighted average interest rate on our floating debt as of September 30, 2003 was 3.49%.

Our fixed rate debt totaled \$1,240.3 million as of September 30, 2003 with a weighted average interest rate of 7.36% and a total fair value of approximately \$1,294.3 million. A 1% decrease in interest rates would increase the fair value of our fixed rate debt by approximately \$36.1 million and would not have an impact on future earnings and cash flows. A 1% increase in interest rates would decrease the fair value of our fixed rate debt by approximately \$33.8 million and would not have an impact on future earnings and cash flows.

These amounts are determined by considering the impact of hypothetical interest rates on our borrowing cost. These analyses do not consider the effects of the reduced level of overall economic activity that could exist in that environment. Further, in the event of a change of this magnitude, we would consider taking actions to further mitigate our exposure to the change. Due to the uncertainty of the specific actions that would be taken and their possible effects, however, this sensitivity analysis assumes no changes in our capital structure.

Table of Contents

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have an investment in an unconsolidated entity. Because we do not control or manage this entity, our disclosure controls and procedures with respect to such an entity are necessarily substantially more limited than those we maintain with respect to our consolidated subsidiaries.

As required by Securities Exchange Act Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the quarter covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Table of Contents

Part II OTHER INFORMATION

Item 1. Legal Proceedings

We are presently subject to various lawsuits, claims and proceedings arising in the ordinary course of business none of which if determined unfavorably to us is expected to have a material adverse effect on our cash flows, financial condition or results of operations. There were no material changes in our legal proceedings during the three months ended September 30, 2003.

Item 2. Changes in Securities

See Item 6(b) below regarding the expiration of the preferred stock purchase rights.

Item 3. Defaults Upon Senior Securities None

Item 4. Submission of Matters to a Vote of Security Holders None

Item 5. Other Information None

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

- 10.46* Second Amended and Restated Agreement of Limited Partnership of Arden Realty Limited Partnership, dated September 7, 1999, filed as an exhibit to Arden Realty's quarterly report on Form 10-Q filed with the Commission on November 15, 1999.
- 10.47* Admission of New Partners and Amendment to Limited Partnership Agreement entered into as of the 20th day of December, 2000, by and between Arden Realty Limited Partnership and the persons identified as the New Partners therein, filed as an exhibit to Arden Realty Limited Partnership's annual report on Form 10-K filed with the Commission on March 30, 2001.
- 10.48* Second Amendment to Limited Partnership Agreement entered into as of September 13, 2003, by Arden Realty Limited Partnership, filed as an exhibit to Arden Realty Limited Partnership's quarterly report on Form 10-Q filed with the Commission on November 13, 2003.
- 31.1 Officers' certifications pursuant to Rule 13a-14(a) or Rule 15d-14(a).
- 32.1 Officers' certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.(1)

(*) Incorporated by reference.

(b) Reports on Form 8-K

On July 1, 2003, we filed a report on Form 8-K (Items 5 and 7) regarding the vote of our Board of Directors to amend our stockholder rights agreement. Under the terms of the amendment, the preferred stock purchase rights issued under the rights agreement expired at the close of business on June 30, 2003, rather than on August 28, 2008, as initially provided under the rights agreement. In addition, the rights agreement terminated upon the expiration of the preferred stock purchase rights.

On July 31, 2003, we filed a report on Form 8-K (Item 12) relating to our financial information for the quarter ended June 30, 2003 as presented in a press release dated July 30, 2003.
